WASHINGTON LETTER.

(From Our Regular Correspondent.)

WASHINGTON, JULY 15th 1901

Philippine facts at first hand are likely to be a specialty in the discussion of that subject, during the coming Congress; as a number of Senators and Representatives, of all parties, are either already over there or are on the way with the avowed intention of gathering facts to be laid before Congress. That some of these men will make the trip is mere pleasure-junket, and that all of them are making it at the expense of the government, is true, but it is nevertheless a good thing that so many of the men who will be called on to legislate for the islands, will visit them before Congress meets. They will all find out some things, and Congress and the country need all the facts that can be had about the Philippines. To legislate intelligently for these islands is going to be one of the hardest problems ever tackled by Congress, and it will be impossible to have too much information about them.

† † †

Although it was estimated that the reductions in internal revenues made by the last Congress would reduce the revenues of the government from \$40,000,000 to \$50,000,000 a year, the receipts from internal revenues for the first half of this month, when the reductions have been in effect, have exceeded those for the first half of July last year by about \$1,000,000. This has been somewhat puzzling to Treasury officials. The only explanation they offer is that changes in rates of taxation caused many manufacturers to accumulate goods, thus necessitating unusually large purchases of stamps as soon as the new law went into effect.

† † †

The Civil Service Commission has referred the charges against the Collector of Internal Revenue at Louisville, Ky., of having violated the Civil Service Law, to the President, with its views, which sustain the charges. It is not regarded probable in Washington that the President will soon take any action on the charges.

† † †

Hon A. B. Kittredge, who has been appointed by the Governor of South Dakota to fill the vacancy left by the death of Senator Kyle, will be one of the youngest men in the Senate, as he is just forty.

† † †

Comptroller Dawes has ordered an assessment of 100 per cent on the \$500,000 Capital Stock of the Seventh National Bank of New York City, which recently closed its doors under sensational circumstances, for the protection of depositors, who will, it is said, not receive more than 50 per cent anyway. The investigation to determine whether criminal proceedings will be taken against any of the officers of the bank is still going on.

Secretary Long has ordered the frigate Minnesota, one of the historic vessels of the old navy to be stricken from the naval register, and she will be sold at auction at Boston, where she now is. The Minnesota was built at the Washington navy yard in 1855, and was the flagship of Admiral Goldsborough in the battle between the Merrimac and the Union hosts in Hampton Roads the day before the Monitor engaged the Merrimac.

† † †

A Boston man, now in Washington, Mr. Martin Cassell, advances a new reason why Uncle Sam should own everything this side of the Atlantic. He said: "The escape and arrest and subsequent release of the Boer prisoner, Du Plessy, goes to show how necessary it is to the interests of the United States that we control and own not only all the West Indies and the islands around our coasts, but even Canada. A new International question which might get us into serious complications could arise at any time over

the actions of European powers which have territory or possessions on this side of the globe. Here are our English cousins forming pens for the Boers. One of these days some of our people who sympathize with the Boers will raise the cry 'No prison pens on this side of the Atlantic' and then we will be forced into trouble; that is, if we are to follow out the policy adopted in the case of Cuba. Blaine's idea that we should dominate completely all this hemisphere, was the correct one, and in such a course our ultimate safety and peace will be found."

† † †

Col. Bingham, Superintendent of public buildings and grounds has made a record that opened the eyes of some of the old time spenders of Congressional Appropriations, who have always made it a rule to spend the last cent of an appropriation made for any given purpose, by putting a new and thoroughly up-to-date electric elevator in the Washington Monument, and having a balance left over of the appropriation of \$26,500 for that purpose. The new elevator, which with the exception of that in the Eiffel tower in Paris, is the largest in the world, will be greatly appreciated by visitors, as during the last three months the only way of getting to the top of the monument has been by walking up the steps and an ascent by that method, of 550 feet is not pleasant even to the most robust, in warm weather.

† † †

Secretary Hitchcock says there is no truth in the sensational stories concerning a clique of land speculators making entry for homesteads in the Oklahoma reservations in the names of honorably discharged soldiers and sailors, and that the regulations make it impossible to carry on a scheme of that sort of sufficient magnitude to make it pay.

† † †

Secretary Root, accompanied by General Gillispie, Chief of Engineers and Col. Randolph, Chief of Artillery, left Washington Saturday night on a tour of the Western Military Posts, which will take about ten days.

