FIRST OF SEASON

Open Meeting of Woman's Reading Club—
 Madames Harte, Lang and Claggett
 Hostesses at Function.

Monday evening an open meeting of the Woman's Reading Club was held at the home of Mrs. H. W. Harte. It was the first of a series of meetings which will be held monthly. Madames I. H. Claggett and Mrs. Laing assisted Mrs. Harte as hostesses.

After the arrival of all the guests a short musical program was announced by the spokesman, Mr. B. W. Harte, the program consisting of well selected instrumental numbers by Miss Muller and I. H. Claggett and vocal solos by Miss Theobald Wing and Arthur Olsen.

Mirth provoking games served to enliven the evening, after which a luncheon was served. A timely hit of the evening was a straw vote for Johnson and Cole, the popular gubernatorial candidates. Whether the ladies were advocates of woman suffrage or not made no difference, as they all seemed to enter into the spirit of ballot casting with far more enthusiasm than did their brothers. The result showed 25 to 14 in Johnson's favor, and at the same time demonstrated that a representative portion of our gentler populace had something to do with influencing those who gave the democratic nomination such a huge vote on Tuesday.

We must, of course, that the ladies—with but few exceptions—worked and voted for the executive. A straw vote was also taken on the auditorship and resulted in a decisive victory for Hamlin.

Retained with their suffrage necessities for one evening and knowing that the morrow was fast approaching, the ladies decided to bid adieu to their hostesses. The gentlemen, with new and better ideas of literary affairs of Pine City but without any Shakespeare rolls down up in their crannies, also said so adieu and went the way of their sisters, hoping at the time that all of the open meetings would find them answering the roll call. The meeting was a complete success and the ladies have the individual good-will and gratefulness of the gentlemen.

B. G. Wells, Philip Nease, John Agius, of Rock Creek, and P. H. Smith, of Rush City, passed through here Thursday morning for the north part of the county in search of the bounding deer.

COUNCIL DOINGS

Grant New Street Light—Pound Master Appointed—May Extend Street—Liquor License Applied For.

The common council of this village met in regular session at the recorder's office Monday evening at 8 o'clock. The meeting was called to order by the president. Members present: T. Doser, president; M. Prochaskas, J. M. Collins, A. Kaim, E. L. Wilcox, and D. A. Payne, councilmen, and F. Poferl, recorder.

The minutes of the meeting of Oct. 1st were read and on motion were approved.

A petition signed by a number of citizens asking for a light to be put on corner of 10th St. and 3rd Ave., was on motion granted.

A petition signed by a number of citizens asking for the village council to extend a certain street 160 ft. in the Veenhoven and Brandes addition No. 2, was referred to the village attorney so that legal action may be taken.

Thus Ling was, on motion, appointed pound master.

M. A. Soderbeck made application for a liquor license to be granted him from the 1st day of Dec., 1906, to the 30th day of Nov., 1907. The 30th day of Nov. was set for day of hearing.

The following claims against the village were audited and allowed and the recorder was instructed to issue orders for the several specified amounts, to wit:

F. M. Smith services at primary election, \$4.65; Pine City Mill & Elect. Co., street lights for October, \$44.00; Westerman Lum. Co., lumber, \$34.01; J. Griffith, marshall salary for October, \$40; F. A. Johnson, care of engine Oct., \$5; F. Poferl, recorder's salary Oct., \$10; W. S. Booth & Son, justice blanks, \$1.85; C. Koletzki, 11 days service St. Com., \$19.25; D. Husted, 11 days work on St. \$16.60; P. Connor, 71 days work with team, \$22.50; P. Connor, drayage, 500; E. Weyscheider, 1 day work on street, \$1.50.

No further business appearing, motion adjourned.

Frank Poferl, Recorder.

No. 121, the south bound fast freight which generally rushes through this place at about 12 o'clock at night, was derailed between Bernoulli and Mission Creek Wednesday night. The train blocked the track and caused a full in traffic for several hours.

