

The George Peabody fund for the erection of model dwelling places for the poor in London now amount to \$7,200,000.

For each child born to the families of the municipal clerks in Kansas City the civic authorities promise to add \$5 a month to the father's salary.

A German statistician calculates that the average man, when he has reached the age of 70, has eaten food that would cost \$10,000 in the markets.

New fruit canary is about to be established in Santa Clara, Calif., which will put up \$500,000 cans a year. This season it expects to put up 2,000,000.

At a recent auction in London an old violin was sold at a price of \$4,500. A Stradivarius brought \$2,500, while violins by Hieronymus Amati was sold at \$375.

An official map of Paris on a large scale has just been finished. It is 25 yards long and nearly 20 yards wide. Every building in Paris—altogether 42,500—is recognizable.

In spite of the cordon rouge, in spite of the universal cookery exhibition, the best hotel in England is not as good as any second-class French one, says Food and Confectionery.

The prince of Wales, on his coming visit to India, is to give no presents and receive none. When his body was prince of Wales and visited India he gave presents worth \$300,000 and received presents worth \$2,500,000.

Extensive plans for the improvement of the Suez canal are now well under way. The waterway is to be widened so that the larger ships can pass each other at almost any point between Port Said and Suez, and by constant dredging the depth of the canal is kept at about 23 feet.

The "gold fever" that has gripped certain countries as an ailment peculiar to dentists, is increasing. It is a form of eye strain incidental to the work of constantly plugging cavities in teeth with gold leaf and fine particles of gold. After a year or two of such work dentists are obliged to wear glasses.

A Belgian commission to report on commercial features in Cuba reported to the Belgian foreign office that Cuba on account of the constantly increasing use of automobiles, is to be considered a splendid market for such a vehicle known as a voltmetro, with benzina or steam as motive power, is most in demand.

While permitting the Bible to be circulated in Turkey, the Turkish authorities suggested that the book "Come over into the ecclesiastical and help us" should be omitted, and that, at any rate wherever the word Macedonia occurs it should be changed to "the vilayet of Salona and Uskub."

Lady Curzon, wife of the viceroy, has invited all the Europeans and Indians injured during the recent earthquakes to come to Walker and Ripon Hospitals at Simla as her guests. The invitation was sent through the Lieutenant-governor of the Punjab, with an intimation that the American Mission will gladly defray the expenses.

Great anxiety is felt in the village of Peking. Illnesses, especially those consequent to the fall of the customers of its popular dairy. Some cows discovered a box of dynamite in a field and ate it with evident relish. Since then the dairymen have struck and the cows have to be milked by volunteers. The thrifty proprietors however, had not allowed the secret to become generally known and has served milk to his customers as usual.

An inquiry made by students of Ohio State university as to how many cigarettes the ordinary smoker will consume in a year, showed that the average man in that district, who smokes 25-30 in the college year of eight and a half months. The investigators were surprised at the total. Generally speaking, each of the students smokes a package of ten cigarettes a day and the total for the year is a full year of 365 days would be 26,500.

The American consul is agent at Markethaus, Brixton, Surrey, that Kithero the timber and naval interests manufactured in that district have derived their raw material almost exclusively from Hungary and South America. Lately the supply of Siberian wood has become so limited that toward the close of 1904 it is shown that failure to find a substitute the American lumber trader who can furnish satisfactory maple (birchwood), cedar and pine, and clear white pine.

The only rays reproduced in Europe who is an enthusiastic champion of the cause of the negro, was in Queen Maretta of Italy, widow of King Humbert. She has rejected every victory won by the black forces and has made her exasperating protest to the Queen. Queen Maretta proposes to take a trip to Japan, where she will undoubtedly receive a grand welcome. She will be the first European empress head who has ever undertaken to visit the Far Nippon.

## PLANS FOR PEACE MEET WITH CHECK

### CHICAGO TEAMSTERS AGAIN REQUEST TERMS FOR SETTLEMENT OF STRIKE

Express Companies Refuse to Reemploy Striking Drivers and the Strike Will Be Continued—Industrial War May Spread.

Chicago, May 22.—Complications suddenly have arisen in the teamsters' strike situation that threaten the overthrow of all peace negotiations and the precipitation of a general strike. The Teamsters' Joint Council, at an hour when the calling off of the strike was looked for, rejected the proposition to be made by the express companies to re-employ any of their old drivers and refused to continue the struggle. The refusal by the express companies to re-employ any of their old drivers was the cause of the joint council's action. The arbitration that the Chicago team owners requested several days ago, regarding the right of teamsters to refuse to make deliveries to blockade-bound firms, also was turned down in the renewed manifestation of the war spirit.

Strike May Spread.

The situation, therefore, has been put back exactly where it was before peace negotiations were begun last week, following the arrival of Presidential Gomers of the American Federation of Labor. This was further aggravated when lumber and hay and grain interests attempted to deliver their products to boycotted houses. The inevitable result, unless other means of bringing about a settlement are found, will be the adding of thousands more to the ranks of strikers and a decided increase in the scope of the strike. This is regarded as a certainty and Sheriff Barrett, who had been awaiting the outcome of the joint council meeting at the Sherman House, a few doors away, announced his determination of taking immediate action.

Terms Voted Down.

The terms of the Chicago Employers' Association, formulated at a conference in Levy Mayer's office after a series of peace negotiations through 48 hours, and which were voted down by the joint council, were:

1. The miners to fix a date for the strike.
2. The employers to announce the evening before how many men would be reemployed the following morning.
3. Policemen, special guards, detectives and private operatives to be removed from the barns and wagons within 30 minutes after strike is set.
4. Employers to take back employees without discrimination.
5. Wages, hours and working conditions to remain unchanged.
6. No agreements to be signed on either side.
7. Amendments to apply to department stores, furniture dealers, coal firms and all other strike-bound firms except railway express companies.

Governor Pledges Troops.

Chicago, May 23.—Gov. Deeney has given his pledge to Mayor Dunn that he would fill the streets of Chicago with troops if he had to do so. The state's official troops, either from the mayor or Sheriff Barrett. This response was made over the long-distance telephone in response to an inquiry from Mayor Dunn. The mayor expressed to the governor his fear that it would be found necessary to call out the national guard to keep the peace in this city. The mayor realized that the police department had reached the limit of its ability to cope with the lawless bands of rioters that are hourly causing terrific disturbances all over the city, and had to acknowledge with the threatened spreading of the war the police arm of the municipal government would be practically paralyzed.

