The suit rarely goes to bed at night to rise in the morning, like ordinary mortals. It is usually dawn ere he retires, and at 8 o'clock he is stirring again. He has no confidence in these around him. The volume of gold dollars was discontinued in 1890. Prior to that time nearly \$8,000,000 gold dollars had been coined, and many of them are still in active circulation. The first of them were coined under a law passed in 1839, two days before Zachary Taylor was inaugurated. The \$3 gold pieces, coined between 1833 and 1850, were 77 grains in weight, and there are of them estimated \$1,500,000 worth.

The closing of Robert Hall's bookstore in Washington is one of the capital's landmarks. The store dates back to the early fifties, to the time when the present proprietor then a young clerk, branched out for himself. An order for \$1,000 worth of books, procured through John Sherman's favor, set the store on its feet. Webster, Sumner, Winthrop, Toombs, Alexander Stephens and other anti-slavery statesmen were Hall's frequent customers.

On the western coast of Africa the natives suffer from a fatal malarial fever known as the sleeping disease. The person attacked by it is seized with a sensation of drowsiness which continues to increase in spite of the efforts made to throw it off. Finally the patient sinks into a profound sleep, which continues for about three weeks, until death ensues. The most curious feature of the disease is that apart from the drowsiness the patient seems much as usual.

A BIOGRAPHER of Nansen relates that before he was ten years old he and his friend learned to feel quite at home among the hills and forests of Normandy. He would occasionally disappear for days at a time. When a student of science and curator in the Hervey museum he would all of a sudden start on a solitary expedition which continued over the frozen mountain tops in mid-winter to nourish his spirit on the shores of the midnight sun, the moon, the stars and the darting aurora.

The corpse plant is the name of a remarkable carnivorous specimen that grows in the colony of Natal. Its principal feature is a bell-shaped trough, opening into a hollow stem. It is almost black in color, with a thick, glutinous secretion, while its odor is very offensive. This attracts carbon-foddering insects, which they alight on if they are lost. Their claws become entangled in the secretion, the bell-shaped mouth folds up and they are literally swallowed.

PRINCESS HENRY of Prussia has sent an appeal to every English woman married to a German to wear the Prussian empire. The princess wishes to collect from her fellow-countrywomen a sum of money to buy a handsome present to give to Queen Victoria on the occasion of the close of the sixtieth year of her reign. Hundreds of Englishwomen have responded to the appeal, and the sum collected is likely to be large. More Englishwomen are married to Germans than to members of any other foreign nation.

It is announced that commencing with January 1, 1897, the city of Glasgow Scotland, will begin to levy a tax of any kind. The city authorities have ascertained that from that date the entire expenditure of the city for the future can be borne by incomes received from public works owned by the city. The city owns the street lighting gas and electric light plants water works, sewerage farms, tenement houses and other institutions, all of which are paying large sums into the city treasury.

It is now used on warships for partially heating the boilers. This is one of the most recent departures from the modern method of producing heat in boilers for many years, and if it proves the success anticipated it will probably be used by every nation possessing a fleet of war vessels. The new oil is a product of the distillation of lignite and is dark brown in color, the flame being very bright and absolutely smokeless. Its heating power is declared to be greatly superior to coal, and its cost about the same.

The question whether natural gas is a mineral could not have assumed importance under the tariff act. The question now pending in the United States circuit court of New York grows out of the piping of gas from a point in Ontario across the line into that state. The customs officers held that it was subject to a duty of ten per cent, as a raw or unmanufactured article not otherwise enumerated, while the pipe-line company maintained that as a crude mineral, so-called by any manufacturing process, it was free.

To give only a few of the habits of showing gas was productive of wrinkles, they would be so. Yet it is a very fact, according to the statement of a well-known Philadelphia physician. The incessant action of the gas throws the face out of shape, and must, sooner or later, bring out the wrinkles on the face. The fact to appear are like fine lines, just beneath the eyelids. There is a deep, ugly line begins to take up permanent residence about the corner of the mouth and next in line comes the plumpish cheeks that ever bore a row will soon wrinkle from this habit.

