 Building Paper, Roofing, Etc.

THE COUNTY FAIR

Crowds This Year Will Be Larger Than
 Ever—Many Exhibits—Ride on
 Opening Day.

The 19th annual fair of the Pine County Agricultural Society is now holding forth at the grounds north of the river. And every indication gives promise of its success. The exhibits are all in and are better than ever.

Providing the weather is favorable there is every prospect for the best fair in the history of the association.

The local schools will close this afternoon to enable pupils and teachers to attend, and this will give them two days at the fair. Tomorrow being children's day, and the pure seed contest, no admission will be charged. Pine county pupils and teachers.

The free acts by the Guthrie family will prove big attractions; they cannot fail to entertain. Today and tomorrow the crowds are promised some good speed events.

and, as the track is in excellent condition, the promise should hold good.

This afternoon Hon. Moses E. Clapp will deliver an address, and none should miss hearing how he grabs stamps on his farm at Pokeagon lake while not attending to his senatorial duties at Washington. Tomorrow afternoon Hon. J. Adam Bede will make his first appearance before a Pine county audience since his campaign to retain his hold on the congressional seat. He is also an adept in the "art" of raising cows, chickens, clover and stumps, and none should fail to partake of the feast which he has in store for his visitors.

The exhibits comprise live stock, farm products, fruits, flowers, merchandise, manufactures, machinery, women's work, art, etc., etc. And we call especial attention to the fine displays from the field, garden and orchard. Attend the fair at least one day of the three. It is everybody's fair, and all who can are urged to attend.

For Rent—A 5-room house. Inquire of P. W. McAllister at the First State Bank Pine County.

RESULT OF THE PRIMARY ELECTION

Congressman J. Adam Bede Renominated by Overwhelming Majority—Johnson, Webb and Rines Will Go to the Legislature—Sandwick or Hamlin for Auditor.

The will of the whole people has again determined who are to make the fight from congressman down. The vote was not as large as it might have been, due to the fact that many voters do not realize the great importance of the primaries.

Mr. Bede carried the county by 550 majority, he receiving 397 votes to Miller's 302. His vote throughout the district is very gratifying and he wins in a walk. His majority in the city of Duluth is 765—even going so far as to capture his opponents' precinct by two votes. He will return to Congress with a majority of about 5,000 votes from the entire district.

Victor L. Johnson was elected Senator from this district. H. P. Webb and Henry Rines are the nominees for the lower house. John W. Nelson, who was a candidate for state senator, polled a handsome vote in this county, but Johnson defeated him overwhelmingly in Chisago. Rines wins over Serline by about

100 votes.

Sandwick is the republican nominee for county auditor and Hamlin defeated Lambert as the democratic nominee. It is probable that this will be the only county contest at the polls on November 6th.

The county attorneyship was decided in favor of Samuel C. Scott of Sandstone with L. H. McKusick a close second.

Perkins, Wandel, Blankenship, Hawley and Wilcox, all showed up well as they had no opposition, and John Muller also did well in his initial appearance in Pine county politics; he will be the next county surveyor in place of Hamlin who pulled out in order to enter the auditorship race.

All of the aspirants are glad that the campaign is over. They have undoubtedly gained considerable experience—win or lose—and at least know a thing or two that might stand them well in hand to remember in the future.

New Place
 Kick's Meat Market
 Building
 directly back of Drug Store on the next street.

WILL be open for a Rest Room and Handy Place for Ladies, Children and Men especially from the country, on the days of the

PINE COUNTY FAIR, THURSDAY,
 FRIDAY and SATURDAY, SEPT.

20 - 21 - 22, 1906

and every Saturday and Monthly Fair thereafter.

Will have on display there a Fine Line of Dishes and Lamps at SPECIAL BARGAIN PRICES and a great variety on a 10-cent Counter. Don't fail to visit and use this place. You are Welcome!

BRECKENRIDGE'S REST AND NOTION STORE

In a short time we will have displayed at this place a great line of Holiday Goods.

FARMERS

Have your wheat ground at the Pine City Flour Mills and you will be satisfied with the results. * * * We grind your wheat for Cash or Exchange it for flour, as you desire.

Radium and Its Revelations.

That the discovery of radium and its radio-active properties has brought into question one of the most firmly established theories of modern science is well known, but a recent address delivered at York, England, by Prof. Lancaster, the noted British scientist, indicates that the upsetting of previous conceptions has been greater than is generally imagined. New chemical elements have been revealed in rapid succession in radium, but radium is the most wonderful of all, it has been said, of the elements that had been accepted as the fundamental bases of scientific speculation. It has caused a new study of the atomic theory, opening up the question whether the transmutability of elements may not after all be a possibility. The number of new problems which may follow the discovery of this extraordinary element with its mysterious power of giving off heat and light, and its effects in itself can even now be only conjectured. The question of the evolution of the solar system and the probable age of the world will have to be re-studied in the light of the knowledge brought by radium. Prof. Lancaster points out that heretofore all the calculations as to the probable past duration of the earth and the length of the various geological periods have been based on the assumption that the material of the earth was solid and immovable, and that the amount of radium diffused through the earth would maintain its temperature against all loss by radiation one of the most firmly established theories of the physicist becomes untenable. A fraction of one per cent of radium in the sun's mass would make good the heat annually lost by the sun. So far as concerns this method of calculating the age of the earth, it is evident that the results will have to be revised, and probably extended, the probable part of the earth indefinitely. Prof. Lancaster's words, says the Chicago Daily News, open up remarkable vistas as to the possibilities of new investigations and illustrate in a striking way the tentative and uncertain character of much of that which has been accepted as truth. Our knowledge of all the greater phenomena of material nature seems, after all, strangely limited and indefinite.

Why People End Their Lives.

The New York World compiled a page of interesting facts on the growth of suicide, and gives the following reasons why some persons end their lives: Josiah B. Riddle, of Jefferson City, Mo., because he was too fat. Irene Baltimore Boggs, of Atlantic City, because she had a new lavender dress to be buried in. Poncho Fulpon, of Chicago, because he was in love with a marble statue of Venus. Mrs. William Thomas, of Punxsutawney, Pa., because her hair was turning grey. Frank, because he missed a train. James Andrews, of Oxford, Pa., because he had to speak at commencement exercises before girls. Mrs. Grace De Wolf, of St. Louis, because she could not bear to be separated from her sister-in-law. Robert Lehman, of Des Moines, Ia., because he believed his family referred to him when they sang "Everybody Works But Father." George Hawthorne Smith, of New York, because he believed himself too old at 45 years. All of which goes to show that human life does not weigh very heavy, after all.

A Fruitarian Diet.

A fruarian diet consists of the fruits of trees (like apples, oranges, bananas and dates), the fruits of bushes (like currants and raspberries), the fruits of plants (like strawberries and melons, berries and beans and cucumbers), the fruits of grasses (like wheat and barley and maize and oats), the fruits of tree roots (from fibrous to coconuts), together with some earth fruits (like potatoes), and a medley of vegetables and salads. To these are added butter, milk, honey and cheese, although their production is not on free soil, rich of eczematization and animal infection is the case with the products of the vegetable kingdom and the world of fruits. Grown under healthy conditions, with disease specimens easy to detect and remove, it is far more possible, says the Westminster Review, to live healthily and well upon a fruarian dietary than upon the products of the slaughter house.

A modern composer says that portions of his work he played "as if a delicious pear were smelling on your tongue." It is such effusive extravagance that causes many music lovers to lack sympathy with classical oratorio.

That Kansas law which requires automobile to give the entire road to other vehicles will probably, with the other vehicles, never get the name "Honk Honk!" as the blamed things pass by.

REBELS MAY TAKE CITY OF HAVANA

INSURGENTS SURROUND CAPITAL AND MAY GREET TAFT PARTY ON ARRIVAL.

