remain in a state of uncertainty. We want to settle as soon as possible, our relations to the Philippines, and this we can not do until the treaty is ratified.

Secretary Alger's annual report is a very interesting document, embracing, as it does, a brief, but very comprehensive sketch of the conduct of the war, with copies of all official orders relating to the army, etc. A careful study of it will remove the last vestige of foundation for most of the stories attacking the management of the war department. For instance, the official figures of the wounded in the Santiago campaign are a complete refutation of the stories that the wounded were not properly cared for. There were 140 surgeons with Gen. Shafter's army. The total number of wounded was 1,451, of whom only 13 died of their wounds—a percentage as remarkable in the history of war as some of the more talked about achievements of the war.

Chairman Hepburn, of the House committee on interstate and foreign commerce, anticipating early action on the Nicaragua canal bill, has announced that the committee will grant hearings either for or against the Nicaragua canal. The agents of the Panama Canal company, now in Washington, are prepared, it is believed, to spend a lot of money to defeat or prevent the Nicaragua canal legislation, but the friends of the canal are also in Washington in force, including a delegation from the chamber of commerce of San Francisco, and they will work as they have never worked before, because they believe that success is in sight.

Senator Thurston, of Nebraska, is one of the most pronounced expansionists in congress. He said, speaking of the various objections to our taking the Philippines: "I am satisfied to trust their future to the good sense of the American people. If they become a burden rather than a blessing, the same patriotic spirit which demanded their surrender by Spain would then set them up in independence, or otherwise dispose of them, without sacrificing the liberties of other peoples, and without doing discredit to the American name."

A Valuable Forestry Manual.

Under the title of "Forestry in Minnesota," the Minnesota Forestry Association has just published a very comprehensive treatise on this subject. It is made up entirely of new matter prepared by Prof. S. B. Green, Professor of Horticulture and Forestry in the State University. It is really a compilation of the lectures and notes on this subject which he has found useful in his classes in the School of Agriculture. It makes a book of over 300 pages, with suggestive side heads, and contains 60 full-page plates made from carefully prepared drawings illustrating as many of our native trees, besides 33 other figures. It is divided into two parts—Part I, "Elementary Forestry, and Part II, "Forest Trees of Minnesota."

Part I, containing eight chapters, treats in a very thorough yet concise manner on the following subjects and their numerous subdivisions: The Tree and Tree Growth; Forest Influences; Tree Planting; Forest Management and Rate of Increase on Trees; Durability and Fuel Value of Wood; Propagation; Nursery Work; and Injuries to Trees.

Part II is devoted to the description of the trees of Minnesota, native and introduced, that have gained some considerable attention in this state. Over 100 species and varieties of trees are described, six of which are illustrated by full-page plates. Notes are given with each species on hardness, distribution, propagation, properties of wood, and uses of the tree and its products in the arts and in ornamental and in timber planting.

This is not only the best work ever published by the Forestry Association, but it is one of the best manuals on Forestry for the student or

the tree grower. The ability and reputation of its author is sufficient guarantee of the merits of the work. It is for gratuitous distribution, but to get it by mail five cents must be sent to Geo. W. Strand, Secretary, Taylors Falls, Minn., to pay postage. The edition is limited to ten thousand, hence early orders are necessary to positively secure a copy.

Christmas Presents!

After looking around town Santa Claus has discovered the right place, and knows where

he can procure his supplies of

The Right Place.

For those who are expecting something extra this year. You will agree with him when you have looked over our stock of

Perfumes,

Toilet Articles,

Brushes,

Perfume Atomizers,

Toilet Sets,

Brush Sets,

And lots of little novelties like

Calendars, Ink Stands, Paper Knives, Toys, Etc.

Too many goods and too many prices to mention them here. You will have to visit us.

You are invited!

A French patent agency announced that a Polish engineer had found a method of chemically treating straw in such a way that it can be pressed into a substance as hard as stone and cheaper than wood paving, for which it is expected to prove a substitute.

This marks an playing cards are said to have their origin in a symbolic representation of four different classes of society. Hearts represent the clergy, spades the nobility (derived from the Italian word "spade," meaning sword); clubs the serfs, and diamonds, the citizens.

The coin known in Austria as the Kreuzer has been withdrawn from circulation, and will not be accepted even by the government after December 31, 1899. The coin has been in existence since the fifteenth century, and took its name from the cross marked upon it.

The Japanese always burn their dead with the head to the north, so that this time no Japanese will sleep with his head in that position. Many private houses and hotels have a diagram of the points of the compass pasted on the bed-room ceiling for the convenience of guests.