† † †

Eastern Star Rises at Pokegama.

Hotel De Burgmann picturesquely Pokegama was alive last Saturday afternoon with a happy constellation of Stars, mostly of the feminine gender, which included the elite of Pine City, Rush City and North Branch.

The party were the guests of J. F. Stone and notwithstanding the hot weather the program was carried out to completeness. There was a ride on the steamer, supper at Bergman and numerous yachting parties, chaperoned by that Prince of sailors Commodore Cooley, on the lake. Mrs. F. W. Lee and family and their guest S. W. Foreman, of St. Paul, remained over Sunday, and enjoyed all the pleasures that could be gotten out of an ideal day for sailing. Mr. Foreman returned to St. Paul Monday night after taking an impromptu bath in the super-flowage of Chengwaham dam—but he well—really did not call it that kind of a dam. The pimekkies spent a part of the night after the return trip to Pine City at the cosy residence of Brother and Sister Harlo and it goes without saying that they were royally entertained.

Everything passed off just as it should and each mind was vividly impressed with an earnest desire to visit the beautiful lake again. There is no place in the wide world like Pokegama for drinking in the beauties of nature, and intoxicating the mind with a perfect happy rest.

\$1,000 for \$5.00

You can get this amount of insurance against Wind and Cyclones for above amount. Had you not better have this protection? Better think about it and act to-day.

PINE CITY, MINN.

The tiniest village in the world is on Long Island. Far out where the sand-tipped end of the island meets the ocean is a tiny, isolated hamlet. Fire is its name. Its population, according to the last census, is 10. Every man in the village holds an office. There are two dwellings.

It is, perhaps rather a curious thing that though king of England is such an excellent judge of horses, he has never seen one even so young as his son. Neither nor the duke of Cornwall has ever shown any leaning toward this pursuit, and it is not likely that the king will be seen driving his own carriage about London. On the other hand, the queen is very fond of her ponies in the country and all her daughters drive.

The preliminary report of the census of Ireland, according to the London Mail, confirms the position that the depopulation of the island continues with little abatement. Since 1841, when the population was 8,196,297, the population has fallen off 5,740,031. Of this number there was 1,922,339 born since 1841 in the great famine. Since then the loss has been more regular, and in the last ten years it amounts to 243,304.

The most costly state funeral which has ever taken place was, perhaps that of Alexander the Great, a round million dollars spent in Alexandria to his rest. The body was placed in a coffin of gold, filled with costly aromatics, and a diadem was placed on the head. The funeral car was embellished with ornaments of pure gold and its weight was so great that it took eighty-four miles more than a year to convey it from Babylon to Syria.

When the King of England goes a-traveling he does not jump into an ordinary train and take any vacant seat he can find, instead he has a special train which has railroads of its own right of way over almost any railroad in Europe. This car which is just beginning, has been set up for sumptuous construction for over two years. It is said to run very smoothly, and as soon as the necessary trials trips have been held, it will be turned over to His Majesty.

Roman, Sig. Marino Torlonia, recently made a bet with his friend, Sig. Silvestrelli, that with his automobile he could beat the railway time running from Rome to Cuneo, Sicily, a distance of 42 miles. Sig. Silvestrelli took the train on whose prowess he counted, although it does not appear that the engineer was induced to put on any extra steam, and Sig. Torlonia started with his automobile. The latter won in what seems to have been almost a neck-and-neck finish.

According to the Japan Times a new island has been discovered in the Sea of Japan. From a statement upon the subject it appears that the island is situated at a point between Ulung-do island, off Korea, and the Oki archipelago, off the coasts of the San-in-do, the distance from either being about 100 miles. No map ever published contains any reference to the island, which is reported to be about two miles in length, and about the same in breadth.

Private railway cars have always been associated in the popular mind with great wealth, but a plan has been developed which makes it possible for even a vanderbilt or business man in ordinary circumstances who wishes to enjoy the luxury of travel in a private car, built according to his own specifications. A car-making company in New York City buys old Pullman coaches, tears the inside furnishings out, and refits them according to the wishes of its customers.

In the corridors at Windsor stands a little statue of a man and on a shield emblem of seventeenth century Italian work, with sides of engraved rock crystal. Within this gorgeous setting lies wide open, on a satiric and a little bit of a racy book. It is General Tom's Bible. It is open at the gospel according to St. John. Below, a little plate bears an inscription recording the fact that the Bible was presented to Her Majesty by the master of General Gordon after his death.

