IN THE FRONT ROW
You bet. When it comes to furnishing the best Building Material, at the lowest prices—you'll find us occupying a front row seat every time.
And it's a continuous performance, too. The man who once buys lumber and building material here, is usually never satisfied with any other place. He may find grades as good as ours some other place. And he might find as low prices elsewhere. But he won't find as good grades as ours, at as low prices as we ask for that grade. No sir! Not for a minute. The combination of high quality and low prices is what gets us the cream of trade—and keeps us "in the front row." Are you with us next time?

There are signs that the Dreadnought fever has spread from Great Britain to Canada. One paper is suggesting that parliament should vote \$1,000,000 for promoting experiments with flying machines for war use, says the Montreal Gazette. A number of others, including some for themselves by advocating development away from Great Britain, want Canadian money voted for a Dreadnought to be presented to the navy of Great Britain. The gift of a battleship is a theatrical act, that may only speak of the excitement of the moment. The duty of sharing in the responsibility of the general defense of the empire by the sea should be assumed in cold blood with the intention that what is resolved on shall be carried through year after year, just as is the cost of the militia or any other public service.

The movement in some of the churches to induce the women to remove their hats during the services is reasonable. The things many women wear on their heads nowadays are so grotesque as to divert the attention of others from the religious exercises, says the New York Times. They are so big that they obstruct the congregation's view of the pulpit. They are grossly inappropriate to a house of worship. The spring hats, in fact, are the worst examples of extravagance in fancy gowns and hats. Their design and construction in execution. They compel the male observer to sigh for the very big hats of last fall. Those seemed then evils scarcely endurable, but fashion has brought us others that we know not of. These gettable effects and inverted baskets covered with artificial flowers and plants that seem to have been derived from the inferno have no beauty at all and when Rev. Dr. MacArthur says they make their wearers look like garçons, one infers that he does not care for garçons.

The announcement that the imports and the duties collected on them at the port of New York during the month of March were the largest since 1902 tells the story of what is going on in the business world. The appraiser of the port makes this explanation, which seems to cover the ground: "The only way I can account for this is that business men have exhausted their stocks and are compelled to buy more goods to meet actual trade conditions." While there was a large increase in imports of precious stones and articles of luxury of different kinds, it is shown also that the gain in materials used in manufacture were very great. This means more industrial activity and more employment for American workers.

Some years ago the Brooklyn street cars killed so many children that public outcry forced a reform of the speed schedules. Now the child-killing has evidently been resumed by the automobiles, as three children have been run down and fatally injured by speeding motor cars within a week. Evidently drastic measures are required if the automobile speeder is not to remain a constant menace to the safety of the public.

The advancement of modern science and invention is making fame a decidedly comparative affair. A woman climber has covered herself with glory by ascending 24,000 feet in a mountain climb, the highest point ever reached. Yet when the Wrights and their fellow inventors have made aerial transit a common affair, anybody at all can fly to the highest mountain tops and think little of it.

Empress Nicholas has repudiated the regulations restricting the marriage of Russian army officers. Hereafter, young officers will not have to demand a dowry with their brides. This makes it easier for them to marry, as thirty-fourth annual convention. The money was not the chief thing to criticize in connection with the average Russian army officer.

During the last few days a number of additional evidences of improvement in the industrial and commercial situation have been reported in this part of the country. Every few days bring further indications of a better state of affairs, and the feeling all along the line is much better than it has been for more than a year.

March broke a number of records, among them being that of postoffice receipts. Those for the New York office were \$50,000 over those for the same month a year ago. And postal payments are a pretty good index to business conditions.

The Western Christian Advocate calls the spring tides "midnight, hideous, assembly, obstructive, impudent, self-sufficient, loud, dominant and noisy and noisy of the devil." Outside of that, they're all right.

WABASH RY. MAY ENTER TWO CITIES

LIKELY TO GET ANOTHER LINE TO ST. LOUIS.

St. Paul, May 11.—The Twin Cities may get another direct connection with St. Louis, according to reports in railroad circles. The Wabash is credited with seeking to acquire the St. Paul & Des Moines, building here from the northern terminus of the latter an extension which would involve the construction of about 140 miles of track.