An averaged man weighs 140 pounds; a woman 125 pounds. Curiously enough, the mean weight and height of lunatics are below those of sane people. Another interesting thing in this respect is that a Negro's skeleton weighs more than that of an Englishman.

Sailors can make long voyages in the water with the use of a new appliance, consisting of an air chamber to surround the body, with an umbrella attached, for use in sailing and keeping off the rays of the sun; a propeller being operated by the hands to drive the swimmer along.

One of the best signs of the times as regards the success of the motor car is the fact that some of the British automobile manufacturers are declining to exhibit at a recent show, giving as their reason that they were so rushed with orders it was impossible to spare a machine for exhibition purposes.

In proportion to its size, Switzerland has far more horses than any other country in the world. In fact, the entertainment of tourists has become the chief industry of this pastoral land-hospital, that is, to, paying guests. It now contains no less than 1,700 hotelies, stationed for the most part on the side of mountains or by the side of glaciers.

A movement has been started in Georgia to honor the memory of Miss Winnie Davis by establishing an industrial school for girls. The movement is headed by the Daughters of the Confederacy, who have the hearty support of the Georgia legislature and of Georgia's people. The idea originated with Mrs. Halie Alexander, Rossville.

Miss ANNIE FRANCES BAYARD, whose death is reported at Algiers, was the second daughter of the late Thomas F. Bayard. She was born in Boston November 11, 1845, about four years ago, and had been living with her sister, Countess Lewinhardt, in Paris. She went to Algiers for health, accompanied by Philip Bayard, youngest son of the late ambassador.

A LONDON paper says that an adjutant in the Saxon Army has achieved the remarkable feat of singing 60 hymns in 50 minutes. The composition on which this record was made was called a "singing battle." He began with three hymns, Jesus and hymn after hymn followed rapidly. When he reached the Doxology, after singing eight extra hymns, he was two and a quarter minutes ahead of the stipulated time. When he finished he shouted: "Bless the Lord, I've broken the record!"

An old marriage custom obtains in the island of Ilimia, opposite the island of Rhodes. The Greeks, by whom it is peopled, earn their living by the sponge fisheries. No girl is allowed to marry until she has fished up a certain number of sponges. These must be taken from a certain depth. In some of the other Greek Islands it is the custom to fish for sponges. If there are no sponges found for the hand of a maiden the father bestows her on the man who can bring up the largest number of sponges.

LANCE SUPERIOR may lose its distinction of being the largest body of fresh water on the globe. An English explorer begins to think Lake Victoria Nyanza is larger than Lake Superior. The latter is 32,000 square miles, and Nyanza is 35,000 square miles. Superior is 31,000 miles, and Nyanza has been credited with about 30,000, but recent explorations have shown a slight difference in the area of the lake. Superior is larger than Nyanza by its southern shore, which so increases its known area as to make it a question whether it is not larger than Superior. Fuller explorations and more careful surveys must be made, however, before a decision is reached.

The latest invention is a pipe line made of glass. The glass pipe is located at Port Allegany, Pa., preparing to make glass tubes that can be used for sending oil or gas across the country, for carrying water, carrying oil, carrying with water, etc. The glass pipe does not corrode, is impervious to the elements in underground conditions, and it is lighter than iron pipe. It is also thinner than iron pipe. An Ohio company is now putting in such a pipe line, and a practical test of the system will soon be possible for a distance of 100 miles at least.

THE FIFTY-FIFTH CONGRESS

The National Law-Makers Assemble in Washington for the Third and Last Session.

BOTH HOUSES MEET PROMPTLY AT NOON

Opening Day Is Marked by a Notable Attendance—Public Interest Greater Than Usual—President McKinley's Message Read—Hills and Resolutions in the House.

Washington, Dec. 6.—The third and last session of the Fifty-fifth congress began yesterday at noon. The attendance of senators and representatives was unusually large for the opening of a short session. Public interest in the meeting was great. The regular force of the Enterprise colliers was hired down Indianapolis, Pa., paying \$100,000 a day.

Harnes Compton, for three terms a member of congress from Maryland, died yesterday. He had been a member of the Academy of Music and adjoining property in Rochester, N. Y., the total loss being \$100,000.

At Charleston, S. C., the American savings bank was placed in the hands of a receiver with liabilities of \$100,000.

During a windstorm the bridge of the Enterprise colliers was blown down Indianapolis, Pa., causing \$100,000 a day.

