### WASHINGTON LETTER.

(From Our Regular Correspondent.)

WASHINGTON, November 4th, 1901.

The President is making unprecedented progress on his message and already has the bulk of the matter well in hand. From the day that he entered the White House, he had this important document in view and has carefully criticised the members of his Cabinet, and the numerous Senators whom he has invited to the White House, so that at the present time he has a more comprehensive grasp of the situation than many men in his position would have acquired in six months. He issued his Thanksgiving proclamation Saturday. It is his first official paper and the sentiments are well chosen and the expression brief and to the point.

Among the guests at the White House dinner table on Friday, were Mr. James J. Hill, the well-known railway magnate, and Secretary Hay. It is understood that Mr. Minor, of Wisconsin, is assured of the support of Mr. Hill in his objections to the Ship Subsidy bill, as it was presented to the last Senate, and it is known that Mr. Hill had a hand in its defeat. It is, therefore, assumed that the dinner at the White House had some bearing on the bill. The President has asked many questions on the subject of this measure, but he has exercised the greatest discretion, himself, and it is doubtful if any one but his intimate friend, Senator Lodge, knows just where he stands in regard to it.

The atmosphere of the White House does not favor secret conferences. A casual visitor the other day saw an old white-haired Senator earnestly talking with the President in one corner and in a secret way undertake. Then he heard Mr. Roosevelt say, quite as earnestly, but in a tone the whole room heard "I have told you before, and I tell you now to put those charges in writing, I will see what I can do about it and I cannot act until you do."

The annual report of the United States Treasurer, Hon. Ellis H. Roberts, for the fiscal year ending June 30th, contains some startling figures. The total net receipts of the Government were \$875,685,337 and an increase of \$20,444,355 over the preceding year and the highest ever recorded. The total disbursements amounted to \$899,867,338, which have been exceeded only during the civil war, and in 1899. This gold reserve of \$150,000,000 has been maintained without difficulty by the conversion of gold coin and bullion from the general fund.

So greatly in excess of his needs are Uncle Sam's present receipts, that when Secretary of the Treasury, Gage, learned that the receipts for one day amounted to \$1,031,444 over expenses, he feared that the finances of the country would be disturbed by so great a drain on the circulating medium and he immediately began to purchase bonds and stretch the national debt, and at the same time turn the currency back into circulation. The excess of receipts over expenditures for the month of October ran considerably over \$2,000,000.

The William McKinley National Memorial Arch Association has decided that the cost of the proposed monument, as such, shall be \$1,500,000. There is a large group, who are treasurers of the Association, already ready to contribute, although the appeals have been out only three days.

The announcement is made at the Treasury Department of the appointment of Mr. George N. Whitehead to the superintendency of the post office at York, Pa. He will succeed Mr. William F. Wagoner, whose term has expired. Mr. Whitehead, who is now the collector of Customs

for Porto Rico, was recommended for the New York appointment by Secretary Gage, and has the endorsement of Senator Platt, and I understand, of Gov. O'Connell.

Secretary Gage was notified by the American Ambassador at Rome, that a notorious anarchist, Jaffet by name, has sailed, presumably for America. It is alleged that he has been an extensive propagator of the members of the military company, whose duty it is to guard the custom houses in Rome, and of which he was a member, and that he was in communication with the anarchist, Bresci. Assistant Secretary Taylor has advised all the custom house officials to be on the outlook for Jaffet to refuse to permit him to land. Mr. Taylor says that he appreciates that the immigration laws do not absolutely exclude anarchists, but that the western courts have held that they give the Secretary of the Treasury a large latitude in judging as to whom shall be regarded as undesirable immigrants, and that he proposes to exclude this man. He says "If the anarchists cannot get into the country, they cannot get into the courts, or join the Secretary of the Treasury."

