A RARE TREAT

Preachers From Surrounding Country To Meet Here

Monday, May 8th

Meeting in Local M. E. Church Will Be a Great Attraction. A Literary Treat

Pine City will be swarmed with preachers next Monday, when the M. E. preachers from Minneapolis and surrounding towns will hold a meeting in the local M. E. church.

This meeting will be one of the best attractions that our city has seen in many a day. The talent which has been secured for this occasion is the best in the northwest and should interest all church-going people as well as all people with literary tastes. The meeting is open to the public, and all who can come are urged to be present at all sessions.

The preachers will arrive on the 11:30 a. m. train and will go direct from the depot to the church, when Dr. S. M. Dick of the Wesleyan M. E. church will address the audience. The church should be packed at this time. Dr. Dick is one of the best preachers in Minneapolis. He is a pleasant speaker, very logical and impresses his hearers with the sincerity with which he delivers his message.

At 2:30 p. m. the afternoon session will open. The speakers for the afternoon are also very strong men. Dr. Jordan, of the First M. E. church of Minneapolis, will make the opening address and will be followed by Dr. J. S. Montgomery, of the Fowler M. E. church of the same city. These men are well known throughout the northwest and need no comment.

The evening session will begin at 7:30. The local Sunday School orchestra will furnish music at this session. After the preliminaries Dr. Andrew Gillies of the Hennepin Avenue M. E. church of Minneapolis, will preach. Dr. Gillies is considered the strongest preacher and better in the northwest and Pine City is exceptionally fortunate in having the privilege of listening to the noted preachers.

The church will be packed at this service so a warning is in order, viz—come early if you wish a night. This meeting will be a wonderful treat and is free for all who wish to attend.

GOOD ROADS

The story of what has been achieved for Good Roads, in Renville County, as told by Hon. M. J. Dowling, makes it clear that complete system of good, smooth roads is easily within the reach of every county in Minnesota; and this without waiting for state aid. It needs only that the spirit of co-operation shall be kindled among the business men of the towns and villages, and a work which, without that spirit, seems almost an impossibility can be easily accomplished, without the imposition on any of more than a very light burden. Where each contributes a little, either in money or labor, the aggregate looms large, and only such intelligent guidance as was found in Renville County is needed to insure the greatest success.

Benson, Swift County, has inaugurated a co-operative Good Roads movement, under the leadership of the Benson Automobile Club, similar to that in Renville County. The co-operative movement seems catching.

WILLOW RIVER

S. L. Mottle went to Bruno on business Wednesday.

Mr. Pemberton recently purchased another house, and is now engaged in fixing it up.

There were quite a number of autos in town Tuesday, most all of them coming from Moose Lake.

The high school gave an entertainment in the hall Friday evening. All who attended report the entertainment fine.

We are having the streets graded, and when they are finished it will make a great improvement in the town.

Our pound master is looking out for cattle running at large. He has had one cow so far, but if he finds any more in they go.

Peter Praxel shipped his goat to Finlayson Wednesday. Now our citizens will not be bothered with it any more and the marshall will be safe when crossing the bridge.

Our constable seems to be busy these days about something. Wednesday he was out to Dorey township and Thursday to Rattledge. There must be something going on—anyway there usually is when the constable and justice of the peace are out together.

Last Sunday the first game of ball of the season was played with Moose Lake. In the second inning John Meyers slid into the home plate and was knocked out, which finished the game for that day. Next Sunday the home team will go to Moose Lake and play. We wish them success.

Letter From F. C. Ingelston From Africa

Tells Of His Trip

On Board Steamship Koning Louise, Bound From Sandy Hook to Gibraltar

On Board S. S. Koning Louise, April 1st, 1911.

Friend Gottry: Let me give you and my many friends about Pine City a brief description of my voyage so far. The North German Lloyd ship, Koning Louise, is a ship of 10,000 tons and 17,000 horse-power with a speed of 16 knots and hour, or nearly 19 miles. We have 27 second class, 127 first class and about 200 steerage passengers.

(Concluded from last week.) At the south end of the island we passed the low point of rocks, where two years ago the S. S. Slavonia, of the Cunard Line, steaming to the west with 600 passengers, at 3 a. m. hurried there without warning from their berths and dreams of home and loved ones, to struggle and at last sink with a cry for mercy to Him who rules the sea. No stone marks the grave of the 380 souls who went before their Maker in that awful crash. Once again some one has blundered, and who can say, and a shudder passes through us as we think of the silent dead resting thousands of feet below us.