Town Marshal C. C. Runyan and Alfred Allen killed each other in a fight at Jackson, Ky. An old quarrel was the cause.

Throughout Austria the fifth anniversary of the accession of Emperor Francis Joseph to the throne was celebrated.

Willis P. Biessel, a teacher in Canton, N. Y., committed suicide by jumping from the new suspension bridge at Niagara Falls.

For the first time in our history the United States in 1898 exported manufactured articles of greater value than were imported.

Philip Metz, aged 35, a dealer in paper, known as "the heaven's man" at Hamlin, weighing 422 pounds, committed suicide.

A flour truck was formed in New York to control nearly all the product in this country and the same of three-fourths of the world.

A snowstorm which swept over Detroit, Mich., and vicinity was the worst experienced in many years and caused an enormous amount of damage.

The nitroglycerine powder of the Hudson Powder Company blew up at Pineale, Cal., killing Superintendent Charles Kennedy and four workmen.

R. B. F. Pierce, general manager of the Indiana and Western railroads, died suddenly in Indianapolis. He was an ex-member of Congress.

Gen. Terencio Sierra has been elected president of Honduras. He is a graduate of the West Point military academy and spent several years in this country.

A snow, sleet and windstorm in Indiana, Ohio, Pennsylvania, New York, Massachusetts and Maryland did great damage to property. In Baltimore 800 houses were unroofed and telegraph poles and trees were leveled.

A PROSPEROUS YEAR.

The Present One Has Exceeded All Others in the Amount of Business Transacted.

New York, Dec. 3.—Broadstreet's weekly report of stocks shows:

"The business world enters on the closing month of the year with so many favorable circumstances that it is safe to say that we leave little doubt that the year 1898 is a most successful one, and that the year 1899 will be even more successful.

PINE COUNTY PIONEER

AD C GOTTHEY Editor and Prop.
Entered at the Pine City Post Office as Second
Class Matter.

PINE CITY, MINN., DEC. 9, '98.

The Pioneer's Birthday.

We are fourteen years old to-day,
and Pioneer printing well.
Thank You.

With this week's issue THE PIONEER completes its fourteenth year of existence on earth. Pine City was its birthplace and has been its home ever since, and we will continue the publication (D. V.) for years to come.

During our sojourn here we have endeavored to give our readers the news of the village, town and county as nearly correct as can be ascertained. We have no enemies that we know of and would do as much for another, regardless of position, politics or religion.

The columns of THE PIONEER have always been open to anyone who had any suggestions to make, or anything else that was elevating, or of general news, but during all of its existence it has endeavored to give to its readers a paper that could be taken into any home, and placed before children, avoiding all slush that would tend to degrade.

We have had many ups and downs during our stay here—but we have been wiped out by fire, but we arose from the ashes, brighter and clearer than ever, with a new dress and new presses, and to-day we have the best equipped print shop on the line of the St. Paul & Duluth road. What little we have made was made here, and has also been invested here, and will still continue to be us long as we reside here.

We aim to patronize those who patronize us, and are always ready to lend a helping hand for anything that will benefit our village.

During the last three months the subscription list of THE PIONEER has increased wonderfully, and it has to-day the largest list of any paper in this section of the country.

We thank our many friends for their patronage through these many years, and wish them all kinds of prosperity, and we hope that our future relations will be as pleasant as in the past.

The Rev. T. DeWitt Talmage, in a sermon published in the Christian Herald, expresses in very forcible language, some strong arguments in favor of imperialism. In the following extract he says: "First, let us put upon the cradle of the new century a new map of the world. The old map was black with too many barbarisms, and red with too many slaughters, and pale with too many sufferings. Let us see to it that on that map, so far as possible, our country from ocean to ocean is a Christianized continent—schools, colleges, churches and good homes in long line from ocean beach to ocean beach. On that map Cuba must be free. Porto Rico must be free. The archipelago of the Philippines must be free. When we get those islands thoroughly under our protectorate, for the first time our missionaries in China will be safe. The atrocities imposed on those good men and women in the so-called Flowering Kingdom will never be resumed, for our guns will be too near Hong Kong to allow the massacre of missionary settlements."

CONTRACTS have been completed for the sale of the Hawaiian sugar crops for 1899, 1900 and 1901 for the whole of Hawaii. Of the total crop 100,000 tons will go to San Francisco refineries, 100,000 tons will go to New York, and 5,000 tons of dark grades will be shipped via Cape Horn.

