## TWO JUNE BRIDES

Michael Buckley and Herman Schmidt became Beneficiaries — Misses Louise and Lena Schwartz the Brides

Wednesday Mr. and Mrs. Carl Schwartz, of Royalton town, gained two sons through the marriage of their daughters, Misses Louise and Lena.

In the morning Miss Louise Schwartz was wedded in the Catholic rectory. The ceremony occurred at 9:30, and was performed by Rev. Fr. Koerner. Miss Anna Boesch and John Buckley acted as brides maid and groomsman.

At 2:30 p.m. Miss Lena Schwartz became the bride of Herman Schmidt, the wedding occurring in the German Lutheran parsonage. Rev. Haebecker was the officiating clergyman. Misses Theresa Engler and Mary Boesch and Messrs. Henry Schwartz and George Kick stood up with the principals.

The wedding festivities were celebrated at the home of the bride's parents.

All of the contracting parties are well and favorably known. Michael Buckley is the eldest son of Mr. and Mrs. Patrick Buckley, of Pine town. Herman Smith is a rising young farmer residing on his farm in Pine town. They have the esteem of their many friends. May they live long and prosper with the worthy young ladies whom they have won.

The Pioneer renders best wishes and congratulations.

## Not a Flat Order Dollar.

There was a wise man in our town and settled in St. Peter, locating in Pine City a year and a half later. His wife died 15 years ago. He is survived by two children, Mrs. Doris Lehmann, of Greeley, Iowa, and Henry Spahr, of this place. Besides these are his grand-daughters, Mrs. Henry Glasey, Misses Alvina and Anna Grimm.

He came to this country in 1880 and settled in St. Peter, locating in Pine City a year and a half later. His wife died 15 years ago. He is survived by two children, Mrs. Doris Lehmann, of Greeley, Iowa, and Henry Spahr, of this place. Besides these are his grand-daughters, Mrs. Henry Glasey, Misses Alvina and Anna Grimm.

The funeral services were held at the German Lutheran church Tuesday afternoon at two o'clock, Rev. Huebener officiating, and the remains were laid to rest in Birchwood Cemetery.

**H. H. SPAHR DEAD**  
An Old Resident of Pine City Called Home Sunday Morning by the Infirmities of Old Age.

Sunday, June 17th, 1906, at 1:30 p.m., occurred the death of Henry H. Spahr, at the residence of his grand daughters, the Misses Grimm. His death was not unexpected as he had been very low for some time past. The cause of his demise was old age. Henry H. Spahr was born in Holstein, Germany, July 25th, 1830, wood cemetery.

## GOOD ROADWAY

The Teich Brothers Do Much for the Betterment of Roads in Their Neighborhood in Pokegama Town.

Good roadways are indispensable to good business and the farmers of this county who are making good roads NOW are the pioneers whose labors will not have been in vain. There are a great many people in every district everywhere who say, or at least think, like the old Roman governor Galilius of Ephesus; they care for none of these things."

Some very commendable road making has been going on just a mile north of Pine City. The strip of new roadway is in front of the properties of the Teich brothers, and is just a half a mile long. The road has been widened and ditches dug on either side. Dirt has been thrown up in the center with a gradual slope to the sides. The job was under the supervision of Herman Teich and was done by an Austin Western grader which is the property of Pokegama town. More of this work is being planned for Pokegama town and Mr. Teich will use his traction engine for hauling the grader. The work in the Teich district was mostly gratis, and Messrs. Teich are deserving of much credit for their public spiritedness. Next year the road will be worked over again and promises to be one of the best highways in the county.

## Wilke Resort Opened.

Last Saturday evening was the time selected for the opening of the Island Hotel and summer resort on Indian Island at Pokegama lake. Manager Jos. Wilke and assistants had made elaborate preparations for the reception of guests, and the large crowd that thronged to the delightful summer retreat was thoroughly satisfied with the entertainment offered.

A good conservative estimate of the number present was about 250. A large number of those present went from Pine City in launches and steamboats via the sinuous Sault. In fact, nearly all the power boats from this place were in commission and they were filled with pleasure seekers.

Stumme's musicians were present and their playing was conducive to the awakening of the mirth-makers' association, which made all gliders glide fantastically till luncheon time rolled around at about 11 p.m. After luncheon a majority of the large party present bid adieu to their delightful surroundings in order to "catch their car" and make their presence known to Morphus, the sleep king.

