SEASONING POLES

Experiments Toward Economy in the Use of a Product Which Must Maintain 300,000 Miles of Lines.

With the life of telephone and telegraph poles at its present limit, the 800,000 miles of existing lines, requiring 32,000,000 poles, must be renewed approximately four times before trees suitable to take their place can grow. A pole lasts in service about twelve years on the average, but is made from a tree about 60 years old. In other words to maintain a continuous supply five times as many trees must be growing in the forest as there are poles in use. The severity of this drain upon forest resources by the telephone and telegraph companies is obvious enough. Just as in the case of railroad ties, the question of pole supply has thrust itself into prominence. To lengthen the life of the poles, and in this way to moderate demand and conserve future supplies, has become an important matter, affecting the public as well as private interests.

Since 1902 the Forest service has been making a thorough study of the preservative treatment of poles and of the value of the seasoning in relation to treatment. In this work its first object has been, as in its studies on cross ties and construction timbers, to make the timber last as long as possible; so as to check the annual demand for renewal and thus lessen, so far as possible the drain upon the forest. Cooperating with telephone and telegraph companies, railroads, lumber companies, and individuals, it has urged forward a series of experiments covering all phases of the problem, from the question of the best season for cutting, through subsequent stages of handling, to the final setting of the pole. Some of the most important results obtained deal with the seasoning process.

Seasoning was studied in the first place to determine the rate at which poles became air dry, that is, lost as much moisture as they will part with through evaporation in the open air. The time of cutting was also carefully considered. Experiment proved that poles cut in winter dry more regularly than those cut at other seasons, and also show a greater loss in moisture at the end of six months' seasoning. The advantages of winter cutting are, therefore, even drying, with a minimum liability to check, and light weight—an obvious advantage for shipment by freight. Spring or summer cutting secures a more rapid loss of moisture at first, owing to the temperature, but only for three or four months. At the end of from six to eight months spring and summer cut poles are found to have dried only three-quarters as much as winter-cut poles. Spring and summer cutting, however, would result in saving in freight and increased durability if the poles are to be shipped and used three to four months after cutting.

The second point to be considered was the degree of shrinkage in circumference during air seasoning. This was found to be very slight, averaging but little over 0.5 per cent at the butt and 0.6 per cent at the top. The rapid shrinking of wood does not begin until the percentage of moisture is reduced lower than is possible in the case of telephone and telegraph poles in out-of-

A BIG MILL.

New McGrath Saw Mill Now in Course of Construction—To be 110 Ft. Long and 36 Ft. in Width.

By the time the ice, in the river and lake, breaks up this spring it is expected that Pine City will be equipped with a saw mill that can handle mammoth logs and rip boards with comparative ease and rapidity. The new saw mill now in course of construction, is the one we have reference to. When completed it will be 110 feet long by 36 feet in width. Within this spacious structure will be installed a huge band-saw, and a lathe and shingle mill. Twelve men are now engaged in erecting the structure, under the supervision of Wm. Organ, and as soon as possible a millwright will commence placing the machinery.

A 150 horse power engine will replace the one used in the Collins mill last year, and should prove of sufficient strength to move every machine and force the saw through the toughest knots.

The new mill is being built upon the site where stood the Collins mill. It will be remembered that Mr. McGrath purchased the Collins mill last year and raised the same in order that a larger and more desirable mill could be built and heavier machinery be installed. Many men will find employment and good wages at the mill and the logging and sawing industry promises much for Pine City this year.

Stricken in St. Paul.

Word was received here late last evening stating that John Saumer had suffered a paralytic stroke at the Union depot in St. Paul. He left Pine City yesterday for a visit with relatives in St. Paul. Mr. Saumer is quite aged, and his condition is very grave. He is the father of Frank Saumer, Jr., who resides about five miles from this place on the Brunswick road.

Ole Olson will be in Pine City tomorrow night. You may see him and his show at Rath's hall. Popular prices.

door season.

The effect of soaking in water upon the rate of seasoning was the third of the problems dealt with. The experiments substantiate the common opinion that poles soaked from two to four weeks subsequently season at a materially increased rate.

Finally it was found that checking in the course of seasoning is not serious when poles have been carefully cut. Rapid-grown timber, however, when so carelessly cut as to leave jagged ends was found to split bodily at the butt and at the top. This is doubtless merely the widening of cracks started when the stick partially broke off instead of being cut clean through.

Just how much thorough seasoning will add to the life of poles can not be told until the actual tests are made in service. The poles upon which the tests are being made have been set in a line where their behavior can be compared with that of unseasoned poles, and will be closely watched. Upon a large number of the seasoned poles a test was also made to show the value of various preservative treatments, which is expected to throw additional light upon the subject of durability of the poles.

Keep the little ones healthy and happy. Their tender, sensitive bodies require gentle, healing medication. Pine City Mountain Tea will keep them strong and well. 35 cents. Tea or tablets. E. E. Breckinridge.

A DOUBLE WEDDING

A Couple of St. Paul Gentlemen Carry off Two of Pine County's Fair Maidens
—The Affair a Pleasant One

Monday morning St. Mary's Catholic church in this place was the scene of a double wedding, whereby two young gentlemen were united for good or ill and until death parts, to two of Pine county's fair daughters.

The young ladies are the two daughters of Mr. and Mrs. Elsner, who reside about nine miles northwest of this place, on the Brookpark road.

At the above named church, at 11 o'clock, F. Koerner pronounced the words that bound together for life Mr. Johnson, of St. Paul, and Miss Tillie Elsner, of Pokegama town, and Mr. Conrad Sixl and Miss Anne Elsner.

The bridesmaids were Miss Josie Buselmeier, of this place, and Miss Tillie Giesdorf, of St. Paul, and the groomsmen were Messrs. Ralph Hunter and Wm. Benjamin, of St. Paul.

After the ceremony the bridal party, accompanied by Mr. and Mrs. A. S. Johnson, of St. Paul, brother and sister-in-law of the first-named bridegroom, repaired to the home of the bride's parents, where a bountiful dinner was served. In the evening a dancing party was held, which the friends and neighbors for miles around attended until the house was filled to its utmost capacity with the merry-makers. Stummie's orchestra furnished the music, and an exceedingly pleasant time was had by those in attendance.

The two Misses Elsner came with their parents to Pokegama town about six years ago, but for the past couple of years have been at work in St. Paul, where they met the men of their choice. They are both excellent young ladies, and have the esteem of a large circle of friends.

Mr. John Johnson, the trusted employee of J. G. Roche, a wholesale and retail liquor dealer of St. Paul, and those that have known him for some time speak of him in the highest terms.

Conrad Sixl is a shoe merchant in the Saintly City, and is well thought of by those who know him. The happy couple departed the middle of the week for St. Paul, where they will make their future home.

The PIONEER joins with the many friends of the contracting parties in wishing them both success and hopes that their lives will always be as happy and joyous as was the first day of their married life.

