WASHINGTON LETTER.

(From Our Regular Correspondent.)
 WASHINGTON, July 7th, 1902.

The visitor at the White House during the past week must have experienced surprise to find the chief Executive of a great nation transacting business in such wholly unsuitable and inadequate surroundings. The "temporary" White House, which will remain the office and residence if he is in Washington of the President until the renovation of the White House proper has been completed, is a very ordinary private residence which has been rented unfurnished, and no great attempt has been made at furnishing it. Some of the antiquated furniture, which did not look seriously out of place in the White House, has been placed in the rooms, where it appears singularly shabby and incongruous. What was the "front parlor" of the House is now used as a reception room and in it is a large table devoted to the use of the newspaper correspondents. The "back parlor" is used by Secretary Barnes as his private office was so used by Secretary Cortelyou while in the city, and the dining-room was used by the President for his private office and as "Cabinet Room." The second floor of the house is devoted to the private use of the President and the top floor is occupied by the regular clerical force of the White House.

Secretary Cortelyou tells me that in Oyster Bay he has rented a building which will be used as an office by the President, as Mr. Roosevelt desires to be left to enjoy the privacy of his family in his summer home. In fact, Mr. Cortelyou said, the day he left Washington, that Mr. Roosevelt would appreciate the consideration of those persons who could leave him to enjoy a much needed rest during the time he would remain in Oyster Bay. Secretaries Cortelyou and Loeb have rented cottages in the town of Oyster Bay, although Mr. and Mrs. Cortelyou will be the guests of the President and Mrs. Roosevelt during a portion of July. Secretary Barnes remains in charge of the temporary White House and will be in communication with the Oyster Bay office by means of a long distance telephone which has just been installed. In so far as possible all business will be transacted at Washington. On August 4th, the President will start on the extended itinerary which will occupy his time up to the 8th of October, when he expects to return to Washington for the Grand Army Encampment. Mr. Roosevelt will first visit several points in New England and will then go West. He will be present in Saint Paul during the State Fair and will also attend the Illinois State Fair at Springfield.

With the adjournment of Congress the measures which were so long pending in that body entered a new field of activity and energetic steps are being taken by all the departments to carry into effect the laws made by Congress. A conference was held recently at the White House at which were present the President, the Secretary of the Interior and Senator Hansbrough to consider means for carrying out the provisions of the Irrigation law. This law, from the fact that it requires no further legislation to make it effective, is, perhaps, the most complete bill passed by the Fifty-seventh Congress. There is already a fund of upwards of \$8,000,000 with which to commence operations and there are numerous surveys in the office of the Geological Survey from which the best plans will be made.

Before they left Washington, Senators Hanna, Lodge and Spooner held a conference with Secretary Hay looking to the furtherance of the Panama canal and as soon as Secretary Hay returns to the city, which will be in about a week, he will begin in a series of conferences with the Minister from Colombia at which a treaty will be negotiated and

made ready for submission to the Senate for the short session. There appear to be some serious difficulties in the way of securing from Colombia such concessions as it is feared are made necessary by the provisions of the bill. The Spooner substitute provides that permanent control of the territory through which the canal will pass must be secured and the Constitution of Colombia, according to Senor Concho, her Minister in Washington, forbids the permanent disposal of any of the territory of the country. Senor Concho says that he has no doubt, however, that a lease for two hundred years can be effected with possibly an agreement for the renewal of the lease for a like period. It is also possible that the opponents of any canal will be able to prevent the ratification of any treaty in the Senate as the control of but one-third of the votes in the upper chamber would accomplish its defeat.

The Treasury Department has already prepared the necessary licenses, etc., which are made necessary by the oleomargarine law and it is expected that in the next week all the avowed manufacturers of that product and of "process butter" will have taken out licenses. If there remain any who have failed to comply with the law, prosecutions will be immediately begun. The Department has been notified that a number of the dealers in oleomargarine have provided themselves with capsules, similar to those used in Denmark, and containing a coloring fluid which may be mixed with the oleo, thus giving it the color of butter, and I have been requested to point out that the use of this coloring matter in any oleo served to a boarder or furnished to any person for a consideration will render the person using the coloring liable to heavy penalty.