The hotel and summer resort on the island is an admirable place, and the initial outing, that of Saturday evening, was but a forerunner of the popularity which it will surely derive under its present management.

## Business Change.

An important business change has been made in the commercial circles of Pine City this week. D. Greeley has sold his hardware store to J. LaPage, of Elmwood, Wis. Inventory is now being made of the stock and the store is closed pending the completion of the work. The store will be re-opened for business next week. Mr. Greeley became owner of the business several years ago when he purchased the same from the Wiseman brothers, and he has enjoyed a lucrative business. Mr. LaPage is a man of extensive experience in the hardware trade, and that he will be successful is a foregone conclusion. Watch for his advertisements in this paper.

W. P. Hogan, while at work in the sawmill at Kerrick, last Friday, was hit in the arm by a bolt from the lathe. The wound received, while not dangerous, is painful, and Mr. Hogan is obliged to rest for a time.—Hinckley Enterprise.

J. J. Wilson went to Taylors Falls Friday to visit with relatives for a few days.

### SALARIES OF STATE OFFICIALS.

During this session of congress, as in many previous sessions, the expediency has been considered of raising the salaries of the higher officials of the national government and of the diplomatic and consular service. It is coming more and more to be recognized, as a fact, says Youth's Companion, that the richest nation in the world, occupying a country in which the highest business salaries in the world are cheerfully paid, is nevertheless a niggardly paymaster of his highest officers. For a large share, indeed for most, of the minor positions in the government service the payment is adequate. The earnings of the clerks in Washington and of most of the men on the civil service lists are probably as good as those doing similar work for private employ. But for the president, vice-president, members of the cabinet and of the supreme court, the circuit court judges, ambassadors and ministers, and many of the higher officers at Washington and in the states the compensation is not only inadequate to the demands of the places they occupy, but is notoriously less than equal ability receives in private life. The word "compensation" is used advisedly, for it includes not only the salary which goes with these offices, but the expenses which attach to them. Both together are called "subsistence payment." The desire to preserve that "republican simplicity" which has always been an American ideal is the main obstacle to the raising of official salaries. Many persons fail to consider that for one who can afford it, liberal expenditure is not necessarily a sign either of extravagance or of luxury; and that with nations, as with individuals, the scale which is just and proper in the day of small things may be a measure of unseemly parsimony when the circumstances have changed.

### One Theory of Wealth.

Why there are rich and working poor men and some rich men in the same community is a question which no one has answered, and no one can answer satisfactorily. That is why the opinion is so prevalent that the world, economically considered, is so very much out of joint, believes T. N. Carter, a writer in Atlantic. But although there is so much unanimity in the opinion that wealth ought not to be distributed as it now is, there is still a wide diversity of opinion, where there is any definite opinion at all as to how it really ought to be distributed. The opinions may, however, be divided into three fundamentally distinct theories, which I shall call the aristocratic, the socialist, and the democratic, or liberalistic, theories. The aristocratic theory is that the good things of the world belong more particularly to certain groups or classes than to others, by virtue of some circumstance connected with their birth, heredity, and independently of their individual achievements. The socialist theory is that what ought to be distributed according to needs, or according to some similar plan arranged beforehand, and independently of the individual ability to acquire wealth in the rough-and-ready struggle of life. The democratic, or liberalistic, theory is that wealth ought to be distributed according to productivity, usefulness, or worth.

### Latest Table Delicacy.

"Hot-house lamb" is beginning to appear on the menus at many of the first-class hotels. A quarter of hot-house lamb can now be bought if one is willing to pay four dollars for it, to be cut to order or so as the butchers refused to divide the carcasses, finding ready market for all they could get at from \$25 to \$30 apiece. As such a lamb seldom weighs more than 22 pounds, including pelt and head, it makes the meat come pretty high. "Hot-house lamb is an answer to a demand for a new kind of edible animal," said a butcher, "but its invention was almost an accident. A farmer out in Kansas had the idea that a lamb could be prepared for its growth the same as a plant or tree; he took ten ewes and put them in the cellar of a stable, keeping the place at a uniformly high temperature. When the lambs were born he increased the heat and fed them all they could possibly eat. The lambs developed rapidly and were ready for market six weeks ahead of those born and reared under ordinary conditions."