Sub-Officers from the Denver Are Stopped on the Highway by Bullets from Guns of Disloyal Cubans, but None Is Hurt.

Havana, Sept. 18.—Whom Secretary Taft reaches Havana he may be received by the rebels and welcomed to their captured city.

Fully 4,000 insurgents are within six miles of Havana, according to the statement of government officials.

Pino Gómez's force is not more than 30 miles away and is rapidly approaching.

Havana itself is filled with leaders of the insurrection who move with the utmost freedom, since President Palma's proclamation.

The intention of the revolutionists is said to be to enter the city, peacefully if allowed to, and by force if they are not.

The rebels report thus far of President Palma's order for the suspension of hostilities and the probable age of the world will have to be re-studied in the light of the knowledge brought by radium. Prof. Lancaster points out that heretofore all the calculations as to the probable

past duration of the earth and the length of the various geological

periods have been based on the assumption that the material of the earth was solid and immovable, and that the amount of radium diffused through the earth would maintain its temperature against all loss by radiation one of the most firmly established theories of the physicist becomes untenable.

Americans Fired Upon.

Sunday night two American officers of the U.S. Cavalry, who were unarmed, were fired upon by the insurgents.

Fortunately no one was injured.

Some time since the government prohibited automobilizing within the city, only officials being allowed to go about in their cars.

The insurgents were expecting Gov. Muniz and held up the first automobile.

After the first volley profuse apologies were made when the mistake was discovered, but it was explained that natural to mistake the automobile for a private automobile is allowed.

After starting, another squad of insurgents fired on the automobile party, but no damage was done.

After the second volley apologies were made, and the party then remained the balance of the night in a small town, returning to Havana at nine o'clock Monday morning.

Rebels Rest on Their Arms.

It is reported that the insurgents outside of Havana were ready to resort to arms at a moment's notice if evidence developed of lack of faith on the part of the city, only officials being allowed to go about in their cars.

The insurgents were expecting Gov. Muniz and held up the first automobile.

After the first volley profuse apologies were made when the mistake was discovered, but it was explained that natural to mistake the automobile for a private automobile is allowed.

After starting, another squad of insurgents fired on the automobile party, but no damage was done.

He added that the presence of the cruiser Denver had nothing to do with their remaining out of Havana.

SEPARATES WARNING INDIANS TO Live on by Themselves.

Washington, Sept. 18.—An account of the separation of Superintendent Lemmon, of the Moqui Indian reservation in Arizona, the commissioner of Indian affairs has directed that the hostile members of the Oraibi village be located a few miles distant from the village, where they were accustomed to accost the peace efforts of justice was done.

He added that the presence of the cruiser Denver had nothing to do with their remaining out of Havana.

SEPARATES WARNING INDIANS TO Live on by Themselves.

Washington, Sept. 18.—An account of the separation of Superintendent Lemmon, of the Moqui Indian reservation in Arizona, the commissioner of Indian affairs has directed that the hostile members of the Oraibi village be located a few miles distant from the village, where they were accustomed to accost the peace efforts of justice was done.

Mr. Lemmon was also instructed to warn the Indians remaining in the village that they should not molest the other faction, and both parties are instructed to remain in their respective posts until all difficulties are adjusted.

It is announced that the superintendent has an adequate police force for that purpose.

The Oraibi school, which was closed as a result of the recent disturbances, is to be opened as soon as practicable, and the Indians are to be required to attend.

Funerals at One Dollar a Thousand.

Spokane, Wash., Sept. 18.—Fifteen dollars initial, with coins, for a simple service, spangles, pall-bearers, carriages and hearse for one mill, was the bid made by J. D. Eischman, funeral director of Spokane, for burying the city's unidentified dead. There were half a dozen other bidders, but the maximum amount bid, but for the year, his bid being the lowest.

The accident occurred near the residence of Mr. E. T. Muh, where Miss Muh stopped for a few moments to regain her composure.

She was not hurt and insisted on having her horse harnessed to another buggy and on driving back to Sagamore Hill.

Funerals at One Dollar a Thousand.

Spokane, Wash., Sept. 18.—As the result of a race war between American and Macedonian employees of the American steel foundry Christo Tol, a Macedonian, was shot in the back, and died in hospital, his wife and son, three and five years old, were severely wounded. The Macedonians were injured, but four foreigners were hurt.

Celebrated Founding of Boston.

Boston, Sept. 18.—The two hundred and sixtieth anniversary of the founding of Boston was informally observed Monday.

The anniversary was marked also by the formal opening of the official banner of publicity, designed to make known the industrial possibilities of Boston.

ATTEMPT TO HOLD UP TRAIN

CONDUCTOR FOILS MASKED MEN NEAR PEORIA.

Quartette of Bandits Meet with Sturdy Resistance They Become Alarmed and Depart.

Peoria, Ill., Sept. 18.—Four masked men attempted to hold up passenger train No. 311 on the Rock Island road crossing one-half mile north of Peoria. Fired right at ten o'clock, and but for the prompt action of Conductor Robert Murray, who disarmed one of the men after being struck on the head, the passengers would have been robbed.

There were about 100 people on the train, which left Chicago at six o'clock.

Sheriff Potter and a force of deputies and Peoria policemen are searching for the bandits and the scene of the attempted hold-up.

It would be robbery placed an obstruction of railroad ties on the track, which brought the train to a standstill. They then at the point of revolver demanded the engine and fireman to mount on the engine. Running back to the front end of the smoker they mounted the platform with drawn revolvers.

Conductor Robert Murray met them at the door. One of the bandits pushed a gun into his face. He struck the weapon up and knocked it from the man's hand. He was struck over one wrist and over the head with a club, and the robbers became alarmed at the manner in which he fought.

The men are described as being about 25 or 30 years of age, all of slight build. All wore masks, but evidently were amateurs at the business.

A passenger who witnessed the attempt to hold up the train in automobiles to search the vicinity of the attempted hold-up, but reported no captures.

One travelling man, representing a Peoria brewer, had on his person \$2,000, the result a day's collections, and sat near the front end of the smoker.

WILL BRYAN DENOUNCE BAILEY?

Sullivan's Friends Will Demand Answer from the Nebraska.

Chicago, Sept. 17.—Sunday is the same editor of the "Daily Journal" who was responsible for the "portion fealty" to be heralded by Will Jimmings Bryan against Senator Joseph W. Bailey, of Texas, Democratic leader of the floor of the United States senate and a presidential possibility, was promoted against Bailey. C. S. Sullivan, never a political committeeman, but a member of the Democratic party, will demand an answer to this question from the apostle of Democratic purity. They declare that Mr. Bryan will not dare to apply the same standard of senatorial honesty to so high a senator as Bailey in the course of the party, but no damage was done.

The Stars and Stripes and the Hungarian colors intertwined were to be seen everywhere.

On Sunday evening there were special sermons in many of the churches, the preachers calling attention to the importance of the event.

In the afternoon, thousands of persons lined the streets along which passed the motorcade of the delegation, which the monument marks. Thirty thousand persons were in the park, which was surrounded by many more.

Sing National Hymns.

Prior to the unveiling united choirs sang the Hungarian and then the American national anthem and other hymns.

The monument was unveiled amid scenes of great enthusiasm. Herr Hakowski, vice president of the Hungarian Society, gave a speech in honor of the occasion.

He said the standard set by the father of nationhood, the Hungarian Kosuth, was presented to the first president of the United States.

The Stars and Stripes and the Hungarian colors intertwined were to be seen everywhere.

On Sunday evening there were special sermons in many of the churches, the preachers calling attention to the importance of the event.

In the afternoon, thousands of persons lined the streets along which passed the motorcade of the delegation, which the monument marks. Thirty thousand persons were in the park, which was surrounded by many more.

MISS ROOSEVELT IN ACCIDENT.

