STATE CONFERENCE

OF CHARITIES AND CORRECTION to be Held at St. Peter Monday evening. St. Peter—Instructive Function—Lives Will Attend.

The Fourteenth Minnesota State Conference of Charities and Correction will meet at St. Peter Monday evening, Nov. 13, and will continue in session until Wednesday evening Oct. 15. The railroads have granted a rate of one and one-third fare for the round trip on the certificate plan. Regular tickets should be purchased at St. Peter, and the secretary of the conference will issue a certificate of attendance entitling the holder to purchase a return ticket at one-third rate. Provisions are being made at St. Peter to furnish accommodation for all who may attend the conference.

An invitation is extended to all persons connected with any form of public or private charitable or correctional work in the state of Minnesota. County commissioners, persons engaged in school work, the clergy, and all citizens interested in philanthropic work are urged to be present.

An unusually attractive and interesting program has been prepared. On Monday evening, November 13, the president of the conference, A. G. Grutridge, will deliver an address. On Tuesday, November 14 the topic will be "The Prevention of Pauperism and Crime." "The Influence of the Home" will be discussed by Mrs. J. L. Washburn, of Duluth, the newly elected president of the Minnesota Federation of Women's Clubs. Hon. John W. Olson, State Superintendent of Public Instruction, will have for his subject "The School." Rev. Father J. M. Cleary, of Minneapolis, will talk on "The Influence of the churches." "The Relation of Law to the Prevention of Pauperism and Crime" will be discussed by Mr. Theo. E. Leet, county commissioner of Winona county. On Tuesday afternoon, Nov. 14th Messrs. L. P. Chase, of Olmsted county and Louis Pfund, of Norman county, will talk of "Almshouses," and "The Administration of County Relief." Dr. L. C. Weeks, county physician of Becker county, will give an address on "The Care of the Sick." The subject of "Friendly Visiting Among the Poor" will be presented by Mrs. C. G. Hughes, of St. Paul. On Tuesday evening Hon. Samuel G. Smith, D. D., of St. Paul, will deliver an address on "A Comparison of the State Charitable and Correctional Institutions with those of other States."

On Wednesday morning, Nov. 15, a paper will be presented by Andrew J. Kesterson, of Brown county, on "Taxation and County Boards of Equalization." "Vagrancy" will be discussed by W. E. Paddock of Blue Earth county, and W. P. Barton, superintendent of the City Poor of partment, Minnesota.

The closing session of the conference will be held on Wednesday afternoon at the St. Peter State hotel, when the following addresses will be made: "A Review of the Public Charitable and Correctional Work of the State," by Hon. L. A. Rosengren, member of the board of control of State institutions; "The Charitable Work of Fraternal Orders" will be presented by Mr. F. W. Hager, of Duluth.

Commissioners etc. will attend the conference as a delegate from Pine County.

TEACHERS' MEETING

Profitable and Large Attended—Supt. Hartley Reads Paper—Willow River Entertains Well.

Superintendent A. B. Hartley read a paper on the "Functions of the High School" at the Pine County Teachers Association meeting at Willow River, Saturday, Oct. 25th. He reports a very pleasant as well as profitable meeting. Superintendent Pickard and the people of Willow River know how to entertain.

The meeting was undoubtedly one of the most profitable meetings of the kind ever held in the county.

Over half the teachers of the county were in attendance and enjoyed the time immensely.

Rydlund—Stevens.

Wednesday afternoon at 2:30 o'clock Miss Amanda Rydlund and George N. Stevens were united in the holy bonds of matrimony. The wedding occurred at the residence of the groom's parents, Rev. Burns, of Rush City, performing the wedding rites. Miss Tillie Thorson, of St. Paul, was the bridesmaid, and Erick Stevens was best man.

Married.

Miss Mary Baeck and Albert Kuhi were married Tuesday morning, Nov. 7th, 1905. The ceremony occurred in St. Mary's Catholic church and was performed by Rev. Koerner. Matilda, a sister of the bride, and Tom Baxi, stood up with the contracting parties.

The groom conducts a jewelry department in Steeck Bros' general store and has made many friends since his residence here. The bride is a daughter of Adolph Baeck, a prominent Hustletoon farmer. Mr. and Mrs. Kubat had the best wishes of the PIONEER for a long and happy married life.

Remedy to Destroy Flour Moths

This pest is becoming extremely prevalent and injurious. The state entomologist of the experiment station has just successfully fumigated a very large flour mill for this insect, so hateful to millers, using hydrocyanic acid gas in a mill the output of which is 2,500 barrels per day. This deadly gas is generated by dropping cyanide of potash into dilute sulphuric acid, and when done with care by an expert, will kill all animal life in the mill, does not endanger the lives of men working with it. One has to be well aware, however, of the deadly nature of the gas, and take proper precautions. In the large mill in question, including the elevator and cleaning mill over a ton of cyanide of potash and a ton and a half of commercial sulphuric acid were used, and every living thing, including the eggs of the flour moth, was killed in the mill.

There is no danger of explosion from this gas, hence the method commends itself to millers carrying on their business, since the insurance companies object to the use of bleaching powder, which is explosive when in granular form.

The worms which practice thus much evil in the machinery in elevators and mills until sometimes mills are obliged to shut down.

It is interesting to note that one-half of the deadly gas which results from the union of the cyanide and, is instantly fatal to a human being. It can, however, be safely applied to mills.

DEDICATE NEW SCHOOL.

Rock Creek Edifice a Credit to District and County—Congressman Bede and Hon. F. A. Hodge Speak.

Possibly the most important function that has ever occurred in Rock Creek was the dedication of the fine new school building at that place last Friday evening.

The building has just been completed at a cost of \$5,000, and Dist. No. four has reason to feel proud of its effort to give the rising generation an attractive school house. P. W. McAllen had the contract for the erection of the edifice and he has given entire satisfaction.

In order to properly dedicate the handsome structure for its future usage, the teachers and pupils labored hard, and it was our good fortune to be present at a program which would reflect great credit upon much larger schools. The children were well trained for their parts and proved conclusively that Rock Creek has some very capable litters.

County Superintendent of schools, R. H. Blankenship, was present, took charge of the proceedings, and announced the numbers of the program. Two of those numbers were of exceeding interest, both for their instructiveness and entertainment and for the good wholesome spirit of humor injected.

Hon. F. A. Hodge, first speaker of the evening, was introduced as the first superintendent of schools for this country. His talk led back to the time when thought factories in this country were inhabited largely by Indians. He painted vivid pictures of later advantages and predicted greater opportunities as developments transpire. Many reminiscences of the "good old days" were related, and he hoped to be present on the occasion of a similar event which he predicted would occur in the course of ten years. Mr. Hodge paid a tribute of praise to Rock Creek and surrounding country and congratulated all who were instrumental in the erection of the monument that embraces both enterprise and prosperity.

Congressman J. Adam Bede was, as usual, in full form for an occasion of such worth and the treat which he unloaded upon his hearers is worthy of praise and endorsement. From start to finish he held the audience with rapt attention, and his speech was concluded only too soon.

The program in full was given as follows:

Song—"Minnesota". Grammar Room Recitation.....Trizzie Day Recitation.....Willie Challen Song—"Come Little Leaves". Primary Room Recitation—"The Little Mixer". Harry Mills Vocal Solo—Selected... Miss Erickson Dialogue.....Six little girls Recitation.....Jessie Greenlee Recitation—"The Reason Why". Blanche Day Four (little) girls Address.....Hon. F. A. Hodge Address.....Hon. J. Adam Bede Vocal Solo.....Mrs. Day Recitation.....Louna Myers Recitation.....Lois Wescott Instrumental Music.....Miss Lee Song—"America". Audience

Deer Season Open.

The tribe of quadrupeds known as deer will receive their first legal in stallment of lead today. The season continues for a period of twenty days in which time every brave and bold hunter will be allowed to kill and have in possession two deer and one male antlered moose. It is provided in Sec. 33, Chp. 344 of the state laws for 1905 that no cow or female moose can be killed or had in possession at any time, so that if one does accidentally come in the way of a stray bullet all good law abiding Indians will bow themselves out and apologize for the intrusion of such an as the case may be. An all important provision is that a person who mistakes and kills a person in place of a deer shall be guilty of manslaughter to the first degree and shall be punished accordingly.

There is no danger of explosion from this gas, hence the method commends itself to millers carrying on their business, since the insurance companies object to the use of bleaching powder, which is explosive when in granular form.

The worms which practice thus much evil in the machinery in elevators and mills until sometimes mills are obliged to shut down.

It is interesting to note that one-half of the deadly gas which results from the union of the cyanide and, is instantly fatal to a human being. It can, however, be safely applied to mills.

GRANTS FRANCHISE.

Village Dads Give Permit to "Hello" People—Wagon Bridge to be Re-Planked.

The common council of the village of Pine City met in regular monthly session at the recorder's office Monday evening, Nov. 8. The meeting was called to order by the president. Members present, F. E. Smith, president; John Atkinson, Math. Prochaska, Aug. Larson, Aug. Carlson and J. J. Madden, councilmen, and F. Poerl, recorder. The minutes of the meeting of Oct. 2d were read, and on motion were approved.

A petition signed by business men and residents of Pine City, petitioning the common council to grant a franchise to the Northwestern Telephone Exchange Co., upon the same terms and conditions granted to other companies, and on motion said franchise was granted, and an ordinance ordered to be drawn and presented and acted on at the next meeting of the common council.

The president instructed the Fire Department committee to purchase a stove for the engine house, and also to have door fixed.