The nations of Europe spend for military and naval purposes \$750,000,000. They have, however, an annual surplus of \$200,000,000, with six times as many in readiness for emergencies. It is estimated that each community loses at least \$200 a year for each man kept under arms and it is therefore evident that this is a wise expense. This sum, for all Europe, would amount to \$600,000,000, which, added to the \$750,000,000 paid out for military and naval purposes, would make a grand total of \$1,350,000,000.

A dinner of beautiful women, to which 150 fair guests sat down, was presided over by a man sumptuously dressed in the Champs Elysees, Paris, which under the management of an expert of the east, had the expense of 100 francs per person. Food, etc., were provided with the sole regard to their cost, while the convener was ordered from the most famous jeweler. The cost of the entertainment had to bear cost \$6,000, or over \$300 per plate.

MEN OBEY THE ORDER

Answer Promptly the Call to Quit Work in Steel Mills.

THE BIG STRIKE IS IN FULL BLAST.

Estimated Number of Idle Men at Close of First Day, 74,000—Many Big Plants Are Closed Down.

Pittsburgh, Pa., July 16.—Reports received from all sources connected with the great strike of the steel workers indicate that the members of the Amalgamated association had matters well in hand and that the strike order was generally observed. Few men have come out from the mills of the American Tin Plate company, the American Steel Hoop company and the American Sheet Steel company are located, told of the shutting down of these plants in large numbers. In many cases the plants had been shut down by the first strike order which affected the sheet steel and the hoop companies, myself, and after the strike order was given, the men of the American Tin Plate company with the single exception of the new mill in Monessen, which is still running. At the Amalgamated association headquarters it was stated that the strike order was given to the condition for which we have been preparing these three years and more, and against which we have repeatedly warned the public. President T. J. Shaffer morning, "The gratifying unanimity with which the Amalgamated association has organized and maintained a vigorous and sufficient refutation of the statements of interested persons on the subject of the strike order, is one of the officials of the Amalgamated association, and not of the men who are engaged in the strike. The workers appreciate the gravity of the present situation and the imperative duty of maintaining the strike. We know that we could not reach Saturday night in promulgating the strike order, and Sunday morning, because of the receipt of delegations from these lodges inquiring why they were not ordered out. They are out now, and so will remain until the companies concede the just demands of our men."

REPORTS SHOW EXTENT OF STRIKE.
Reports received at Amalgamated headquarters:
Every steel shop in Pittsburgh except the William Clark's Sons company is idle and all the sheet mills have closed down. Only one tin plate mill in this district is still running. The mills at Martin's Ferry, O., La Grange tin plate works and the Astoria Standard plant at Astoria, O., are still running. The Pittsburg (Pa.) works are all shut down. The Cambria company employs 1,000 men, and the Allegheny company 1,000 men, and they are all out. All the mills in the Cambria company are idle. There are practically no new developments in the strike situation at the Wells' (O.) plant. All the men employed in the mills are idle. The Amalgamated association. Orders were given to the mills to stop work at 12 o'clock noon and the fires were lighted in the furnaces, but there were not enough men to start the blast. During the afternoon a heavy rain fell in Cherokee county across the line in Kansas, preceded by half, beginning pastures and small grain immensely and bringing rain to a standstill. During the afternoon a heavy rain fell in the vicinity of Coffeyville, Eldorado and Wichita, Kan. At Coffeyville the people held a jubilee on the streets during the rain. Two counties west from Kansas City, in Jefferson County, Kan., a full inch of rain fell, which caused great damage. The temperature of 100 prevailed and hardly a cloud was visible.

OUTLOOK IN KANSAS BETTER.

Topeka, Kan., July 16.—The outlook in drought-stricken Kansas is much more favorable. The rain has fallen in the north and much more rain is expected. The Cambria company employs 1,000 men, and they are all out. All the mills in the Cambria company are idle. There are practically no new developments in the strike situation at the Wells' (O.) plant. All the men employed in the mills are idle. The Amalgamated association. Orders were given to the mills to stop work at 12 o'clock noon and the fires were lighted in the furnaces, but there were not enough men to start the blast. During the afternoon a heavy rain fell in the vicinity of Coffeyville, Eldorado and Wichita, Kan.

