## WASHINGTON LETTER.

(From Our Regular Correspondent)  
WASHINGTON, October 21st, 1901.

The Capital city is beginning to take on the activities of "the season" which covers the period of the session of Congress. Social circles are being reconvened, the theaters are in full play and the fall weddings are attracting the never failing interest. The period of official mourning for the dead President is ended and the politicians and lobbyists are assembling and laying the lines of their coming campaigns.

† † †

The most talked of event of the past week was the presence of Booker T. Washington, the Southern negro educator at a family dinner with the President at the White House. Southern comment upon the incident has been promptly condemnatory of President Roosevelt for what is considered a significant instance of "social equality". More conservative people are inclined to the view that the President, as any other man, has the right to choose his private guests at his pleasure. But few who know the President really believe that in honoring Mr. Washington as he did he meant to become the exemplar and champion of indiscriminate social equality.

† † †

The annual national convention of the devotees of Spiritualism has been in session here the past week, evoking the usual lively debates between the believers in the cult and those who declare it a system of delusion and "fakirism". Never less the representatives of the faith formed a body of earnest speakers who voiced no uncertain faith in the realities of a spirit world imminent upon our own visible world and whose citizens are yet capable of communicating with sympathetic souls still in the flesh. Occultism of any kind has a fascination for the curious and the convention was largely attended.

† † †

A local organization has been effected to promote the building of a fitting McKinley Memorial in this city. There is no purpose in this to interfere with the work of the national commissioners appointed by the President to further the erecting of a worthy memorial to the late President at his old home, Canton, in Ohio. Yet it is difficult to figure out how two such projects, each calling for a couple of millions of dollars, are to be expeditied simultaneously with success. It is to be hoped, however, that both plans can be carried out in fullest achievement.

† † †

Washington is becoming one of the greatest student centers of the nation. The several universities already here and the large number of private and technical schools for both sexes are drawing annually larger contingents of young men and women from all parts of the country. The departments of government are filled with young men, brought by Congressmen from their districts, whose chief purpose is to hold office only while fitting themselves in the night classes of the colleges for future professional careers. There are over three thousand such students in the city at the present time.

† † †

The announcement that General Miles, the head of the Army, will report in favor of the law abolishing the silver and beer canons from the army exchanges, has produced a sensation in the pro-temperance camps. The beer dealers are especially disturbed over the report and fear the influence of the open Congress. An effort is to be made this winter to secure the repeal of the prohibitory law, but it is not likely to succeed. A Congressional investigation will precede any legislation on the subject and that inquiry may develop facts that will support the law and convince Congress that the prohibition is a wise measure for the army.

† † †

The transfer of the army school

for engineers from Willet's Point, New York, to Washington Barracks, in this city, has been effected. One of the best modern schools of army engineering in the world is to be equipped for the training of our engineers corps. This is one of the most important branches of the military service and the honor men who graduate from West Point are assigned to it as a special mark of merit. With our new possessions that must be occupied and their reconstruction on our level of civilization, largely directed by our army officials, the engineering school becomes a doubly important institution.

† † †

At the White House there has been a great coming and going of public men during the past week. The President has been seeking the views of many leaders of his party concerning the topics of his first message and the legislation that should be most urgently stressed in the immediate future. Then the officers who were first appointed by President McKinley are facing the legal expirations of their terms and are most of them coming on to seek their reappointments, while those who wish to supplement them are less in evidence. Between the two and with Congress just ahead, the President is beginning to realize that being a President is not all that being a "biscuits and beans" dentist is.

† † †

The return of Ambassador Choate, from London is assigned to the new negotiations for a new and satisfactory canal treaty with England. A synopsis of the salient features of the treaty, under formulation, represents it in terms that must certainly prove satisfactory to the President and to Congress. It is hard to see, if the forecast be correct, what further concessions England could make after abrogating the Clayton-Bulwer treaty, and acknowledging our right to build, own, control and protect the Canal. Senator Morgan, the canal champion in the Senate, is sure the treaty will be promptly ratified.