On motion the recorder was instructed to advertise for bids to furnish the village with 10,000 feet of 3-inch green-tamarack or hemlock plank, 16 feet long, not less than 6 inches in width, same to be delivered by the 15th day of January, 1906.

The following claims against village were allowed: A. Biederman, repairs on scraper, \$3.00; Pine Poker, publishing liquor application, \$5.50; Pine City Milling & Electric Co., street lights, Oct., \$74.00; L. Poerl, special police, Oct. 31, \$2.00; J. Griffith, salary as marshal, Oct., \$40.00; C. Roletske, 21 days work on street, \$4.37; F. A. Johnson, care of fire engine, Oct., \$5.00; F. Poerl, Recorder's salary, Oct., \$10.00.

No further business appearing, council, motion adjourned.

F. POERL
Village Recorder.

MACHINERY STILLED

Collins' Saw Mill Closes Down Thursday, After Exceedingly Successful Season's Run.

Operations were discontinued at the Collins saw mill yesterday after a very successful run for the season. The mill had been running almost continually since the 17th of last April, with a crew of twenty men.

It was found necessary to close down the mill for the present on account of the untimeliness of the water-sealed logs now lying in the lake, and they will be allowed to remain in the lake until next spring. The mill, though, will be started up again on or about January 1st for the winter run, at which time about twenty-five men will be employed. The increase in help will be necessary on account of the lath and shingle mills which are to be put into commission at the same time.

Three million feet of lumber have been sawed since April 17th and the large amount of lumber on hand at present will be shipped away to be planned and used for manufacturing purposes. The pay roll for the season has averaged about \$55,000 a day, which is a big help toward the prosperity of this community.

Will Ask for Pardon.

Among the applications for pardons which will come before the board of pardons at St. Paul next month will be one for Wm. Pitkin, who was convicted of murdering a man at Hinckley and was given a life sentence at Stillwater. He has made application for a pardon in several different occasions, but it is believed that he will succeed in doing so this time, as he has many friends who are interceding for him. It is sincerely hoped by friends about here that Pitkin will be granted his liberty.

THANKSGIVING

TURKEY FREE

Our window is a turkey roost now. The Turkeys are there—a fine, fat gobbler and a sleek, plump hen; eggs too. In fact we have everything to make the best Thanksgiving dinner you ever ate. But we won't have them after the 28th. If you are a good guesser we will give them to you. Just come to our store, make a purchase of 25¢ and for each 25¢ you guess as to their weight. If your guess is nearest to their correct weight when we weigh them on the 28th, they are yours. You can eat them.

You know the place.

PINE CITY, MINN.

The Grand Duke Paul of Russia is tall that we hotel bed will fit him. So he carries on his travels a sectional sofa.

The barkentine S. N. Castle brought to San Francisco, from the Okhotsk sea, recently, the record catch for cod—20,000 in all.

The Portuguese government will build a railroad from Delagoa bay to Swaziland. That adds one more to the many "openings up" in Africa.

The French government has proposed to the chamber of deputies to create a universal exposition in Paris in 1920, to commemorate the foundation of the French republic.

A new warning note to women who go swimming has been sounded at an inquest at Bradford on the body of a woman who died from an attack, caused by wearing artificial hair made from a Chinese pigtail, and it came out in the course of the trial. China's pigtail was largely imported for the purpose of making among other things, strings used for automobile.

In the first distribution of the ten medals set aside by the Carnegie medal, two were given to the three who had distinguished fame for heroic deeds, nine of them have been awarded for signal bravery in saving life in the water. The medals will not adorn masculine breasts alone, but will be worn by heroines as well. They will serve as a source of inspiration, an encouragement.

Two fire-engines and a car for carrying accessory appliances, all electrically driven, have recently been put into service by the Vienna fire brigade. The accumulators, which it is said, are capable of giving 100 hours for some 25 miles at a speed of 1½ miles per hour, are placed in a compartment in front of the driver's seat, over the front wheels. Each of the front wheels is provided with a 15 horsepower motor.

The interior of Greenland still remains a terra incognita. Only two explorers succeeded in crossing part of the vast island. Fridjof Nansen who traveled on foot, from Denmark to Greenland (Good Hope), and Peary, who made the same trip on sleds. On account of the high mountains on the coasts and the almost impenetrable ice fields of the interior, most of Greenland will remain unexplored for years.

The possibility that the United States may soon have a tariff war on its hands has been mentioned in addresses by Secretary of the Treasury Leslie M. Shaw in Cleveland, St. Louis and other places. Germany is preparing a tariff which will make some discrimination against the United States. Although Secretary Shaw did not mention any country by name in any of his addresses, the nation which had in mind was Germany.

The trade in dyers is a very large one, and is well worth watching by the dye manufacturers of the United States. Apparently, the United States has the advantage in this trade at present; but there is reason to believe that a number of German interests are trying to secure a greater share than they now have and American interests need to be on their guard. There is little expectation that Chinese native dyers will supersede the foreign product for many years—not until scientific use of native products comes to be as common as it is in the other parts of the world.

The statistics of immigration for the new fiscal year indicate that the record of the past year, although greater than any previous one, will be exceeded. During September, here arrived 1,300,000 immigrants, or 772,000 more, as against 32,708 in September, 1894, 50,299 in 1903 and 23,615 for the same month in 1899. These figures indicate a steadily progressive increase, which, if maintained proportionately, gives promise of a total for the current year of a million and a quarter of immigrants, as against a fall in excess of a million for the year ending June 30, 1905.

Practically every field of human endeavor to-day is being invaded by women, and they are giving their male competitors a lively fascia for supremacy. Even in physical contests which call for endurance, steady nerves and a clear eye, many members of the "woman's club" are competing with no small degree of success, to prove the term a misnomer. That women are experts in the world of sports has again been demonstrated in the case of Mrs. Margaret Howell, of Cincinnati, who won the national championship, recently held recently in Washington, D. C. This is her 16th consecutive time.

Veteran season is now on, but more of the people in New York will not notice the sharp prices of the dish in winter—the average price. Nevertheless, this delicious and interesting reptile attracts all the attention in numbers can supply, and the prices are high. The market does not appear to show it in abundance. The chief source of supply is Orianda, Somerset county, on the eastern shores of Maryland, where the saltwater culture of the terrapin was first attempted and where it has been successfully conducted for 30 years.

RUSSIA IS TORN BY REVOLUTION

Czar's Edict Granting Constitution Comes Too Late to Check It.

Awful Scenes of Bloodshed Throughout the Empire—Thousands Are Killed and Other Thousands Are Wounded—Finland Wins Freedom.

Berlin, Nov. 7.—The Kleines Journal says 800 peasants were burned alive in the Russian village of Lebedevka, province of the Don, through the firing by Cossacks of a shed in which they were holding a political meeting. The number of 1,000 has gathered in the shed to discuss the situation in Russia. The perfect was unable to suppress the meeting and gave his approval to the action of the peasants. The wooden structure was alight in a moment after the torches were applied, and the peasants, in a wild panic, tried to get out. About 200 escaped, while the others were burned while trying to fight their way through the single narrow exit.

Horrors in Kishineff.

Odesa, Nov. 4.—A dispatch from Kishineff says: "A horrid massacre has been committed here by those who had distinguished fame for heroic deeds, nine of them have been awarded for signal bravery in saving life in the water. The medals will not adorn masculine breasts alone, but will be worn by heroines as well. They will serve as a source of inspiration, an encouragement."

The peaceful population is practically under a state of siege. Even the markets and restaurants are closed and it is impossible to get bread or meat. The poor, for days past, have pillaged a number of houses in the street and among others in the biggest wholesale grocery, that of Rabinowitch. The rioters also burned three factories and killed a woman and two assistants, who were dressing windows. Friday evening the rioters pillaged the biggest dry goods store in the city. The value of the goods taken was \$175,000. One man was also looted, involving a loss of \$100,000. In addition 12 fur stores were sacked.

Bomb Kills Two.

Warsaw, Nov. 4.—Telegraphic communication between Warsaw and Odessa and Breston-Dobrovia has been cut off. A bomb was thrown into the telephone office at Odessa Friday and 12 telegraphers were killed.

Students Killed.

Moscow, Nov. 4.—A procession of students returning with some of their comrades who had been released from prison was set upon by a mob of workmen at the Tribune arch. Ten of them were killed, while six made some discrimination against the United States. Although Secretary Shaw did not mention any country by name in any of his addresses, the nation which had in mind was Germany.

The latest accounts of the devastation in the Jewish quarter add horrors to the already ghastly scenes. Many homes have been destroyed. The Jews killed in every circumstance were treated with revolting barbarity. Heads were battered with hammers; nails were driven into the bodies, eyes were gouged out and fingers severed. Men were dismembered and in some cases petroleum was poured over the sick found hiding in cellars and they were burned to death. It is alleged that the police and soldiers everywhere marched at the head of mobs, and lashed them to destroy the Jewish quarters completely devasted.

Scenes of Horror.

The latest accounts of the devastation in the Jewish quarter add horrors to the already ghastly scenes. Many homes have been destroyed. The Jews killed in every circumstance were treated with revolting barbarity. Heads were battered with hammers; nails were driven into the bodies, eyes were gouged out and fingers severed.

Mountain View, Okla., Nov. 6.—Fourteen persons were killed and so injured. Following a review list of fatalities, Dr. T. E. Barker, Mrs. Jessie Jones, Mr. W. M. Holt and two small children, Mrs. Robert Hulme.

Fatally injured, Mrs. J. S. Barkley, Mrs. Edna, Mrs. E. A. Schildknecht and two small children of the town. The path of the tornado is about 100 yards wide and only one mile long, but in this small area the havoc was great.

A Terrible Death.