# A YEAR'S HISTORY.

Some of the Leading Events of 1896 Briefly Told.

Legislative Work Not Very Important. The Year Ahead—The Famous Dead—Disasters, Sales, Manners, Etc.

Chicago, Jan. 1.—The year just closed was memorable for good health, for the first time for a continuous period of friendly relations with the world notwithstanding some menacing clouds, for a record of crime, for extraordinary beneficence to colleges, churches, charities, museums, and art galleries, and for a marked decrease in fire losses and disasters.

The legislative history of the country does not contain many points of general interest. In the first session of the fifty-fourth congress the House passed bond and revenue bills, each of which was changed by the senate into a free coinage measure.

The Cuban situation. The state department has been the scene of unusual activity during the year. It has given expression to the sympathies of the people with the Armenians and has vigorously urged the interests of the missionaries and other Americans in Turkey. The Boston revolution was the most important event of the time of the department as well as of congress. Numerous resolutions were offered in the latter body, and early in the year a joint resolution passed both houses recognizing Cuban liberty and requesting the president to use his friendly offices to the effect of calling attention to the request, and issued a proclamation recognizing the independence of the Cuban people.

Executive Appointments. Among the executive appointments of the year were: Justice John A. Harlan, Andrew J. White, Frederic B. Coyle and the record of the year was paid no attention to the request, and issued a proclamation recognizing the independence of the Cuban people.

The Old Year Abroad. Leading Events of 1896 in the Countries of the Old World.

The old year abroad has been marked by many political and military events of importance. The English cabinet has revealed many special features, except the election of John Lubbock as leader, the resignation of Lord Rosebery as liberal leader, and the passage of the bill for the land in March the government decided upon a campaign, however, the campaign itself and the campaign itself in complete success and with comparatively little loss, thus giving Great Britain a record in the permanent occupation of the Sudan.

France made serious objection. The triple alliance, however, has been much less fatal, the total number of deaths in 1896 compared with 1895, at companies and regiments, 7,043, 1896 and 17,110 in 1895.

OTHER EVENTS. The loss of life by battles and massacres is smaller than it was in 1895. The total number of persons who have been killed by accidents, by fire, by lightning, by earthquakes, by floods, by diseases, however, has been much less fatal, the total number of deaths in 1896 compared with 1895, at companies and regiments, 7,043, 1896 and 17,110 in 1895.

# A FATAL CYCLONE.

It Leaves Death and Ruin in Its Path in Louisiana.

Old Town of Mooringsport Almost Entirely Wiped Out—Four Lives Lost—Blizzards Hazing in Western States.

Shreveport, La., Jan. 4.—A cyclone from the southwest struck and almost literally demolished the town of Mooringsport, Louisiana, residents at 3 p. m. Saturday. Over 20 dwellings were blown down, and only seven were left intact. Four were killed and 23 wounded. The dead were Willie, Maurice and an infant, all children of Jesse Goodman, who is also injured by his daughter, Alice, his wife and nephew, Claude. Their home is a wreck. Three of the wounded will probably die.

The cyclone came without warning, and lasted only about one minute. The following houses were destroyed:

- Maintains Demolished.
- W. H. H. Croon, grocery and cotton warehouse destroyed, mill store and residence safe; Iva; George, Fain; Jackson, Fuller's residence, Christian's house, J. M. Young, the oldest railroad director in the world, died in Toledo, O., in his 91st year.

The factory at the Natchezville (O.) Sewer Pipe company was burned, the loss being \$100,000.

The Merchants' national bank closed its doors at Devol, La., N. D., with liabilities of \$25,000.

A landslide at St. Anna Pelago, Italy, wrecked 182 buildings and left hundreds of persons homeless.

The general assembly of Tennessee convened at Nashville for a session to last 75 days.

Justice R. Rothrock, after 30 years of judicial service, has retired from the supreme court of Iowa.

The railroads in the Dakotas and the western part of Minnesota were completely wrecked by a storm.

John H. White, and child were found dead in bed at Struthers, O., having been asphyxiated by gas from a stove.

At Acapulco, Mexico, an earthquake shock destroyed several houses and three persons were injured by falling walls.

