## SWEDEN'S GREAT FAIR.

It Will Be a Genuine Pan-Scandinavian Exposition.

Buildings Erected for It Are Unique in Design and Happy in Execution—in the Land of the Midnight Sun.

(Special Berlin Letter)

For the American tourist in Europe there will be this summer a special attraction—the Swedish exposition in Stockholm.

No large exposition has been held here by Sweden since 1860, and that interesting country is now demonstrating to the world how immense has been its progress during those 37 years.

The countries exhibiting are Sweden, Norway, Denmark and Finland, so that this will be a Pan-Scandinavian exposition really. But

Of the exposition buildings several are of unusual size and beauty. The machinery hall is a colossal structure of iron and glass, 470 feet long, and the

latter reached by elevators. On top there is a restaurant, whence a most complete bird-eye view of the whole exposition and of the sea and of the city beyond can be obtained. The exposition space inside of the industrial hall covers 16,000 square meters, or about 130,000 square feet, of which Sweden has 6,500 square meters, Norway and Denmark 3,000 each, and Finland 1,000.

The art temple is the finest building of all, being entirely marble, and making the ground of pure marble. In architectural style it is closely modeled after a famous Venetian palazzo, but much larger, of course. The Northern museum is a monumental structure. In it is a varied exhibit of objects of science, education, instruction, hygiene and collective show of wood carvings. The fisheries hall is built so as to reach into the water. The press pavilion is the most comfortable and complete which has anywhere been erected for the "fourth estate" at expositions, and attached to it are such conveniences as Russian bathrooms, to be used free of cost. In the sport exhibit are branches of sport peculiarly northern and never before shown in such completeness, such as all the apparatus needed for "sky" running, the elk chase, skating, etc., and little groups are placed everywhere, typifying the different classes of sport.

Outside on the grounds, too, there will be many things of interest to be seen, such as the Soga-grotto, in which the most fairy-like effects will be produced by electric light, and in which ten boats will constantly carry passengers around.

The Swedish yacht club will give a grand international regatta, the beginning of July, in which Emperor William II. will also participate with his yacht, the yacht Meteor, and with his Hohenzollern.

As to the number of exhibitors, Sweden has some 3,500 of them; Norway, 500.

For the tourist, however, this fine exposition will be but part of the special entertainment offered him in the Land of the Midnight Sun.

Special arrangements have been

made to facilitate and cheapen considerably, not alone the journey to Stockholm, but also the stay in the city, and the trip through the whole country.

Special trains will be run throughout the exposition season, starting from Berlin at 7 1/2 a. m. and arriving at Stockholm at 8:05 a. m.—a trip of only 25 hours, or the same time taken up between Chicago and New York. But this trip of 25 hours will itself be intensely varied and interesting, for the train first goes through Prussia, up to the farthest point of the promontory of Rugen, to Svanitz, one of the most picturesque routes on the continent; then a comfortable fast boat takes the passenger across that area of the Baltic to Treleberg in Sweden, and then for 14 hours one goes by easy stages through one of the finest parts of Sweden, so far as landscape and custom and manners of the natives are concerned, to Stockholm direct.

That city though not to the tourists' highroad in modern times, is one of the greatest, most ancient and interesting cities in Europe, with a rich historical past, of which its many quiet and beautiful buildings speak plainly, and with surroundings so fine in natural scenery as to outvie in this respect all the other capitals of the world.

Besides, if it is to be a fair, it will be smiling, as full of abandon and open-air joyfully as if the town were located in the latitude of Naples or Paris, at the mouth of a canal intersecting the city, the proximity of the ocean, and the large number of lakes being the city have earned this northern capital the cognomen of "Venice of the North."

Those who have the leisure for a four-week's circular journey through Sweden will also be amply repaid for their trouble and expense by the unrivaled scenery and the continually changing manners and customs of the rural people. In some parts of Sweden, such as the noted Dalecarlia, the traveler is indeed inclined to think he has caught a glimpse of the rustic aspects of the old world.

KING OSCAR OF SWEDEN.

The art exhibit will be international in character, and this feature will be of special interest, as the leading painters and sculptors of the world will be magnificently represented.