Elliott, N. J., Nov. 7.—Thomas Gallagher was buried under live coals here Monday and burned to death. He crawled into an ash pit under the rail road tracks in Elliott, in the middle of the town. Mrs. Pink Head died Saturday night and went to sleep there early on Monday and stopped directly over the spot where Gallagher lay asleep dumped burning coal and red hot ashes upon him in such quantities that the sleeping man was completely covered.

Aftermath.

St. Petersburg, Nov. 6.—The national holiday Friday in celebration of the anniversary of the emperor's accession to the throne was marked by the formal raising of the general strike in St. Petersburg. While the revolutionaries struck at the railway station, the workers of the railroad men set return to work, and trains are being got through. The populace is calmer.

General Strike Raised.

St. Petersburg, Nov. 4.—The national holiday Friday in celebration of the anniversary of the emperor's accession to the throne was marked by the formal raising of the general strike in St. Petersburg. While the revolutionaries struck at the railway station, the workers of the railroad men set return to work, and trains are being got through. The populace is calmer.

Married Her Husband.

Gates Hill, Nov. 7.—Gates Hill, Mrs. Gates Hill, was shot and killed by his wife Mrs. Mary H. Gates Hill, on Saturday afternoon. Mrs. Gates Hill was arrested and placed in jail. She says her husband was attacking her with a knife.

St. Petersburg, Nov. 6.—The czar at an o'clock Saturday morning signed a manifesto restoring to Finland the system of government it enjoyed before the annulment of the constitution in February 1893. The manifesto cancels all ordinances enacted since that date, including the military laws of 1901, which were the source of greatest discontent. The czar accepts the resignation of the entire Finnish senate, which is a body nominated by the crown, and at the same time convokes the Finnish diet to meet on Dec. 12.

Situation Improving.

St. Petersburg, Nov. 7.—Reports received from many points indicate that the situation throughout the Russian provinces is improving. The first train out of Odessa since the disturbances began yesterday at St. Petersburg having taken 13 days to accomplish the journey.

The struggle for autonomy in Poland has been renewed, and flags bearing the Polish coat of arms are flying from many buildings—preliminary to further action.

Count Witte is having trouble in organizing his cabinet, and has taken up his residence in the palace at St. Petersburg, so that he may be at the emperor's elbow when his majesty returns, which is expected to be very soon.

Dispatches to the London morning papers tell of great distress in Kishineff, in the Caucasus and other places that have been the centers of the disorders.

CRASH KILLS TWO.

Collision Between Train and Street Car Near Chicago, with Fatal Results.

Chicago, Nov. 7.—Two persons were killed, one instantly, and three others were seriously injured Monday when a Grand Trunk through passenger train crashed into a Chicago Electric Traction company car at Western avenue and the railroad tracks, one mile south of Blue Island. The street car was traveling westward and the passenger were thrown along the railroad tracks for 100 feet. The roof was lifted in the air and fell on the engine tender. The dead: William Goddard, Harvey, Ill., 55 years old, bricklayer; J. E. Dore, Harvey, Ill., 35 years old, employee as switchman on the Chicago Rock Island & Pacific at Blue Island.

According to reports the cause of the wreck was a misunderstanding on the part of McCloud, Jacob Brink of Harvey, the conductor of the street car, is said to have left it when the railroad tracks were reached, failed to signalize his departure to the locomotive. McCloud, however, turned the car slowly around the handle and the car slowly started across the railroad tracks. Brink shouted and pointed to the swiftly oncoming train. McCloud then turned on the full current into the motors, but the force was too much for the motors at first and the wheels only ran on the rails, emitting sparks caused by the friction. While the car was gathering momentum the crash came.

Cause of Gas Leak.

The victims were all church attendants on their way home Sunday. A gas leak in the basement of the bank building was primarily responsible for the explosion and loss of life.

Anderson and Peterson, steam fitters, had been engaged to make repairs to the heating plant, and as they entered the building they detected the smell of gas.

They thought little of the emanation, however, and as they passed the furnace room without a match to a gas jet.

There was a terrible explosion. The steam fitters were blown through the doorway at the rear of the building, while the building collapsed, falling into the street and ruins. A crew near the bank and cars blocked the crossing when the explosion occurred. Many persons were standing on the walk, awaiting the passing of the car, and thus were witnesses to the accident. There were a number of injuries.

Anderson and Peterson, steam fitters, had been engaged to make repairs to the heating plant, and as they entered the building they detected the smell of gas.

Mountain View, Okla., Nov. 6.—Fourteen persons were killed and so injured.

Floors Collapse in Omaha, Neb., Structure with Fatal Results.

Omaha, Neb., Nov. 7.—Four fireproof floors of a new six-story building, being constructed by Hayes, Brink & Schildknecht, Inc., containing 32,000 square feet of floor space, collapsed, killing Albert E. Hayes.

It is estimated that 1,500 persons were injured and 100 in their homes, bringing the total casualties to over 10,000. The Jewish quarters are completely devasted.

"CAN'T YOU TALK?"

EXPLOSION OF GAS WRECKS BUILDING

DISASTER IN ISHPEMING, MICH., IS THE CAUSE OF THREE DEATHS.

THIRTEEN PERSONS ARE INJURED—VILLAGERS ARE PASSING ALONG STREET ON THEIR WAY HOME FROM CHURCH WHEN THE EXPLOSION OCCURRED.

ISHPEMING, MICH., Nov. 6.—Three children are dead and 13 people are injured, one fatally, as the result of an explosion here, which probably destroyed the Miners' Mine. The dead are: Steven Goodman, aged 12 years; Alice McGee, aged 12 years; and Edward McGrath, 12 years.

The injured: James F. Mullin, fatally; Thomas Flanagan, Loretta McGee, Harry Gundersen, M. E. P. Mullin, Alice Burdette, Mrs. C. Smeltz, Charles Smeltz, John Dundon, Ray Butler, Fred Anderson, Eric Peterson, and Mrs. J. F. Keith.

A NATION'S GRATITUDE.

President Roosevelt Sets Aside Thursday, November 30, As Day of Thanksgiving.

WASHINGTON, Nov. 26.—The president on Thursday issued his proclamation naming Thursday, November 30, next, as a day for thanksgiving. It is as follows:

"By the President of the United States of America—A Proclamation:

When nearly three centuries ago the first settlers came to the country which has now become so great, they had no means of communication with the outside world, and the law committee of the league is gathering evidence. All the candidates in all the boroughs on the Municipal Ownership ticket were called to an all-night conference on the situation.

PHILADELPHIA, Nov. 8.—Philadelphia has been swept by the reform movement, the city party ticket winning by a surprisingly large majority.

While returns from only six of the forty-two wards in the city are counted, to date, enough is gathered to make the result in the remaining wards to indicate the defeat of the local Republican ticket by from 60,000 to 75,000 plurality.

The victory of the city party carries with it the election of Wm. H. Berry, the Democratic and reform candidate for state treasurer.

COLUMBUS, Ohio, Nov. 8.—Ohio voters yesterday elected a governor and various state officers, though at this hour, 1:30 a. m., it is impossible to give a positive statement of the winners.

Only 440 of the over 4,300 precincts in the state have been heard from, giving Harriet 53,059 and Pattison 54,433.

In the big cities the democratic gains thus far average 105 per cent, while the gain outside these cities averages only 34 to the precinct. Estimating the remaining precincts at the same ratio, Pattison will be nearly 40,000 votes ahead of the 30,000 republican plurality of last year, with which comparisons are made.

BOATON, Nov. 8.—Gov. Curtis Guild, Jr., of Boston, the Republican candidate was elected governor of Massachusetts, election yesterday, by a plurality of 29,463 over Gen. Charles W. Bartlett of Boston, the Democratic candidate.

DETROIT, Nov. 8.—The proposed constitutional amendment, whose alleged purpose was to disfranchise negro voters, was defeated; Republicans elected the state comptroller and city officials. Political complexion of legislature uncertain.

LINCOLN, Neb., Nov. 8.—Returns from the elections in Nebraska are sufficiently numerous to indicate the election of Charles B. Latson, Republican over William G. Hastings, fusion, as associate justice of the supreme court, by a plurality greater than that given Judge Barnes for the same office, two years ago, which was 9,127.

EX-GOV. AUSTIN DEAD.

Minneapolis, Nov. 8.—Horace N. Austin, governor of Minnesota from 1870-74, died at 12:55 p. m. Monday at St. Barnabas hospital, where he had been the subject of a minor surgical operation. He was born in Boston, Mass., and died in St. Paul on Friday morning. The operation was performed Saturday. Governor Austin came from his home to attend the funeral of L. St. Paul of his former secretary, the late ex-Governor A. E. McGill.

SHOT HIMSELF.

Superior, Wis., Nov. 8.—S. N. Dickinson, one of the best known lawyers of the state, was found dead in his office Saturday afternoon. He had apparently committed suicide while cleaning a rifle.

Although over seventy years of age, the judge was still active in his profession and also a huntsman and angler. He was making preparations for a hunting trip when the accident happened.

CAN'T AGREE.

Mankato, Minn., Nov. 8.—Capt. A. H. Reed, of Glencoe, president of the St. Cloud, Minn., & St. Paul Railway company, was shot and killed by his wife Monday, Nov. 7. Mrs. Reed was arrested and placed in jail. She says her husband was attacking her with a knife.

A VALUABLE GIFT.

NEW YORK, Nov. 8.—Emperor William is sending to the emperor of Japan a present of six black stallions from his own stud farm.

DEATH OF A CENTAURIAN.

BUFFALO, N. Y., Nov. 8.—George, George, probably the oldest resident in the state, is dead at Lancaster, in the age of 108. His husband served in the war of 1812.

