You bet. When it comes to furnishing the best Building Material, at the lowest prices-you'll find

us occupying a front row seat every time. And it's a continuous performance, too. The man who once buys lumber and building material here, is usually never satisfied with any other place. He may find grades as good as ours some other place. And he might find as low prices elsewhere, But he won't find as good grades as ours, at as low priess as we ask for that grade. No sir! Let Me Tell You

A woman who is sick and suffering, and won't at least try a medicine which has the record of Lydia E. Pinkham's Vegetable Compound, is to blame for her own wretched condition.

There are literally hundreds of thousands of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over thirty years ago by a woman to relieve woman's suffering.

Read what these women say:

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound had the virtue to help these women it will help any other woman who is suffering from the same trouble.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to female ills. No sick woman does justice to made exclusively from roots and head in the standard of cures to its credit.