President's Daughter, Thrown from Her Buggy, Escapes Injury.

Otsego, N.Y., Sept. 18.—While driving from Saranac Hill to Otesee Bay, Friday, Miss Ethel Roosevelt, daughter of the president, was thrown out of her buggy, her horse becoming frightened at an automobile.

The accident occurred near the residence of Mr. E. T. Muh, where Miss Muh stopped for a few moments to regain her composure.

She was not hurt and insisted on having her horse harnessed to another buggy and on driving back to Sagamore Hill.

Miss Roosevelt in Accident.

Washington, Sept. 18.—As the result of a race war between American and Macedonian employees of the American steel foundry Christo Tol, a Macedonian, was shot in the back, and died in hospital, his wife and son, three and five years old, were severely wounded.

The Macedonians were injured, but four foreigners were hurt.

Jaaps Kill Each Other.

Portland, Ore., Sept. 18.—H. Morriami, a Macedonian, was shot in the back in a dispute with another Macedonian, who was shot and killed. Morriami, but was fatally stabbed himself.

Jaaps Kill Each Other.

UNCLE SAMUEL—"HERE! YOU FELLOWS! BESIDES BEING YOUR GUARDIAN I HAVE A REPUTATION TO LIVE UP TO!"

A NERVOUS WRECK

Mrs. Green Gained 25 Pounds and Recovered Her Health by Taking Dr. Williams' Pink Pills.

General debility is a term that covers a multitude of ills. There is no specific disease, yet the patient continues to lose strength and the doctor's medicines have no apparent effect. This is the decline that leads to death if means are not found to check it. In a great majority of cases Dr. Williams' Pink Pill will check it and restore health and strength because they actually bring new blood and so send renewed vitality to every organ and tissue of the body.

Mr. B. F. G. Green, address is Box 29, R. R. No. 4, Franklin, Ga., says: "For three and a half years I suffered with weakness and debility, continually troubled with stomach trouble. At times I was confined to my bed for periods ranging from three weeks to two months and was unable to eat and sleep for three or four days at a time. I did not know what to do, did not know what to eat, did not know what to drink, did not know what to do with myself, and I did not know what to do with my wife. I did not know what to do with my children. I did not know what to do with my home. I did not know what to do with my business. I did not know what to do with my health. I did not know what to do with my life. I did not know what to do with myself."

"When I began taking Dr. Williams' Pink Pill I weighed 104 pounds. I know I was sick and that a few doses would not cure me and I had patience. Soon the pill began to give me strength, my appetite got in and I could sleep well at night and help out with the housework. Now I weigh 130 pounds and think nothing of walking 10 miles. Dr. Williams' Pink Pill has done wonders for me and the neighbors all know this statement is true."

Dr. Williams' Pink Pills are sold by all dealers or will be sent by mail, post, on receipt of price, 50 cents per box, six boxes \$2.50, by the Dr. Williams Medicine Co., Schenectady, N.Y.

SALESmen WANTED.

We want men, active and thoroughly experienced, who are in health and sufficient income to support themselves, to sell our product. We offer a guarantee of refund money if goods not sold in 30 days. Address to Gilt Edge Light Co., 900 N. Halsted St., Chicago, Ill.

Women Astronomers.

Mrs. Peaton Fleming, who was recently elected a member of the Royal Astronomical society, is not the only woman who has succeeded in the difficult task of becoming a member of the heavens. Miss Henrietta Leavitt discovered 25 variable stars some years ago. Lady Higgins diligently helps her husband, Sir William Higgins, in his astronomical observations, and to the credit of both of them, in South Africa, they possess a very finely equipped observatory, which contains the enormous telescope presented by the royal society to Sir William in recognition of the work accomplished by Lady Higgins and himself in astrophysics.

FINDS VIRTUE IN OLD CLOTHES.

Men's Garments Shaped to the Figure by Age Catch Artist's Eye.

To the eye of the artist the garments of the modern man are only tolerable when one has adapted them somewhat to the lines of the figure; to the average man, however, new cut or clothes are almost abomination.

"It is not only that new clothes are more ugly than old," said a knight of the paleto who discussed the question; "to my mind no one can be properly easy or graceful in them."

"I never feel that I properly know a man until I have him wearing an old suit. Certainly no man can possess beauty by his natural self in evening dress."

"I have noticed again and again how the man in the neighborhood who wears when wearing decent clothes I want, for instance, to a large family gathering some time ago, and for some reason everybody had donned full evening dress. What a difference in taste and formality, but somehow the clothes brought in an element of coldness and formality. We all felt it—even the women, although of course the fair sex are not easily swayed of the merits of well-worn garments. But no man who has dressed in them will find comfort or ease; they will readily give them up. As for the artistic side of modern clothes, it only comes when they have mellowed by use."

WELL PEOPLE TOO

Wise Doctor Gives Postum to Cures Valescents.

A wise doctor tries to give nature its best chance by saving the little strength and building up the wasted energy with simple but powerful nourishment.

"Five years ago," writes a doctor, "I commenced to use Postum in my own practice. I used to drink coffee. I was well pleased with the result, that I had two grocers place it in stock, guaranteeing its sale."

"I then commenced to recommend it to my patients in place of coffee, as it is a better beverage. The consequence is, every town in town is now selling it, as it has become a household necessity in many homes."

"I am sure I prescribe Postum as often as any one remedy in the materia medica—in almost every case of headache and nervousness I treat, and with the best results."

"When I once introduce it into a family, it continues to use it and prescribe it in families where I practice."

"In cold fever and other cases, I give it as a liquid easily absorbed diet. You may use my letter as a reference any way you see fit." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville" in page 17.

"There's a reason."

LABOR FEDERATION IS GROWING APACE

SIX INTERNATIONAL UNIONS
HAVE TAKEN OUT CHARTERS
DURING 1906.

President Gompers Reports on Universal Labor Alliance to Affiliated Organizations, Which Will Be Taken Up by Convention in Minneapolis.

Washington, Sept. 18.—The regular quarterly meeting of the executive council of the American Federation of Labor began Monday.

The financial report for the eleven months of the federation's work showed the total amount received to be \$192,290, the balance on hand October 1, 1905, \$114,265, making a total of \$307,158. The expenditures for the eleven months were \$304,732, leaving the balance on hand September 1, of \$100,423. By August 31, 1906, this has been raised and paid over to the International Typographical union to assist in its eight-hour fight.

Secretary's Report.

Secretary Morrison's report showed that in 1905 1,000 charters were issued to six international unions, which increased to 49 central bodies and 22 federal labor unions and local trade unions, an increase of 29 chartered bodies over 1905.

It was announced that the representation committee will report later as to the federation's campaign programme.

Besides the amounts contributed by unions in other ways, it was reported that the 25 international unions contributed \$16,000 to the relief of the San Francisco sufferers.

Universal Label.

President Gompers reported on the question of a universal label for all of the international organizations, or for the use of the seal of the American Federation of Labor as a means to designate and part of the various union labels issued by the affiliated organizations. A number of organizations were reported favorably disposed and a large number opposed their own label without any other design. The report will be submitted to the federal convention at Minneapolis in November.

Complaint from Porto Rico.

The complaint made by the working people of Porto Rico, that the American Legation had secured them was laid before the executive council and the reply to the report submitted by Gen. Whistler to President Roosevelt was ordered to be transmitted to the president.

A committee consisting of N. S. Sojourner and S. Rubin, of the Boston Newsboys' union appeared, claiming jurisdiction over these boys' working at "Canada" points, that is, the wholesale and retail distribution of newspapers, a few points in the cities. The Brotherhood of Teamsters objecting to the extension of jurisdiction. The president of the teamsters was telegraphed to for his views.

GREAT DAMAGE BY CLOUDBURST

Water Rushes Down Valley of Elk Creek, Destroying Hay and Hogs.