In the last week's issue of the Pine City Post we notice that THE PIONEER was started by H. P. Robbie. The same name that now appears at the masthead of this paper is the same name that appeared there four years ago, when Vol. I, No. 1, was issued. You have got a little mixed, sister Lee. H. P. Robbie once owned and edited the Pine County Record, but it died a natural death some time before THE PIONEER was born.

JOURNALISTIC SNAP SHOTS.

Items of Interest, Wise and Otherwise, Gleaned from the Pioneer's Exchanges.

We observe by the last week's Kenai County Times that Mora has offered a bonus of \$1,500 to the party putting in a grist-mill at that point.

The Rush City Post attained its twenty-fourth birthday last Friday. THE PIONEER extends greetings, and wishes the Post continued success.

Cars of sugar beets are being shipped daily from Winthrop to the factory at St. Louis Park. The beets from that vicinity tested the highest amount of sugar of any raised in the state.—Fairfax Standard.

Mary Kodak was married to John Hondek at Pine City the other day. John is probably carrying a gun for the benefit of those vampires who will make insidious references to the motto "you press the button, etc."—Stillwater Prison Mirror.

A Duluth printer by the name of J. A. Dollar has purchased the Ely Times, and will conduct it as a republican paper. The new editor is distinguishable from most printers, and nearly all editors from the fact that he will never go broke. He is a jay who can always claim to have at least A Dollar to his name.

Taylors Falls Journal.—The S's of the navy are jumping on Shafter for his conduct at Santiago. They argue that soldiers were cheaper than ships. Congress might withhold those promotions until the generals, commodores and admirals are done quarreling.

Taylors Falls Journal.—A move should be made by our citizens to have G. H. Hazard retained as Park commissioner, by Gov. Lind. A meeting of the Park association could be held, and petitions and resolutions sent in to the Governor, giving expression to the wishes of those having in view the best interests of the State Park. In a matter of this kind we do not see that political belief should interfere.

Last week the Rev. Higgins confided to several of his flock that by mistake he had given a news boy in Duluth a five dollar gold piece instead of a penny for a paper. This same five the worthy brother had received for duties performed as a member of an election board. As we all remember, Mr. Higgins devoted a lot of lost motion to the cause of Towne and had cruel things spoken of him by unfeeling editors. So with the defeat of Charley, etc., etc., this comes as the crushing blow that almost killed poor father—Nickerson correspondent Pine-County Courier.

Prophetic lay of the poet of the Powhatan Post.—"The fool-killer mopes by his cave in the glen, all the livelong day and the night, while his victims throng in the haunts of men and flourish and thrive in their might. The fellow who croaks at another man's jokes and laughs in hilarious tone, at every mistake will sinner and bake when the fool-killer garners his own. The man who tries hard to show off his shape, the brainless insipid galoot, who goes to a picnic and puts on a cap or a bonnet, and tries to look cute, will meet a sad doom in the gathering gloom and the world will not sight at its moan, when he feels the kerwhack on the small of his back and the fool-killer gaveth his own."

Pains in the chest when a person has a cold indicate a tendency toward pneumonia. A piece of flannel dampened with Chamberlain's Pain Balm and poulticed to the chest over the seat of pain will promptly relieve the pain and prevent the threatening attack of pneumonia. This same treatment will cure a lame back in a few hours. Sold by J. Y. Breckinridge.

Pruning of Trees and Shrubs.

When grown under similar conditions trees of a particular species or variety assume shapes characteristic of their class and of such growth. Any variety when crowded tends to grow straighter and taller, making better timber trees, while trees of the same variety grown in open situation take on entirely different forms, being more branched and spreading.

By judicious pruning we can often greatly aid nature in shaping a tree in a desired direction, but it would be folly to grow them in forms antagonistic.

Pruning should be avoided as much as possible, and practiced only enough to secure the desired form for the purpose intended. Better leave to nature entirely unless we have an idea from the start as to the end we wish to accomplish. Yet a few general suggestions on the subject may not come amiss to those interested in tree growth.

If a little pinching back is done while a tree is young, or removed of small branches which might develop undesirably, no great amount of pruning need be done at any one time. But where a large amount of wood is to be removed, (unless it is dead, which may be removed at any time) the best time is when the tree is in a dormant state, preferably in the spring, before the growth starts June is also a good time to remove smaller amounts. If done at such times the wounds heal over with the least danger of permanent injury to the tree. Close and even cutting should be the rule, and all larger wounds should be painted over with white lead, to prevent decay.

