## CARSWELL TALKS

### Of Pine City and Some of Her Leading People.

Pine City, the county seat of Pine county, and sixty-four miles from St. Paul by the St. Paul & Duluth Railway, is one of the most prosperous and attractive towns in the North Star State. Its level streets and avenues are beautified with trees, and many of the public buildings are not only substantial, but architecturally beautiful. Near the railway station is a beautiful park, and then handsome brick blocks, looking bright and new. Cottages and residences have lawns now growing greener every day, and evergreens adorn the yards. Splendid roads diverge from the city and lead north, south, east and west, past grand farms, and over streams, and around lakes and through forests.

Pine City is a lovely town, in a land of perpetual beauty, under snow or sunshine, and its advantages are manifold. With rich hard and soft woods, it has the best of soils for cereals, and the best in the vegetable kingdom. There is no richer grass country or a better watered one, and the healthy people, young and very old, speak volumes for Pine county as a home.

Pine City ships lumber, wood, flour, potatoes, hay, grain, produce, milk and honey.

The manufacturers are running on full time. The Burger Brothers saw mill, with eighty-five horse power engine, 100 h p boiler, and circular saw, can cut 40,000 feet of lumber a day—their shingle mill 40,000 of roof coverings, and their planing mill is equal to 29,000 feet in ten hours.

The Henry J. Rath (new mill just started) has a sixty-horse power engine, and first-class machinery throughout, and is equal to 30,000 feet of lumber daily. These mills (Burger Bros' and Rath's) employ over forty men.

Last summer the best manufacturing addition was made to Pine City by the building of the Pine City Roller Mills, which are constantly busy, and increased capacity will soon be found necessary, as this is the center of a new country, and development is rapid. The Pine City Flour Mill is according to capacity, not excelled in the state, as with four double stands of Barnard & Lea's patent rolls, it has turned out 102 barrels of flour a day. It is also equipped with a complete rye mill—capacity, 25 barrels; buckwheat, 25 barrels, and feed, 24 tons a day. Propulsion is given by a sixty-five horse-power engine and the smelter, purifiers and reels, also the plan after system, are the latest improved, and the mill has its own electric light plant, which should be taken advantage of to make one of the loveliest towns by day one of the brightest by night. The mills will receive soon over \$1,000,000 investment in adding detached buildings, including a handsome office.

The manager and proprietor in chief is R. P. Allen, a sterling young business man. His father, J. N. Allen, is a veteran miller, and is Northwestern Manager, with offices at Minneapolis, for the Bernard & Lea's mill machinery.

The Pine City Brewery is manufacturing a pure amber-colored and highly palatable flavored Gambrinus liquid, and the proprietor, Theo. Bussemeier, has worked in the biggest breweries in the States, and in the Fatherland.

The Pine City Cigar Factory is rapidly increasing its trade by producing the most aromatic and soothing smokes from the best tobacco grown. Those who love the leaf are unanimous in extolling the Pine City Cigar.

Herman Borchers has been seventeen years in Pine City, and he has gained a wide reputation for his manufacture of boots and shoes. He learned his trade in the Old Country, and came to the States in 1871. Mr. Borchers has customers over Pine,

Chicago and Carlton counties, and carries a big stock besides the manufacturing department, and owns a handsome brick business building, a good residence, and other properties, and he always makes the boot fit the foot—not the foot the boot.

Pine City receives two and forwards two daily mails by rail, and the money order department (internal and domestic) issues over \$1,200 a month. The postmaster, J. Y. Breckenridge, has resided in Pine City for a dozen years, and is one of the most deservedly popular men in a tier of counties. He owns one of the best equipped pharmacies in this belt of country, with a stock exceeding \$4,000 in value, and suffered great loss by fire last year. He is also the insurance agent representing ten companies, and he is His Honor the Mayor of Pine City, and a member of the A. F. & A. M., Eastern Star, K. of P., and A. O. U. W. Mr. Breckenridge was born in Vermont, came west fifteen years ago, and before coming to Pine City, was in St. Paul, outside manager, in connection with railway contracting.

## CORRESPONDENCE

### Gleaned for our Readers From All Sections of the County.

HUSTLETOWN.

Robt. Liebman, of Pine City, was a Sunday caller here.

Miss Sarah Glanville went to Pine City, Saturday night, to spend Sunday.

Mary Glanville is at home after an absence of a couple of months spent with her sister at Kerriek.

Mr. Henry Kruse was in Rush City on Saturday, on business connected with his piling, landed at the Rush City bridge.

School closes here on Friday. Miss Griffith, who has taught the past term, goes from here to Chagwata, in the same district, for the spring term.

St. Patrick's heroism was kept green in the minds of our people on Thursday evening, when a very social gathering was held at the home of Mr. C. Glanville.

A very pleasant event of the week was the dance given on Tuesday evening, at Mr. Davis' home. Messrs. Curry and Davis furnished the music, and all enjoyed a pleasant time until the "wee sma' hours."

Frank Siekler, who last week offered to rent Pine Cottage to the I. O. F. O. H., acquaints us with the fact that he has changed his mind. In the Ellizard of March 24th, he advertised for a wife. We would not wonder if that had something to do with it.

