### THE GOOD ROADS PROBLEM

Great Improvements Possible if the Road Funds Are Expended Practically and Work Performed Properly.

The report made by the rural carriers of the state to the engineer of the state highway commission on the condition of the county roads and the cause of the same has opened the eyes of the people to some facts that have been known to exist but which no effort has ever been to correct. If the money appropriated for road improvements was judiciously expended for that purpose in every township in the state the roads would be in better condition.

In not all, but in many localities, the principal aim seems to be to see who can get the most of the appropriation with the least exertion and the roads suffer accordingly although the money that was raised by taxation and honestly appropriated for the purpose indicated, has been expended. The people of Minnesota will wake up some day to the fact that good roads means as much to her prosperity and development as any other one thing - Brainerd Dispatch.

**POKEGATIA.**

### FARMERS MEET

The American Society of Equity Organize a Branch at the Union at the St. Croix School House.

Farmers to the front was clearly demonstrated last Thursday evening when seventeen of the most prominent farmers on the St. Croix valley met at the Ryan school house in Duane to organize a local union of the American Society of Equity.

Great interest was manifested and much enthusiasm shown while they listened to an able speech by State President Organizer Geo. E. Stevens of Rock Creek; of the aims and advantages of education along the line of controlled marketing and co-operation, so as to secure profitable prices for farm crops, thus placing the farmers of the soil in a position to reap the reward of their labor, and be enabled to give their sons and daughters the advantages that are necessary that they should enjoy. The officers of the union are: President—Gus Meyer. Vice President—John Voita. Secretary—Smith. Treasurer—Richard Engren.

This makes the 8th union of the American Society of Equity organized since the 27th of last April in the territory between Snake river and the county line to the south, St. Croix river and Royalton, including one union in Chongwatana.

### New Postal Rule

The post office department has just issued another order known as order No. 1201 by which paragraph 2, section 446, postal laws and regulation is amended to read as follows: "Box rent must be collected at the beginning of each quarter for the entire quarter, but on longer. Ten days before the last day of each quarter postmasters are required to place a bill bearing the date of the last day of the quarter to each rented box. If a boxholder fails to receive his right to his box on or before the last day of a quarter the box shall then be closed and offered for rent and mail will be placed in the general delivery."

The old rule was that a box holder who fails to pay his renewal within ten days after the beginning of the quarter forfeits his rights to a box. The new rule is to the effect that the renter who does not pay on or before the last day of the preceding quarter loses the box and the rule is made compulsory in its enforcement.—Ba.

In Bad weeks with La Grippe.  
We have received the following letter from Mr. Roy Kemp, of Anoka, Ind.: "I was in bed four weeks with La Grippe and I tried many remedies and spent considerable for treatment with physicians, but I received no relief until I used Foley's Honey and Tar. Two small bottles of his medicine cured me and now I am exclusively in my family." Take no substitutes. Breckenridge's Pharmacy.

Dangers of a Cold and How to Avoid Them.  
More fatalities have their origin in a cold than from any other cause. This fact alone should make people more careful as there is so danger whatever from a cold when it is properly treated in the beginning. For many years Chamberlain's Cough Remedy has been recognized as the most prompt and effective medicine in use for the disease. It acts on nature's plan, loosens the mucus, relieves the throat, opens the sinuses, and restores nature in restoring the system to healthy condition. Sold by Breckenridge's.

### Visits Old Friends.

Rev. Hartley and wife arrived here a couple of days, while enroute from London, Manitoba to Toronto, Ontario. Rev. Hartley was pastor of the M. E. church in this place about five years ago and his many friends in this place were glad to see him and his estimable wife. The Rev. gentleman's health has been quite poorly for some time past and he is going back to his old home in Canada for a rest. He occupied the pulpit in the M. E. church here for many years.

### Witchlight at Hustletown.

A. W. Piper and wife and L. J. Swanson, wife and youngest child, went out to Hustletown Monday evening, to attend a social given at the Condit home, where they watched the old year out and the new year in. They spent New Year's at the residence of Peter Herby, and returned home in the evening.