William Sherrill, the young Canadian who won the Marathon race at Athens, gives the credit to his mother, who, he says, supervised his training. "She would be up before me and would not leave until I had eaten and washed," he said. "When she was told that he had won, she remarked, 'Of course, I knew he would. That is what I sent him over for.' This is a very pretty sentiment, remarks Youth's Companion, but leaves one in doubt as to what the other young men's mothers said when told that they had not won.

## MASSACRE OF JEWS ENDS; BURY VICTIMS

### QUIET RESTORED AT BIALYSTOK WHERE AWFUL SLAUGHTER OCCURRED.

Bodies Pounded Into Mere Masses of Pulped Flesh—Estimate of Dead Vary from 200 to 300—Enormous Number of Wounded.

Bialystok, Russia, June 19.—Quiet again reigns throughout the quiet town, which has heard at mid-night on the outskirts of Bialystok, a cemetery, but no further disorders have occurred. The total figures of the casualties are not available, but 70 bodies were buried Monday. This is about the less than half the total of the killed, which estimates say that not less than 200 were killed. The number of wounded is enormous. Surgeons have arrived from Warsaw to assist the over-worked staffs of the hospitals in care for the injured.

A few details of the excesses of wanton bestiality and brutality with which the victims of the massacre were treated. Some of the corpses were masses of pulped flesh, the wounded in some cases having scarcely a bone left. A committee of the lower house of parliament who are here to inquire into the massacre are greeted as savages by the population, who flock out of their houses with patriotic joy and relief. As the news of the massacre through the streets, the people call down blessings on their heads and give them accounts of their sufferings. The commanding of the troops has furnished the commissioners with an escort and another "Personal" was inserted in Saturday's newspapers.

The boy, who is only seven years old, was apparently unharmed except that he bore evidence of suffering from hunger and exposure.

290 Corpses Counted.

Odesa, June 18.—The Novosti, of this city, published a dispatch Monday from its correspondent at Bialystok, which shows that the Jewish population of the town in the two days of riot and massacre last week. The dispatch says: "I personally counted 290 Jewish corpses, a great number of which were horribly mutilated and only Christians were killed and eight wounded."

### Cemetery Shoots Off News.

Petersburg, June 19.—No fresh news has been received here from Bialystok and none of the newspapers can get a word directly from their correspondents there. A correspondent who should have arrived there from St. Petersburg Sunday morning has not been heard from.

Nothing has been received here from the press agency which is working to get Bialystok to divulge its secret upon the massacre of Jews. It is evident that the authorities will not allow any dispatches to be sent from the terror-stricken town, which is regarded as the chief proof of the gravity of the situation.

Tramps Supported Rioters.

The last telegram known to have been received here reached M. Ostrowski, a member of the lower house of parliament from Grodno. It was received at 10 o'clock yesterday morning.

"The Jewish outrage at Bialystok was produced by provocation. The police participated in it, and the troops actively supported the rioters. The military authorities have given the city over to the Germans who succeeded in reaching the open fields outside the town were run down by dragoons and seen no end of bloodshed in the attack." The number of victims is large. While this appeal for immediate assistance is being written we hear about us the sound of volleys.

Attack Jews in Other Towns.

Warsaw, June 19.—The chief of police of Warsaw has issued a proclamation warning the people against the efforts to provoke racial hatred and incitement, and every attempt at rioting will be mercilessly suppressed by force of arms.

Anti-Jewish riots have broken out at Zabidow and Gouzdow, in the province of Grodno, and at Ossowce, in the province of Lomza.

Prominent Jurist Dead.

Concord, June 19.—James M. Woolworth, an attorney of national reputation, and also prominent in the affairs of the Episcopal church of the United States, died at his home here, aged 77 years. He was born in Oneonta, New York, but came to Nebraska as a young man. He never held public office and was not known in politics. He leaves two daughters, Mrs. E. M. Fairchild and Mrs. Guy Howard, of this city.

### Tin Plant Closed Down.

New Castle, Pa., June 18.—The Shanghai tin plant, said to be the largest in the country, closed down indefinitely, throwing about 3,000 men out of employment. No cause is given for the suspension of operations, further than that repairs are necessary.