Strike Spreads.

One hundred and fifty lumber drivers struck Monday, marking the beginning of the expansion of the strike. Following the failure of the peace conference, the completed lumber union training in Chicago is threatened, the building material drivers being the first to be affected. With this in view will come a complete cessation of building throughout the city.

### KILLED HIS FATHER.

Young Man Becomes a Parrotid to Save His Mother from Attack.

Baltimore, Md., May 22.—While defending his mother Sunday from the attack of his father, who is said to have been transfused with drink, Joseph Conroy, a youth of 18, shot and instantly killed his father, John T. Conroy, in the room above the apartment of Mrs. Conroy and had two sons, Conroy and an elder son, Joseph, interfering in his mother's behalf, caused him with an axe when Joseph drew a revolver and beat the lad passing through his father's door.

Ministers Enter Protest.

Philadelphia, May 22.—Clifton, the city, witnessed an unusual spectacle Monday evening when about 100 ministers of the Methodist church, children prominently marched to the city hall to express their protest against the pending bill, planned to have the monument dedicated on September 14, 1897, the ninth anniversary of President McKinley's death.

### HOCK IS FOUND GUILTY.

Self-Confessed Bigamist Convicted of Wife Murder—Death Penalty Recommended.

Chicago, May 20.—Johann Hoch was found guilty of wife murder by a jury in Judge Kersten's court Friday afternoon. The 12 men decided to administer arsenic to the late Mrs. Wacker-Hoch to end her death. The jury recommended the death penalty.

The jury's verdict as read follows:

"We, the jury, find the defendant, Johann Hoch, alias John Hoch, alias John Schmidt, guilty of murder in manner and form as charged in the indictment and fix his punishment at death."

William G. Messler was counsel for the jury. He said the men would not评议 the case in open court in the jury room. It was said, however, the first ballot was unanimous for guilty. On the first ballot for punishment two are reported to have voted for life sentence. The next ballot resulted in an unanimous vote for a death sentence.

Hoch's trial has lasted a month and the indictment under which he was charged with the murder of his wife, Margaret Walker-Hoch, to whom he is said to have given arsenic. The man who by his own confession is several times a bigamist received the news in a stupor.

### AWFUL DISASTER.

Boiler of a Locomotive Explodes at Columbus, O.—Six Men Instantly Killed.

Columbus, O., May 23.—Letting go with a terrific report that was heard within a radius of a mile, and shook buildings for many squares in every direction, the boiler of an engine that was standing idle on High Street exploded Monday afternoon and instantly killed six men who were at work near by. The building was damaged and quantities of the debris were scattered for hundreds of feet in all directions. The unfortunate men who were within range of the explosion were mangled beyond recognition, some of them rising again in the air like so many pieces of cork. Confusion reigned and the accident was so terrible in its effects that it was many minutes before help could be summoned. The bodies of the six men were terribly mangled, arms and legs being scattered in all directions. One man is believed to have been blown into the river and is not accounted for.

THEFT STEAL HANDSOME JEWELS.

FIRM OF TIFFANY & CO., ROBBED OF THREE STONES CUT FROM FAMOUS DIAMOND.

Value of the Gems Is Placed at \$90,000

—Old and Trusted Employees Are Blamed for Carelessness Making Theft Possible.

PHILADELPHIA CITY COUNCIL LEADS GAS WORKS to a PRIVATE COMPANY.

CAUSED AN UPROAR.

Philadelphia, May 19.—Amid scenes of disorder unprecedented in the history of Philadelphia, the legislative body had broaches of the city council voted to lease the city's gas works to the United Gas Improvement company for a term of 75 years for the total sum of \$25,000,000, the money to be paid in various amounts before the end of 1907. Council chambers and committee rooms were crowded with excited citizens protesting against the lease to the gas improvement company.

The climax was reached when the vote in common council was announced, after three hours of debate. The moment President George McCurdy of the common council announced the vote a great uproar was started in the gallery, which was filled with spectators, and the gallery came down in confusion and cries of "Theives!" The outburst was somewhat startling to the presiding officer, who made a vain effort to quell it. Finally he sent for a squad of police to clear the gallery.

Mayor Weaver is expected to veto the bill, and in that event it will be voted upon again in the common council.

The vote in the common council was 74 to 9, and in the select council, 27 to 4. There is only one democrat in each body, and both voted against the lease. There is some talk among citizens who fought the lease to take the matter to the courts.

Stolen in Workshop.

The robbery was committed in the workshop on the fifth floor of the Tiffany building in Union square, on the afternoon of Thursday, May 4. The next morning, when the manager of the department went to take them from the safe in which they had been deposited for the night, they had disappeared. In fact, the three diamonds upon which a trusted worker had been employed all day on May 4 never had been placed in the safe. Loosely wrapped in paper the \$90,000 worth of jewels had been laid by the window of the safe and across the office from the workshop.

Detectives are working on the theory that one of the 50 men and boys in the shop knew when this particular package contained and that the temptation to take it was too great to be resisted.

Wondrous Jewels.

Of the three diamonds, the largest weighs 21 carats and is valued at \$90,000. Another of 24 carats is worth \$23,000. The smallest, one weighing 20 carats, would bring \$15,000. All are pearl shaped and absolutely pure white. Their brilliancy is unsurpassed. Each is cut in the Tiffany & Co. style. They are proud of the ten diamonds and experts pronounced them to be as fine as those in the original.

Assassinated.

Savannah, Ga., May 23.—Daniel S. Berry, who was prominent as a lawyer and who was an ex-member of the legislature, was shot and killed on the steps of his office. Mr. Berry had been in his office and was unlocking the door of his office when he was shot from behind, one bullet striking him in the arm and the other penetrating his brain. He died instantly. There were no witnesses to the crime and the police have as yet been unable to learn anything that may light upon the mystery.

Two Branches to Unite.

Winona Lake, Ind., May 23.—The Cumberland Presbyterian church was voted into the general assembly here at noon Monday amid a storm of applause without a speech and without a dissenting voice. It was the final act of the general assembly on one of the greatest occasions which has

come before it since the civil war, and brings back into the organization the branch which went out during the war because of differences over negro

rights.

Heavy Loss by Fire.