Already preparations are being made for the reciprocity convention to be held in this city, Nov. 19-20-21. General Manager Edward H. Sanborn, who is in the city, has engaged the large banquet hall of the Raleigh Hotel for the use of the convention. Every precaution has been taken to secure a representative assembly of manufacturers and to exclude those who are not actively engaged in the manufacturing business, with the exception of delegates from some institutions like the New York Board of Trade, which are made up very largely of the manufacturers and allied interests. The proceedings of the convention will be governed by the rules of the United States Senate with the exception that delegates will be permitted to speak but once on a subject and that they will be required to limit their remarks to ten minutes time.

In his annual report Adjutant General Corbin recommends the abolition of the transport service between the United States and the Philippines. He expresses the belief that now that the war is over the transportation of the troops could be handled more satisfactorily and economically by the commercial companies and that were this business given to private concerns it would tend to build up the transportation service. It is said that Mr. James Hill has a number of vessels which he would be glad to put in commission between the United States and the Philippines and it is quite probable that at the dinner, above referred to, that subject was discussed. Freight is now carried by several companies between the United States and the islands but the lines are not direct and the service is by no means satisfactory.

### TAMMANY DOWNED.

Seth Low Elected Mayor of Greater New York by Strong, Decisive Plurality.

Iowa and Ohio Elect Republican Tickets. Maryland goes Democratic.

New York, Nov. 5.—Greater New York has repudiated George W. Devoey, with a decisive expression of its will. It has rejected Edward M. Sheppard's plea that partisanship should govern municipal affairs.

Seth Low is elected mayor for the next two years by a plurality of about 30,000.

He carried every borough excepting Queens.

William T. Jerome is elected district attorney by 7,000 to 8,000 plurality.

By these victories Tammany has lost control of the police department and all of the machinery of prosecution.

Edward M. Grant has been elected collector by about 25,000 and Charles V. Farnes chosen president of board of aldermen by a majority slightly less than that given Low.

This turns over to the enemies of Tammany the control of the city's purse strings in the board of estimate and finance department.

Tammany Hall was swept out of power by a coalition of the forces of the city's purest and cleanest citizens.

Joseph A. Carter, fusion candidate for mayor, was elected by a narrow margin.

Tammany may succeed in saving from the wreck the office of the sheriff, John Quinn, and George H. Farnach for clerk since to have led the other candidates on the Tammany ticket and they may have pulled the wool.

Brooklyn did much better for borough and county candidates than for Shepard. The result of these offices was in doubt until midnight, though E. H. Driggs, for president of the borough and Conrad Hesterberg, for sheriff, appear to have won.

**Ohio.**  
Columbus, Ohio, Nov. 5.—Returns up to date indicate republican gains in Cincinnati, Cleveland, Toledo, Dayton, Zanesville, Portsmouth, Canton, Springfield and other cities, the notable exception being Columbus, the home of both Governor Nash and Colonel James Kilbourne, the democratic candidate for governor.

The gains of republicans are outside the larger cities. Some of the democratic counties report the largest republican gains.

Chairman Dick, at 10 o'clock, gave out the returns, that the republicans had carried the state by over 50,000, with a decisive majority in each branch of the legislature.

**South Dakota.**  
Sioux Falls, S. D., Nov. 5.—Up to late hour tonight the returns from the state were very meager. From the reports thus far received it is shown that the republicans have a slight edge, due to the fact that only judges were elected in each of the eight judicial circuits of the state. In a number of counties propositions to bond for the construction of new court houses were before the voters, but even in these instances the questions failed to attract much interest, a small percentage of whom turned out to cast their ballots.

**Iowa.**  
Des Moines, Nov. 5.—The result in the election of the state, marked by falling out of the vote through the state, the loss in some precincts being 40 and 50 per cent in the total vote, and the average loss for the state being 10 per cent of the total vote.

A. C. Cummins, the republican candidate, has been elected by a plurality of something like 90,000, the largest ever given a governor in this state. The entire republican state ticket is elected by similar pluralities, and some extraordinary gains have been made.