Blaze in Newspaper Plant.

Salt Lake City, June 18.—Fire here wrecked the composing and editorial rooms of the Salt Lake Tribune.

The Tribune, carrying a premium of about \$40,000, both news papers were issued Saturday and Sunday.

Heavy Loss on Silk Worms.

Youngstown, June 15.—Owing to unusually low temperatures agriculture has suffered further heavy damage. The loss on silk worms in the gift district is estimated at \$600,000.

## KIDNAPED BOY RECOVERED

### FORMER STOCK BROKER STOLE BOY FROM SCHOOL

Driven to Crime by Destitution, Man Demands Ransom for Boy Through Personal.

Philadelphia, June 19.—Little Fredy Math, who was kidnapped from school on Tuesday last, was recovered from his captor in a sensational manner Monday afternoon. For several days the identity of the kidnaper has been known to the police, but despite the efforts of the men who have been working on the case, he was not located until Monday.

Accompanied by one of his men, Chief Detectives Dougherty went to 426 North Sixty-second street, in West Philadelphia, and there found John Keane, Keane with his captor. Keane attempted to shoot Dougherty, but was unable to do so because he was surrounded by the detectives. The bullets missed their aim, but Keane surrendered and was taken to police headquarters.

The kidnaper, who is 40 years old, is described as a former stock broker, who had recently lost a small estate.

He has a wife and three children,

and it is believed that his desperate financial situation drove him to his crime.

In communications to the father of the child, Keane demanded \$100 for its release, and a letter written by the boy declared he would kill the child himself if the money was not forthcoming. Keane's terms were acceded to in a "Personal" inserted in all of Saturday's papers. In a subsequent issue he proposed new terms, and these were likewise accepted, and another "Personal" was inserted in Saturday's newspapers.

The boy, who is only seven years old, was apparently unharmed except that he bore evidence of suffering from hunger and exposure.

## "HE RAN FOR LAWYER."

But There Was a Doubt as to Whether He Had Ever Caught the Office.

A man from Pennsylvania went to Vineland and claimed him, and he was identified with the man (a lawyer) he had gone to see. The directions he received were so indefinite that he found himself on the edge of the town without having come to the house he sought. Then he saw an old negro and asked the way of him and learned that the house lay about a mile farther down the road.

"The man I want to see is a lawyer," he said to the old man. "Is that Mr. Dash down the road a lawyer?"

"He ain't no lawyer, I know," the old negro answered the negro.

"You're sure?"

The old negro scratched his head in deep thought. Then a gleam of remembrance lighted his eye.

"Now I think of it, boss," he said, "pears like I do recollect he ran for lawyer one time."

"Be Pleasant Every Morning Until Ten O'clock; the Rest of Day Work Hard," Carlisle Day.

This is one of the best little stories we know. Have you ever stopped to think that the morning is the time when your temper is at its lowest? And have you ever stopped to think that the cause of bad temper in the morning is nearly always because you slept badly during the night? It has contained a lot of indigestible substances that form gas and make you feel uncomfortable during the night.

Our grand sires required no admonition to "Be pleasant every morning until 10 o'clock; the rest of the day work hard." Carlisle Day, who was 15 years old at the time he wrote this, describes the chess club in Carlisle, Pennsylvania, where he was a member of the chess club in 1874. He first notable victory was a score of five to four in a match with John F. Barry of Boston in 1879. In 1889 he won the New York city tournament with a total of seven wins and one draw. He was the first to win the first prize at the Hastings tournament against many of the strongest players of the world. This victory logically made him one of the quartet of the then most famous players named to compete at St. Louis in 1890. In 1891 he beat Pillsbury, his score with the world champion, Lasker, was 3½ to 2½. In 1897 Pillsbury won from Showalter the American chess championship, which he confirmed by a second victory over Showalter in 1899. In 1900 he beat Showalter again at Hastings.

Pillsbury played in 14 international chess tournaments and was a prize winner in all except at Cambridge Springs, Pa., in 1904, when he was ill. Showalter showed his chess genius more to advantage than Pillsbury did. At Hastings he played 22 games without sight of the boards, and at Philadelphia 20 games, which he repeated at Hastings.

## PINE COUNTY PIONEER.

ED. C. GOTTRY, Editor and Prop.