The St. Paul & Des Moines is 121 miles long and runs from Des Moines to Mason City. It was built by W. A. Brazel, former president of the Wisconsin Central, and George B. Fernald, another eastern capitalist, solely as a speculation, it is said, to be offered to any railroad which might see fit to take over the line. It has been in operation for about a year.

For some time the St. Paul road has been operating a parlor car on it, which started a rumor that the St. Paul had some intention of buying it for the purpose of invading Kansas City. With this line, the St. Paul road would have to build a short line south of Des Moines to get into Kansas City. But not much credence is placed in this report. With a Pacific coast extension to the South, it is regarded as likely that it is seeking to invade any other territory at present, although it may be forced to turn its attention to the South later.

The Wabash is said to be seeking an entrance into the Twin Cities in retaliation for a move said to be contemplated by the Wabash to obtain Mr. Hawley's interest. Mr. Hawley is reported to be considering the establishment of through service from Old Point Comfort to St. Louis over the Chesapeake & Ohio, and Cleveland routes, which he controls, this making a formidable combination for the Wabash to compete against.

The Minneapolis & St. Louis and the Illinois Central, which are also Hawley lines, at present get into St. Louis by running on the Wabash from Albia, Iowa. The Wabash obtain the St. Paul & Des Moines and build an extension from Mason City, it is believed it would accomplish a counter move made by the Hawley interest, which would be carrying through its Old Point Comfort-St. Louis project.

TAG DAY FUNDS ARE SHORT.

Duluth Youngsters Must Explain Before Juvenile Court.

Duluth, Minn., May 11.—Every boy who broke open his tag day bank Saturday afternoon and kept the money counted in the Wabash before the juvenile court, according to A. E. McManus, the attorney for Miss Anna Burnham Fellows of Milwaukee. Miss Fellows left for Milwaukee yesterday afternoon, but her attorney states that she will return in a few days and assist in prosecuting the boys who "went south" with the tag day funds. A great day for Duluth "kids" and many of them made a "killing."

After breaking their banks open, many of the boys auctioned off their badges to the highest bidder and the purchasers started out to see what they could get for the "blind babies."

Bargain Day in Lincoln.
Lincoln, Neb., May 11.—Last night brought the close of the municipal year in Lincoln, and with it the banquet for at least a year of every saloon in the city for the first time in its history. This was "bargain day" in the 25 drinking places, owners making an effort by materially reducing prices dispose of goods on hand. Saloonkeepers say they will write with officials in striving for the enforcement of the prohibition law to the letter.

O. U. W. of Iowa in Session.
Burlington, Ia., May 11.—The Grand Lodge of Iowa, Ancient Order of United Workmen, met here today in its thirty-fourth annual convention. The report of Grand Recorder B. F. Rebekoff showed the order to be in fine condition, with a membership in Iowa of about 17,000.

Minnesota Pythians Meet.
St. Paul, Minn., May 11.—The annual convention of the Grand Lodge, Knights of Pythias, of Minnesota, opened here today, and at the same time the Pythian Sisters, the United Workmen, K. of P., and the P. O. K. K. began their yearly sessions.

WILL HE CHANGE HIS SEAT?

TRIAL FOR JUDGES

MURPHY SAYS HE WILL FILE IMPEACHMENT CHARGES AGAINST JURISTS.

REPEATS CHARGES IN HOUSE

Declares He Will Attempt to Oust Phillips and McPherson from Federal Bench for Conduct in Missouri Railroad Rate Cases.

Washington, May 7.—Formal charges of impeachment against Federal Judges Phillips and McPherson of the western district of Missouri are to be filed by Mr. Murphy of that state, who made announcements of that fact immediately after the house adjourned yesterday.

Incensed over a telegram to Attorney General Wickham from Frank Hagerman, attorney for 15 railroads, in which Mr. Hagerman characterized Mr. Murphy's resolution of inquiry into the official conduct of the two judges as an outrageous and a complete misrepresentation," Mr. Murphy held the attention of the house with a repetition of the charges which he had made in his original resolution.

His colleague, Mr. Rucker corroborated all that he said in denunciation of the action of the two judges in connection with Missouri's two passenger rate law and the maximum freight law. Judge Phillips ought to have been impeached 30 years ago.