At Coffeyville the people held a jubilee on the streets during the rain. Two counties west from Kansas City, in Jefferson County, Kan., a full inch of rain fell, which caused great damage. The temperature of 100 prevailed and hardly a cloud was visible.

SECRETARY WILSON OPTIMISTIC.

New York, July 16.—Secretary of Agriculture Wilson is optimistic concerning the welfare of the western states as his home town is still in the grip of the great strike. "What we have in the great strike of the western states is not so bad as first attack," he says. "The next move would be the workers would not say. It is announced that the circular letter which was expected to be sent out calling on the men in the mills to return to work at a price of 10 cents an hour, was not sent. The officials here have little faith that the men will be induced to return to work." The officials here have little faith that the men will be induced to return to work.

JOHNSONTOWN, PA.

Johnstown, Pa.—Now that the great strike is in full development that consolidates the Cambria Steel company in this city are members of the Amalgamated association. The Cambria members of Pittsburgh lodges. The Cambria members of the association are now members of the strike. Prominent steel workers in the strike. Prominent steel workers call on the men here to go to the strike plant of the Cambria company will be here.

McKEESEY, PA.

McKeesey, Pa.—There was no excitement in McKeesey on account of the strike. David W. Rose, president of the National Tube plant are idle and no attempt was made to resume work at the date. The men are looking forward to an early settlement.

JOHNSON CITY, TENNESSEE.

Pittsburgh, Pa., July 16.—About 4,000 employees of the National Tube company, at McKeesey, were notified Monday an advance in wages of ten per cent. The men are not organized in the Amalgamated association. The association was making efforts to induce them to join the union. Several months ago the men demanded a ten cent advance, but were refused.

EELS TO MEET IN MILWAUKEE.

Milwaukee, July 16.—The reunion and general meeting of the independent proprietors of the hotel trade in this city, on July 23, 24 and 25. The city will be gayly decorated, and Mayor Rose expects about 100,000 visitors during the three days.

A HARD TASK.

Minneapolis, Minn., July 16.—Five persons, an engineer, two brakemen and two tramps, were killed in a collision of Missouri, Kansas & Texas freight trains three miles north of Minneapolis.

GRATE LOSS OF LIFE.

St. Paul, Minn., July 16.—Five persons, an engineer, two brakemen and two tramps, were killed in a collision of Missouri, Kansas & Texas freight trains three miles north of Minneapolis.

would not go out on strike. The Scottish iron and steel mill is also working and no signs of a strike are visible there.

GAINS TWO MORE MILLS.

In addition to the very general and in some instances rather unexpected compliance to the strike order, the Amalgamated association had added two more mills to its list, both of which were claimed by the Amalgamated to be beyond the reach of organization. When the William Clark Sons company mill at Thirty-fifth street, which opened all day noon, came to shift turns at night, none of the skilled men reported for duty, and the plant had to close down. Later the following was received concerning a mill considered by the Amalgamated as exceptional and loyal: "The Management of the Clarkson Hoop company is closed, and has been organized by district delegates of the Amalgamated association. The delegates arrived in town Monday morning and went to work immediately. By three o'clock in the afternoon, they had all the local men in the association, and left in the evening for Pittsburgh, after the arrival of a number of men who had held a meeting at night to elect officers and name their lodge."

SECRETARY OF AGRICULTURE TAKES A HOPEFUL VIEW OF THE SITUATION—EXTREME DROUGHT STILL PREVENTS CROPS.