Wilkesbarre, Pa., May 22.—One of the most disastrous fires that has occurred in this city in some years started in the business district at an early hour Sunday morning, and did much damage. The fire was apparently able to control itself. The loss amounted to \$400,000. The losses in the heaviest loss.

More Chief Killed.

Manila, May 19.—News has been received in Manila that the outlaw Mactan chief, who has been pursued the past two weeks on the island of Jolo by troops under the command of Gen. Leonard Wood, has been killed.

Two surviving followers are being trailed by the troops.

MISS MILDRED KELLER.

### GRIP'S UGLY SEQUEL

#### KNEES STIFF, HANDS HELPLESS, RHEUMATISM NEAR HEART.

Mrs. Van Sooy Experienced Dangerous After-Effects of Grip and Learned of a Blood Remedy.

The grip leaves behind it weakened vital powers, thin blood, impaired digestion and over-sensitive nerves—a condition that makes the system an easy prey to pneumonia, bronchitis, rheumatism, nervous prostration, and even consumption.

The story told by scores of victims of the grip is substantially the same. One was tortured by terrible pains at the base of the skull; another was left lame, faint and in every way wretched from angina or scutaneous of blood; numerous horrible headaches, was maimed and left with weak lungs, difficulty in breathing and neuralgia.

In every case relief was sought in vain until the great blood-builder and nerve-tonic, Dr. William's Pink Pills, was used. For quickness and decisiveness of action nothing is known that will approach it.

Mrs. Van Sooy makes a statement that supports this claim. She says:

"I had a severe attack of grip, before I had fully recovered, ran into it again and had to stay for three months. I was in a badly run-down state. Soon after it began I was so lame for a week that I could hardly walk. It kept growing steadily worse and at last I had to give up carriages to keep my health. For three weeks I was obliged to keep my hands so stiff that I could not hold them, and my hands were a perfect torment. Then the pains began to threaten my heart and thoroughly alarmed me."

"I was suffering in this way I chanced to run across a little book that told about the merits of Dr. William's Pink Pills. The statements in it impressed me and I had to buy a box. These pills are the best I have ever taken. I began to improve at once and as I began to feel better, and it was very marked by the time I had finished the first box. Four boxes made me a well woman."

Mrs. Lawrence M. Van Sooy says at 50, she is still active. Dr. William's Pink Pills are equally well adapted for any other of the illnesses that follow the grip. The following follow-ups are being trailed by the troops.

# MEN WHO DEFY DEATH FOR GAIN

## Daring Strike-Breakers Fight Organized Labor in Interest of Capital.

### FARLEY, THE KING OF A NOTED TRIO.

Behind This Leader Stands Frank Curry, "Buster" Ready and Their Forces Ready to Crush Unionism at Call of the Employers.

Character Study of Curry, Who Is Conducting Battle of Chicago Business Men on Teamsters—New Occupation Born of Industrial Strife.

Chicago—"Secret interests" have put the stamp of approval upon one comparatively new industry in the United States—strike breaking. There's a species of freemasonry that obtains in this Ishmaelite class, but thirty-third degree honoris only have been conferred since strike breakers have come into existence. Steve Farley, James Farley by reason of his long experience, easily leads this trio in the public eye. Not to have heard of "Farley's Own" is to argue yourself ignorant of great labor atrocities. Frank Curry the pugnacious, indomitable, shrewd and most daring strike breaker has won many laurels in bringing unionism in the vortex of Chicago's riotous teamsters' strife, has pushed himself into second place. The third of this group of men who pour out organized capital's wealth to pour into strikes the units of fighters who move freely about the city, and push themselves on the way, is well known on the Pacific coast—"Buster" Ready.

These are the superiors in the modern and approved plan of battle that capital uses to crush defeat unionism. They are not particular, are these generals, who command their brigades of workmen, but they demand one thing from every man leading on:

"No time for strikeouts of yellow, be they the black man or the white man," is

in—a sick man. Down in a health resort in North Carolina this greatest of geniuses the labor troubles of the country has produced is coughing. The harsh, chest-racking cough that he means there is a great strike going on in his anatomy that even his indomitable courage cannot withstand. He says, "I will go home when this is done; a black wagon will traverse the streets of Pittsburgh to a hillside where men who wear even the ubiquitous union button will uncover their heads and mutter: 'Well, he had the nerve.'"

#### Curry a Man of Nerve.

When the planet is "wobbling in its orbit" the satellite must endeavor to keep up the equilibrium. The honor that might otherwise be reaped by Farley is left to Steve, the strike-breaker. He began his career by getting arrested and having his eyes blackened by the "caress of a pair of brass knuckles." Fretting over the orders of a physician that he remain in a darkened room, the strike-breaker showed his muscles to his few callers, "We only get paid when we fight," said Curry. "But it don't make me want to duck these poor colored fellas I have to break this strike with."

You study this man and see how

in—a sick man. In this Washington street hardware store, during a mob of unionists. He will say that their hands trembled when their fingers pulled the triggers that sent messengers of death to rioters. But his smile follows his conclusion: "They broke the strike."

"It's what guns were made for—losh! shot at lots of times. I never had a gun when I did it, and may it please the court—ha! ha! ha!"—think my aim was bad—very bad—worse than that of a woman. You see it's better to hit a striker than a lad playing a block away and you can afford to shoot into the ground once in awhile."

#### Farley, the Silent.

If Curry is a poor student, Farley never talked that much to anybody. The skill of Farley, who had 3,000 employees rushed up the East river to the Interborough power house on the steamer C. H. Northam ready after midnight to man New York's cars that the Interborough, Brooklyn, and Bronx and Electric Railway Employees had deserted, never was menaced by carousing. Union men, richer than other workmen, haughty because they had powerful and rich unions behind them and ignorant of the true strength of strikers, a strike breaker, scoffed when the Northam left her Jersey City anchorage.

"Her decks are deserted," they said. "This man Farley has a baker's dozen of cars in the hold." Farley never spoke except in a low tone to a lieutenant of his own. He had made trips to the principal cities of the country, selected his men and had brought them to New York's portals. A few hours later he put them in charge of the cars and one day later had the unions back for peace. There was no strike, no fight, no blood. Farley in a Manhattan paper that was his bone fide. Capital spent no time in foolish praise of the man who gave it the weapon to humble strikers whose ultimatum to the company imposed impossible conditions. It paid him well and paid for future use.