Revivalist Arrives.

Rev. J. A. Lewis arrived yesterday to begin a series of union evangelistic services in the M. E. church. These services will be held every evening until further notice. Rev. Lewis is one of the evangelists that was associated with the great world recently done in Minneapolis and is pronounced a powerful worker. J. P. Sutter accompanies him and leads in the song services.

Torn Power.

The steam laundry continued operations Wednesday morning after a shut down of ten days. It was found necessary to discontinue work on account of the boiler, which was not large enough to handle the work. A larger and better boiler has been installed, and hereafter no inconvenience will be experienced on account of lack of power.

Nyroca Resurrected.

Frank Luman, who captained the Tuxedo Belle last year, has purchased the Nyroca from A. E. Webber. The boat has been in dry dock for a number of years, but Mr. Luman will put her in good shape and she will ply the waterways of Pine City with as much grace and safety as she did in days of yore.

Keep the little ones healthy and happy. Their tender, sensitive bodies require gentle, healing medication. Pine City Mountain Tea will keep them strong and well. 35 cents. Tea or tablets. E. E. Breckinridge.

AT REST.

Two Families Bereft of Loved Ones by the Angel of Death—Mrs. John Holler and Miss Rebecca Sloan Die.

MRS. JOHN HOLLER.

Last Saturday afternoon at 12:55 Mrs. John Holler passed to the great beyond. The cause of her death was Bright's disease and complications, from which she had suffered for a number of years. Her husband and six children were present during her last fleeting hours and her death was calm and peaceful, and she sank into her last long sleep without a struggle.

Mrs. Lucy Holler was born in Pennsylvania, February 28th, 1860. Six years ago she, together with her family, moved to Meadow Lawn where she made her home up to the time of her death. She was a good Christian woman and was esteemed by all her friends and neighbors.

A husband, four boys and two girls are left to mourn the loss of a loving wife and mother.

The funeral services were held from the Meadow Lawn school house Monday at noon, Rev. J. J. Parish officiating, and the remains were tenderly laid to rest in the Hustle cemetery.

The grim reaper has again visited Pine City, and has called to eternal rest that was mortal of Miss Laura Rebecca Sloan. Her death occurred Monday, Feb. 26th, 1906, and was due to the shock occasioned by an operation for appendicitis.

Miss Sloan was born in Kelmar, Olmsted county, Minn., on the 26th day of Feb. 1877 and was, therefore, twenty-nine years of age on the day of her demise. A mother, four sisters and a brother survive to mourn her loss; they are, Amos W. and Mrs. T. L. Peek, Spokane, Wash.; Mrs. H. O. Orme and Miss Nelle, St. Paul; Mrs. D. A. Payne and mother, Mrs. Laura Sloan, of this place. All but the two first named were present to attend the funeral.

The last sad rites over the deceased was conducted at the family residence Wednesday afternoon. Rev. F. H. Fetham, assisted by Rev. J. J. Parish, officiated. Many beautiful floral offerings decked the casket, and a large number of friends were present to pay their last respects to the departed. The remains were interred in Birchwood cemetery.

Post Rushlets.

Rush City Post—Cards of invitation have been issued by Mr. and John Bier to the marriage of their daughter, Mary Theresa, to Mr. Elmer Albert Erickson, which will take place at the church of the Sacred Heart on Tuesday morning, Feb. 27, 1906. * * * Suggestions of the balm of southern skin comes to us in a brief message on a souvenir card from Mr. and Mrs. Fred A. Hodge, of Pine City, who recently arrived at Daytona, Florida. The card bears a glimpse of Palmetto Row, where these graceful trees grow in profusion on South Beach street, of that city. * * * Frank and August Froelke, Gust Ericson, Mike Rumpf, Wm. Dahlrose, Thos. McGuire, Matt Lalond, T. H. Sonnen, John McLaughlin and J. J. Kinney attended the institution of an Aeris of Eagles at Pine City Monday, and became full fledged members of the order. They report a fine time feasting on "bouillon de polet" and other fine things which eagles eat."

Branching Out.

C. H. Westeman, who recently purchased the McAllen lumber yard in this place, is branching out and has purchased the Hobson lumber interests at Hinckley. He now has yards in three places, counting the one at North Branch. All he has to do now is to make things convenient and complete is to move to Pine City, from which point he could be in close touch with all of his yards.

PINE CITY, MINN.

The municipality of Pine has trained dogs to draw a cord, with a bush fixed to the end of it, through the small sewers of the city, and to clean them.

Queen Margherita, of Italy, has an Alpine garden which gets above sea level, which is said to be the highest garden in the world, but the most perfect of kind.

Some time ago a brown bear in Bronx zoological park, New York, was suffering from toothache. It took the combined strength of four men to pull the molar, after which the bear's former amability returned.

In the Wisconsin zinc field there are 13 magnetic separation plants in operation, and it is said that this use of electro-magnetism is greatly increasing the yield of zinc in that district.

Our trade in Spain is at a low ebb, but is on account of the Spanish tariff. There are a few American articles that sell there better than those from other countries. These are typewriters, watches, cotton goods and silk.

Sergio Gómez, River of the United States, wears a decoration bestowed by the king of Spain for services rendered to officers and men of the Santa Maria, a Spanish warship, on the occasion of a fatal explosion on that ship.

Queen Maude, of Norway, will need little tuition in the speech of her new realm, for she took to the Danish language with instinctive ease during her girlhood. She still speaks both of the two languages, both in vocabulary and pronunciation, are principally dialectic.

The total indebtedness of the United States on November 1, 1905, was \$1,284,651,423; France, 1902, \$5,856,706,103; German states, \$2,687,621,900; Italy, 1902, \$2,560,605,000; Russia, 1902, \$3,414,651,734; Spain, \$2,061,322; Austria-Hungary, \$107,454,025.

Consul Goldsmith reports that there is an excellent opportunity in Nantes and other cities in France for the sale of American office and house furniture, pianos, and other household articles in French. Furniture is high because it is all hand-made, and the styles are old and uncomfortable.

The natives of the Malay peninsula have in their hands the smallest current coin in the world. It is a sort of wafer, made from the resinous juice of a tree, and is worth about one twenty-thousandth of a cent. The smallest metal coin in circulation at the present day is the Portuguese centavo, which is worth six one-hundredths of a cent.

Gov. Curtis Guild of Massachusetts, in his annual address, recommended the adoption of a uniform speed law for all vehicles, and Gov. Stokes, of New Jersey, said in his message to the legislature that vehicles of all kinds using the public highways should be required to carry lights for the protection of themselves and the public.

Germany, with its 65,000,000 inhabitants, is the most populous country in Europe, except Russia, and its people are far more intelligent and far more effective as producers than any other nation in Europe. Its rank in England among the European powers in the extent of its industries, and in some lines of activity it surpasses England. It is one of the most progressive of the world's nations, and has sent to the United States an ambassador from its foremost states.