† † †

The reports of Cabinet changes will not down. Cabinet Root has returned to the city with his family and declares that he has settled down for the winter and has no intention of resigning. Secretary Hay refuses to say anything except that he has not handed in his resignation up to this time. That he will do, so as soon as the Hay-Poncelet treaty is ratified is not doubted, and that Senator Lodge will succeed him is also confidently expected. Secretary Gage, whose declaration before the Banker's Convention, that he believes in the retirement of the greenbacks and the extension of the power of the national banks, is regarded as unfortunate, is expected to resign soon after Congress assumes. Assistant Secretary of the Navy, Hackett, has stated his intention to resign, and Judge Charles H. Darling, of Bennington, Vt., will succeed him.

† † †

The President goes to Yale University this week, where he will be invested with the honors of a Doctor of Laws. It is probable also that Harvard, his alma mater, will follow with similar honors next summer.

## PINE COUNTY PIONEER.

ED. C. GOTTRY, Editor and Prop.

Entered in the Post-Office at Pine City as  
Second Class Matter.

PINE CITY, MINN., OCT. 25, 1901.

BEFORE we go to press again Corologos, the assassin of our late lamented President, William McKinley, will have paid the penalty of his crime in the electric chair at the Auburn state prison in New York. Thus will go out another life that might have lived to a good old age if he had not listened to the teachings of such fanatics as Emma Goldman.

During the last campaign we were told by the Democrats that if the Republicans got into power they would not dare to take the burden of taxation from the shoulders of the people and place it onto the corporations. But just look at the record of the Republican legislature of 1901 and the word of equalization. The legislature passed the gross earnings bill, the primary election bill, the board of control bill, and the tax commission bill. But it was left for the board of equalization to show the party's ability and willingness to tax the corporations and as a result \$10,000,000 were added to the assessed taxable property of the state and practically every dollar of it was added to the assessments of the corporations. Will the people think of this at the next election? We think they will.

One noticeable feature in the doing of the board of equalization is that they have increased the taxable property of the corporations \$10,000,000, and that the average rate of taxation is 25 mills on the dollar, thus the raise means no less than \$250,000 to be taken from the shoulders of the farmers, mechanics and laborers, who already were paying on a fair basis of assessment and place it on the shoulders of the corporations. It only takes a certain amount of capital to run the state each year and this \$250,000 will go a long way toward running the state for another year. So in fact it amounts to a direct saving to those who have heretofore been obliged to pay it, i.e. the laborers and the farmers.

Those hostile to the board of control in the relations between it and the normal board should bear in mind that the bill as recommended by Gov. Van Sant and Auditor Dunn contained no provision for the control of educational institutions, and that part of the plan was not originally contemplated. It was grafted on the bill, after its introduction according to the recommendation of the governor and the auditor, by the representatives of the institutional towns in the hope that these provisions would be so obnoxious to the majority as to defeat the whole bill. There were enough members who favored the placing of the educational institutions under the board's control to join with the enemies of the bill and pass these amendments, the friends of the original bill voting, as a rule, against them. But when the bill came up for passage amended, its friends said it must be passed as amended if at all, and so they passed it in that shape. It is thus shown that the members assuming to represent the institutions, among them the normal schools, were themselves responsible for placing the normal schools under the control of the new board, and it is they who must take the blame, if there is any for the present trouble. The board of control could take no other course than the one it has taken without violating the law which created it, and the board of control would probably be as much relieved as the normal board with any judicial decision which would take the vast labor involved off its shoulders.

Harlan Brackett resumed his

school duties Monday after an ab-

scence of two weeks.

Mr. Smith, an editor for the "School Journal," was a visitor at the school Friday afternoon.

The first class of Miss Rowe's room had only one session, leaving 18 pupils in the morning and 18 in the afternoon.