JOHNSON LANDSLIDE

CARRIES NEARLY EVERY COUNTY—ONE DEMOCRAT ELECTED TO CONGRESS

Hamlin is Next Auditor Having Defeated Sandwick

MAJORITY OF 130 GIVEN HAMLIN—NO OTHER COUNTY CONTEST—BEDE POLLS HUGE VOTE

A. L. Cole of Walker was decisively defeated for governor by John A. Johnson of St. Peter.

Johnson's majority is tremendous, and, when the complete returns are known, it is conservatively estimated that he will have about 50,000 plurality. Even his most ardent supporters did not dare hope for an endorsement so enthusiastic. He carried nearly every county in the state. The total vote is lighter than that of two years ago but it is not likely that the delinquency was due to Johnson admirers. The Cole vote is far below that received by Dunn in 1904.

The entire democratic slate ticket, with the exception of Governor Johnson, was defeated which goes to show the personal popularity of the successful executive who was little known outside of his home county two years ago. He is a popular idol now, standing in the same light with the majority in Minnesota does President Roosevelt with the greater portion of the Nation's population. In his statement to the press the portion of the Nation's population.

"I am satisfied with the election, and I anticipate when the returns are all in, I will have a majority of from 30,000 to 50,000. I made 119 speeches, in which I took occasion to lay the facts before the people. I have never made any personal utterance concerning Mr. Cole, during the campaign, and I have no regret for anything I have stated. I am proud to know I will have an opportunity to give my best efforts for the next two years to show my appreciation of this honor by doing all in my power to enforce the laws."

"I am especially obliged to the great army of republican voters who have made some concessions in this contest."

In the 2nd Congressional district, after a most bitter fight, W. S. Hammond wrangled the congressional toga from Jas. T. McCleary. Hammond is the only democrat to represent a Minnesota district in the next Congress.

Although the reelection of Congressman Bede was assured Geo. F. Peterson, the public ownership candidate, received more votes in the county than did Miller, whom Bede buried at the primaries. Miller's vote at the primaries was 303; Peterson's vote Tuesday was 341 which Mr. Bede made to look insignificant by a poll of 1475. Mr. Bede's vote all over the district is very large.

Very little interest was evinced in county politics, there being but one contest. Hans A. Sandwick was the contending republican candidate against Wm. H. Hamlin, democrat. According to the returns the latter is the winner with a majority of 130 votes. Both waged a worthy campaign, and even a closer result was anticipated. The majority having voted that Mr. Hamlin be the auditor, next January he will assume the responsibility which has been D. Greeley's during the past twelve years.

From the present outlook it seems that enough yeas have been cast throughout the state to carry the three constitutional amendments.

Following is an abstract of the vote in Pine county on governor, congressman and auditor:

SOLDIERS IN CUBA TO TRAMP COUNTRY

PRACTICE MARCHES PLANNED
FOR AMERICAN TROOPS IN
THE ISLAND.

Officers and Men Are Warned of the
Necessity of Manifesting Courtesy
Toward Cuban Subjects of
Their Political Affiliations.

Havana, Nov. 5.—It is the intention of the provisional government to have the American troops here make extensive practice marches throughout the country. This will not be interpreted as a threatening demonstration, but as a threatening demonstration that the step is taken for its moral effect on the restoration of confidence in a general order. Gen. J. Franklin Bell enlists all officers and enlisted men of the American army of occupation to manifest every courtesy toward Cubans of all parties, and to take no active part in the expression of disorder, except in extreme emergencies rendering interference for the protection of life and property necessary. The duties of the American forces are, generally speaking, limited to the tendering of good offices for the prevention of friction between conflicting elements.

To Move Leper Hospital.

Upon the recommendation of Carlos Gómez, a Venezuelan inspector of public institutions, San Lázaro hospital, in which there are several hundred lepers, probably will be shortly removed to an island off the northern coast of Mantanzas province. The removal of this hospital has long been desired, as the project has been opposed by the Cuban authorities, corporation by which it is controlled.

American is imprisoned.

Americans on the Isle of Pines are excited over the arrest and imprisonment of a contraband manufacturer, but the charge of contraband do not rest on the boundary line of his own property. A committee has come from the Island to request Gov. Magnon to depose the present mayor and appoint as acting mayor Second Lieut. Robert Timmons.

There have been rumors for some days past of a projected uprising of moderates in Santiago province, but no importance is attached to them.

Lieutenant Has Yellow Fever.

Second Lieut. Noble J. Wiley, of the 10th cavalry, who was ill on board the transport Summer Saturday with yellow fever caused five hours' delay in the departure of the vessel, has been removed to Animal hospital. His illness was diagnosed as yellow fever. He is to be sent to Fort Meade, the Summer to go home on leave of absence. He arrived here recently on the transport Tarharn, and lodged in Havana. He did not visit Camp Columbia.

