### CLOQUET VS. PINE CITY.

The Pine City base ball team went to Cloquet on the limited last Saturday afternoon and arrived at the above named place at about 7 o'clock.

We were to have played Graoston on Sunday last as advertised, but Friday the captain, Frank Hurley, received word they were not coming. Manager K. W. Knapp, who had been in correspondence with the manager of the Cloquet team, and who had arranged a game with them for next Sunday, was called up by phone about half an hour after the captain had received word that Graoston was not coming, asking if it would not be possible for our team to play them on Sunday, as the Adams team, of Duluth, had backed out. Manager Knapp at once telephoned back that we would play them for 40 and 60 per cent. of the gate receipts; they to guarantee expenses, which offer was accepted.

Upon reaching Cloquet the first thing the boys encountered was the fact that the management at that place said that they had made arrangements for the team to stop at a second-class hotel. This the boys refused to do. But at last the matter was adjusted to the satisfaction of the home team.

The game was called about 2:30 and Cloquet went to the field, Pine City to bat. Jeppesen, the first man up for the home team, hit the first ball pitched, and it fell in the mitt of the left fielder, Ed Brennan fanned and Jas. Brennan flew out to deep center.

Blinn, the first batter up for Cloquet, fanned and Baskula went out short to left, as did Gaskell.

Second Inning—P. Hurley fanned, as did John Hurley; Will Hurley flew out to center. Loisel for Cloquet fanned, Leonard was hit by a pitched ball and took 1st; J. Carlson hit to deep center and Jeppesen in making the run stopped in a hole and fell down, Leonard and Carlson scoring; Rogentine fanned; Bonneville was hit by a pitched ball; McKenna hit for one base, Bonneville going to second; Blinn was hit by a pitched ball and given a base; Bonneville going to 3d, McKenna to 2d; Baskula went out short to 1st—two scores.

Third Inning—In this inning Pine City scored six times, batting clear around. Cloquet got 3 scores—6 for Pine, 5 for Cloquet.

Space will not permit us to give each play, but in the 4th inning Pine City got 2, Cloquet 1. During this inning Bonneville, the crack pitcher of Cloquet, was retired and J. Carlson brought in from center field and H. H. Carlson went to center.

Fifth Inning—Pine City received a cosine egg in her frame and Cloquet 2 scores, making the score a tie—8 apiece.

Sixth Inning—Pine City fell on Carlson as they did on Bonneville in the 3rd, and batted out 5 runs, Cloquet getting a cosine egg in this and also in the 7th.

Seventh Inning—Pine City made one more score, making 14 in all, which was all they got, as they were blanked in the next two frames.

Grain Shippers Benefit. Washington, D. C. — The interstate commerce commission extended the territory in which allowances may be paid by railroads to shippers for elevation of grain so as to include not only the Illinois river cities, but grain markets on the Ohio and Mississippi rivers on the Great lakes and at Chicago. One-fourth a cent a bushel was held in reserve for transportation and for both transportation elevation and commercial elevation the compensation should be three-fourths of a cent.

Plenty of Potatoes. Duluth. — Northeastern Minnesota will have the biggest yield of potatoes in years according to Superintendent A. J. McGuire of the Northeast experimental farm at Grand Rapids. It will average about 275 bushels per acre. Wheat and oats will go to 85 to 95 bushels respectively, while corn is rather backward, owing to the lack of wet warm weather. Another factor that is retarding corn is the lack of rain but farmers are of the opinion that if rain falls this week, the yield will be as large as usual.

Hard to Find Names. Minneapolis. — Naming things that spring up on the trail of a newly built railroad seems to be an difficult proposition as naming the babies of a new town. # WOODROW WILSON IS DEMOCRATIC NOMINEE

## Governor Marshall His Running Mate.

### Fortunes Take on New Lease of Life After 43rd—Rapid Strides Are Made In Voting as Soon as Delegates See That Clark Boom Has Collapsed.

Baltimore, Md. — Governor Wilson was nominated at 3:15 p. m. Tuesday when Pennsylvania cast vote making total 733, breaking the long deadlock that had existed in the democratic convention since early Friday.