THE RESULTS OF THE BALLOTS

GEO. B. McCLELLAN REELECTED MAYOR OF NEW YORK BY SMALL MAJORITY.

THE Reform ticket wins in Philadelphia by a surprisingly large majority. Indications are that Ohio is close.

NEW YORK, Nov. 8.—1:45 a. m.—Returns at this hour are complete in Greater New York in the presidential contest with the exception of 15 election districts scattered through the city. The vote on these returns gives McClellan, dem., 221,415; Hearst, municipal ownership, 217,637; Irvin, rep., 182,317, a plurality for McClellan of 3,182.

William T. Jerome, independent in Brooklyn, won his seat as district attorney in Brooklyn, independent in Brooklyn, winning by about 8,000 over James W. Osborne, democrat.

Mr. Jerome's campaign was conducted with especial opposition to Charles F. Murphy, leader of Tammany Hall and his reputed wealth and the result is predictably a defeat for Murphy as his opponent.

Third S. Coler was elected borough president of Brooklyn, on municipal ownership ticket and Hearst carried through by 15,725 plurality.

Max Ihmen of the Municipal Ownership league defeated the League of Municipalities by 50,000 illegal votes having been cast, the funds have been discovered in all five boroughs, and that the law committee of the league is gathering evidence. All the candidates in all the boroughs on the Municipal Ownership ticket were called to an all-night conference on the situation.

PHILADELPHIA, Nov. 8.—Philadelphia has been swept by the reform movement, the city party ticket winning by a surprisingly large majority.

While returns from only six of the forty-two wards in the city are counted, to date, enough is gathered to make the result in the remaining wards to indicate the defeat of the local Republican ticket by from 60,000 to 75,000 plurality.

The victory of the city party carries with it the election of Wm. H. Berry, the Democratic and reform candidate for state treasurer.

COLUMBUS, Ohio, Nov. 8.—Ohio voters yesterday elected a governor and various state officers, though at this hour, 1:30 a. m., it is impossible to give a positive statement of the winners.

Only 440 of the over 4,300 precincts in the state have been heard from, giving Harriet 53,059 and Pattison 54,433.

In the big cities the democratic gains thus far average 105 per cent, while the gain outside these cities averages only 34 to the precinct. Estimating the remaining precincts at the same ratio, Pattison will be nearly 40,000 votes ahead of the 30,000 republican plurality of last year, with which comparisons are made.

HORRIBLE CRIME TO BE AVENGED

COILS BEING DRAWN TIGHTER
AROUND PERPETRATORS OF
SUIT CASE MURDER.

Arrest of Two Men Who Disposed of
Mutilated Remains of Susanna
Geary—One Makes Confession—A
Boston Physician Also in Custody.

New York, Nov. 2.—Two men are under arrest, police headquarters in this city charged with having been in connection with the suit case murder mystery in Boston. One of the men, William Howard, is said to have confessed that he and his fellow prisoner Louis Crawford, alias Albert H. Emory, were the ones who took the body from a basement crypt and cut off the head and threw the dismembered portions, which were concealed in duffel suit cases and a hand switchet, into Winthrop (Mass.) harbor. Howard denies that he knows anything about the cutting up of the body, while Crawford refused to say a word.

Await Extradition.

New York, Nov. 2.—Lewis Howard and Louis Crawford, the two young men arrested here last week accused of throwing the dismembered body of Susanna Geary into Boston harbor, were arraigned in the police court Monday and remanded to await extradition papers from Boston.

Physician Under Arrest.

Boston, Nov. 4.—Dr. Percy McLeod, of this city, was arrested Friday afternoon on the charge of abortion in connection with the suit case mystery. The arrest was on information furnished by Chief Wats, from New York city. Dr. McLeod is held on the charge that he was the one who dismembered the body of Susanna Geary. A conference between Dr. McLeod and officials lasted until five o'clock. At its conclusion Dr. McLeod was removed to the Tomb and locked up. Capt. Dugan stated that Dr. McLeod had made no confession and was believed to be about 35 years of age and is married. Chief Wats informed the officials here that the confession of Crawford in New York included the specific accusation that Dr. McLeod was the person who dismembered the body of the chorus girl. Immediately upon receipt of this message the physician was arrested.

Hold in Heavy Bail.

Boston, Nov. 6.—Dr. Percy D. McLeod, who was arrested in connection with the death of Susanna Geary, the chorus girl whose dismembered body, minus the head, was found in two suitcases thrown into an anchorage harbor, was arraigned in municipal court and was ordered to furnish bonds in \$10,000 for a further appearance.

Head of Victim Found.

Boston, Nov. 6.—What is confidently believed to be the head of Susanna Geary, the drugged suit case victim, was recovered at a local haberdashery from the bottom of the harbor Sunday. It was changed to the surface very near the point where Lewis W. Crawford and William Howard, who confessed to dismembering the dismembered body of the girl, said they dropped it from the stern of an east Boston ferry boat. The head was found in two suitcases. The trunk was found on September 21 and the limbs were picked up October 27. The head was in state of state of preservation and it is thought by the police that it will be readily recognized as that of Miss Geary.

Identified Head.

Boston, Nov. 7.—The woman's head which was found in a hand switchet at the bottom of the harbor Sunday was identified Monday as that of Susanna Geary, the chorus girl of Cambridge, by the girl's mother.

DECISION FAVORS STATE.

Wisconsin Wins Tax Fight Against Railroads—The Case to BeAppealed.

Madison, Wis., Nov. 6.—The state of Wisconsin will be enriched many thousands of dollars if a decision rendered by Judge S. D. Hastings, of Green Bay, as upheld by the higher courts, in a suit brought by the various railroads against the state, stands. The state added various tax assessments on the ground that the law violated the principle of equal taxation. Judge Hastings ruled that the law is constitutional and the assessment valid. It is estimated that the decision will increase by \$600,000 to \$1,000,000 for the year 1925, compared with the amount assessed under the license fee system. The case will be appealed.

Famous Illinoisan Dead.

Bloomington, Ill., Nov. 7.—A. K. Miller, aged 76, one of the wealthiest men in central Illinois, is dead at his home at Lake De Wert county. He was a man of great wealth, having recently built a ranch to be used by all sorts in turn. He owned real estate valued at over half a million.

Victim of Football.

San Jose, Cal., Nov. 7.—Clemente Vass Poblete, a young student of the Santa Clara high school, died at a local sandbar from the effects of a crushed skull, which injury he received during a football game between the Santa Clara and San Jose high schools.

Traffic Restored.

Berlin, Nov. 7.—The state railway administration, which has been a passenger and freight for St. Peters burg, has lost restored.

THE NEWS IN BRIEF.

For the Week Ending Nov. 7.
Five American missionaries have been murdered at Lienchow, China.

C. W. Sangerman, accused of sending poison gas to his wife and child, was indicted in Chicago.

Robbers wrecked the vault and safe of the Bank of Creighton, at Creighton, Mo., and escaped with \$4,000.

Mistakes for a bear, John McAllister was shot and killed at Maple Ridge, Mich., by William Bridges, his brother-in-law.

A locomotive on the Houston & Texas Central railroad exploded near East Texon, killing two persons and fatally injuring a third.

Sir George Williams, founder of the Young Men's Christian association and president of its London headquarters for 20 years, is dead.

W. O. Chisholm, of Buffalo, N. Y., has sold his 1,200-acre cattle ranch from New York city to San Francisco in 47 days 23 hours and 50 minutes.

Siration D. Brooks, of Boston, Mass., was elected superintendent of the Cleveland, O., public schools. The position pays \$5,000 per year.

President Roosevelt has decided that no action can be taken by this government at present which will be of any benefit to the Jews of Russia.

It is authoritatively announced that the British government has intimated to Great Britain, will shortly be appointed to the rank of ambassador.

Albert H. Darwin, a prisoner at the county jail, charged with the murder of Mrs. Anna Gray, of Joliet, Ill., committed suicide in his cell by hanging.

James W. Alexander, former president of the Equitable Life Assurance Society, is reported to have lost his mind as a result of insurance investigation.

Hon. L. T. Neal died at Chillicothe, Ohio, of acute Bright's disease. He was prominent in state democratic politics, being a candidate for governor at the late state convention.

Seven miners are dead and a number of others are missing as a result of the result of an explosion in one of the Tidewater Coal & Coke company mines of Vivian, W. Va.

At Los Angeles, Cal., Ira Caler, a blacksmith, shot and instantly killed his wife and then shot himself through the forehead and died in the receiving hospital five hours later.

The Myrtle Hotel at El Paso, Texas, was entirely destroyed by fire. Besides the playhouse and a hotel, a number of stores were located in the building. The total loss is over \$100,000.

Columbia University last year received money gifts amounting to \$1,560,000 and had an enrollment of 4,981 students, according to the annual report of President Nicholas Murray Butler.

Peter St. Angelo, an Italian fruit dealer, was found dead in a back room of his store in Holland, Mich., with four bullet holes in his body. His brother Joseph and Tony Martine are under arrest.

Theodore Klinker, night watchman at the Canyon, O., post office, was surprised to learn of taking minor financial losses sent to Justice Day chairman of the McKinley National Memorial association.

Huron college, a Presbyterian institution at Huron, S. D., has received a \$100,000 endowment from Ralph Bates, of New Jersey. Two years ago Bates gave \$20,000 to the erection of a dormitory for girls.

C. V. Van Dusen, appointed by President Roosevelt to look into naturalization frauds, reports that from 15 to 25 per cent. of those admitted to citizenship are not entitled to it, and declare labor conditions are largely responsible.