The Collinsville (Ill.) zinc works, owned by Mesker Bros., of St. Louis, were damaged by fire to the extent of \$100,000.

The French coasting steamer Deax Freres foundered in the English Channel and her crew of 15 men were drowned.

A fire which started in Lebeck's dry goods store in Nashville, Tenn., destroyed ten buildings, the total loss being \$100,000.

James Sullivan, 68 years old, and Dennis Stover were blown to pieces by the explosion of a dynamite cartridge near the mouth of the Mississippi.

A battle was fought in the Philippine islands at Bulacan, resulting in the defeat of the insurgents, of whom 3,000 were killed. O. A. Spurners, 25 were killed.

# NEW OFFICIALS.

Gov. Scofield, of Wisconsin, Inaugurated at Madison.

He Announces Several Appointments— Idaho Has a New Governor and a Fusion Executive in Montana.

Madison, Wis., Jan. 5.—At high noon Gov. William Henry Upham's administration ended, and the reign of Maj. Edward Scofield commenced. The assembly chamber in the capitol building was crowded to the doors by a multitude of citizens of Madison and visitors from every section of the state.

After music by a band stationed in the gallery the oath of office was administered to the new governor and the governorship of W. H. Upham passed into history.

The other state officers in succession, for the second time, took the oath and short informal receptions were then held.

At night the biennial inaugural ball and reception was given in the great hall of the university gymnasium.

As soon as the inauguration was over a crowd of friends who crowded round to congratulate him after his inauguration Gov. Scofield announced the following appointments:

Adjutant General—Charles R. Boardman, Okla.

Private Secretary and Military Secretary, William J. Anderson, Madison.

Excelsior Adjutant General—William J. Scott, La Crosse.

Excelsior Adjutant General—Allan F. Caldwell.

The appointment of the quartermaster general would not be made for a week.

Idaho's New Governor. Boise, Idaho, Jan. 5.—Gov. Frank C. Steunberger and the other state officers were sworn in shortly before noon Monday without any ceremony of any kind.

Both branches of the legislature met at noon and were organized by the democrats and silver republicans. The latter voted to elect a democratic governor.

The populists, who fused with the democrats in the election, did not get a place. A. Halford, of Lewiston, is speaking.

Montana's Governor. Helena, Mont., Jan. 5.—The legislative assembly of Montana met at noon yesterday. Gov. B. S. Smith (fusion) took the oath of office as governor at ten o'clock.

Died to Avoid Shame. Baltimore, Md., Jan. 5.—Being a defaulter to the extent of perhaps \$100,000 and with disaster staring him in the face, Richard Cornelius, cashier of the National Farmers' and Planters' bank, 200 South street, one of the most substantial institutions of this city, went out to Druid Hill park and drowned himself in the duck pond there.

The police were called to the scene to accomplish his purpose but he died in the water. Cornelius was 68 years of age, had been in the employ of the bank for 22 years and was an exceedingly better reputation.

Omaha Savings Bank Closed. Omaha, Neb., Jan. 5.—The Omaha savings bank closed its doors yesterday morning, and is in the hands of the state banking board. The total liability of the institution has been \$550,000 and \$200,000 of its assets exceed this by \$200,000. The securities are excellent, but little loss can result to depositors. The bank has been in existence since 1854 and has no connection with any other bank and will not cause other Omaha institutions any inconvenience.

Chicago's New Governor. Chicago, Ill., Jan. 5.—The inauguration of the new governor of Illinois, John A. Logan, took place at 10:30 Monday morning, with a grand parade. The new governor is 68 years of age, has been in the employ of the bank for 22 years and was an exceedingly better reputation.

London, Jan. 5.—A Rome dispatch to the Standard reports an immense landslide has occurred in the province of Molise, affecting seven square kilometers. As a result hundreds of persons were killed, 100 buildings having collapsed, so that the occupants are ruined.

Washington, Jan. 5.—The coinage executed at the mints of the United States during December amounted to \$7,017,419. The total amount of gold coined in 1896 amounted to \$189,000,000, an increase of \$5,000,000 over 1895. The product of silver in 1896 was \$3,500,000, the amount a decrease of \$250,000 since that of 1895.

