Twister at Beroun.

Fortunately No Lives Were Lost in the Terrific Storm That Visited Beroun at an Early Hour Thursday Morning. Out Buildings and Sheds Overturned and Destroyed. Close Call for Pine City.

At about seven o'clock on the Thursday morning a cyclone passed over Beroun, leaving destruction in its path. Several farmers residing in the path of the storm met with more or less loss, and timber is laid low on the ground. The storm came from the southeast, striking Thomas Henderson's farm on the east bank of Mission Creek, and it practically cleared his farm of the timber, one large tree falling on a valuable cyw and killing her. At Beroun it overturned a large lumber shed recently erected by Jos. Chalupsky, and nearly every out building in the town was overturned. East of Beroun all the damage done was downed timber. Hay that had been cut was blown into trees. The damage to those residing in the path of the storm will amount to considerable, but there was no lives lost. At Pokegama Henry Andeason large new barn was twisted about six inches off the foundation, and logs, which were too heavy for one man to lift one end of, were blown twenty rods.

The Farmers Exchange

Flour and Feed

We represent some of the best flour mills in Minnesota. You can always be sure of getting the very best flour at our store.

We have a big stock of everything in the feed line.

We are cash buyers of Live Stock and produce, Hides, Wool, etc.

Respectfully,
J. J. Madden.

THE FOURTH IS PASSED.

A GLORIOUS TIME HAD HERE REGARDLESS OF THE BAD WEATHER IN THE EARLY PART OF THE DAY.

The Parade and Fireworks was a Grand Success. The Ball Games on the Fourth and Fifth Were Both Good and Hurley's Barringtons were Successful in Winning Both Games.

On the morning of the 4th when the sun arose the booming of the cannon announced another anniversary of the birth of our great nation. The sun came out bright and clear and it looked as though we were to have an ideal day for the sports that were advertised, but at an early hour clouds began to appear and at the time set for the parade, rain was falling, which continued until about eleven o'clock, after which the procession was formed.

The parade was headed by the Pine City Cornet band, after which came the fire department, uniformed, with engine, hose carts and ladder truck decorated with flags and bunting, and a number of the firemen on horseback, making a very handsome appearance. A float carrying girls and representing the states and the Goddess of Liberty next came in line. F. E. Smith, the only merchant represented in the parade, had a float with a windmill and pump set thereon and banner on the sides with the words "Smith, the Hardware Man" painted in gay colors. A comical band called by some of the boys, "Susa's Band" brought up the rear. Other comical rigs were in the procession. Taken all in all the parade made a very pleasing appearance.

At 1:30 p. m. foot races were held on Front street. Ben Hurley took first money, and Pete O'Brien, second, in the young men's foot race; in the boys' foot race Frank Hurley was first and Bud McLaughlin, second; O. T. Swanson, first, and Henry Steiner, second, in the old men's foot race; Orrin Sturman, first, and John Rheinbolt, second, in the boys' attic race.

At 2:30 the fire department made an exhibition run which was enjoyed by the onlookers much more than by the fire laddies as it was very warm and the streets were muddy in some places which made it very unpleasant for them. The ball game was called at 3:00 o'clock, a detailed account of which we give below.

After supper the crowd gathered at the dock where a pole had been put out over the water with five rollers on the end of it. Henry Glasow, Ed. Netser, Melar Drackott, Wayne Lonas and Jimmie Heywood tried for it, all taking several

plunges into the water before Henry Glasow was successful in getting the five. A log rolling contest was then indulged in by Jack Lambert and Ed. Netser, the latter coming out victorious.

As soon as it became dark enough the fireworks were shot off from the dock, which were very fine in every respect. The dance given by the ball boys at Rath's hall was well attended and the boys netted quite a neat sum.

There was not a single occurrence during the whole day to mar the pleasure, and another National birthday was very enjoyably spent, long to be pleasantly remembered in the history of Pine City.

THE BALL GAMES.

The game scheduled for last Saturday afternoon took place on the home diamond, and a large and typical Fourth of July crowd witnessed the strong Dewey & Sons Linettas go down to defeat under the superior ball playing of Hurley's Barringtons. It was a good game and pretty much on the order of a pitchers battle, Lambert for the home team striking out 14 men, while Lenahan for the Linettas did the same to 12 of our boys. The home run by Wm. Hurley in the 5th inning which netted two runs, and a double play in the 4th inning, were features.

The only inning that the Barringtons were in any danger of losing out was in the 5th, when a man was hit by a pitched ball. 2 hits, a base on balls and two errors netted the visitors 3 runs. During this inning Lambert struck out 3 men thereby retiring the side himself. The score by innings was as follows:

	1	2	3	4	5	6	7	8	9
Barringtons	1	0	2	0	2	4	0	0	8
Linettas	0	0	0	3	0	1	0	2	6

SECOND GAME.

Sunday the same teams met again on the same grounds for another tussle to decide upon the supremacy of the nines, and up to the ninth inning it seemed as though the Linettas were booked for a win, but luck, which seems to favor the Barringtons at times, certainly worked in just right at the most critical stage of game Sunday. The score up to the ninth inning stood 7 to 1 in favor of the boys from St. Paul, and of course the visitors as well as everyone else, though they had the scalp and were about to fasten it in their belts when an awful swatfast happened—the pitcher went in the air, the fans began to yell, and best of all our boys began to hit the ball just where it seemed to land the safest. A total of 5 safe hits among them a two-bagger by Ben Hurley, two bases on balls, and an error netted the Barringtons 7 runs and

PINE CITY, MINN.

A notable parrot, the property of a resident of Bakerfield, Mass., died the other day at the age of 45 years. This bird's claim to distinction lay in the fact that, though educated on ship-board, it was never known to utter a vulgar or profane word.

"I would not counsel any one to eat a small," says Lieut. Col. Newham Davis, the well-known authority on the art of dining. "The two attempts, in the cause of gastronomy, that I have made to swallow the long brown things that one pulls out of the steaming shells have been failures. They tasted to me like gravel cooked in muck turk soup."

Ernest Legouve, who recently celebrated his 87th birthday, was asked what he attributed his long life and good health. "No care, no anxiety, no sorrows—that's one reason of my good health," he replied. "But that is not enough. The body must be kept in motion and for this reason we must walk, play billiards and, above all, fence. For me fencing is the ideal exercise."

The establishment of a department of humor, such as might train young men for after-dinner speaking, story telling and cartooning, was suggested the other day by Wm. Smith of Milwaukee, responding to a toast at the annual dinner of the University of Wisconsin. Such a department is not now in existence and Mr. Smith believes it would prove itself practicable and valuable.

The speed to be developed by the airships frights the imagination. Sixty miles an hour is predicted with confidence. That is to be made to combine, with the help of a brisk gale, imagine for a moment the spectacle that one of these fastest flying machines will present when performing this stupendous feat. The airship by which we measure phenomenal speed will be reduced to mere commonplace.

The monthly report of Dr. Carlos J. Finlay, chief sanitary officer of the island of Cuba, says the showing for 1913 and the beginning of 1914 is satisfactory, not only in regard to the complete exemption from yellow fever and smallpox, but also in the number of deaths from malaria and in the total mortality. There has been no smallpox in the island since July, 1910, nor yellow fever since September, 1901.

Six Shaffer brothers, sons of John Shaffer, of Highland County, were photographed in a group at Hillsboro, O., a few days ago. The oldest is 88 years of age and the youngest, 74. Their united ages amount to 480 years. Their father's children numbered 13, and the children of these six brothers, nine, thirteen, twelve and five, giving the list in the order of the father's ages.

