PINE CITY, MINN.

The Michigan legislature has passed sugar bounty bill with a string to it. The law authorizes the payment of a cent a pound on beet sugar on condition that the manufacturer pays the farmer \$4 a ton for the beets.

Tim late Mrs. Mary Johnson, of New York city, was a very philanthropic woman, and her will, which has just been filed in that city, leaves almost her entire estate of \$350,000 to Catholic institutions and to the clergy.

An architect who has compared the plans of the art palace at the Paris exposition of 1900 with those of the Columbian exposition in 1893 finds the French structure inferior to the American in nearly every particular. And yet all the buildings at the fair at the World's fair art palace is the one in which France might be expected to excel.

A Polish chemist named Eisenberg is said to have invented an anesthetic which volatilizes rapidly, and is inhaled by the air, rendering the persons near unconscious for a long time. A pellet broken under a pillow would cause sleep for four hours. It is asserted that in warfare bombs charged with this material will make large bodies of an enemy incapable of resistance.

The people of Wolfe Valley, Tex., have organized a rabbit club. The club pays one cent for each cottontail and two and one-half cents for each jack rabbit. The organization of the club is a necessity. Rabbits have ruined all fruit trees this winter which were not protected by oak bushes. If something is not done to destroy these pests the farmers will suffer great loss.

A KANSAS legislator, in view of the modern growth of skepticism and the indisposition that goes along with it to give much heed to the ten commandments, proposes to make their observance on the part of the people of the grasshopper state a condition of citizenship. If Kansas do not fear the eternal penalties as laid down in the Bible he proposes that they shall have some regard for the statutes.

No metal is increasing in importance more rapidly throughout the world than copper. Half of the copper mined is produced in this country, the total output in the United States last year reaching 47,725,000 pounds, a little more than half of which was exported. Our copper yield is now 40 percent larger than that of the world in 1851. The increased demand for the metal is due to electrical appliances.

The emperor of China is learning French. Recently he sought a teacher and one Li was recommended by a courier. His master, however, who had acquired a very slight acquaintance with the language, soon found out that Li knew nothing about it, and Li trembled for his life, but the emperor has only condemned him to be kept in dress until he can prove that he knows French—an excellent stimulus to his studies.

Among the late Sen. Day's papers were found five decrees dated on the same day, signed by President Grey and countersigned by all the proper officials, appointing him to all the grades of the Legion of Honor, including the Grand Cross. Grey went out of office without making the appointments public in the Journal Officiel, and Sen. Day never mentioned the matter to any one, and never wore any of the decorations.

The legislature of Oaxaca, Mex., has passed a law fixing the limit of the money amount that shall be received by Catholic priests in fees from their parishioners at \$25. The priests and more devout parishioners throughout the state are greatly aroused by the new law, and are demanding that the prints can not live on the small pittance which the law allows them to make. Unless the law is repealed at once trouble is feared.

Against the severe enforcement of the new Sunday police regulations in Berlin a mass meeting was held the other day, and resolutions of indignation were passed, signed by several thousand laymen. No attention was paid to this protest, however, and the emperor has instructed the police to continue to enforce the measures against all offenders. Thus it is clear that the law will be kept only a few hours on Sunday, and no new assessments of music are permitted during the hours of divine service.

In 1866 more than 6,000,000 barrels of apples were shipped from this country to Germany. Twenty times more than were ever shipped in any former year. While properly picked, sorted and packed there are no apples found on the German market but so popular an American apple, as to constitute a good article. They are juicy, have more flavor and in every possible way better than the apples that grow in the kitchen than do the apples that Germany has heretofore imported from the Tyrol and from Northern Italy.

It is proposed in Illinois to restore an extension of the child labor restriction law. The present law which protects the young children from working in factories, has resulted in such a radical increase in school attendance now has been every way so satisfactory to the original promoters that an extension of it, it is believed, can be brought about without resulting in any serious embarrassment to Illinois business interests. It is estimated that fully 10,000 children, little boys and girls, are now at work in Illinois department stores, laundries and in messenger business.