At 3 p. m. we were abreast of the west end of St. Michael's Island, the largest one of the Azores. The observation at noon was 38.60 north Lat., 28.46 west Lon., run 355 miles. (Today I won the pool by guessing nearest to the last 48 hours run, which amounted to \$48.50.) Distance from Sandy Hook 2,187 miles.

The writer was more than busy taking pictures all along the island. The shore all along is solid and of volcanic formation, and with the green fields of grain make a beautiful sight, the old Dutch wind mills with their long arms are in evidence all along. Most of the houses are built of stone and are white-washed.

At 3:40 we ran in close to the city of Ponta Delgada, the largest city in all the islands, with a population of 23,000 mostly Portuguese. Here we dropped the mail, and it was fine, the mail was put in a tin box and sealed, then inclosed in a wooden box with a play staff and play, and then dropped over the stern of the ship and picked up by a launch.

I sent cards to some of you by which you will see that the Azores have been admitted to the postal union, and have their own stamp now as well as a new flag.

At 6 p. m. we passed the east end of the island and are away again for Gibraltar, which we should pass on Monday, and I hope to have the strength of Gibraltar after I see it.

April 1st on deck early, met a large ship at 11 a. m., observation at noon, 37.10 north Lat., 19.23 west Lon., run 338 miles, Sandy Hook 2,345 miles. At 12 o'clock noon to day aboard this ship it was 8:12 a. m. at New York.

We are having a fine run and no sea. I will finish this and mail it in Algiers. April 2nd observation at noon 36.50 north Lat., 11.56 west Lon., run 359 miles; Sandy Hook 2,904 miles. Wind blowing hard but no sea, met the White Star ship 'Celtic' at 4:40 p. m. April 3rd passed Gibraltar at 9:30 a. m., observation at noon 36.7 north Lat., 4.38 west Lon., run 364 miles, Sandy Hook 3,298 miles.

April 4th heavy rain, we are run. (Continued on Page Four,

TESTED AND PROVEN

There is a Heap of Solace in Being Able To Depend Upon a Well Earned Reputation

For months Pine City readers have seen the constant expression of praise for Doan's Kidney Pills, and have read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

Mr. Otto Becker, Sixth St., Pine City, Minn., says: "For several years my kidneys did not do their work properly and as the result, my back became weak and lame. I felt tired, no ambition and was miserable in every way. My joints were stiff and at times I had to have assistance in walking. Dizzy spells and headaches bothered me and my sight was affected. When I was suffering in that way, I began the use of Doan's Kidney Pills, procuring them from Breckenridge's Pharmacy and they acted like magic. I now enjoy good health." (Statement given August 31, 1907.)

RE-ENDORSEMENT
When Mrs. Beecher was interviewed on October 19, 1910, she added to the above: "I cheerfully endorse Doan's Kidney Pills again and advise their use in all cases of kidney trouble. I have never had any serious recurrence of this complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

He is an honest, hardworking young man and well thought of by all who know him.

"Talk about your hot spenders and regular dare-devil cutups," said a Pittsburg motorman, "but I saw the champion Coal Oil Johnny of the lot at an amusement park the other day. We were standing outside the gate, waiting for the car to fill up, when a bunch of bold young blades came romping out of the park and made for the car. They were from the country and had been having a high old time with pink drinks and strawberry jiggers, and they couldn't stop 'em with a dash for the front end of the car, but I blocked his way and told him he couldn't get on at this end."

"O, I got the price," he shouted, "ain't you think I haven't?" And he insisted on his going to the back end and he put up an awful argument and got all fussed up. Finally he strode back to the rear platform, paid his nickel, and arising straight through the car with a glare of defiance at me, he stepped out and marched around to the rear again. Slipping down another nickel, he repeated the performance, and blamed if he didn't make the circuit six times before we got started, each time with his chin a little higher as he passed me. His friends cheered him to the echo, and I suppose they'll be selling out in Pittsville for years to come how he socked it to the Pittsburg Railway company."—Pittsburg Gazette-Times.

AN IRISHMAN'S READY WIT

Sense of Humor Saves Him From Censure Because of His Disobedience.