Alpine flowers and plants are so quickly becoming extinct that strong measures are to be taken in future for their preservation. The prefect of the Alps (Savoie) has now issued a decree forbidding the uprooting of the edelweiss, the rhododendron, the blue bell, the Alpine cleome, silver geranium, mountain bellflower, gentian, arnica and many other plants. The sale or transport of these plants are also forbidden.

A series of experiments have recently been conducted by J. H. Soper Whitney, of the Washington state fish commission, on which he reports that fish, cold blooded as they are, are more solid and thawed back to life if not exposed to the sun or allowed to get more than 12 to 14 degrees below the freezing point. If exposed to a temperature of zero or below they will not survive, as the faint inner pulsation of life then ceases.

Ethan Allen Hitchcock, secretary of the Interior, recently visited the Hot Springs ostrich farm, and had the experience of riding behind one of the largest ostriches in this country. The ostrich is known as "Black Diamond," who is big and fleet and docile as a well-trained horse. Black Diamond was hitched to a runabout, and Secretary Hitchcock had the novel sensation of riding behind this bird that trotted as fast as a horse can run.

The rhythmic traction of the tongue, which is used in treating the apparently drowned, has been successfully applied to a man suffering from asphyxia due to an electric shock. The patient was an operator at the electric station in Limoges, France. He fell on a cable and 20,000 volts passed through his body. The man given up for dead, when the chief engineer ordered rhythmic traction of the tongue to be tried. After 20 minutes the man recovered consciousness, and at last conscious the physicians believed they would be able to save his life.

The big brown segmental tubes wire-meshed cannon which was constructed at Reading, Pa., has been shipped to Sandy Hook, where it will be tested by military experts. The gun is 27 feet 8 1/2 inches in length and weighs 65,700 pounds. It is designed to fire a charge of 175 pounds of smokeless powder and has a solid shot weighing 700 pounds a distance of 20 miles. It is claimed by the inventor that it will send a solid shot at the rate of 3,000 feet per second, with a maximum pressure of 37,000 pounds to the square inch.

COPIES ARE THE ONLY SALES

Explosion of Fire-damp in a Mine at Hanna, Wyo., Buries Many Miners in Its Depths.

OVER TWO HUNDRED PROBABLY KILLED.

Main Shaft Filled with Broken Timbers and Earth, and Work of Rescuers Stopped by Gas—Shock Heard for Miles and Attracted People to the Scene.

Hanna, Wyo., July 1.—A terrible explosion of fire-damp in the No. 1 shaft of the Union Pacific Coal company at 10:30 o'clock yesterday is believed to have caused the death of 236 miners and caused the destruction of a huge amount of property. Forty-eight men were taken out during the afternoon, all badly injured. Two of them died after reaching the surface. But E. S. Brooks and a large force of men at once went to work to remove the debris from the shaft and reach the entrapped miners. Their progress into the mine was blocked by the foul gases, and several times they were forced to return to the surface.

Heard for Miles.
The explosion was heard many miles around and attracted people from the adjoining settlements. Huge timbers and railroad iron were hurled from the mouth of the shaft a distance of 200 or 300 feet. But E. S. Brooks and a large force of men at once went to work to remove the debris from the shaft and reach the entrapped miners. Their progress into the mine was blocked by the foul gases, and several times they were forced to return to the surface.

Taken from the Mine.
The rescuing party increased from time to time by the arrival of ranchmen and others from nearby towns, and a large number came on a relief party sent out from Ravalli at two o'clock in the afternoon. About one o'clock in the afternoon four men were taken out alive, and a half hour later they were followed by 44 others.

Gas Delayed Work.
Then the rescuers were driven out by the gas and were unable to penetrate farther into the mine until an additional opening had been made to permit fresh air to reach the lower levels.

An expert who went almost to the seventeenth level says the mine cannot be cleared for a month. It is feared that men in the lower levels were torn to pieces by the explosion, which hurled great timbers high over the town and 1,700 feet beyond the south end of the slope.

Considered Dangerous.
The Hanna mines are among the best on the Union Pacific system, being established in 1878. The town was named for Senator Mark Hanna, when he was interested in the Union Pacific Coal company. Mine No. 1 is practically a new property. It has 26 entries, 15 miles of workings, and a main incline of 4,000 feet and one-half miles in length. The mine has been recognized as a dangerous property for some time on account of the large amount of gas, but the system of ventilation has been so good that an accident never was anticipated.

All Hope Abandoned.
Hanna, Wyo., July 2.—Of the 234 men entombed by the mine explosion on Tuesday the bodies of only five have been recovered and all hope that any of the others are alive has been abandoned. Fire and smoke are preventing exploration of the lower workings, and it is feared that many of the bodies, which in the best will be consumed.

Big Plant Burned.
St. Joseph, Mo., July 6.—Fire yesterday afternoon destroyed the main building of the Hamamond packing plant, causing a loss estimated at \$1,500,000. The Nelson Morris plant was saved by heroic work. It is reported that two, and possibly three, men lost their lives. The carcasses of 4,600 hogs, 1,800 cattle and 800 sheep were burned.

New Cable Line Completed.
Oyster Bay, L. I., July 6.—Around the world in nine and a half minutes is the remarkable record made Saturday by the cable operated by the Transatlantic Cable Company, owned by the American Pacific cable.

Work of the Pension Bureau.
Washington, July 2.—During the fiscal year which closed yesterday 132,829 claims were allowed by the pension bureau and 113,720 rejected. The number of allowances exceeded those of last year to the extent of 13,005. The number of rejections in 1912 was 118,644.

The Public Debt.
Washington, July 2.—The monthly statement of the public debt shows that the close of business June 30, 1913, the total debt, less cash in the treasury, amounted to \$225,011,587, which is a decrease for the month of \$10,675,324.

Aged Journalist Dead.
Toledo, O., July 3.—Clark Waggoner, for 36 years an editor of Ohio newspapers, died at his residence at Toledo, Ohio, aged 80 years. He was editor of the Blade from 1868 to 1886, and editor of the Toledo Commercial from 1886 to 1876.

IOWA REPUBLICANS.

Recommend Gov. Cummins and Other Candidates for State Offices and Adopt a Platform.

Des Moines, Ia., July 2.—The republican state convention on Wednesday nominated a ticket and adopted the platform of principles. All the candidates were unanimously recommended with the exception of the state superintendent, for which office Mr. Riggs was nominated on the third ballot. His opponents being present. Business: H. C. Barrett, of Osage, and H. L. Adams, of West Union. The ticket is as follows: Governor—A. B. Cummins, of Des Moines; Lieutenant Governor—John Herriott, of Stuart; Supreme Judge—Charles A. Bishop, of Des Moines; Railroad Commissioner—David J. Palmer, of Washington; State Superintendent—F. J. Riggs, of Shinnston.

The convention adopted the Allison tariff plank, and a declaration more conservative than the original "Iowa idealism." The platform reiterates faith in the historical principle of protection; says tariff rates enacted to carry this policy in effect should be just, fair and impartial; indorses the policy of reciprocity; approves the treaty with Cuba; favors the regulation and supervision of trusts; congratulates the nation on the present era of prosperity; commends the administration of Gov. Cummins; rejoices in Iowa's leadership in national affairs; favors good roads legislation; indorses the Louisiana Purchase commission, and declares for nomination of President Roosevelt as his own successor. It renews allegiance to the principle of the gold standard. It opposes all legislation designed to accomplish the disfranchisement of citizens upon basis of race, color or station in life, and condemns the measures adopted by the democratic party in certain states of the union to accomplish that end.