Jackson, Neb., Sept. 17.—At 7:30 o'clock Sunday morning water from a cloudburst in the northwestern part of Dakota county and the eastern part of Sioux county rushed down the valley of Elk creek, sweeping away hundreds of tons of earth, rocks, trees, wagons, railroad tracks, and doing other damage, all of which is conservatively estimated at \$100,000. The wave of water in the creek when it struck this town was seven feet high.

The Omaha and Great Northern roads lost both considerable track.

DEATH OF FORMER GOV. BLISS

Michigan Politician Victim of Apoplexy
In Milwaukee Sanitorium.

Milwaukee, Sept. 17.—Former Gov. Aaron Thomas Bliss of Michigan died here at four o'clock Sunday morning at Sacred Heart sanatorium of apoplexy.

He came to this city for treatment last July, but returned to Saginaw in August. He suffered a relapse and came back a week ago.

Early Sunday morning, while returning from the bathroom, he was seized with a second stroke while four feet from his bed and fell to the floor. His nurse aroused his private physician, who was asleep in an adjoining room, but the governor was dead.

Train Derailed; Fourteen Hurt.
Topeka, Kan., Sept. 18.—Word reached the Atchison & Santa Fe office here that a passenger train, about river fire train No. 16, east bound, early Monday, three miles west of Kansas City, A baggage car, a coach and a chair car left the rails and were turned over. Fourteen of the passengers received minor or serious injuries, but none were killed. The accident was caused by a soft track which had become covered with water at the time. When it occurred the train was ten hours late and running slow.

Two Burned to Death.
Lancaster, Ky., Sept. 18.—Nathan Taylor and End Kaiser, farmers of Buckeye, this county, were burned to death with the house in which they were sleeping. The cause of the fire is unknown. Taylor left a family and Kaiser was a single man.

THE NEWS IN BRIEF.

Mr. James George, 70 years old, a roamer near New York, was found murdered and her home looted.

William H. Meyers, Milwaukee, dropped dead as he was about to register in a hotel in Denver, Colo.

Samuel L. Johnson, 21, may have been killed in a struggle on board the Turkish steamer Ascan-Tewk at the port of

S. Morland and H. M. Janssen, roommates fought each other to death in Portland, Ore., one being shot and the other stabbed.

Graduation of the midshipmen of the Naval Academy at Annapolis in 1906 will be held November 15 at the Atlantic and Pacific stations.

In jumping from a moving train at Cairo, Ill., P. J. Thistlewood, a wealthy grain dealer of Cairo, fell and broke his neck, dying almost instantly.

John Taylor and Bud Kaiser, farmers of Buckeye, O., were buried to death with the house in which they were sleeping. Taylor left a family.

According to the Tientian correspondent of the Berlin Tagblatt, Ewald Tieles, a clerk in the Austrian consulate there, has been killed by Chinese.

Henry Wilkerson, the six-year-old son of Dr. and Mrs. M. R. Wilkerson of Oconomowoc, Wis., was killed by falling from an apple tree near his home.

Major Gen. Adolphus W. Greely, going to take charge of the northern department of the United States army at St. Louis, succeeded Gen. Henry C. Corbin, retired.

The Columbia Typographical Union of Washington, voted to expel 70 members who refused to continue the payment of the assessment levied for strike benefits.

The governors of several states have notified the Pennsylvania state board of trade that they approve of a uniform railroad passenger fare of two cents a mile.

War of the Lid.
St. Cloud, Minn., Sept. 17.—It has been made by Rev. C. W. Stark and other anti-saloonists to enforce the "lid" in St. Cloud, and this time Mayor J. E. C. Rutherford's office is the storm center.

Anti-saloonists say that they have succeeded in interesting other than local officials in the fight, and the strike has been extended to the state line. This time Attorney General Young has been brought into the case.

On the other side, Rev. C. W. Stark and others the attorney general is complicit in preventing proceedings against Mayor Robinson. The matador and his up-to-date wife will be cited to appear in court and show cause why he should not be impeached for malfeasance in office.

Heavy Travel.
Minneapolis—Travellers irritated by railroads officials are the approximate number of people hauled to the Twin Cities on account of the Minnesota state fair fair day, 113,500.

Anti-saloonists say that the cheaper rates granted to the Twin Cities on account of the G. A. R. encampment had some effect on travel to the state fair, but the number of visitors was not what was expected in some quarters. In fact, all the railroads hauled more people last week than they did for the correspondence. The number of passengers, however, will be cited to appear in court and show cause why he should not be impeached for malfeasance in office.

Richmond P. Hobson has written to Secretary Werner of the Y. M. C. A. of Oskosh, Wis., that he will accept the invitation to be the guest of honor at the annual meeting to be given by the Y. M. C. A. January 1.

Bess Jordan and Carl Brown, both under 20 years of age, confessed that they derailed a St. Louis & San Francisco fast passenger train near Kosoma, I. T., July 29, when the drama was killed and the engineer badly wounded.

The Ohio state board of agriculture has appointed A. P. Sandes, Samuel Taylor and William Miller a committee to have charge of the agricultural and horticultural exhibit Ohio in 1911.

Richmond P. Hobson has written to Secretary Werner of the Y. M. C. A. of Oskosh, Wis., that he will accept the invitation to be the guest of honor at the annual meeting to be given by the Y. M. C. A. January 1.

4

PINE COUNTY PIONEER.

ED. C GOTTRY, Editor and Prop.

Entered in the Post Office at Pine City as
Second Class Matter.

PINE CITY, MINN., Sept. 21, 1906

LET US TURN TO STATE ISSUES.

PINE county did nobly by Hon.
John W. Nelson.

DULUTH News Tribune—“Morning
Liar.” Nuff said!

AND Bede carried Millar's pre-
cinct. It is to laugh!

THE Brer from Hinckley will now
please show how good a loser he is.

EVERYBODY didn't get out to the
primaries. Surely a neglect of citizen-
ship duty.

MUNICH went solid for Hamlin and
gave Hawley 11 votes. There aren't
any republicans in Munich.

UNLESS the independents get in
their work there will be no contest
except for the auditorship.

CRAIGET ran better than he ex-
pected. He put up a clean cam-
paign and feels perfectly contented.

We heartily congratulate the vic-
tors and at the same time give the
conquered a measure of our best
wishes.

HENRY P. WEBB had a walk-away.
He received a great compliment in
the way of votes in nearly every pre-
mises in the county.

LET us see! Simpson, of Finlay-
son News fame, went several better
than the Hinckley Enterprise. War-
ren had better hurry.

THE gubernatorial campaign rather
shadowed down during the pri-
mary stunts. Better get into the
game, you convention nominees—the
water's fine.

COUNTY SURVEYOR HAMLIN has his

transit trained on Hans Sandwick,
the Willow River candidate for aud-
itor. A pretty interesting fight will
be the result.

JUST think of Hinckley and sur-
rounding precincts going all the way
from 2 to 1 to 5 to 1 for Bede. The
Enterprise did well. It is exceed-
ingly INFLUENTIAL—not.

BENE is one of the great men of
the state, and has national popular-
ity. And his home is located in the
clover bed of the world. Pine coun-
try does feel proud of her adopted
son; he is “the goods,” and, may he
live long and prosper is our prayer.

THERE will be at least two changes
in the official circles at the state
house on the first of January, 1907.
Auditor _____ will assume
charge of affairs, as will also Samuel
Scott in the attorney's office. Let
us give them our every encourage-
ment.

JOHNSON, RINES AND WEBB will

represent this district at the Capitol
this coming winter. They may

not be able to accomplish as much
as some few expect, but even though

they stand by only their convictions,

as published in their announce-
ments, they will be doing much.