WARNED OF PERIL.

Inhabitants of Flood-Menaced Districts Told to Flee.

Signal Service Bureau Says the Delaware Will Last Many Days—A Vast Area Under Water—Much Suffering Reported.

Washington, March 29.—The following special river bulletin has been issued by the weather bureau: "The crest of the flood was still at Cairo, which shows a stationary gauge reading 5.6 feet for the past four days. There is great danger yet to come from the flood in the region from Helena southwestward to New Orleans. The river will continue to rise for at least ten days in the region from Helena southwestward to Vicksburg and to rise during a longer period from Vicksburg southward. If no break occurs there, levees will be subjected to the greatest strain about April 10, in southeast Arkansas, western Kentucky, and Louisiana. Should the levees break the result will be one of the most disastrous floods ever known. Weather conditions now indicate additional heavy rainfall in the middle and lower Mississippi valleys, which will materially intensify the government signal service that the Missouri and the upper Mississippi rivers would rise to the danger point of the great overflow on both sides of the Mississippi river from the mouth of the Ohio to the Gulf of Mexico. Hannibal, Mo., and Quincy, Ill., are under water. At Quincy the record is 15.3 feet with a rising river. This is two feet above the danger line."

Vast Area Under Water.
St. Louis, March 29.—The forecast of the government signal service that the Missouri and the upper Mississippi rivers would rise to the danger point of the great overflow on both sides of the Mississippi river from the mouth of the Ohio to the Gulf of Mexico. Hannibal, Mo., and Quincy, Ill., are under water. At Quincy the record is 15.3 feet with a rising river. This is two feet above the danger line."

Much Suffering Reported.
Great suffering has been felt among the farmers and the poor throughout the Palmyra and West Quincy on the Missouri side. This sea of overflow has ruined every land farm from Palmyra, north 40 miles to LaGrange. Should the rise reach another foot every rail road in the valley will have to be abandoned. The lowlands and islands between Quincy are inundated and the farmers barely escaped with their lives. The Indian gauge levee north of Quincy that protects 20,000 acres of farm lands is still intact, but a little more water will sweep it away.

Five Miles Wide.
South of Cairo 30 miles to Columbus, Ky., the river becomes 5 sea 25 miles wide. Columbus proper is on an elevated position and is not under water. From Columbus to Hickman, another stretch of 50 miles, the levees are being broken. Hickman is a city on a high bluff and is a city of refuge for hundreds of refugees. From Hickman to New Madrid, Mo., there is a great bend over which several steamers travel 50 miles down stream in ordinary stages of water and are in two to three days. On Monday today steamers sail directly west from Hickman to reach New Madrid, ignoring the river current and riding on the turbulent low sea water. The water is high and has obliterated every landmark. From the state line to Osceola, Ark., there are occasional stretches of levees protected by cross timbers built to the St. Francis hills, that have withstood the flood. The great crevasse at Osceola a week ago widened into a stretch of water now extends back to the St. Francis river and south 120 miles to the river's mouth, 20 miles above Helena. This is the largest continuous stretch of overflowed country and in several places is 40 miles wide. At Helena, the greatest fear felt.

Terms Will Soon Expire.
Washington, March 29.—The five-mile more presidential post offices will be the disposal of the administration during April through expirations of contracts. The most important of these offices are Vicksburg, Miss.; Mayfield, Ky.; and Vincennes, Ind. Since the change of administration about 40,000 applications for post offices have been filed at the post office department. This number, however, is said to be somewhat smaller than for years ago.

A Costly Blaze.
Norfolk, Va., March 29.—Portsmouth was visited early Sunday morning by a disastrous fire, which destroyed property valued between \$150,000 and \$200,000, consisting of a Catholic church, two public halls and twenty-seven houses. The most important of these were frame structures. As a result of the conflagration 200 persons are homeless.