FATAL RACE WAR.

Riot between a Mob and the State Militia at Evansville, Ind., and Seven Are Killed.

Evansville, Ind., July 2, a. m.—Evansville's race war resulted shortly before midnight in a battle between a mob and state militia, in which seven persons were shot dead and at least 20,000 more people were making an escape to the jail.

Several persons who were struck by the soldiers' bullets were only spectators of the riot, one of those killed being a girl. The fatal battle followed four days of rioting that grew out of the murder of Policeman Massey by Lee Brown, a negro.

Negro and white mobs are still marching up and down the streets, both crowds armed and eager for battle. More bloodshed is feared and the governor has been asked to send more troops and declare the city under martial law.

King Greets Loubet.
London, July 7.—President Loubet, the first president of the republic who has ever represented the French nation as the guest of the British court, arrived in London from Dover soon after four o'clock yesterday afternoon and was greeted by King Edward and the cabinet ministers and a host of other distinguished persons.

Severe Winterstorm in Wisconsin.
La Crosse, Wis., July 1.—A severe winterstorm, followed by a food of rain, did considerable damage in western Wisconsin and eastern Minnesota Tuesday morning. Hundreds of acres of corn in this vicinity was laid low by the wind and the rain was so heavy that crops on high hills were almost entirely washed out.

German Wins Auto Race.
Bally Shannon, Ireland, July 3.—The first international automobile race for James Gordon Bennett cup was run Thursday and won by Jenatz, a member of the German team, who covered the distance of 37 1/2 miles in six hours 35 minutes and nine seconds, including the stops imposed by the regulations.

Disaster in a Mine.
Brazil, Ind., July 3.—The premature explosion of a "shot" at Superior mine, No. 1, Thursday afternoon instantly killed Jesse Perkins, and fatally injured George Perkins. The men had lit the fuse when it flashed up and the shot exploded before they could get away. Jesse Perkins was terribly mangled.

Many Patents Granted.
Washington, July 3.—A summary of the business transacted by the patent office for the fiscal year ended June 30 shows that 23,225 patents were granted, 14,256 applications filed. The receipts of the office were \$1,291,251. The year has been one of the most prosperous in the history of the bureau.

OVER TWENTY LIVES LOST.

Oakford Park, a Pleasure Resort in Pennsylvania, Engulfed in a Raging Torrent.

CLOUDBURST CAUSES A DAM TO BREAK.

Some of the Victims Swept Away and Others Crushed into Unrecognizable Masses—Buildings Swept Away and Torn to Pieces—A Number of Houses Destroyed.

Pittsburg, July 6.—Another horror similar to that of Johnstown occurred yesterday at Oakford Park, between this place and Johnstown, when by a cloudburst and the breaking of a dam scores of people were drowned. The estimated loss of life ranges from 50 to 100. Many bodies were swept away and are floating in the darkness toward the Monongahela river, while others were found crushed and bruised beyond recognition. A number of buildings in the park had been taken refuge. Still other bodies have been found buried under a mass of mud from having come in contact with live electric wires which fell on the victims who were fleeing for safety.

The dam which burst was at Oakford Park lake. The lake was formed

by the construction of a 40-foot embankment, which dammed up a number of small streams. In the afternoon 400 people assembled at the resort. The day had been a beautiful one, but warm and sultry. Very suddenly the skies darkened, a severe storm swept over the park and rain began to descend in torrents. It was the worst cloudburst ever known in this part of the country.

Warned the Crowd.
Manager James McGrath, believing there was danger of a break in the great walls of the dam, hurried among the crowds of pleasure seekers and had gathered under the roof of the various stands in the park and warned them to run to the hills. On both sides of the pleasure grounds there are high hills, the park being located in a ravine about a fourth of a mile wide and a mile long.

Battled Wrecked.
Half an hour after the buildings had been cleared water to a depth of five feet was flowing over the top length of 400 feet of the dam. The park or ravine, studded with buildings, the merry-go-round, the laughing gallery and other amusement places were twisted about, and all except the dancing pavilion and large lunch stand were knocked from their foundations.

Dead Gives Way.
Suddenly, while the storm was at its worst, four feet of the dam gave way, and a wall of water 40 feet in height swept down upon the pleasure seekers, who were caught in the little valley which forms the park. When the wall of water was seen approaching there was a panic in the restaurant building. Forty people who had taken refuge there made a frantic effort to escape, which resulted in the fall building collapsing. Some were trampled to death in the excitement and others were crushed by the water.

Trolley Car Caught.
A trolley car which contained 50 to 70 people was crossing the bridge over Brush creek. The motorman saw the great wall of water coming and put on all the power at his command. It was another race for life, but the water ran faster than did the electric car. When the car had reached the center of the bridge the water struck it. The bridge was swept aside as though it had been a log, taking the car with it. The water was so high that a number of bodies have been taken from the car, but many others were washed down the valley.

Dead Elsewhere.
Penn, a town but a short distance from Jeannette, was the next victim. Here the water was 20 feet deep, and there are known to be three victims. At the Greenburg race track 25 valuable race horses were drowned. At Irwin the freight depot was washed away, entailing a loss of several thousand dollars. The total loss by the flood, it is estimated, will reach \$800,000.

A Scene of Woe.
Jeannette, Pa., July 7.—As a result of the breaking of the Oakford park dam Sunday 36 persons are known to be dead and 16 are missing. The property loss in the valley will reach \$1,500,000, and the distress is so great that outside relief will have to be asked for. The number of lives lost was not so great as estimated, but the list is long enough to be appalling. From a happy, prosperous contented valley, this section in a single day has been transformed into a great household of mourning.

Many Perish.
Four Killed by Heat and Three by Storm in New York—Fatal Cloudburst in Texas.

New York, July 3.—A terrible storm here Thursday followed a period of most intense heat. There were four deaths from the heat and a score or more of prostrations. Already three deaths, traceable to the storm, have been reported, and many persons caught in the fury of the wind were injured.

Fannie Kiniser, a six-year-old child, frightened by the storm and blinded by the rain, ran directly under a swiftly moving wagon, and was killed instantly. John Dominick, a dock laborer, was knocked into the East river by a plank, and died. Near Norman (ex-Mexican farm hands are reported drowned and 12 more are said to have been drowned at Pettus. The heaviest damage was sustained by the San Antonio and Aransas Pass railroad. Several thousand feet of its tracks and one large bridge were swept away.

SHOWS A LARGE SURPLUS.

Annual Statement of United States Treasury Gives Some Interesting Statistics.

SITUATION AT CLOSE OF FISCAL YEAR.

After Paying All Expenses There Remains \$22,710,500—The Gold Now Held in Government Strongly Increases.

Washington, July 1.—There was a surplus of \$22,710,500 in the treasury at the end of the fiscal year which closed yesterday, notwithstanding the repeal of the war taxes. The United States government now has in its vaults more gold than any other nation on earth.

The receipts of the year were \$58,887,225, and the disbursements \$56,676,524. The total gold in the treasury is \$23,710,500, including that against which gold certificates have been issued and the \$150,000,000 of gold reserve.