Kansas City, Mo., July 16.—A portion of the drought-stricken southwest has been relieved by rain during the past 24 hours. Great good has already resulted to crops, and as there are prospects of a further downpour, it is believed thousands upon thousands of dollars will be saved farmers and stockmen. The effects of the drought on the production of grain and corn before a lasting benefit is done. In the portions of central and western Missouri, western Kansas and the territories still untouched by rain conditions remain unchanged, the temperature ranging from 98 to 105, the latter at Hutchinson, Kan. The rains, which come at intervals of from four to eight weeks, have reached southwestern Missouri and portions of one-third of Kansas, taking in the southeast corner of the Sunflower state from Riley and Dickinson counties down to the Oklahoma line. The first break came Sunday night, when fairly good rains fell in Barton and Green counties and in the Oklahoma border in Kansas, in Coffey and Chautauqua counties, and along the Union Pacific road in Riley county. These rains, while good, were not sufficient to place the broken crops out of danger. Monday morning a heavy rainfall fell in the vicinity of Joplin, Mo., and continued through the portion of the state around the Oklahoma border. In Riley, Barton and Green counties, and in Coffey and Chautauqua counties, and along the Union Pacific road in Riley county. These rains, while good, were not sufficient to place the broken crops out of danger. Monday morning a heavy rainfall fell in the vicinity of Joplin, Mo., and continued through the portion of the state around the Oklahoma border. In Riley, Barton and Green counties, and in Coffey and Chautauqua counties, and along the Union Pacific road in Riley county. These rains, while good, were not sufficient to place the broken crops out of danger. Monday morning a heavy rainfall fell in the vicinity of Joplin, Mo., and continued through the portion of the state around the Oklahoma border. In Riley, Barton and Green counties, and in Coffey and Chautauqua counties, and along the Union Pacific road in Riley county. News of the Week.

Chips Picked up Around Town and Vicinity.

NOTICE.

Hereafter all matter for publication and copy for advertisements must reach this office by Thursday morning.

An army of satisfied customers, recommend Golden Link flour.

If you have hogs or cattle to sell, call on J. J. Madden.

A nice fine of children's trimmed Leghorn Hats at \$1 price at the Big Store.

Miss Maud Tracy, of St. Paul is visiting this week with Miss Nellie Stoen.

The Board of Equalization met the first of the week, and transacted the usual routine of business.

One of the best assortments of cigars can be found at Krych's.

Go to Madden's for your flour.

A great thing for summer use, earlier flour, for sale at Madden's.

Heidi John, where were you last night? Why I was down to the Palace Clothing Co.'s, taking advantage of the 20 per cent sale.

See the proceedings of the Board of County Commissioners in another column of this issue. Read it over carefully as there is always some business transacted that is for the benefit of the taxpayers of the county.

The Pine City Mercantile company will use the lumber shed they purchased from Noah Adams for to store hay in.

Camp Helen Blazes on Mission island Mike Hurley chief in chief will entertain quite a party over Sunday, as the Misses Egan, Hurley and Perkins and master John Hurley of sandstone came down on Thursday's noon train.

B. H. Blankenship's new residence will be ready for occupancy as soon as the paint dries, and he will then be comfortably settled in a home of his own.

There will be a lecture given on Christian Education July 23rd in the event Day Adventist church. All interested in higher education are invited to attend. Seats free.

Buy only the best flour we make and guarantee it, Pine City Mill & Lector Co.

Remember this is the last week of 20 per cent sale at the Palace Clothing Co.'s. Take advantage of the day off on Saturday, the 20th of the month. All interested in higher education are invited to attend. Seats free.

Services will be held in the Lutheran church, Sunday July 21st as follows: Sunday School at 9:15 and evening at 10 o'clock a.m. After services the voting members of the congregation will meet.

Binding Twine at Smith's.

Judge F. M. Crosby came up on today to hold a special term of the District Court, which convened on today. The Judge was accompanied by his son Howard, who had him some views taken here three weeks ago. They are good and show that Howard is an artist of considerable ability.

Wednesday evening Miss Nellie Stoen entertained the young ladies in her village at her pleasant home on the north side of the river, or of Miss Maud Tracy of St. Paul. About thirty of Pine City's young ladies were present. The evening was spent very pleasantly.

Word was received this week from Bert Lambert, who is at Sioux City, South Dakota, receiving medical treatment, that he was feeling well, and the attending physician said he will be well again, in his many friends will be glad to see him. Bert is at the same place Willard was a year ago, and every one for him what they did for him can have no kick coming, they say that he has a much better chance than what Harry had for a much stronger constitution.

The best and purest fruit goes into our ice cream sodas, by and cooling this warm weather. You know the place, the Drug Store.

Each, the confectionery man's chewing and smoking tobacco kinds.

A Painful Accident.

Mrs. George Klumek, of Berwyn, met with a very painful accident on Sunday July 7th and will be confined to her bed for some time.

She was in a wagon driving to visit a neighbor when the team became frightened and ran away, throwing the woman out and fracturing her limb in two or three places. Mrs. Klumek is a very fleshly lady weighing over two hundred pounds and the suffering she will have to bear together with the warm weather is very hard on her. It is hoped by her many friends that she will be out again before long.

The Bird on the Hat.