Minnie and Fannie Veverka have resumed their school duties after a week's illness.

### ADDITIONAL LOCALS.

Our Children's Department never was so attractive. Children are fitted, mothers delighted and fathers pleased with our prices. Palace Clothing Co.

D. S. Scott, of Rutledge, was a county seat visitor on Monday morning. Mr. Scott had charge of the railroad pump at Rutledge for a number of years, and is one of the most trustworthy employees of the N. P. He came up to bid us good-bye and order his paper sent to Tacoma, Wash., as he started on Tuesday morning for that western city to visit for some time with his brother. Mr. Scott will also spent part of his time in California before the return.

The smoke social given by the gentlemen of St. Mary's church was quite well attended on Wednesday evening. The evening was passed in talking over the events of the season, and at about ten o'clock an oyster supper was served by Mrs. Jas. Hurley and Mrs. J. D. Vaughan. This was the first event of the kind ever held in this place, and those who attended hope that it will not be the last. We have been informed that quite a neat little sum was raised.

August Launtz, of Mankato, arrived in this place on Tuesday and will make this place his future home, having bought land near the copper mine. He will live with his father in law during the winter on the Tallman place and in the early spring will build and settle on his own land. Mr. Launtz has been a subscriber to the Pioneer for the past four years at which time he purchased the land he has come up to settle on. We are pleased to welcome Mr. Launtz to our midst, and he informs us that there are several more from Mankato who will settle here next spring.

MARRIED—In St. Paul on Thursday evening Oct. 17, 1901, Miss Mary Wiederman, to Mr. John Erickson, both of this place. The bride is well known here, having worked for different families around town for the past three or four years, and is a young lady that is well thought of by all who know her. The groom is also well known in this place and is the one that was injured at the time the boom of the derrick broke at the Sandstone quarries about a year ago, and who sued the Sandstone company and received about \$4,000 for the injuries he received. He has always been a hard working, industrious young man, and will make the young lady a good husband. They arrived home on Saturday and departed at once for the home of the bride's parents about six miles east of this place. The Pioneer extends congratulations.

At the annual meeting of the School Board on Saturday evening, Oct. 12, 1901, Robt. C. Saunders, Miss Susan Shearer and Mrs. James Hurley were elected honorary members of the Board, with instructions to visit the schools and make a report to the Board. All the high schools in the state have these visiting members of the Board and it was thought advisable for the School Board here to be in line. The Board might have searched the village over, and they could not have found three better qualified to hold the position at the Palace Clothing Co.

### PLEA FOR FORESTS.

Address by Gen. C. C. Andrews,

Chief (Forest) Fire Warden

of Minnesota.

Forestry is the raising of trees for profit rather than for ornament. It

is a great economy for us here in

Minnesota because the pine has its

home here and will flourish on land

that is unfit for cultivation. It how-

ever, takes on an average, eighty

years for pine to reach merchantable

size on such soil, and the state must

engage in the work if it is to be done.

Hence those should understand the

quest who form public sentiment.

Let us suppose that on a 1,600

acre tract of land, too hilly, too

rocky or too sandy for farming, a

beginning was made eighty years

ago to plant it with pine. The first

20 acres were planted and every

successing year 20 acres were planted.

This year completes the rotation

and cutting can now begin with

the 20 acres first planted. It is

now a normal forest. Next year 20

acres more can be cut and so on in-

definitely. Probably over a good

part of the 20 acres being cut this

year a good crop of pine has started,

if not the bare places will be planted.

By judicious cutting and gradual

admission of light, also taking ad-

vantage of years when pines will

fall crop of seed, which is every

three years, natural regrowth can

be effected. The forest is to be

treated as an inviolable capital. The

trees are to stand crowded when

young to promote height growth.