OVER FIFTY KILLED IN REAR-END CRASH

APPELLING HORROR OCCURS ON THE B. & O. RAILROAD NEAR WASHINGTON.

BODIES OF VICTIMS STREWN EVERYWHERE

Train of Empty Cars Running Sixty Miles an Hour Collides with Passenger at Terra Cotta—Officials Investigating Cause.

Washington, Jan. 1.—The list of dead as the result of the appalling wreck at Terra Cotta, on the Baltimore & Ohio railroad Sunday night, reached 53 at two o'clock Monday afternoon, according to the police.

It was decided to postpone the coroner's inquest until Wednesday. This will be the first official step taken toward fixing the responsibility of the disaster.

Collide at Station. The wreck was caused by an engine drawing eight empty cars running in local No. 65, known as the Fred

The wrecked train was filled with Sunday excursionists and others returning to Washington from their country places in Maryland.

Two distinct stories were Monday told by the friends of those who will naturally be implicated.

Many Die Under Debris. The scene after the accident was appalling. Bodies had been hurled in every side and it was after midnight before all the dead had been collected.

A detachment of 40 policemen were sent from Washington and nearly 50 physicians from this city and the suburbs responded to a general call.

More than three hours after the fatal crash occurred the police and citizens were still taking bodies from under the great pile of wreckage.

200 Persons on Wrecked Train. More than 200 persons crowded the wrecked train, the crash owing to the fog, came without a second's warning.

injured were bonfire-fuel. The thick white cloak of the fog closed around the horror and mercifully hid for a while the extent of the disaster.

A strange feature of the wreck is the fact that neither the engine, the tender, nor any of the empty coaches of the colliding train left the tracks.

Both remained in their eads and were placed under arrest as soon as the police reached the scene.

Engineer Harry Hildebrand, who has been on the road many years, was so excited that he has not yet been able to give any lucid account of what happened.

When we passed Kensington the danger signals were hoisted, and we were told to move cautiously, he said.

Lying in a critical condition at the Prince Georges hospital, Frederick Leigh, a brakeman on the ill-fated passenger train, snapped out his story of the wreck and died soon afterward.

Dr. E. Bell, one of the most prominent physicians of Washington, and his sons, Edwin, seven years old, and Sinclair, five years old, were passengers on the train.

Scores of persons visited the morgue Monday to assist in the identification. The total number of bodies carried into the room shortly after midnight was 52.

BELIEVED RESTIVE BLACKS ARE USING ARMS RECENTLY LANDED ON ISLAND.

Hidden in Woods But Disappeared. Trouble feared in repressing disorders by bands—Recent Movement of Troops Thought to Have Been Search for Weapons.

Havana, Jan. 1.—The statement is made here that several thousand rifles and machine guns reported to have been landed recently at Pinar del Rio province, and hidden in the woods near Matanzas.

The possibility of a clash between Cubans and American troops are considered remote as their relations are good. The natives, however, are plotting against one another.

Just who is responsible for the shipment of the arms into Cuba is not clear. One theory is that the arms were purchased by the farmer liberal Junta in New York and shipped too late to be used in the last movement.

Funeral of Cassatt Quiet. Philadelphia, Jan. 1.—With services as simple as the rites of the Protestant Episcopal church would permit, the remains of Alexander J. WOMAN IS SLAIN IN BED

MYSTERY SURROUNDS DEATH AT CAMBRIDGE, ILL.

Wife of Retired Farmer Killed With Child Beside Her—Murderer Stirs Town.

Cambridge, Ill., Jan. 1.—Another murder mystery has stirred to its depths the little town of Cambridge and added one more name to its frightful record of eight murders and six suicides within the year now closing.

Mary Anderson, wife of Henry Anderson, a rich retired farmer, was shot dead while in bed with her husband and a nine-month-old child.

Anderson told the sheriff he was awakened at two o'clock by hearing his wife shriek, "Oh, Henry!" Jumping out of bed he ran down stairs in pursuit of a flying figure, which disappeared when the kitchen was reached.

Later Anderson told Coroner's physician, however, that some other cause may be responsible. The husband, crazed by the killing, is too irrational to give a correct story.

Plot to Kill Members of Conference to Be Held Soon Frustrated—Treaty Negotiations with Japan Progressing Favorably.

