Comforting to the Eyes

EVENING is the most enjoyable time for reading. The quiet world allows you to see more clearly the scenes, and to feel more deeply the emotions, portrayed by the author's words.

It is very essential, however, to have a good light, otherwise the strained eyes tire the senses and rob the evening reading of its keenest pleasure.

Electric light, which can be readily obtained in any intensity suitable for the eyes of either young or old, affords the best reading light, and Edison Mazda Lamps furnish an abundance of it at minimum cost.

Substitute Mazda Lamps for the old carbon lamps in your lamp sockets and note the difference in the amount and quality of the light.

"Do you were deeply touched by the poem young Mr. Spiller wrote to you?" said Maude. "Yes," answered Mamma. "But it was not a good poem." "I don't care. It was just as much trouble for him to write it as if he had been Shakespeare."—Judge.

NAVAL MILITIA

FORMED THURSDAY.

Thursday noon Lieut. Com. Clyde W. Kelley, Lieut. R. T. Hugo, Lieut.-Surgeon F. B. Patton, Lieut. Junior Grade A. O. Rabideau and Ensign John Shea, of Duluth, arrived and at one o'clock proceeded to examine the applicants.

Out of 78 applications 70 were passed. And in the evening they were mustered in by Capt. Guy A. Easton.

After they were mustered in the election of officers for this division was held, at which time Robt. Wilcox was elected Lieutenant, Dr. K. W. Knapp, Lieut. J. G.; Fred. J. Jeppesen, Ensign.

At eleven o'clock a luncheon was served to the division and the officers by the Men's Club.

This is the third division in the State and is by far the largest division ever formed in the State. The other two divisions are in Duluth.

Capt. Guy A. Easton said it was by far the best and robust lot of men that had ever been mustered in, in the State, and said he thought they would keep the two divisions of Duluth on the hump to keep anywhere near them.

In the election of the officers for this division, the boys certainly showed that they knew what they were about when they elected them. Out of all the applicants the division could not have picked on a better executive officer than Lieut. Robt. Wilcox; and the other officers are the right men in the right place. The division chose Friday evening as the time for drilling.

Next Friday evening, one week from to-night, at Stekl's Hall, at 8 o'clock, the first drill will be had. All members of the division are urged to be present at this drill.

THE FIREMEN'S MASQUERADE

Wednesday evening the Pine City Fire Department held their masked ball at Stekl's hall and a large number were in attendance. The boys had done all in their power to make the affair a success and all those attending report having had the time of their lives.

The maskers were many and the costumes varied. Those who were awarded prizes were: for the finest costume, Miss Olive Swanson and Malvin Cherrier, Miss Swanson representing night and Mr. Cherrier an Indian chief; the most comical Miss Josephine Cheroi and F. A. Johnson, both representing tramps. One costume that was decidedly unique was the one worn by Mrs. F. A. Johnson which was made of paper, with the heading of this paper around the head and on the breast.

Space and time will not permit us to go farther into detail. The music, which was first-class, was furnished by Staake's orchestra.

THE MORPHETS ENTERTAINED

TUESDAY EVENING.

Tuesday evening, as advertised, the Morphets entertained at Stekl's Hall. The program was composed of three parts: The first being magical. The second musical. The third of more magic.

In the first part of the evening's program, Mr. Morphet exhibited his wonderful ability as a magician and slight-of-hand performer, doing many things which seemed impossible to the people in the audience. As a slight-of-hand performer he surpassed all expectations.

The second portion of the program, which consisted of musical numbers, was rather short, but was very good, nevertheless. Mrs. Morphet rendered two very pleasing saxophones solos, and her husband gave the army bugle calls and an army quick step on an instrument composed of a cornet mouthpiece, a length of rubber hose and a tin funnel. This was very unique and took well.

The program concluded with a magical and ventriloquist performance. It was in this part of the program that Mr. Morphet displayed his power as a gas generator by furnishing gas for a regulation size gas-burner, which he held in his mouth.

The program withal was exceedingly good and any who failed to attend were undoubtedly losers. The management has striven to secure the best of literary talent for this course, and if the remaining two numbers are as good as what we have had, everyone should be greatly pleased.

FIVE TOASTS.