The immediate result of the Philippine bill was the transfer on July 4th of the Governing authority in the Philippine Islands from the army to the Philippine Commission, whose such had not already taken place, and the General Amnesty declared by the president to political prisoners. Hereafter the 18,000 troops who will remain in the Islands will have merely garrison duty such as the army has in the United States.

Moonlight EXCURSION AND DANCE Friday Eve., - JULY 18th, 1902 -

The dance will take place on the pavilion at Bergman's, which has been repaired and is now in first class condition for the occasion. The Pine City Cornet Band will furnish the music. Tickets, \$1.25, including excursion, dance and supper. The boats will leave the dock at 8:30 p. m. sharp.

PERFECT SATISFACTION

is something that we are bound to give. Last January some people were longing for some of this warm weather. Now they want just the opposite. They can have it—

TO OUR SODA FOUNTAIN.

There is a strong suggestion of January's coldest day in the delicious and refreshing beverages we are now serving. Our Soda Fountain Motto is, "PLENTY OF ICE." No objection to your adopting it for your own during this hot weather if you will kindly remember our

FOUNTAIN.

BRECKENRIDGE'S Pharmacy

Main St. - - Pine City, Minn.

THERE IS MONEY FOR YOU

IN EVERY SACK OF PINE CITY FLOUR.

Pine county land has been fertilized by nature ever since Creation, and produces the Best Wheat in the World. We buy this wheat direct from the farmers and make into flour in a modern, up-to-date plant. Bread from this flour is more wholesome than that made from prairie wheat. It retains moisture longer and makes more bread from the same amount of flour. If your dealer tells you he has a flour that is as good or better than ours, you can know that he is trying to make money out of some other flour.

We employ Pine City labor, burn Pine City fuel, and grind Pine City grain. Don't you think it would pay you to use our flour? Give it a trial anyway. We guarantee it.

Pine City Mill & Elev. Co.

BLIHOVDE & ENGER

DEALERS IN **NEW AND SECOND-HAND** Furniture, Stoves, Wagons, Buggies, Sleighs, Cutters, and Agents for all kinds of **FARM MACHINERY.**

GOVERNOR'S SPEECH

THE GOVERNOR ABLY DISCUSSES THE ISSUES OF THE COMING CAMPAIGN BEFORE THE REPUBLICAN STATE CONVENTION.

The History of the Party Reviewed—Reciprocity Advocated as Being in Keeping With Its Traditions—The Excellent Financial Condition of the State and the Reduction of the Price of Binding Twine This Year Due to the Sound Business Administration of the Republican Party—The Problem of Taxation and the Merger Question Fully Discussed.

Mr. Chairman and Gentlemen: I am profoundly grateful for the distinguished honor conferred upon me by the representatives of the Republican party of Minnesota in convention assembled. For two years I have endeavored, as chief executive, to serve the people of our state to the best of my ability. I have performed the duties of that position with a manner as far as I could be made in most gratifying. At this time it will not be inappropriate to discuss the issues involved in the coming campaign and to examine our past record. The Department of Agriculture has existed since the beginning of our nation's history. It has been the duty of every chief executive to see that the people of this state are properly cared for. I have endeavored to do this by the most judicious use of the funds at my disposal. I have endeavored to see that the people of this state are properly cared for. I have endeavored to do this by the most judicious use of the funds at my disposal.

to borrow at all, and we are able to build up a splendid credit. We are able to pay off our bonded indebtedness. On the other hand we have more than \$2,000,000 of the bonds of other states in our strong box and all that we have to do to secure the interest is to cut off the coupons. The sum of \$2,000,000 due on state bonds is more valuable because it is paid in full and the rate of interest higher. The sum of \$2,000,000 would preserve this credit if we keep the Republic in the state prison.

SHOWING THIS YEAR IN FAVOR OF FARMERS BETTER THAN LAST SEASON.
The manufacture of binding twine for the season of 1902 which was nearly closed will show better results than the preceding season. Amount manufactured for the season of 1902 was 1,200,000 pounds as compared with 1,000,000 pounds for the season of 1901. The price of twine has also advanced. The price of standard twine, 12-14 per pound for mixed twine, and 12-14 per pound for pure Manilla.