Surplus a Surprise.
The large amount of the surplus was unexpected. At the beginning of the fiscal year it was anticipated that the reduction of internal revenue taxes by the repealing of the war taxes would be \$75,000,000, whereas the actual loss was \$41,764,000. Owing to the enormous importation of partly manufactured goods the customs receipts were greater than those of last year by \$25,437,770.

There was an increase of \$311,697 in taxes paid on whisky, and the receipts from miscellaneous sources were \$3,727,148 greater than last year, the increase being due to phenomenal sales of public lands in the west.

Receipts and Expenditures.
The sources of the receipts were: Customs, \$23,891,257; internal revenue, \$220,115,256; miscellaneous, \$44,880,551. The items of expenditure were: Civil and miscellaneous, \$125,916,312; increase, \$1,546,988; War (including river and harbor), \$118,540,638; increase, \$6,277,468; Navy, \$82,696,803; increase, \$1,838,674; Indian, \$12,931,556; increase, \$2,831,371; Pension, \$128,425,613; decrease, \$67,242. Interest, \$25,556,618; decrease, \$51,427. Total, \$566,176,580; increase, \$34,385,732.

Available cash balance in treasury at close of business to-day was \$231,645,012, a gain of \$19,257,451.

Work of the Mint.
During the fiscal year the mints of the United States coined 206,591,463 pieces of gold, \$1,682,924 more pieces and various denominations of cents for the Philippines; 750,000 were for the government of Venezuela and 1,260,000 for the government of the total value of American coins exported was \$74,203,000, against \$94,526,678 in the previous year.

Circulation of National Banks.
The circulation of the national banks at the close of business yesterday aggregated \$412,670,650, being an increase of \$56,859,259 over the last year. Five hundred and thirty-seven new banks began business in the 12 months just closed, being an increase of more than 100 over those for the previous year. The number of national banks which failed during the year was five, and 72 went into voluntary liquidation. The majority of those which went into liquidation, were merely consolidations with other banks.

Money in Circulation.
The total money in circulation in the United States is \$2,375,943,327, being an increase of \$182,924 over the last year of \$125,532,788. Gold certificates alone furnished \$2,927,780 of this increase, the total amount of these notes outstanding being \$409,309,469. The amount of public money deposited with the national banks is \$15,773,472, being an increase of \$11,838 during the last 12 months. The number of depositors increased from 574 to 710.

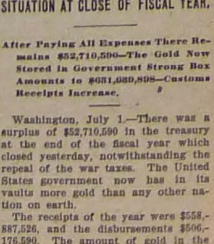

Bonds Retained.
Under the offer of the secretary of the treasury, made on March 26 last, to refund \$100,000,000 of short term three and four per cent. bonds in exchange for new two per cent. \$3,799,800 of four per cent. of 1907 and \$14,088,000 of three per cent. of 1908 had been exchanged up to yesterday, when the offer was withdrawn.

Her Last Ride.
Fort Dodge, July 3.—Clara Fox, of Omaha, was instantly killed while making a "wild ride" on a wire stretched from the courthouse tower to a telephone pole but a few feet above the harness in which she hung became unbuckled just after starting. She fell into a crowd of 100, striking W. H. Wheeler, of Fort Dodge, and fatally injuring him.

Broke World's Record.
Washington Park, Chicago, July 2.—Alan-a-Dale broke the world's record for one mile and a circular track at Washington park Wednesday afternoon, running the distance in 1:37.25. The former record of 1:40.5 was made by Brigadier at Coney island in 1901. Savior holds the record for a straight course. He made it in 1:38 in 1934.

THE WHEAT-CRACK

The Wheat—For This Relief, Much Thanks.

moving wagon, and was killed instantly. John Dominick, a dock laborer, was knocked into the East river by a plank, and died. Near Norman (ex-Mexican farm hands are reported drowned and 12 more are said to have been drowned at Pettus. The heaviest damage was sustained by the San Antonio and Aransas Pass railroad. Several thousand feet of its tracks and one large bridge were swept away.

Victims of Cyclone.
Eight Persons Lost Their Lives in Minnesota and Great Damage Is Done to Property.

Heron Lake, Minn., July 1.—Eight persons are known to have been killed yesterday. The storm first struck three miles northwest of Wilder, then turned east, laying bare a strip 40 rods wide and 12 miles long. Damage to farm buildings is heavy.

Sent to Prison.
Montgomery, Ala., July 2.—George D. and Baranous Cooby, the two white men who pleaded guilty to poisoning for holding negroes in involuntary servitude, have been taken to the federal prison at Atlanta. These are the first cases of their kind in the United States where the parties go to the penitentiary. The Cooby's sentence will forever lose them their rights of citizenship unless pardoned by President Roosevelt.

Trespass in Texas.
Austin, Tex., July 1.—Frenated by supposed wrong W. O. Hill, an attaché of the state comptroller's office, entered the private office of State Comptroller R. M. Love and killed him with a revolver. As Hill turned to flee he was intercepted by Chief Clerk Stevens, of the department, who engaged him in a struggle. Hill's revolver was accidentally exploded and he was killed.

Lynch.
Norway, B. C., July 2.—Charles Evans, editor of the Standard of the murder of John J. Phillips, was taken from the jail here Tuesday night and lynched by a mob of 200 negroes, who were confined in the jail. He was also taken by the mob and beaten into insensibility.

Dead Elsewhere.
Penn, a town but a short distance from Jeannette, was the next victim. Here the water was 20 feet deep, and there are known to be three victims. At the Greenburg race track 25 valuable race horses were drowned. At Irwin the freight depot was washed away, entailing a loss of several thousand dollars. The total loss by the flood, it is estimated, will reach \$800,000.

A Scene of Woe.
Jeannette, Pa., July 7.—As a result of the breaking of the Oakford park dam Sunday 36 persons are known to be dead and 16 are missing. The property loss in the valley will reach \$1,500,000, and the distress is so great that outside relief will have to be asked for. The number of lives lost was not so great as estimated, but the list is long enough to be appalling. From a happy, prosperous contented valley, this section in a single day has been transformed into a great household of mourning.

Many Perish.
Four Killed by Heat and Three by Storm in New York—Fatal Cloudburst in Texas.

New York, July 3.—A terrible storm here Thursday followed a period of most intense heat. There were four deaths from the heat and a score or more of prostrations. Already three deaths, traceable to the storm, have been reported, and many persons caught in the fury of the wind were injured.

Fannie Kiniser, a six-year-old child, frightened by the storm and blinded by the rain, ran directly under a swiftly moving wagon, and was killed instantly. John Dominick, a dock laborer, was knocked into the East river by a plank, and died. Near Norman (ex-Mexican farm hands are reported drowned and 12 more are said to have been drowned at Pettus. The heaviest damage was sustained by the San Antonio and Aransas Pass railroad. Several thousand feet of its tracks and one large bridge were swept away.

Work of the Mint.
During the fiscal year the mints of the United States coined 206,591,463 pieces of gold, \$1,682,924 more pieces and various denominations of cents for the Philippines; 750,000 were for the government of Venezuela and 1,260,000 for the government of the total value of American coins exported was \$74,203,000, against \$94,526,678 in the previous year.

END OF THE GRAPEVINE.

Pope Undergoes Successful Operation, But He Is Nevertheless Steadily Sinking.

SAYS FAREWELL TO HIS RELATIVES.

Pontiff Continues to Show Interest in Press Reports of His Condition—Communication Again Administered by Him—Technical Description of the Pope's Illness.