#### Farley Once a Storyteller.

Curry learned the use of the motor-man's enforcer handle. He could stop a trolley car at a street crossing so that a passenger could alight at the same spot every time. He knew also the way to use the Westinghouse air brakes so he could command a "blown-out" car. He could climb a telephone pole and cut a live wire or fix a twisted trolley. In short he was of the city \$30,000 richer than I was when I came in."

"But haven't you any animosity—there some of that hatred that the correspondents have written about that inspires you to fight unions?" Curry was asked.

"Look here," was the quick reply. "Put down in your note book these few things, and when I'm a back number study them."

"A man who would not take a chance against a strike for money is not a person to look for."

"Capitalists play golf, count their conquests, lean on bright young men to plot their great enterprises and write essays for their club parties on the growth of union tyranny." They need

brains, brains and grit to help them in their troubles.

#### Must Please Men of Wealth.

"The young man who has a few ounces of brains, a carload of grit and a good brain, however, has a chance. He can win, taking it from the rich man—he must please him to get it."

"Please the capitalist by showing him that law and order will spread out before you if you fight disorder and lawlessness, and you will get more from the rich man than a bookkeeper could earn in 50 times your period of work."

"If you are breaking a strike don't act like a bunch of hoodlums; the assailant wears give him a quicksilvering one on the forehead for nothing, if he assaults you. He'll keep his dues paid then in the university of experience."

"Think of the chances you have in life with money earned quickly and in large sums. Be mercenary, if you will, but get it by giving your best work for the man who employs you."

#### Fat and Thin, Farley Wins.

"No physical power you can get in a riot lasts long. The nice check that comes at the end of your work will make you forget a few bruises and scars."

And this from a man whose eye was bandaged, whose head was swollen from cuts and whose body bore marks of the most terrible kind: "I deduced. Look for the cynical smile when he concludes his epigrammatic talk and you will be disappointed. Curry has a new science—he will master it and have a bank account that will take him far from the madding crowd, as it were. Some day he may have a sheep ranch and extend an invitation to some old and broken former labor chief to come and be his brother."

#### Demands Only Courage.

Farley never forgot a man's name if he passed scrutiny and got his description on his little red book that he keeps a safe in his office in Pittsburgh. He has a fund that he drew upon for the railroad and transportation chiefs when they needed strike-breakers. But Curry has no list. He would not be bothered with a book. He will take the leadership of the biggest and most nondescript throng of nonunion men, black or white, and black preferred—and he said to himself, "I will get paid enough to day coaches for a long train ride."

"Is he a man? Can he drive a team and fight?" Those are the only queries Curry puts to his recruits after they are turned over to him. He will talk of the rich merchants of St. Louis putting ridges on their shoulders, shutting ridges on their shoulders, shutting ridges on their shoulders, in this Washington street hardware store, during a mob of unionists. He will say that their hands trembled when their fingers pulled the triggers that sent messengers of death to rioters. But his smile follows his conclusion: "They broke the strike."

"It's what guns were made for—losh! shot at lots of times. I never had a gun when I did it, and may it please the court—ha! ha! ha!"—think my aim was bad—very bad—worse than that of a woman. You see it's better to hit a striker than a lad playing a block away and you can afford to shoot into the ground once in awhile."

"Look here," was the quick reply. "Put down in your note book these few things, and when I'm a back number study them."

"A man who would not take a chance against a strike for money is not a person to look for."

"Capitalists play golf, count their conquests, lean on bright young men to plot their great enterprises and write essays for their club parties on the growth of union tyranny." They need

current of his ambition could not be grounded and pleased with her callers for justice for her spouse. "Frank's wife is a good woman, but she's a grouch. She wants to get her union men down on them. I was arrested for picking up a brick that a union sympathizer hurled at me, while the latter was not caught. While two policemen held me a thumb used his brass knuckles on me. That's not fair. If militia were on guard lawlessness would cease and we strike-breakers would have a chance to put through the teams as directed."

"Then the presence of troops would make your own leadership futile?"

"Troops might have to fire a few volleys and then the peaceful stage would begin. A short time of this and I would fit."

Out in the street a rich man drove his automobile up to the department store. Fifty policemen were guarding a caravan of wagons manned with the

men—you learn that they do not fear the police as they should. Considerable brute strength was used by Curry in the street car strike. Farley used his brains more and directed brute strength along lines of least resistance. The strategy of the Pittsburg office went into effect whenever Farley struck his "live wire" without a hitch. Curry, after all, was a strike-breaker who needed a general manager or a superintendent to help plan for the trips.

Then there was the ice wagon drivers strike in St. Louis. Farley did not aspire to "breaking" that. Maybe he was not asked to help. But Curry

is reported to have said,

#### Brains vs. Brawn.

Considerable brute strength was used by Curry in the street car strike. Farley used his brains more and directed brute strength along lines of least resistance. The strategy of the Pittsburg office went into effect whenever Farley struck his "live wire" without a hitch. ## SPORTS AND ATHLETICS

George Hackenschmidt, known as the "Russian Lion," won the title of champion catch-as-catch-can wrestler the other night by defeating Tom Jenkins in two straight falls at Madison Square Garden in New York city. The Russian completely dominated the American, and at no stage of the contest appeared Hackenschmidt at all in peril.

Once, early in the first bout, Jenkins, having assumed the aggressive, forced the foreigner into a head spin, but never after did Jenkins have as good as a look-in. It will take another Youssouf or Hall Adas to throw the power of Russia off balance. Jenkins' manner was dead, and the other out of the wrestling game—could probably have handled the Russian, though it is far from certain that either of them would have had easy game with him. Hackenschmidt combines the agility of a featherweight on his feet with the Herculean strength which is his. The muscles of his neck appear able to carry his weight and his body is strong, and is an inspiration for artists and models. His underpinning is so firm as to withstand the most determined efforts at dislodging. Hackenschmidt, according to his admirers, is one of the finest, if not the finest, specimen of the all-around athlete and sportsman, and is an inspiration for artists and models. His underpinning is so firm as to withstand the most determined efforts at dislodging. Hackenschmidt, according to his admirers, is one of the finest, if not the finest, specimen of the all-around athlete and sportsman, and is an inspiration for artists and models. ## News of the Week.

Chips Picked up Around Town and Vicinity.

Note the new ad of the Pine City Brewery in this issue.

Mrs. Edw. Rand is confined to her bed this week. She is under the care of Dr. Lyons.