Especially should these points be considered in the trimming of our less hardy trees, such as the cherry, apple, mountain ash, and catalpa. The harder sorts may be safely pruned either in the fall, winter or spring; preferably where there is no frost in the wood, as then splits and cracks more easily, and bad woods are more liable to be made. Where limbs cross or rub against one another, it is generally best to remove one of them.

Some trees, like the soft maple, are very liable to split in the crotches, or have limbs broken down by winds, etc., and hence need watchful pruning. Long limbs should be cut back, and where poor crotches are being formed some of the branches should be cut back, leaving the straightest so as to form a leader of it.

Topes of trees quite often get broken off through accident, in which case a little pruning will greatly assist the tree in utilizing one of the braches as a leader.

The foliage acts as the lungs of a tree, and hence the removal of a large amount at any one time during the growing season must necessarily be a serious set back to the tree.

In transplanting trees all bruised or broken roots should be removed, and the top shortened in proportion to the loss of roots. In all cases good roots should be looked to and pruned above tops.

In setting out street trees, small trees will generally make fully as fine trees as larger ones, but require more careful watching. The trees generally used for this purpose are long and slender, trimmed bare of branches, the tops being cut off at a height of eight or ten feet from the root. But it is more desirable to have a few lower branches left on if possible, and cut them back to be trimmed off in a year or two, after the tree has a start. This gives a leaf surface, which materially aids in the starting of upper permanent branches. Street trees should be pruned a little for a number of years, to encourage growth in the right direction.

Trimming the Evergreen.

The main objection raised to the pruning of evergreens lies in the fact that there is a continual exudation of resin from the wound. Where grown for timber or hedge purposes, pruning is without doubt beneficial or necessary; but otherwise, as ornamentals or shelter belts, their natural form, with low-spreading branches and towering tops by far the most pleasing and desirable. In hedge planting, where the prime object is a screen, or border, and not for the exclusion of stock, one of the most beautiful trees that can be used is our common arbor vitae, or cedar. It beauty, as such, largely depends on the skill exercised in pruning. Mr. Gardner, of Osage, Iowa, a well-known authority on the growing of evergreens, offers

the following suggestions on the shaping of conifers:

"They can be made to grow in any required shape. Suppose the pines or spruces or arbor vitas are two or three feet high, and you wish to grow them in symmetrical cone shape. When the new shoots have obtained their full length the latter part of June or early July, cut all the new growth back to one inch for even balance all around. Do not cut the leader. During the remainder of the season buds will form on the shrubs of new growth. Buds will also appear bursting through the bark on the one-year-old wood, and frequently from the two-year old. But for the cutting back of the shoots these buds would forever remain dormant. If the trees are of considerable size, say five to eight feet, and have never been trimmed, then, early in the spring, cut off all the branches that hang over a lower branch. Make the lower branches the longest, and each succeeding set as you go up, should be shortened in.

"At the proper time, when the tree has completed its new growth, cut it back as in the first case, to about one inch, where it is desirable to do so, to fill up a space, for instance. If you wish to dwarf a tree and keep it for many years about the same height, then when you are cutting the new growth in the latter part of June, cut the leader back also.

"This clipping back the new growth must be repeated year after year for the best results. The longer it is kept up the more dense the foliage of the tree will be. The cutting back of the new growth is best done with a pair of hedge shears, blades about eight inches in length, such as nurserymen generally use."

GEORGE W. STRAND,
See Minn. Forestry Ass'n.
Taylors Falls, Minn.

Terrier, Salt Rheum and Eczema.

The terrier, salt rheum and eczema incident to these diseases is instantly relieved by applying Chamberlain's Eye and Skin Ointment. Many very bad cases have been permanently cured by it. It is equally efficient for tinea capitis, favorit, remedy for sore nipples, chapped hands, chilblains, frost bites and chronic sore eyes. 25cts. per box. For sale by J. Y. Breckinridge & Co.

LIST OF PATENTS

Granted to Minnesota inventors this week. Reported by C. A. Snow & Co., Washington, D. C.

J. Mealey, Howard Lake, tracing tool buckle. A. E. Peck, Minneapolis, bicycle saddle. A. Pinelock, Sandstone, hay loading attachment for wagons. J. Wilhelm, Wheaton, cattle-gate for railways. C. Young, Mendota, truck.

For copy of any of the above patents, send ten cents in postage stamps, with date of this paper, to C. A. Snow & Co., Washington, D. C.