When in your travels you see poor

soil that is lying idle, remember

that if forested it would yield a good

income. If the 3,000,000 acres of

waste land in Minnesota were now

a normal pine forest its annual

growth would be 600,000,000 feet of

the net value standing in the woods

of \$2,400,000. That would be the

net value of the annual harvest with-

out impairing the forest; besides

yielding wages to thousands of peo-

ple; and besides the indirect bene-

fits such as water supply in streams,

salubrity of climate and beauty of

landscape. The forest would not

be in one body for it would occupy only

waste tracts. Farms and villages

would be interspersed. It would be

traversed by good roads.

Baden, from 240,000 acres of state

forest derives a net annual revenue

of \$67,000, Savooy, from 432,000

acres of state forest derives a net

annual revenue of \$2,000,000. Prus-

sia, from 6,000,000 acres of state

forest derives a net annual revenue of

\$9,000,000; mostly non-agricul-

tural land in each case.

"I wish," said Channing, "to live

in a country that is making the

world its debtor by its discoveries

of truth." Minnesota borrowed its

system of ballot from Australia.

What is there that we have not bor-

rowed from some other state or

country? But here in forestry our

state has a golden opportunity of

furnishing an example and lesson to

our sister states of supreme value if

she will act with promptitude.

Teachers' Association Meeting.

The Pine County Teachers' Associa-

tion held its first quarterly meet-

ing on Saturday last, in the court

house hall, and an interesting ses-

sion was enjoyed by the large num-

ber of teachers assembled. Talks were

given by Prof. Hyde, on "Language";

Prof. Chamberlain, of the Pine City

schools, on "Arithmetical"; Superin-

intendent Blankenship, gave some "General

Advice to Teachers". Mr. Smith,

editor of The School Journal, gave an

address on "Booker Washington".

Several other papers had been pre-

pared, but their reading was dispe-

nsed with account of lack of time. J.

H. Hay was elected president for the

coming year. It was decided that the

next meeting of the association should

be held at Hinckley.

MARRIED—In St. Paul, Oct. 16th, 1901, Miss Alice Hamline, of Meadow Lane, to Mr. Louis Furtman, of West Superior. The bride is quite well known in this vicinity, she having taught school near here ever since she came to Pine county, which has been about three years. Miss Hamline is a bright, well educated lady and will, without doubt, make the man of her choice a good wife. The ground is well known in this place, having lived here for some time. He is a hard working, industrious young man, and one well deserving of the estimable young lady he has secured. The bridal pair spent Sunday with relatives and friends, departing for West Superior on Tuesday morning where they will make their future home. The Piovere joins with many friends of the happy couple in wishing them joy.

John Barto, who has been in the west for the past few weeks, returned to this place the first of last week, and on Tuesday began examining for a basement for the new store he contemplates building on his lot just north of Theo Buschmeyer's brick block. John went west to look for a location, but says he found no place with the prospects that Pine City has, and hence his building at this place. He will build a frame, covered with iron, and one story high this fall but next spring he will build on another story. John has a great many friends in this place and vicinity who wish him success in his new venture.

Farmers, remember! we want your grain, work, and will guarantee the best flour and a satisfactory deal.

Dr. C. L. Gates, of Hancock Minn., is visiting at the residence of C. F. Poole in this place. The doctor is an old time friend of the Poole family, having been their family physician for years. During his stay he has been treating William Thomas who has been confined to his bed for the past six or eight months and on Tuesday had him up and walking around. He also treated our old friend and neighbor, Thos. Rice, for the bronchitis. Mr. Rice has been a sufferer from this disease for a number of years and has been treated by some of the best doctors in the state but without relief. The doctor has stopped the bleeding and says that he can cure him.

He is a clairvoyant spiritualist doctor, and has met with wonderful success.

A. E. Blanchard, who has been harvesting in the southern part of the state, returned to his home at Meadow Lane the latter part of last week.

Heavy and light Overcoat. Heavy in value and light in price at the Palace Clothing Co.

The lecture on Forestry, delivered by Gen. Andrews at Pioneer House Hall in Tuesday evening, was well attended, the hall being well filled. The General handled his subject in a masterly way and the illustrations were very fine, especially those of the "Black Forest" in Germany.