The whaling steamer William Hoy, carrying 160 men who escaped the grip of the Arctic ice, arrived at San Francisco with over 30,000 pounds of whalebone and the oil from 15 whales. The value of her cargo is estimated at \$150,000.

The contest for the topwheeling steamship of the United States was held at Maule's Square garden, New York. There were 19 contestants. The winner of the first prize of \$100 was Paul Munter, of New York, who wrote 7,000 words in 30 minutes.

PINE COUNTY PIONEER.

ED. C. GOTTRY, Editor and Prop.

Entered in the Post Office at Pine City as
Second Class Matter.

PINE CITY, MINN. Nov. 10, 1905

THANKSGIVING Day falls on the
30th inst.

TURKEYS have a tendency to loose
their heads about this time of the
year.

One republicans are having a
dizzy spell. The old state went
democratic by 40,000.

EDITORIAL manufactured by the
great and only railway legislative
gang is being supplied gratis to the
press.

Bucks, the Mapleton bank default-
er, has received a gentle reminder
that it pays to be honest. He was
sentenced to six years at Stillwater
the other day.

The big bargain sales at the Pine
City Mercantile Co. store have been
successful. Low prices and adver-
tising go hand in hand when it
comes to moving goods.

If the wolves residing about the
Archie Peers farm could only read
the Rush City Post, perhaps they
would wise up and keep a comfort-
able distance from Mr. Peers' sheep-
fold. Who knows?

C. M. Johnson, of Rush City, a
young man of stirring qualifications,
will probably be a candidate for the
senatorship from this district. It
is a safe prediction to say that he
would "make good" if elected.

WOMEN ought to be allowed to
vote." Very modestly remarks Sister
Stone. They might as well.
They do, and do well, everything else
that the sterner sex undertakes.

With the approach of winter it is
well to suggest that horses be prop-
erly blanketed while standing out
in the cold, chilling air. Negligence
of this duty is provided for by the
state laws, and neglectful persons
are liable to arrest.

It is said that Methodist ministers
are underpaid. That may be true,
but we have yet to learn of any
strikes among the sacrosanct ser-
vants. Their work is too good and
their time too limited to ever think
of lucre—except that it be of the
tautened variety.

It is alleged by Bearst and many
of his supporters that McClellan
stole the office to which he has been
re-elected, and the New York may
nearly fight it still hot and dirtier
than ever. Hearst, the New York
newspaper octopus, will ask the su-
preme court to declare McClellan's
election invalid. The successful can-
didate was elected by only a trifle
over 3,000 majority.

Sow people talk gibby about this
being the age of graft, but the fact is
there has been graft through all the
ages in public positions, but the
masses of the people having grown
wiser, graft is not as easily covered
up as it has been in the past. Instead
of this being an age of graft it is an
age of enlightenment and reform and
the searching eyes of the public are
looking everywhere. — Brown's Val-
ley Tribune.

The "U" football team is out of
the running for the championship
this year, Wisconsin turning the
trick last Saturday. Overconfidence
and unfit condition could not well be
named as "bear" stories this year, so
we will rest contented in believing
that Wisconsin has just a trifle the
best football line-up in the west.
Michigan may serve the Badgers a
cuse-ball, but that is doubtful as the
Wolverines have a comparatively
weak team this season.

MAYOR JONES put the lid on at
Minneapolis last Sunday and made
that city go mid-out its schmitz for
one whole day. As a result the St.
Paul noon taverns did an unusually
thriving business. The brew-
ers, who control a large part of the
annual saloons in the four cities, are
very indignant and threaten to car-
ry out the Sunday closing rules to the
extreme. Under such extreme
enforcement street car traffic will
have to be stopped and even "saints"
will not tolerate such an indignity.
And it will make the beer makers
step gallantly, high wide, etc., to
knock out the wicked Sunday news-
papers and what will the fun-loving

folk do if they are deprived of their
afternoon matinees. The brewers
had better take a distant seat in
Minneapolis and let the city govern-
ment attend to municipal affairs.

To Encourage Attendance.

To encourage more punctual and
regular attendance in the Pine City
schools certificates are given out
each month to those who are neither
absent or tardy. The certificates are
furnished by the county through the
office of the county superintendent.

School Lands Sold.

State Auditor Iverson and assessor,
Charles Warner, conducted the
land sale at the court house yester-
day. Four thousand acres of school
land was disposed of at an average
of \$8.00 per acre. The highest price
paid was at \$30.00 per acre and the
lowest was \$6.00. Quite a crowd of
speculators and land seekers were
present and the bidding was lively.

District Convention.

Notice is given that all members
of the Degree of Honor are requested
to be present at the District Con-
vention, which will be held at K. of
P. Hall, Saturday, Nov. 18th, com-
mencing at 3 o'clock p.m. After
the regular evening session a recep-
tion will be given at the Hotel Agnes
to which the members of the A.
O. U. W. and their wives are invited.
The banquet begins at 8:30.

In Quest of Deer.

Several hunting parties left Pine
City this week in quest of deer.
Monday R. C. Saunders departed
for Elly, and Tuesday Root, Blankenship
and Ole Olson made tracks for
the former's camp west of Flin-
layson. Fred Wiley, Ron Derr, of
this place, Warren and Simon Derr,
of Beroun, will search for the covet-
ed meat east of Hinckley. Wednesday
afternoon J. J. Jumper and Fred Aus-
mann departed for the woods west of
Hinckley, to prepare for an early
start. Other parties will hunt east
of this place, while others will wait
for the exit of the "three
mile" rifle. A total of 136 licenses
have been issued to Pine county
deer hunters for this season.

Pain may go by the name of rheu-
matism, neuralgia, lumbago or pleur-
isy. No matter what name the pains
are called, Hollister's Rocky Moun-
tain Tea will drive them away and
keep them away. 35 cents, Tea or
Tablets. L. E. Breckenridge.

When bilious try a dose of Chamber-
lain's Stomach and Liver Tablets and
realize for once how quickly a first-
class up-to-date medicine will correct
the disorder. For sale by L. E. Breckenridge.

A Policeman's Testimony.
J. N. Patterson night policeman of
Nashua, Ia., writes: "Last winter I
had a bad cold on my lungs and tried
at least a half dozen advertised cough
medicines and had treatment from two
physicians before getting any relief.
A friend recommended Foley's Honey
and Tar and two-thirds of a bottle cured me. I consider it the
greatest cough and lung medicine in
the world." L. E. Breckenridge.

Anxious Moments.
Some of the most anxious hours of
any day are those when you are
little ones of the household have the
croup. There is no other medicine so
effective in this terrible malady as
Foley's Honey and Tar. It is a
most valuable for throat and lung
trouble, and as it contains no opiums
or other poisons it can be safely
given. L. E. Breckenridge.

There is no cough medicine so
popular as Foley's Honey and Tar.
It contains no opiums or poisons,
and never fails to cure. L. E. Breckenridge.

Sick headache results from a disor-
dered stomach, and is quickly cured
by Chamberlain's Stomach and Liver
Tablets. For sale by L. E. Breckenridge.

Foley's Honey and Tar always stops
the cough and heals the lungs. Re-
fined substitutes L. E. Breckenridge.

STATE OF MINNESOTA
County of Washington
District Court, First Judicial District.

HAROLD C. FRITZ, Plaintiff,

HERBERT C. FRITZ, Defendant.

Nothing is hereby given that under and by
virtue of an execution to me directed, issued
out of the County of Washington, State of Minnesota,
and delivered to me on the 18th day
of September, 1905, upon the judgment
and decree of the Court of Common Pleas
and General Quarter Sessions of the plaintiff
and against the defendant, Herbert C. Fritz,
I am entitled to receive the sum of \$1,000.00
in cash, and I further entitle myself to the
expenses of suit, including attorney fees
and costs, and to the payment of my
judgment interest thereon, my fees and the
expenses of suit.

Dated at Pine City the 5th day of November
A. D. 1905.

ROBERT WILCOX,
Court Clerk, Judge of Probate.

Nov. 10-1905 Date.

NOTICE.

Nothing is hereby given that sealed bids will
be received in the office of the Village Record-
er, to furnish a new lot of three timber or hem-
lock plank, 16 feet long and less than
one-half inch thick, to be used in the building of
the new bridge across the Pine Creek, Pine
City, Minn., by the 15th day of January, 1906. Bids
will be received by the Village Record-
er, located in the rear of the Village Record-
er, to which right is given to all bidders.

F. E. Smith,
Postmaster.

News of the Week.

Chips Picked up Around Town and Vicinity.

J. J. Falsom is here from Sandstone.

John Schoettler has been ailing the past week.

H. Goff was a business visitor at this place Monday.

Frank Mixa, of Montgomery, visited in this place Wednesday.

A. P. Erickson, of Rock Creek, was a county seat visitor Monday.

H. W. Harte went to St. Paul Wednesday afternoon, on business.

Miss Maggie Henderson and brother Leonard were St. Paul visitors yesterday.

Al. Spearing is again able to be out and about after a severe siege of typhoid fever.

Mass will be read in St. Mary's Catholic church next Sunday morning at nine o'clock.

Messrs Ed St. John and W. F. Mackey, of Stillwater, transacted business in town yesterday.

Miss Muriel Murray entertained a number of her school-girl friends at six o'clock dinner Wednesday.

Rev. Justus Parish, of Deer River, is the guest of his brother, Rev. J. J. Parish. He will return home today.

Mr. and Mrs. Henry Vojta returned to their home in St. Paul Monday after a short visit with relatives in this place and vicinity.

The ladies of the Presbyterian church will serve a twenty-five cent supper at the residence of Charles Laing next Thursday evening.