Volumes have been written on the subject of the bird on the hat, and it is sometimes asserted that in spite of all, this decoration is worn more than ever. But this may be doubted. At any rate, any woman who chooses, and a great many do choose—to wear a hat unadorned with the defunct body of a bird, can do so nowadays without appearing either singular or ill-dressed.

The hope of the Audubon Society and of various other organizations for the protection of birds, is that the time may come when a hat trimmed with plumage will be as curious an object as the feather crown of an Astarte chief. One thing is certain, if fashion ever does take a decided turn in this direction it is unlikely that the old barbarous custom will ever come back. It is essentially ugly and unpleasant in its suggestiveness that it need only go out of style for a few years to be abhorred in its true light. But there are people who, if gloves and belts made of tanned human skin from the dissecting room happened to be abhorred, would wear them without more compunction than an Iroquois warrior felt in putting on his necklace of cut off human fingers.

The custom of decorating women's hats with the plumage of birds is probably as old as headgear itself, and may have arisen in part from the notion common to many savage tribes that the qualities of an animal slain become the property of the slayer. Moreover, before the invention of velvets, guaze and lace, the feathers of birds were among the most beautiful things available for the adornment of the human head. Tradition is partly responsible for the persistence of the custom in these later days.

But there is nothing pretty in later developments, however appropriate the wings or body of a bird might have seemed to the head of the hunter's wife. The modern hat is constructed to fit the modern face, and there is no beauty in the juxtaposition of a fair, intelligent, essentially civilized countenance and the body of a blackbird with its nest in a suggestive twist. It hints at ugly possibilities existing underneath the charm and grace of the wearer. As for the face which is not charming, or intelligent, or kiad, the bodies of two or three humming-birds or the head of an owl, speared with a hat-pin and surrounded with bows of ribbon, lead to such a visage as aspect positively sinister.

It would be unjust, of course, to assume that there is real cruelty under all this passive obedience to the dictates of fashion. But since hats and bonnets quite as becoming and pretty can be evolved without the bird decoration as can be devised with it, it does seem that women of sense and feeling might be contented without shocking the sensibilities of the Audubon Society and outraging the fitness of things by demonstrating a yearning for a species life after death. There was much sense to the rapture of the little boy who, when reproved by his pretty Sunday school teacher for ribbing birds' nests, and asked, in pathetic tones, where the mother was, replied, "She ain't sorrin' none, miss—she's on her hat!" There is no excuse of ignorance to be pleaded, for the parents that wear such express mean that wear full of multitudes of helpless little birds, since the feathers are best at the breeding season and the parent must be shot then. The fact that birds of particularly fine plumage are often skinned alive has also been made known, and the silence of woodlands and meadows, where the milliner's agent has been, speaks for itself. It is about time this senseless and cruel fashion should go the way of nose-rings and war-paint.

Personal.

People coming, going and gone.

Jas. Morrison, of Hinckley, was a county seat visitor on Tuesday.

Elise Morriest sold his residence south of the Catholic church the latter part of last week to Adolph Kima.

D. R. Davis, of Merriam Park, father-in-law of Dr. R. L. Wiseman, arrived in this place the first of the week to spend a few days rustication.

Paul Perkins, of Minneapolis, came up on Saturday and spent Sunday with his wife in this village. He returned with Sunday's limited.

M. C. Dean, of Hinckley, was a County seat visitor on Wednesday. Mike is a full-fledged farmer and has a beautiful place three miles east of Hinckley on the old government road.

Mrs. Amelia Cort, who has been in Duluth working for the past few months has been home on a visit since the Fourth. Returned to Duluth yesterday on the 11 o'clock train.

Nick Perkins departed the latter part of last week for the southern part of the state, where he went to purchase a team to use on the dray line. He is expected home sometime this week.

Mr. K. Smuckler departed on Friday last for a few days visit at Duluth with friends. She was accompanied by Mr. A. Popeney, of St. Paul, proprietor of the Palace Clothing Co., of this place.

Miss Laura Orme, of St. Paul, is spending a short time visiting her grandmother Mrs. Laura Sian. Miss Orme is a little miss of about six summers and is a great favorite with the young people that know her.

J. Bennett Smith, of the J. Bennett Smith Copper Mine, departed for his home at Wilkesbarre, Penn., on Tuesday, to be absent for a couple of weeks. When he returns he will be accompanied by his wife and daughter who will remain here for the balance of the summer.