Reads Hagerman's Telegram.
Mr. Murphy brought the matter up as a question of personal privilege. He had read some newspaper clippings to the effect that Hagerman had telegraphed the attorney general of the United States alleging that the charges in the resolution were "an outrageous tissue of misrepresentation by one who had no knowledge of the facts." He said that he had contacted with Hagerman and a telegram had been received by Attorney General Wickham.

Clayton Objects to Argument.
Mr. Clayton of Alabama, a member of the judiciary committee, objected, saying that the argument was not one of personal privilege.

Speaker Cannon ruled that Mr. Murphy was within his rights and could continue, but he had not proceeded far when Mr. Henry of Texas, another member of the judiciary committee, stopped him with a direct answer, but continued his recital of the charges contained in his resolution.

Several times Mr. Payne, the majority leader, objected, saying that Mr. Murphy could not yield for debate. Later he again objected on the ground that Mr. Murphy was traveling outside the laws raised by the Hagerman telegram and the preamble of the resolution.

GIRD UP THE SWORD

UNIQUE CEREMONY MAKES MEH MED V. THE RULER OF TURKEY.

ASCENDS THE THRONE TO-DAY

Magnificent Procession in Capital's Streets Follows Exercises Which Even Foreign Envoys Are Not Permitted to Witness.

Constantinople, May 10.—The sword was girded on Mehmed V., the new sultan, to-day, and he now rules the Ottoman empire from the throne occupied by his brother, Abdul Hamid II, who recently was dethroned. A great procession followed in the evening.

This girding of the sword, which corresponds to that of coronation, took place in the mosque Ayub, the single mosque in Constantinople which Christians are not allowed to enter, or even to approach the entrance or courtyard, it lasted but a few minutes and no foreign eyes witnessed the ancient rite of the spiritual power, consigning the temporal power to the sultan.

Diplomats View the Procession. A great number of the cabinet, diplomatic corps and distinguished foreigners some eight or ten blocks from the mosque. The sultan proceeded from the Dolmabahce palace to the mosque, which stands at the water's edge, in a launch, and from there, attended by the grand vizier, the sheik-ul-Islam, and the cabinet, he was escorted by the chiefs of the army, the two higher grades of glemas and many other functionaries, went to the Top Kapou Palace, the residence of the sultan, to his robe of the prophet. The sultan's train made a rich display of fabrics, jeweled arms and fine horses.

Armenians Submit Requests.
A notable Armenian note submitted to the government the following requests:

First, that the murderers of Christians be punished, second, that the property be returned and indemnities be paid for property destroyed; third, that the women and girls who were stolen be returned, also that men and women who were compelled forcibly to adopt Mohammedanism be allowed to resume their original faith; fourth, that an investigation conducted under the chairmanship of the governor general be suspended and that a new investigation of the disorders be commenced; fifth, that Christians be permitted to participate in the local police establishments; sixth, that Armenians be allowed to participate in defraying the cost of erecting a monument to those who have fallen in the army of liberty.

The agricultural bank has arranged to loan \$75,000 without interest to the farmers of Adana province to aid them in planting new crops.

IN PRAISE OF THE COUNTRY.

Residence There Has Many Advantages of Which City Dweller Knows Nothing.

There are hardships in the country; struggles are necessary to wrest a livelihood from the soil or from business in a small community, but every stroke can be made to count for permanence, comments the Columbia Star. "The food and the air are better; man's independence is more real, where he can own the roof that shelters him and the ground upon which he can grow his provisions. Every cow or horse added to them adds an increase of his capital. Little by little, year by year, he can, with industry and good judgment, increase his store of worldly goods. And while his children's tangible inheritance, a foothold in their own land, an anchorage from which the shifting tides of trade cannot buffet them, and which such a family is living its own life, solving its own problems, it may enjoy the same literary and artistic pleasures, and the same general advantages that the city family has."