THE big Bede vote at Hinckley
and surrounding precincts shows

that John T. Craig the warrior who

has become a veteran in political
battles, has been up and doing all

the time. Mr. Craig is a con-
scientious and staunch republican and is

a tower of strength in pulling votes

for those whom he considers deserv-
ing.

THE fight between Editor Rines
and Chas. F. Serline proved a most

interesting one, as it was conceded
would be soon after Serline's entry

into the race. Serline put up a
great battle, which can be easily

imagined when it is known that

he lost by only a hundred or so of

votes. Rines has been in the news-

paper business just about long

enough to have the ability to get

what he goes after in the legislature.

His past experience in county office

will also be a factor in his knowl-

edge of public affairs.

Scrub yourselves daily, you're not

clean inside. Clean insides mean

clean stomach, bowels, blood, liver

clean, healthy tissue in every organ.

Moral: Take Hollister's Rocky Moun-

tain Tea. 35 cents, Tea or Tablets

Breckenridge's Pharmacy.

There is a movement on foot to
concentrate the creamery business
now flourishing in every county of
the state, in big cities, and as an indu-
cement aluring offers are made to
the farmers, by the promoters of the
scheme, to get them to send their
cream to the cities instead of patroniz-
ing their home co-operative creameries.

If the farmers are wise they will
stand by their own institutions. The
city speculators don't care a rap for
the welfare of the farmers and go
into the venture for what there is in
it. It is very probable that in the
beginning they will pay a trifle more
for cream than the country creameries,
but should they succeed in crowding the latter out of business
which, of course, will be their aim, a
different time will be heard. We
may then look for Standard Oil
methods and with no remedy on hand
to counteract it. Every business
man and every farmer knows how
the big oil company crushes competition.
Whenever an independent
oil concern attempted to sell its oil
in a town in competition with Rockefel-
ler the latter sold his oil at and
below cost until the other fellow
gave up, and then raised the price a
point or two above the former price
to make up for the loss sustained in
driving a competitor out of business.

Stand by your own creameries. If
they need improvements get them.
Have everything up-to-date, includ-
ing the buttermaker. You then will
command the highest market price
obtainable and need not fear that a
butter trust, which is now being for-
mulated, will take all the profits and let
you assume all the trouble and
responsibility. After the country
creameries are once driven out of
business it will be an easy matter
for the city speculators to dictate
price, quality, and conditions. It
will be a good deal like a commission
house business—the producer takes
the risk and the city man takes the
rest.—St. Peter Free Press.

FLOUR FEED BRAN SHORTS SEEDS

and Poultry Supplies of all kinds

BIG STOCK--PRICE RIGHT

ALLEN'S FLOUR, FEED & SEED STORE

Demonstration and Special Sale of The

Monarch
MALLEABLE
The "Stay Satisfactory" Range

ADMISSION FREE

Exhibit All Week & Sept. 24th to 29th

Come in and see the Range you can keep polished without blacking. Here are some of the many superior features of the Monarch Range we would like to show to the ladies of Pine City and vicinity.

1. MALLEABLE IRON TOP. Malleable iron is manufactured under such an intense heat and pressure that the usual expansion and contraction caused by an ordinary fire has no effect upon it whatever.

2. SOLID CONSTRUCTION. Malleable angles RIVETED firmly to the steel with Norway Iron Rivets, make all seams solid. No bolts are used or stove party to fall out of the joints after short use.

3. DUPLICATE DRAFT. A damper in front and one in the back gives perfect circulation. No unburned coal thrown away with ashes. It's a wonder-worker.

4. IMPROVED OVEN. An arrangement of flues that permits baking with an ordinary cooking fire. All dust or gas excluded.

Visitors are not importuned to buy—but we are confident we can show you how to make your stove money go fartherest.

Come in and sample the excellent cooking done on the Monarch. Coffee and biscuits served free.

SMITH = The Hardware Man
PINE CITY, MINNESOTA

FREE OFFER!

YOUR CHOICE OF A

\$7.50 SET OF COOKING UTENSILS
consisting of Enam-
eled Ware and Nickeled Copper Ware,
or an

\$8.50 SEMI-PORCELAIN DINNER SET
handsomely decorated in
Green and Gold, given
with each Monarch Range sold by us during the
period of this special sale.

No Advance In Price On Account Of This Offer.

News of the Week.

Clips Picked up Around Town and Vicinity.

This is fair weather. Yes? Not. Remember the big dance last night at Rath 2 hall.

Lee Webster is here looking after Hinckley's exhibit at the county fair.

M. C. Dean, of Willow River, transacted business in this place Monday.

A. P. Erickson was off from Rock Creek on a brief business visit yesterday.

Frank Mortenson was down from Hinckley Wednesday and made his office a short visit.

Marion Lones went to St. Paul Sunday to enter into the employ of Griggs, Cooper & Co.

Eugene Barnum was down from Cloquet Tuesday and visited with his parents Dr. and Mrs. E. E. Barnum.

Mrs. J. L. Long's parents, Mr. and Mrs. W. H. Oppelt, arrived from Atikie Friday last for a two weeks' visit.

J. Bennett Smith departed Wednesday for his home at Wilkes-Barre, Penn. He has not decided when he will return here.

Rev. Husemer will be at Cornell Sunday and therefore no services will be held in the German Lutheran church on that day.

Joe O'Brien, who has a position with the N. P. Ry. Co., visited with his mother, Mrs. M. L. O'Brien, a couple days of this week.

Royal Hunt disposed of his bear cubs to Dabbs & Sons Co., of Sioux City, Iowa, and shipped them to their new home Wednesday.

Mrs. L. L. Sellers and babe departed for Del Rio, Wash. Wednesday, after an extended visit with her parents, Dr. and Mrs. E. E. Barnum.

Rev. F. H. Fetham will preach in the M. E. church Sunday evening. His subject will be "Christian Citizenship." Everybody cordially invited.

Short local jottings are not scarce this week but our space is limited owing to news of more importance and the time spent in its preparation.

Jas. Carson will offer his personal effects at auction tomorrow. The sale will be held at Chaleef's place, Rock Creek. Mr. Carson will remove to Iowa.

Jas. Hurley spent Sunday with his family. He has charge of the Hurley's wholesale establishment at St. Paul during the absence of his brother William.

A regular meeting of the county commissioners was held at the court house Monday. All members were present. The usual routine of business was transacted.

Jos. Wilke, the popular landlady of the Island Hotel at Pokegama lake, returned Saturday from a visit among his old comrades in the fire department at St. Paul.

Zara Edwards, who for the past two weeks has been working in Hinckley, returned the first of the week, and has resumed his position in the PIONEER office.

A report has just reached us announcing the marriage of Artemus Butwick and a young lady at Duluth. We understand that his has been a benefit for about a month.

Hon. J. Adam Hede came home from Duluth on Tuesday's limited and Wednesday morning departed for Barnum, where he spoke at the Carlton county fair that afternoon.

Miss Agnes Hurley and Martin Hurley departed Tuesday for their studies at Chicago and New Haven, Conn. As stated last week, Miss Hurley will further her knowledge in music at the Sherwood School of Music, while Mr. Hurley will take a post-graduate course in law at Yale.

A Le Sueur man who has a remarkably pretty daughter pre-empted her favorite hammock on the side veranda a few nights ago. Not knowing that daughter expected a visitor, he dozed away, but a few minutes later awoke with a start. In the dim light he saw that a young fellow was stooping over him, and there a voice murmured: "Darling, the old man's gone to roost. Give me just one kiss." That bold swain turned three back handshakes when papa sat up and said: "Skidoo!"—Herald, St. Peter.

From appearances at the present writing, we are led to think that old Jupiter Pluvius is treating the fair association rather shabbily. It's a shame that we can't boycott Jupiter just for the sake of sweet revenge.