Mr. E. Silver and daughter Bernice departed for their home in St. Paul on Friday's limited.

Jas. H. Pittle, of New York, a brother-in-law of Mrs. J. Adam Bede, spent last Friday night in this place.

P. W. McAllen entertained Banker Claggett and wife and Miss Nellie Madden, at his cottage at the take Tuesday night.

Nels Edridge, of Meadow Lanes departed on Tuesday's limited for Duluth, where he goes to work at his trade, stone cutting.

Martin Adler, on Monday purchased the black colt recently owned by Chas. Gustafson, and will use the same for drawing his junk wagon.

Braham vs. Hurley's Barringtons, the above mentioned ball teams will cross bats at the ball grounds on the North side of the river Sunday afternoon.

Mrs. E. W. Stark, of Harris, came up on Tuesday morning to visit with friends, and take treatment at the Pine County hospital. She returned home the same day.

Maj. W. W. Cooley and J. F. Stone came up on Saturday's morning train to spend the day at Pokegama Lake, it being the opening day of the Tuxedo hotel.

Mich. Asfalg, who was here some eleven years ago, has come back to stay. Mr. Asfalg built the house that was Martin Adler's, and says if he had stayed in Pine City he would have been money ahead.

J. Adam Bede returned from Washington on Tuesday's early morning train, and will remain for about three weeks. J. Adam said he was surprised to see the improvements that were being done in Pine City and at the Lake.

Mrs. Edw. Rand departed Saturday morning for St. Paul, to meet her daughter Georgia, who has been visiting with her grandmother in the southern part of the state for the past couple of months. They returned Sunday on the limited.

Jas. Smith, traveling salesman for Griggs, Cooper & Co., wholesale grocers, of St. Paul, was in this place on Friday taking orders for the above named firm. Mr. Smith expects to make this place every three weeks. While in town he made this office a pleasant call.

The Boot and Shoe Recorder of Boston says: "The Northwestern Shoe and Leather Association has secured a railroad rate of \$1.90 for the round trip for the outing to Pine City, Minn., at Pokegama Lake for June 24. The sale of tickets is progressing merrily and there will undoubtedly be a goodly crowd on hand for the picnic."

Geo. Neilson and wife, of Dane-wood, were in the county seat on Tuesday visiting at the residence of J. Y. Breckenridge. Mr. Neilson is one of the most prosperous farmers in the county, and we are always pleased to see him and his estimable wife. Before Braham became such a large place, Mr. Neilson was a frequent visitor, but late years he only comes here about twice a year.

Saturday evening about thirty of the friends of the Casper Kroese assembled at the home of his parents, Mr. and Mrs. Gerd E. Kruse, who reside about a mile and a half north of this place, and tendered him a surprise in honor of his 24th birthday. The evening was spent in dancing until about 11:30 when a luncheon was served. The music for the dance was furnished by Freeman Bros., and was enjoyed by those present.

The dance given by Messrs. Barber and Lambert, of St. Paul, at Bath's hall Tuesday evening was as well attended as it should have been considering the quality of the music. The concert given before the dance was well worth the price asked for both concert and dance. To say that the gentlemen are fine musicians is putting it mildly, for they are both far above the ordinary. Mr. Lambert, as violinist, is one of the best that ever came to this place, and those who did not attend missed a rare treat. The gentlemen each play in Episcopal churches in St. Paul where they are both leaders of the respective choirs.

### Popular Specials.

Wanted—Girl for Kitchen work, Apply at Grant House, Rush City, Minn.

For Sale—The residence and property of G. J. Albrecht in the southwestern part of town. For particulars call at the residence, just east of the M. E. church.

Have you seen that elegant display of gold trimmed glassware at 10cts. at the Drug Store, and their Bargain Basement? It will pay you.

The Pine City Brewery have recently added a bottling works to the plant, and are turning out the best bottled goods on the market. Their lager beer has always stood high in the estimation of those who like a pure wholesome beverage, as it is a well known fact, that the manufacturers of this beer uses only the pure malt and hops.

For Sale—House, barn and three lots for sale, well located and very desirable property, in Pine City. For particulars call on or write to Thos. Reynolds, Rush City, Minn.

Remember the ball game Sunday afternoon on the ball ground on the North side of the river.

For Sale—80 acre farm land, 3 miles east of Pine City on the St. Croix road. For further particulars call at this office or address, Mrs. O. P. Larson, Pine City, Monday.

A social dance will be given in Rath's hall Saturday (tomorrow) evening. First class music and a good time guaranteed. Admission only 50 cents.

There will be union services in the Presbyterian church Sunday morning, it being Memorial Sunday. A male quartette will furnish music for the occasion.

Hermon Austin and brother in law, Mr. Johnson, of Minneapolis, came up on Saturday's limited and spent Sunday with Herman's father, H. S. Austin and family.

Rev. R. J. Meland will conduct Norwegian Lutheran services in St. Croix school house 10:30 a. m., Sunday, and in the German Lutheran church, Pine City 3 p. m.

The ladies of the Degree of Honor

are requested to meet at their lodgeroom Tuesday, (Decoration Day) at 1:30 to take part in the memorial exercises. Mrs. J. D. Vaughan, Chief of Honor.

Dr. Wood, the dentist who arrived here from Lamberton last Friday, is now nicely settled in his offices in the rear of Dr. Lyon's new hospital. Dr. Wood is a graduate of the Minnesota State "U" and comes highly recommended. He will remain here permanently, and the citizens of this place should extend to him the welcome.

Eddie Hempel, the young man that had the first two fingers of the left hand cut off at the Frazer mill on the Jarvis bay road, and who has been under the care of Dr. Lyons since the accident four weeks ago yesterday, has so far recovered that the doctor told him yesterday that he need not come down again to have the hand dressed.

Zella Curry, who resided here about eight years ago, but who has lived up on the Range since leaving here, arrived in town on Wednesday noon. He has rented a house in North Pine City, and will at once move his family down. Zell is a good violinist and when here played for all the dancing parties. His many friends in this place and vicinity will be pleased to welcome him back again.

The rear of the McGrath drive is at the Greeley farm, and the logs will be stored in Ulcabein bay, the slough south of Mile Island and in the Bear's Ear. Mr. McGrath was in this place on Saturday and informed us that he was endeavoring to arrange his logs this year so that they would not hinder the navigating of the waters of this vicinity, and that the wafers would be held so as to accommodate the farmers as well as the boatmen.