Those who missed seeing the stereopticon views that the General had to illustrate his lecture, missed something they will probably never have an opportunity of seeing again.

Have you seen that nobly line of Fall Clothing and Overcoats at the Big Store.

The smartest overcoated men you meet were overcoated at the Palace Clothing Co.

The Big Store gives neither premium or bonus to its customers. We deduct the cost of the premium from the price of our goods, and let the price sell itself.

The Big Store recognizes the fact that the ladies of Pine City and vicinity are capable judges of any commodity that the market affords. We invite you to inspect our Stock, get our prices, and draw your own conclusions.

On last Friday evening quite a number of the young friends of Miss Grace Panger, repaired to her pleasant home and tendered her a very pleasant surprise. The evening was spent in singing and playing games. Refreshments were served about eleven o'clock, after which all repaired to their homes having spent a very enjoyable evening.

Our Children's Clothing is made by manufacturers who make the best clothing. Palace Clothing Co.

C. H. Griffith departed on Monday night for Ashland, Wis., where he has secured a position in the largest drug store in that city. Charlie should do well in a drug store as he is no stranger behind the counter or the prescription case, having worked in the drug store at this place for nearly four years. His many friends in this place wish him success.

## MINNESOTA NEWS.

### Pan-American Awards.

As a result of Supt. MacMullen's effort, the committee of awards decided to give Minnesota a gold medal recommended by the judges for her great agricultural exhibits. The following medals were awarded: Bronze medals to Mrs. Marion Graves, Elly, for stained glass window; Alex Campbell, Austin, Dodge Center Roller Mills; Frazer Boiler company, for their American Cup and Chemical company, for Cleanout; the Hastings Milling company of Owatonna received honorable mention for flour. Minnesota probably leads all states in the number of medals awarded.

Three bushels of potatoes and twenty of corn have arrived and made a great display in the display cases.

Minnesotans are much gratified over the award to Mrs. Gray for her art window, she competing against Tiffany and all the other workers in this branch of art in the United States.

### Money a Little Shy.

Minnesota is rich, but the available cash in State Treasurer Block's strong box is running very low just now.

Interest rates are at the mouth.

The semi-annual school appropriation takes \$625,000, the state aid to high schools graded and rural schools will amount to nearly \$300,000 more, and there is \$113,000 to pay out of the school fund for Massachusetts bonds.

The ordinary running expenses are heavy and the school debts in banks have been called in.

It is a question whether the state will not have to borrow money for a few days to tide over. Fall tax collections will be coming in early in November and will restore the balance.

### Butchers Worry Wardens.

Deputy Game Warden Green, of Duluth, is having all kinds of trouble with the dealers. Some of the Duluth butchers are selling deer skins, furs, etc., which is illegal this year, and that is what he has been unable to apprehend any of the offenders.

Every day some two or three friends of the game laws give the deputy game warden friendly tips that the illegal traffic is in progress, and because of the fact that the others were giving him the same kind of information. Mr. Green is a very active and efficient deputy game warden, and his inability to bring about a conviction worries him.

### 101 Years Old.

Mrs. Mary Roll, of Minneapolis, has reached the age of 101 years, and is by no means a helpless woman. She was born in Dayton, O., where there were only two or three log cabins there. Mrs. Roll had seven children, and three of these are now living. She had 47 grandchildren, 88 great-grandchildren, and five children of the fifth generation. Mrs. Roll has been a typical frontier woman most of her life, and she finds it hard to realize how this country has grown.

### King Edward Playing.

H. H. Morton appeared before the state tax commission and outlined a plan for taxing sleeping car companies that would yield the state from \$3,000 to \$4,000 more than the present system of a 2 per cent gross earnings tax on business entirely within the state. The new plan, which applies only to the sleeping car companies, is to impose a 2 per cent gross earnings tax on all business reaching into Minnesota, the tax to be apportioned upon a mileage basis.