One of the oddest gifts that Miss Alice Roosevelt received came from an admirer of her nature in Boston. It is a two-and-a-half rattlesnake, which measures close to 12 inches, and at present weighs 15 pounds. The gift is a province of Massachusetts, having been captured at the Blue Hill reservoir nearly one year ago. O. T. Foster, a Boston streetcar driver, who has spent the most of his life catching snakes for the profit coming from their skin, fat, oil, poison, etc., which are in constant demand in the various cities of this state.

Mr. Thomas Hammans, the American consul-general at Newchang, Massachusetts, recently visited Port Arthur, and while there made an extraordinary discovery, that with Janus' own military genius and hero, Marshal Yuan. In the course of their conversation the marshal stated that he was going back to his "farm." "The emperor," he said, "called me from the farm to enter the field, and now I have no desire to return to the farm to do so, as I am through with soldiering. I shall return to the farm."

One of the severest hydrostatic disasters of New York, Mr. Farrington, made a few days ago the extraordinary statement that the waste of aqueous water in the city is great and that it is possible to prevent this waste without increasing the cost of water, increase the reservoirs and the water supply for many years. In other words, the city is able to commit itself to an indefinite period of saving water, which would be a wise investment for the future.

HOPE COAL STRIKE MAY BE AVERTED

PRESIDENT ROOSEVELT URGES
MAKING OF ANOTHER EF-
FORT AT SETTLEMENT.

Sends Letter to John Mitchell—As a result National Convention of United Mine Workers Is Called for March 15.

New York, Feb. 27.—President Roosevelt has again intervened as a peacemaker between the coal miners and operators, and as the result of a letter addressed by him to John Mitchell, president of the United Mine Workers of America, a national convention of the United Miners will be held at Indianapolis March 15 to try to reach an agreement with the soft coal operators, in the hope of averting the threatened strike of April 1 in the bluing coal fields.

The president's letter to Mr. Mitchell follows:

"White House, Washington, D. C., Feb. 24.—Sir: I note with very great concern the failure of your late convention to reach a general agreement, and come to a basis of settlement of the tumultuous mining scale of wages. You in this business have enjoyed a great industrial peace for many years, thanks to the joint trade agreement that has resulted in the action of your successive presidents.

A strike such as is threatened on April 1 is a menace to the peace and general welfare of the country. I urge you to make a further effort to avoid such a calamity.

"You and Mr. Robbins are joint chairmen of the trade agreement committee, and it seems to me that this imposes additional duty upon both you and gives an additional reason why each of you should join in making a further effort. Very respectfully,

"THEODORE ROOSEVELT."

Mr. Mitchell would like to know what the miners' signature is attached to his statement that the operators at Monday's conference agreed that the convention should be called. Concessions, maybe on both sides, will be offered, and President Roosevelt's interest in the situation will be held as an additional reason for bringing about a new agreement.

PERISH BY FIRE.

Three Lives Lost in Burning of a Military Academy at Gambier, O.

Gambier, O., Feb. 26.—Three dead and nine severely injured, and several others were or less hurt as a result of a fire which devoured Mihel Hall, Kenyon military academy, Delano and North halls and North an early Saturday. The fire broke out at four a. m., while the students and college authorities were sleeping, and quickly spread through the buildings, none of which were consumed.

The charred bodies of Cadets Wm. H. Scott, Kunkle of Abashala, O.; J. E. Henderson, of Ridge Farm, Ill., and James J. Fuller, of Warren, O., were found in the rooms of Delano Hall, Gambier.

There is no satisfactory explanation as to what caused the fire. Some opine that oily rags may have caused spontaneous combustion. The floors of the buildings were oiled, and it is believed that the oil was rapidly heated by the intense heat of the fire.

The property loss by the destruction of the buildings is estimated at \$100,000.

Quint Missouri.

Jefferson City, Mo., Feb. 27.—Four insurance companies notified W. D. Vandiver, the Missouri insurance commissioner, Monday that they would withdraw from the state March 1, unless their premium rates were reduced. The companies are the Bankers Life company of New York, the Mutual Reserve Life company of New York, the Comptopolitan Life company of Freeport, Ill., and the Northwestern National Life company of Minneapolis.

King Edward Lamed for Life.

London, Feb. 26.—King Edward will walk again within three days, a game of chess with his full white shorts in Windsor forest last November broke a tendon Achilles, the great cord which connects the heel with the calf of the leg. This is stated on indubitable authority. It was announced at first that the king had sprained his ankle.

Three Drowned.

Spring Valley, Ill., Feb. 26.—Blaine Whetstone, a mail carrier, and Perry McNeipin, a grain buyer, both of Hennepin, Ill., and William Bentley, a Chicago boy, drowned while crossing the Illinois river in a small rowboat from Bourne to Hennepin.

Both Are Dead.

Springfield, Ill., Feb. 26.—Mrs. Flossie Thompson, 30, Sunday from her home, was infected Saturday by her husband, William Montsteller, who killed himself immediately after killing his wife. Jessey was the cause of the trouble.

Business Section Burned.

Dawson, Wis., Feb. 23.—The business section of this village was almost completely destroyed by fire early Thursday morning. Loss, \$79,600.

A FENCE ROUND THE MOON.

A Possible Solution of Mr. Rocketel's Mysterious Disappearance.

DEATH COMES TO IOWA STATESMAN

COL. HENDERSON, EX-SPEAKER
OF HOUSE OF REPRESENTA-
TIVES PASSES AWAY.

Victim to Attack of Paresis from
Which He Had Suffered for Nine
Months—Had Served Twenty
Years in Congress.

Dubuque, Ia., Feb. 26.—Former Speaker David B. Henderson, of the national house of representatives, died at two o'clock Sunday afternoon.

Mr. Henderson would have been what the miners' signature is attached before his death, but significance is attached to his statement that the operators at Monday's conference agreed that the convention should be called. Concessions, maybe on both sides, will be offered, and President Roosevelt's interest in the situation will be held as an additional reason for bringing about a new agreement.

PERISH BY FIRE.

Three Lives Lost in Burning of a Military Academy at Gambier, O.

PERISH BY FIRE.

Three Lives Lost in Burning of a Military Academy at Gambier, O.

Gambier, O., Feb. 26.—Three dead and nine severely injured, and several others were or less hurt as a result of a fire which devoured Mihel Hall, Kenyon military academy, Delano and North halls and North an early Saturday. The fire broke out at four a. m., while the students and college authorities were sleeping, and quickly spread through the buildings, none of which were consumed.

The charred bodies of Cadets Wm. H. Scott, Kunkle of Abashala, O.; J. E. Henderson, of Ridge Farm, Ill., and James J. Fuller, of Warren, O., were found in the rooms of Delano Hall, Gambier.