LINER RAMS A BATTLESHIP

THE VIRGINIA AND MONROE COL-
LIDE IN HAMPTON ROADS.

Steering Gear of Fighting Craft Be-
comes Deranged, Causing Her to
Sheer From Her Course.

Norfolk, Va., Nov. 5.—The battleship Virginia, which rammed Saturday in Hampton Roads by the old Dominion liner Monroe, both vessels came afterward to this port. The Monroe layward bound from New York, handed her passengers at her pier, while the battleship following shortly had to steam to the port of the Norfolk navy yard.

The Virginia sailed from Old Point

about nine o'clock, bound for Norfolk.

Shortly afterward the Monroe came in,

following the battleship through

Hampton Roads. Off Sewells Point

the Virginia slowed down, apparently

and the Monroe immediately rang

down.

The Virginia's steering gear seemed

to become deranged, and she sheered

out of her course.

The Monroe could

not stop, so she struck the battleship

on the after part of her armor belt

and raked her starboard quarter.

One set of the battleship's davits were

torn in board while two of the battleship's davits and one of her 3-inch

guns were bent and probably

damaged.

The Monroe sustained a bad twist

of her steel prop and the damage to

her may prove more serious than now

apparent. A survey will be made of

both ships.

There were many immigrants aboard

the Monroe, and when the ships

crashed the women set up a loud outcry.

They were soon calmed.

It is stated that the battleship had

no regular pilot aboard at the time

of the collision.

The Old Dominion officials here

state that the Monroe is not seriously

damaged.

FIVE TRUE BILLS FOR PEONAGE

Newman, Ga., Manufacturers Indicted

by the Grand Jury.

Atlanta, Ga., Nov. 5.—Five Indians

for peonage against well-known

manufacturers were returned by the

federal grand jury here Friday as the

result of a special investigation by

Assistant Attorney General Charles

Russell of the department of Justice

in connection with the trial of

John Wesley Powell.

Those indicted are: E. H. Cole, one

half; Jean Reinhold, two thirds, and H.

L. Ziegler, two thirds all of Newman.

The investigation was instigated by

the complaints of a number of German

immigrants who were induced to

come south by the southern immigra-

bution bureau of New York under

promises of employment in a furniture

factory at Newman.

The Utes will go overland with

the horses and the Sioux cavalcade.

The Indians have been disarmed and

will not be armed until they are no longer

threatening move.

The conference was held between

the soldiers and the Ute tribe, 15

miles west of the town of Montezuma.

The chiefs in attendance, who were armed

with the hand power to attack, are Red

Cap, Unkahnuk and Ponnap.

Chief Black Whiskers stayed with the

Ute band.

Colored Man Made to Indians.

Before leaving for the council the

Indians had a dance in the open and

silently discussed the situation.

At the conference the chiefs were offered

transportation for the tribe and its

ponies back to their winter home.

The Indians had a promise to consider

the matter of giving them a hunting

ground next spring also was made.

The chieftains beset over the matter

of hunting grounds, and demanded a

definite promise that they would be

allowed to return to Powder River

in the spring.

During the council the three chiefs

frequently would leave the circle and

talk among themselves.

Colored Troops in Fear of Lives.

It is stated on the part of the white

troops that the Indians are

dangerous.

It is reported that the Indians

were armed with rifles and bows and

arrows.

PINE COUNTY PIONEER.

PINE CITY, MINN. Nov. 9, 1906

Bede at Kerrick.

Last Saturday evening J. Adam Bede addressed the citizens of Kerrick and adjoining places. The large new hall, over Pat Kane's liquid refreshment parlors, was well filled with people from Sandstone, Park ridge, Bruno, Duquette, Willow River and Pine City.

The meeting was called to order by Edward Hogan, who acted as chairman of the meeting. Speeches were made by Victor L. Johnson, state senator; Dr. D. W. Cowan, ex-state senator; and Congressman J. Adam Bede. The former two gentlemen made a few fitting remarks after which our worthy Congressman held the wrapped attention of the audience for over two hours, during which time he was frequently applauded.

At the close of the speaking the benches and chairs were cleared away and those who wished, tripped the light fantastic until train time. At about midnight the ladies served a very fine luncheon.