Landslide in Italy. London, Jan. 5.—A Rome dispatch to the Standard reports an immense landslide has occurred in the province of Molise, affecting seven square kilometers. As a result hundreds of persons were killed, 100 buildings having collapsed, so that the occupants are ruined.

Washington, Jan. 5.—The monthly statement issued by the comptroller of the currency shows the amount of national bank notes outstanding at the end of the year to have been \$335,578,831, increase of \$1,874,000, and for the 12 months of \$2,194,308.

Rose Zoldoski Free. Madison, Wis., Jan. 5.—One of Gov. Scofield's appointments, Rose Zoldoski, 10:30 Monday morning, with a grand parade. The new governor is 68 years of age, has been in the employ of the bank for 22 years and was an exceedingly better reputation.

Madison, Wis., Jan. 5.—The monthly statement issued by the comptroller of the currency shows the amount of national bank notes outstanding at the end of the year to have been \$335,578,831, increase of \$1,874,000, and for the 12 months of \$2,194,308.

TOGETHER.

We loved each other long and true—
And at last in April weather,

But whether the sky was dark or bright,
Or fair or foul the weather,

THE AUTHOR OF THE CRIME.

BY CARL SMITH.

WITH an alarm which
did not excite the

"It is very bad weather for one to be
out unless he positively has to,"
the other remarked. "I wish I didn't."

"You got on at Binneton, didn't you?"
inquired the reader.

"Yes, Horrible little town. Stopped
there to do some business, but the
entire population was taken up with
discussion of the murder, so I had to
pull out," disgustedly.

"I thought I saw you at the station,"
the other said, "but I wasn't sure. I
pity you. I pity anyone whose fortune
sends him into a muddy little country
town in stormy weather. That was a
strange murder, wasn't it? I have been
reading of it in the evening paper, and
you know it affected me most wonder-

a dot or a person of intellect? Straight-
away comes the answer—based on at-
tendant facts—why slants out of con-
sideration any but a man of intelli-
gence. It confines the murderer to a very
narrow circle—do you not see? Prob-
ably the people of this world are
more intelligent enough to be
clever in a matter of murder; the other
four-fifths, given a crime for committal-
ion, would do the best, and would
deliberately and unambiguously—would
elude and go away. This crime was not
committed. Consequently a shrewd
and gifted man, the best of his kind. Con-
sequently, also, four-fifths of the number
of men who might otherwise have been
culpated by the fact of their obtuse-
ness. Do you not see how blame is
occupied? As an illustration, let us take
the number 1000. Say one culprit is
among them. Well, if the crime shows
that the work was of a dullard, we
would have to search among the full
thousand; for the intelligent man can
do the work of the clown, but the clown
cannot counterfeit the man of brains.
But, on the other hand, the indications
show that the criminal is a man of high
order of intellect. By the cold, hard
proof of unifying figures we straight-
away strike off 800 from the list of the
blamable, and we have but 200 to in-
vestigate.

"Interesting, but still you may yet
escape. A strange look was on the
face of the match borrower.

"Impossible. Do you not see that the
philosophy which will allow the curial-
ment of figures to some extent. Char-
mentioned will proceed with another
equation and set aside—well, let us say,
150. Then the purrner has but 50 per
cent. to look for where five minutes
before he had 1000. Another simple
process of figures and the 50 is reduced
to 20, the 20 to five—and so on until
you come to the one of all where the
blame lies. Do you see? If I, the murder-
er of Old Winchester, stood at his body,
and in an instant all this flashed be-
fore my mind, why, even I, who I
looked about me, I saw how this de-
tail of preparation for the deed was
going to cut out 18 per cent., and that
other incident, which I had considered
so clever, was absolutely certain to re-
lease 30 per cent. of the possible criminal
population from the diffusion of the
blame. Did they not teach you in
youth that figures cannot lie?"

"The other man looked intently into
the face of the philosopher. He seemed
to attempt to read the strange
thoughts back of those burning eyes.
He did not answer.