The world's wheat crop, Washington, March 29.—The secretary of agriculture says that the world's wheat crop for 1900 is 2,460,000,000 bushels, against 2,440,000,000 in 1895.

VERY GRAVE.

The Greek Situation Apparently Extremely Critical.

London, March 29.—The Graphic gives prominence to a statement which claims to have received from an unquestionable source, to the effect that the Greek situation is extremely grave. It says that with the departure of Crown Prince Constantine from Athens to the command of the troops in Thessaly, the die seems to have been cast. War would be inevitable if Greece recalled her army. It would march to Athens and dethrone the king. The most serious element of the situation is the undoubted fact, despite denials, that the concert of the powers is no longer solid. There has not been an actual rupture, but the members have come to the conclusion that concerted action is a failure. If the so-called concert continues for a week it cannot continue longer. The statement ascribes the position to the impotence of the powers with Greece's reckless conduct and Great Britain's reluctance to cooperate. The powers will not accept Lord Salisbury's proposal for the establishment of a neutral zone. It is said that Col. Vassos, the commander of the Greek army of occupation in Crete, has practically declared war against the powers. The Austrian reichsrath was opened yesterday by Emperor Francis Joseph in person, who said in his address that he believed the action of the powers in Greece had a tendency toward peace, but that they did not mean to encourage Turkey in resisting reforms.

EVANS IS CHOSEN.

A SUCCESSFUL TRIP.
Stemmer Landers Lands Big Cargo of Axes in Cuba.

Philadelphia, March 29.—The filibuster steamer Landers, which arrived at this port Saturday evening, after having, it is said, landed the most important expedition sent from this country to Cuba. The expedition was in charge of Gen. Carlos Roloff, the insurgent minister of war. There were 400 men on the Landers when she left, and in her hold were stored 7,000 rifles, 170,000 rounds of ammunition, 25 tons of sick dynamite and a large supply of food and medicine. The expedition was fitted out by the Cuban junta for Gen. Garcia, and was landed on the province of Santiago Cuba where a large force had been sent to meet and convey the supplies to the headquarters of the army in the interior.

Ohio Pardoner Must Die.
Columbus, O., March 29.—The state board of pardons at Lancaster unanimously rejected the application for clemency for William Haas, a Cincinnati prisoner who is to be executed in this state. Haas will be the first person in April 8 to be electrocuted. Haas killed Mrs. William Bradley in Cincinnati on the night of July 3, 1890.

Found in a Sewer.
Chicago, March 26.—The headless body of a man was found in a catchbasin at the Dunning porch Thursday. It had been there, from all appearances, for a year or more. There was no clothing upon it, and all the circumstances point to the theory that a foul murderer was committed—a murder in which the perpetrator sought to hide his crime, as in the famous Cronin case, by throwing the body of their victim into a sewer. Who the murderer is, the police at Dunning have not the slightest idea.

Wants Pay for His Lost Arm.
Arcola, Ill., March 30.—William Lennand has brought suit against the five sons of George W. Lennand, claiming damages for the loss of an arm. DROPS HIS PEN.

Death of "Oliver Optic" at His Home in Boston.

For Fifty Years He Had Entertained the Juvenile Readers of His Land—Brief Record of His Successful Career.

Boston, March 29.—William T. Adams (Oliver Optic) died shortly after six o'clock in the morning. Mr. Adams had been sick for a long time with heart trouble. He was 75 years of age. For more than 50 years he lived and worked at his home in Boston, on Boylston street, except when taking his summer trips abroad or touring this country.

He was the first among the world's writers of stories for children—in fact, he was the pioneer story writer in juvenile fiction.