The final break to Governor Woodrow Wilson as the nominee for president of the United States came at the beginning of the forty-sixth ballot. Wilson had received 633 votes on the forty-fifth, with only 725 1/2 necessary to nominate.

Senator Bankhead of Alabama quickly withdrew Underwood. Senator Stone of Missouri, in behalf of Champ Clark, released all Clark delegates, at the same time saying Missouri would vote for him this evening.

By this time it was apparent Wilson would win on the forty-sixth ballot and the convention was in an uproar, delaying the call for a long while.

Wilson gained 108 votes on the forty-third ballot, the first cast today, and the hoped-for break appeared at hand.

Wilson's vote was 602, a majority of the convention. It was the highest vote he had received and the vote of Mr. Clark was the lowest received by him during the prolonged balloting.

Senator Bankhead spoke amid breathless silence. He said Underwood had entered the convention hoping to be the nominee. But his chief desire was to eradicate every vestige of sectional feeling.

of Princeton university became the legate of a \$3,000,000 estate, which could not be accepted without sacrificing Wilson's policies. The money was accepted. The president's resignation did not come, however, until after the New Jersey state Democratic convention on Sept. 15, 1912, had nominated him for the governorship.

In the following November New Jersey went Democratic for the first time since 1892 and elected Wilson by a large majority.

President Wilson made it clear at the start that conditions at the univer-

sity were to be changed, and whether for better or for worse, to be changed radically. He stated that colleges needed to be revolutionized, and went so far as to say he would endeavor to "graduate students as unlike their fathers as possible."

His policies kept him in almost continuous conflict with the faculty trustees and professors. In fact, the bitterest controversies in the institution's history marked his term. Wilson's friends say it was a conflict between a Progressive and Democratic president and the forces of privilege and aristocracy.

The earliest recorded mention of Woodrow Wilson as a presidential possibility is in the form of a letter written by some one in Indianapolis to the News of that city at the time of Wilson's inauguration as president of Princeton. This favorable notice was received on Feb. 3, 1906, at the Lotus club, New York, where Mr. Wilson was the guest of honor.

On that occasion Governor Harvey mentioned him as a possible candidate for the presidential nomination.

Colonel Harvey's magazine, Harper's Weekly, for a time gave ardent support to Wilson's campaign for the nomination; but at the beginning of 1912 this support was withdrawn.

Baltimore, Md. — For president Governor Woodrow Wilson of New Jersey.

For vice president, Governor Thomas R. Marshall of Indiana.

The nomination of Governor Marshall for vice president came as something of a surprise for whom the night's balloting for vice president began it seemed that the Bryan-Wilson contingent in the convention had definitely settled upon Governor John E. Burke of North Dakota.

There was not much of a fight, however, and when two ballots disclosed Marshall easily in the lead, Governor Burke's name was withdrawn and Marshall was proclaimed the nominee by acclamation. A minute later the convention had adjourned sine die.

The delegates, worn and weary, left at 11 a. m. Wednesday.

Colonel Bryan delivered what he called his "valedictory," and in happy vein, turned over the mantle of his former leadership as a presidential candidate to Governor Wilson.

He pledged himself to the full support of Wilson's campaign for the nomination of Governor Wilson to conduct his own campaign.

**PINE COUNTY PIONEER**

**ED. C. GOTTRY, Editor and Prop'**

Entered in the Postoffice at Pine City as Second-Class Matter

Pine City, Minnesota, July 5, '12

There are a number of entries in the race for the Superintendency of Pine County schools this fall, among them C. W. Colby of the Sandstone Courier. Here's success Bro.

With Woodrow Wilson as the Democratic nominee for the Presidency it looks more favorable for a Taft administration. Mr. Bryan's attitude in the matter of the selection of a candidate had much to do with Mr. Clark's defeat.

We often wonder why it is that some people always see the hole in the doughnut instead of the doughnut itself. The old adage, "Look Happy, Be Happy and Pass it around," properly adhered to, might work wonders with a great many people.