The exposition will take place in the beautiful Royal park, or Djurgården, one of the largest and most attractive in Europe, whose varying charms of hill and dale, rocks and thousands of old oaks are incised by the splashing, murmuring waves of the summer sea, for the park forms an island, lying opposite the principal point of Stockholm harbor, easily reached from there within 12 minutes by one of the innumerable pleasure and excursion steamers, of all the larger ex-

positions held of late years, this one will be the most accessible. At the exposition grounds the main buildings are arranged in two groups, the eastern and the western. The latter lie close to the seashore, and the sea, too, furnishes them with views. The western group of buildings comprises the machinery hall, the art temple, the army and navy exhibit, and the eastern shows the industrial hall, the northern museum, the fisheries hall, the sport exhibit, besides special buildings such as the Stockholm municipal pavilion, the press pavilion, the theatrical and musical exhibit, and a number of smaller individual exhibits, pa-

**Photographs.** I am now in Pine City, Minn. Photography is in all its branches. Work and prices to suit you. Photograph gallery on lot east of Weaver's. Call now. J. Y. Breckenridge, Photographer.

-Howard Hay and wife, of Sandstone, arrived in this place on Friday last to spend the summer vacation. Howard delights in camping out and rusticating during the months of June, July, and August, and says that Pokegama is the best point that he knows of for that kind of sport.

-Theo. Bussemier's new brick building is fast nearing completion. The plasterers have about finished the hard coat, and the carpenters are busily engaged with the interior part of the work. When completed Mr. Bussemier is going to have one of the finest buildings in this part of the state.

-I am neither Veterinary White, nor Veterinary Black, but I am Veterinary Grey. I practice on old shoes, read the news, then bring your shoes and get new soles for 40 cents at the north end of Snake river bridge. I black them up and make them shine, and put on three patches for just a dime.

-Dan McLaren, one of the most successful business men of Hinckley, spent the greater part of last week in the county seat, as a witness in the case of Grubbs vs. Mrs. Axel Hanson, which was being tried before Judge Williston. Mr. McLaren made this office a pleasant call on Friday afternoon.

-The finest and best line of clothing and ladies' and gent's furnishing goods on the line of St. Paul & Duluth, can be found at G. A. Carlson's store at Rush City, and he sells at prices that defy competition. With every dollar's worth of goods you buy you get a chance on an elegant high grade wheel, either ladies' or gent's style.

-Abe Swanson has moved his jewelry repair shop from the town of Royaltown to this village, and can be found at all times during business hours at H. N. Welch's hardware store, where he also has his bicycle repair shop. When you buy any jewelry, or bicycles to repair, call on Mr. Swanson. He guarantees satisfaction.

-Mr. and Mrs. G. T. Wilson, of Chicago, will give a free musical and literary entertainment in the Presbyterian church on Friday evening, June 11th, for the purpose of organizing a class in vocal music. A thorough course will be taught in the rudiments of music, notation, sight singing, voice culture, musical education and advanced chorus work.

-The fishermen that came up from St. Paul and Minneapolis on Saturday night and Sunday, were home satisfied, as they took back with them about 200 pounds of pike and bass. This was the second or third trip for some of them, and they are better pleased each time they come. Come again, gentlemen; there are plenty of fish in the river and lakes.

-Mrs. Dr. C. Trowbridge of Mankato, has opened a dental office in the Eldred building, opposite the Pokegama hotel. Dr. Trowbridge has successfully practiced her profession in Mankato for a number of years. It is her intention to invest in property in or near Pine City, and settle her family here later on. The Trowbridge family, Dr. Trowbridge, and wishes her abundant success.

-School closed last Friday, and the teachers, all but one departed for their homes on Saturday. Miss Ella Gold, the principal, goes to her home in Big Stone County; Miss Roney to her home in Stillwater; Miss Bertina Stephan to Valley Falls, Kansas, and Miss Jennie Badger to Taylor Falls. Miss May Jordan will remain in this place and spend the summer with her sister, Mrs. H. N. Welch.

-There's no use in talking, says W. H. Broadwell, druggist, LaCygne, Kas. Chamberlain's Colic, Cholera and Diarrhoea Remedy does the work. After taking medicines of my own preparation, and those of others, I took a dose of Chamberlain's, and it helped me; a second dose cured me. Candidly and conscientiously I can recommend it as the best thing on the market. The 25 and 50 cent sizes for sale by J. Y. Breckenridge, Pine City.

-Aug Bergman, the proprietor of the Pokegama Park summer resort, has commenced the erection of two more cottages. Mr. Bergman says that as fast as he can get occupants for his cottages he will build them, and before the first of July he expects to have at least three more in course of erection. He is also building an observatory, which will be about sixty feet high, and already has the flag staff ready to be placed on the structure. It is one of the finest white ash sapplings we have ever seen, being over forty feet long, and as straight as an arrow, and only about three inches in diameter at the butt. Mr. Bergman means business, and is fixing everything up in first-class shape.