Entered in the Post Office at Pine City as  
Second Class Matter.

PINE CITY, MINN., June 22, 1906

### Announcement

To the Voters of Kanabec, Chisago  
and Pine Counties:

At the solicitation of many of the representative citizens of this legislative district, but more especially at the earnest request of many of the voters of Kanabec—my home county, I hereby announce my candidacy for the nomination, at the coming republican primaries, as one of the representatives from the 32nd district.

If nominated and elected, I shall endeavor to merit the confidence reposed in me by the people for the best interests of the district. I am heartily in favor of and shall advocate and vote the so-called reciprocal demurrage legislation; reduction of freight and passenger rates and revision of our present unique tax system, which makes the poorer classes bear more than their share of the burdens of taxation.

I believe that Knute Nelson has ably represented this state in the United States Senate and is entitled to another term. If given the opportunity it will afford me pleasure to vote for his re-election.

HENRY RINES.

A GRANITE QUARRY is to be developed in Kanabec county.

The head, body and limbs of the republican ticket looks good and fit for the race, and should win in a walk.

SINCERE "harmony" was the slogan of the republican party there would be an earthquake for the reception of opposing parties next fall.

How many journalists of today found an inspiration of achievement. "Wanted—At this office, an apprentice to learn the printer's trade."

By a vote of 108 to 32 the citizens of Rush City decided not to bond their village in the sum of \$12,000 for the construction of an electric lighting plant. The Post offers no comments.

DAMPNESS sticks out all over the following from Simpson's Finlayson News: Most every body in town who has a collar can now take a bath without disturbing his neighbors or requiring an up-to-date bathing suit.

SEVERAL towns in this state have prohibited cannon crackers and other high explosives from being used on the Fourth of July. In these towns timid persons can rest assured of hearing nothing fiercer than the decracking of pop bottles and the banging of deafening torpedoes.

THE STILLWATER GAZETTE avers that a North Dakota paper has the greatest part of the fraternity turned up on the circulation boasting proposition by boasting of a subscriber in

Hell. The Gazette "shames" itself by going one better in stating: "We are pretty sure that we have had a whole lot of them who are there now." If reference is made to definitions, why, that's different.

This destroyed property to the extent of \$500,000 at St. Paul Sunday, and ex Mayor Ames has announced that he will try for the mayoralty of Minneapolis again. There will have been hot times in both cities when the result of the latter is announced. That's an even deal so there's no need of any showing of jealousy.

"Hope springs eternal in the human breast." Storms break and ruin follows in their train; financial panics bring despair; the refreshing rains are withheld and on far-stretching fields in our western lands the growing crops wither and the very wild trees die of thirst; grim-visaged men and careworn women scan the skies in vain for signs of rain-bearing cloud; want comes stalking over the land, robbing babies of their portion, and parents of their hope; nature laughs at man's vain assumption that they have changed climates; Pine county, geographically convenient to the great markets, with a salutinous climate, Pine City, the metropolis and popular resort, Groveland Dairy Farm and Jersey Herd for sale. Make act is nothing unusual for him. He brought home a fine five-pound big-mouth bass, which he solemnly dedicated to one of his fellow fishermen. big husky fellows. Peterson, who played with the fast Graham team a number of years ago, is a member and the Claffey boys are also said to be enrolled. The Pine City players have been putting a great deal of mettle in all of their games so far this season, and the Creekees will have to "play ball" to defeat them.

### Big Catch of Fish.

A party consisting of John Fisher, F. J. Rybak, Steve Bordeau, John Jelinski, Jordan Mohr and a gentle man from West lake, "went a-fishing" at West lake Sunday. They went out to their fishing grounds Saturday night, and were up bright and early on the Sabbath. And their efforts, in the way of early rising, were not in vain, for before the aggregation had time to get lazy they had made about 85 pounds of bass, pike, perch and sunfish look better than the best catch of the season. John Fisher deserves credit for landing the biggest fish, which act is nothing unusual for him. He brought home a fine five-pound big-mouth bass, which he solemnly dedicated to one of his fellow fishermen. It was our "good fortune" to see the catch and therefore we write these few lines feeling that we are not infringing on the rights of an An-

anas.

Pine City Again Victorious.