St. Petersburg, Jan. 1.—Action on information furnished by a traitor, the police during the last few days have captured over 100 leaders and members of the St. Petersburg social democratic organization of the social democrats who were conducting a propaganda in the army and navy.

Finally it is asserted that the police fraudulently obtained information which frustrated a plot to blow up a number of persons in a conference which was to be held in the near future.

The recent arrests of members of the military organization which was responsible for outbreaks and the mutinies on board warships of the Baltic squadron in August have been reported from various quarters in the interior, from totally at Moscow, to which city the central committee was transferred after the police had twice broken up the headquarters at Vilna.

**PINE COUNTY PIONEER.**

**ED. C. GOTTRY, Editor and Prop.**

Published in the First Office at Pine City at Second Class Matter.

PINE CITY, MINN., Jan. 4, 1907

If CONGRESSMEN were paid in proportion to the labor they perform and the service they render there would be a wide variation in salaries.—Washington County Journal.

Col. A. G. BERKAND of Cass Lake is reported to have landed on a \$10,000 job at Washington as the head of the National drainage association. He stops at the National hotel and stays high.—Osakis Review.

RAILROAD officials say the car shortage is due to a phenomenon. Increase in business, shortage of competent railroad men, westward movement of the wheat growing district, necessitating longer hauls, and the present conditions were unavoidable. They promise more double track, increased terminal facilities and their best efforts to prevent a recurrence of shortage next year. So much for the investigation.—Osakis Review.

FARMERS who have gone into stock raising and dairying in the past five years have not only raised mortgages off their farms but have money in the banks, says the Swift County Monitor. Pine County farmers could be as well fixed as those in Swift county. Pine county has no equal in the state or north-west as a dairy county. Grasses and clover grow in abundance, and creameries are scattered all over the county, and the close proximity to the twin cities at both the north and south, give an unlimited market for the produce from the dairy. Some of the farmers in this locality have gone into the dairy business quite extensively, and they are the ones that are quite well-to-do. Every farmer that has five cows should have twenty-five, and then by taking cream to the creameries they get a dividend every month, which is not the case with anything else that is raised on the farm.

The senate investigation will doubtless settle the question whether the president of the United States, as commander in chief of the army and navy is clothed with the authority to dishonorably discharge a soldier or a sailor without the formality of a court martial. Believing that he was vested with such authority, and being satisfied of the guilt of the soldiers who shot up the Texas town of Brownsville, President Roosevelt dishonorably discharged the entire regiment. From all the evidence at hand this action of the president appears to have been justified, and still to guard against possible mistakes in the future it is well for the senate to determine absolutely just the status of the president in such cases and establish once for all the proper procedure in cases like the Brownsville riots and the subsequent action of the soldiers in attempting to protect the rioters from punishment.—Ortonville Herald Star.

The Forest Lake Enterprise is a thing of the past as it suspended publication on the 22nd of December, the following is taken from that issue.—

With this issue, the Forest Lake Enterprise passes back among the silent majority, and preaches its own funeral sermon. As a money maker it never has been one two six with Standard Oil or N. P. Preferred, and the editor has other business that requires most of his time and all of his attention. Our new monthly publication will be put out at once, but our increasing trade in job work takes too much time to allow a week to that does not pay.

We wish all a Merry Christmas and a happy New Year. All subscriptions paid in advance will be returned as fast as the accounts can be made up. We take this last opportunity of thanking our many friends for their support and for all others, we are going to do something the devil never will do—we are going to let you alone.

We will miss Bro. Wilson's paper from our desk, but are glad to know that we will hear from him once a month at least.

**Long Words or Short.**

Which shall we prefer in speech and writing? Almost everybody will vote for the short word, and almost everybody will be voting for the best candidate. The short words are the ones that they make up in a pond will come out into the street and yell "Confagration! Confagration! Confagration!" when his house was burning would be thought to be making a jest of the affair. And so in all matters where ideas are to be handed out quickly and clearly, the short word has first choice.