### Care of Conventions.

Minneapolis will be prepared to care for all the large conventions which may select the city for their place of meeting next year. The fair affairs committee of the Commercial club has leased the Exposition building for a year and will inaugurate a determined campaign for a number of the larger gatherings for 1902.

### Plans for State Fair Buildings.

The executive committee of the State Agricultural society met at the state fair grounds and made arrangements to build an addition to the hall and new stable, mounting horses, and broughams on the east end of the grand stand to accommodate 8,000 people and a number of other improvements are in contemplation.

### A Lost Girl.

Hilda Roll, a 11-year-old girl residing in St. Paul, was found wandering in the outskirts of Minneapolis at an early hour in the morning. She was chilled from exposure and exhausted and frightened. She had been attacked and lost her way in the Midway district and lost her way.

### Missing Calves.

Executive Agent Fullerton, of the state game and fish commission, will have employees of the commission capture two moose calves for the commissioners of Lincoln Park, Chicago. Agent Fullerton sees to matters of this kind himself. The calves are to be found near Bendix.

### Death.

The first real football game on Northrop Field was between Minnesota and Nebraska, the former winning by a score of 19 to 0. It was a hard fought game from start to finish, and was witnessed by an immense crowd.

### Sheriff Indicted.

Sheriff Philip T. Megadrien, of Hennepin county, was indicted on a different count, two for receiving a large sum of money, and one for misappropriation of public funds, for a fraudulent bill, and one for perjury. There are more to follow. He pleads "not guilty" to all.

### Valuable Gift.

Mrs. Cushman K. Davis has presented to the State Historical society the Spanish cannon presented to St. Louis by Davis during the Spanish war. It is a small rifled gun, weighing about 250 pounds, and was captured in Havana after the surrender of the Spaniards.

PRINCESS TO MARRY.

Victoria, Daughter of King Edward, Will Soon Be Detrothed by Her Parents.

The formal announcement of the betrothal of Princess Victoria, daughter of King Edward and Queen Alexandra, will soon be made, but the name of the intended bride has not been made public.

Their marriage has been long anticipated for the marriage of the princess, and has not been slow in encouraging one after another of eligible European princes who have sought her hand.

Princess Victoria, however, has never given encouragement to any of her royal suitors. Another princess has always married at an early age, and the reluctance of Victoria to enter into wedlock has been considered unaccountable. More than once there has been suspicion that her royal highness has given her heart to the keeping of some member of the royal family, but there has been no definite suspicion of this suspicion. She has always been somewhat eccentric and original, in this respect resembling her aunt, Princess Louise, whose mother, Queen Victoria, had no title greater than that of her late affianced, the elderly man. Suitors for Victoria's hand have many before her grandmother died, and they have increased in number since her father ascended the throne.

It is now known that a betrothal has been made, but the secret of the peculiarity of the marriage selection held by Princess Victoria. Another reason may also have been advanced. The princess is said to be a victim of epilepsy. The betrothal is expected to reveal a most romantic love story.

INCREASED PENSION ROLL.

Over 3,000 Names Added to Uncle Sam's List of Soldiers Entitled to Governmental Aid.

During the fiscal year just ended the net increase in the number of names on the government pension rolls was 1,000. The exact number now on the rolls can not be ascertained until the various pension reports are in their reports, but the officials of the pension office estimate the grand total at 926,000. During the year 44,361 original pensions were issued, of which 35,862 were to the soldiers and 21,001 to widows, orphans and negroes. There were restored 4,000 cases, making a total of 49,618 names added to the rolls during the 12 months.

The number of increases, reratings, etc., was 60,445, making the total number of certificates 109,455, which was an increase of 4,000 over the number issued in the previous year.

The number of claims pending on May 31, when the last inventory was taken, was 415,000 being a reduction of 219,000 compared with the number pending on Dec. 31, 1897.