DAILY AND FOOD DEPARTMENT.
The dairy and food department is one of the most important, and under the present commissioner and his inspectors is doing most excellent work. Its records show that the twine in being sold the past eighteen months have been of the highest quality. The twine in being sold the past eighteen months have been of the highest quality. The twine in being sold the past eighteen months have been of the highest quality.

ROADS OF CONSTRUCTION.
The board of control will be glad to show when its annual report is presented to the public. It will show that the roads of this state are in a better condition than ever before. The board of control will be glad to show when its annual report is presented to the public. It will show that the roads of this state are in a better condition than ever before.

GAME AND FISH.
Public sentiment in our state favors the protection of our game and fish. The game and fish department is doing most excellent work. The game and fish department is doing most excellent work. The game and fish department is doing most excellent work.

RECIPROCAL MANAGEMENT.
The principal complaints against the Democratic management of the state prison, and especially the twine plant, were contained in the report of the commission on the twine plant. The commission on the twine plant was organized by the Republican party. The commission on the twine plant was organized by the Republican party.

THE TWINE PLANT.

MINNESOTA NEWS.

Iron Ore. Some very interesting statements concerning iron ore and the iron resources of the state of Minnesota are contained in the reports of John Birkenside and David C. Johnson of the United States geological survey division of mineral resources.

The report says that the greater part of the iron ore of the United States continues to be supplied to Lake Superior and that which produced its maximum output of 21,457,000 long tons in 1901, being 74 per cent of the total amount of iron ore produced and 4 per cent more than the output of 1900.

The Mesabi range in Minnesota has shipped since 1891 40,987 long tons, and has now shipped nearly one ore produced during the year 1901.

Of the shipping ports, two Harbors in Minnesota, continued in the lead, shipping over 5,018,197 tons last year, of an even million more than 1900. Escanaba, Mich., comes next, having shipped 4,000,000 tons. Duluth comes third, having shipped 3,500,000 tons.

Iron Miners. A remarkable report that Indians of the country are taking to the onward march of civilization and advancement was evident at the second annual commencement of the Year-million Lake Indian school at Tower.

One hundred and twenty copper-colored youths, ranging in age from 10 to 20 years of age, occupied the stage at the graduating exercises, and in their swarthy faces there was an expression totally unlike the stolid appearance of the semi-savage, an expression indicating an awakened intelligence.

Changed His Mind. Matt Vondrick, who from the high bridge in St. Paul. He intended to kill himself, but after he struck the water he changed his mind and struck out for shore. He is now at the city hospital. He is the second man to go over the high bridge in the past six weeks and live.

Vondrick chose the highest place on the bridge, climbed to the top, and dropped head first. The crew on the boom below saw his body whirling through the air and struck the water and sent up a splash twenty feet high, and then sent up a cheer when they saw the man strike the surface, and a few seconds later saw the man, very much alive, strike out for the shore.

Cash on Hand. There was a balance on hand in the various state funds at the close of business June 30 of \$1,200,005.99, according to the monthly statement of State Treasurer Block. It was distributed as follows:

Table with 2 columns: Fund Name and Amount. Includes Revenue fund, Soldiers relief fund, etc.

Killed by Freight. A farmer's horse dropped dead from fright yesterday morning at the Dale street crossing of the Northern Pacific railway in St. Paul. The horse was attached to a carriage in which was the owner, his wife and son.

News in Brief. The St. Paul police records for June show 194 arrests, of whom 151 were men and 43 women; 50 were married and 144 single.

Walter Derringer was shot under the right eye with a revolver in the hands of Fred Lock at Lake Park. Both are 14 years old. The shooting was accidental. The eye was seriously injured.

State Agent Gates says there have been more cases of non-resident in the state than ever before in his recollection. There were five last week and as many the week before.

Alfred Bordeaux, the former prize-fighter, who assaulted and robbed Mrs. Annie White, was sentenced to ten years by Judge Simpson.

Police Captain N. W. King of Minneapolis was sentenced to a term of three years and six months in the state prison at Stillwater.

Purgars invaded the homes of several citizens at Edina, Minn. The residences of Rev. W. M. Pesse and Postmaster F. N. Corey were entered and considerable property destroyed.