C. P. Struble, who has been at work in the northern part of the state for the past few months, returned home the first of last week and will remain in these parts for a short time at least. It is hard to leave Pine county when you have once resided here. Isnt it Perl?

James Steele, of Dexter, Iowa, on Wednesday purchased 80 acres of land in 39 20 and will move his family up in a couple of weeks to commence work on the same. Mr. Steele says that there are a great many coming up in the near future to buy land in this part of the country.

Frank Brackett moved his family down to Chisago county for the summer on Friday last, where they will reside while Frank is away attending to his duties as County Surveyor. The family are at the home of Mrs. Brackett's parents, Mr. Sawyer, who lives one and one-half miles north of Rush City.

Mrs. Norrit Atkinson, of St. Paul, spent last week in this village visiting her parents Rev. Taylor and wife. Sunday Mr. Atkinson came up and accompanied his wife home on Tuesday. Mr. Atkinson has just returned from Chicago where he has been buying goods for Schummen & Evans for which firm he has worked for a number of years.

Jelly glasses and fruit jars at the Big Store.

Best Grade of Twine at Smith's Hardware Man.

Buy your binding twine at the Big Store.

Danger, disease and death follow neglect of the bowels. Use DeWitt's Little Early Risers to regulate them and you will add years to your life and life to your years. Easy to take never gripe. L. Y. Breckinridge.

If you don't think our flour is best try it, we guarantee it and our guarantees is good, Pine City Mill & Elevator Co.

Annual Meeting Elks, Milwaukee, Wis., July 23-25, 1901.

* Above occasion tickets will be on sale, one regular 1st class fare for the round trip.

Date of July 21, 22 and 23, returning limited to leave Milwaukee, not earlier than July 23rd, nor later than July 27th.

G. H. WHITE, Agent.

WANT ADS.

Advertisers will be charged 10¢ per word, and extra space, location, for each word for the first insertion and half as much for each additional insertion.

Atmospheric conditions being what they are, and space limited, we cannot guarantee delivery of ads sent in a week. Please send cash to accompany order. Nothing accepted for less than \$1.00. Cash initial and single copies as a word.

LOST.

On Sunday evening somewhere between the Brewery and Mrs. La Hodney's millinery store, a gold chain in shape of star with topaz centre. Finder please leave at this office or return to Miss Mary Brundtner.

FOR SALE.

The south-east quarter, section 17, township 15, range 14, Pine county, thickly settled, good county roads, schools, houses, churches, etc. A good farm and house and barn in Pine county and best buy in the state. Apply to Frank Daniels, or for further information, to Andrew Gilburg, Kerwick, Minn.

17-87

As a number of houses stand about four miles from Pine City, a good deal of good wells and buildings in good shape, except barn and material on the ground for new one. Reason for selling, going East. Inquire at this office.

Nick Perkins departed the latter part of last week for the southern part of the state, where he went to purchase a team to use on the dray line. He is expected home sometime this week.

Mr. K. Smuckler departed on Friday last for a few days visit at Duluth with friends. She was accompanied by Mr. A. Popeney, of St. Paul, proprietor of the Palace Clothing Co., of this place.

Miss Laura Orme, of St. Paul, is spending a short time visiting her grandmother Mrs. Laura Sian. Miss Orme is a little miss of about six summers and is a great favorite with the young people that know her.

Fourteen lots back of the Webster school house, fronting on the Branswick road. Terms for terms and particular calls at this office, or on John Whurn.

FOR RENT.

My brick store opposite the First State Bank, is for rent. Enquire of Mrs. M. Connor.

WANTED.

A good girl to do general house work. Apply at the Palace Clothing Co.'s store.

TRUE-HEARTED NAN

By Elizabeth Cherry Wallz.

(Copyright, 1896, by Authors by publication)

IT MAY not be much of a story for those who like to read about people that are rich and raised above common life and its necessities. All the comedy and tragedy of life are not in the world of wealth and luxury, so Nan had a story as well as bright brown hair and red cheeks.

Born on a northern Kentucky farm, with perhaps two full years' schooling in her life, married at fifteen to a boy of twenty, living steadily, well loved at fifteen with a babe of a few months, it may be seen that Nan at five and twenty, was well aware that there were some things in the world as poverty, suffering, struggle, good and evil, important loves and faithless friends.

