### TEACHERS' TRAINING SCHOOL

Teachers' Training School will be held at Hinckley this Summer, beginning Monday June 24th, and continuing for five weeks.

I wish all teachers who plan on attending this summer school to write to me stating their intention and asking any information concerning their work there and about boarding places.

I take this opportunity of asking the people of Hinckley, who can, to furnish rooms or rooms and board. I would be very thankful to those who wish to accommodate students, if they would write to me stating how many you can accommodate and give rates.

The State Department has promised special work in Agriculture and in Domestic Science.

Work only in second grade subjects will be taken up at the County Summer Schools this summer. Those wishing to take first grade work are expected to attend the University or the State Normal Summer schools.

Supt. Marshall of Princeton will act as conductor. A strong faculty has been assigned to this county training school.

Programs, outlining the work, furnishing information concerning rates for board and rooms etc. will be sent out in the near future.

If you know of any who expect to attend a summer school this summer I would be pleased to have you send the names of such parties to this office that we may send a program to their address.

Sincerely,  
H. G. OTIS, Co. Supt.

### PAYNE-VICKERS.

A wedding of more than usual interest was that which united the lives and hearts of Miss Jewell Vickers, of Glen Flora, and D. A. Payne, of this city, last Wednesday afternoon. Rev. Hayes, of the Methodist church, performed the ceremony which was witnessed by only a few relatives and friends of the contracting parties.

The announcement of the wedding came as a great surprise to their host of friends here.

Miss Vickers is a very beautiful and charming young lady and by her sweet and amiable disposition has won a countless number of friends.

Mr. Payne, better known as "Dan" is manager of the Westman Lumber Company who, by his honorable business methods, has made many personal friends.

After the marriage Mr. and Mrs. Payne came to Wharton from Glen Flora in an automobile and took a train for Houston.

Their honeymoon will probably be spent in New Orleans.

The Farmer joins the many friends of this young couple in wishing them a most happy and prosperous married life. (Wharton County Farmer, Wharton, Texas.)

H. J. BUIRE,  
Village Clerk.

### SNAKE RIVER EXTREMELY HIGH

The waters of the usually placid Snake have, for the past week, been extremely high and swift. Wednesday morning water had washed over the dock, and the boat livery office resembled a duck pond. The Lumber Co. has had considerable trouble with logs that were inclined to gallop off down stream. Tuesday morning the river below the dam was bank high, and at the north end of the new steel bridge, nearly touching the planks. Just as a simple illustration of the rapidity which marked the rise of the water in the river, let us relate one incident. On Monday evening in going along the shore we noticed a row-boat tied to a small willow tree. On this day the tree was on dry land. The following day in passing the same way we took particular notice of the boat and found that the rapidly rising water had turned the boat around so that the stern was on shore acting as an anchor for the tree.

The past twenty-four hours have shown no marked rise and it is to be hoped that the climax has been reached. The water has been higher the past week than it has since 1898, when the big jam extended from the railroad bridge to Mile Island.

# EVOLVE INTO TOWN

LARNED, KAN., STRUCK BY DOUBLE TWISTER THAT WRECKS MANY HOMES.

## NO FATALITIES ARE REPORTED

Storm Is Accompanied by Huge Water Spout That Ravaged Destroyed—All Communications Cut Off—Many Have Narrow Escape.

Larned, Kan., May 6.—A double header cyclone struck this place, one branch struck this city on the southwest and rushing up the Santa Fe tracks directly for the heart of the business section where it took a turn to the east tearing through the east part of town wrecking a number of residences and damaging practically all. When it reached the northeast part of the city it veered north, tearing the Missouri Pacific depot to splinters and passing on into the right and left railway region beyond. The damage cannot be ascertained, as all telephone lines in north Pawnee county are down. The only person known to be hurt is Mrs. Chris Ahrensfield, wife of Councilman Ahrensfield, who received several bad cuts about the head by the falling timbers of her wrecked home. The damage from the twister is about \$200,000.