As "Oliver Optic" he was known to every child in this country who reads story books. He was a prolific writer. At the age of 75 he had written 150 books and more than 1,000,000 words of the characteristic American type. He began writing as far back as 1858. His stories are not of the mawkish sentimental sort that are so common in the stories that are written for young people. Mr. Adams as a boy was full of healthy spirit and bounding energy. As a teacher in a Boston school he had an opportunity for broad studying the tastes of young America. For strong, vigorous, healthy youth he wrote all the time, and his experience. He was remarkably successful in giving from the first the attention of his readers, and for more than 30 years he enjoyed the distinction of being the most popular writer of juvenile fiction. His first book was called "The Guardian Ship" and was written under the nom de plume "Warren T. Abbott." For this book he received \$100. It was the first money he ever earned with his pen. He met with a ready sale. The name "Oliver Optic" was adopted in 1862. The "Oliver Optic" series of volumes for boys appeared in 1862. About 100 volumes comprising the entire series of the "Oliver Optic" series, were written by him. Among them were "The Boat Club," "Woodville," "Young America," "The Story of 'Onward and Upward,'" "Yacht Club," "The Boat Club," "The Story of the 'World' and 'Living Too Fast.'" At various times he edited the Student, the Student and the Student, and Oliver Optic's Magazine for Boys and Girls.

—A. E. Webber is painting and otherwise improving his row boats, so as to have everything in readiness to commence running just as soon as the ice goes out.

—John Heyda, of Montgomery, is in this place looking for a location for a tailor shop. He has decided to locate here and will immediately move his family to this place.

—You will find the largest stock of General merchandise on the line of the St. Paul & Duluth railroad at LAIRD BOYLE & Co's., Rush City.

—Died—On Thursday morning the infant child of Mr. and Mrs. H. J. Rath. The little one only lived about a week. The PROXER extends its sympathy to the bereaved family.

—Riverside Circle, Ladies of the G. A. R. will meet with Mrs. Oliver Wilcox, on next Tuesday afternoon, April 6th. Lunch will be served from five o'clock, the proceeds to go into the hall fund.

—To pass me by would be an inexcusable injustice to your pocket-book. This isn't so because I say so, but because my goods and prices make it so. BARNEY H. HARRIS, Rush City.

—Wanted—To exchange for land, or will sell, my village property, situated on one of the most pleasant streets of the village. Enquire at once of J. LOVICK, Pine City.

—John R. Jackson, of Minneapolis, has been employed by Arthur Bartlett to act as engineer on the new steamboat during the coming summer. Mr. Jackson came up with Mr. Bergman to look over the ground preparatory to building his hotel.

—Laird Boyle & company wish to call attention to their new ad in this issue of the PIONEER. They intend to have special sales during the spring and summer, which will be advertised in this paper. When in Rush City call at their store, as they will use you right.

—Services in the M. E. church on Sunday, April 4th, as follows: Morning at 10:30, subject, "Our Infirmities and How Helped." Evening, 7:45, subject, "Promptness of Man and Co-operation of God." Young People's meeting at 7 o'clock. Everybody invited to these services.

—Come and hear my law prices play the disagreeable tune to competition. BARNEY H. HARRIS, Rush City, Minn.

—Easter services will be held in the M. E. church Easter Sunday, April 15. A fine Easter program is being prepared.

—Rev. John Wilson, of Duluth, will preach in the Presbyterian church next Sunday April 14th morning and evening. Everybody invited.

—A couple of gentlemen from Nebraska have been here for the past week, waiting for the snow to go off, so that Veverka & Swanda, our popular real estate men, can show them some land which they intend to make into farms. They were out on Wednesday and made the purchase.

—On Tuesday afternoon when ye editor went home to supper, he was met with quite a surprise at the door of the house. The surprise was a bouquet of pansies, plucked from the pansy bed by the side of the residence of W. P. Gottry. How is that for the 30th of March?

—We are indebted to Clerk of the Court Rath for the following interesting statistics.

No. of marriage licenses issued during the year 1906..... 48

No. of deaths as returned from the State Board of Health..... 48

No. of births as per return from the State Board of Health..... 108

Number of first papers issued..... 20

Number of second papers issued..... 135

—Rufus A. Hoyt, accompanied by R. White, veterinary surgeon, of St. Paul, W. B. Hastings, manager of Barrett & Barrett's older house, of St. Paul, and Mr. Hoyt's Irish setter, Bruno, spent Wednesday forenoon in this place, they having driven up with John Bassett from Rock Creek, where they are spending a few days.