There is no satisfactory explanation as to what caused the fire. Some opine that oily rags may have caused spontaneous combustion. The floors of the buildings were oiled, and it is believed that the oil was rapidly heated by the intense heat of the fire.

The funeral will be held on Thursday, with services in the Epiphany church, under the auspices of the commandant.

Former Speaker David B. Henderson, of the national house of representatives, died at two o'clock Sunday afternoon.

Mr. Henderson would have been what the miners' signature is attached before his death, but significance is attached to his statement that the operators at Monday's conference agreed that the convention should be called. Concessions, maybe on both sides, will be offered, and President Roosevelt's interest in the situation will be held as an additional reason for bringing about a new agreement.

News of the Week.

Chips Picked up Around Town and Vicinity.

Ave Swanson was here from St. Paul Monday.

Chas Swanson was down from Hinckley Wednesday.

Editor Warren, of Hinckley, was here on business Tuesday.

Mr. and Mrs. Fred Priem were here from Royalton Tuesday.

Chas. Schmidt, of Hinckley, was a county seat visitor Wednesday.

Agnes Peterson was a twin city visitor the latter part of last week.

A big masquerade ball is billed to occur at Rock Creek tomorrow (Saturday) night.

Henry Stutts, of Greeley, was a pleasant caller at this office while in town Tuesday.

Misses Clara and Alma Gustafson returned from a week's vacation in Cloquet Tuesday.

Mr. and Mrs. Herman Hahn and son, Herman, were county seat callers from Cornell Wednesday.

Mrs. Robert Derr was successfully operated upon for appendicitis this week, and is getting along nicely.

Mr. and Mrs. M. A. Soderbeck are the parents of a brand-new little lady. The family addition arrived Friday last.

Miss Bessie and Ed. Copilovich, of Hinckley, visited with friends and attended the dance at this place Monday evening.

Hugh Alquie, Joe Parent, Alec Tate and Jas. Carroon were among those from Rock Creek who visited at the county seat Tuesday.

Come one, come all—to the basket social Friday evening, March 9th, in Robinson school house. Ladies are requested to bring baskets.

It is rumored that A. E. Webber and family will return to Pine City to reside. The latch string always hangs on the outside for him and his.

Royal Hunt and Wm. Rice arrived home Saturday morning to visit for a few days. They are employed by Wm. O'Brien as timber estimators in St. Louis county.

Stuart B. Wells is again able to be out and around after a very serious seige of typhoid fever. It is hoped that his former good health will return quickly.

Mr. and Mrs. J. D. Vaughan returned Sunday afternoon from an it to St. Paul, where Mrs. Vaughan was a delegate to the Grand Lodge of the Degree of Honor.

Several Rush Cityites attended the Club dash at Hotel Agnes Monday night, as follows: Misses Porter and Partridge, Messrs. Roy Carlson and Royal Markham.

Miss Anna Kick, clerk in Register Wandel's office, is home this week on account of the illness of her father. He is now out of danger, and is getting along as nicely as can be expected.

Albert Bode, editor of the North Branch Review, paid the Pioneer a pleasant fraternal call last Saturday. He, his wife and child arrived here Saturday to visit with Mrs. J. Adam Bode and family.

Miss Tillie Paulson, who resides with her sister, Mrs. P. Olson, six miles southeast of Pine City, departed on Wednesday's noon train for St. Paul to consult a physician, she having been ill for the past year.

The business at the Pine City creamery is on the increase, and more milk is being received now than before. Buttermaker Colin expects a rush season during the coming warm months and he is preparing to handle the business in a satisfactory manner.

Last Friday morning Judge Pomeroy sentenced L. W. Heath and A. D. Heath to jail for a term of forty days. They were accused of stealing two trip tickets out of the depot at Finlayson. A fine of \$25 and costs for each, or the alternative of 40 days was imposed. They were shy the \$25.

Mrs. A. Pennington was hostess of a very pleasant party for the Woman's Reading Club at her home Tuesday evening, the occasion being in honor of her birthday. Musical numbers were rendered by several of the local enterprisers, and Miss Bigler gave two interesting readings. Dainty refreshments were served, and the social hour passed away only too quickly.

Lee Webster was here from Hinckley Wednesday.

Chas. Petronek, of Beroun, spent Wednesday in this place.

Ed Zeugler, of St. Paul, spent Sunday with friends in this place.

Frank Kryzer and wife, of Beroun, were Pine City callers Wednesday.

E. C. Ellison made this office a pleasant call while here from Ellison Wednesday.

Miss Anna Tierney left on Monday for a visit with her sister at Minneapolis.

G. H. White, of Fargo, spent Saturday and Sunday among friends in this village.

R. E. Welty made his regular monthly call at this place Monday and Tuesday.

Jas. O'Brien was here from Stillwater Saturday in the interest of the Atwood Lumber Co.

Mrs. Peter Holm and baby were both quite sick the past week, but are now convalescent.

Mrs. Jos. Pestelich and son leave tomorrow for Grasston to spend a two weeks' visit with relatives and friends.

Lenten services will be held in the German Lutheran church Wednesday March 7th, at 7:30 p. m. G. Huebener, pastor.

Mesrs. Kellogg, Fingle Anderson and "Butch" Steinmark represented Sandstone at the club dash at the Hotel Agnes Monday night.

Miss Elizabeth Brackett began her duties in the office of the clerk of court Monday, filling the vacancy caused by the resignation of Miss Carrie Kubicek.

A dance was given at Ed. Swanson's place in Rock Creek last Saturday night. Martin and Enos furnished the music and all in attendance had a fine time.

J. A. Stenson was here Tuesday from his fine farm on the Grindstone river in Grindstone. He paid his respects to the county treasurer, to whom he also paid his taxes.

Mrs. H. M. Tuelle departed for Annsdale Tuesday afternoon. During her few months stay she has made many close friends who regret her departure from here.

Charles Curson and daughter, Judge Connors, Mr. Gray and Sam Sutliffe came down from Hinckley Saturday to attend revival services which were held in the Presbyterian church.

Mrs. H. M. Tuelle departed for Annsdale Tuesday afternoon. During her few months stay she has made many close friends who regret her departure from here.

Charles Curson and daughter, Judge Connors, Mr. Gray and Sam Sutliffe came down from Hinckley Saturday to attend revival services which were held in the Presbyterian church.

Mrs. Carrie Kubicek departed Sunday evening for Cresco, Iowa, at which place she has secured a good position. Miss Kubicek has been deputy clerk of court for the past three years.

Those from here who attended the dance at Beroun Monday evening were, Misses Alice and Minnie Borda, Frank Sebesta, Frank Radus and Jos. Korbel. A very pleasant time was reported.

The "farewell" dance by the Pine City dancing club Monday evening at the Hotel Agnes was largely attended and was a most enjoyable social event. Hilary's orchestra was present and discoursed some highly satisfactory music. A number from abroad attended.