## WATER SPOUT ACCOMPANIES STORM.

A terrific water spout accompanied the twister flooding the devastated section and making reports meager. The only person known to be hurt is Mrs. Chris Ahrensfield, wife of Councilman Ahrensfield, who received several bad cuts about the head by the falling timbers of her wrecked home. The damage from the twister is about \$200,000.

## SECOND "TWISTER" IS TURNED.

The second cyclone rushed for the west side of town, but was turned by a high hill which guarded that section. It then turned up the fertile Pawnee valley doing unknown damage, the reports on which are meager owing to the demolished condition of all telephone wires in that part of the country. Electric light service was cut off here for several hours because of danger to life and property from broken wires.—Telegraphic and telephone connections to the east are both discontinued. The H. H. Reed farm, west of here, was destroyed and the owner and his son, Fred, narrowly escaped with their lives, having taken refuge in a barn which was torn to splinters and in which several valuable horses were killed. The Peters family in the eastern part of town were eating supper when the twister struck their home, tore it from its foundation and sent it down waving life up to a member of the family was scratched.

## TRAILMEN REPORT DAMAGE.

Trailmen on Santa Fe No. 8 report that two "twisters" passed through Crowleyville, Mo., wrecking several churches and several houses. They could ascertain no loss of lives. Reports from south of this place state that the American Express train so rapidly from the water spout as to turn the waters of Pawnee river into a large tributary stream. Considerable damage was done from the fooded condition of the country.

## CLONDBURST HITS MICHIGAN.

Marquette, Mich., May 6.—Clondburst in the western end of the upper peninsula and northern Wisconsin have worked havoc with the Duluth Southern and Atlantic railroad, three serious washouts with several minor ones have already been reported. Miles of track have been washed out, bridges and culverts undamaged and washed away and loaded freight cars precipitated into the swollen streams. Railroad traffic over the entire western end of the main line between Marquette and Duluth and between this city and the copper country is a standstill.

## STURGEON RIVER, BETWEEN NORTON AND DANSE IS SWOLLEN TO GREAT HEIGHT IN PLACES.

The Sturgeon river, between Norton and Danse is swollen to great heights in places. It is surging ten feet over the south shore right of way and has swept away a mile or more of track.

## STEEL TRUST CASE BEGINS

Taking of Testimony Started in Government's Suit to Dissolve the Giant Corporation.

New York, May 6.—An important step in the government's suit to dissolve the United States Steel corporation was taken here today when Special Examiner Henry P. Brown of Philadelphia began the taking of testimony in the United States customs house.

Even greater interest than that manifested in the Standard Oil case hearings, which were held in this same building four years ago, is being taken in the steel trust case. This is due in part to the startling revelations brought to light by the Stanley investigating committee, and the prominent part played by President Roosevelt in the case.

An imposing array of legal talent, headed by Lincoln D. French and San Francisco lawyer Jacob M. Dickson, former secretary of war. Other government attorneys are George W. Pepper of Philadelphia and Henry B. Ogden, special assistant attorney general.

## WAT RECOGNITION

MEXICAN REBELS TO DEMAND THAT U. S. RECOGNIZE THEM AS BELLIGERENTS.

Provisional Government Is Appointed by Insurrectos in Riot Ridden Republic, With Headquarters on Site Where Madero Ruled.

El Paso, Tex., May 6.—A formal demand that the United States recognize the Vasquezta rebels as belligerents was prepared here by Emanuel Vasquez Gomez, to be forwarded to Washington early this week.

President Madero is also said to have prepared a formal protest to Washington on the score of Vasquez Gomez having been permitted to enter Juarez to confer with emissaries from Orozco, his field commander.