Mrs. H. W. Harte entertained the members of the Woman's Reading Club Monday evening, at home of her daughter, Mrs. Arthur Eddy, of Duluth.

A dime social will be given by the pupils of the M. E. Sunday school at J. W. Axtell's residence next Friday evening. The proceeds go into the Xmas fund.

Mrs. Arthur Eddy returned to her home in Duluth Wednesday, after an absence of three weeks, two of which were spent in the twin cities, and one with her parents in this place.

Wm. Fisher of Pine City, and Arvid Nelson of Roseau, proved the destruction of two wolves on Monday and Tuesday respectively and received \$7.50 for their good marksmanship.

Several Pine Cityites took advantage of the cut rates to the twin Cities Saturday, among whom were Misses Allie McKusick, Elizabeth Brackett, Messrs. Dr. O. B. Wood, P. W. McAllen and M. B. Hurley.

S. L. Parish, who has charge of the Methodist parishes at North Branch and Harris, visited with relatives in this place Monday. He returned Monday afternoon to resume his studies at Hamline "U."

The fine new Catholic church at Rush City will be dedicated Sunday morning. The dedicatory exercises will commence at 9:30 o'clock, after which Mass will be read at 10:30. Several have signified their intentions of attending from this place.

Mrs. D. Greeley was officially notified Tuesday of her appointment as a member of the Household Economics Committee of the Federation of Women's Clubs, which convened in St. Paul recently. The appointment is for a term of two years.

F. W. Reddish, of Rush City, has come to live with us. He comes well recommended and is competent of doing first-class jobs of painting of all kinds, and guarantees his workmanship. If you have a buggy, furniture or sign job, call and see him.

Word has been received to the effect that a new site will be purchased for a stock yard and the old one, to which we referred (?) a couple of weeks ago, will go glittering. It is not known just when the new yard will be ready, but it is likely that the site to be selected will be south of the McAllen lumber sheds.

A party of twenty young people called at the Gustafson home Saturday evening and delightfully surprised Miss Emma Gustafson on the occasion of her 17th birthday anniversary. The guests were pleasantly entertained throughout the evening and after the serving of refreshments, which occurred about midnight, all departed for their several homes, wishing their fair hostess many returns of the day.

GROENINGEN needs a hotel, and we are willing to provide our store along there, and rent the same for hotel purposes, to suitable tenant, at a low figure.

THE F. KOCH LAB CO., NO. 176 E. 3rd St., St. Paul, Minn.

THE HICKS ALMANAC FOR 1906.

The Rev. Irl R. Hicks Almanac will not be published for 1906, but his monthly journal, "FOR AND AGAINST," will be continued. The magazine is large and costly magazine, and it will contain his storm and weather forecasts and other astronomical features complete. The November number, now ready, contains the forecasts from January to June. The December number, ready December 20th, will contain the forecasts from July to December, 1906. The price of this splendid magazine is ONE DOLLAR A YEAR. See it and you will have it. The November number is to contain his forecasts for the year 1907. His forecasts for the whole year, and more complete than ever, can be had by sending at once 25 cents to WOOD AND WORKS PUBLISHING COMPANY, 2201 Locust Street, St. Louis, Mo.

ANOTHER OF THOSE HIGH-CLASS SIX O'CLOCK DINNERS WILL BE SERVED AT THE HOTEL AGNES SUNDAY.

Quite a number took advantage of the Hotel's courtesies last Sunday and were highly pleased with the service and goodness of the fare. Fifty cents the plate is charged. See menu elsewhere in this issue.

VADEVILLE PERFORMANCES BY BRYANT & SWAIN'S COMPANY.

Rath's hall, Wednesday and last evenings were largely attended. The acts were very entertaining and the crowds were pleased. Tuesday evening the company showed to a "corporal's guard" at Rush City. Tonight and tomorrow they will appear at Mora.

THE AUXILIARY OF RATHBONE SISTERS WILL HAVE A CARD PARTY IN K. OR P. HALL NEXT THURSDAY EVENING, TO WHICH EVERYBODY HAS A CARD INVITATION.

DO NOT WAIT FOR A SPECIAL INVITATION, FOR THERE WILL BE NONE ISSUED.

THE PARTY WAS DECIDED UPON AT A REGULAR MEETING OF THE SISTERS, HELD TUESDAY EVENING.

ALL THOSE WHO DECIDED TO BE PRESENT WILL CONFER A FAVOR BY BEING AT THE HALL AT EIGHT O'CLOCK.

REMEMBER YOU ARE INVITED.

A NUMBER OF PINE CITYITES ATTENDED THE DEDICATION OF THE NEW SCHOOL HOUSE AT ROCK CREEK LAST FRIDAY.

PINE CITY MILL & ELECTRIC CO.

FROM SOUTH AFRICA.

NEW WAY OF USING CHAMBERLAIN'S COUGH REMEDY.

Mr. Arthur Chapman, writing from Durban, South Africa, says:

"As a result of Chamberlain's Cough Remedy is a cure suitable for old and young alike. You will be surprised to know that a mother of mine had a child just two months old. It had a very bad cough and the parents did not know what to do. They heard of Chamberlain's Cough Remedy and put some under the baby dummy test the baby was sucking, let the dummy taste the medicine. This did and brought about a quick relief and cure the latter." This remedy is for sale by L. E. Breckinridge.

THE BEST LINIMENT.

"Chamberlain's Ointment is considered the best liniment on the market." write Post and Illinois, of Georgia. "No other liniment will heal a cut or broken limb quickly. No other affords such quick relief from rheumatic pains. No other is so valuable for the treatment of lame back and pain in the limbs. I have had a number of cases successfully treated with this liniment and become acquainted with its remarkable qualities. It can never be without it. For sale by L. E. Breckinridge."

CASCIA BLOOD AND RHUMATIC CURE.

"It makes no difference whether you are suffering from rheumatism, acute, chronic, nervous or muscular, or any other form of rheumatism, or whether every part of your body is affected. Cascia Blood and Rhumatic Cure will positively give instant relief and effect a permanent cure. It cleans the system of all impurities, purifies the blood and restores the patient's power to health. Sold by L. E. Breckinridge."

When Ordering your CHRISTMAS GOODS do not forget that Susan Shearer is located on the corner just back of the court house, and can supply you with materials for knitting, crocheting, lace, embroidery, and sewing machine supplies; also agent for the Ladies Home Journal. Your patronage and subscriptions solicited.

PINE CITY MILL & ELECTRIC CO.

Pineapple for Consumption. It has long been known by the natives of South America that the juice of the fruit of the ripe pineapple has the power to thoroughly destroy the germs of tertian consumption and la grippe. A preparation known as Syrup of Pineapple Expectorant, prepared by Rea Bros. & Co., contains these essential qualities. It is sold by L. E. Breckinridge for 50 cents.

Respectfully,

L. E. BRECKINRIDGE.

STORIES OF THE FAKIRS

By J. P. JOHNSTON

Author of "Twenty Years of Hustling," "What Happened to Johnson," Etc.

"SEPARATED" FROM THEIR FARMS.

How Two Prosperous Farmers Were Swindled by a Silent Graftor—His Agents Interest in a Patent Clothes Founder—Fake Fakes and Display Boys—Proofs—Victims "Done" to a Finish.

(Copyright, 1895, by Joseph H. Bowes.)

Some years ago while I was staying at a small town in Michigan, a large man traveling with his wife and son, and in his carriage, took quarters at the hotel.

During the several weeks he was there, I never saw him speak a dozen words to anyone, although he was constantly in the hotel office.

He was the quietest cigar, and several of them a day. Should the landlord or any of the guests address him, they would be rewarded by a mere grunt or monosyllable; and his wife was equally reticent. Whether he was a grand duke in disguise, a honest thief, a bank robber, no one was able to guess.

Every afternoon his handsome team and carriage were brought to the hotel entrance, and he and his family would take a long ride into the country.

After the two weeks were over, just a week away, two strapping big men came to see him. Saturday evening and remained until Monday morning. Each carried what they called a "Fal-

er the canvasser would instruct the young man how easy it was to remain in the buggy while he went in and made the canvas.

While standing in the doorway, with order book in hand, talking to the farmer or his wife, he would say, in loud voice: "Well, am I not much obliged to you and I am sure that you will find our washer the finest thing you ever used."

On returning to the buggy he would tell the young man how easy it was to procure that order, and thus they would continue all day, taking orders at every house, scarcely ever missing a house.

In the evening at home the young man would have a great deal to say about how the farmers took to the clothes pounder, and what a money-making business it was. The canvasser would take pains to explain that each pound sold for five dollars, though it cost only 35 cents manufactured in quantities.

Finally, the canvasser in the west part of the country, happened one night up to mention that his firm had another agent in the east part with whom he was stopping with.

"Indeed!" said the farmer, "that man is my brother-in-law, his wife, and my wife both like him."

The following Saturday evening the canvasser announced to his farmer that he was going to the county seat to report to his employer, and would return Monday morning.

Knowing that the young man was met at the door of their wives' parents nearly every Sunday, the canvassers immediately advertised a public auction of all their farm implements, stock, etc., and announced that they would move next town, and at once begin operations.

This plan they carried out, after which they themselves started out to sell clothes pounders, as an experiment, before hiring agents.

The idea was to begin where the grifters had left off and they took along the boys who had driven for the canvassers.

They discovered from the start that when they offered their simple, foolish-looking pieces of wood, with a few holes bored in it, for five dollars, the customers were so taken with the honest host at them. It took less than two days to convince them that they had been literally swindled out of their farms and cash.

On the evening of the second day out they met by appointment with an unconcerned way, at his own residence, in the same room, the agent who owned the state of Ohio in the patient and who would give them all necessary information.