**JUDGING CRIMINALS**

One of the large dailies recently devoted nearly half a page of its valuable space to an argument on criminology, in an effort to prove that all criminals are not normal, physically. Scientists claim it to be a fact that the majority of criminals are "different" from the general run of human beings, but this difference cannot be determined by outward appearances, for it has its seat in the brain; and as has been shown, time after time, visible "differences" or deformities have nothing whatever to do with the making of a criminal.

The above mentioned paper, however, would have us believe that the size and shape of the head, the length of the limbs, the chest measurement, the color and glossiness of the hair, and even the weight, have to do with and can be used in determining the presence of crookedness in a man's system. Battistelli the Italian criminologist, is cited and his statement that a large percentage of criminals have black, glossy hair, is made much of. Is it not a fact, however, that Battistelli's researches were carried on among a nation of black haired people? Would not his conclusions have been radically altered had he extended his researches to include the Scandinavians for instance?

Judging criminals by the size and shape of their heads is equally as unreliable. Suppose one were to go out among the honest people, if you will, and select, at random, say a dozen, who are known to be men of honor and integrity. Shave their heads, and then stand back and observe the result. As sure as sunrise you will find among that dozen heads at least one or two over which Lombrosi himself would have gloated.

There are no two human beings in the world exactly alike; no one without his or her blemish; we are none of us perfect. How then can a normal physical standard be set, and where can a line of distinction be drawn?

The whole theory that certain visible physical deformities denote criminal tendencies, is wrong. If it were not one might expect to find a pair of talons on some of our capitalists.

Criminal tendencies, like the taste for liquor, or the desire for wealth are acquired, and nearly always early in life, and are the result of home training, and not the shape of the head or the color of the hair. (Mirror)

**NOTICE**

After July 1st until further notice I will be with my family at my summer place on Cross Lake.

I can be reached by telephone at all times.

My office hours will be from 11:30 a. m. until 3:30 p. m. daily and generally on Sunday about 11:30 a. m. will be at the Post office or Drug store.

Calls will be received at cottage on same terms as at town office except that night rates will apply between 8:30 p. m. and 9:30 a. m.

Obstetrical and surgical cases will be accepted from this rule.

R. L. WILKINSON, M. D.

**HENRIETTE**

O. E. Lind was in Pine City last Friday on business.

Wm. Walters and family were visitors at the Reichardt home last Sunday.

Some of our people attended the Graason creamery picnic last Thursday.

The Ladies Aid gathered at Mrs. Bragg's last week and report a pleasant time.

Wm. Rolf held a shingling bee at his place last Saturday and had his barn shingled.

John Laurisch and Harry Cummings attended the creamery picnic at Graason last Thursday.

Road Supervisors Hoaglund and Berglin did some road work last week which we were in great need of.

Another new inhabitant arrived in our city last week when a baby girl was born to Mr. and Mrs. Peter Pearson.

F. J. Gottshalk moved his threshing outfit home last week and will be able to do all kinds of threshing this fall.

We learn that C. A. Peterson, cashier of our bank, left us for a short while, and has gone to take to himself a bride.

The quarterly conference of the M. E. church was held at the Henriette school house last Friday and was well attended by both Henriette and Pokegama people.

Jos. Olson went to Mora Saturday to get his son who has been at the hospital for some time. Mr. Olson reports his son much better and the community hopes for his speedy recovery.

L. Johnson our butter maker has signed a contract to operate the Cornell creamery another year. We are glad to see Louis and family remain as they have made many friends since they arrived here.

**Show You**

**Cloquet vs. Pine City.**

(From first page.)

In the 8th the crowd hugged the third base line so close that our boys had hard work to move around, and hooted and yelled like a lot of maniacs. In this frame the Umps allowed two men of the seven to score on foul tips, and with the Umps playing against us the Cloquet boys scored 4 times in the 8th and once in the 9th, making in all 13, so that when the smoke cleared away at the end of the 9th inning, the score stood 13 to 14 in favor of Pine City. The score does not show the game as it should be, as the Cloquet bunch did not make but three earned runs and every run of the home team were earned but one, as the home team had five 3-base hits and four 2-base hits to their credit with but one 3-base hit for Cloquet, and that the one that Jepsen fell in getting under.