The corner stone of the new Methodist Episcopal church at Kellogg was laid by Dr. F. M. Hale, presiding elder of the St. Paul district, assisted by Rev. W. C. Hise, pastor of the church at Lake City.

The city council of Crookston has decided to establish a paid fire department. A chemical and hose wagon will be purchased; also teams and trained fire horses. A complete alarm system will also be put in.

THE NEWS IN BRIEF.

For the Week Ending July 8. United States Senator Vest, of Missouri, has become ill at St. Louis.

The town of Shipahwahgan, Ill., has been burned. The town of Shipahwahgan, Ill., has been burned. The town of Shipahwahgan, Ill., has been burned.

King Edward will probably be crowned between August and September. The king will probably be crowned between August and September.

The National Educational association began its convention at Minneapolis. The National Educational association began its convention at Minneapolis.

A socialist ranging from an inch to three inches in length is reported from various points in Colorado.

The president has issued a civil service order prohibiting outside influence to gain promotion.

Shareholders of the Panama Canal have been notified of the date of the meeting.

Charles J. McCormick and his wife died at their farm home near Rose Hill.

William Clark, of Newark, N. J., one of the largest manufacturers of bread in the world, died at the age of 63.

John Joseph Daly, one of the leading Chicago publishers, committed suicide at Pueblo, Colo., by taking morphine.

Fire at the stock yards in Chicago wiped out a large amount of property.

Turner in convention at Davenport defeated a proposition to admit women to membership in the Grand Lodge of the I. O. O. F.

Karl von Beckmann shot and killed his wife, Emily, and then killed himself in New York city.

Hanna Taylor, former minister to Spain, has been elected common law at Columbia university.

Over 100 men in 20 years the six shoe factories at Burlington, N. J., employ about 1,200 men and women, are idle on the streets.

Isaac, of New Hampshire, was arrested for the first time in the United States in the Philippines.

Hundreds of Chicagoans are alleged to be victims of Model Cane Mining company, a receiver for which has been appointed.

Many college students are given summer jobs by the United States government in the city.

The wife of Thomas N. Horn, his daughter, Francis, aged seven, and Miss Alice McMahon, of Syrac, N. Y., were drowned in Sandy Hook bay of New York.

POPULIST CANDIDATES.

A Complete State Ticket is Placed in the Hands of Thomas G. McKean as Candidate for Governor.

Governor, Thomas G. McKean, Fillmore. Lieutenant Governor, John W. Houston. Auditor, O. S. Relahu, Yellow Mountain.

Treasurer, E. W. Knatvold, Freeport. Attorney General, F. J. Seide, Traverse. Chief Justice, H. B. Instahl, Marshall.

The nomination was at all made a declaration except that of E. N. Knatvold for treasurer. J. B. Duker, of Hennepin, and T. N. Bonadette, of Dakota, also ran against him.

CURRENT TOPICS.

The Dismal swamps are alive with bears. England's budget deficit will reach \$2,000,000.

South Carolina has 30,000 operatives in cotton mills. Some New York restaurants now have "smoking rooms for ladies."

No less than 185 species of butterflies are found in Mexico and Central America. Electricity has increased the power of sea coast lights to that of 3,000,000 candles.

The average wages of women in France are only about one-third those of the men. Before a Chinaman can quit Australia he is compelled to register and leave his photograph.

The Chicago ministers are going to begin a crusade against the slaughter of pigeons in trap shooting. The freight charges for hauling anthracite coal from Pennsylvania mines aggregates 400,000,000 a year.

Three-fourths of the earth's surface is not cultivated, owing to mountain ranges, swamps and barren fields. Genoa, Venice and the Papal states were the first countries to establish national debts. That was in the 16th century.

Venezuelan coffee planters get only one-third the price they used to before Brazilian overproduction ruined the market. The prince of Wales' private study at Sandringham is one of the smallest rooms in the palace, and is lighted only by a single window.

After a two years' test of an automobile for army use in Austria there was a saving of \$2,915 over the conventional horse-drawn carriage. Secretary Long has directed that hereafter an explanatory note shall be inserted in the naval register indicating the fact that Rear Admiral McMillen is carried as an additional number in grade by reason of his meritorious services in the Arctic region.