**Fish as Pets.**

Many boys and girls who cannot keep pets have been able to make pets of wild birds and animals. Even fish in a pond will come to know you if you feed them regularly, and they will follow you round the edge of the pond and at last grow so tame as to take food out of the hand. They will even come into the shallow and allow themselves to be patted. You will find it easier to make friends of fish of the carp family.

**Shocked.**

"A girl out west was driven insane by the sight of a railway train the other day."  
"Gee! It must have been on time."  
—Houston Post.

**STOP IT.**

A neglected cough or cold may lead to serious bronchial or lung troubles. Don't take chances when Foley's Honey and Tar affords perfect security from serious effects of a cold. Sold at Breckenridge's Pharmacy.

Clear up the complexion, cleanse the liver and tone the system. You can best do this by a dose or two of Dewitt's Little Early Risers. Safe reliable little pills with a reputation. The pills that everyone knows. Recommended by Breckenridge Pharmacy.

"They like the taste as well as maple sugar" is what one mother wrote of Kennedy's Laxative Cough Syrup. This modern cough syrup is absolutely free from any opiate or narcotic. Contains Honey and Tar. Conforms to the National Pure Food and Drug Law. Sold at Breckenridge Pharmacy.

**LONG LIFE EASILY ATTAINED**

Prof. Metchnikoff Has Simple Scheme to Secure Longevity.

It is well known that the average length of human life has been considerably prolonged in the last century owing to a better understanding and better fulfillment of private and public hygienic conditions. Few, however, attain old age, especially that of 100 years or more, and among these very few enjoy all their physical and mental powers. Prof. Metchnikoff, of the Pasteur Institute of Paris, shows the causes of decrepitude, of premature weakening. He demonstrates that certain cells constituting the human organism become malignant and devour the nobler cells of the body. He points out a special danger, the intestinal germs and the poisons or toxins elaborated thereby, which penetrate the system and cause the hardening and degeneration of tissues. The professor goes further and says that man can educate and improve these intestinal germs and their toxins. The most practical and easy way, he said, is to drink a beverage which contains the germs of lactic acid fermentation, whose antagonism to the bad germs he has demonstrated.

**Great Men Fond of Tea.**

Like all things in the world that meet with opposition at the first thought or knowledge of it. There were some who called it a filthy custom, while others held that it would dwarf the body and destroy personal beauty. Samuel Johnson tells us that he was a hardened and shameless tea drinker, who for 20 years diluted his meals with only the infusion of the fascinating plant, who with tea amused the evening, with tea sojourned the midnight, and with tea welcomed the morning. Thackeray, Shakespeare and Lamb were all devoted to the tea-cup. "Meanwhile, let us have a sip of tea. The afternoon glow is brightening the bamboo, the fountains are bubbling with delight, the gongs are beating in the kettle. Let us dream of evanescence, and linger in the beautiful foolishness of things."

The many friends of G. H. Hanaan Engineer L. E. & W. R. K., at present living in Lima, O., will be pleased to know of his recovery from threatened kidney disease. He writes: "I was cured by using Foley's 'Kidney Cure,' which I recommend to all, especially trainmen who are usually similarly afflicted."

Fatal kidney and bladder troubles can always be prevented by the use of Foley's Kidney Cure. For sale at Breckenridge's Pharmacy.

**A LIFE AT STAKE**

If you but knew the splendid merits of Foley's Honey and Tar you would never be without it. A dose or two will prevent an attack of pneumonia or la grippe. It will save your life. Breckenridge Pharmacy.

# IN THE WORKS OF THE GREAT

**World's Champions Second in Fielding**

American League Official Averages Give Cleveland Lead There as in Batting.

The world's champion White Sox finished second in club fielding, according to the American league averages issued by Secretary Robert H. McCoy. Cleveland led the league in fielding as well as in batting, with a mark of .965, while the White Sox were there with .943.

Jiggs Donohue is the real leader of the first basemen, although Sam Crawford, of Detroit, is the nominal leader. Jiggs fielded .938 in 154 games—a truly remarkable record—while Crawford got .935 for 22 games.

Shoen of the Athletics is first among the second sackers, having fielded .930 in 23 games. Larry Leafe of Cleveland is second, with .925 for 130 games. Frank Lebell of the Sox finished in tenth place, with .919, with Gus Dunton fourteenth, with a mark of .921.