The ladies of the M. E. church wish to announce that no dinner will be served at their Exchange in the Buttwick building tomorrow. Any who wish supplies, however, can have the same by notifying the ladies.

The members of the Women's Reading Club met with their president, Mrs. H. W. Hartle, Monday evening. About twenty were present. Refreshments were served and the evening was spent very pleasantly.

Mrs. Jas. Hurley went to St. Paul Tuesday on account of the death of her brother in law, P. H. O'Phalen, who died at that place Tuesday morning after suffering for a number of years from asthma. Mr. O'Phalen died here occasionally and made many friends who will regret to learn of his demise.

Y Not Flak It Simpl?

A siml styl of spelin has been okd by som big men, andt has its good points. But the list give out is not big enuf. If we ar to hav a siml systm not get down to bed roll rate of? Y not instead of the words that can o speld in an ezy way? Y b a thousan yrs doing somthing that u can do in one? Just think of the trib to spel it when it mite b so much easier to tak a short cut. Then y cut spel just as well as the new men and wud say no caus to blash. Then y cut somtimes mist the way other folks spel. If we er to hav re-form let us reform in earnest. T buse the siml way wud look fun at first but after a while it wud be alrite, and think of the sain in tim, ink and paper! Ther is nothing lik gettin ust to an inovus. Then it coms as a matr of corse. We hav the siml life, y not the siml spelin? We paus for answe.—St. Cloud Journal Press.

A Good Book for Six Cents.

It describes your own land, the immediate region you live in—the Northwest. It costs but the postage required to mail it. It is printed on the best of paper, is profusely illustrated. It is suitable for your home, for schools and for libraries. It is a nice souvenir to send to your friends in the East. It tells of Yellowstone Park, the Bitterroot Mountains in Montana, the Quenit Indians on the North Pacific coast, the Columbia River scenery, the marvelous Puget Sound region and Alaska. It will sent to any address for six cents. The book is "WONDERLAND 1906," published by the Northern Pacific railway, and is for general distribution. Send six cents to A. M. Cleland, General Passenger Agent, St. Paul, Minn., or as many times six cents as you wish copies with the proper addresses, and the little volume will be promptly forwarded by that gentleman. Don't wait. The book has an object—to educate and inform the public about the Northwest. Help it perform its mission. 423

A Foreign Concern.

During the past week a representative of the Bridgeman & Russell Co., of Duluth, has been working the country about here in an effort to obtain cream for a centralizing plant at Duluth. Duluth naturally wants everything in the catalogue and cream is not a by-product. The Bridgeman Co., like all other centralizing establishments, wants all the business possible and in order to get this business will give a premium on their manufacturing products. We have a good creamery here; we have a good butter-maker, and a good price is being paid for the article manufactured here.

Now Bridge comes in. If he didn't, the figures some other concern would. Other concerns have tried. They all partially succeeded. They all give a good price at first and will continue doing so until they have made a weakness of the local concern. Then they will have the farmer at their mercy and will pay as they see fit. When they will have Morgan made the market then it will be late to holler!

Better stand by your home creamery. It will pay you in the end.

Pineapple for Consumption.

It has long been known by the natives of South America that the juice of the fruit of the ripe pineapple being of such antiseptic qualities, will thoroughly destroy the germs of catarrh, consumption and la grippe. A preparation known as Syrup of Pine apple Expectorant, prepared by Stek Bros. & Co., contains these essential qualities. It is sold by L. E. Breckinridge for 50 cents.

Popular Specials.

Fresh oysters at Stek Bros.

Row Boat for Sale—Inquire of Mrs. M. L. O'Brien.

Dr. Smartt announces that he will be at the Phoenix Hotel, Hinckley, Sept. 20th, and return to Pine City on the same day for his usual 20 days stay. Office in the Rybak block.

Stek Bros. are paying 17 cents for eggs this week.

A Talcum Powder that soothes and heals. Hydro, 25 cts. It's fine, and it's Borated.

Breckenridge's Pharmacy.

Dr. K. W. Knapp, dentist, permanently located in the new Vaseline building.

PENN'S MISTAKE

By F. FITZGERALD.

Mrs. Coffey stood in the kitchen of the "Bush Hotel" and fried eggs, and Mr. Coffey, sitting at a table near the window, peeled potatoes.

Then Mrs. Coffey pulled a clothes-horse nearer the fire; on it was a tweed skirt, a jacket, and the same material, gartered at the waist, and a pair of walking shoes, a small size and well made.

"Are the gaiter things dry?" inquired Mr. Coffey merrily, as he slowly and carefully removed the eyes from a potato.

Mr. Coffey snuffed and repeated the question satirically. "An' why wouldn't they be dry? He got here dreckly after dinner, didn't he? I giv' my his clo's, didn't he? An' I had 'em afore the fire all the afternoon, hadn't I? And you see me 'em to his door, didn't you?" emphasizing each question by his vigorous actions round the fireplace.

Mr. Coffey slowly put the potatoes into a saucepan, and his wife began collecting cups and saucers on a tray.

"Then he don't know about the young la's been here!" Mr. Coffey's countenance was overmastering his discretion.

"No, he don't; nor she don't know he's here either; an' I tell her when I lay on the table."

With this, Mrs. Coffey took up the tray, and disappeared into the next room, leaving the kitchen as she went.

"Hope you're not feelin' as if you'd got a chill, miss?" she said, addressing a girl who sat in a chair by the fire, and who was wearing the aforesaid tweed skirt.

She looked up from her book and smiled. "No, I am feeling perfectly well, thanks, and I'm looking forward to my supper." She wondered, with some slight alarm, if Mrs. Coffey meant a real meal, with which the two plates were being placed on the table, two plates, two knives, two forks.

"There's a gentleman stavin' here," said Mrs. Coffey, suavely, "an' it'll be nice company for you, he seems a very genial person."

"I will have supper with you by myself," said the girl coldly. Inwardly she was furious. Was she to suffer a prolonged tête-à-tête with a stranger—a commercial traveler, of course.

Mrs. Coffey looked at her in some surprise. "I'm sure he's quite respects."

His Arms Were Around Her.

Tom Coffey 'd never have let him in if he wasn't. Coffey's ain't the place where blackguards come!" this with a toss of her head. "She is a real gent, I'm sure, as you can see in his finger an' lots of other joolery."

The girl shuddered, though, had she known it, the jewelry, with the exception of the ring, was purely a fiction of Mrs. Coffey's.

The girl tried again. "It is really very kind of you, sir, which you could make some other arrangement."

"This is the only sitting room in the only sitting room in the house!"

"Yes, it is," replied Mrs. Coffey, shortly, and bounded out with a smile. "Come along with me, we'll have a few more cups of tea, and then she flushed scarlet with a nervous smile, dropping him a look over the ground. They looked at one another for a moment, and then she said in a low voice: "How dare you come?"

But he did not answer, and Mrs. Coffey entered with a jug of hot water.

"Now you two," she said briskly, "I hope you'll be good friends. The gentleman can sit here an' serve the bacon an' eggs, an' the lady can pour out the tea, quite domestic like," and she closed the door behind her.

"If you want anythin' jest rap on the table, I'll hear you. I'm jest in the kitchen gettin' Coffey's tea." She gave a surreptitious wink, and then disappeared, looking particularly knowing.

Tom Coffey, who had been looking down at her, "Heaven knows I am not to blame! What fate on earth could have brought us together on this day of all days. What the dev—dicks are you doing here all by yourself?"

"On a walking tour," she replied.

(Copyright, 1908, by Joseph H. Howells.)

Wheat in Western Canada

A Good Crop of Excellent Quality Has Been Raised This Year.

The grain crop estimates from the Canadian West make a range from \$7,000,000 to 115,000,000 bushels, and an accurate statement will be somewhere between these figures—but probably not far from 90,000,000 bushels.