A special meeting of the I. O. F. O. H., was held at the Kruse club-rooms on Monday. Frank Siekler has become a member, in full, of the order.

Miss Ella Glanville was elected president in place of Miss Griffith, who has been the pioneer president of the order, but who will soon leave here. After the business of the evening was transacted, a reception and dance was given by Mr. and Mrs. Kruse.

A merry party of twelve from here, attended the Chengwatana lyceum on Saturday evening, and they report having had a most enjoyable time. In spite of what, at first, seemed insurmountable difficulties, everything passed off very pleasantly. The topic of debate, Resolved, "That the pen is mightier than the sword," was ably debated, and decided in favor of the affirmative. Topic for debate, March 26th, Resolved, "That the United States has a moral right to declare Cuba free and independent."

(From another Correspondent.)

The Meadow Lawn poet last week did appear With a bright little poem for the Pioneer— And to tell you of a Husker's fate, Those lines to him did abe dedicate, She writeth of his love and thence, And contriving matrimonial schemes; Then to the Public does confess Knowledge to fathom them them no one does confess.

We will gently tell her as a friend, His thomess and schemes are too deep for her to comprehend, Or his latest matrimonial schemes Much has been said it seems;

Such he was considered sensible and wise, That his latest scheme did not materialize, With Mr. Siekler he does agree and thus procure Snake River girls can never hear a Husker's name.

Now if you wish to know of this Husker name Kindly consult the Hustletown girls, She also writes of the Hustletown four, Possessed of these pretty lawyer curls, But when it comes to feet of monstrous size, Meadow Lawn girls are entitled to the prize.

Of girls she says they have a score, With feet so large—thank heaven they have no more, To Meadow Lawn and Hustletown, And all their pretty girls of high renown, And to this poet fair Love must be did alien, A poet I trust she ever will remain, For time may bring this Husker back again, To the swamps where the bullfrogs squawk, For such is the town of Meadow Lawn.

—Dr. Trowbridge will remain at home until March 30th when she will visit Willow River for two days, but can always be found at her office on the following days of each week Friday, Saturday, Sunday and Monday.

R. Hoagland spent Tuesday at our County town.

The hum of the saw mill is a merry sound this week.

J. F. Safely brought a load of feed from Pine City, one day this week.

J. F. Holbrook and brother-in-law L. L. Kallin, of Minneapolis, arrived Saturday, by team. They have selected land and are building a cottage on it. Mr. Holbrook will remain in a few days for his family, while Mr. Kallin will stay and attend to the arranging of the new home.

The Baptist Church held their second anniversary meeting Tuesday evening, at the home of Dr. Kelsey. Although but a small number of the members were present, seven of the right absent members were represented by letters of greeting to the church, which were read in response to their names at the roll-call, also a letter from Rev. E. R. Pope, Superintendent of Missions in Minnesota, who organized the society two years ago. These letters were full of helpful words, cheering us on to better work. Prov. 25, 25.

"Dr. Fenner's Kidney and Backache Cure."

Just as the name suggests, this valuable remedy cures certainly and speedily all ailments of the back, kidneys, bladder or urinary passage. It removes sediment from the urine and kidneys, thereby giving you strong, vigorous feeling, where now you feel dull and sluggish. Cases of weak bladder, excruciating pain, has never been known to fail. The first bottle guaranteed to give satisfaction. Fenner, Minn.

BETTER THAN THEORY. One stubborn fact is worth a million theories. The first year under the McKinley administration furnishes an array of facts which must be appalling to the pessimist in agricultural communities. The evidences gathered from the report of the statistician in the agricultural department are too well authenticated for the popocrats to deny them.

Whatever be the outcome of our present strained relations with Spain the crisis has not been without its benefits. In the first place we will have a navy by the time the matter is settled, and the people of the country will appreciate the necessity of maintaining a navy second to none in the world in the future.

Another certainty is, that President McKinley will not allow himself to be influenced by any of the numerous stories as to what European nations may think that he should do, but will act solely in the interest of the national honor of the United States, without regard to the probable approval or disapproval of his action by any European power or powers. The Maine was our ship.

The gun-shop in the Washington Navy Yard reminds oldtimers of the war time activity in the same yard, but upon a different class of work. During the war this was strictly a Navy Yard, now it is only a Navy Yard in name. Its principal work is being the making of guns some of the finest in the world have been and are being made here—mountings, and ammunition for the Navy. Not a minute is now being lost in the Yard, one of three eight-hour shifts of men being continuously at work.

Many senators and representatives would have no objection to the United States recognize the insurgents as an independent government, but this, it is pointed out, would not end the struggle unless Spain should make this recognition a cause of war.

Washington, March 19.—Senator Proctor, of Vermont, who returned last Sunday from an extended trip to and through the island of Cuba, on Thursday afternoon made a statement to the senate of his observations on the island.

He began by saying that more important than the condition of the reconcentrosados would be the public mind, and that it was his duty to state to the senate what he had seen and heard on the island.

He then said that the reconcentrosados were not only ignorant of the condition of the reconcentrosados, but that they were also ignorant of the condition of the reconcentrosados.

As to the military situation, he said that the reconcentrosados were not only ignorant of the condition of the reconcentrosados, but that they were also ignorant of the condition of the reconcentrosados.