"As I stood there," the man with the
newspaper continued, "I foresaw how
horribly I had erred. I saw that the
paper beyond me filled with profane
not of my identity, but proofs that it
was not this man or that, or one of
this set or that, 100 who had slain
Old Winchester. Oh, no, I had

KEEPING A HOLIDAY.

How Shall We Plan to Get from It All the
Good It Can Give?
What is sure to make it a red-letter day?

What is the very best way to spend it?
How shall we plan to get from it all that
it can give? To make the very most of
a single day, a holiday, a day that we
are at liberty to spend as we like, may
be something of a puzzle.

It suggests the question—what do
you care most about doing with all
your time? Time is the stuff of which
life is made, and to be sure of what we
care most to do with it is worth
thinking about.

Most young people, and in fact pretty
much all persons, have some favorite
occupation or study, or both in one,
some special direction, that lies outside of
the daily necessary routine of work.
For those who have ordinarily but little
leisure (and in this busy work-a-day
world this includes the majority), the
indulgence of this private hobby is a
capital use for at least a part of the
holiday. It may lead to important re-
sults or it may not—the thing we are
most eager to do may be a mere amuse-
ment of which we soon tire, or it may be
the thing that we were made to do,
the real serious business of our lives,
which circumstances have occasionally
kept beyond our reach, yet which per-
severance will enable us to achieve.

However that may be, there is no
question about the pleasure of doing
the thing one likes best. It may be
rubbish or history, or football, or wood-
carving, or whatever—it is the thing
which gives us the greatest pleasure,
the very keen satisfaction in following
one's own personal taste. And the
chances are that if you are enough
into something worth while, you will
enjoy it. If too much is made of the
notion of making money. It is well to
remember that there is another kind of
satisfaction in good work, in a certain
kind of employment, done for its own sake.
It does not make much difference what
the work is. Any kind of useful or
beneficial thing done, in the measure
in which the heart is thrown into it,
doing one's very best for the sake of
seeing it well done, is good and satisfy-
ing. Time spent in this way is well
spent.

If there is any such thing as a secret
of happiness, it is surely this—make
others happy. And all good work is
an antidote for selfishness. Not only
that, but it is one of the surest, most
lasting and rightful sources of happi-
ness. To talk about work as the best
play—the best resource—for enjoying
a holiday, seems on the surface a con-
tradiction. But the best play, the best
having, it may be some kind of
activity, and to be really delightful, it
must be something loved. To make the
most of a holiday, then, it is quite fair
to do the very thing that you care for
personally, however unimportant it may
appear to some other.

Something is due to the day itself.
Is it Thanksgiving day? Are you not
more ready to give thanks in sincerity
for material blessings, for abundant
food and rich dress, prosperity in the
shape of money, houses and lands, than
for better culture and richer gains in
building up one's own character and
soul? Yet these are worth more.

Is it Christmas? Do we think of it
as a time of gifts, of merry-making, of
annual gaiety and self-indulgence, or
do we care first for its higher mean-
ing? Do we make it a time of good
will toward all, a time for earnest
thought and generous deeds to pro-
mote the welfare of those whom we love,
first, but also, so far as we may, of all
our human brothers and sisters?

Even on a holiday, and perhaps most
on a holiday, when our time is free from
ordinary claims, a little honest discus-
sion will do us good. Let us set our
eyes and objects to which we can de-
vote a little of our time will not come
amiss.—Country Gentleman.

Old inscriptions and carvings have
shown that there existed in ancient
Persia members of a race of black
skinned men, who possessed features
resembling those of African.

Advantages of Sleep.
In reply to the question: Is it wise
for a man to deny himself and get
along with a few hours' sleep, the
doctor replied: "That is a great
mistake I am convinced. A man has
not so many hours to be awake and
the longer he will live, I believe he
may not live 100 years if he would
sleep most of the time. That is why
young men often live to advanced old age
because they sleep so much. It is the
same with old men. They sleep 14
hours a day; that is why his faculties are
all unimpaired in spite of his great age.
The proper way to economize time is
undoubtedly to sleep every moment that
is unnecessary or desirable that you should
be awake."—Popular Science News.