PINE COUNTY PIONEER

TERM \$1.50 A YEAR IN ADVANCE
PINE CITY, MINN., DEC. 9 '98

CHIPS AND SHAVINGS.

Send Clippings picked up Around Town and Shavings Clipped from Exchanges.

Bring your Potatoes to the Wilcox Mercantile Co.'s store.

The Wilcox Mercantile company want potatoes, and want lots of 'em.

Don't forget your Fire Insurance. Call on J. Y. Breckinridge.

Highest market price paid for potatoes, by the Wilcox Mercantile company.

P. O. Nelson, who has resided here since last spring, left for Hills, Minn., last Tuesday.

Hon. L. H. McKusick spent a few days in St. Paul the latter part of last week, on legal business.

Farm wanted—Send full particulars, price etc., at once. A. H. Russel, Akron, O.

Services in the Presbyterian church next Sunday as usual. Morning, 10:30; evening, 7:30. Everybody invited.

Mrs. Louise Brackett expects to attend school at St. Cloud after the holidays until her school opens again in the spring.

We are pleased to state that Mrs. E. L. George is daily improving, and expects to be around again before long.

Mrs. N. A. Crittenden and her daughter Gertrude departed last Tuesday for cities below, to be absent a few days.

Mrs. Brades departed on Saturday last for Mora, to spend a few days visiting with her daughter, Mrs. Wm. Staples.

When in need of Letter Heads, Note Heads, Bill Heads, Business Cards, or in fact, job printing of any kind, call on the PIONEER.

Do not forget the date of the Ladies' of the M. E. church sale of fancy goods—Tuesday Dec. 15, at Hurley's hall. All are invited.

Chamberlain's Cough Choleric Diarrhoea Remedy can always be depended upon and is pleasant and safe to take. Sold by J. Y. Breckinridge.

Cord wood never came in faster than it has this fall to our village, coming from all directions, and in a steady procession that would remind you of a funeral.

Bernie Vaughan, who has been quite sick, is at present somewhat better than he was at this time last week, and strong hopes are entertained for his recovery.

George Vanhoen leaves tomorrow for Chicago, where he goes to accept a position with his brother Etta, who is in the coal business there. Success to you, George.

We will send THE PIONEER and "Word and Works," Rev. Irl Hicks' famous publication to any address for one year, for \$2.00. This offer only holds good until Jan. 1 next.

The young folks of our village had a quiet little dance in Hurley's hall on Wednesday evening. Quite a large crowd was in attendance, and an enjoyable evening was spent by all.

Miss Louise Braskett is finishing the last few weeks of Miss Babcock's school at the Bartlett school house. Miss Babcock gave up her school to administer to the wants of Mrs. E. L. George.

It fills the arteries with rich red blood, makes new flesh, healthy men and women. That's what Rocky Mountain Tea will do.

J. Y. Breckinridge.

Hot WOODEN!— Pine City Camp No. 3179 will meet Monday evening, Dec. 12. Election of officers, and other business of importance will be transacted. A full attendance is desired. W. J. GOTTRY, C.

The Pine City Milling and Elevator company this week shipped 500 barrels of the "Pride of Pine City" to the eastern markets. Mr. Allen states that orders are daily received from eastern markets for the products of his mill.

In our last week's issue we announced that Messrs. Dunn & Marais had purchased the two saw mills in this village, and so we were informed by the gentlemen themselves; but we have since learned that they have given up coming here and have accepted an offer made them from some point in Wisconsin. The mills will be operated as before by the owners, and there will be a market for all the logs coming into town, just as before.

Attorney Elmquist, of Rush City, was in this village the latter part of last week.

A man that waste his wife to tremble with pleasure and delight in his homecoming should be strong. Rocky Mountain Tea brings new life to weak men. J. Y. Breckinridge.

Don't be persuaded into buying something said to be just like Rocky Mountain Tea. There's nothing made or sold like it. It alone is nature's wonder. J. Y. Breckinridge.

Services at the M. E. church as usual next Sunday. Morning service at 10:30; Sunday School at 11:45. Supper League at 6:45 p.m. Evening services at 7:30. Everybody is cordially invited to attend these services.

There will be a regular meeting and election of officers of Riverside Circle, L. G. A. R., at G. A. R. Hall, Tuesday afternoon, Dec. 13th, 1898. All members are requested to present. CLARA J. ALMCKUR, Secretary.

The Ladies of the M. E. church will hold their annual Christmas sale Thursday Dec. 15, at Hurley's hall. Dinner and supper will be served, and a line display of fancy and useful articles will be on sale at reasonable prices during the day and evening.