**New Jersey.**  
Trenton, N. J., Nov. 5.—Late returns bear out the indications that Franklin Murphy, republican, has been elected governor by 10,000 plurality.

Partial returns from the different counties show that most of them gave about the same pluralities as were given three years ago, when Voorhees, republican, was elected governor by 2,419 plurality.

**Maryland.**  
Baltimore, Nov. 5.—A conservative estimate based on all heard the voting precincts in the city and unofficial returns from the state made at 11 a. m. indicate that the democrats will control the legislature and will have probably 87 seats in the senate, which is six more than a majority.

**Nebraska.**  
Lincoln, Nov. 6.—Indications at 3 p. m., based on meager and scattering precinct returns, were that Nebraska had reconfirmed her verdict of last year for the republicans.

**Kansas.**  
Topeka, Kan., Nov. 5.—Local elections were held in every county in Kansas today, and the republican party secured trustees by the only official school. Republicans were generally successful.

It is claimed they will be able to control the legislature.

**Ohio.**  
Salt Lake, Nov. 6.—Returns from 13 voting districts of Salt Lake indicate the election of Thompson, republican, for mayor, and Dewey, democrat, by about 80 plurality.

### THE FRANCO-TURKISH AFFAIR

Washington Comment on the Naval Movement in the Far East—Situation is Puzzling.

Washington, Nov. 5.—While manifesting deep interest in the French naval demonstration in Turkish waters, officials of the administration are of the opinion that European politics are responsible for the action of the Paris government. No official information concerning the purpose of France has been communicated to the state department. The fact that American interests are not affected by the incident is responsible for the failure of American agents to cable news of developments in the Franco-Turkish question. The same reason has prevented the dispatch of warships to Turkey, though the European squadron is in Italian waters, available for duty in the Levant should its presence be needed there.

While American interests will be placed in no danger by the demonstration, curiosity is naturally felt as to the real object of the move.

France undoubtedly has the support of Russia. German interests in northern Syria are important, and if France attempts to establish a protectorate over that region as reported, the Berlin government will undoubtedly resent it. It is also suggested that a protectorate would involve the inclusion of the Bosporus.

The suggestion that the French demonstration is directed against Germany or Great Britain are received with increased skepticism in diplomatic circles. Confession is made by diplomats and officials that the French movement is confusing, and they are awaiting with some impatience developments which will show the real motive inspiring it.

**BRITISH SUFFER HEAVILY.**  
Boers Defeat Force Under Col. Benson and Kill 25 Among the Killed.

London, Nov. 2.—Lord Kitchener has reported to the war office a disaster to the British near Bethel, eastern Transvaal, in which two guns were lost, several officers were killed or wounded and 54 men were killed and 160 wounded.

The following is the text of Lord Kitchener's dispatch, dated Pretoria, November 2:

"I have just heard of a severe attack made on the rear guard of Col. Benson's force, which numbered 2,000 men, of Bethel, near Brokensburg, during a thick fog. The result of the attack is reported to have been a thousand. They rushed two guns with the rear guard, but it is uncertain whether they were able to remove them. I fear our casualties were not severely. A relieving column will reach him tomorrow."

Later Lord Kitchener telegraphed as follows:

"Col. Boller, who marched from the Commandary line yesterday, reached Benson's column early this morning (Friday) unopposed. The Boers had killed one of his horses. The other casualties are Maj. P. D. Murray, Capt. M. W. Lindsay and P. T. Thord, Lieut. E. V. Brooks and R. E. Shepherd and Second Lieut. J. Corbett. Six of his wounds are critical."

Lord Kitchener then gives the names of thirteen other officers who were wounded, most of them severely. He says that 24 non-commissioned officers and men were killed and 160 wounded, adding that four of the latter have since died of their wounds.

**BIG SUM FOR PENSIONS.**  
For Fiscal Year Amount of \$142,161,200 Is Asked for the Use of This Department.

Washington, Nov. 2.—The estimates for the expenditures of the interior department during the fiscal year ending next July aggregate \$170,000,000, of which \$142,161,200 is asked for pensions and the administrative work of the pension bureau, \$1,999,720 being for salaries of the bureau personnel and \$350,000 for the investigations by special examiners of pension cases.