Lee Trenchard was fourth among the third basemen with .950 and George

try and were supposed to be able to defend their titles for many years to come.

On the point winners at Athens those who are now are Myer Princeton, winner of the broad jump; Jim Hightower, winner of the 1,500-meters and second man in the 800-meters; Bob Leavitt, winner of the hurdle race; Jay Moulton, second in the 100-meter dash; Hugo Friend, second in the hurdles.

Glover, Kerrigan, Schick, Valentine, Sullivan, Mitchell and Quynous are the other members of the team who are now resting on the side lines, and although one or two of these may occasionally be seen in a competition, they can hardly be classed as athletes in training.

Big Dick Sheldon, first choice in the weights for the Olympic trip, announced his retirement the day before the team sailed, and will never again be caught throwing the big weights around the lot.

Myer Pringle has been forced to quit training on account of a rapidly increasing law business and can well afford to rest on the laurels he has gathered in the dozen years that he has been in the public eye.

**TOMMY BURNS IN LACROSSE PLAYERS' COSTUME**

Tommy Burns is not only a fighter, but he is something of a lacrosse player as well. Formerly he played with the champion Galt team of Ontario and has been in games in Detroit and Portland. He plays a "home" position, either "inside" or "outside." Burns was born at Hanover, Ont., and lived in Canada during the greater part of his early life. Lacrosse is to the Canadian what baseball or football is to the Americans, and he began to play the game early. At 16 years of age he was a member of the Galt team in the Canadian league and was the youngest player in the organization.

Robe slipped into sixth position with an average of .926. O'Brien of St. Louis had the great record of playing 39 games at that difficult corner without an error.

George Davis was the third man to show in the shortstop division, and Trenchard came in fifth in that class. Terry Turner of Cleveland led the division.

Fleider Jones and Freeman of Boston are tied for the lead among the outfielders at .985, while Willie Keeler of New York and Pat Dougherty tied but one point below.

O'Connor of St. Louis and Frank Roth of the Sox are tied for the premier honors of the backstop division at the dizzy mark of .990. Roth made only one error in the 15 games that he helped save during the terrible fight near the end of the season. Billy Sullivan is fourth at .974 for 118 games, while he was the only backstop player in the league who participated in over 100 games. Hub Hart comes near the end of the list with .935.

Foxy Clark Griffith heads the twirling staff, being tied with Leroy of the Highlanders, neither man having made an error in 17 and 11 games, respectively. Frank Owen is the first of the sex twirlers to show with 375 for 42 games, which puts him in fourth place.

## Many Olympic Athletes Quitting Cinder Path

Nearly All of Americans Who Competed at Athens Last Spring Have Retired.

Of the team of athletes that represented America at the Olympic games at Athens last April more than a dozen have retired from active participation in sport, and there are a few more who ought to.

The surprising feature of this wholesale retirement is that the men who were on the team were the best in their respective events in the coun-

try and were supposed to be able to defend their titles for many years to come.

On the point winners at Athens those who are now are Myer Princeton, winner of the broad jump; Jim Hightower, winner of the 1,500-meters and second man in the 800-meters; Bob Leavitt, winner of the hurdle race; Jay Moulton, second in the 100-meter dash; Hugo Friend, second in the hurdles.

Glover, Kerrigan, Schick, Valentine, Sullivan, Mitchell and Quynous are the other members of the team who are now resting on the side lines, and although one or two of these may occasionally be seen in a competition, they can hardly be classed as athletes in training.

Big Dick Sheldon, first choice in the weights for the Olympic trip, announced his retirement the day before the team sailed, and will never again be caught throwing the big weights around the lot.

Myer Pringle has been forced to quit training on account of a rapidly increasing law business and can well afford to rest on the laurels he has gathered in the dozen years that he has been in the public eye.

Hugo Friend is another college athlete who does not think enough of the sport to continue it after leaving college, and as he is now in business there is little danger that he will kick the hurdles over in future.

Glover, Kerrigan, Schick and Mitchell are all of the kind that love athletics for the fun, and want to race their horses for purse and gate money and not have to take records. The professional horsemen would doubtless like to have the same privilege.