Do not fail to attend.

Meier Bracewell has accepted a position for Mulvey & Carmichael, keeping track of the log marks on the logs put in by the contractors who are drawing in the logs from the overflow along Snake River. His job will last until spring, as there are a good many logs to put into the flume.

Edward Bork, of Kimball, has moved his saw mill outfit down onto section 3, township 39, range 29, where he will operate the same the coming season, sawing all kinds of lumber. A. E. Webber will be on hand to purchase all the hard wood that comes in, and will pay the highest market prices for the same.

Cord E. L. Seavey spent Tuesday in St. Paul, and while there pursued a fine large team of blacks to take to the woods. He shipped his outfit of horses and camp fixtures on Wednesday night. The Captain says that if the weather keeps good and he has no bad luck, that he will have as many logs in by spring as he had last season.

Abe Swanson has moved his jewelry shop into the drug store, where he can always hereafter be found as polite and courteous as ever to his many customers. We are pleased to note that Abe has had a good business since opening up here, and by the stock of jewelry he carries one would judge that he is slowly, but surely coming to the front.

Jeremiah D. Ballard, an old resident of Taylors Falls, died in Minneapolis on Wednesday, Nov. 30, aged about 78 years. The remains were laid to rest in Kabukabong cemetery, at Taylors Falls, beside those of his wife. Mr. Ballard was beloved and respected by all who knew him, and the memory of his genial, kindly disposition will ever be cherished by his friends.

The concert given at the M. E. church last Monday evening by Miss Sinclair, of Boston, assisted by local talent, was not very well attended, but all who were present speak in the very highest terms of the entertainment, and express themselves as desiring to hear Miss Sinclair again, which may be arranged for on her return trip about three weeks, and should she again appear before a Pine City audience it would be much larger than the one that greeted her on Monday evening last.

A new sign now adorns the front of F. E. Smith's hardware store, which is neat and attractive.

Work on the Chengwatawan dam is completed, and the crew has been at work for the past week, building piers and making booms for the sluiceways. They expect to have everything done by Saturday night.

On Monday Mr. Lang, the contractor, was in town, and straightened up all of the accounts against the dam, and when the crew leave here they will go to Clouquet, where Mr. Lang has a contract that will take until late in the spring before it will be completed.

Dr. Cody's Condition Powders

are just what a horse needs when in bad condition. Tonic, blood purifier and vermifuge. They are not food, but medicine, and the best in use to put a horse in prime condition.

Price 25 cents per package. For sale by J. Y. Breckinridge & Co.

ROCK CHERRY
Felix Wilson has moved into the Leighton house.

J. W. Bassett spent last week in St. Paul, on business.

E. L. Peterson arrived home from Britton, S. D., last week.

Seventy-five cars of wood were shipped from here to November.

August Shogren, left for St. Paul on Thursday of last week on a short trip.

John Bjorkman has rented the Nash McKay farm for the coming year.

Ben Foster killed his second wolf this fall, last week, and still there are some left.

Mrs. J. P. Holmberg and Miss Nellie Peterson made a flying trip to St. Paul Saturday.

Miss Heywood, of Pine City closed a successful term of school in the D. S. McKey district Friday.

J. H. Walton has moved his family to Rush City for the winter, while he goes to the woods to work.

The work on the new M. E. church is being rushed, and the work is progressing nicely. The building is located just east of the school house.

Messrs. Alex Dunn and Gust and Oscar Olson arrived home from Duluth Monday, where they have been working in the woods in that vicinity.

Dunn & Marcia are going to move their saw mill to North Crandon, Wis., on the Soo Line, where they have purchased a mill site, and will log this winter.

Mr. and Mrs. Henry Earl arrived from Malone, N. Y., Thursday of last week, and will make this place their future home. Mrs. Earl is a sister of Mrs. H. L. Bassett.

Among the teachers from here who went to Willow River to attend the Pine County Teachers' Association were Misses Lizzie Badger, Anna Hambleton and Mae Gorman.

The Minnesota Telephone company have their line completed as far as Pine City, and the instruments will soon be put in. Their station will soon be in Gilman & Marion's store.

News has been received that Ed Ben, who left for LaConnor, Washington, a couple of months ago, with his family, died at that place of heart failure, a short time ago. Mr. Ben is well known here, having lived here for twenty years.

MEADOW LAWN.

John Kilgore, while at work making a road, cut his leg quite badly.