School Notes.

Report cards were issued this week.

Miss Barnum enjoyed ten with Misses Claussen and Wing Saturday afternoon.

Jennie Jellinek entered the 7th grade this week, and Katharina Bele entered the 5th grade.

The long expected water colors have arrived and the 5th and 7th grades have commenced taking lessons in the use of the brush.

Wm. Lahodny read a Philo' Wit paper during one of the opening exercises this week. He and Clinton Breckinridge were the editors.

Mabel Bede and Delta Astell read papers on Edmund Spenser before the High School Tuesday morning, and Noble Clark read a short story without a moral Thursday morning.

Last Friday afternoon the High School considered the question of organizing a debating team for the purpose of meeting with teams from other high schools. It was decided to form one.

Country Editor's Tribulations.

There is so much pleasure in publishing a newspaper that some editors are refusing money as a reward for their services, says Bro. Scotchbrook in his St. Louis News. It takes wind to run a newspaper. It takes a scintillating, acrobatic imagination and a half a dozen white shirts and railroad passes to run a newspaper. But money—heaven to Betsy and six hands around, who ever needed money to run a newspaper? Kind words are the medium of exchange that do the business for the editor—kind words and church social tickets. When you see an editor with money, watch him. He will be paying bills and disgrace the profession. Make him trade it out. Then when you die, after having stood around and sneered at his jinormous paper, be sure and send your wife in for three extra copies, and when she reads the generous and touching notices about you, forswear her to me to get 15 cents to the editor. The editor knows it and what he wants is heartfelt thanks. Then he can thank the printers and they thank the growers. Don't worry about the editor. He has a charter from the state to act as the despot for the community. He'll get the paper out somehow, and stand up for you when you run for office, and lie about your pigeon-footed daughter's wedding and blow about your big-footed boys when they get a \$5 per week job, and weep over your shivering soul when it is reviewed from your grasping body, and smile at your wife's second marriage. He'll get along. The Lord only knows how, but the editor will get there somehow.—Mr. Carroll Demarest.

Here is our condensed caption of the Original Laxative Cough Syrup. "Nearly all other cough syrups are constipating, especially those containing opium. Kennedy's Laxative (containing Honey and Tar) moves the bowels. Contains no opium. Conforms to the National Park Food and Drug Laws. Sold at Breckenridge's Pharmacy."

In Time of Peace.

In the first months of the Russian-Japan War I saw a striking example of the necessity for preparation and the early advantage of those who so speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to meet combat? How cold could you take? A coat may be cured much more quickly when thrown as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cure of colds, and it should be kept at hand ready for instant use. For sale at Breckenridge's Pharmacy.

A Physician's Testimony.

J. N. Patterson, night policeman at Nashua, La., writes: "Last winter I had a bad cold on my lungs and tried at least a dozen different advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world. Sold at Breckenridge's Pharmacy.

Pineapple for Consumption.

It has long been known by the natives of South America that the juice of the fruit of the ripe pineapple being of such antiseptic qualities, will thoroughly destroy the germs of catarrh, consumption and a grippe. A preparation known as Syrup of Pine Apple Extractor is sold by Bea Bros. & Co., contains these medicinal qualities. It is sold by L. E. Breckinridge for 50 cents.

Sells More of Chamberlain's Cough Remedy than any of all others put together.

Mr. Theo. George, a merchant at Mt. Elgin, Ontario, says: "I have had the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada, and I sell as much of it as I do of all other lines put together. Of the many dozens sold under guarantee, I have not had one bottle returned. I can personally recommend this medicine as I have used it myself, and given it to my children and always with the best results. For sale at Breckenridge's Pharmacy.

He Could Hardly Go Up.

P. H. Duffy, of Ashley, Ill., writes: "This is to certify that I have taken two bottles of Foley's Kidney Cure, and it has helped me more than any other medicine. I tried many advertised remedies, but none of them gave me any relief. My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down." Sold at Breckenridge's Pharmacy.

For years I starved, then I bought a fifty cent bottle of Kodol Dyspepsia Cure.

Curse upon that bottle because I paid all the gold in Georgia could not buy. I kept on taking it for about two months. I went back to my work as well and hearty as Lever was. Until I used a little occasionally as I find it a fine blood purifier and a good tonic.