Howard Valentine, the star New York A. C. half miler, is safely married, and has no more time for the attraction of the elder path. Quynous, the New Orleans sprinter, who was left at the post in his heat at Athens, may still be there for all that has been heard of him since that time.

Want Cool, Not Records.

The amateur horsemen, or at least some of them, want to race their horses for purse and gate money and not have to take records. The professional horsemen would doubtless like to have the same privilege.

## TORTURED WITH GRAVEL.

Since Using Doan's Kidney Pills Not a Single Stone Has Formed.

Capt. S. L. Crute, Adjt. Wm. Watts Camp, U. C. V., Roanoke, Va., says:

"I suffered a long, long time with my back, and felt draggy and listless and tired all the time. I lost from my usual weight 25, to 170. Urinary passages were too frequent and I had to get up often at night. I had headaches and dizzy spells also, but my worst suffering was from renal colic. After I began using Doan's Kidney Pills I had an attack of gravel, and have picked up to my former health and weight. I am well man, and give Doan's Kidney Pills credit for it."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

## Lecturer on Hysteria.

Marie Pierre Felix Janet, professor of experimental psychology in the University of Paris, who is now traveling and lecturing in the United States, figures in the public mind as a hypnotist. As a matter of fact, he is only incidentally, but he is trying to demonstrate that the victim of hysteria is at the same time two different persons.

## OEDLL OBEYED HIS FATHER.

Emphatic Message That Broke Up Conference of Politicians.

Four years ago, when ex-Gov. Odell, of New York, was coming up for a re-nomination at the convention in Saratoga, there was a plan to put a man on the ticket with him for lieutenant governor to whom Odell objected strongly. The governor's father, 88 years old, a deacon in the church and very strict in religious matters, was in Saratoga. There was a conference at one of the hotel cottages that lasted until late in the morning. The other leaders were trying to force Odell to take the obnoxious man.

About two o'clock Odell's father, who had heard what was going on, stalked angrily over to the cottages and rapped on the door. Frank Platt, son of Senator Platt, came to the door.

"Well," said Platt sharply, "I want to see my son," demanded Odell.

The governor came to the door. "What is it, father?" he asked.

"Ten," said the old deacon, "tell them to go to—"

"Yes, father," replied the governor obediently, and he went back and did just that—Saturday Evening Post.

## MONKS FIRST PLAYED DOMINOES

Origin of Game That Is Popular the World Over.

With regard to the game of dominoes there is a very interesting story connected with its origin. It runs thus: There were two monks who had been committed to the penalty of a long seclusion and were condemned to keep absolute silence. To relieve the monotony they played a game by showing each other small flat stones marked with black dots. By a well-understood arrangement, the monk whose hand was used at first informed the other player by repeating in an undertone the first line of the vesper hymn, "Cantate Domino" (Sing unto the Lord). In time the monks completed the set of stones and formulated the rules of the game, so that by the time they were free to come out from their punishment they had found the game interesting both on teaching it to the other members of the monastery it became a favorite and lawful pastime. It soon became popular all through Italy and from there extended to the whole world. The first line of the vesper hymn which the monks had used as a signal was reduced to the word domino, and the name has stuck to the game ever since.

## CRIED EASILY.

Nervous Woman Stepped Coffee and Quit Other Things.

No better practical proof that coffee is a drug can be required than to note how the nerves become unstrung in women who habitually drink it. The stomach, too, rebels at being continually dragged with coffee and tea—they both contain the drug—caffeine. Ask your doctor.

An Italian woman told the old story thus: "I had used coffee for six years and was troubled with headaches, nervousness and dizziness. In the morning upon rising I used to belch up a sour fluid regularly."

"Often I got so nervous and miserable I would cry without the least reason, and I noticed my eyesight was getting poor."