In addition to the \$123,150 already appropriated for the twelfth census, \$1,972,120 for the next year is asked. Other items call for \$7,000,000 for the Indian service, \$2,250,000 for the general land office, including the annual appropriation of \$300,000 for forest reserves; \$1,600,000 for the geological survey and \$948,000 for the patent office.

**The Industrial Commission.**  
Washington, Nov. 4.—The industrial commission will cease to exist December 15 by expiration of law. The members of the commission are now at home, mostly to vote in the coming state elections. A full meeting of the commission will be held next Wednesday and the commission probably will remain in session most of the month going over its final report. This will be embodied in a volume and will be submitted to congress about the time the official existence of the commission expires.

**Killed His Father.**  
Wilmington, Ill., Nov. 3.—Dan M. Hogan, Sr., a well-known bookmaker, was shot and killed by his son while in the act of abusing and beating his wife. The coroner's jury returned a verdict of justly homicide.

**Edward Stokes Dies in New York.**  
New York, Nov. 4.—Edward S. Stokes, the slayer of Col. "Big" Buskirk, died here of pneumonia, after a picturesque and picturesque life.

On Saturday afternoon at the home of his sister, Mrs. Howard McNulty, 731 St. Nicholas avenue, after suffering from a long illness, he was taken ill a month ago.

**An Ohio Tragedy.**  
Martinsburg, O., Nov. 5.—In a quarrel between Harry Cooper and John Robinson, proprietor of the Great Western Hotel, Cooper shot and killed Robinson. Cooper is under arrest.

**SCRAPS.**  
Both coal and tobacco smoke are very injurious to lacquered surfaces.  
Greek fire was probably made of bitumen, sulphur, naphtha and zinc.  
Vast forests of rich yellow and sugar pine are being opened up in eastern Washington.  
Five thousand dollars have been spent in vain for poison with which to kill prairie dogs in western Kansas.  
Hat dealers buy principally from the English and Italian markets. England furnishes soft and Italy soft hats.  
Benjamin Russell Hanby, author of the famous ballad, "Daring 'Nellie Gray," is buried at Westerville, O., 12 miles from Columbus, Ohio.  
Farmer Springer, of Chelsea, Vt., raised an apple this year of the wolf ribbon variety that weighs just a pound.  
The growing of rice is regarded as the safest and surest cereal production, as it is also the most profitable, rice having the largest use and market of all the grains.

**THE CHAMPION WING SHOT.**  
Capt. Bogardus Has a Dangerous Experience But Comes Out Unhurt.  
Ferris Wheel Park, Chicago, Nov. 4th.—Capt. A. H. Bogardus, the champion wing shot of the world, has spent the summer here. His shooting school has been one of the features of the Park during the season. He has given many exhibitions and his skill with the rifle is superb.  
The Captain tells of a very close call he once had when living at Elk-hart, Ill. He had been a sufferer from kidney disease for several years and it rapidly developed into Bright's Disease. All his friends told him that this was incurable and that he would never get better.  
To say that he was alarmed is to put it very mildly. This plucky man had faced many dangers and it made him sick at heart to think that at last he was to be conquered by such a cruel foe.  
At last he heard of a medicine that had cured many such cases.—Dodd's Kidney Pills. He bought them and was completely restored to good health.  
He says—"I attribute my present good health to Dodd's Kidney Pills and to nothing else."

**HAZARD**  
Although one of the oldest and most famous in America, and the favorite with hunters and sportsmen who have used it, the supply having been limited and the demand increasing, there has been no opportunity for widely advertising it so that perhaps you are not familiar with its superior qualities.  
Your dealer will keep it in stock if you order when having it. Prices as low as HAZARD SMOKERS' tobacco, and it is a water and simply perfection, none or in a loaded shot.