May you live long and prosper.—C. N. Correll, Roden, Ga., Aug. 27, 1906. "Kodol is for" sale at Breckenridge's Pharmacy.

In every climate its banners are unfurled. Its fame has spread from sea to sea. Be not surprised if in the other world you hear of Rocky Mountain Tea.

DEADEFNESS Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedy.

Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube.

When the tube inflamed you have a rumbling sound or imperfect hearing, and when it's entirely closed, deafness is the result, and unless the inflammation can be driven out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by our method.

P. H. Duffy, of Ashley, Ill., writes:

"This is to certify that I have taken two bottles of Foley's Kidney Cure, and it has helped me more than any other medicine. I tried many advertised remedies, but none of them gave me any relief. My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down."

"This is to certify that I have taken two bottles of Kodol Dyspepsia Cure.

Curse upon that bottle because I paid all the gold in Georgia could not buy. I kept on taking it for about two months. I went back to my work as well and hearty as Lever was. Until I used a little occasionally as I find it a fine blood purifier and a good tonic.

May you live long and prosper.—C. N. Correll, Roden, Ga., Aug. 27, 1906. "Kodol is for" sale at Breckenridge's Pharmacy.

In every climate its banners are unfurled. Its fame has spread from sea to sea. Be not surprised if in the other world you hear of Rocky Mountain Tea.

Biedermann, a business man of Pine City, and a brother of Mrs. Beyl, was here to attend the funeral.—Gazette, Stillwater.

Foot Ball Tomorrow.

The Pine City High School football team will be in their glory tomorrow afternoon when they will be given an opportunity to root for their home foot ball team which will clash with the fast North St. Paul eleven. Both teams are said to be upon equal footing in weight and are plucky and fast. This will be the initial game for the Pine City Highs, and their mettle will be thoroughly tested by the time they are through with their experienced opponents. Dr. Knapp has been coaching the boys and he has worked them into a spirit of hurry-up attack and staleness and agile defense.

It will be an interesting game.

The price of admission has been fixed at 25 cents and the high school girls have tickets pretty well distributed about the town. Get into the high school spirit tomorrow by attending the great gridiron battle.

The game is scheduled to begin promptly at 2 o'clock, and those of the Pine City team to line up for skirmish are: Lahody, left end; Wynne Lones, left tackle, Hendricks, left guard; Russell Bede, center; John Hunt, right guard; Kubicek, right tackle; Dave McLaughlin, right end; Clint Breckenridge, quarter back; Geo. Wandel, left half; John Hurley, right half and captain Will McKonick, full back.

Will trade horse for cows. Inquire of F. A. Slocumb, at Hotel Agnes.

THEY CURE RHEUMATISM

A Particularly Painful Form of This Disease Yields to Dr. Williams' Pink Pills.

Of the many forms which rheumatism takes, that which is most probably known as general rheumatism is more violent than any other. That Dr. Williams' Pink Pills have cured this stubborn as well as painful trouble is a fact proved by the following statement, and no sufferer who reads this can afford to let prejudice stand in the way of trying them.

Rheumatism is now generally recognized as a disease of the blood. Dr. Williams' Pink Pills make actually painless blood. When the blood is pure there can be no rheumatism. Mrs. Thomas Brown, of 84 Mill street, Worcester, N. Y., says:

"My trouble began with a severe cold which I took about a week before Christmas in 1904. I began to have rheumatic pains in my back and limbs and after a time I couldn't straighten up. I had such intense awful pain for months and much of the time was unable to leave the house and I had to take hold of a chair in order to walk, sometimes I could not stand up at all."

"The disease was pronounced sciatitis throughout, and though I got a good physician and took his advice faithfully, I did not get any better. After some six weeks of this terrible pain and suffering I tried Dr. Williams' Pink Pills and they were the only thing that cured me. After a few boxes the pain was less intense and I could see decided improvement. I continued to take the pills until I was entirely cured and I have never had any return of the trouble. All druggists sell Dr. Williams' Pink Pills, or the remedy will be mailed postpaid, in boxes of 100, 50 cents per box, six boxes for \$3.00, by the Dr. Williams Medicine Co., Schenectady, N. Y."

THE TICKING OF THE CLOCK.

Cause of Wakfulness in Others.