In all the games of ball played by Pine City the umpiring was the rottenest we ever saw, even the fans at Cloquet calling him down on some of his decisions.

The following is the score by innings:  
 1 2 3 4 5 6 7 8 9  
 Cloquet . . . 0 2 3 1 2 0 0 4 1—13  
 Pine City . . . 0 0 6 2 0 5 1 0 0—14

**MUST BELIEVE IT**

When Well-Known Pine City People Tell So Plainly.

When public endorsement is made by a representative citizen of Pine City the proof is positive. You must believe it. Read this testimony. Every backache sufferer, every man, woman or child with any kidney trouble will find profit in the reading.

Mrs. August Carlson, North Pine City, Minn., says: "I am just as strong in my praise of Doan's Kidney Pills today as I was three years ago, when I publicly recommended them. For about two years I had kidney complaint. It began with pain and weakness in my back that prevented me from doing any lifting. If I stooped, sharp twinges darted through my loins and head. My rest was broken at night and often I was hardly able to attend to my work. Doan's Kidney Pills were procured at Breckenridge's Pharmacy and they restored me to good health. I shall always be pleased to tell of the merits of this preparation."

For sale by all dealers. Price 50 cents. Foster Milburn Co., Buffalo, New York, sole agents for the United States.

**Good Oil Makes Good Paint.**

THE most important part of any paint is the linseed oil. Without pure linseed oil, paint will in a short time dry up, scale off, and leave the lumber exposed to the action of the weather. The only way for the manufacturer to be sure of the quality and age of the linseed oil is to make it himself. **Minnesota Paints** are made from our own Minnesota Linseed Oil. This is what makes it better, as the linseed oil is never out of our control until it is sealed up in the can and shipped as **Minnesota Paints**. In Minnesota Linseed Oil we grind pure White Lead and XX New Jersey Zinc, the two best paint pigments known. The grinding and mixing is done with the latest improved heavy machinery by expert workmen, supervised by practical paint men whose experience has extended over forty years. Do you wonder that

**Minnesota Paints**

## MINNESOTA LAND

### DETROIT FAMILY WANTS 40,000 ACRES MINERAL AND TIMBER TRACT

### BIG CONTEST EXPECTED.

More than \$3,000,000 at Stake in Legal Contest Which Has Been Begun in St. Louis County Court.

Duluth—A vast tract of Northern Minnesota mineral and timber land, comprising more than 40,000 acres, in Lake and St. Louis counties, is being sold at more than \$3,000,000, is the stake for which the family of Henry Stephens, a Detroit millionaire, is playing.

In district court here two lawsuits were started to recover title to the Minnesota lands of the estate, which have passed to the hands of the family of Stephens' eldest son, former administrator, who died two years ago.

Henry Stephens, Sr., died in Detroit February 22, 1888. He was a wealthy man, being rated at about \$7,000,000. Most of his holdings consisted of land in Minnesota and Michigan, and in mining properties, stocks and other interests. Under his will, Clara Stephens, his widow, was to receive one-third of his property. The remainder of the estate was to be divided between two sons, Henry Stephens, Jr., and Albert L. Stephens, and one daughter, Kate Meyer. Each of the children was to receive a two-thirds share. Henry Stephens, Jr., was appointed administrator, acting in that capacity until his death April 12, 1910.

In the suit brought by the widow of the elder Stephens, she claims that when he conveyed him a lease in a cashed interest in a portion of the Minnesota lands, she understood that it was simply to facilitate the handling of the estate. Mrs. Stephens gave two deeds, one in August, 1894. At that time no consideration was given, she says. In March, 1899, she claims she conveyed the remainder of her one-third interest in the property to her son for a consideration of \$33,333.33. The second deed was given, she claims, following the advice of her son that she had better dispose of her Minnesota interests, he representing as she says, that the land was practically valueless. The second understanding on it, and that the whole tract of land owned by the estate in Minnesota was not worth more than \$100,000. She said her share at this price.