Mrs. Alice Wyman and infant daughter left for Chippewa Falls, Wis., Tuesday. She will visit with her parents in that place for a month or six weeks, and in the meantime Alice will be the household chef and dish up delicacies known only to bachelors.

We were all pleased to see James Hurley about the main thoroughfare this week. He came down town Friday for the first time since the injury to his ankle, and, although he is forced to use crutches, the change from being cooped up indoors is a great relief.

Eric Colin returned Sunday morning from Chicago, where he attended the National Buttermakers convention. He entered a tub butter and secured the excellent score of 93 points. The highest score was gained by Carlson, of Rush City. The score was 97 points and the butter was manufactured

by Eric Wahlstrom, of the Royal Creamery Co., of Greeley.

Pearl Chaffee is down from Farley this week.

Don't fail to see the "Ole Olson" show at Rath's Hall tomorrow night.

Jerry Connor arrived home from Seavey's camp at Independence yesterday.

C. C. Ives left yesterday afternoon for a ten days visit with his parents at Fairmont.

Mrs. Arthur Eddy arrived here from Duluth Wednesday to visit some relatives and friends.

E. E. Smith has been in attendance at the State Hardware Men's Association at St. Paul this week.

Wm. Collins arrived yesterday from his father's camp on Kettle. He will remain here for a couple of days.

Mrs. Maud Pottle departs today for her home in Washington, D. C., after an extended visit with Mrs. J. Adam Bede and family.

Mrs. L. A. Lahodny and sister, Miss Jaracek, are in St. Paul this week, selecting a new stock for their spring millinery trade.

L. H. Claggett has resigned from his position as cashier of the Pine City State Bank. He will remain here in business, however, and for that purpose has rented the office building adjoining the Smith hardware store.

Ivar Stummie trapped a huge bobcat on his place at Pokegama Lake Monday. The animal is a fine specimen of the "wilds," and from appearances would have been an ugly creature in a fight. Dr. Wiseman secured the specimen and is having it mounted.

Twelve of the little friends of Eli Huber tendered him a pleasant surprise party at his home Monday evening. All of the girls and boys had just lots of fun while the party lasted, and they were all tucked safely away at their homes when Mr. Sandman came around.

The lady revivalists who held a service at the Presbyterian church for a couple of weeks have departed for Minneapolis to enjoy a few weeks' rest. The good work is being continued at the M. E. church under the supervision of a revivalist, Rev. J. J. Parish and Rev. F. H. Feetham.

Mr. and Mrs. A. S. Johnson, Miss Tillie Giesdorff, John Johnson, Wm. Benjamin and Ralph Huizer, all of St. Paul, were here this week to attend the Eisner-Johnson and Elster-Sielin meeting. Before returning to St. Paul Tuesday they accompanied by Miss Josie Buselmer, tendered the Pioneer office a very pleasant visit.

Just "Bum."

"A man with a magic lantern outfit gave a 'bum' exhibition at the opera house Monday evening," —
Mora Times.

Possibly the same "entertainer" who showed in Pine City a couple of weeks ago. His exhibition was too "bum" to mention, but he caught a lot of self-confessed suckers.

School Notes.

Last Friday afternoon literary programs were given in each of the rooms. These programs represent a great deal of effort on the part of the teachers, as well as the pupils, and great credit is due to them for the efforts they put into the work to make interesting and profitable programs. These programs would yield better results if more of the parents and patrons of the school were present. While the effort without visitors is valuable, still, better results would be attained if the children knew that a large number of visitors would be there to witness and appreciate their work.

The "farewell" dance by the Pine City dancing club Monday evening at the Hotel Agnes was largely attended and was a most enjoyable social event. Hilary's orchestra was present and discoursed some highly satisfactory music. A number from abroad attended.

Mrs. Alice Wyman and infant daughter left for Chippewa Falls, Wis., Tuesday. She will visit with her parents in that place for a month or six weeks, and in the meantime Alice will be the household chef and dish up delicacies known only to bachelors.

THE END OF THE VOYAGE

By OWEN OLIVER

(Copyright, 1910, by Joseph H. Newell.)

Since the captain had announced at dinner that they would reach Ceylon in the morning, every one was making the most of the last night. The promenade deck was full of laughter and electric light right up to the wind screens. Beyond them there was only a faint moonlight, the moon scurrying through a tangle of clouds and the swish-swash of the sea.

"The end of the voyage," said a woman's voice, from the depths of a cushioned chair.

"The end of everything," said a man's voice.

"Be serious," she commanded. "To please, please."

His hand invaded the big chair, and came to rest upon an arm.

I grew serious two weeks ago,

when I call you, only you know,

don't you dear?"

"I know," there was a little movement in the cushioned chair, as her arm went a little closer to his hand. "I grew a little serious, too," he confessed, "but I can't seem to catch her words. 'I didn't mean ever to tell you, but you knew too.'

"I knew," he sighed. "Shall you mind very much?"

"Why do you ask?" she cried, passing him a cigarette.

"Is it wrong?"

"It is—necessary." There was a sharp catch in her voice, and he stroked her arm gently.

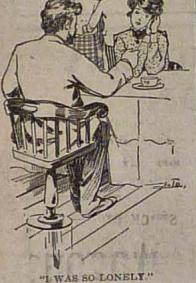

"It is going to hurt me horribly. It's the girl I don't complain of that. It's worth it. If only it wouldn't hurt you."

"Would you like me not to care?" she asked.

He shook his head.

"Of course, if I had any proper woman's pride, I should pretend that I didn't. You wouldn't believe me, but you would pretend to."

"Oh, I do

"I WAS SO LONELY."

care! It was my first voyage, and—
and you don't know what it has been to me. And now—" She stopped abruptly, and he stroked her arm again.

"You have been the whole world to me for the last two weeks," he whispered. "To-morrow I shall have nothing left."

"You have—the girl at Pothecroft-sroom," she said, with a sharp ring in her voice.

"The girl at Pothecroft-sroom?" He muttered something under his breath.

"Hush! You isn't half fault, I am sorry for her, too—What is she like? You have never told me about her, really."

"I don't want to talk about her," he said, slowly.

"I want to know about her. I wish her to be nice—well, I try to wish for your sake. She is—"

"We suppose so," he said, rather impatiently. "I don't want to think about her-to-night. Don't ask me any more, please."

"Only this: Is she good? Really and truly good?"

He drew a deep breath, and looked away from her.

"Yes," he declared, "she is good. Certainly she is that."

She subsided into the cushioned chair and sighed.

"Perhaps she is the best for you, am not good or bad, but I am not, may be, I am not a first, real."

People have to make friends on a voyage, and I thought that you would be just a friend, like other friends I did not know that you were different from other men, until—" her voice gave way.

"Tell me, darling." He put his arm around her.

"Will she have been flirting?"

"I don't think so. You, she is—Oh! Never mind her to-night."

"I mind her." They were silent for a long time. Then she put her hand gently in his.