# NEW YEAR'S RECEPTION

One Day in the Year When the White House Is Crowded.

Great Multitudes Seek Admission, But Only a Few Thousand Can Enter—The Official Part of the Annual Programme.

(Special Washington Letter.)

"The king is dead. Long live the king." Not only in royal circles, but in every walk of life we often find that the funeral bled means do coldly furnish forth the wedding breakfast.

At the very moment, in the twinkling of an eye, just as the old year is

crowding the sidewalks, shrouded and confined, the infant new year is cradled and rocked with the caressing hand of universal mankind

For many generations it has been customary to make New Year's day a holiday for social calls, every friend being expected to remember every friend, but the custom of formally receiving friends on this glad, gay day survives perfectly only in Washington at the present time.

Business never begins in Washington until nine o'clock in the morning, and the higher public functionaries never make their appearance officially until nearly noon.

Everybody goes to the white house. Straight is the gate and broad is the way, but few there be who go in there at, because it is impossible that more than 10,000 people should pass in review before the president, and it is beyond all conceit that the chief magistrate should shake hands with more than 3,000 people, and that every one in the green and the red, there are thousands

Following the legislative or congressional reception, the president and members of the nation on land and on sea march into the presence of the commander in chief of the army and navy.

# WALLS, BADA BILLIONS TO THE APOTHECA.

At least 15,000 people are out on Pennsylvania avenue, crowding the sidewalks the entire length of the white house front, covering up and down the crowded plaza on either side of the cable car tracks, all along the opposite side of the avenue, and extending up and down F (Fourth) and Sixth streets.

Those who enter the white house lobby can barely discern, beyond the posted plants, the red coats of the Marine band. The celebrated musicians are screened there in the foliage, ready to take part in the concert when the signal is given.

Behind the president and his wife are the secretary of state and his wife, and then the members of the cabinet, escorting each other's wives. The husbands lose the order of official precedence on this occasion, but their wives march in the order of rank.

# WOMAN AND HOME.

WOMAN'S RIFLE RECORD. A Chicago Lady Develops Great Skill with the Gun.

While most women are seeking to shine in social positions and to outdo each other in the splendor of their homes, Mrs. Clayton W. Carson, of Chicago, a leader in her set, young, handsome, talented and independent, has chosen, instead of the field of sport, and become a new star in the firmament of rifle shots.

Mrs. Carson is now a most formidable expert, but she did not formulate an acquaintance with the gun until after marriage. Before that event Mrs. Carson had a narrow escape from the clutches of Baltimore life, and did not dream of the beauties of outdoor sports.

PROTECTION FOR THE PURSE. sent-minded also she is then at a double disadvantage. But she does not suffer from either of these inconveniences any longer; she has found a friend in the inventor of the pocket-book protector, a sort of leather bag which is arranged for fastening the pocket-book to her wrist.

**PINE COUNTY PIONEER**

—Found—On the streets of this village one day this week, a brown cloth pocket book, containing articles of value. The owner can have the same by calling at the Central meat market, proving property and paying for this notice.

—Mrs. H. Wiesek of Carlton, stopped over on Saturday, to visit with old time friends and look after her property in this place, while on her way to Taylor Falls. Mrs. Wiesek will be in town to call and renew her subscription to the Pioneer for another year.

—Louis Patrick, of the firm of, Sticha & Petricka, departed on Wednesday for the Twin cities to spend a day or so. Louis may visit at his old home in Montgomery before he returns, he has been here very near a year and has made a large number of friends who hope he will have a pleasant trip.

—Miss Rozella McAdam returned to Minneapolis on Sunday's limited, after spending the holidays with her parents Mr. and Mrs. A. McAdam, who live two miles south of this place. She was accompanied by her cousin Miss Williams, of Minneapolis, who came up to spend a week visiting friends and relatives.

—Liverg man Horton, of Mora, drove over on Tuesday and spent the night in this place. Mr. Horton informed a reporter of this paper that he had commenced the erection of a new barn at the above named place and that as soon as finished he will be prepared to furnish good barn room for those who drive from this place.