AN INTERESTING PAINT TEST

There is a very simple and interesting chemical test by which to detect impurity in paint materials. Thousands and thousands of people all over the country, are making this test. It is a sure way to safeguard against the many adulterated white leads which are on the market. Any one can make the test—all that is needed is a simple little instrument which may be had free by writing National Lead Company, 1209 Third Avenue, New York, and asking for Homeowner's Painting Outfit No. 49. The outfit includes also a set of color schemes for exterior or interior coloring, or both, if you want and a book of specifications. No houseowner should make any arrangements for painting till he gets this outfit. One can't expect a satisfactory painting job without pure white lead. This is a way to make sure you're getting a pure white lead—without testing it. See that the lead is pure. National Lead Company's famous Dutch Boy Painter trademark, which is a positive guarantee of purity. Your dealer probably has this white lead, but don't let National Lead Company know.

I was one mass of irritation; it was even in my scalp. The doctor's medicine seemed to make me worse and I was almost out of my mind. I got a set of Cuticura Soap, Ointment and Resolvent. Mr. Johnson, one of our merch ats was out Monday afternoon buying cattle.

The roads are now in a fair condition, which is a blessing to both man and beast.

Everybody seems to be busy sowing and planting and business in this place is very slack on that account.

Sunday the 9th inst., Mr. and Mrs. Wm. Stevens invited a party of friends and relatives from Deer Valley to take dinner with them. The party consisted of Mr. and Mrs. Chas. Heineman, Leo Heineman, Frank Oincera and Mr. and Mrs. Gillig. Mr. Stevens certainly has a fine farm near the Bluff and his residence is sheltered by a fine large grove of oak timber. It must be a pleasure to live in a house like Mr. Stevens'.

WILLOW RIVER.
John Boehman departed Monday for Aurora where he has accepted a position tending bar.
Arden Moore returned from Pine City Tuesday noon, where he had been visiting with his parents.
The butcher moved into his new building, which he has had fitted up in first class shape. We wish him success.
Christ Sexton will move to Frazer next week where he will be employed in the saw mill at that place. We are sorry to see him go, but wish him success in his new home.
Mr. Sly is making some needed improvements in his hotel, among which will be the installation of a lunch counter, where the traveling public can get a good lunch at any time of the day or night.
The base ball team from this place will cross bats with the Moose Lake team at the latter place next Sunday. Boys brace up and give them a taste of the same medicine on their diamond that they give you on yours.
A new pool room has been opened in the Willow River house, by H. J. Wolf. The boys will now have a place to spend their leisure time. Mr. Wolf seems to be a very nice young man. Here's success to you H. J.
The new shingle mill started up last week. Now if your house needs shingling you can get cedar shingles.
What is the matter with Willow? She's all right. There is more business done in Willow than any other place of its size.
The ball game played between the one of this place and the team from Moose Lake Sunday, resulted in the score of 3 to 1 in favor of the Moose Lake team. The boys here put up a very good game considering the practice they have had this spring.
Mr. Jewell had a run away Saturday. Just as he was getting into his wagon the horses started, and before he could get them under control they ran into a telephone pole, breaking the harness and wagon

longer, so that the harnessmaker and blacksmith had to work all day Sunday so that Mr. Jewell could get out on his mail route. Uncle Sam's mail has to be delivered on time if every man in the village has to work on only Sundays but all right—

Bankers and Merchants Bookkeeping Institute
126-128-130 So. 3rd St., Minneapolis, Minn.
Bookkeeping, Correspondence, Business Methods, Practical Penmanship.
Training Office is the proper conception of the Institute, not Business School or College, which implies study. Bookkeeping is work, not study, hence training. We provide standing desks, high stools, telephones, same as in a bank or commercial office.
Actual Bookkeeping We have adopted the Actual Bookkeeping System of Training, (not teaching.) This is a business-like system, whereby commercial transactions are represented by tangible orders, checks and invoices instead of being copied from a text book, or other device. The Common Sense Method.
Bankers and Merchants have for years found it difficult to secure competent bookkeepers. To obviate this difficulty the INSTITUTE was organized.
Our Certificate of Competency is a guarantee to the bankers and merchants of the northwestern states that the holder is a trustworthy, painstaking and reliable accountant. One that can and will MAKE GOOD.
You can Be a competent bookkeeper by working (not studying) two or three months in our TRAINING OFFICE. No classes or terms. INDIVIDUAL work and instruction. Pamphlet free, explaining the
Actual Bookkeeping System of Training.