The fact that the farmers had become interested, gave the canvassers

the two brothers-in-law, were ripe for a trade. They were anxious to get into partnership and secure the patent rights for the sale of their invention.

It was arranged that they should meet the grifter waiter at the hotel, and then be bargained with them to let them have the entire state for \$24,000, having figured it out to their entire satisfaction, how they could have their money all back, and more inside of a year, if they would only adopt plans which he laid out to them.

He would take their farms, at \$100 per acre, to close the deal; the one who owned the farm of 120 acres would pay his half with his farm, whereas the one who owned but 100 acres would be obliged to pay his half in cash, and then give his individual note. This old grifter coolly refused. Determined to make the deal, however, the farmer arranged for the cash, through his wife's father, who mortgaged his farm.

These farmers, instead of their purchases, and especially under the influence of all their neighbors and friends envied them their good luck, immediately advertised a public auction of all their farm implements, stock, etc., and announced that they would move next town, and at once begin operations.

This plan they carried out, after which they themselves started out to sell clothes pounders, as an experiment, before hiring agents.

The idea was to begin where the grifters had left off and they took along the boys who had driven for the canvassers.

The law same that applies elsewhere is equally as true in the installation of a water system for the convenient handling of water, both for human and live stock needs on the farm. Ocean Liners and other vessels which have the pipes and gotten into the water, are ready to have things convenient for supplying water to his farm stock and yet he has located a tank out in the open so that it would freeze during the cold weather, and get into a bad state.

This same tank during the summer without protection from the hot sun supplies drinking water to the stock in the most unacceptable condition on account of being constantly exposed to high temperature.

Water can be obtained in the most injurious and unquestionable way, the immediate cause of considerable sickness. A tank exposed in this way not only affected by the high and low temperature, but worse still to the large amount of filth always more or less abundant about many tanks.

These are some different styles of tank shelters in use here and there on

LIVE STOCK

UNCLE SAM—"A Remedy That Has Such Endorsements Should Be to Every Home."

PRACTICAL TANK HOUSE.

The Protection of the Drinking Water for the Stock in Summer and Winter.

Some farmers strive to have as less of everything. We all could if we but think so and put enough of the right kind of effort into our work. There is a whole lot in having a strong, healthy determination not to let any small ones purposes be accomplished. We frequently observe farmers who are getting a good start, and evidently making good headway, who all at once become discouraged and give up and are ready to try something else, thinking they can do better. These people should consider how much more serious than the never failing will be the result of their hold before the hardest battle is won. It has always been our experience in farm work that if things were worth doing at all they were well worth a good hard effort, for generally it is the best.

The same law that applies elsewhere is equally as true in the installation of a water system for the convenient handling of water, both for human and live stock needs on the farm. Ocean Liners and other vessels which have the pipes and gotten into the water, are ready to have things convenient for supplying water to his farm stock and yet he has located a tank out in the open so that it would freeze during the cold weather, and get into a bad state.

UNCLE SAM—"A Remedy That Has Such Endorsements Should Be to Every Home."

Uncle Sam is a very good name for a remedy.

Agent—I will just leave the prospectus,

and when you read through carefully,

you will see that you cannot possibly

do without our company, if you

want to make sure of the future of your

business.

Mrs. Arkett brought some butter

in a pound tins to examine, and

she said, "I think it's a good product."

Business Man—What's your specialty?

"We insure you against loss of weight,

loss of appetite, and constipation."

CONSTITUTION AND STOMACH TROUBLE CAN BE CURED

J. S. Janssen, President of the Milwaukee Retail Druggists' Association, Talks on the Dangers of

Constipation and Stomach Troubles.

Have you noticed the large number of cases of typhoid fever lately?" said Mr. J. S. Janssen.

"To me typhoid fever, mumps, measles, fevers, appendicitis and many hundred complaints are the result of the lack of knowledge and care in the preparation of food to run along without proper treatment.

IF YOU ARE A WOMAN

What Mrs. Ford Says Concerning Dr. Williams' Pink Pills

"I wish I could tell all other women get rid of all my physical troubles as easily as I have succeeded in getting rid of mine," said Miss B. B. Ford, of Bushmaster, Miss., recently. "You know," she continued, "that a woman's health must be steady on the mind, if it is to keep just one function. If she fails to keep that properly regulated she has no end of physical misery. I suffered from that one cause for two whole years during which time I was not able to eat all the time. I tried medicines enough to cure any illness, but nothing gave me the slightest comfort. I learned about Dr. Williams' Pink Pills for Pale People. They cured me. Why, I was suffering all the time practically from sickness of the stomach, diarrhoea, constipation, etc., with pain in my head. Now I am entirely free from those symptoms of that sort. I am not only able to keep on my feet, but to do my work and still have energy for the many calls that come through the possession of good health."

"Within three weeks after beginning the use of Dr. Williams' Pink Pills I experienced such relief that they must be adapted to the needs of my case. After using them for a short while I recovered well and the reason why is simply that I took all Dr. Williams' Pink Pills for Pale People. They cured me. Why, I was suffering all the time practically from sickness of the stomach, diarrhoea, constipation, etc., with pain in my head. Now I am entirely free from those symptoms of that sort. I am not only able to keep on my feet, but to do my work and still have energy for the many calls that come through the possession of good health."

"These pills make strong action regular, removes gas, create appetite, promote digestion, put color in the complexion, build up strength and health. Every woman can afford to buy the Dr. Williams' Medicine Company, Schenectady, N. Y., for a valuable booklet, entitled 'Pink Pills for Women,' which will be mailed free in sealed envelope to the address of any applicant. Dr. Williams' Pink Pills are sold by all druggists."

BITS ABOUT MUSICIANS.

Caruso, the celebrated Italian tenor, is the son of a Naples engineer. Dr. Joachim, one of the most famous of violinists, recently celebrated his seventy-fourth birthday in London. He absolutely refuses to write his memoirs.

Paganini's violin rests in the old town hall of Genoa. It lies upon satin in a glass case, and has never been played upon since by Sivori, and probably by Hauermann.

Leonardo de Vinci not only put the violin into the hands of his harpsichord, but he himself played upon a unique violin at the age of which was a centaur's head.

Mme. Galschi sang the three Brandisilles in an opera festival recently in Munich with such effect that Prince Regent Luitpold bestowed upon her King Ludwig's Order of Art and Science.

Sarasate, the great Spanish violinist, has a model in the shape of a silver violin.

It is his belief that he could not play in public without this charm, but he has never dared to put this superstition to the test.

Tamagno, the great Italian tenor, who died recently, was noted at one time for his remarkable voice, but when he returned to Naro, Italy, he changed. He built a villa which for artistic beauty had few equals anywhere, and entertained lavishly. He finally gave the villa to his only daughter as a wedding present.

The fact that Mr. J. J. Bryan, made public his desire to break the eminent composer of church music, has exasperated himself, and will pass the remainder of his life in Munich. Mr. Bryan sailed for Europe several weeks ago, but it was not then disclosed that he intended to remain abroad. Bryan was disengaged, but it seems extraordinary that, at his age, he was born in Hartford, Conn., March 10, 1839, he should thus abandon his native country.

OLD FASHIONED FARE.

Hut Biscuits, Griddle-Cakes, Pies and Puddings.

The food that makes the fathers strong sometimes unfit for the children under the new conditions that our changing civilization is constantly bringing in. One of Mr. Bryan's neighbors in the great state of Nebraska writes:

"I was raised in the south, where hot biscuits, griddle-cakes, pies and puddings are eaten every day; and when I located in Nebraska I found myself a sufferer from indigestion and its attendant illnesses and pains after meals, an almost constant headache, dull, heavy sleepiness by day and sleeplessness at night, loss of flesh, impaired memory, etc., etc."

"I was rapidly becoming incapacitated for business, when a valued friend suggested a change in my diet, the abandonment of heavy, rich stuff and the use of Grape-Nuts food. I followed the good advice and shall always be thankful that I did. I owe my recovery to the experience of others, the beneficial effects of the change were apparent in my case almost immediately. My stomach, which had rejected other food for so long, took to Grape-Nuts most kindly; in a day or two my headache was gone, I began to sleep healthfully and better, and as the days passed on I found that my last weight was coming back. My memory was restored with the renewed vigor that I felt in body and mind. For three years now Grape-Nuts food has kept me in prime condition, and I propose it shall for the rest of my days."

"And by the way, my 24-year-old baby is fond of Grape-Nuts as I am, always insists on having it. It keeps her as healthy and hearty as they make them." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Read the little book "The Road to Wellville" in plug.

AN ITALIAN EMBROIDERY.

Full Directions for Doing This Very Pretty But at Same Time Simple Work.

This embroidery, which hints of Italy, is very easy, effective, and applicable to all kinds of articles. It can be done on serge, Roman satin, art linen, or brown holland. As will be seen by our illustration, the idea is that of repeated squares placed on end, with a central space in which some

out the needle and then sew the gold down with one of the colors used in the embroidery for the flowers or framework.

Any kind of variety can be had in the open spaces for the flowers, and you like what you do you can have a different flower in every square.

For a tablecloth border these can be repeated all the way round, and for curtains, etc., this design is very useful.

For small articles, sachets, etc., you can reduce the scale of the design and do it quite small with excellent effect. An entire sachet can be covered with this design repeated in silk with small flowers in the empty spaces within the frames and between the squares.

This Italian embroidery can be done in silk as well as cotton, and you use Roman or other needles and the foundation of the fabric necessary to suit your taste.

For embroidery with silk or gold thread you will want to—Dear, dear me! Fish in my lake, and didn't know it! I think I must order both parties to prepare beds to-night!