"Not all people," said the jeweler, "like the ticking of a clock; it is a pleasant sound to most people, but not to others."

"Some people, perch, never sleep, doesn't sleep without a clock in the same room and who, if they found themselves in a strange place anywhere with a clock in their sleeping apartment, would stop the clock before they went to bed."

"Of course there is much of habit in this, but we have our fancies about sleep, as we do about all things else."

The Zulu War Cry.

The Zulu war cry, used whenever they take the field by the South African foot soldiers now in the field, has puzzled our newspapers, not one of which seems able to account for it except Sir Notkin and Quigley. The Daily Express gives it as "Isamibalo," and the Daily Mail as "Gammillo." The cry really consists of two words, and should be written "Igama layo." "Igama" is Zulu for "honor" and "layo" is a possessive pronoun, meaning either "his" or "their." Thus the Daily Mail, although quite wrong in its orthography of the cry, is right in saying that it means "Our honor is in his name." The explanation is that the Zulu etiquette does not allow warriors, when they rush into battle, to mention the names of their enemies, but the leaders shout out, "That is his name," pointing to the victims with their spears.

Waiter's Modest Request.

Melba admires the independence of her fellow Australians, but on one occasion she had to make a personal confession with what she calls their "delightful impudence." She had waited a long time for dinner at her hotel in a large mining town and finally made a sharp complaint to the waiter. "Well, ma'am," he said, "you must mind your time a son, you know, the time." This to a vocalist who one evening received \$5,000 from William Waldorf Astor for singing four songs in his London mansion.

HARD TO SEE.

Even When the Facts About Coffee Are Plain.

It is curious how people will refuse to believe what one can clearly see.

Tell the average man or woman that the slow but cumulative poisonous effect of caffeine—the alkaloid in tea and coffee—tends to weaken the heart, upset the nervous system and cause insomnia and delusions, and chances are they will not know the facts.

Prove it by science or by practical demonstration. In the recovery of coffee drinkers from the above conditions, and a large per cent of the human race will shrug their shoulders, take the drink and—keep on drinking coffee or tea.

"Coffee never agreed with me nor with several members of our household," wrote a lady. It enraves, depresses, creates a feeling of languor and headache, and is caused by leaving off coffee and using Postum that we discovered the cause and cure of these ills."

"The only reason, I am sure, why Postum is so much used is because the exclusion of ordinary coffee is, in many persons do not know and do not seem willing to learn the facts and how to prepare this nutritious beverage.

There only one way according to directions holds it fair in mind.

One good sheep will usually bring in more profit than two poor ones. Usually the poor ones are kept at a loss.

The best fleeces will ever be the mark of the best sheep, provided, of course, that it has a good healthy fleece.

The most unfavorable conditions under which sheep can be grown is constant subject them to feeding on low, marshy pastures.

Device by Which the Butchering is Made Easy.

As all farmers who kill their own hogs know, the old way of butchering is very inconvenient and tiresome, says a writer in the Queenslander. The following illustrated arrangement:

Device for Hanging Hog.

makes the labor comparatively easy.

The top piece is 2x5 inches and 7 feet long. The mortices for the supports to fit in are made five inches from the ends of the pieces, and are half inch deep, 2 1/4 inches wide at both ends by 1 1/4 inches at the top. The top is 2x2 inches and 7 feet long; cross piece, 2x2 1/2, and seven feet long; cross piece, 1 1/4x2 1/2, and at one end this should be bolted on upright pieces down low enough so that bend will set over it. The lever is 3 1/2x2 1/2 inches, 1 1/4x2 1/2, and 1 1/4x2 1/2 inches, each 1 1/2 inches wide, and five feet long, made of iron, and long enough to clinch Clevis where chain is fastened in made of three-eighths inch iron. The end of the lever is iron, 6x2 1/8 feet, as shown for gamboles stick to rest on, while lifting the pig to the pole hooks, which are made of iron, enough to clip the legs and hold them in position, and one-half inch, bent to hold gamboles stick. A hook not shown in cut made of one-half inch iron, attaches to B and provides a fulcrum for the lever. A for dipping hog in the barrel and C for holding the general hook. Bench, 18x1 1/2 inches, 20 inches high, 8 feet long. Barrel to be set in the ground one-quarter its length.

FEED TROUGHS IN PASTURES.

Make the Task of Feeding Easier—How to Manage With Lambs.