Something awoke in her them. It was probably because of the chance meeting with a boy she had never known before man who was smoking on the wide porch of the summer house. She heard him as she went driving a flock of young turkeys across the grass plot. She heard him clearly:

"I wonder if any one knows she is handsome in her way."

"Who, Nan?" replied the hostess, turning languidly over in the hammock. "Really I never thought about it. What good does it do her?"

Then Nan, who had been of seventy sitting by added gravely,

"But Nan is good—which is better. There is not a soul about here but likes her because she is so ure herself."

"Handsome and unselfish," mused the man, "a rare combination. I am sure."

He noticed the woman again the next day as he rode about the place, saw her coming in from the great vegetable garden she had planted following her. She came fearlessly up the tree-bordered avenue, her sunbonnet in her hand, her russet hair blowing, her eyes shining. Behind her, old Billy carried a basket on his head containing a pheasant which caught Hector Pryn's artistic fancy.

"Equal to the French pensantry," he declared to his aunt; "a bit of American life that ought to go on canvas! I wonder if she would let me use her as a model!"

"She is a picture outside of this house," declared his sister-in-law, "and it might make her angry. I do not want to lose my cook on account of your need for a model;" but she laughed idly when she said it.

The white-haired mother came to her rescue.

"I remember when the old Philadelphia artists used to visit at our

large and languorous. It was too warm for the ladies even then. Miss Lily, with her hair in a bun, and Miss Pryn fed to him's interest that he was painting the picture he had ways to point to, something that was not quite true, but it made a life, vivid and beautiful. It is needless to say that Nannie was delighted with the picture. It seemed to her that she had awakened from a dream. She told her mother she was full of about growing sentimental existence. She forgot her hard life, her rough, red hands, her responsibility. Hector Pryn liked to talk to her, and she craved his society. Her mother commented: Then he made some extraordinary discoveries. Despite her hard work and wages, despite her constant endeavor, Nan was a perpetual pauper. Miss Lily had to wish her to help her from going ragged. For the boy, Louis, was a curly-haired scoundrel who was strictly forbidden the front yard because of his disgraceful appearance.

"How have you?" asked Hector.

"She has a horde of relatives," replied Miss Lily, calmly, "and some of them are always in want or are dying. You have heard her name? She is going to the theater?"

"What does she do with?"

"She has a home of relatives,"

"I don't think she is the usual kind of tea, Martha." What sort of packet did it come in?" Martha—"Faint?" I think, now the toy merchant said it came in a stamp-wrapped box.

"Who?" asked the boy.

"Faint Angel?"

"What's this, dear?"

"The other boy you have given some ribbons and a hat for the country fair, Nannie," said the artist, as he working industriously the next afternoon. "Miss Lily shall clean them. I am going to fix up a coat for him. He will not be a disgrace to Bonneair. And you must be a disgrace to Bonneair."

"It was marble cake,"—Philadelphia Bulletin.

PUNGENT PARAGRAPHS.

"That's a satisfied looking elevator boy." "Yes; the elevator is out of order and won't run."—Indianapolis News.

"What's the head? Why I thought her bright." "With she is educated, to be sure?" Say she is educated, head?"—Detroit Journal.

"In the nature of things summer engagements at the shore should be avoided. Why so?" "Because they are generally built on sand!"—Philadelphia Times.

A Reprover.—"Aren't you ashamed to go away and leave your wife in tears?" asked the near relative. "Oh, no," she answered. "I am a widow man; that's the way she has a good time when she goes to the theater."—Washington Star.

"My, what an ugly man!" exclaimed the girl who was a friend of tea, Martha. "What sort of packet did it come in?" Martha—"Faint?" I think, now the toy merchant said it came in a stamp-wrapped box.

"Who?" asked the boy. "I—I thought perhaps it was marble cake,"—Philadelphia Press.

"What does she do with?"

"She has a home of relatives," replied Miss Lily, calmly, "and some of them are always in want or are dying. You have heard her name? She is going to the theater?"

"What's this, dear?"

"The other boy you have given some ribbons and a hat for the country fair, Nannie," said the artist, as he working industriously the next afternoon. "Miss Lily shall clean them. I am going to fix up a coat for him. He will not be a disgrace to Bonneair. And you must be a disgrace to Bonneair."

"It was marble cake,"—Philadelphia Bulletin.