-What might have proved to be very serious, happened instead last Wednesday morning at the Burger Bros' mill. At about a o'clock the belt broke, and got caught in the fly wheel in such a manner as to break the feed pipe running from the boiler to the engine, and in a short time the mill was filled with the scolding steam. If anyone had been near at the time that the steam first broke out, it would have surely scalded them.

-Pat Connors has commenced the erection of his new building on the site of his old saloon. It is to be a two-story frame building, covered with steel, to make it fire-proof, and it will be painted to represent brick. It will be the same kind of a building as the Laird & Boyle building at Rush City, only they represent stone, while Mr. Connors will represent brick, so as to be in line with the balance of the buildings which are being put up, and that will be put up on Fifth avenue.

-The iron roof is on the new grist mill, and it is about all sheeted up. The engine room is about completed, and it will only be a matter of a few days before the machinery arrives, and they will at once commence placing the same. The building is being put up to stay, and will be used as an elevator as well as a grist mill. Messrs. Allen & Dewar are putting up a first-class structure, and all that remains now is for the farmers to plant and grow the grain to keep it running the year around.

-We are informed upon pretty good authority that the prospects are that within six months from this time Pine City will have a large sash, door and blind factory running in full blast. Manufacturers are beginning to look this way, and it will only be a matter of a few years before we will be one of the principal manufacturing centers of the state. A sash and blind factory is something we have needed for some time, and with the timber in such close proximity, it should be a success. Our council should do all in their power to have this enterprise located here.

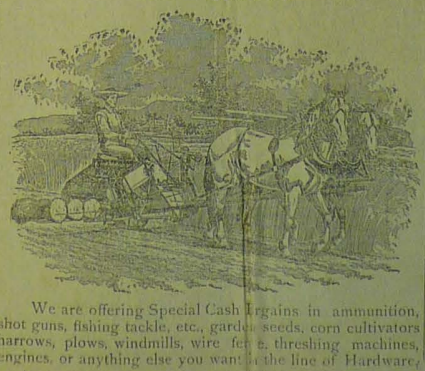

-Some following, preserved from the Huselstow correspondence which for some unaccountable reason failed to reach our desk, may prove of interest to those who saw the air ship while it was in this vicinity. "The mysterious air ship was seen by the family of Mr. Bee near his residence a short time ago. It seemed to be circling around that noted fish hole. Mr. Bee thought it was the intention to swoop down and make away with a cargo of fish. But they must have got a glimpse of his star, or some other object which denoted that he was an officer of the law, for they immediately turned and went gliding off over the tops of the trees towards Meadow Lawn, where there are no officers."

-Mr. Isaac Horner, proprietor of the Barton house, Barton, W. V., and one of the most widely known men in the state, was cured of rheumatism after three years of suffering. He says, "I have not sufficient command of language to convey any idea of what I suffered. My physicians told me that nothing could be done for me, and my friends were fully convinced that nothing but death would relieve me of my suffering. In June, 1894, Mr. Evans, then salesman for the Wheelbarrow Drug Co., recommended Chamberlain's Pain Balm. At this time my foot and limb were swollen to more than double their normal size, and it seemed to me my leg would burst, but soon after I commenced using the Pain Balm the swelling began to decrease, and now I consider that I am entirely cured. For sale by J. Y. Breckenridge, Pine City.

Star. It is not only the best, but the most
lasting, and therefore the cheapest.

AN INCIDENT AT THE CITY HOSPITAL.

A Woman's Life Barely Saved by a Critical Operation—Her Health Destroyed.

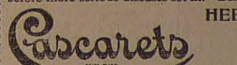

There was a hurry call for the ambulance of the City Hospital.
In the course of an hour a very
stretcher. She was pale, her face was
as death and evidently suffering keen agony.
There was a hasty examination and a
consultation. In less than a
quarter of an hour the poor creature
was on the operating table to
undergo the operation called
ovariotomy.

"Out of the frying-pan"

into the fire." Take care that you don't go
that way, when you try to make your
washing easier. Better be sure of what
you're doing.
Get Pearline, the original washing-
compound, the best-known, the fully-
proved. There are plenty of imitations
of it. But even if they're not dangerous
—and some are—they're not
economical.
Pearline used properly goes
farther, does more work, and
saves more wear than anything else that's
safe to use.