Manager Dosey and his aggregation of ball players went to North Branch last Sunday and defeated the ball team of that village by a score of 4 to 3. As indicated by the close and small score the game was interesting throughout. The opposing batteries were Pete Edin and Frank Hurley for Pine City and Ellingsen and Ledin for the Branch. It is surprising what good ball the boys pull up and should they play a third game at this place on the Fourth, which is contemplated, it would be attended by a large crowd of interested spectators. "Hurra" for Pine City's junior team.

Young Odenthal was one of the steam engineering students at the state fair grounds, and was working on the fly wheel of a traction engine when the accident occurred. He was thrown from the wheel and arose immediately upon alighting, remarking how lucky he was in escaping injury. But he thought wrongly. His right arm had caught in the fly wheel, completely severing the bones of the fore arm, which he discovered when he looked down and saw his arm hanging limp. He was taken to St. Joseph's hospital, where the doctors dressed the arm and patched it with wire braces. It was first deemed necessary to amputate the member, but upon consultation it was thought best not to. Late reports say that the doctors have hopes of restoring him the use of his arm.

### Will Play Rock Creek.

The Pine City Juniors, otherwise known as Dosey's Cubs will cross bats with the Rock Creek ball team on the diamond across the river next Sunday afternoon. Rock Creek has a number of players that are considered above the average and the entire team is composed of

The Very Best Remedy for Bowel Trouble

Mr. M. F. Burroughs, an old and well-known resident of Bluffton, Ind., says: "I regard Chamberlain's Co. Colic and Bowel Remedy as the very best remedy for bowel trouble. How to Break Up a Cold  
It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days time. The first symptom of a cold are a dry, hard cough, preceded by a dry discharge from the nose and a thin, white coating on the tongue. When Chamberlain's cough remedy is taken every hour upon the first appearance of these symptoms, it counteracts the effect of the cold and restores the system to a healthy condition within a day or two. Fred Spearling, Wm. Schmelz, Fred Sommers and Jas. Haywood came down from Hinckley Saturday. They are at present a part of the crew which is laying the heavy steel rails along the N. P. railway Fred Spearling having charge of the same. The crew consists of 115 men and are now at Beroun.

Chas. Laing, who is now a traveling salesman for a New York fur and cloak company, spent the first of the week with his family in this place. His territory consists of points in the Dakotas and the Iron Range country. He is meeting with much success in his new vocation, a fact which his friends will be pleased to learn.

Since it has been made clear that the meat packers in Chicago allow naught but the squeal of a pig and the smell to get away the school board of Pine City has been up and doing and this week extra coil pipes have been added to the ventilating works at the local tabernacle of learning, and the work of Smith, The Hardware Man, is in evidence. The work is well done and is warranted to stand some very strong gales.

While enroute for the Wilke opening at Pokegama last Saturday evening the tug, "Dirty Bess," ran into a fallen telephone wire at the mouth of the lake. The wire happened to strike Mrs. Herbert Akin, severely injuring her about the neck and shoulders. She was thrown by the force of the blow and her back also sustained injuries from which she has since been quite ill. Passengers on the boat cut the wire so that other boats could pass with safety.

The dam was shut down for a few hours. Saturday morning in order to hold back the logs and during those few hours the sturgeon spears below the dam were in their element. Over sixty of the big bruisers were nailed. Carl Trippier succeeded in spearing a fine lot of them, two weighing at least fifty pounds apiece. Henry Hoefler was also there and through his skillful manipulation of the spear got a dozen more. J. Bennett Smith, the copper king secured one of the sturgeon which weighed 29 pounds.

Geo. O. Walton, traveling passenger agent for the C. M. & St. P. Railway, was in town Monday night after dinner Agent J. A. Peterson treated Mr. Walton and the Pioneer representative to a launch ride. The afternoon was particularly fine for boating, and the "Jap," under the guidance of Elmer Peterson, coursed majestically up Snake river and into Pokegama lake where it was swinging around for the homeward journey. Mr. Walton evinced much pleasure upon seeing the sights of Nature which sprung anew at each bend in the river, and he is now a firm witness in favor of the outing facilities of historic Pokegama and the natural beauties along our water ways. He left for Duluth on the "limited" Monday.