Word has been received by Secretary Allen, of the Commercial club, that the Bohemian Workmen will hold their annual outing in this place during the coming month providing a train can be secured. They will be about 1,000 of them. They will be here but one day. The Commercial Club have several other orders on the string that they are trying to induce to spend their outings at this place during the coming summer.

### PROFESSIONAL CARDS.

E. BARNUM,

**Physician and Surgeon.**  
Graduate University of Michigan, 1876.  
Office at Residence South of Court House,  
Pine City, Minn.

Night calls promptly responded to.

Pine City.

L. WIREMAN

**Physician and Surgeon.**  
Office one door south of  
Salada's meat market.  
Pine City.

A. LYONS,

**Physician and Surgeon.**  
Office in the Hurley Block.  
Pine City.

L. STEPHAN,

**Physician and Surgeon.**  
Office at Drug Store.  
Hinckley.

S. G. L. ROBERTS,

**Attorney at Law.**  
Pine City.

R. H. C. SAUNDERS

**Attorney and Counselor at Law.**  
Offices—Hinckley Block.  
Pine City.

M. B. HURLEY,

**Attorney at Law.**  
County Attorney of Pine County.  
Office in the Court House.  
Pine City.

D. C. VAN ALSTINE,

**Veterinary Surgeon.**  
Graduate of Dr. A. E. Emmet's Veterinary School, Kansas City, Missouri, class of 1886.

Treats all Domestic Animals.

Examination Free. Pine City, Minn.  
Telephone or telegraph me when you have the money or not and I will wait a reasonable time for the money.

D. B. WOOD, D. D. S. Dentist. Office with Dr. Lyons at his new location.

All kinds of dental work done. All work guaranteed.

### A Revelation

If you will make inquiry it will be a revelation to you how many succumb to kidney or bladder troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. Foley's Honey and Tar contains no opiates and can safely be given to children. Sold by J. Y. Breckenridge.

## The Reconstruction of Col. Evans

By CHARLES EUGENE BANKS

Col. Randolph Evans dressed in full uniform of faded gray, with an old fashioned coatee, breeches and stockings, his thighs, the rim of his broad bray pushed back from his forehead, his white beard trimmed to a bairn; stepped from the veranda of his high-pillared rambling old house and paced slowly down the gravelled walk between the trees of blossoming magnolia, flanked it on either side. The sun shone brightly on the landscape, and lit the spires of the distant village with golden beams.

At the same moment a square-shaped dragoon came round a bend in the road and approached the house. Seeing the colonel, he hailed at the gate leading into the grounds, and awaited his arrival.

The colonel gave the young man a rather brisk good morning as he came up, and made a formal salutation with a military air.

Mark Blaisdell returned the salutation, but his eyes were looking past the colonel to a window of the house wherein was framed the figure of a young woman in a fluffy gown, a rose in her dark hair, and a pleasant light in her big brown eyes.

The mellow tones of a distant bugle came up from the village.

"Assembly call," said the colonel, his military figure assuming an added dignity; "I must be going, sir. The few remaining members of my old regiment are forming for the ceremony."

"Spring is early this year," the young man said, his eyes still on the face in the window. "There will be no lack of flowers for decoration."

"That is it should be," the colonel responded, promptly. "Nature cannot be too prolific of her blossoms on this day of remembrance to her brave and noble dead."

"You ought to incorporate that sentence in your address, colonel," the young man cried, twirling a spray of lilac in his hand. "It has the real ring of oratory."

The colonel threw a sharp glance into the eyes of the young man, but finding there nothing but sincere appreciation, he accepted the compliment with a slight inclination of the head.

"I am sure you will be satisfied to join us on my ride," he said. "I would give me great pleasure to meet the grandson of the friend of my youth a member of my staff. Up to the time of the war he was my dearest friend. But he fought with the Yankees against his state, against his old neighbors. I cannot afford, sir, even the name of a friend."

The young man's face flushed. The spray of lilac had been twirling fell to the ground. His shoulders stiffened. "My grandfather fought for the union," he retorted. "He gave his life for the country. The greatest pride I have is that I am his grandson."

They faced each other, the old and the new south, both fine types of the American. Hot words were on the lips of each crying for utterance. But over the shoulders of the colonel Mart

"SAY NO MORE. I'LL NOT HEAR YOU!"

Blaisdell saw a white hand waving, and down the soft air came the ripple of caution. The angry light in his eyes died out so suddenly the colonel could hardly notice it. He turned just in time to see his daughter disappear from the window. The unwelcome truth forced itself upon him, and he grew white with rage.

"You—what is the meaning of this?" he cried, hoarsely. "Have I been nursing a viper in my bosom? Was it not enough that your ancestor would destroy my faith in honest friendship? If I discover his descendant seeking to rob me of the one blessing God has left me, I will give you welcome under my roof, because I hoped to save you from the wicked teachings of an age that is given over to frivolity any the mere passing of money. I had hoped to impress upon you the feelings of honor and glory which were so proud boast your ancestors and mine, for which we almost swept away by the time while you accepted this position, you blinded me with a show of affection to my counsel, that you might

protect the rights of only your family, the family of my family, sir!"

"No more. I'll not hear you, and rather see my granddaughter and in her grave than married y relative of a man who fought

against his state, his neighbors and his kin."

Before the young man could answer there was the clatter of hoofs and a sound of voices as a coach dashed up to the spot and halted before the colonel. They were dressed, like Col. Evans, in faded uniforms of gray. "They were all old men, some of them with an empty sleeve pinned to the shoulder of the faded coat, while hardly a man of them but bore the scars of good fighting. One of these, however, was the veteran commander, stood at attention. A negro came running down the driveway from the house, leading the colonel's horses, saddled, bridled and groomed till he shone like gold. Now there broke upon the still air of morning the shrill piping of a fife and the roll of drums. The music came nearer and nearer till suddenly out of a little grove which faced the horses wound a company of infantry. These soldiers, too, were old and wore

"DIXIE."

faded uniforms, but they were of blue. Some of these, like the troopers, had mighty sleeves pinned to the shoulder, and the scars of battle marked many of the faces with the insignia of battle.

But the tune that sprang out of the fife and rolled from the resonant drums was "Dixie."

The horsemen in gray sat a moment immovable. But as the strain of that melody to which they had charged so often into the thick of the fight awoke the memory of those days of battle, the faces of the survivors were bared, even to that of Col. Evans.