Several years ago, while managing the gas and electric property at Madison, Wis., I came in daily contact with an Irishman by the name of Malaney who was then superintendent, says Henry L. Doherty. He had a keen appreciation of humor and wit and was never so happy as when he could make you wonder whether he was extremely foolish or extremely witty. His bulls were often, and perhaps always, premeditated. I liked to joke with him, although I generally got the worst of it.

He had a persistent habit of working on Sunday, and it seemed to me that he always picked out a job of trenching in front of some church or equally conspicuous place. While in April he was one of the most loyal and obedient employes I ever had, in reality he did not know how to mind.

Whenever I spoke to him about his Sunday work, he would always say: "When the ox falls into the pit he shall be taken out."

The whole difference was between his opinion and mine as to what really constituted an ox in a pit. Finally I had to give him orders that he was never to work on Sunday without my consent.

For several weeks there was no cause for complaint.

I was absent from the city for two or three weeks and returned unexpectedly on a Sunday. While out for a drive I saw a ditch open in a side street and guessed in a moment that Malaney was at work there with some of his men. I drove down to the ditch, and found him on his knees trying to blow up a fire that had kindled. He would not have seen me at all if I had not spoken to him; but, coming up immediately behind him, I said: "Mr. Malaney, have I not told you repeatedly that you must not work on Sunday?"

He almost collided with my last words by his ready response, which was: "Ye did, ye did; but I forgot to ask you whether you were a Jew or a Gentleman."—The Sunday Magazine.

NO USE FOR WALKING STICK

Average American, in Hustle of Life, Has No Time for Unnecessary Cargo.

Now that we are reminded of it, we realize that the great American people are seldom seen to possess a walking stick. "It's a small thing," writes an essayist in a morning paper, "the absence of the walking stick, but it belongs to the American motto, never, in the hustle of life, carry unnecessary cargo."

The idea is, of course, fantastic with the fantasy of transatlantic common sense. The hustle of life surely extends to travel in the case of a nation which would consider itself degraded if it spent longer than a week in a complete journey through Europe; and when Americans travel they are the last to deny themselves the luxury of an extra bit of luggage because it happens to be unnecessary. It is common knowledge that they go on loading the liner with trunks until the company's officials say "Stop," if only to collect so many more steamship and hotel labels as add to their already bloated store of these trophies.

No, the walking stick is a matter purely of personal choice. Most Americans chance to feel no need for a walking stick whereas we do. That is how the thing stands. When it comes to a walking stick the world must be considered individually. The physical walking is quite likely to have a taste for a gigantic club; the enormously powerful man who snaps his handkerchief before breakfast as though it were a piece of cotton may select for a walking stick the thinnest shred of malsoca that money can buy.—London Globe.

BISHOPS TO OKLAHOMA

SESSION AT WINONA DECIDES ON MEETING PLACE FOR NOV. 11—REPORTS ARE MADE.

EXECUTIVE SESSIONS ARE HELD

Business Men's Association Give Delegates Auto Ride Around the City—Assignments for Sunday.

Winona. — The college of Methodist bishops spent all of Tuesday in executive session. The following bishops reported their work: Bishop Quayle, Hamilton, Barry W. Neely, Anderson and Nielsen.

The chief matter under consideration during the morning was the place for the next meeting. Bishop William A. Quayle extended an invitation for Oklahoma City, Okla. It was accepted and the bishops will hold their next meeting on Wednesday, November 1.

An interesting detail of the afternoon was the visit of T. D. Collins, a wealthy lumberman of Nebraska, Penn. He is well known to the board of missions of the local church, having been favored by him with many handsome gifts amounting to more than \$100,000. Mr. Collins was a close friend of the late Bishop C. A. Mc Cabe, whose battery started the church, when it was first heard, \$100,000 for missions.

Mr. Collins' principal business here was to impress a great movement to enlarge the subscription list of all Methodist periodicals. It is assumed that the ministers and district superintendents led by the college of bishops became active at once in this department. Mr. Collins was delivered by County Attorney Peterson, Prof. E. M. Phillips, superintendent of the city schools, Assistant Dairy and Poultry Commissioner W. E. Chas. and J. H. Swenson, Representative Westcott of Dakota county and Representative Mackenzie of Sibley county.