"Be good to her," she said, blushing. "She makes no difference. You forget that you are engaged."

"I don't want to speak of that," she cried, quickly.

"The reason why you should."

"No reason! When I know that he will have you. Sometimes I feel as if I shall go out of my mind when I think of it."

"Poor boy!" She turned to him suddenly. "Would it raise you very much if you heard that it was broken off?"

"Of course it would—What a selfish brute I am!"

She laughed softly.

"I like you to be selfish over me. I'm going to tell you: something to

make you a little happier. Do you remember the first night when we talked to each other? I was so lonely and miserable. I slept and sat opposite to you. Just to see if you would speak to me—I thought you were so kind. Do you recollect we went and sat on a seat, with rugs round us? We were cold, and wet."

"I wasn't watching. I didn't look at you."

"I meant before you talked to me. It seemed all right then, but I told you were going to Pothecroft-sroom, and I asked you if you knew anyone in the town, and you said there was a lot there."

"Yes, but—" He frowned, but she could not see in the dark.

"Of course you must not have let your mother know after that. You warned me that there was some one at Cape Town."

"I don't know what I do things. I suppose, though it got us both on the same side—I think it was a good fellow. So I try to hope that you will forget me, and be happy with him." He groaned, and she clasched his arm suddenly with both hands.

"I'm not strong," she confessed, with a sob. "There is no one—at least, no one to marry me—only my brother. I don't think I shall ever—Oh, you mustn't, you mustn't!"—Yes, I do, I do—but the girl at Pothecroft-sroom—"

The girl at Pothecroft-sroom, he laughed, and this time his laugh was a real one. "I have told you all about her at first; only you let me think that you were engaged, and thought she was a safeguard."

"I know," he sighed. "Shall you mind very much?"

"Why do you ask?" she cried, passing him another cigarette.

"Is it wrong?"

"It is—necessary." There was a sharp catch in her voice, and he stroked her arm gently.

"It is going to hurt me horribly. It's the girl I don't complain of that. It's worth it. If only it wouldn't hurt you."

"Would you like me not to care?" she asked.

He shook his head.

"Of course, if I had any proper woman's pride, I should pretend that I didn't. You wouldn't believe me, but you would pretend to."

"Oh, I do

BURGLARS WITH EDUCATION

A CHILDREN'S PARTY.

Mother Goose Receives, Jack Horner Hits in the Corner with His Pie Full of Plums.

Here is a suggestion for a children's party that will prove welcome to the young ones.

For the party season is again upon us and there seems to be an epidemic of birthdays, following closely on the holidays. Each child loves Mother Goose," so send out invitations.

Each party with pen and ink sketches of the characters so dear to every childish heart, or buy a cheap copy of the book and cut out the pictures, pasting one on each invitation. Say "Mother Goose's Birthday Party" on each card, and add "at such and such an hour on such a day from three to five or seven to ten (which ever hour is most suitable), and requests all the little goings-on to present. As far as possible the mothers should let the children dress up in costumes, and invited guests are duplicates.

When all arrive form a grand march, each repeating his rhyme when his or her name is called.

When refreshments are served, eat like the Jack Horner who ate his pie outside.

Syrups may contain "pure" white clay or "pure" dyes and yet be very harmful.

Taste the largest tin packages, which may contain a small amount of salicylic or boracized oil as a necessary preservative, which may agree with one and harm the other.

Whole wheat flour may contain a portion of corn flour and ready made oil.

Butter may contain beef suet and yet be nutritious.

The person who buys and eats must protect himself and family, and he must right to, and now demands, a law under which he can make intelligent selection of food.

Many pure food bills have been introduced and some passed by State legislatures; many have been offered by Congress but all have failed to pass.

It has been agreed that a bill will be introduced in the forthcoming "plum,"

"Tarts" supposed to be made by the "Queen of Hearts" are a feature of the refreshments. A prize may be given for the best costume, the judges taking the vote, but this is optional with the hostess.—Madame Merri.

DETAILS AND BEAUTY.

Look Well to Small Points of the Appearance and Find Decided Increase of Comeliness.

The hands should be manicured at least once a week at home or by a professional once a week or more. The time spent on each will be.

Always dry the hands carefully, and keep the flesh about the base of the nails free, so that the "noon moon" will show. This will prevent the unsightly wrinkles.

If the hands are severely fatigued, it is best to rub a small amount of good skin food.

The following is better than soap for tender hands. It is both softening and whitening in effect:

Powdered marshmallows root, two ounces; carbonate of soda, one ounce; Stirl into 12 oz. of water and boil.

In doing rough housework always wear gloves. It may seem a bother, but it pays. Wear rubber gloves when washing dishes. When retiring rub the hands with good cold cream and slip off.

Gloves should be made of silk.

The hands should be manicured at least once a week at home or by a professional once a week or more. The time spent on each will be.

Always dry the hands carefully, and keep the flesh about the base of the nails free, so that the "noon moon" will show. This will prevent the unsightly wrinkles.

If the hands are severely fatigued, it is best to rub a small amount of good skin food.

The following is better than soap for tender hands. It is both softening and whitening in effect:

Powdered marshmallows root, two ounces; carbonate of soda, one ounce; Stirl into 12 oz. of water and boil.

In doing rough housework always wear gloves. It may seem a bother, but it pays. Wear rubber gloves when washing dishes. When retiring rub the hands with good cold cream and slip off.

RHEUMATIC PAINS

Disease When Dr. Williams' Pink Pills Purify the Blood and Heal Inflamed Tissues.

Rheumatism is a disease of the blood, caused by the failure of the body to cast off carbon dioxide. External medications are of little value—internal temporary relief from pain—like care for rheumatism lies in purifying and enriching the blood.

Mrs. Elizabeth Brown, of 40 Summer street, Sandy Hill, N.Y., was a sufferer from inflammatory rheumatism from the time she was born, her doctor says: "It first appeared in my knee joints, then in my hips and waist. It became a regular thing that I would be lame all day long. The rheumatism affected mostly my hands, hips, feet and shoulders. My hands were all puffed up and my feet became deformed. I had my appetite almost lost sleep at times. I was compelled to cry out, the pain was so intense."

For several years I was under the doctor's care, and while his medicine relieved the pain for a little while there seemed no prospect for a permanent cure. I was confined to my bed, off and on, for weeks at a time. My limbs swelled dreadfully at times, and I was reduced almost to nothing.

In the spring of 1904, upon the advice of a friend, began to use Dr. Williams' Pink Pills. At that time I wasn't able to do anything and could hardly eat or drink. I kept on, though, I felt a change for the better in about a month. I began to eat heartily and I suffered less pain. Of course I kept on the treatment, taking care of my diet, and in about three months I was cured. I am entirely well today and do all my own work."

Dr. Williams' Pink Pills cured Mrs. Brown by driving the rheumatic poison out of her blood. But you must get the genuine Dr. Williams' Pink Pills, sold by all druggists and by the Dr. Williams Medicine Co., Schenectady, N.Y.