This year the larger acreage shows a marked increase of from 15 to 20 per cent, and had the average yield of last year been maintained,

the aggregate would assuredly have gone considerably beyond the 100,000,000 bushel mark.

The exceptionally large number of amateur farmers, however, account for much of the increased area, and responsible for a part of the decreased average yield.

The first crop raised by the new settlers—often unacquainted with the conditions of western agriculture—is usually prolific, and 1905-06 placed a very large number of amateur farmers behind the sills of the plow; but they will learn, and learn fast, and with another season or two will help to raise the average instead of depressing it.

On the estimates to hand, that of the Northwest Grain Dealers' association is the lowest: Wheat, 87,203,000 bushels; oats, 75,725,000 bushels, and barley, 19,980,000 bushels. The Winnipeg Free Press sent out five special correspondents, who returned

1904.
Manitoba 29,165,542 54,209,372 11,177,970
Saskatchewan 18,841,782 46,000,000 16,000,000
Alberta 2,279,450 32,050,000 12,794,547

1905.
Manitoba 35,041,454 45,486,000 16,000,000
Saskatchewan 28,107,182 59,515,000 16,000,000
Alberta 2,327,950 8,214,100 16,771,300

\$4,162,000 14,211,300 16,771,300

This year, the lowest returns are expected, and the highest at 1905, when 87,200,000 bushels; oats, 75,725,000, and barley at 19,980,000 bushels, which is very satisfactory, if not absolutely satisfying.

To better appreciate this fact, all that is necessary to do is to go back 25 years in the history of the Western Canada, and at that time the entire production of the whole country was confined to Manitoba, and consisted of 1,000,000 bushels of wheat, on an acreage of 51,309 and 1,270,260 bushels of oats.

It was at that time required to import most of the wheat and the extra demand was an unknown quantity. To-day, there are nearly 20,000,000 bushels of wheat for local consumption and seed, and there will be about 70,000,000 bushels for export, which is 10 times per bushel than in 1905, and to the extent of nearly \$50,000,000. The barley and oats exported are good for an additional \$25,000,000, and

the combined amounts, together with that received from dairying and other sources, are bound to make financial conditions very easy in the Canadian West until the next harvest comes.

In the last week of August a tour of inspection was made along the line of railway in the wheat area by the Northwest Grain Dealers' association and a number of American grain experts.

They found the wheat in excellent condition, and the quality of the grain was admitted by all the visitors.

In early winter, before frost has injured the twigs, cut graft scions for spring grafting. Take two scions with a sharp knife, and make a cut in the bark.

Three months ago! How long it seemed! How pale and emaciated she had been since! How her attempts at artificial nursing had failed. How new attempts to bring her back to health had failed, though.

How helpless she had been, and how entirely certain that she was in the wrong, that her patient temper was to blame, and that she still loved Tom Geoffrey with all her heart!

She was given a few dollars, some money and entire freedom, and at present she loathed and hated that freedom.

A tear dropped on the white apron, and she gave a little shudder of disgust that she should be caught looking at a right object.

She turned to the door for Mr. Coffey. "Bring me my own things, please," she said. "If they are dry, I am afraid of spoiling this handsome dress of yours." So a few minutes later she was in her own things, and she seemed to have lost the fear in front of the fire. At nine o'clock Mrs. Coffey brought her a glass of milk and a slice of cake.

She sipped some of the milk and surreptitiously poured the rest out of the window, the cake she hid under a glass. "Half an hour later she heard the horse's hoofs again, and then Tom appeared.

"Fred is driving over for you now," he said. He looked approvingly at her change of attire. "She was so pretty, and her hair was done up."

"Tom, dear, was it a mistake?" There are any doubt in your mind? Can things be as they were before? I love you as much as ever," she said.

"I am sorry to tell you, but the doctor says you must be sent to the hospital again.

"The girl shuddered, though, had she known it, the jewelry, with the exception of the ring, was purely a fiction of Mrs. Coffey's.

The girl tried again. "It is really very kind of you, sir, which you could make some other arrangement."

"This is the only sitting room in the only sitting room in the house!"

"Yes, it is," replied Mrs. Coffey, shortly, and bounded out with a smile. "Come along with me, we'll have a few more cups of tea, and then she flushed scarlet with a nervous smile, dropping him a look over the ground. They looked at one another for a moment, and then she said in a low voice: "How dare you come?"

But he did not answer, and Mrs. Coffey entered with a jug of hot water.

"Now you two," she said briskly, "I hope you'll be good friends. The gentleman can sit here an' serve the bacon an' eggs, an' the lady can pour out the tea, quite domestic like," and she closed the door behind her.

"If you want anythin' jest rap on the table, I'll hear you. I'm jest in the kitchen gettin' Coffey's tea." She gave a surreptitious wink, and then disappeared, looking particularly knowing.

Tom Coffey, who had been looking down at her, "Heaven knows I am not to blame! What fate on earth could have brought us together on this day of all days. What the dev—dicks are you doing here all by yourself?"

"On a walking tour," she replied.

(Copyright, 1908, by Joseph H. Howells.)

All of which goes to show that a wheat crop of nearly if not fully 90,000,000 bushels may be safely counted

upon. This is less than was looked for by some enthusiastic western people, who maintained that increased acreage necessarily meant an increased aggregate. Still, 90,000,000 bushels is a large amount, and what was looked upon last year as a good crop, and we do not think Western Canada has much cause to feel down in the mouth because the acreage on the operations of these wheat farmers has not been increased. Taking one year with another, that country has demonstrated that it can be depended upon as a great wheat growing territory, and its record is reckoned with in the markets of the world.

The yield in oats was increased this year by nearly 1,500,000 bushels, the aggregate estimate being 75,725,000, with the average bushel value of 40 cents. The estimated crop of barley is placed at 16,980,000 bushels, which is a slight increase over the total of last year. Of fix the estimate given is 690,184 bushels, which is a material increase upon last year's figure.

Following are the figures in detail for wheat, oats, and barley in Western Canada for the three years last past:

1903.
Wheat 30,116,978 54,209,372 11,177,970
Oats 6,707,500 12,915,000 16,000,000
Barley 1,279,450 32,050,000 12,794,547

1904.
Wheat 29,165,542 54,209,372 11,177,970
Oats 8,214,100 16,771,300 16,771,300
Barley 1,279,450 32,050,000 12,794,547

1905.
Wheat 35,041,454 45,486,000 16,000,000
Oats 8,214,100 16,771,300 16,771,300
Barley 1,279,450 32,050,000 12,794,547

This with nearly 90,000,000 bushels of barley means a considerable amount of grain for the farmers of Western Canada.

From time to time, new taxes, heavier taxation, and increased expenses, railway services, etc., have been imposed upon land to every seller willing and able to sell.

Advice and information may be obtained from the Government, Ottawa, Ontario, Canada; or from authorized Clifford Blue Grand Forks, N. Dak.; W. D. MacLean, 301 Jackson Street, St. Paul, Minn.

AIDS FOR HOSTESS.

SUGGESTIONS FOR ENTERTAINMENTS THAT WILL PLEASE HER GUESTS.

A Novel Literary Contest That Will Afford Much Amusement for a Goodly Number of Persons—Other Suggestions.

Make book-shaped programmes and attach the small half-round pencils; the outside cover may be decorated with sketches in water color or ink, according to the capacity of the hostess, or it may simply bear the name and date. Inside inscribe the following questions, the answers to which are all in the titles of well-known books. Other questions and other titles may be submitted as the hostess desires. If both men and gentlemen are included among the guests, award a prize to the lady and one to the man having the best lists.

QUESTIONS.