—The cards announcing the amount of your personal property tax, are printed and in the hands of the county treasurer. As soon as you receive yours see to it that the tax is paid by March 1st and save the ten per cent that is added. On the 1st day of April next the unpaid tax is placed in the sheriff's hands for collection.

—Station Agent R. E. Burney, of Willow River, and Earnest Doe, a wood buyer of the same place, were county seat callers on Monday, they having been summoned as witnesses in the suit of the St. Paul & Duluth railroad vs. the boys who stole a gun from the train between Willow River and St. Paul while in transit. The case was postponed until Monday the eleventh.

—Persons who are troubled with indigestion will be interested in the experience of Wm. H. Penn, chief clerk in the railway mail service at Des Moines, Iowa, writes: "It gives me pleasure to testify to the merits of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For two years I have suffered from indigestion, and am subject to frequent severe attacks of pain in the stomach and bowels. One or two doses of this remedy never fails to give perfect relief. Price 25 and 50 cents. Sold by J. Y. Breckenridge, Pine City."

—George Keyes, of Minneapolis, came up on Friday last to look after the interests of his wife, whose maiden name was Lina Prevonchee. Mr. Keyes was here two years ago and expressed himself as being surprised at the rapid growth of this place; he thinks that Pine City has a bright future before her. But he thinks the same as every one else who comes here, and that is, with the water power we have so near us and the amount of timber out at hand, we should have some kind of industry that would employ a hundred or so of men.

—A private letter received from Father Rabsteinek, dated Tabor, Bon Homme county, South Dakota, informs us that he had just made the acquaintance of a typical South Dakota blizzard and he does not seem to be at all pleased with his experience with the robust zephyrs of the western wilds. He says the snow drifts in some places are more than twenty feet high, and might be very good for tobogganing, but that mode of locomotion does not suit him, and he is longing for the time when the roads are open, so he can travel back to "happy Minnesota."

—The progressive ladies of Westfield, Ind., issued a "Woman's Edition" of the Westfield News, bearing date April 9, 1906. The paper is filled with matter of interest to women, and we notice the following from a correspondent, which the editors printed, realizing that it treats upon a matter of vital importance to their sex: "The best remedy for croup, colds and bronchitis that I have been able to find is Chamberlain's cough remedy. For family use it has no equal. I gladly recommend it." 25 and 50 cent bottles for sale by J. Y. Breckenridge, Pine City.

—Mrs. Carrie A. Fletcher, the Department President of the Ladies of the G. A. R., will meet the Riverdale Circle at the Pioneer Home, at Tuesday, at 2:30 p. m., to install the new officers. There will be a reception and supper given by the visiting president, Mrs. Emily J. Stone, from 4 to 7 o'clock p. m. The proceeds, twenty-five cents a plate, will be donated to the hall fund of the G. A. R. F. Davis Post G. A. R. A general invitation is extended.

—The following were the winning numbers at the drawing of the long store on New Year's Day No. 1497, wall bracket, was drawn by A. Burger, and Miss Ida Doney held No. 1952, which drew the handsome lamp No. 911, cups and saucers; 724, album, 1660, lady's watch chain, have not yet been called for.

—The three of last week took cold on Saturday night and one of the worst snow storms of the season raged here Sunday and Monday. Sunday the wind blew a hurricane and the snow drifted in great piles so as to make the roads almost impassable. In the evening the wind went down and enough of the beautiful fell to make excellent sleighing as soon as the roads are broken out.

—The county printing was awarded to the Enterprise if doing the work at the following figures: One and one half cents a description for the tax list; eight cents a folio for the first publication and four cents for each subsequent publication of all other legal. This is a great saving to the county as it puts over a thousand dollars into the treasury that was paid for printing last year.

—"My daughter, when recovering from an attack of fever, was a great sufferer from pain in the back and hips," writes Louisa Grover, of Sardis, Ky. "After using quite a number of remedies without any benefit, she tried one bottle of Chamberlain's Pain Balm and it has given entire relief." Chamberlain's Pain Balm is also a certain cure for rheumatism. Sold by J. Y. Breckenridge, Pine City, Minn.