THOUGHTS FOR EVERY DAY.

Monday.—Be accurate, practical and persistent.

Tuesday.—Remember that what one man has done another can do, but find the way fit himself for the journey, and travel.

Wednesday.—Look at the highest average rewards of the calling you propose to adopt, and if the same efforts in some other direction would have a brighter prospect, choose the latter.

Thursday.—Mind your own business. Your business will not mind itself, and nobody will mind it for you.

Friday.—There are no doubt exceptions to every rule so when you find a man able and willing to help you mind your business, and your money, make him enough to send his bill, realize that you have a treasure, and recollect that he is a man of intelligence, capable of knowing when he is justly or generously treated, or otherwise.

Saturday.—Aware of the man who is only acting the part of the "good and faithful servant."

Sunday.—Think with caution, act with decision, and never lose courage.

Multum in Parvo.

"Do you mean to say," asked the young housekeeper, "that this is a quart of milk?"

"Why—er—yes'm," replied the short-measure milkman.

"H'm! I suppose this is your idea of condensed milk!"—Philadelphia Press.

FOOD AND STUDY.

A College Man's Experience.

"All through my high school course and first year in college," writes an ambitious young man, "I struggled with my studies on a diet of greasy and pasty foods, being unable to find time and strength to eat. My system got tired, the state of general depression and it was difficult for me to apply myself to school work with any degree of satisfaction. I tried different medicines and food preparations, but did not seem able to conquer my difficulty."

"Then my mother was called to Gracefield, and I sampled it. I had to do something, so I just buckled down to a rigid observance of the directions on the package, and in less than no time began to feel better. In a few weeks my strength was restored, my weight had increased, I had a clearer head and felt better in every particular. My work was simply perfect to what it was formerly."

"My sister's health was badly run down and she had become so noisy that she could not attend school much. She went on Grand-Nuts and had the same remarkable experience that I had. My brother, Frank, who is in the post office department at Washington city, and has been trying to do brain work on greasy doughnuts and all that, joined the Gracefield Nutt army. I showed him that it was and could do much more than a broken-down condition had developed into a healthy and efficient man."

"Besides these I could give account of numbers of my fellow-students who have made visible improvement mentally and physically by the use of this food." Name given by Postmen Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Wellville," in pigs

LIVESTOCK

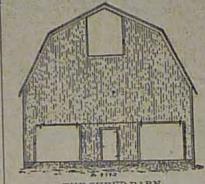

SHEEP BARN.

Description and Bill of Materials for a Most Economically Arranged Building.

Mr. Watkins, the greatest sheep man in America, says: "With this Plan, allow six square feet for each sheep, but prefer ten feet per sheep, and this is not too much for breeding ewes. The gates that separate the pens may be removed so a wagon or manure spreader can be driven through the stables when they are cleaned."

Following is the bill of materials to be used in building a good sheep barn:

Frame Pieces.—Thirty 2 by 10 inches

THE SHEEP BARN.

by 12 feet; four 2 by 8 inches by 26 feet, one hundred and twenty feet; eight 2 by 6 inches by 26 feet; twenty 2 by 8 inches by 26 feet; sixteen 2 by 8 inches by 9 feet, sixteen 3 by 6 inches by 24 feet, two 2 by 6 inches by 20 feet, twenty 2 by 6 inches by 18 feet; twenty 2 by 6 inches by 14 feet; eight 2 by 6 inches by 12 feet, four 2 by 6 inches by 10 feet; two 2 by 8 inches by 5 feet.

Rafters.—Fifty 2 by 6 inches by 16 feet, fifty 2 by 6 inches by 12 feet.

Floor.—Four hundred and sixty linear

feet bridging, one-half inch, 1,740 square feet loft boards.

Sliding.—Thirty-five hundred square feet, 2,850 square feet roof roof boards, 220 linear feet fascia, 21,500 square feet loft boards.

Other Material.—Twelve battens 1½ by 6 inches by 10 feet, 6 battens 1½ by 6 inches by 4 feet, 600 square feet plain boards.

Hardwood, Etc.—Two trunks 30 inches high, two chairs, three pairs bimini, strap, 80 pounds 600 spikes, 100 pounds 400 spikes, 300 pounds 200 spikes, 100 pounds 80 nails, 100 pounds 70 nails; 80 pounds 34 nails, 12 wash 36x45 inches; 12 pair butts.

Hardware, Etc.—Two trunks 30

inches high, two chairs, three pairs bimini, strap, 80 pounds 600 spikes, 100 pounds 400 spikes, 300 pounds 200 spikes, 100 pounds 80 nails, 100 pounds 70 nails; 80 pounds 34 nails, 12 wash 36x45 inches; 12 pair butts.

Wool.—Two trunks 30

inches high, two chairs, three pairs bimini, strap, 80 pounds 600 spikes, 100 pounds 400 spikes, 300 pounds 200 spikes, 100 pounds 80 nails, 100 pounds 70 nails; 80 pounds 34 nails, 12 wash 36x45 inches; 12 pair butts.

WATER FOR DAIRY USE.

Test It and Make Sure It Is Full

Well Water That Was Full

of Germs.

The number of water need to be very strict about the kind of water they use in washing the butter and in washing the curds and other utensils. We have called attention frequently to the fact that much of the "off" flavor in butter has been due to the use of water which was not fit for drinking.

Recently it was found that the water being taken from a large tank which, on investigation, was discovered to be very foul. The discarding of this water supply and the securing of pure water resulted in a very decided improvement in the quality of the butter. The Ohio State University reports that recently one of the dairy experts connected with that university was called to Greenville, Ohio, by a creamery operator to advise him on the cause of the poor butter quality detected.

They had a concrete building, well ventilated, well lighted, and clean. The water for washing the butter was taken from a well 123 feet deep, driven in solid rock. The water was found very high in the water table, and it was discovered that there were 1,800 germs in a single drop, or 35,600 in a cubic centimeter.

Another well near by was tested, and, although this well was only 15 feet deep, it was found to contain 1,800 germs in a single drop, or 35,600 in a cubic centimeter, and the water was almost entirely free from bacteria.

A third well was tested, this third well having been sunk to a depth of 90 feet in the same strata of rock as the first; the water contained 1,800 germs in a single drop, or 35,600 in a cubic centimeter.

These results are to be compared with the usual experience, says Farmer's Review. In most cases the deep wells produce water almost entirely free from bacteria.

Farmer's Review. In most cases the deep wells produce water almost entirely free from bacteria.

Those who use light-weight horses

for farm work are quite apt to over-

load them. Put on smaller loads and rest them often.

SHEARING BY MACHINERY.

Experience of One Farmer Proves That in This Day It Is Most Economical.