Gomez Provisional President. El Paso, Tex., May 6.—Emanuel Vasquez Gomez has been declared provisional president of Mexico and established his provisional capital in the customs house in Juarez, where Francisco Madero established his provisional capital May 10 last year. He appointed Col. Pascual Orozco, father of the generalissimo of the rebel, minister of war, and Lic. Moreno Canton of Yucatan minister of foreign relations. The rest of the cabinet will be named later.

## NATIONS HAVE SUCCEEDED IN CHECKING HIGH COST

Results of Co-Operative Unions in European Countries—Reports From Consuls.

Washington, May 6.—The president today transmitted to congress the annual installment of the reports of consular officers on co-operation and the cost of living which are the result of the investigation he some time ago directed should be made. The countries included in this installment are France, Belgium, the Netherlands and Denmark. The reports are accompanied by a letter from Huntington Wilson, acting secretary of state.

It appears from the information collected the acting secretary says, that the rising cost of living has directed attention to and augmented the meagreness of the cooperative societies, most especially in France and Belgium. The French co-operative associations are in the main arranged upon the same system as those existing in United Kingdom. The tendency is to wards small societies and the great majority of the associations represent groceries and bakeries. The most successful distributive societies exist in the manufacturing cities of northeastern and central France. Among those societies relief funds are administered, and insurance against illness and forced non-employment is supplied.

The operation of the agricultural societies has been especially successful in southern France. The French government has given encouragement to these societies by furnishing expert advice, granting subventions and permitting long term loans by agricultural credit associations. The general buying is done principally through district unions. High-grade farm machinery and insurance against illness and forced non-employment is supplied.

Government employees are to a large extent organized into cooperative societies. Many of the associations are similar to labor unions that restrict their membership to persons engaged in a given occupation. In regard to industrial co-operative production it appears that plants owned and operated by the operatives are not uncommon in France. The consular reports state that the French cooperative societies usually sell at prices which are neither higher nor lower than those of private stores and that they have a tendency to keep their prices throughout the district where they are located down to a fair level as well as to enhance the purity and quality of the goods. The degree of reduction in the cost of living is almost wholly contingent upon the capability and the altruism of the management of the respective districts.

## SOLDIERS OF SOUTH GATHER

Reunion of United Confederate Veterans at Camp John B. Gordon, Macon, Ga., Is Opened.

Macon, Ga., May 4.—The annual reunion of the United Confederate Veterans, which opened at Camp John B. Gordon today, has brought to the city thousands of the soldiers and their relatives and friends. The people of Macon are entertaining them most hospitably, hundreds of homes being thrown open to them.

After a band concert this morning the convention was called to order by Major General John W. Maddox, commander of the Georgia division, and the veterans were welcomed by Col. Walter Harbo, chief of the Macon branch. The convention was then turned over to Lieut. Gen. G. Travis Walker, the commander-in-chief.

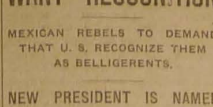

The Confederate Southern Memorial association also held its first session today. Mrs. J. W. Jones of New Orleans was presiding. The United Home of Confederate Veterans will open their convention at the fair grounds here on Thursday.

## BANK FORGER IS ARRESTED

G. T. Cummins of Cleveland, O., Held in New York—Amount Lost Is Not Known.

Memphis, Tenn., May 6.—O. T. Cummins, Cleveland, O., whose wife lives in Chicago, has been arrested in New York for bank forgery in Memphis. He came here to see a friend and was arrested in a society as single man, but with wealth, and left for New York in April. Amount of forgeries not made public.

## METHODIST BOARD FAVORS LIFTING AMUSEMENT BAN

Bishops at Minneapolis Conference Say That People Are Too Far Advanced to Be Restricted.

Minneapolis, Minn., May 4.—The board of bishops of the Methodist Episcopal church reported to the general conference of the church here in favor of lifting the church ban from dancing and card playing gambling and attendance at horse racing, theaters and circuses.