### THREE HURT IN WRECK.

Minneapolis & St. Louis Passenger Coaches Derailed.

Minneapolis — Minneapolis and St. Louis passenger train from Des Moines was wrecked at a point three and one-half miles south of Waterville, Minn. Three passengers whose names could not be learned were injured. The engines and first three cars left the track. A special train left Minneapolis to bring the passengers here.

Details regarding the accident are meager. At the dispatcher's office of the Minneapolis and St. Louis, it was reported that the tender of the engine was the first equipment to leave the rails. This was followed by the mail car, baggage car and engine. Occupants of the smoker were the ones reported injured.

The accident took place while the train was crossing a trestle bridge and it is said that it will take two or three days to repair the structure for traffic. The majority of the passengers on the wrecked train are being cared for at the Twin Cities and many anxious faces were at the depot until after midnight awaiting reports of names of the injured passengers. It is said that the mail clerks and train crew escaped without injury.

### Buildup Rescues Master and Transfer Driver Saves Boy.

Minneapolis — Two persons were saved from drowning in the lakes; by his dog, and the other, a boy, by a teamster, who in doing so, lost a pocketbook containing \$5 and a meal ticket.

### Fritz, a large brown bulldog, pulled his master, Ernest Francis, proprietor of the Blue Line restaurant, Excelsior, out of Lake Minnetonka by the back of his shirt after he had been seized with cramps.

Frank Ringer, driver for the Fioris City Storage and Transfer company, rescued eight-year-old Willie Allen, 3408 Lyndale avenue south, after he drifted out way beyond his depth on a plank in Lake Calhoun.

### Honor Visiting Clergymen.

Minneapolis — Tributes to the Norwegian Lutheran church and to Norway were paid at a banquet in Donaldson's given by Norwegians of Minneapolis in honor of Right Rev. P. V. K. Bockman, bishop of Trondheim, and Rev. Hans Nilsen Hauge, who are in this city on a tour of greetings of the mother church in Norway. Fully 260 were present, several coming from St. Paul and other cities.

### Minnesota Village Threatened With Destruction.

While Earth. — Fire broke out in the Chandonnet lumber yard at Waubun, a village about nine miles north of Orono, on the 800-line with a stiff north breeze blowing. It soon fanned the flames into a most destructive conflagration and in a short time threatened destruction of the entire village with only a bucket brigade, composed of villagers, to fight the fire.

The fire spread and in a short time huge lumber piles and buildings, which were dry as tinder, were in a state of roaring flames. The flames spread to the residence and the business portion of village, destroying the residence of J. Williams, and restaurant and residence of M. Turk, Levi Laloo's pool hall, and several barns. Fire was brought under control. The a slight shift of the wind occurred, and the fire spread to the east. The estimated loss is \$350,000. P. Lachal, local, while assisting in fighting the fire, was caught under falling timbers and suffered a broken foot and bad bruises.

It is thought the fire originated from a planing mill which was in operation at the time.

### Big Man of Oyster Bay Discusses Third Party Convention.

Oyster Bay, N. Y. — The call of the convention of the new Progressive party will be issued within a few days.

"I don't know what will be done, or when the convention will be held," said Colonel Roosevelt. "That will all be decided by the committees on organization when it meets in New York, probably next week. All we wish to do is to have a plan to submit to the committee when it assembles."

Colonel Roosevelt said that Minnesota supporters had decided to invite the party to hold the convention in St. Paul. He said he had not heard of the project.

St. Paul is a "pretty good place," he said, "but I won't have anything to say about the place of meeting. The committee will decide that."

The colonel watched the returns from Baltimore with interest.