"After using Postum a while, I observed the headaches left me and the belching of sour fluid stopped (water breaks from dyspepsia). I feel decidedly different now and I am convinced that it is because I stopped coffee and began to use Postum. I can see better now, my eyes are stronger. A friend of mine did not like Postum but when I told her to make it like it said on the package, she liked it all right. Name given by Postum is 'Little Book, Little Book.' Always buy Postum well and it will surprise you. Read 'Little Book, 'The Road to Wellville' in pags. 'There's a res-"

## THE PROGRESS OF THE CANADIAN WEST.

Nearly 500,000 of an Increase in Canada's Immigration in 1909.

The progress of a new country cannot be better ascertained than by noting the increase of railroad mileage in its transportation system, and, judged by this standard, the Canadian West leads all the countries in the world during the current year. Thirty years ago there was not one hundred miles of railroad west of the Great Lakes, and very little prospect of a trans-continental route for many years to come, but by the end of 1885 the Canadian Pacific Railway was within the province of Manitoba, and in the past year the work of railroad construction has been vigorously prosecuted. By the end of 1909 some 5,000 miles of completed railroad have been made, making a total of fully 11,000 miles in the three great grain provinces of Canada. Such an increase in the transportation facilities of the country is bound to make good times not only in the districts built throughout the entire west. Allowing \$20,000 a mile for construction, the sum of \$100,000,000 will be put in circulation in this line of work. It would cause good times to prevail in a land where work is plentiful, wages are high, and the cost of living is moderate.

In the building of new railroads through Western Canada means a greater benefit to the country than merely the cost of construction. Additional railway building means the opening of new agricultural districts, and an increased output of grain for foreign markets with consequent financial returns; the erection of towns and cities; the growth of villages, towns and cities; and everything else that makes for the progress of national life, and the opening up of additional thousands of free homesteads.

As advertised by the Canadian government agent, whose address appears elsewhere.

It was stated on the floor of the Canadian Parliament recently by a prominent representative that ten years from now would see the bulk of the population of Canada residing west of the Great Lakes, and if the work of railway building during the present year is any criterion, the prophecy made by the Canadian statesman may be easily fulfilled inside of the time stated. During the present year no less than 19,000 persons have found homes in the Canadian west, of whom 57,796 were Americans who have seen the great possibilities of this new West, and have decided to sit in their lot with it. Certainly, our neighbor north of the 49th parallel is making a great record, and deserves the success that appears to be coming its way.

## Premont on Lecture Platform.

Senator Tillman probably earns more money every year on the lecture platform than any other American who talks to the public for pay. From an authoritative source the statement comes that the South Carolinian net proceeds thus far this year from his lectures tour are \$25,000. Near Tillman is paid from \$250 to \$500 a man, and he is constantly in demand. His season is not confined to the summer Chautauque course and he fills nearly as many dates in the winter as at any other time of the year. In the last four years it is said that he has had aside over \$100,000 from his lecture receipts. Henry Watterson perhaps comes next in the matter of earnings on the platform. Champ Clark, of Missouri, ranks high as a lecturer, and makes about twice as much as a lecturer as his congressional salary.

## Keep Your Blood Pure.

No one can be happy, light-hearted and healthy with a body full of blood that cannot do its duty to every part because of its impurity; therefore, the first and most important work in hand is to purify the blood so that every organ will get the full benefit of a healthy circulation. There is no remedy so good as that old family remedy, Brandreth's Pills. Each pill contains one grain of the solid extract of sassafras blended with two grains of a combination of pure and mild vegetable products, making it a blood purifier unequalled in character. One or two taken every night for awhile will produce surprising results.

Brandreth's Pills have been in use for over a century, and are for sale everywhere, plain or sugar-coated.

## Strangely Mounted.

The strangest military body in the world is a band of cavalry at Satal de Mooray, a province on the east coast of Africa, which is under the rule of the French governor general at Madagascar. These soldiers go about their military operations on oxen. The animals are lean creatures, and it is said they move with surprising rapidity.

## No Advance in Wisdom.

Mark Twain tells how four years ago he was invited by the University of Missouri to go on there and receive the degree of LL. D. At the same time he visited Hannibal, his boyhood home. Just as he was about to leave, he was accompanied to the station by a fellow, came up—white headed, but still a boy. He shook hands with his friend of many a year and nodded toward the crowd said: "People of this town are the same blamed fools they always were, ain't they, Sam?"