A very simple and handy trough to be used in the pastures or fields can be made of fence boards nailed together. Cut a board 10 feet long and legs long enough to raise the top of trough about 20 inches from the ground. The legs should be nailed on the boards flat so they will be sufficiently wide apart at bottom to insure the safety of the lambs. If the trough is not easily overturned, it may be changed. Three sets of legs should be put on a 15-foot trough. In case some the sheep jump over the trough thus getting dirt into the feed a narrow strap should be supported across the top of the trough and fastened on the ends. This kind of trough will last for five or six years and stay out in all weathers. A lot of them sufficient to feed a big flock can be ready for market in a couple of hours. Other relatives and several more able managers, used only when feeding, close-fitting muzzles, throat-straps of various designs, but all acting on the principle of producing pressure upon the风管, chiefly designed to reduce the amount of food taken, the most efficient remedy probably most will agree, and that any objections to its employment are outweighed by the results. Its habitual use tells its own tale to purchasers, who may see the mark on the throat. In buying horses one should look for teeth rounded by crib-biting, as well as for marks of the strap.

AN ECONOMICAL HOG HOUSE.

The plans exhibit a good hog house.

Twenty feet is a convenient width for such a building, and it should be six feet high at the eaves for convenience in cleaning. This will provide for two rows of pens

THE CRIBBING HABIT.

Causes Ruined Digestion and Shortness of Breath.

There is quite a variety of ways of "cribbing," and many degrees. Some horses only press the incisor teeth of a pony, others bite the neck, while others bite the neck and use the molars connected with deglutition. Others employ both top and bottom teeth. If there is no manger to lay hold of, some other object will be found by the confirmed victim of this habit such as the bars of the hayrack, the stall door, the posts, the poles of the carriage when harnessed, anything that will afford them a slight hold. Confirmed crib-biters have been known to use their own knees and feet for the purpose. Then there are air-snappers who have so cultivated the art that they are able to snap out any object which they can reach with their teeth. They stand back with arched neck, the muzzle approaching the breast, make some nodding movements with the head and a smacking of the lips, with a final jerking movement upwards at the moment of accomplishment of their object. Crib-biters will only indulge the habit occasionally, or for a spell, but air-snappers become so obsessed that they take little interest in anything else when not eating, and some will interrupt themselves during a meal to indulge in the practice. Sooned or later, when the animal becomes fatigued, it will begin to eat again, and lose all muscular energy, and shortness of breath. They are wasteful and undesirable animals, dropping much food and making but ill use of that they consume. They are bad neighbors and often suffer from fatal colic.

The practice differ considerably; the mouth is opened, the head raised, the tongue extended and swung from side to side, by which means the saliva is lashed into foam and collects at the angles of the mouth and around the teeth. Both may be regular cribbing mares, which occurs at the moment of swallowing food.

The vice or trick may often be completely cured at the commencement by removing the animal from familiar cribbing places; by putting him into a loose-box instead of a stall, or into a stall of rough timber or stones or on the ground itself, in a brick or stone built box, with nothing to lay hold on; by a run at grass, or feeding only with long stuff, which occupies much time and gives the fullest functional activity to the salivary glands and some relief to the digestive organs and of desultation. Punishment only answers while a person is present, and it is observed that many horses only do it when they think they are not observed. Increased labor and less time for eating, however, is a cure in itself.

Other remedies used are movable mangers, used only when feeding, close-fitting muzzles, throat-straps of various designs, but all acting on the principle of producing pressure upon the风管, chiefly designed to reduce the amount of food taken, the most efficient remedy probably most will agree, and that any objections to its employment are outweighed by the results. Its habitual use tells its own tale to purchasers, who may see the mark on the throat. In buying horses one should look for teeth rounded by crib-biting, as well as for marks of the strap.

The vice or trick may often be completely cured at the commencement by removing the animal from familiar cribbing places; by putting him into a loose-box instead of a stall, or into a stall of rough timber or stones or on the ground itself, in a brick or stone built box, with nothing to lay hold on; by a run at grass, or feeding only with long stuff, which occupies much time and gives the fullest functional activity to the salivary glands and some relief to the digestive organs and of desultation. Punishment only answers while a person is present, and it is observed that many horses only do it when they think they are not observed. Increased labor and less time for eating, however, is a cure in itself.