Rome, July 8.—There is no denying that the life of the pontiff is slowly wasting away. There are moments when he seems better, and others in which he is worse, but no one doubts that hour by hour, moment by moment, he is leaving the world. By the pope's express desire, all his relatives have been to the scene, who have been touching his hands, to whom he has been a real father, entered the room sobbing. His holiness examined them all, and said: "I feel the moment approaching when I must leave you. Say our last good-by. I am about to enter eternal life. But do not grieve. I am about to enter my real happiness."

Before leaving the room, they all kissed the hand of the pontiff reverently, fearing it is for the last time.

Speaks.—When Dr. Mazzoni went to the Vatican Tuesday morning Dr. Lajolo made a full report to him as to how the pope had passed the night. Then both entered the sick room. Pope Leo smiled benevolently at Dr. Mazzoni, but seemed not to have sufficient strength to speak. The doctor asked:

"How is your holiness?"

To this inquiry the pontiff, in a faint voice, replied:

"I have no illusion, and am resigned. They have raised his eyes, while his lips moved, evidently in prayer."

The doctors then proceeded to make a most minute examination of the pontiff, listening to his breathing and testing his lungs.

The pope expressed a desire to read the Observatore Romano and the Voice of Italy. He was given both, and he turned the sick room. Pope Leo smiled benevolently at Dr. Mazzoni, but seemed not to have sufficient strength to speak. The doctor asked:

"How is your holiness?"

To this inquiry the pontiff, in a faint voice, replied:

"I have no illusion, and am resigned. They have raised his eyes, while his lips moved, evidently in prayer."

The doctors then proceeded to make a most minute examination of the pontiff, listening to his breathing and testing his lungs.

to operate for pleurisy, the primary purpose being to expose the affected parts. They hoped, incidentally, to draw off the collected fluid. When the operation was completed, the patient, who had shown no anxiety, to the contrary, he showed no anxiety. On the contrary, he submitted very willingly, expressing the hope that good results might come, revealing the successful results following Dr. Mazzoni's operation some years ago for cyst. As the operation was not of a capital nature, not suggesting the use of chloroform or other anaesthetics, the pope lay on his bed, with his left side exposed below the arm pit to the waist. Only two doctors and two personal attendants were within the chamber. The immediate director of the operation devolved on Dr. Mazzoni, who handled the instruments and made the preparatory arrangements. First a slight incision was made in the side at the vulnerable point. A solution of alcohol and corrosive sublimate was then injected, and cocaine was used to deaden the sensation. The point of operation was just below the seventh rib, and the operation itself consisted in the insertion of a large Pravaz needle syringe. This penetrated to the region where the matter had collected, and by means of suction slowly drew it off. Under the skillful guidance of Dr. Mazzoni the operation scarcely occupied over four minutes.

The pope manifested no pain whatever, neither was there the slightest fever of moral dread from the operation. In the language of one of the doctors, the cocaine deadened the parts that the pontiff felt no more than a slight pin prick.

So soon as the liquid was drawn off by the suction needle, the patient felt great relief, owing to the removal of the pressure of the liquid on the lung, and simultaneously the doctors could hear air passing through the tube, which in the morning was declared to be impervious, owing to congestion. From a pathological standpoint, the free passage of air was considered the most important, but more so were the results, the mental and physical relief which it brought to the pope. He immediately showed an extraordinary spirit, and a slight smile on his pallid face he whispered his thankfulness, and bestowed benedictions on the doctors bending over him. The next day the pontiff's face, which in the forenoon was which is characteristic of him. Then, with one hand he rearranged his position, closed his eyes, and in a few minutes passed into a calm, healthy sleep.

The doctors remained by the pope's side, noting the regularity of his breathing, and pronounced the operation to have been in every way successful, and leaving no perceptible adverse results. Shortly before the operation the pope remarked to those around him:

"I thank God that He has vouchsafed to me the boon of being able to say good-by to you. I love you all, but I am tired, and I must go."

Many Inquiries Received.

Up to the present time the telegrams received at the Vatican from all parts of the world number 732. They include many from America, among which is an especially affectionate one from Cardinal Gibbons.

As the pope is still alive, Cardinal Grego begins to be the center of all Vatican affairs, as it is considered that the moment is close at hand when he will assume the supreme power in his capacity as cardinal camerlengo.

Engineers Scheffer and Manasse, who are called architects of the conclave, as their office consists in waiting on the cardinals when they have gathered for the election of a new pope, have placed themselves at the disposal of Cardinal Grego, as has also Prince Chigi, who holds the office of marshal of the conclave.

In all the churches masses are celebrated, and these are attended by an extraordinary number of the faithful, who pray for the recovery of the pontiff.

A cabinet council has been summoned to consider the steps to be taken by the government in the event of the pope's death.

SEARCHING FOR VICTIMS.

Quest for Bodies of Persons Lost in Oakford Park Disaster Continues—Estimate of Dead.

Jeanette, Pa., July 8.—The search for bodies of victims of the Oakford Park disaster was resumed with daylight Tuesday and will be prosecuted vigorously as long as there is hope of finding the remains of those still unaccounted among the missing.

So far no more bodies have been recovered, but it is believed a number will be found in the debris along the Pennsylvania railway tracks. Coroner Wyns estimates the number of dead at 25 and says it certainly will not exceed 50.

"Large forces have gone over the debris at various points," said he, "and while some is yet unaccounted the bulk of the dead, in my opinion, have been recovered. I do not know when an inquest will be held. It will not be for a week at least. I wish to wait until all the dead have been recovered. I visited the dam and inspected it as best I could Monday night. The break was not then as great as I expected. I do not know whether blame attaches upon anyone. That is a delicate question. That will be brought up at the inquest. To all appearance it was an unusual act of God."

First Marriage.

Washington, July 8.—Chas. E. Macdonald, a prominent member of the House of Representatives, Monday sent the first government commercial cable message over the Pacific coast by the Hawaiian cable. It was addressed to Gov. Peck and informed him that the quartermaster general has authorized the purchase of 600 tons of flour for the transport material and exhibits for the Louisiana Purchase exposition on the government transports.

MINNESOTA NEWS.

Climate and Crop Bulletin.

The week opened cool, but the temperature rose slowly all the week. There was hardly any rain during the week, except in the extreme South-west, but the scattered showers of the morning of the 29th, and the more general showers of the morning of the 30th, which latter seem to have been heaviest in the middle South and the middle West in the dry regions the rains will afford monetary relief.

From the counties of the Minnesota valley northward the oats, barley, flax, corn and grass on spring plowed land and on sandy soil are injured by the drought, or they are in danger of injury, but on the flat plowed land and on clay soils these crops are in good condition to stand the dry weather, though they are not progressing much on all fields the surface is very dry, but on the latter soil it is moist below the surface. In the poor places wheat only six inches high is shooting to head, and late sown barley and flax are unsprouted. Grass and pastures are poor.

In the Minnesota valley and southward there is plenty of moisture in the uplands, and in the southwest, corner of the state the lowlands are wet in the middle South and Southern grasslands need rain to soften the hard surface soil. On the uplands the small grains and grasses are doing well, but low land crops are generally poor. There is some rust on the wheat and oats in the middle Minnesota valley, but the dry weather has checked it, and also the rapid growth of these grains. Barley is generally heading well, and oats are coming into head. Clover and timothy hay is being saved. Rye is ripening.

Not Satisfied.

Inspectors of the state dairy and food department returned from inspection tours in different parts of the state.