Parties from Spring Valley, Wis., stopped with J. F. Holler one night this week.

There are rumors of a big time here Christmas, as the teacher is preparing for it.

The new saw mill for this place is being hauled to the site, it being shipped from Barum.

In last week's issue I noticed that my foundation was bit by frost. So if don't affect my understanding, so if you want land call on S. Kilgore.

Mr. Hardin Norris, clerk of the drug store of R. Shoemaker, Perry, Ill., says: "A man came into our store the other day and said, 'I want a bottle of that stuff that saves children's lives.' I read in the News about it. The children may get sick when we can not get the doctor quick enough. It's the medicine you sell for crop." He alluded to Chamberlain's Cough Remedy and bought a bottle before he left the store. For sale by J. Y. Breckinridge.

Two Pointed Questions Answered:

What is the use of making a better article than your competitor so if you can not get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionably popular put forth with exaggerated claims, but are certain to return to the one reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy.

For sale by J. Y. Breckinridge.

Pine County Teachers Meet.

The teachers of the Pine county schools met at Willow River, on Saturday last at 1:30.

The meeting was called to order by R. H. Blankenship, the President. The program for the afternoon's entertainment was opened by a paper prepared by Prof. Johnson, of Hinckley, and read by Prof. Hay, of Sartell.

"Music in the Public Schools," after which a discussion on the subject was held in which several of the teachers took part.

Assistant Superintendent Hyde was present, and took part in the discussion, and delivered an excellent address, "Books."

Miss Jenny Badger of this place, exemplified the workings of the little folks in the kindergarten. Miss Mae Gorman, of Rock Creek, entertained the association with a recitation, and Miss Aznes Lowe read a paper on "Arithmetick." Pine City was selected as the place of holding the next meeting, which will be held the first Saturday in February.

The citizens of Willow River, in the evening, prepared an entertainment and dance, which was well attended.

The dancing continued until twelve, with Mr. Rail assisted by an able corps of waiters served the assemblage to chocolate, sandwiches, pickles and cake.

After supper the guests that were going south adjourned to the depot, having spent one of the pleasantest evenings of the season. The people of Willow have every reason to feel proud of the success attending the teachers association, and those in attendance will not forget the royal manner in which they were entertained.

In another column of this paper you will find a good offer to those in arrears on the PIONEER, and to new subscribers. Read it and take advantage of the same, as the offer is good until Jan. 1st, 1899.

We are desirous of increasing the subscription list of the Pioneer sufficient to warrant us in getting a power press. We now have the most complete job office on the line of the St. Paul & Duluth railroad, and we intend by the first of April to increase our job material so that we will be second to no job office outside of the twin cities, and we want to give our subscribers as good a paper as there is in the country. With a power press we will be enabled to get out a better paper, as we will have more time to devote to it, the time saved in running being quite an item. We will take cord wood or produce such as potatoes, hay, oats or anything that we can use from those that are in arrears, so as to assist them in paying up and taking advantage of this offer.

Change in the Northwestern Cycle Company.

The Northwestern Cycle Company of Minneapolis, one of the best known cycle houses in the northwest, has undergone a change in ownership, the interest of Mr. Pawless having been purchased by Chas Litzky, who for many years has occupied a responsible position in the executive department of the Soo railroad. The Company have secured the exclusive agency for one of the best wheels manufactured, and are better prepared than ever to meet, both in price and quality, the wishes of wheelmen. Do not purchase a wheel without asking the Northwestern Cycle Company, corner of 6th St. and 1st Ave., Minneapolis for their catalogue. The repair and supply department has been made more complete than ever. Mr. J. F. Rivers, who founded the company, continues associated with Mr. Litzky in the business.

The Rev. Irl Hicks,

Annual Almanac and monthly paper, WORD AND WORKS, are now known from sea to sea. We are pleased to call the attention of our readers to the Almanac for 1899, now ready. It is a splendidly printed and illustrated book of 116 pages, and the storm forecast and diagrams and astronomical and scientific matter are superior to anything that has ever been seen before in a 25 cent book. His monthly journal, WORD AND WORKS, is one of the best literary, home and scientific magazines in the country, besides containing his monthly storm forecasts with explanations. The subscription price of WORD AND WORKS is \$1.00 per year and a copy of Hicks' Almanac is sent as a premium to every yearly subscriber. Single copies of WORD AND WORKS, 10 cents. Price of Almanac alone, 25 cents. Send your order to WORD AND WORKS PUB. CO., 2201 Locust street, St. Louis, Mo.