Electricity has infringed on the sphere of Indian coolie labor. It is made to work the punkies with much more effect than the coolies do it. The question that troubles the Indian government is what is to become of the natives who are incapable of any other work.

THE LITTLE CYCLOPEA. An average-sized pineapple yields nearly two pints of juice. Weather forecasts have been published in London dailies since 1879. Eighty thousand people live within the danger radius of Mount Vesuvius.

Elephants killed 360 persons in India last year out of 27,302 killed by wild beasts. There are 17,000 statutes in British statute law. Thirty volumes are yearly added to the Law Reports.

There were last year 17,000 immigrants into Great Britain from the United States, as against 12,000 from Britain. The Canadian government has appropriated \$100,000 to build a barbed wire fence along the boundary between Montana and the Dominion from St. Mary's lake to the Sweet Grass hills.

SAVED THE BABY. New Providence, Iowa, July 7th.—Little Helen Moon, the three-year-old daughter of Mr. and Mrs. E. V. Moon, of this place, had a narrow escape from death.

Her mother noticed she seemed to be very clumsy and complained when she was rocked. Her limbs and face were bloated badly. A doctor was summoned but she got no better. He said she had Kidney Trouble in the worst form.

Two other doctors were called in and they agreed that there was very little, if any, hope. She was bloated all over, her eyes being completely closed and her abdomen bloated until it was purple.

They bought six boxes of Dodd's Kidney Pills and she commenced to improve at once. The face had used all gone. The treatment was continued and now she is as well as ever. Dodd's Kidney Pills certainly saved the little one's life.

WARD & CO., GRAIN COMMISSION. Duluth. Orders for Future Delivery Executed in All Markets.

Pine City vs. J. H. Allen.

The local ball players and the J. H. Allen Co. team met in a friendly contest on the local diamond on the afternoon of July 4th.

The visiting team came here flushed with victories as they had been beaten five years and they thought they were invincible, so they came up with the expectation of having an easy snap with the local team. They came loaded with players from St. Paul, but they all looked alike to the county seat boys for in the first inning the locals took their measure and knew just how to handle them.

The game was called for 2 o'clock but on account of the rain it was postponed for a few minutes so at about a 2:15 the game was called by P. S. Murray and Will Smith, who acted as umpires. The game was commenced in a gentle rain before the visiting team had taken the first half of the 4th inning. The visiting team went to bat first and P. McGregor went up a nice high one which fell into the mit of Ben Hurley, who was playing in the right field, Fred Smith the next man up sent a nice easy one to Arthur Schultz who played short and was easily caught before reaching the first base; F. L. Smith fanned the air and the first half of the first inning was a thing of the past. A Schultz was the first one up for the locals, went out by striking three times at the wet atmosphere, Louis Kline hit a nice easy one to Booth the pitcher and was thrown out at first; Will Hurley got out on a nice easy fly to short-stop F. L. Smith, which retired the side, ending the first inning with not a man seeing the initial sack. The second inning opened with D. Booth the southpaw of North Branch at the bat who did the best he could and that was to send a grass cutter down to Michael Hurley who cut him off at the first bag; Earl Palmer of Harris gave Mike another chance by sending him a high fly and took his seat; Will Palmer sent one between the third and short and made one sack where he remained as J. Wilcox of Sunrise struck out. In the second half for the locals Mike Hurley sent a nice little single between the first and second and when the ball came back he was nicely planted on the first bag; when the first ball was pitched he stole to second base; Will Lambert bunted and in throwing to first the catcher threw wide and M. Hurley came scampering in and W. Lambert was on the third cushion, and came home on a passed ball; Ben Hurley went out on a fly to the short stop and Hurley on an easy one to the pitcher who threw him out at first; H. Hoeller fanned the air. In the third, Stanbits of St. Paul went out on an easy one to J. Lambert; Olson, the catcher, also of St. Paul, struck three times at the atmosphere as did P. McGregor. In the locals' half J. Lambert sent a hot one to McGregor on second who threw him out at the first sack; A. Schultz got a smash at the pig skin for two sacks and stole third and came in with the third run on a passed ball; Kline went out on a pop up to the pitcher, and W. Hurley on a hot one to short stop who threw him out at first. In the fourth J. H. Allen made their lone run of the game. Fred Smith went out on an easy one to Mike Hurley; F. L. Smith hit a grass cutter to W. Hurley who threw it first but threw about five feet over W. Lambert's head and the ball got lost in the weeds so that he made all the sacks and crossed the rubber with the only run that the J. H. Allen team could get. The next two men went out in one, two, three order. In the locals' half Mike Hurley sent a little one to McGregor and got out on first; W. Lambert fanned the air and B. Hurley sent a little pop up that short-stop Smith got easily. In the fifth J. H. Allen never saw the initial sack, and neither did the locals. In the sixth Olson, the first man up, fanned the air; McGregor got his base on balls and went to third on Fred Smith's pretty two bagger into the left garden but the next two went out in one, two, three order. In the last half of the sixth A. Schultz hit the ball for a safe one but McGregor got under it and Schultz walked back to the bench; Kline hit for all he was worth but the best he could do was to send an easy ground-out to McGregor who easily threw him out at first; W. Hurley sent a nice liner between second and third and got to first; Mike Hurley hit for a base that cut Will on third who came home on a passed ball; Mike taking second; Will Lambert made his second successful punt and Olson threw high letting in Mike and Will.