According to E. K. Slater, of the inspection in the southern part of the state, the reputation of Minnesota butter is seriously threatened by conditions there. Mr. Slater says that the introduction of hand separators and the lax methods of caring for cream are making the quality of butter there lower every month.

In the central part of the state conditions are all that could be desired. Inspector H. D. White, who returned on an extensive trip all over that section, said that butter is improving every week in counties through which he has been and that the local quality of butter the world is now being manufactured there. As long as the southern part of the state, however, pulls against this effort to boost butter, it will be slow work for the dairy department to reach desired results.

It is believed, however, by the dairy officials, that a vigorous campaign in the southern part of the state will ultimately result in far better conditions there. The department has so much to do that it has been unable to give the southern dairymen the attention which they should have.

Does Not Apply.

Death was advised by Attorney General W. H. Douglas, who has refused to require fire insurance companies in towns having fire departments to contribute 2 per cent of the premiums collected to firemen's relief funds. This does not apply to premiums collected in 1902. This will save the companies doing business in Minnesota nearly \$4,000.

The total premiums received in towns having fire departments in 1902 was \$4,307,277. The appropriation for firemen's pensions on this amount under the old law amounts to \$45,449.12. If the new law applied, the appropriation would amount to \$85,246.15.

The premiums received in St. Paul were \$775,463.03, on which the appropriation under the old law aggregates \$31,271.31.

News Notes.

Edward Clark, alias Phol and Henry Saunders, wanted at Bemidji for the shooting, were arrested in South St. Paul. The robbery was committed June 5.

The state auditor received the following vessel tonnage taxes: Heavy Steamship company, four large grain ships, \$449; American Navigation company, \$231; Lake Superior Contracting and Dredging company \$229; other companies \$235.84.

William Nyhart, 168 Fillmore avenue, St. Paul, is suffering from blood poisoning caused by the bite of a rattlesnake his dog had caught.

The Duluth and Iron Range has filed with the Minnesota railroad commission a new tariff, naming reduced rates on general merchandise to all stations on its line, in accordance with the order recently made by the commission.

A Finlander was murdered at Bull on the Menasha range and sixteen minutes are in jail awaiting a hearing, which will determine the guilt of which one of them committed the deed.

Judge Vineout of the St. Paul municipal court, in the case of H. Hef against Robert G. Bellew, to recover \$42.50, has held that a man cannot sue to recover money which he loaned another person to play pool with.

Louis Collar, a laborer, who fell from a high beam on the Third street bridge, St. Paul, and broke his neck, died at the city hospital.

Ferry H. Lovinger, son of H. H. Lovinger, of 602 East Third street, was drowned while fishing in Ploquet lake, which is an arm of the river.

THE NEWS IN BRIEF.

For the Week Ending July 7. The village of Whitehouse, O., was nearly wiped out by fire.

Patrick Mahon killed his wife and himself at Atlantic, Ia. He was temporarily insane.

With the exception of one store, the business part of Paint Lick, Ky., was swept away by fire.

Ex-Congressman Thomas J. Clunie died at his home in San Francisco of acute kidney trouble.

American relations with Russia are in a delicate state because of the Jewish massacre at Kishineff.

Iowa socialists are planning an automobile campaign through that state to secure 13,000 votes.

Reuben Hired, an old negro, was shot to death in his home at Piedmont, S. C., by a mob of 50 white men.

The Oregon state constitution's initiative and referendum amendment is declared invalid by the state circuit court.

Four men walking from Alma to Leadville, Col., were caught in a blizzard and one of them had his face frozen.

Express companies have taken concerted action in raising express rates, the added burden falling chiefly on the general public.

Forty of July accidents in Chicago and elsewhere, reported to date, resulted in 53 deaths and the injury of 3,665 persons.

American railroad receiverships for 1902 are below all records. Fifty lines aggregating 73 miles, failed to meet interest obligations.

Dr. Wiley, of the agricultural department, demonstrated soda water and iced tea, declaring that use of the latter is simply absurd.

Changing the Jewish Sabbath observance to Sunday was decided against by the American rabbis' convention at Detroit.

The state of Texas has begun action under the antitrust law against labor unions, which declared a boycott on a San Antonio store.

Exports of the United States to Canada during the last fiscal year show an increase of \$133,000,000, while imports increase \$7,000,000.

Wesleyan university at Middletown, Conn., conferred the honorary degree of doctor of laws upon Leslie M. Shaw, secretary of the treasury.

Official notice has been issued by the Russian foreign office, that the United States will invite rebuff if the eight candidates caught cheating in entrance examination papers at Princeton university have been forever barred from entering the institution.

Ex-Gov. Stevens, of Mass., accused "Col." Ed. Butler with offering him \$20,000 for the appointment of the latter's son as excise commissioner.

W. W. Wainwright, 36 years old, has made active head of the \$100,000,000 United States steel trust, and C. M. Schwab remains president in name.

The National Wholesale Tailors' association and the United Garment workers in Chicago made an agreement to avert strikes and lockouts for two years.

A world's record for a six furlong dash was made by Dick Welles at Washington park, Chicago, in 1:14.5, and the race was won after being left at the post by 15 lengths.

Ninety persons were killed and 60 injured between Bilbao and Saragosa, Spain, by a passenger train, which jumped the track on a bridge and plunged into the river.

Bulgarian powers to prevent a conflict between Bulgaria and Turkey, made likely by outrages committed by the latter troops who are massed along the frontier.

FROM A CAR WINDOW

Some Odd Sights Seen at Mexican Railway Stations.

Every Depot Platform Offers Something New for the Photographic Lover—The Beggars and Their Methods.

It is not the shining polish nor the luxurious upholstery of a Pullman car that makes a trip through Mexico seem a feat from the "Arabian Nights," but it is the strange and interesting variety of life seen through the car window.

The picturesque palm-thatched huts dotted over the country and the native curiosity and assurance of the smiling native transporters the blaze American into another world.

Every way station or depot platform is a scene of amazing activity.

Two musical beggars.

while the train is in. Here is a quick lunch for the hungry poor, for it seldom the foreign traveler who tries the rather suspicious looking viands.

"Hot tamales," a familiar cry, comes from the street vendors, who sell sweet cakes, fruit, soup in all smelling pots and gourds of pulque, the native liquor.

Perhaps here too, you will find the toy merchants—coaxing you to take a monkey on a stick home to the lady. At many of the stations you will be shown some commodity peculiar to the place.

Trapunto is the strawberry station the year round. As the train draws in scores of young men, bearing dozens of baskets on their heads, their shoulders and in their hands, will come running and fighting for the first place, while the cry of "fresa fresa," will scream in a dozen different keys.

The unsophisticated traveler pays perhaps a dollar for a basket and thinks himself fortunate in securing the luscious fruit—but the wary one, who knows the Mexican trader, understands that the first price is a compliment to your purse and that the omnipotent dose raises or about 25 cents will purchase as much as he can carry.

At one little town you will always see two old men, blind and withered with age. To a strutting companion on two battered gaiters you are regaled with La Paloma, sung at the utmost squeak of the waxy old voices. A stolid old woman is their guide and catches the pennies thrown by the tourists.

Every stopping place has its eager tradesmen and more eager beggars, but such beggars as they are, they will appear to be a small Paradise, for here is the home of the Mexican drawn work. The vendors market their wares under the wings they will camp if you so much as notice them. "Most beautiful—most beautiful—"

SPORTS AND ATHLETICS

The annual intercollegiate rowing races on the Hudson were held at Poughkeepsie, recently, and the crew from Cornell, under the leadership of Capt. Frenzel and Coach Courtney, represented.