The veterans of the northern army approached until only a little space divided them from the veterans of the army of the south. The aged colonel in blue saluted the aged colonel in gray, and the two were bared.

But not for long, down the grayed walk came spring Alice Evans, the colonel's granddaughter, all in fluffy white in summer gown, a red rose in her hair. She bore an air of freshly plucked flowers. Like a white-winged angel of peace she came to stand between the two bared veterans.

The light of morning was in her eyes, and the benediction of her youthful beauty and innocence seemed to fall on every grizzled hero there, and make him young again.

She stood for a moment irresolute, then going to the leader of the men in blue she took his hand and held it close to her grandfather. Then stepping back a pace she said:

"Love is not for the dead, said I give my flowers to heroes yet alive."

She placed a wreath about the brow of each of the veteran commanders; then tripping gayly back and forth from one to the other, to cavalymen, she gave to each a kiss.

"Now let us have a song," she cried as she tossed the last of her flowers to young Blaisdell, who had watched the proceedings with misty eyes. And she began the lines:

"My country, 'tis of thee,  
Sweet land of liberty,  
Of thee I sing."

Before the words of the first line were concluded, every voice in that strange company was roaring out the magnificent music which has done service for men since the beginning of the German empire.

The fife whistled, the drums resounded, and over all rose the accents of note of the mellow bugle. The grandfathers left their horses to mix with the uniforms in blue, and there was no thought but good comradeship and love of country among them.

This was going on the girl had put her arms about her grandfather's neck and whispered something in his ear. When the song died away he took her hand and placing it in the hand of Blaisdell said:

"Gentlemen, I want you to witness the reuniting of the north and the south, not by scattering flowers on the graves of our departed heroes, but through love uniting the descendants of those who fought each other through those four long years."

The men cheered, and the music went on.

And after all had drunk a toast at the colonel's side,

hand in hand, in the public event, they went away together to the public ceremonies. That was how Col. Evans came to be reconstructed.

**Holidays.**

A holiday always points back to an important history. It is not necessary to go into great detail of the past. But the moral day as long as it lasts must always be an anniversary of some sort, a weary sight and start many a bitter memory. It was the youth, the beautiful, hopeful, courageous youth, that in all the glory of their fresh young lives went forth in large numbers in those mournful days to do battle for their own dearland.

## A GREAT DAIRY STATE LIVE STOCK

### HANDY WOOL TYING BOX.

Way in Which the Wool Grower May Enhance the Value of His Product.

The ceiling side of farming is, in many cases, as important as the producing side. After incurring the expense of time and labor in the production of an article it is very poor policy to let it go to waste. The market value of it that its full value will not be realized. One important factor in securing the full value of an article is its appearance. There are few any articles of exchange in which the appearance will not materially affect the price that may be obtained therefor.

While it is not proper to try to influence the appearance by such deceptive methods as putting the larger apples on the top of the barrel, the larger berries on the top of the box or the larger potatoes on the top of the load, work spent on the improvement of the appearance of the

milk for private dairy in the state as contributing to our creameries and cheese factories. There is no fact more convincing than the following statistics in order to fully appreciate the magnitude of the industry. A total of 480,740 cows contributed to the market in 1903, a total of 1,392,948 pounds of milk, from which were manufactured 72,266,348 pounds of butter and 10,300,000 pounds of cheese. A total of \$14,255,099.54 was paid farmers of the state for the milk furnished these factories. There are many great opportunities in cheese factories. Of these the farms of the state own and control 696 and 254 are owned by independent parties.

With the volume of the dairy business in Minnesota sufficient to attract the attention of her sister dairying states, her reputation as the Land of Milk and Honey of the Union has been established through the superior quality of her creamery butter. She began her series of successes in 1894 when she won grand sweepstakes at the World's Fair in Chicago, and in 1896 gold and silver medals at the International Creamery Butter Makers' Contest at Linton, Iowa.

In 1897 the victory of 1896 was repeated at the World's Fair in Chicago, and in 1898 gold and silver medals at the International Creamery Butter Makers' Contest at Linton, Iowa.

At the 1900 International Exposition in Buffalo, 1901, Minnesota took second place in the sweep stakes.

At the National Fair in St. Louis, 1902, Minnesota took second place in the sweep stakes.

At the National Creamery Butter Makers' Contest at St. Paul, 1901 and in Minneapolis, 1902, where there were larger entries than ever before, Minnesota products easily held their high position, carrying off the grand sweepstakes at the 1901 contest at Linton, Iowa.

At the 1902 International Exposition in Buffalo, 1903, Minnesota took second place in the sweep stakes.

At the National Fair in St. Louis, 1903, Minnesota took second place in the sweep stakes.

At the 1904 International Exposition in St. Louis, the Fair held last year which was the most successful in the history of the world.

Minnesota has profited greatly from the grand sweepstakes prize at the World's Exposition at Paris in 1900, where her products came in second place in the sweepstakes.

Minnesota has held in St. Paul, 1901 and in Minneapolis, 1902, where there were larger entries than ever before, Minnesota products easily held their high position, carrying off the grand sweepstakes at the 1901 contest at Linton, Iowa.

At the 1902 International Exposition in Buffalo, 1903, Minnesota took second place in the sweep stakes.

At the 1903 International Exposition in St. Louis, the Fair held last year which was the most successful in the history of the world.

The winning of so many prizes has served more to satisfy the pride of those interested in the uplift of the dairy interests of the state than any other achievement.

Minnesota has profited greatly from the grand sweepstakes prize at the World's Exposition at Paris in 1900, where her products came in second place in the sweepstakes.

Minnesota has profited greatly from the grand sweepstakes prize at the World's Exposition at St. Louis, 1902, where there were larger entries than ever before, Minnesota products easily held their high position, carrying off the grand sweepstakes at the 1901 contest at Linton, Iowa.

## TO DESTROY WASPS.

ANOTHER LIGHT AS AID FOR NEW YORK FARMERS.

Bureau of Agriculture Will Help to Kill Insects That Have Caused Damage in Fruit Section of the State.

Bethel, N. Y.—To arrange for the building of a government camp at Tonawanda, where he will study out the best methods of destroying wasps next summer, Henry T. Van Oukon, of the United States Bureau of Agriculture, has arrived in Buffalo. He is the author of the book which is located in the heart of Tonawanda's fruit belt. During the past 14 years Van Oukon has studied the destructive work done by wasps in Europe and America.