Lambert; Ben Hurley got a pretty two-bagger and Mat Hurley got his base on balls, then Ben and Mat played the double steal landing Booth on third and Mat on second; Hoeller went out on a grounder to the first base man, ending the inning with three more scores to the credit of the locals. In the eighth Stanbits got out on an easy one from Schultz to W. Lambert; Olson struck out; McGregor got his base on balls and went to third on a single by Smith who got out while trying to steal second. In the second half Will Hurley struck out; Mike hit for two sacks and came home on Will Lambert's third successful punt; Will beating it out, and the first baseman's over throw to third to catch Mike gave Will the middle bag; B. Hurley hit for a base, W. Lambert got to third and came home on a single by Mat Hurley; Ben stole second and in making the slide hurt his stomach and Arthur Schultz took his place; Schultz and Mat made a successful double steal but the next two went out, one with an easy one to short and the other fanned the air. In the ninth Booth hit for a safe one; Earl Palmer got out at first putting Booth on second; Will Palmer struck out; J. Wilcox got his base on balls but Stanbits struck out, which ended the game between the invincible team of J. H. Allen and the locals. The following is the game by innings:

J. H. Allen—0 0 0 1 0 0 0 0 0—1
Pine City—0 2 1 0 0 3 0 2 x—8
Batteries, Booth and Olson, John Lambert and Kline. Umpires, Will Smith, P. S. Murray. Time 1:45.

After the game on the Fourth arrangements were made for the same two teams to play two more games, one here on the 5th and the other at the Branch on the 6th. The game here on the fifth resulted in an easy victory for the home team the score being nine to one. Lack of space forbids us to go into the game in detail but suffice to say the locals outplayed the J. H. Allen team in every way and at the end of the game the score stood 9 to 1 in favor of the locals. The following is the score by innings:

J. H. Allen—0 0 0 0 0 1 0 0—1
Pine City—3 0 2 0 0 3 1 0 x—9
Batteries, Booth, W. Palmer and G. Herried, Fred Smith, H. Glasgow and L. Kline. Umpire P. S. Murray. Time 1:32.

We have not got the particulars of the game at the Branch but it was a close one, the J. H. Allen team winning by the score of 10 to 7.

The U. S. Civil Service Commission will hold examinations, during September and October, in several places in each state to secure young men and women for the government service. There are now 126,423 positions in the classified civil service, being an increase of 46,736 in six years. There were 7,972 persons appointed between July 1, 1901, and April 15, 1902, being at the rate of 10,070 for the year. There will probably be 11,000 appointments next year. Salaries are approximately \$600 to \$1,200 a year with liberal promotions after work. All appointments are for life and for most positions only a common school education is required. Politics or religion is not considered. Those desiring to take examinations of this kind can get full information about them free by writing to the Columbian Correspondence College, Washington, D. C., and asking for its Civil Service Catalogue for 1902.

AN ORIENTAL CROESUS.

Sir Jotendro Tagore, a Maharajah in British India—Pais Riches to Good Use.