Dunn was left to close the addresses. He explained his connection with the "clock" incident, saw a history of the incident told of him, and curbing the hostility of the cities by pushing the distance tariff proposition through the House. There some light on the "seven senators" bill and paid his respects to the journalistic muckrakers who selfishly advocate the cause of the interests.

Dunn closed by declaring he had no other political ambition than to return to the lower house of the state legislature and make a plain clothes man and another strenuous effort to push through some of the legislation that is so badly needed in the state.

HIBING FOR REFORM.

Garbage Collection, Curfew Ordinances and Sane Fourth of July.

Hibbing.—By special direction of the town council Hibbing will present all the ordinances to be enacted during the coming summer if the rules and ordinances being put into effect are enforced.

First and most important is the rigid enforcement of the garbage ordinance. At the recommendation of the health officer, Dr. Adams, a law and more comprehensive ordinance was passed. The city will purchase special fly-trap garbage cans and will sell these at cost to the citizens. The residents will not be forced necessarily to purchase cans from the city, but they will be forced to use flyproof receptacles, and to keep them closed.

At the request of certain women of Hibbing who appeared at the council last night the curfew ordinance will be enforced during the ensuing summer. The ordinance will be enforced on the fire whistle, to sound the curfew, as the old fire bell is not loud enough on the city.

Another ordinance to receive attention was the one restraining the use of firecrackers and fireworks. The ordinance was drawn up by Village Attorney Robert Stratton at the request of three of the council members. It is now being drawn up by the village attorney to answer the purpose and the record-er was requested to notify the police department to see if the ordinance provides for a safe and sane Fourth of July and there seems to be every indication that it will be carried out.

DUNN IS BANQUETED.

Albert Lea Business Men Tender Dinner to Speaker.

Albert Lea.—There was an immense crowd at the dinner tendered Speaker H. H. Dunn by the Business Men's League of the city, at the home of the president of the league, acted as toastmaster, and he was very happy in his allusions to the various speakers.

Speeches were delivered by County Attorney Peterson, Prof. E. M. Phillips, superintendent of the city schools, Assistant Dairy and Poultry Commissioner W. E. Chas. and J. H. Swenson, Representative Westcott of Dakota county and Representative Mackenzie of Sibley county. Dunn was left to close the addresses. He explained his connection with the "clock" incident, saw a history of the incident told of him, and curbing the hostility of the cities by pushing the distance tariff proposition through the House. BOARD TO CLEAR STATE LAND.

Reclamation Officers Name Counties in Which Work Will Be Done.

St. Paul.—Members of the new state reclamation board, W. R. McKenzie of Bemidji, A. J. McGuire of Grand Rapids, and W. J. Brown of Warren met at St. Paul and qualified for their office. They designated the 10 counties in which the 40-acre experimental tracts are to be located. The land is to be sold for a minimum of the appraised value plus the cost of clearing, to be paid on the usual terms of 15 per cent down and the rest any time within 40 years.

CO-OPERATIVE STORE FOR "U"

Students to Share in Profits in School Supplies.

Minnesota.—The University of Minnesota is to have a cooperative book and school supply store, like those which have met success and popular favor at the universities of Harvard, Chicago, Wisconsin and others.

Benjamin H. Walling, a Minnesota alumnus, organized the Northwestern School Supply company, made the announcement yesterday. He says he has organized the Minnesota Co-operative company, which will take over the entire stock and fixtures of the University store at Fourteenth avenue southeast and Fourth street.

The students will share the profits of the new institution. It is expected a saving of from 10 per cent can be made by students on the purchasing of their books and school supplies.

Nimrod Seek Trout Fry.

Washington, D. C.—The Red Wing Rod and Gun club will take up a membership drive, recently made application through Representative Davis, for a supply of trout fry for stocking its near-by streams. Mr. Davis has filed the application with the consent of fish commissioners, and will sell these at cost to the citizens. The residents will not be forced necessarily to purchase cans from the city, but they will be forced to use flyproof receptacles, and to keep them closed.

LAND GRABBERS ARE INDICTED

SOUTHERN MINNESOTA MEN IN FEDERAL NET.

Defendants Charged With Misuse of Mails—Will Fight Case.