CHILD'S AWFUL SKIN HUMOR.  
Soreness with Pain—Buffeted  
Nerly Brooks Parent's Heart—Speed-  
ily Cured by Cuticura.

"I wish to inform you that Cuticura Remedies have put a stop to twelve years of misery. I had a child who at an infant I noticed on his body a red spot, and treated said spot with different remedies for five years. At last the spot began to get larger. I put him under the care of doctors. Under their treatment the spot increased in size in different parts of his body." The longer the treatment the worse it got. During the time it would increase in size and form like scales. At night it would be terrible burning anditching. I could hardly sleep, it would always swell, with think of his suffering, it nearly broke my heart. His skin was so bad he had to go down stairs. The suffering of my son made me full of misery. I had no ambition to live, I can't even sleep. One doctor told me that my son's trouble was incurable, and gave it up for a bad job. Once I read in the paper about the wonderful Cuticura and decided to give it a trial. I tell you that Cuticura has done wonders. My son's skin is as fine and smooth as silk. Michael Steinman, 1 Summer Avenue, Brooklyn, N.Y., April 16, 1900.

#### TO THE TITLED.

The sultan of Turkey is a great collector of canaries.

Lord Tweedmouth, first lord of the British Admiralty, is an assiduous collector of old chinaware.

Prince Khilkhan, formerly minister of railroads in Russia, and builder of the Trans-Siberian road, intends to make a tour of inspection of the railroads of the day.

Prince Edward of Austria, has been ordered by the Berlin courts to pay \$780 a year for life to a walter whom he assaulted during the Russo-Japanese war in a Dresden hotel.

King Alfonso of Spain is devoted to the pleasures of the table and keeps a cook on duty from 6 a.m. in the morning. Five meals are served in the 24 hours at the Escorial palace.

Sir Edward Clarke, the brilliant member of parliament, who is minister of pensions, who has denominated his pension fat, has denominated the idea of a tax on meat or corn, styled as a jeweler's assistant in his father's store.

In introducing his son, Lord Bruce, as his private secretary, the earl of Elgin only followed the example of the late William E. Gladstone, who, when he became prime minister in 1880, appointed Herbert Gladstone, the young son of 20, to a similar position.

The duke of Norfolk is a man of simple tastes, and yet he is the successor of the most extravagant court in England. The uniform which he wears as an imperial represents an outlay of over \$1,500 exclusive of jewels. Seventeen thousand yards of embroidery are worked into the coat in gold lace until but little of the original cloth is to be seen. His grace feels more at home in his old clothes.

Lloyd George, now a member of the British cabinet, was addressed as a messenger in Wales, and his chairman said: "I half to introduce you to the member of Carnarvon boroughs. He has come here to reply to what the bishop of St. Asaph said the other night." What an opportunity!

In my opinion, gentlemen, the bishop of St. Asaph is one of the biggest liars in creation, but his hazz has his match in Lloyd George."

Too Much So.

"Why do you call that ferocious bulldog your 'Icy'?"

"Because when he once attaches himself to a person he clings to one so—Baltimore American."

Most of us at times feel the need or a post-graduate course in the school of experience.

**KNOWS NOW.**  
Doctor Was Fooled by His Own Case  
for a Time.

It's easy to understand how ordinary people get fooled by coffee when doctors themselves sometimes forget the rule.

A physician speaks of his own experience:

"I had used coffee for years and really did not exactly believe it was injurious to the heart every day."

"Finally one day a severe and almost fatal attack of heart trouble frightened me and I gave up both tea and coffee, using Postum instead and since that time I have had absolutely no heart palpitation except on one occasion when I took in a small quantity of coffee which caused severe irritation and proved to me I must let it alone."

"When we began using Postum it seemed to me that we were bound to do better than coffee, but we did not make it acceptable to friends—now but we put a little bit of butter in the pot when boiling and allow the Postum to boil full 15 minutes which gives it the proper rich flavor and the brown color."

"I have advised a great many of my friends and patients to leave off coffee and drink Postum, in fact I daily give this advice." Name given by Postum Co., Battle Creek, Mich.

Many thousands of physicians use Postum as a great heart tonic in their own houses and prescribe it to patients. "There's a reason."

A remarkable little book, "The Road to Wellville," can be found in books.

Directions for the Building of the Device Which Will Lighten the Farm Work.