Sir Jotendro Tagore, says the London Chronicle, is unfortunately not able to come to London for the coronation of King George V, but he will be represented by one of his nephews. Calcutta will not be sorry, for what would really miss Tagore if he were only out of the city for a few months. Sir Jotendro is probably the wealthiest zemindar in eastern India, and he has always made most excellent use of his riches. Apart from his regular heavy output in the way of charity and general philanthropy, he is a liberal patron of the arts, and no one of note who has ever visited the Indian capital, has missed passing through the hospitable Tagore castle, in Tagore street, which is only one of the great mansions many. Tagore has on two occasions—in 1877 and 1891—been president of the British India association, and he was created a maharajah in heredity about ten years ago.

Prize Dogs Are Doomed.
The prize dogs of Kansas are doomed. The agricultural college of that state sends out each month \$1,500 worth of poison for the extermination of prairie dogs. Two quarts are sufficient to clear out an entire quarter section, and the dogs seem to like it, until it causes them to stiffen and die.

AN UNEXPECTED ANSWER.

Bright Young Scholar's Response to Bright Young Teacher in the Sun District.

She was a bright young teacher in charge of a bright young class, composed of many foreign children. To increase their vocabulary she had hit on a guessing game. She told the class of what she was thinking, and they named the object.

"This time she had thought of the word 'birthday,'" says the New York Telegram, and the lesson went on in this fashion:

"Now, little folks, I'm thinking of something you all have. You don't have it very often—just once every year. Even I have one. What is it? I'll give you a minute to think, and, when you are sure you know, raise your hand."

Hands began to go up rapidly.

"My!" said this bright young teacher, "I really think I have the best little folks in all this big school. They all think so fast, and I know they are thinking of the very thing I thought. I'm going to let Morris tell. 'I'm sure he knows.'"

Morris rose to his feet and stood in the aisle in true military position; and like a shot from a gun, in response to the teacher's "Tell us what it is, Morris," he came the ready answer:

"A clean underbirt, teacher!"

MATTERS OF TASTE.

Falling in Love, One of Them, According to French Scientists—How.

The Figaro, which is an authority on such matters, enumerates some of the very latest ideas of Parisian society for the summer. When to go out of town is the first question raised. The answer is that to leave Paris immediately after the Grand Prix is a most unlaughable thing to do nowadays. People "in the know" only went off just in time to escape the national fete. This announcement, by the way, has been a cruel blow to those who thought they were doing the right thing by leaving town in June. Where to go is the second question.

Finally, what is the proper way to fall in love this summer? We learn that during the hot weather, at all events, burning passions are tabooed. Love unto death is bad form. The same favorite poets or novelists may be read over together, long walks may be taken, preferably, however, in the company of a party of friends, so as to remove any suspicion of romance, and motor drives on telescopic are not only allowed but encouraged, as it is not considered that there can be any taint of tender emotion about such excursions.

THE YES-OR-NO CONNER.

Man Who Annoyed a Clever Campaigner Speaks Gets Himself Into a Queer Hole.

The efforts on the part of members of the house to pin one another down to direct answers reminded Representative Capron, of Rhode Island—one of the best story tellers in the house, by the way—of an experience in the last campaign, says the Washington Post. Mr. Capron was very much bothered while making a speech by a man in the audience who insisted on asking questions to which he demanded either "yes" or "no" for an answer.

"But there are some questions," finally remarked Mr. Capron, "which cannot be answered by 'yes' or 'no.'"

"I should like to hear one," scornfully commented his antagonist.

"Well," said Mr. Capron, "I think I can prove it. Have you quit beating your wife? Answer 'yes' or 'no.'"

The crowd saw at once that Mr. Capron had the man in a trap. If he said "yes" it was a confession that he had been beating his wife; if he said "no" it was an admission that he was still indulging in the pastime.

Here's a Suggestion.

When you want a first-class daily newspaper—
One that excels in northwest news—
One that spares no pains to get the news of the world, and print it first—
One whose commercial and financial news and market reports are admitted to be the best—
One that is fearless and fair in its editorial discussion of the topics—
One that contains Bart's cartoons, the Journal Justice—a weekly paper for children without extra cost—Jeremiah's daily Washington correspondence, and many other notable features peculiar to that paper.

There is only one thing for you to do and that is to subscribe for The Minneapolis Journal.