In making this radical recommendation the active bishops who formulated the report, declare that the American people are too far advanced longer to be restricted by church rules as to what their amusements shall be. It is suggested that each individual follow the dictates of his own conscience. The bishops declared that the church reiterated its opposition to theater going and gambling, but the ecclesiastical rule is in force since 1872 could not fix the point between the turf and the stock market.

A resolution in condemnation of Secretary Wilson of the bureau of agriculture created intense excitement early in the day. Rev. Dr. J. W. Anderson of Missouri offered the resolution, a strong effort was made to refer the resolution to the committee on temperance and prohibition. This motion to refer was offered by the Rev. James Rowe of Chicago. A strong minority were in favor of its reference to the special committee. The resolution was adopted by a vote of 54 to 25.

## What Every Woman Knows

A Cleveland school teacher writes that she asked her class what was the difference between the expressions, "a while" and "a time." Nobody seemed to have any ideas on the subject. Finally the light of intelligence was seen to shine in the eyes of one little boy, and the teacher called upon him to save the intellectual honor of the class.

"I know, teacher!" he cried eagerly. "When papa says he's going out for a while, mamma says she knows he's going out for a time!"

That's one way of looking at it.

Boarder (excitedly)—There's a rumor afloat—"Misses—Jennie, turn off the water in room 41—Judge.

## Revenge Is Sweet

"The drinks is on me," said the little man with the gray suit. "It is really good and I don't care what happens." "What's matter?" said the barkeep. "Birthday."

"No," replied the little man. "I took my wife down to the river to the Echo rocks and she's so dumb and she's speechless. For the first time in her life she didn't get in the last word. Here's to the echo."—Cincinnati Enquirer.

## What Every Woman Knows

A Cleveland school teacher writes that she asked her class what was the difference between the expressions, "a while" and "a time." Nobody seemed to have any ideas on the subject. Finally the light of intelligence was seen to shine in the eyes of one little boy, and the teacher called upon him to save the intellectual honor of the class.

"I know, teacher!" he cried eagerly. "When papa says he's going out for a while, mamma says she knows he's going out for a time!"

That's one way of looking at it.

## PINE COUNTY PIONEER

ED. C. GOTTREY, Editor and Prop.

Entered in the Postoffice at Pine City as Second-Class Matter

Pine City, Minnesota, May 10, '12

Our ex-President was a pretty wise man but he is learning a whole lot these days.

There is a man who is having a "bully time of it" and his initials are Robert Marion LaFollette.

What we need just now is a few less politicians and a few more statesmen in this great big land of ours.

The birds will sing again next year but you may not be here to enjoy the song. Better make the most of the present.

It may be that the fellows conducting the investigation into the loss of the Titanic do not know much about nautical terms and navigation, but they will learn by the investigation, and it may take a land lubber to discover the blame for the fearful loss of life which was clearly due to somebody's carelessness.

There are more chances in the world for the right kind of young men today than there were in the good old days that have gone. The man who takes hold of the problems of life and solves them is the man who will succeed, and the world is looking for him right along every day in the year.

It is hardly worth while to build good roads in the country while people persist in hauling heavy loads on narrow tired wagons which simply cut the road up and destroy the work as fast as it is completed. The wide tire not only prevents the rutting of roads that are properly built but they make poor roads good. In many rural communities the wide tired wagon and the split log drag would make excellent roads out of highways that are now almost impassable.

There is but one consoling thought in connection with the universal mourning over the great loss the people of this country has sustained in the sinking of the Titanic, and that is this: The conduct of the male passengers was a tribute to the manliness of American manhood. Of those who might have saved themselves at the expense of others and did not, the most conspicuous were American men. To willingly die that others may live is a trait of character almost Divine. No men in history have shown greater heroism than did the men who willingly met death in order that women and children might be saved.

