A HIDDEN DANGER

Women Avoid Operations

When a woman suffering from some form of feminine disorder is told that an operation is necessary, it of course frightens her.

The very thought of the hospital operating table and the surgeon's knife strikes terror to her heart, and no wonder. It is quite true that some of these troubles may reach a stage where an operation is the only resource, but thousands of women have avoided the necessity of an operation by taking Lydia E. Pinkham's Vegetable Compound. This fact is attested by the grateful letters they write to us after their health has been restored.

usands—also a book on any chronic disease requested.

During many years of practice I have used numerous combinations of curative medicines for liver ills. I have kept a record of the result in case after case, so that my staff of physicians and surgeons, at the Invalids' Hotel, Buffalo, N. Y., are able to diagnose and treat cases at a distance with uniform good results. But for the permanent relief of blood disorders and impurities, I can recommend my "Golden Medical Discovery" a blood medicine without alcohol or other injurious ingredients.

"In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption, the 'Golden Medical Discovery' is a most efficient remedy, especially in those obstinate, hang-on-coughs caused by irritation and congestion of the bronchial muccus membranes. The Discovery is not as good for securious parising from sudden colds, nor must it be