—Mothers whose children are troubled with bad colds, croup or whooping cough will do well to read what Dr. R. E. Coley, of Olney, Mo., says on this subject. He writes: "For years we have used Chamberlain's Cough Remedy, and always keep it in the house. It is very useful in our family as a specific for all kinds of coughs and colds. The 25 and 50 cent bottles for sale by J. Y. Breckenridge, Pine City."

—P. A. Holze departed on Monday for St. Paul to be present at the opening of the senate which convened on Tuesday. Mr. Holze's constituents will hear from him on the floor of the senate chamber during this session. He was a very prominent figure in the senate two years ago and did much for the benefit of this district. Senator Holze is a shrewd, far-seeing business man and is scrupulously honest, and will make himself felt in the interests of his constituents.

—Rev. and Mrs. P. Knudsen on New Year's evening were remembered by their friends, who took possession of the parsonage. After a social time, refreshments were served, and all present enjoyed themselves and made Mr. and Mrs. Knudsen feel that they had a host of friends in Pine City. They were presented with an elegant rocking chair by the Sunday school, and they also received many substantial for the inner man.

—A card of thanks. Mr. and Mrs. Knudsen desire to thank their many friends for their kind interest in them as shown by the gathering on New Year's evening.

**A PIONEER MINNESOTA GONE.**

The following from the South Rapid Daily Sentinel will be of interest to many of our readers. Mr. Wood was well known in Pine City, having visited his daughter, the late Mrs. D. C. Roberts, frequently during her residence here.

The very sad and unexpected news of the death of J. Q. A. Wood, on Friday, Dec. 25th, Christmas at the home of his sister in the named place, was received here on Monday. He arrived there only a few days previously, and had left South Rapid with his son, Harry C. Wood, who reported on his return here that the old gentleman had stood the journey very well, but that he had received a letter on his arrival here from his father, asking him to go back to Chicago, and move him as he was desirous of returning here. The next heard from Madison was that Mr. J. Q. A. Wood was dead. The deceased was a resident here for many years, and was highly respected. He was about 70 years of age when he died. He was a man of many accomplishments, among which was the ability to read backwards, as a writer, and in prose and poetry. All his friends here, and in and out of the city, were deeply grieved to hear of his untimely death.

—WORE RED BLOOMERS. An English woman recently committed suicide, mainly because her husband objected to her wearing red bloomers at dinner. That goes to show how people are governed by absurd trifles at times. Rational, healthy-minded opponents of the St. Paul & Duluth railroad because the Duluth Short Line, as it is popularly termed, is the line offering the most economical travel between St. Paul, Minneapolis, Duluth, West Superior, Stillwater, Taylor Falls, and other important Northwestern points, where close connections are made with trains running in all directions. This line is always a favorite with all classes, because of its superior facilities. Always take the Duluth Short Line, and go with the crowd.

—CALENDARS AND COUPONS. So many beautiful calendars and entertaining novelties have been issued by the proprietors of Hood's Sanaparilla, that we have had to stop to review this season not only one of the very prettiest designs in calendars, but also one of the most useful. Every one who has a Hood's Sanaparilla calendar for 1907 secures something that will prove interesting and valuable as well as a beautiful specimen of the lithographer's art. The calendar is accompanied this season by an amusing little book on "The Weather." Ask your druggist for Hood's Coupon Calendar, or send 6 cents in stamps, for one to C. H. Good & Co., Lowell, Mass.

—We won't agree to pay your fare to Rush City if you buy ten dollars' worth of goods of us, but we do agree to sell goods so cheap that you will save more than enough. G. A. CARLSON, Rush City, Minn.

—Teams are still passing through here for the woods, two having gone to West Superior from near Mora on Wednesday.

—DISEASES OF THE SKIN. The intense itching and smarting incident to eczema, seborrhea, and other diseases of the skin is instantly allayed by applying Chamberlain's Eye and Skin Ointment. Many very bad cases have been permanently cured by it. It is equally efficient for itching piles and a favorite remedy for sore nipples, chapped hands, chilblains, frost bites, and chronic sore eyes. For sale by druggists at 25 cents per box.