"To say that wasps are pests is putting it mildly," he said. "In other words, the less there are, the better off we are. They have done far more harm than the gypsy moths. Not only do the yellow jackets sting the fruit, but eventually kill any tree in which they erect a habitation. A conservative estimate of the damage done by wasps in Ontario and Erie is something over \$100,000. And in that state wasps practically live on figs."

"Among the heaviest losers from the depredations of wasps are the farmers of upper New York state and Ohio. For some reason the country about Buffalo and Tonawanda seems to be better suited with yellow jackets. Because of this I have decided to spend my time next summer in determining a practical method of exterminating wasps. I have already discovered one scheme which may prove to be very effective. This is a pink-colored, high-sugar electric light, which when lit at night, will draw the wasps out at night. According to the reports of several prominent Massachusetts agriculturists these peculiar colored rays kill the insects instantly. Because of the power I can derive from the magnificence plants at the fairs, I will have the chance to try the rays on Tonawanda wasps. This was the reason I selected the place for the location of the camp."

"Wasps and hornets are common to the whole world. I have seen them dusting about on the shores of Lake Tchad in Africa, and have seen them swarming around the horse feed miller. Unlike the hawks who are an honest, hard-working lot, the wasps are sneaky and destructive. When stinging fruit they will spend many moments crawling about till they reach the point nearest the core, then insert the polka-dot sting. When they get into trees they manage to kill those trees. They do it still a mystery, but it has been observed that foliage weaves up and dies. I expect to enter camp at Tonawanda next June, and will remain there until next fall."

## TO MAKE BRICKS OF SAND

First Plant of Kind in This Country to Be Started at Sea Breeze, N. Y., for New Industry.

Rochester, N. Y.—A plant for the production of brick, in the manufacture of which sand instead of clay will be used, is to be built at Sea Breeze, on the lake of Seneca. This will be the first factory of its kind in the United States. The company will be known as the Rochester Composite Brick Company.

The bricks that will be manufactured are known as sand bricks or sand-line bricks, and were first made in Germany about 15 years ago, but it took some years to perfect the process so that good bricks could be made at moderate cost. There are now, it is said, more than 200 German factories engaged in the production of these bricks, and the annual output last year is given as 250,000,000.

A Canadian named Lestin invented machinery a short time ago by which it is said, bricks much superior to the German bricks are produced. Manufacturers of bricks by this process claim for them that they are equal to the best pressed clay bricks.

## FOUND IN HEN'S GIZZARD.

Necklace of Young Women, Lost Two Years Ago, Discovered in Poultry Place.

Douglas, La.—It was fortunate for Miss Minnie Gauldin, of Fort Dodge that she had chicken for dinner the other day, for she recovered possession of a much prized necklace that she lost two years ago. The chain was stowed away in the gizzard of the fowl, which was served to her in a restaurant. It is quite worn in some places.

Miss Gauldin's family recently moved from a farm south of Gowrie. While picking flowers the young woman lost the necklace. When they moved to town they added a few more to their possessions, but these killed dressed, froze and packed in barrels.

When the gizzard of the last, a fat hen, was opened, the inner lining was cut into and a lustrous speck was observed. Much to the surprise and delight of the young woman, her precious necklace fell into the table.

## Fumigating Fruit Trees.

"Gassing" trees have become so large a business in California that a Los Angeles man has an office in San Francisco. 1000. These are used to confine the gas to trees and to protect the operators from the deadly fumes of the prussic acid which is liberated from a saucer at the tree's roots.

## Unfashionable.

Since it has been discovered that the dog also has appendicitis, says the St. Louis Star, probably we shall not hear so much of it in the human family.

Foley's Honey and Tar is peculiarly adapted for Asthma, bronchitis and hoarseness. Sold by J. Y. Breckenridge.

Traveling is Dangerous.

Constipation is one of the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trappers, trainmen, car men, teamsters, drivers, who drive much, suffer from constipation and disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder diseases.

Most of the patent medicine testimonials are probably written by old folks, who are frequently seen in the ditch (Kan.) Globe. "Joe Tack, a well known engineer, running on the Mexican Pacific between Wichita and Kansas, lately suffered from constipation, but when these killed him, he was in the office today, when we asked him about it. He says he had terrible pain in his bowels, and when he had cancer. His druggist recommended Kodol and he says it cured him. He wanted to add, that he and his wife are also cured." Kodol Dyspepsia Cure cures what ails you and cures all stomach troubles. Sold by J. Y. Breckenridge.

Foley's Honey and Tar is peculiarly adapted for Asthma, bronchitis and hoarseness. Sold by J. Y. Breckenridge.

There is more Cataract in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a constitutional, hereditary, local tendency, and by persistently failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Cataract Cure, manufactured by J. Cheney & Co., Toledo, Ohio, is the only constitutional home cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. Cheney & Co., Toledo, Ohio. Sold by Druggists, 75 cts.

Take Hall's Family Pills for Constipation.

## Why Suffer from Rheumatism.

Why suffer from rheumatism when you can apply Hall's Chamberlain's Pain Balm? You will relieve the pain. The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hopelessly for months have been greatly surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yonkers, New York, writes, "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by L. E. Breckenridge.

## Chamberlain's Cough Remedy the Very Best.

"I have been taking Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says G. L. Chubb, a merchant of Harlan, Mich. There is no question about its being the best, as it has been sold in larger quantities than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. As good as Dr. L. E. Breckenridge.

## A Good Family Liniment.

Every family should be supplied with a bottle of Chamberlain's Pain Balm. For cuts, bruises, sprains, scalds and insect bites, when a frequent occurrence, there is nothing so good. It soothes the wound, and not only gives instant relief from pain, but cures the parts affected in about one-third the time required by the usual treatment. As it is an antiseptic all danger from blood-poisoning is avoided. Sold by L. E. Breckenridge.

## HOT WEATHER PILLS.

Persons afflicted with Piles should be careful at this season of the year. Hot weather and hot drinking water, the heat of the sun, the condition of the sea breeze. This will be the trial factor of its kind in the United States. The company will be known as the Rochester Composite Brick Company.

The bricks that will be manufactured are known as sand bricks or sand-line bricks, and were first made in Germany about 15 years ago, but it took some years to perfect the process so that good bricks could be made at moderate cost.