### ONE SUSPECT CONFESSES.

### Gives Details of Killing and Robbing Emil Menck at Cass Lake.

Cass Lake—Tom Dahl, one of the three suspects held here charged with being implicated in killing Emil Menck, has incriminated himself by making a sworn statement to the authorities. Dahl and Jacobson were caught three miles this side of Bemidji by Marshal Carey, and John Lind, another member of the gang, was arrested by the Bemidji police. All three were kept in separate quarters and closely questioned by Sheriff Delroy and County Attorney Funk. Dahl weakened and confessed, saying he held Menck and choked him while Jackson searched for money but found none. Later Lind tried to extract it the gun was searched without avail. They left Menck on the ground, but said they did not think him dead. The prisoners were taken to Walker to await their next week. All we wish to do is to have a plan to submit to the committee when it assembles."

### STATE EDITOR'S OUTING.

### Seven Day Tour of Range Country to Start July 12.

Minneapolis. — Arrangements have been completed for the entertainment of 150 members of the Minnesota Editorial association, who will take a seven-day outing to Duluth and other points of interest, starting July 12. On July 13 the party will take a lake trip on the steamer America to Isle Royale. An automobile trip through Duluth and neighborhood and a visit to the Mesabi and Vermilion ranges are scheduled for the week. The outing will conclude with a banquet tendered the editors by the Duluth Commercial club.

### Two Shot by Same Bullet.

Grand Rapids. — Two victims of carelessness with firearms were the 12-year-old sons of George Cochrane and Hugh Betts of Grand Rapids. A shell struck in the revolver they were using, and in trying to extract it the gun was accidentally discharged, the ball striking Wilfred Cochrane in the palm of the hand and coming out at the wrist. The same bullet hit the other boy in the thigh, inflicting a bad flesh wound.

### Sixty Horses Are Saved.

Minneapolis. — Three cars filled with 60-pound cakes of ice burned in a fire that destroyed property estimated at \$17,000.00. The cars of ice were on a spur track at the Grand and Hennepin Cedar Lake ice company. The ice melted and water trickled down through the tracks and formed a stream three feet wide. Wispy fires were in the barn, but were rescued.

## ARMY TO PREVENT FLAMES

### STATE FORESTER TAKES NO CHANCES WITH FOREST FIRES.

Experienced Rangers to the Number of 250 Watch Every Section—Warnings Sent.

Minneapolis. — With an army of 250 men at his back and the right to hire as many more if the occasion arises, the U. S. state forester, is now directing a fight against fire in the northern woods that is calling for every ounce of energy at the command of his department. He says he is going to win.

For two weeks he rangers in control of as many forest districts, extending from the Canadian line south to Morrison and Irtremont counties, have been on duty. They have equipped with the aid of 200 patrolmen have extinguished many small fires. When necessary the rangers have been prosecuted. Fortunately the loss to date has not been large.

It is along the Canadian border that the activities of Cox's department are chiefly centered for, according to the reports, the woods on the Dominion side are a fire and have been burning for days. On the American side the principal swarms and forest fires have been in the districts directed from Bemidji, Northome, Warroad, Baudette, International Falls, and Orr, and the rangers stationed there have had their hands full.

In these districts nearly 70 lookout towers are being maintained, but they are useless when the wind is blowing from the Canadian side. The smoke at times is dense and overpowering. It is then that the department's telephone service is brought into action with patrolmen reporting from all points in sections giving aid when wanted. The latter are compelled to help when requested. Several, Mr. Cox says, have been fined for refusing to do so.

Warning sent to the state forester that burning of slash and brush in the north woods should be stopped forthwith. Practically all the old fire are under control, but new ones have started in many places.

C. A. Peterson, ranger at International Falls, in a report written June 25, said that three small fires had been found and extinguished in that vicinity. "There is a terrible wind blowing from the north and it is so smoky you can't see far, as Canada is all afire."

Exam. Warroad, Ranger E. A. Linder reported a two-day fight with a fire that burned over 180 acres of state land. Most of it was on a ridge covered with small jack pine. This fire was started by men who were at work clearing.

### TWO THOUSAND SINGERS.

The 25th Annual Saeferfest of the Northwest At St. Paul.

St. Paul—More than 7,000 people are expected to assemble in St. Paul for the twenty-fifth annual saeferfest of the Northwest Saefer-Bund, July 24 to 28.

Ninety singing societies constituting 2,000 voices will participate in the five main concerts which will be held in the St. Paul auditorium. A temporary stage costing \$2,500 will be erected to accommodate the choruses.