—John W. Hoff, our popular tailor, departed the first of the week for O'Neill, Nebraska, at which place in the future he will make his home.

Mr. Hoff did not while here, but went away on account of his wife's health. We are sorry to lose Mr. and Mrs. Hoff, as they were good citizens and he is a first-class tailor. The PROXER wishes them good luck.

—A. F. Brackett has been hauling piling to build Mr. McAllen's boat house, for the accommodation of the launch that he bought in Grantsburg recently. Mr. McAllen will build a fine boat house, and have it rigged so that he can pull his boat out when not in use. This is a good scheme, as in this way the boat will always be light, and not water soaked.

—C. E. Tallmadge began loading a car on Tuesday with his household goods preparatory to leaving the state for New Richmond, Wis., a near which place he has purchased a farm. Mr. Tallmadge came to this place two years ago last fall from Dakota and has been farming near here ever since. They are a very nice family and we are sorry to see them go.

—The Rev. W. H. Weaver, pastor of the U. B. Church, Dillsberg, Pa., recognizes the value of Chamberlain's Cough Remedy, and does not hesitate to tell others about it. "I have used Chamberlain's Cough Remedy," he says, "and find it an excellent medicine for coughs and hoarseness." So does everyone who gives it a trial. For sale by J. Y. Breckenridge, Pine City, Minn.

—Two years ago R. J. Warren, a druggist at Pleasant Brook, N. Y., bought a small supply of Chamberlain's Cough Remedy. He sums up the result as follows: "At that time the goods were unknown in this section; today Chamberlain's Cough Remedy is a household word." It is the same in hundreds of communities. Wherever the good qualities of Chamberlain's Cough Remedy became known, the people will have nothing else. For sale by Breckenridge, the druggist.

—Tuesday next is election day, but we have not been able to get the names of any of the candidates for the several offices. For village president it is our opinion that the present incumbent is the very best that we could possibly find. J. Y. Breckenridge, since he took the office, has done more for the good of the village than any president we have ever had, and our citizens should see to it that his name is at the head of the ticket they deposit next Tuesday.

J. W. Astell has made a good reporter, and should get the office for another year. The whole of our present council are good men, and if they are all elected again, the affairs of the village will be in good hands, as they have proved during the past year.

—Adolph Johnson, of St. Paul, purchased the farm of John Peterson, about 8 miles east of Rock Creek on Tuesday. J. D. Marham, of Rock Creek, making the sale. Mr. Johnson is very much pleased with Pine county, and says he may at no very distant day locate here. At present he is employed as blacksmith by the St. Paul & Duluth Railway Co., at Gladstone. The PROXER acknowledges a pleasant call on Wednesday from Mr. Johnson and Mr. Marham. Call again, gentlemen; the hitch string of the PROXER always hangs on the outside.

—G. A. Carlson intends to be in line with the best of them, if you don't think so read his ad in another column of this issue and see for yourselves.

DISEASES OF THE SKIN.
The intense itching and stinging incident to eczema, tetter, salt rheum, and other diseases of the skin is instantly allayed by applying Chamberlain's Eye and Skin Ointment. Many very bad cases have been permanently cured by it. It is equally efficient for itching piles and a favorite remedy for sore nipples, chapped hands, chilblains, frost bites and chronic sore eyes. For sale by druggists at 25 cents per box.

Try Dr. Cady's Condition Powders, they prevent what a horse needs when in bad condition. Tonic, blood purifier and vermifuge.

—Burger Bros. saw mill shut down Monday night, and will not resume operations until after the ice goes out. They have cut all the logs that are handy to the mill, and the ice is so rotten they are afraid to put a team on to draw the logs so as to reach them from the mill, hence the shut down. The mill has enough logs contracted for to keep them busy until after the 15th of July.