Manhato.—The Federal court completed its after two days' session and adjourned. The case was tried, but the grand jury was busy for two days investigating a scheme alleged to have been practiced on farmers in southern Minnesota and elsewhere by certain parties by which numerous farmers are thought to have been defrauded.

Five indictments were returned charging Samuel D. O'Neill and William A. Bohart, of Sherburne, and Felix L. Perrino, of Delevan, jointly with conspiracy to commit offense against the postal laws by using the mails in connection with the scheme to defraud. The defendants are: H. L. Larson, Foreman, N. D.; Mike C. Eake, De Graf, Minn.; Charles L. Longman, New Richmond, Minn.; The Hon. J. H. Thayer, the editor of Delevan.

The alleged scheme. Bohart has not been arrested, but the others both entered pleas of not guilty when arraigned and were allowed to go on bonds of \$5,000 and \$10,000 respectively. The trial will be held at the November term of court. The post office department has worked up evidence in the case.

It is claimed by the government these parties put advertisements in papers claiming to have purchasers for land at a good price and the buyers, if wanting to sell. When the reply was received two of the parties would go to the farmer, one representing himself to be a real estate agent and other the buyer, and a bargain would be made for the purchase of land at a good price and the buyer would pay down a check to bind the bargain.

The real estate dealer would then return for his commission, and the farmer would endorse the check at the bank and the alleged real estate dealer would try to get all or as much as possible of the money as commission for making the sale. Later the check would come back worthless and the farmer would have to pay it and he would find that his supposed sale was bogus. O'Neill is said to be a lawyer. The defendants will fight the case stoutly.

MR. WHITTIER CLINGS TO JOB.

Attorney for Boys' School Head Inmates Civil Will Fight.

St. Paul.—F. A. Whittier, the superintendent of the state training school for boys at Red Wing, will not resign his position, on the contrary he will make a strenuous effort to stay in the job, according to Mr. Whittier's purpose as gathered by members of the state board of control and Governor Eberhart from an interview with Whittier, who maintains that the latter cannot be removed until formal charges have been made against him and proved in the course of a public trial.

Mr. Wilson will insist upon this statutory right for his client. The people of Red Wing are organizing a committee to stand by Whittier. The governor was informed Friday that a demonstration of indignation was being planned and it is reported that several other persons have perished.

MAN ACCUSED OF FORGERY.

Fergus Falls.—Richard M. Hayes of Minneapolis, was brought to trial in the district court in this city on a charge of forgery of the will of the late Peter Prinz.

Prinz died in 1903 and his only heirs were his brother and sisters living in Austria. A month after his death, Mr. Hayes brought in the will for probate, being questioned his property, amounting to \$25,000, to his wife's relatives, who reside in Wisconsin. This will was drawn six months before Prinz's death and Hayes claimed it had been received by mail with no letter accompanying it, the previous November.

The will was admitted and the property divided, but it is now claimed it was a forgery and the state proposes to prove that it was drawn on Mr. Hayes' own typewriter. This typewriter will be brought in as evidence and the case goes on upon peculiarities of letters and papers filed by Hayes in Minneapolis courts which are to be brought to show that they were written on the same typewriter as the will.

Notorious Den is Burned. Winona.—The Childs roadhouse at Bluff Side, Wis., one of the most notorious places in this section of the country and where last winter John Dingleider was murdered by Al Childs, the proprietor, who has since died of wounds received from the fire, was totally destroyed by fire. The origin is a mystery, although it is believed opposition to the continuance of the place by neighbors is not far from the cause of the disaster.

BIG FIRE IN BANGOR

FLAMES SWEEP BUSINESS AND RESIDENTIAL DISTRICTS OF MAINE CITY.

\$6,000,000 IS THE LOSS

Firemen Are Almost Helpless Before Gale-Driven Flames—Dynamite Used in Gas Station—Hundreds Are Made Homeless.

Bangor, Me., May 1.—(L.) The town of Bangor, has been devastated by the rebels, who are again strong. The gates of the city have been closed. The loyalty of the troops is doubted, and this fear has caused much excitement among the peaceful inhabitants of the city.

Two British torpedos boat destroyers have been sent from this city to Canton. It is stated that the movement was followed by anti-separatists from Hongkong and Macao. Orders were issued to suspend navigation on the river until Thursday. The British consul insisted that the vessels at Canton be permitted to take away tourists there. This request was granted, and the vessels were packed with persons desiring to flee the city, while others crowded the wharves and the streets, rendering thousands homeless. The loss is estimated at \$6,000,000.