"Fish? Fish? But where would you fish?"

"In the lake, of course."

"But there are no fish in the lake, are there?"

"It is accounted the best lake for fishing in the whole state. Haven't you found out about it yet? I never heard that there was any fish in these waters. It's a thing I might look into, and if you want to, I'll tell you all about it. Dear, dear me!"

Fish in my lake, and didn't know it!

On serge tapestry, or crewel, work can be used; but if that is done the flowers should be worked in silk, as to lighten it a little.

Any amount of color can be had in using the same design. In covering a large surface with these squares you can arrange them in rows point to point with spaces necessarily left between, or you can rule the spaces with bars just the same as the first row, and then get a pretty effect with a good design. In each piece of work there will be some space left for each framework in a different color. Cushion-covers, bedspreads, couplets, table-covers, etc., can be done in this embroidery.

Embroidery, which can be worked in sections, to be ultimately joined together, is very convenient, as it can be easily carried about, and taken up again.

All the embroidery of the flowers and leaves is done in the twisted or broderie anglaise style, and the same in the outer lines in the stout quilt.

All the leaves and stems are green, two or three shades being used, though never more than one in any one leaf or flower, the latter being light yellow with a darker French knot in the center.

The framework is done in five shades of stout blue Perle-lust cotton. The number of bars permits of four rows of each shade, beginning from the lightest at the top. All the shades are used consecutively, and I have said that four bars of each, excepting the darkest shade, there being only one for three bars in that one.

The sides of the inverted square are five inches, the framework being one inch and half at its widest part. The inner space is three inches square. This is one half an inch wide. If you like, you can shorten the distance between the narrowest.

Care must be taken in working to have the outer and inner edge quite clear, with no protruding stiches. In fig. 2 you see how the first or top row is embroidered. Work your stiches side by side in a perpendicular direction, making them so close to

A SECTION READY TRACED FOR WORKING.

flowers are embroidered. Between this central space and the outer line are bars worked closely in satin stitch, done in various shades of one color. The example before us is worked on brown linen, with little flowers and leaves in white, and a central floral motif in a gold color.

Every worker is in outline stitch,

the leaves in slanting stitch, the leaves in straight across satin stitch with a French knot in the middle.

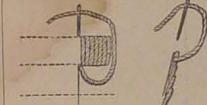

All this embroidery of the flowers and leaves is done in the twisted or broderie anglaise style, and the same in the outer lines in the stout quilt.

All the leaves and stems are green, two or three shades being used, though never more than one in any one leaf or flower, the latter being light yellow with a darker French knot in the center.

The framework is done in five shades of stout blue Perle-lust cotton. The number of bars permits of four rows of each shade, beginning from the lightest at the top. The sides of the inverted square are five inches, the framework being one inch and half at its widest part. The inner space is three inches square. This is one half an inch wide. If you like, you can shorten the distance between the narrowest.

Care must be taken in working to have the outer and inner edge quite clear, with no protruding stiches. In fig. 2 you see how the first or top row is embroidered. Work your stiches side by side in a perpendicular direction, making them so close to

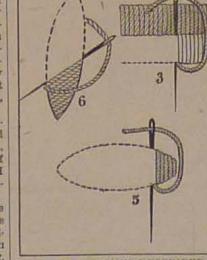

FIGS. 1 AND 4.

gather that no trace of the material is seen between them. Work from the top, downwards, and the next vertical row you see how the next and previous rows have been done. If possible into the very same holes through which the threads for the upper row came out. Do not leave a line between the rows, and if you find it tiresome always to put yourself in the position of the other rows cut out a space in the row you can. There is no difficulty in stitching put between the rows, and if the foundation is seen it is very ugly.

Ovaline stitch used for the stems is seen in fig. 4. This is a stem stitch, and is also known as knot stitch, strength at the bottom, and works up, taking up only a little of the material on your needle, and making your stitches opposite each other.

In fig. 5 the straight satin stitch

seen are used for the leaves. Work

OTHER STITCHES DESCRIBED.

straight across and let your edges be quite clear and even.

In fig. 6 the slanting satin stitch, length of seven.

The French knot seen in the center of the flower is not illustrated, as it is so well known. Bring your needle out where the knot is to be, twist your thread round it two or three times, and holding the twists down with your left hand, and then pull the needle in again to the same place from whence it first came out. A line of gold cord is seen down all round the outer and inner edge. Thread the end of the gold cord into a large-eyed hemstitch needle with sharp point, and push through to the wrong side. Draw

out the needle and then sew the gold down with one of the colors used in the embroidery for the flowers or framework.

Any kind of variety can be had in the open spaces for the flowers, and you like what you do you can have a different flower in every square.

For a tablecloth border these can be repeated all the way round, and for curtains, etc., this design is very useful.

Another Change.

The stock of the Hinckley More Co. has again changed hands.

At the time Noble & Lyman Co. are the purchasers. They intend to keep up the slaughter sale and dispose at once of the stock and are making prices that should do so in a very short time.

Frank Mortenson is the manager of this stock and he and four clerks are kept busy attending to the wants of those who are taking advantage of the opportunity to obtain bargains.—Hinckley Enterprise.

Heralded from Meadow Lawn.

Mrs. M. T. Lahart is visiting in St. Paul this week.

Miss Clarissa Collet was a Meadow Lawn visitor over Sunday.

F. Spencer, of the southern part of the state, is a guest of C. Purdy.

Mr. N. Edridge has returned from Superior, where he has been at work the past season.

Master Tom Nichols has been on the sick list the past few days, but is now able to attend school again.

Eddy's Typesetting Machines.

Sauk Center Herald. The proprietors of the Long Prairie Leader, the Todd County Argus, the Moorhead News, the Alexandria Post News, the Glenwood Gopher-Press and several other prosperous and enterprising papers have put in type-setting machines, and they are putting on more airs than a city girl at a country picnic, and are prouder than a boy with a new pair of red pants.

Don't get stuck up, boys. We have installed two type-setting machines in our office, and for beauty of exterior finish, diversity of accomplishments and general adaptability to country newspapers work your old rattletaps don't come within thirteen thousand nine hundred and forty-one miles of being in the same class. We don't have to use a handspike to move them from one part of the room to another. They require no oil; furnish their own belts; are not run by gas; they can not only set and distribute type, but they can sweep the room, kick if the editor spills on the floor or smokes up. They can flirt with the

devil, chew gum, belong to secret societies, sing dances, and talk a blue streak while their mouths are full of pins. They are worth a million dollars apiece, but we dare say if some nice young men should happen along they could be had for the asking.

Some Local.

Saxon Bede went to Sandstone Monday.

Rev. Koerner went to Aitkin Tuesday to attend devotions.

J. H. Huber was up from North Branch on business this week.

Geo. Parish will return to his ministerial duties today, after a week's sojourn in this city.

Mrs. P. S. Murray was the guest of Mrs. Thos. Gill, of Rock Creek, Friday and Saturday.

Miss Emma Burgy, who teaches school at Willow River, visited with relatives in this place Saturday and Sunday.

J. R. Berkay has been transacting business in this place for the Northwestern Telephone & Telegraph Co. this week.

Miss Delta Sweeney arrived from Minneapolis, where she has been studying dress making. She will reside with her sister, Mrs. J. M. Collins.

The chicken pie supper given by the ladies of the M. E. church at the Gottry residence Wednesday evening was a decided success. \$20.65 was realized.

Arthur Buttrick accompanied his mother to Cloquet Monday, and returned to this place the following day. Mrs. Buttrick, who is quite ill, will make her home with her daughter, Mrs. Wm. Preston this winter.

Chamberlain's Cough Remedy is Pleasant to Take.

The finest quality of granulated tea-sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots used in its preparation give it a flavor which is unique. A small quantity is quite pleasant to take. Mr. W. L. Roderick, of Poolesville, Md., in speaking of this remedy, says: "I have used Chamberlain's Cough Remedy with my children for several years and can truthfully say it is the best preparation of the kind I know of. The children like to take it and it has no injurious effect." For sale by L. E. Breckenridge.

PINE CITY

MERCANTILE COMPANY

General Department Store

VERCOATS of every description, every style and of every material, such as will be worn this season by men who have always dressed well, are accumulating at our store for you. It matters not whether you ever were, or are, or are not our customer—you should

be now and we know it. \$50.00 is not too much to pay for a Crouse & Brandeege hand-made overcoat. The materials are honestly and properly given it. We have these overcoats, and they are designed and tailored properly. A better coat is out of the question. Other styles, same make, are here, with or without belts, made for men who demand particular garments, and for you who wish to be correctly clothed and have money left. We can command your overcoat attention, no matter what's the price you have in mind, whether at \$10.00 or the higher qualities.

Miss Delta Sweeney arrived from Minneapolis, where she has been studying dress making. She will reside with her sister, Mrs. J. M. Collins.

The chicken pie supper given by the ladies of the M. E. church at the Gottry residence Wednesday evening was a decided success. \$20.65 was realized.

Arthur Buttrick accompanied his mother to Cloquet Monday, and returned to this place the following day. Mrs. Buttrick, who is quite ill, will make her home with her daughter, Mrs. Wm. Preston this winter.

Chamberlain's Cough Remedy is Pleasant to Take.

The finest quality of granulated tea-sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots used in its preparation give it a flavor which is unique. A small quantity is quite pleasant to take. Mr. W. L. Roderick, of Poolesville, Md., in speaking of this remedy, says: "I have used Chamberlain's Cough Remedy with my children for several years and can truthfully say it is the best preparation of the kind I know of. The children like to take it and it has no injurious effect." For sale by L. E. Breckenridge.