Special excursion rates will be made by all the railroads coming into St. Paul and the hotels and restaurants are also going to make lower rates instead of high ones, as is the usual custom during conventions and large gatherings.

Inquiries to the secretaries of the various singing societies in the twenty-five states that will take part in the saeferfest, indicate that this year's gathering will be the most successful in the history of the Saefer-Bund.

Madame Marie Rappold, of the Metropolitan Opera Company, of New York will sing during the concerts. Madame Rappold will be paid \$1,500 for her St. Paul engagement.

### CONCRETE CONSTRUCTION

### Officials Recommend Such For Rural Highways.

Concrete construction for rural highways is recommended by the state and county officials who returned from a tour of inspection to Detroit, Ann Arbor and Chicago. In the party were George W. Cooley, secretary of the state highway commission, John H. Muller, Mr. Cooley's assistant, Jacob Voelker, Winona; L. E. Guldinger, Rolling Stone, and John R. Roth, Lewiston, commissioners of Winona county, and Dr. Donald B. Priest of Winona, one of the most enthusiastic devoted good roads advocates in the state.

Winona county will put in fifty miles of concrete road on three high ways leading out of Winona. The concrete will be 7 inches thick and 16 feet wide. It is hoped to bring the cost of construction down to \$10,000 a mile.

### MURDER MAY BE CHARGE

### Victim of Assault May Not Recover—Pelto Taken to Duluth.

Ely.—Chief of Police Kotchur took Joe Pelto to Duluth to await the action of the grand jury as a result of his alleged assault upon William Sjaaj. The assault took place in front of a saloon. No hopes are held for Sjaaj's recovery. He is said to have been struck in the stomach with a knife, striking the lung. Pelto is about 22 year old. Ligor is said to have been the cause of the trouble.

## SPREAD MANURE EVERY DAY

### Practical Greatly Reduces Possibility of Losing Fertilizing Elements—Cart is Handy.

A careful and intelligent use of stable manure will build up the fertility of any farm. This trouble with the average farmer is that he does not use his manure. The habit of reserving manure at valuable is one of the most expensive a farmer can have.

To properly conserve manure the limits as well as the solids should be collected. For this purpose it is well to have the floor of the stalls so that they will drain easily into a water-tight gutter at the rear. This gutter should be stopped at both ends, but one end should be lower than the other to allow the liquids to drain to that end.

Manure should be spread every day if it is possible. This is very important as it greatly reduces the chances of losing the fertilizing elements. In summer it can be spread on the field from which the spring crops have been removed, and in winter on grain fields. Newly seeded fields should not be manured.

A hand cart may be used for spreading manure. Where there are a large number of cattle or horses, a special pump cart, drawn by a single horse, may be best. Widely spreading ensures that any leaching by rains shall carry the leached materials into the soil where they are wanted.

### PLAN OF TWO-SECTION DOOR

### One Illustrated and Described That Has Been Found Entirely Safe to Open or Shut.

We use the two-section door on our barn and have found it successful. Each section is hung on an enclosed barn door track which is bolted to the siding just under the cornice. By cutting the doors at the bottoms at the same angles as the tops we can use dark circles under his eyes. His cheek may rest against the wall in place of the bottom, thus preventing flapping by the wind. We fastened a small pulley on the inside near the top of each door and a double awning pulley on the first rafter in the comb of the roof, writes R. Schacke in the Farmers' Mail and Breeze. Awful.

The president of the university had dark circles under his eyes. His cheek was pallid; his lips were trembling; he wore a haunted expression. Every now and then he turned and glanced apprehensively behind him.

"You look ill," said his wife. "What is wrong, dear?"

"Nothing much," he replied. "But I—I had a fearful dream last night, and I feel this morning as if—as if I had been through a mill."

"He hesitated and stammered. It was evident that his nervous system was shattered.

"What was the dream?" asked his wife.

"I—I dreamed the trustees required that—that I should—that I should pass the freshman examination for admission," stammered the president. "Youth's Companion."