In a 4-year's achievement and captured all three races—the four oared, the freshman and the varsity. The weather and water conditions this year were perfect for the big regatta and the largest crowd that has ever witnessed the event looked on. The varsity crew of Cornell evidently outclassed all the others, as they finished the course of four miles six lengths ahead of the next boat, covering the distance in 18:57. The Georgetown crew nose out the men from Wisconsin, who finished second by a short margin, with Pennsylvania, Syracuse and Columbia trailing behind the factor. In the freshman race Cornell broke the record of 19:15; for the two mile, made by Yale in 1897, going the route in 9:18. Syracuse and Wisconsin finished second and third respectively, with Columbia fourth, and Pennsylvania fifth. In the varsity four-oared race of two miles the Cornell team won in 10:34. Pennsylvania finished second in this, with Wisconsin third and Columbia fourth.

The oarsman from Yale university also demonstrated their superiority over those of Harvard by winning all three events in the annual regatta between the two colleges on the Thames river at New London, Conn. Yale four took the first place by the comfortable length in 10:59:25. The New Haven freshmen, in a closer race, finished a length and three-quarters ahead of the Harvard freshmen in 9:43:15. In the big race Harvard, led or leading for a mile, rowed pluckily to defeat at the hands of Yale's men, who in the last half of the contest controlled the situation in unmistakable style. It was the first time that Yale has won all three events since the regatta reached its present programme. Yale's time in the big race was 20:19:45, within 9:45 second of the record of the course. The freshman's record was broken by Yale's time of 9:43:15.

The recent victory of Miss Beasly Anthony, the western champion woman golfer, in the finals of the open women's tournament at the Lottian Country club, was a popular one among the golfers of Chicago and vicinity. Miss Anthony's chief contender was a Miss J. Anna Carter, who was the champion of the eastern states, and the match was decided only after a long and hard struggle, where the latter lost the match, three down and one to play. The victory and the form shown by Miss Anthony are of especial interest because they indicate that the west will have a formidable candidate this year for the national women's championship, held in the fall. Western players have in the past annexed their fair share of the championship honors, as the successions of Miss Beasly Anthony, Miss Hurd, W. Smith and Auchterlone in the open event, and of amateurs MacDonald, Whigham and James in the amateur event testify. The roll of honor in the women's championship is concerned, however, there is a marked bias against the west, as far as western names are concerned. If there is any one player west of the Allegheny mountains capable of upsetting the line of successes of the eastern players it is Miss Anthony, and on a large extent credit when the women experts meet on the links of the Chicago Golf club at Wheaton. The play at the recent tournament showed good form and improvement in at least two other players, Miss Carpenter and Mrs. W. A. Alexander. This year the eastern representatives will be playing on unfamiliar links, a handicap the westerners have had to face for several seasons. Taken all together the chances are very bright for westerners for the next women's open championship in the game of golf.

The first half of the international handball match for the championship of the world between Michael Egan, of Jersey City, the present champion, and Timothy Twombly, of Kansas, Ireland, who will play in the final, is a journey for the next women's open championship in the game of golf.

News of the Week.

Chips Picked up Around Town and Vicinity.

NOTICE

Hereafter all matter for publication and copy for advertisements must reach this office by Thursday morning.

Maudie Pennington who has been spending the past month visiting at Stillwater with relatives, returned home on Thursday.

You feel mean, cross ugly down in the mouth, nothing goes right. Buy a box. Better take Rocky Mountain Tea. Delivers away the blues 35 cents. J. Y. Breckenridge.

P. H. O'Brien, of Atwater, Henry Glasgow, and Jay and Peter Norton, of Oshkosh, were among those who spent the Fourth in this village with relatives and friends.

Mason Fruit Jars—Pints, 50c per dozen, quarts, 60c per dozen, 1 gallon jars, 75c per doz. At Breckenridge's Pharmacy.

In another column of this issue will be seen the new "cat" of R. C. Brandt who has rented the Ibaden building and has opened up a paint store and shop. Mr. Brandt comes here well recommended as a painter and will no doubt receive his share of patronage.

Home-grown berries from the Meader fruit garden, for sale at Maddens.

The June sun shines on many a fair bride, made doubly lovely by the use of Rocky Mountain Tea. The bride's best friend—35 cents. J. Y. Breckenridge.

Services in the Presbyterian church for Sunday, July 10th, are as follows: Sabbath school at 10 o'clock, a. m. Preaching services at 11 o'clock, a. m. Subject, "The Fading Leaf."

Misses Amelia and Carrie Court, returned home from St. Paul the latter part of last week to remain for a month, they were accompanied by their aunt Mrs. J. Nash who returned home on Wednesday.

Custer Seavey of West Superior, was home the first of the week.

There will be an ice cream social in the parlors of the M. E. Church Friday evening—All are cordially invited.

Mrs. M. G. Radant of St. Paul, spent a couple of days this week at the home of G. J. Albrecht.

Senator Moses E. Clapp and son, of St. Paul, arrived in this place on Monday and departed for Pokegama Lake where the Senator has a fine track of land on the east bank of the lake. He has erected a cabin on the same and will spend a week or two fishing and rusticiating.

J. J. Madden is in the market for live stock.

See the display of French Pottery—just the thing every housewife needs. At the Big Store.

Miss Alice Thompson returned to her home in White Bear Lake on Friday last, after a two weeks visit at the home of G. J. Albrecht.

Mrs. A. S. Gottry departed on Wednesday for a few weeks visit at Frazee with her sister, Mrs. M. A. Thomas.

Protate Judge Wilcox spent Tuesday and Wednesday at Nickerson on business connected with his office.

For your stamped, drawn work and plain linens, sofa pillows and table covers, materials for all kinds of plain and fancy needle work, sewing machine needles, notions, etc., call on Miss Susan Shearer. Mail orders filled promptly.

The Misses Etta, Emma, Janecek, and Agnes Glanville, Edna Burge, Edith Robinson and Julia Nevil, on departed Monday for Mora, to attend the summer school that will be in session for a month.

Miss Edna Seavey of Taylors Falls was here at the home Capt. Seavey for part of the week.

Miss Minnie Parish of Barnum, visited with friends here the first of the week.

On Tuesday of this week Drs. Lyons of this place, and O'Brien of St. Paul, performed an operation on Mr. Dusebeck of the town of Chugawana, removing a very large stone from his bladder. At this writing the patient was doing nicely and doctors pronounce it a very successful operation.

John Wadley of Willow River, was a caller at the Pioneer office while in town on business. He was on his way to St. Paul.

Dr. E. L. Irving, Dentist.

will be at his office in the Rybak Block, Aug. 3rd to 10th. Gas administered for the extraction of teeth.

(C. E. Williams and wife of Mora, spent the fourth with Mrs. Williams' parents Cant and Mrs. Seavey.) You can get that nice flakey salt at Maddens.

We are pleased to state that Mrs. Fred A. Dodge is daily improving from her recent illness, and we hope to see her again in a short time in the usual good health which she formerly enjoyed.

The Minneapolis Journal the leading evening paper of the northwest has gradually worked its way into the homes of a large portion of the residents of our towns and in the rural districts where the free delivery is in operation nearly every farmer that wants a daily takes it because they get the news in a very few hours after it comes from the press. If you want an up to date daily and one that gives all the news you can not find one better than the Journal.