1. Who was the colonial bride?
2. Who was the colonial bridegroom?
3. Where did they meet?
4. What did he tell her?
5. What was her face then?
6. With what feeling did they look forward to their wedding?
7. What date was set for the wed-
- ding?
8. Who performed the ceremony?
9. Who assisted him in the cere-
- mony?
10. What did everyone give the bride on her appearance?
11. What wove did they take?
12. Who furnished the flowers?
13. Where did they go on their wedding journey?
14. What house was their first home?
15. What came to them a year later?
16. What did their married life prove?
17. Who was the best man?

ANSWERS.

1. "Janice Meredith"—Paul Lees-ter Ford.
2. "Richard Carvel"—Winston Churchill.
3. "Castle Craneycrown"—George Barr McCutcheon.
4. "Twice Told Tales"—Hawthorne.
5. "A Study in Scarlet"—Conan Doyle.
6. "Great Expectations"—Dickens.
7. "Middlemarch"—George Eliot.
8. "The Vicar of Wakefield"—Goldsmith.
9. "The Little Minister"—Barrie.
10. "The Right of Way"—Gilbert Parker.
11. "To Have and to Hold"—Mary Johnston.
12. "Elizabeth and Her German Garden"—Anon.
13. "Far from the Madding Crowd"—Hardy.
14. "The House of the Seven Gables"—Hawthorne.
15. "Heavenly Twins"—Sarah Grand.
16. "Bitter Sweet"—Holland.
17. "The Gentleman from Indiana"—Booth Tarkington.

A correspondent asks how to present the gifts to a bride-elect at a "chinkin" shower. A pretty way is to have each article marked with the donor's name and a suitable sentiment or jingle with it to be read as each article is delivered by the spokesman, or the parcels may be brought in on a tray at the table if a luncheon is being served. This prolongs the feast, and is an entertainment in itself. They may also be presented in the form of "presents," this necessitates that articles be sent to the hostess beforehand. Still another way is to hide the parcels, then have some one play loud and soft music on the piano, according to whether the "bride" in her search is "warm" or "cold," in other words, whether "she" is far or near the object.

New Ways of Fixing the Hair.

1. Couture with high puffs and curly.
2. Back view of No. 1, showing the style.
3. A practical everyday way of dressing the hair.
4. Neat pompadour with cold cat Jack of Head No. 4.
5. Hair arrangement as No. 4, with curl at neck.

The Present Day Doctrine of Beauty.

It Demands More Than Good Looks That Are Only Skin Deep.

The present day doctrine of beauty demands serenity and patience through small trials as well as fortitude in meeting life's larger ills.

Wry mouthed lines are an index to one's life book.

The selfish, cold, un sympathetic woman has a signboard on her face and she advertises her unloveliness by growing her plates between her eyes by allowing her mouth to drop at the corners, and her nostrils to wrinkle, and making a portrait of misery out of herself in which she really rejoices.

But the optimist, the individual of good cheer and laughter and helpful deeds, walks serenely along the high seas with a pleasant, beaming face, which is the true sign of youth, that she never really outgrows her happy days of maul pies and pinwafers.

She is a genuine delight and beauty to humanity.

While drug shops and masseuses will do a lot to preserve one's youth, the really youthful woman is the optimist.

Beauty that attracts the admiration of the crowd brings small reward, but the beauty that creates love and friendship is the foundation of a youthful old age.

Beauty and young looking if you can—it will help some.

Beauty is not beauty that is only skin deep.

A Delightful Gown for Afternoon Wear.

It is Made of a Natural Tone Rajah Silk with a Panel Front Skirt.

This is a typical model for a gown in natural tone rajah silk. The front has a panel front formed of fine tucks running from waist to foot line, otherwise it is quite plain. The unique waist, however, is the charming feature. There is an adjustable belt made of heavy lace, each end with a tiny ruching of silk which matches the rajah material in color. A ruke.

Dainty and Attractive.

and stock are gathered, and on each shoulder there is a spray of bright ribbon, extending to bust line, where it fastens to lower part of blouse with a tiny gold buckle. Short sleeves are finished with velvet ribbon and a cap of lace over shoulder, and a girl's lace bows are fastened in front with a large dull-gold buckles.

To Shorten Skirt Pattern:

In shortening a skirt pattern always fold a plait across the middle of the pattern. Never shorten from the top or bottom of the skirt, or the shape will be spoiled.

FADED TO A SHADOW.

Worn Down by Five Years of Suffering from Kidney Complaint.

Mrs. Remetta Myers, of 120 South Tenth St., Ironton, O., says: "I have worked hard in my time and have been exposed again and again to elements of weather. It is no wonder my kidneys gave out and I went all to pieces at last.

For five years I was fading away and I could not get out of the house. I was nervous, restless and sleepless at night, and lame and sore in the morning. Sometimes everything would whirl and blur before me. I bloated so badly I could not wear tight clothing, and had to put on clothes one size larger than usual.

The urine was disordered and passages were dreadfully frequent. I got help from the first box of Doan's Kidney Pills, however, and by the time I had taken four boxes the pain and swelling gone. I have been in good health ever since."

Sold by all dealers, 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Biographies of Massacrits.

Roland Beggs, probably the greatest German sculptor, has passed his seventy-fifth birthday. Ten weeks before Bismarck's death Beggs appeared at Friedrichshafen to get a final impression of Germany's most efficient figure before beginning work on the great Bismarck monument voted by the Reichstag. When Bismarck stated his mission Beggs replied: "Gott, why do you wish to set me a great monument? Represent me as being on crutches!"

AWFUL PSORIASIS 35 YEARS.

Terrible Scaly Humor in Patches All Over the Body—Skin Cracked and Bleeding—Cured by Cuticura.

"I was afflicted with psoriasis for thirty-five years. It was in patches all over my body. I used three cakes of Cuticura Soap, six boxes of Ointment and two bottles of Resolvent. In thirty days I was completely cured, and I think permanently, as it was about five years ago. The psoriasis was on my hands, feet, arms, legs, generally forming a circle, leaving in the center a spot about the size of a silver dollar of sound flesh. In a short time the affected circle would form a very dry scale of a white silvery appearance and would easily come off. To remove the entire scales by bathing or using oil to soften them the flesh would be perfectly raw, and a light discharge of bloody substance would ooze out. That scale crust would form again in a few hours after.

I was afflicted on my arms and limbs, although it was in spots all over my body, also on my scalp. If I let the scales remain too long without removing by bath or otherwise, the skin would crack and bleed. I suffered in terrible pain, especially at night, after getting warm in bed, or blood warm by exercise, when it would be almost unbearable. W. M. Chidester, Hutch-inson, Kan., April 20, 1905."

Sublime Faith.

Nothing short of true faith will separate a bald-headed man from the hard-earned price of a bottle of hair restorer.

How Rhodes and Holt Met.

Mr. Rhodes once told a friend of friends about meeting with Holt. "I called at Forrester's one evening," he said, "and there was Holt working away as usual. 'Do you never take a rest?' I asked. 'Not often,' he replied. 'Well, what's your game?' said I. 'I am trying to get a wide diamond out of the hole I am much older,' he answered, as he got off his stool. 'That's funny,' I said. 'I have made up my mind to do the same; we had better join hands.' John hands, they did. Unlike Alfred Holt, Charles Rhodes had once this characteristic involved him in a difficulty. Pitching a balance sheet into the pile of papers before Holt, he exclaimed desperately, 'Here, you understand things; for heaven's sake tell me how I stand.'

Laundry work at home would be much more satisfactory if the right starch were used. In order to get the desired result, it is necessary to use a starch that is much starch than the beauty and smoothness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using a starch that is made of the best materials.

Niceties Women Buy.

Customer—Those are the neatest looking stockings I ever saw. Why do you keep 'em?

Haberdasher—To sell.

Customer—When on earth buys 'em?

Haberdasher—Women, to give to their husbands.

WHAT JOY THEY BRING TO EVERY HOME

as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature, and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial. In effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have whenever a laxative remedy is required.