The average American likes to see fair play. That is the reason why President Taft is getting support from quarters where it was least expected. No man ever left the Presidency with a better record than he closes his first term. The only criticism that can be offered is that he kept in too close touch with his predecessor and consulted him too much on public questions. But that can hardly be charged against the President, as he believed in his friend, and trusted him. He won't do it next term, and for that reason, if no other, it would be advisable to re-elect him. We have had enough of Roosevelt and Rooseveltism in this country. What the country needs just now is less bombast and more common sense.

Many of the counties and towns throughout the United States are bonding themselves for the building of good roads. One town not a thousand miles from here recently voted on the proposition to bond itself, and carried the proposition against a lively opposition based on the expense that it would heap upon the tax payers. One of the citizens of the town who was interested in finding out how matters stood made a careful examination of the records and found that there had been expended on the roads, such as they were, the sum of approximately \$90,000 of the public's money without a mile of good road in the town. When the facts were laid before the people they spoke to the realization of the real

condition and the good road money was voted without any serious difficulty. The trouble with our present system of road building is that we never build them. We simply clear out the road and then spend the public money in trying to repair what was never a road. In communities where roads are properly built and are being cared for scientifically it is found that there is no trouble in raising money for roads.

History is never correctly written until the passions of the present have been tempered by the passage of time. The Pioneer can not be accused of having been a friend to Grover Cleveland, and if you will take the trouble to turn to the files of the late 80s and early 90s you will see that the Pioneer stood opposed to him on many of his policies. We are still opposed to the policies he advocated. We then admired him as a man. Our admiration for him has been intensified during the past few weeks. No man ever left the Presidential office with more dignity than did he at the close of both of his terms. He came back to his second term with dignity, and with the same dignity he retired to private life. He had a proper conception of the dignity of his position. He believed that the American people respected not only the office but the man who had been called to the high duty. He was right. The people respected him and he was worthy of their respect. He made the most of his opportunities and died loved and respected by the whole people. The passage of time but intensifies the love of the American people. Compared with the Rough Rider president his character stands as a grand exemplification of American manhood while his successor, our only living ex-President has lost the respect of the people of America, and has degraded our nation in the eyes of the world.

### M. E. CHURCH LOCALS.

BY REV. PARISH

Our services were well attended last Sunday. The choir gave a specially pleasing anthem at the morning service.

The pastor will be in Minneapolis next Sunday at the General Conference. The pulpit will be supplied by Philip Hamlin, Allen Collette or G. L. Barker. You should attend the services next Sunday.

Next Sunday will be a big day in the Sunday School, as Mothers' Day will be appropriately observed. At this time all the mothers of the church are especially urged to be present, and those having small babies are requested to bring their babies with them. We look for a big time, you should be there.

## Republican Caucus

A Republican Caucus for the Village of Pine City will be held Friday, May 10, 1912, at the Village Hall between the hours of 7 p. m. and 8 p. m. for the purpose of electing six delegates to attend a Republican County Convention for the county of Pine, to be held at the village of Hinckley, on Monday, May 13th, 1912, at one o'clock in the afternoon for the purpose of electing ten delegates to the Republican State Delegate Convention, which will be held at Minneapolis on the 16th day of May 1912 for the purpose of electing six delegates at large and six alternates to the National Republican Convention to nominate a president and vice-president of the United States, to be held in Chicago, Illinois, on June 18th, 1912, and for the further purpose of electing ten delegates from said county to the Republican Convention for the Eighth Congressional district which will be held at Hinckley on the 15th day of May, 1912, for the purpose of electing two delegates and two alternates to said National convention.

F. E. SMITH,  
Chairman Republican  
Precinct Committee.

## COUNTY FAIR BOARD MEETS

At a meeting of the stock holders of the Pine County Fair Association, held at the office of the Secretary, Wednesday afternoon, the following business was transacted.

The premium on cattle, hogs, and sheep raised 20 per cent, on poultry, seeds, and grain 50 per cent.

There will be three premiums on vegetables this year instead of two as heretofore. A children's and school department were added.