Thos. Spain, of St. Paul, spent the past week at the home of Jos. O'Riley in the town of Pine, and while here, looked over the country. He stated to us that he had not seen a county in the state that suited him quite as well as this and may in the near future locate in this neighborhood and carve for himself a home on the fertile soil of Pine county.

Are you thirsty? Would you like to get fat and plump? Tried "laughing," "twee'din' work"—now take Rocky Mountain Tea—'twill do the business. 35 cents. J. Y. Breckenridge.

Teams and a crew of men have been at work for the past week unloading brick for the new school building and they do not expect to have their work completed before the end of the week.

Have you tried the Home Brand goods. Ask about them at the Big Store.

D. H. McQuinn has been here for the past few days with a bunch of horses, broke and unbroke. They are the finest lot of horses ever brought to this town and quite a number have already been disposed of. If he has any left he will go to Hinckley and Sandstone the first of the week.

Mrs. Roy Whitney and two children, of St. Anthony Park, arrived in this village on Wednesday to spend a few weeks visiting at the residence of her father, Angus McAdam, in the town of Pine. The many friends of Mrs. Whitney will be pleased to see her once more among them.

Have you seen the pretty white goods for summer waists and dresses at the Big Store.

Era Miller, of Brookpark, was in this village on Tuesday of this week with a fine load of strawberries, and disposed of them in short order. Mr. Miller informed us that on Monday the 20th day of June he picked 500 quarts of berries and over 300 quarts during the following week. His berries are among the finest we have seen this year and his crop is not yet exhausted. This will prove a paying business for Mr. Miller as he has studied the industry and has it down to a science, and next year if there is any kind of a favorable season, will no doubt double his crop.

Married—Stephan—Michelson, on Wednesday evening at 8 o'clock p. m. by the Rector of West Minister Episcopal Church, of Minneapolis. The bride Miss Katie Stephan is the older daughter of Mr. and Mrs. C. F. Stephan, and is an accomplished young lady one that any young man might be proud to call his wife, she has made her home among us all of her life and the friends of her childhood day wish her untold of happiness in the journey through married life. The groom Anton Michelson is a prosperous druggist of Hinckley highly esteemed by his many friends at home and in Pine City, who congratulated him on the choice he has made. The bride's parents were at the ceremony after an absence of a couple of weeks Mr. and Mrs. Michelson will be at home to their friends in Hinckley. The Pioneer and many friends extend congratulations.

SAVE MONEY

By buying your seeds of us you will get the best money can buy and it is the cheapest seeds you can get. We have a complete assortment, including all the best varieties of...

FARM AND GARDEN SEEDS

Our catalogue is free for the asking. We pay the freight on seeds to all points north and south of here. If you live out of town, send your orders, and they will have our careful attention.

Remember the place in the Rybak Block, Retail Department, PINE CITY MILL & ELEVATOR CO.

Take notice of Breckenridge's card in this week's paper of interest to the churches and make the Saturdays turn out substantial sums for each church.

The fire alarm was turned in at about 9 o'clock on Thursday morning the cause being the burning out of John Edine's chimney, for a while it looked as though the whole house was on fire, but it was not necessary to throw any water. The boys were on hand in quick order and it was remarked to us that it was surprising to see what a short time it took for the boys to respond to an alarm. When you stop and consider that after an alarm is sounded the boys have to run to the engine house from all parts of the city, put the pole in the engine, unhook and hitch on a team, start the fire in the engine, put on coals and belts and make a run of six blocks and have steam to run the engine in less than ten minutes was the case on Thursday it is no wonder that there are prizes for our Volunteer Fire Department. Yet there are some who think that the boys should respond as quickly as a paid department that sits and waits in the engine house with steam up and horses waiting to hear the gong sound. Nick Perkin has put his team on the engine so many times that when they hear an alarm they run for the engine house and if they are in the stable eating and the bell rings, will stop and listen for a summons.

Drowned in Washington.
The many old friends of John W. Sellers will mourn with him in the loss of his son, Walter, who was drowned in the Columbia river at Leahy, Washington, on June 22nd. After leaving here about one year ago Mr. Sellers went to make his home with his son on a claim in the above named state, and it will be a very hard blow for Mr. Sellers.

Walter Sellers was born in this village 24 years ago and lived here until about eight years ago when he left for the far west in company with his brothers, Gordon and Livingston. He was a bright active young man and the many school mates of his boyhood days will be sorry to hear of his untimely death.

The cup of sorrow is surely overflowing for Mr. Sellers, for within the past few years he lost his wife, his daughter, Ina, and two sons, Stanley and Walter. Three sons are still left to comfort Mr. Sellers in his declining years, Gordon, Livingston and Albert, all residing in the state of Washington.

We are indebted to Al Pennington for the information of Walter's drowning, which was communicated to him by Mr. Sellers with the request that he notify us so that his many friends might know of his sorrow.

Churches Attention.
Always being interested in the welfare of our Churches, and after talking with some of the members are willing to show our interest in a substantial manner "as follows," Will give half of the entire proceeds from our Soda Fountain on each of the following Saturdays (which are usually the best days of the week) Methodist—Saturday, July 15th Catholic—Saturday, July 25th Presbyterian—Saturday, Aug 1st German Lutheran—Saturday Aug. 8th.

If pastors or committees of ladies for each denomination will confer with us we will be pleased to talk in our power to make the business of these days as large as possible.

BRECKENRIDGE'S PHARMACY.

Kodol Dyspepsia Cure

Digests what you eat.

THE BALL GAME.

Continued from page 1.

The game. Two double plays were worked on our side of the fence, one in the 2nd and another in the 7th. Costly errors on the part of our boys gave the visitors most of their runs, and although Slater, the Linnetta pitcher, was struck out on five men, was hit at almost all times, the hit did not count and were generally only little dinky nappas.

Jack Lambert was there with his strong right again in this game and struck out 11 of the "chaser" representatives, making a total of 25 strike-outs to his credit in the two games. The score by innings:

Barringtons 1 0 0 0 0 0 7-8
Linnettas 0 1 0 1 2 0 2 1-7

Notes.
Some very poor batting was done in Sunday's game. Art. Schultz did the best for the locals and only succeeded in landing two safe hits.

Lambert as a twirler and ball player is a corner, and with good coaching and the proper training in the city, would be a first class day. He has the speed and curves, and good control.

The home run of Bill Hurley in the game Saturday was a peach and that one play alone was worth the price of admission. It reminded the old crowd here of Jimmettas last year in the way of batting years ago.

Next Sunday, the 12th, the Barringtons play one of the fastest amateur teams of the state, the Unions of Minneapolis. This team has a very good record for this season, and as Hurley's Barringtons are the best team of a good record themselves, the fans will no doubt be treated to something good in the line of base ball. Come all!

Wallace, who played short stop for the Parloes in their games here two weeks ago, and who played second base for the same team last Saturday and Sunday is certainly a gamey little fellow. In the fourth inning he was hit by a pitched ball down the middle and naturally he struck on his knee. Although his knee was stiff, and he had to be shifted from 2nd to 1st base, he played on as only a good ball player could do.

Village Council Proceedings.

VILLAGE OF PINE CITY, MINN., July 6, 1903.
The common council of this village met at the recorder's office at eight o'clock p. m. Meeting was called to order by the president. Members present, E. E. Smith, president, F. J. Rybak and John Stoeh, councilmen, and Frank Poferi, recorder. Members absent, Ed Madden, R. L. Wiseman and Ang. Carlson.
