BE DECORATED BY THE GRAND ARMY OF THE REPUBLIC ON MATHEMETER.

Last Sunday afternoon occurred the funeral of Peter Norstrom, mention of whose death was made in these columns last week. The services were held in the G. A. R. hall, and a large addience of old soldiers, read the services of the G. A. R. and gave as foot address over the remains, and Rev. Loomis offered were prevent to pay their last respects to the dead. J. F. Stone, who officiated, read the services of the G. A. R. and gave as foot address over the remains, and Rev. Loomis offered was held in Brichwood Genetery where the remains were interred. Mr. Norstrom was born in Sweden in the month of February, 1812, and died March 20th, 1003, being a little occupied in the month of February, 1812, and died March 20th, 1003, being a little out of the Civil War be enlisted in Co. 7 the Regiment Minesota Vol., and was injured white on duty in the Drinc county. In 1826 and since then had resided at his home on the Drinc county in 1822 and since then had resided at his home on the Drinc county. In 1802 and since then had resided at his home on the Drinc county in 1822 and since then had resided at his home on the Sidosca wife, who S2 years old, and was injured white on duty in the Janks of the Pokegama.

Mr. Norstrom was a good Christan was and was always honest and upryth in all his dealings. He saves a wife, who S2 years old, and such the had resided at his home on the Saves and the same of the same of the sarrow of the sar

St. Jacobs Oil Rheumatism and Neuralgia

Psoriasis, Scalled Head, Milk Crust, Tetter, Ringworm, etc.

Speedily, Permanently and Economically Cured, when All Else Fails, by

The agonizing, itching, and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair, and crusting of the scalp, as in scalled head; the facial disfigurements, as in pimples and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in milk crust, tetter and salt rheum,—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Resolvent are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures, blood purifiers and humour remedies of the civilized world.

Gamulato Evtannal and Internal Illnoatmont**

Complete External and Internal Treatment

Bathe the affected parts with hot water and Cuticura Soan, to cleanse the surface of crusts and scales, and soften the thickneed cruicle. Dry, without hard rubbing, and apply Cuticura Olintenet freely, to allay itching, irritation, and inflammation, and soothe and heal, and, lastly, take Curicura Resolvent to cool and cleanse the blood. This complete treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other tiching, burning, and scally humorus of the skin, scalp and blood, and points to a speedy, permanent and commend cure when all other remedies and the best physiciams fail. As evidence of the wooderful curative properties of Cuticura Remedies and of their worldwide sale, we quote from

Papering Hen House Walls.
It will cost but little to paper the outer walls of a poolity house with waterproof paper. It is better to place the paper on the outside, as it then protects the boards from becoming wet. One plan, however, is to strip the house on the inside. This can be done house on the inside. This can be done paper being excellent—two mappings are being applied, and it can be removed in summer, as it will then afford a harboring place for lice. The better plan is to use waterproof paper, which If painted will last for years.

MINES LOCATED IN

Idaho County, State & Idaho.

Would you like to have an interest in the Treadwell Gold Mine, the greatest dividend-payer in the world? If so, you have to pay \$185.00 for one share of stock, because that is the actual value of it, based on the dividends paid. When the Treatwall wine of it, based on the dividends paid. When the Treatwell mine offered stock for the purpose of erecting a treating plant it was at a few cents a share, and gradually advanced as the equipment was increased until the present. high price was attained.

The property of the Treadwell Company is an immense body of gold-bearing quartz carrying values of \$1.81 per ton, located on Douglas Island, Alaska. This quartz is mined and milled for 87 cents a ton, thus leaving less than a dollar a ton profit, but they treat thousands of tons a day.

The Golden Dyke Mining Company owns a body of quartz in Idaho county, Idaho, fully double the size of the Great Treadwell mine, and the values are fully 300 per cent greater. Like the quartz of the great Treadwell mine, the Golden Dyke quastz can be treated for less than one dollar per ton, leaving a profit of six dollars a ton, or over six times what is derived from the Treadwell quartz, which means that the Golden Dyke stock is worth six time what the Treadwell is worth.

In order to place the Golden Dyke on the same basis as the Treadwell it is necessary to equip it with a treatment plant, and for this purpose an introductory block of stock will be offered to the public at 10 cents the share; second small block at 15 cents, and so on.

This

Is

We have a mountain of gold ore above the surface containing about 4,000,000 tons all ready for the mill; from 50 essays it averages \$7.29 per ton. All we need is a plant to treat this vast body of ore. This is why our proposition is certain and definite.

The Mendall mine, which was sold the last of February for \$10,000,000, was bought three years ago for \$650; same character of ore, same treatment averages \$7.00, cost to mine and treats ment \$1.00 per ton. The Mendall mine has \$3,000,000 worth of ore in sight.

The Golden Dyke has over \$28,000,000 worth of ore in sight.

The Mendall mine had to build five miles of flume to get water for operating their plant. The Golden Dyke mine has ample water power 820 feet from the mine.

STOCK

in this wonderful mine is selling for a short time at 10 cents per share. The stock is fully paid and non-assessable. After first payment no mo cost to subscriber.