The following Superintendents were appointed: Horses, C. C. Ives; Cattle, Max Hoffman; Swine and Sheep, J. M. Odegard; Poultry, F. J. Knowlton; Grain and Seeds, R. H. Clark; Vegetables, Otto Becher; Fruit, John Van Gordon; Culinary and Dairy Products, Mrs. M. Prochaska; Household Manufactories and Fancy Articles, Miss S. Shearer; Children and School Departments, Mrs. John Heywood.

The plans that are on file at the Secretary's office for a new fair building were adopted, and J. M. Collins, Max Hoffman and H. W. Harte were appointed as a building committee. The plans and specifications will be ready in a short time. J. M. Collins was appointed Supt. of races.

It was decided to give \$15 for the best rural school exhibit; \$10 for the 2nd, and \$5 for the 3rd.

## Good Oil Makes Good Paint.

THE most important part of any paint is the linseed oil. Without pure linseed oil, paint will in a short time dry up, scale off, and leave the lumber exposed to the action of the weather. The only way for the manufacturer to be sure of the quality and age of the linseed oil is to make it himself. Minnesota Paints are made from our own Minnesota Linseed Oil. This is what makes it better, as the linseed oil is never out of our control until it is sealed up in the can and shipped as *Minnesota Paints*. In Minnesota Linseed Oil we grind and pure White Lead and XX New Jersey Zinc, the two best paint pigments known. The grinding and mixing is done with the latest improved heavy machinery by expert workmen, supervised by practical paint men whose experience has extended over forty years. Do you wonder that

## Minnesota Paints

Have been known for forty years as "The Best Paints Made." We make "A Special Paint for Every Paintable Surface." Figure how much surface a gallon will cover and protect satisfactorily. *Minnesota Paints*, on this basis, are the cheapest paints on the market.

## THAT COZY LOOK

Paint your floors in colors that harmonize with the wall decorations and rugs.

In addition to the comfort and "cozy look," painted floors are a source of joy on cleaning day. With a damp cloth around the broom you can clean them in a jiffy. Its play rather than hard work to do it. Then, too, they are always dry, sanitary and healthful. Of course, you must use Vindex Floor Paint.

It dries hard over night, wears remarkably well, far longer and better than you think.

Its Good Paint, that's the reason.

FLANDERS 20 Automobiles E-M-F 30 Two Models

## If You Were an Expert, What Car Would You Buy?

The time has passed when automobiles can be sold to you on their appearances or claims. This is a day when you and every purchaser must be shown what the car for which you pay your money will actually perform; what it will do. Beware of an automobile salesman who attempts to beguile you with a pleasing story. Tell him to show the goods and *prove* to you that his cars are worth the money. Find out whether his car is a real car or only an assembled automobile built to sell.

You have a right to your money's worth, but it is up to you to see that you get it. Deeper than all appearances, there are a few expert tests which ought to be applied to every car.

Who makes the car? Is it an assembled car or made from top to bottom by one manufacturer? What kind of a guarantee is on it? Does the manufacturer respect his own product with a real guarantee, or does he want you to take the chance? What do parts cost you and how conveniently can you get them? How many cars of this make are in service and how many are giving satisfaction? Questions like these go deep into the heart of the case, and if you put them rigorously upon any car you will find out with a certainty whether or not that car is worth its price.

We are selling Studebaker E-M-F "30" and Flanders "20" cars because we know that, dollar for dollar, their equal is not sold in the market today. The records of many thousands of cars in all kinds of service have convinced us absolutely. Studebaker E-M-F "30" and Flanders "20" cars are built to run, and because they run they sell. If we cannot prove to you under the most searching test that Studebaker cars are absolutely the best automobile values in the market, we do not want your business; but we can prove it, and your neighbors who drive these cars will tell you the same thing.

Be an expert when it comes to buying a car. You can, by getting from us some further ideas on real tests of an automobile. Clip the attached coupon and send it to us now because we have something new to tell you which you ought to know, whatever car you have in mind.