I have used a sheep-shaving machine for the past five or six years, writing to you to tell you how it has helped me. The men here have not much improved in that time. The first knife, or clippers, that I had, soon got clogged and did not do good work. Sheep that had fine or old wool, or had not been shaved before, took a long time to shave.

FOR THE FARMER

Bulletin by Prof. A. J. McGuire of the
N. E. Experiment Station in Pine City.

Festivals as a feed for live stock.

In producing cheap feed, for the wintering of live stock there is another very important crop aside from fodder-corn. This is the root crop. The importance of this crop is very far indeed from being appreciated to its full extent, and especially in this section of the state where grain feed is so expensive. From 12 to 20 tons of roots can be grown on an acre of ground and at a cost not exceeding ten dollars, including the plowing of the ground, seed, cultivation of the crop, harvesting and getting them in the cellar. Twelve tons of roots, which is only a very ordinary yield and which may be produced at the above-stated expense is equal in feeding value to either three tons of bran or shorts for dairy cows, pigs or sheep. The cost of the latter feed at the present time is over five times the expense of producing the roots.

In 1904 two acres of roots (one of rutabagas and one of mangolds) were grown on the Experiment Farm. The rutabagas yielded at the rate of 13 tons per acre, the mangold 12.5 per acre. A small plot of mangolds near the barn yard, on very rich soil, yielded at the rate of 24 tons per acre. The field roots were on soil rather low in fertility. A rich soil is necessary for a very large yield, and a sandy loam more favorable than clay soil.

During the winter the mangolds were fed to the dairy cows, the rutabagas to steers, young stock and sheep, all giving very satisfactory results.

In 1905 an experiment was conducted with different kinds of roots—rutabagas, mangolds, stock carrots and sugar beets being planted in separate plots in the same field. At planting time, June 1st, the ground was very wet, and both the seed of the sugar beets and mangolds were drowned out, producing no crop. The rutabagas and stock carrots came on and produced a good crop, the stock carrots yielding at the rate of 16 tons per acre, the rutabagas 14 tons.

From this experiment conclusions

were drawn that the stock carrots should be sown in preference to mangolds, owing to its greater hardiness. In yield and feeding value it is equal to the mangold, its feeding value, perhaps, being a little higher. For dairy cows either the stock carrot or mangold should be grown. Rutabagas are all right for young stock or sheep, but when fed to dairy cows they tend to impair a disagreeable flavor to the milk. Rutabagas make splendid feed for hogs when boiled, but not raw. Mangolds may be fed to hogs raw with very good results.

Animals fed roots are always in a healthier and better condition. With roots there is no need of expensive stock foods. Roots are a valuable feed, both in milk and meat production. No farmer should think of getting along without roots for his stock, especially in this section of the state. Plan on making a start at least next spring.

The best system of growing roots will be taken up in another bulletin before the planting season. A. J. M.

Teadow Lawn Jottings,

Mrs. Delbert Carrier is spending a few days at home.

Louis Clyne and Oren Scofield spent Sunday at home.

Miss Clarissa Collett was the guest of Mattie Lahart over Sunday.

J. S. Collett returned home Friday from a few weeks visit in Dakota county.

W. H. Hamlin left Monday for Kerrick where he will do some surveying.

Miss Daisy Berkey returned Saturday from her week's visit in St. Paul.

Quite a number of Meadow Lawns attended the revival meetings in Pine City last week.

B. W. Hamlin, who has been visiting relatives here, departed for his home in Minneapolis last week.

Mrs. Lucy Holter died at her home in this place Saturday at 12:30 p.m. from Bright's disease, after many weeks suffering. She leaves a husband, four sons and two daughters.

The sympathy of the entire community is extended to the sorrowing ones.

Foley's Kidney Cure makes the kidneys and bladder right. Contains nothing injurious. For sale by L. E. Breckinridge.

Ellison Budget of News,

(Town of Ellison.)
The M. W. A. Lodge had their regular meeting last Saturday evening.

A. H. Vaneky is in the cities this week seeking medical treatment for his eyes.

John Polivka and Albie Hansen hauled some lumber last week from Jos. Vaneky & Co.

E. O. Ellison and family and J. J. Sonnen and family visited Mr. and Mrs. Thrun over Sunday.

J. T. Sonnor is at the twin cities this week on business, buying up his spring and summer stock of general merchandise.

Miss Matilda Paulson and her mother, Mrs. Paulson, of Waseca are here visiting their relatives, Mr. and Mrs. Herman Thrun.

County Superintendent of Schools, R. H. Blankenship, visited the schools in district No. 26 last week Tuesday evening and found everything satisfactory.

There was a social hop at John Prince's place last Saturday evening, and those attending report having had a fine time. The music was furnished by the Dobish orchestra.

Ed. C. Ellison, Richard Youngberg and J. J. Sonnor were at Pine City last Wednesday, appearing in a contest of a homestead against G. H. Solidy.

The following officers were nominated for our town ticket at the caucus last Saturday:

John Palvick—Supervisor, 3 years.

Frank Sheepogen—" 2 "

Sam Peterson—" 1 "

John Piske—Town clerk.

Chas. Johnson—Treasurer.

James Rudolph—Assessor.

James Krell—Justice of the Peace.

Frank Haas—" "

John Stephan—Constable.

William Hall—" "

Joseph Moudre—Road Overseer.

District No. 1.

John G. Krema—Road Overseer.

District No. 2.

P. B. Logstrom—Road Overseer.

District No. 3.

Charles Younquist—Road Overseer.

District No. 4.

For sale by L. E. Breckinridge.

Dangers of Pneumonia.

A cold at this time if neglected is liable to cause pneumonia which is often fatal. It is when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will strengthen the lungs, cleanse and strengthen the lungs, and prevent Pneumonia. For sale by L. E. Breckinridge.

Three little rules we all should keep.
To make life happy and bright,
Smile in the morning, smile at noon,
Take Rocky Mountain Tea at night.

L. E. Breckinridge.

Always keeps Chamberlain's Cough Remedy in his Home.

"We would not be without Chamberlain's Cough Remedy. It is kept on hand continually in our home," says W. W. Kearney, editor of the Independent, of Breckinridge, Mo. "This is just what every family should do. When kept at hand for instant use, a cold may be checked at the outset and cured in most cases faster than after it has become settled in the system. This remedy is also without a peer for curing children, and will prevent the attack when given as soon as the child becomes hoarse, or even after a dry cough appears, which can only be done when the remedy is kept at hand. For sale by L. E. Breckinridge.

**GEORGE SHERWOOD'S
DRAY LINE.**

We are prepared to do all work in our line in a workman like manner.

Geo. Sherwood, Prop.,
Pine City, Minnesota

Chamberlain's

Cough Remedy
The Children's Favorite
Coughs, Colds, Croup and Whooping Cough.

This remedy is famous for cures over

a large part of the civilized world.

It can only be had by mail order, and no other manufacturer can sell it.

Price 25cts; Large Size, 50cts.