The efforts of the fire department from the time the fire started were absolutely futile. The flames swept north along Broad street from Union, then jumped the Kennebec street, running along on the western bank of the Kennebec river, and then the Smith and Strickland blocks at the junction of Hammond and Central streets and the Kennebec street was dynamited in a vain attempt to keep the flames from leaping the street.

After the first rush of the fire to the north the back wind set up by the fire itself fanned the flames toward the south, threatening that part of the city that first escaped.

Post Office Is Wiped Out. Early in the advance of the flames the post office fell before the onslaught of the flames. The Maine Telephone and Telegraph company was the only communication except by the Postal Telegraph company was left. The Western Union and the telephone lines were cut.

City Hall Is Saved. For a long time the city hall, at the foot of Main street, was saved by a slight shift of the wind. The Maine Telephone and Telegraph company, the Fiske building, the Fairbanks & Co. plant, the Morse Oliver block, the offices of the Bangor and Aroostook railroads, the Jewett building, the Windsor Hotel and the public library were destroyed with many other less prominent buildings.

In the residential district the people started to move out early, fighting for conveyances on which to pile their effects. Many people were panic stricken. Running wildly, carrying all sorts of useless articles, snatched up in their frenzy, they poured out of the city toward Old Town.

One fatality is known, a man named Scriber of Brewer having been buried under the falling walls of the Morse Oliver building and it is reported that several other persons have perished.

Neighboring cities were appealed to and responded by sending fire apparatus. Among the additional buildings burned are the Tarrattine club, First Baptist, Universalist and Advent churches, Jewish synagogue, post office and custom house, Central fire station, forty to fifty business structures and upwards of 100 dwelling structures all of the better class.

The city was in darkness, all sources of light having been cut off and the greatest confusion prevailed, the entire population being called out by Mayor Stulen to aid the police in preserving order. As the fire spread many deeds of heroism were enacted. The first calls for aid to Augusta, Portland and Lewiston were made by wire chiefs of the New England Telephone and Telegraph company, who climbed the poles, cut the wires, attached instruments and flicked off the message.

HURRY CALL FOR EARL GREY

Summoned From Winnipeg to Capital Because of Critical Canadian Reciprocity Situation.

Winnipeg, Man., May 1.—The critical situation at Ottawa has resulted in the sudden recall of Earl Grey to the capital from Winnipeg.

The governor general has canceled all his engagements for the week and left with his suite for Ottawa. The determination of the opposition to the reciprocity bill in the United States all summer, if necessary, as outlined by Leader Borden, thus prevented Sir Wilfrid Laurier from attending the imperial conference and conversation, has caused a crisis in political circles.

State Wipes Out Bonded Debt.

Spokane, Wash., May 1.—By taking up \$700,000 worth of outstanding bonds, State Treasurer Lewis has wiped out the remainder of the state's bonded debt and today Washington for the first time in its history will be out of cash basis with no outstanding bonds.

CHINESE REBELS SLAY THE TAO TAI OF CANTON

Loyalty of Troops Doubtful—U. S. Gunboat Is on Way—Gates of City Are Closed.

HOUSE GAINS 42 MEMBERS

Reapportionment Bill Passes Lower Body of Congress by Strict Party Vote—178 to 92.

Washington, April 28.—By a strict party vote of 178 to 92, the house passed the reapportionment bill, which will increase the house membership from 391 to 433.

The new apportionment is based on the population as shown by the recent census and the ratio of representation is one member for each 211,000 inhabitants. Former Speaker Cannon and Representative Crumpacker of Indiana led the successful fight to reduce the house membership in the future to 430.

Under the bill no state will lose a representative, while 16 states will gain one member each; five will gain two; two will gain three; Pennsylvania will gain 4 and New York 6.

Facts About Motherhood

The experience of Motherhood is a trying one to most women and makes distinctly a specialty of it. One woman is a hundred and one prepared to undergo every calamity, but many are not properly cared for.

It is not until the time of childbirth, but many are not properly cared for. There is a great deal of suffering and when the strain is over, it is hard to recover. Following childbirth is a period of nervous strain of caring for the child, and a distinct change in the mother's health.