Recently in Los Angeles five prominent gentlemen of foreign birth chanced to meet. One was a Russian, one a Turk, one a Frenchman, one an American and one an Englishman. These gentlemen became bosom friends and finally a champagne supper was proposed, at which each gentleman, in keeping with the times, was to give a toast to his native country, the one giving the best to be at no expense for the wine. Here are the toasts given:

The Russian—"Here's to the stars and bars of Russia, that were never pulled down."

The Turk—"Here's to the moons of Turkey, whose wings were never clipped."

The Frenchman—"Here's to the cock of France, whose feathers were never picked."

The American—"Here's to the stars and stripes of America, never trailed in defeat."

The Englishman—"Here's to the rampin', roarin' lion of Great Britain, that tore down the stars and bars of Russia, clipped the wings of Turkey, picked the feathers off the cock of France and ran like a—1 from the stars and stripes of the United States of America."—Exchange.

Minnesota Legislature

Proceedings at the Minnesota State Capitol for the
Past Week.

St. Paul, Jan. 28.—A state insurance
department, which would place life in-
surance within the reach of every
workingman in the state, at rates
practically 25 per cent lower than
those charged by the ordinary com-
pany, is proposed in a bill to be in-
troduced in the lower house of the legis-
lature by Ernest Lundeen of Minne-
apolis.

It is likely that two reports will be
presented to the house on the Cotes-
giman contest. Indications last night
were that the committee on elections
would submit a majority and a minor-
ity report.

A test vote in the senate yesterday
showed a majority of the senators in
favor of prohibiting filing by petition
after the primaries, which method
last fall was the means of putting
Democratic candidates very much ahead
in the Minneapolis election contests.

The proposal to deny Socialists the
right to file by petition after the pri-
maries came up unexpectedly, but fur-
nished material for a none less de-
monstrative vote.

Uniform Negotiable Instruments.
The uniform negotiable instrument
bill was introduced by Senator W. S.
Dwinn of Minneapolis and Julius
Coller of Shakopee.

A public hearing on the bill by Rep-
resentative N. E. Hubberg, Martin
Schwartz and P. E. Minnette, placing
the supervision of all telephone com-
panies in the state railroad and ware-
house commission, will take place to-
night in the house chamber. One of
the main features of the measure and
one that is opposed by the companies
is a provision that when two or more
companies enter one town arrange-
ments shall be made for a physical
connection for the benefit of the pub-
lic. The different lines, tele-
phone men contend that practically it
will be impossible to comply with any
such demands.

Mineral Lease Law.
A new mineral lease law for the de-
velopment of the state's ore prop-
erties, replacing the one repealed in
1907, is proposed in a bill introduced
yesterday by Representative W. S.
Warner of Aitkin, with the approval of
State Auditor G. Iverson. The law
provides for issuance of permits to
prospect for iron ore on state lands,
good for one year, and in case two ap-
plications or more are received there
is to be competitive bids for the pre-
mises. During the life the permit the
lessor may explore and develop the
property, and may secure a lease on
the conditions named in the bill.
The bill fixes the royalties to be paid
at 30 cents a ton for ore of less than
49 per cent iron content, 35 cents for
49 per cent or more, and a ten addi-
tional for each unit of iron over 49 per
cent. The lessor is bound within three
years to mine 5,000 tons a year from
each 40-acre tract or to pay a minimum
royalty of \$2,500, and in nine years to
mine 20,000 tons a year. The state re-
serves all the timber on the tracts
leased.

St. Paul, Jan. 25.—A number of ap-
propriations are declared by the gov-
ernor to be entitled to favorable con-
sideration in a special message.
These are as follows:
To pay expenses of survivors of
to pay Gettysburg to attend its
semi-centennial celebration, \$30,000.
For representation of Minnesota at
the centennial celebration of the bat-
tle of Lake Erie, a sum sufficient.
To reimburse the C. O. case society for
money advanced on the occasion of
forest fires at Baudette and Spooner,
\$2,154.
For continuation of geological sur-
vey, \$3,000 annually.
For State Humane society, \$5,000
annually.
For expense of Governors' confer-
ence, \$10,000 annually.
For Panama-Pacific International
exposition, \$150,000.
Gettysburg Appropriation Measure.
An attempt was made to pass a
bill providing for the appropriation of
\$20,000 to pay the expenses of veter-
ans to the battle of Gettysburg un-
der suspension of the rules. The bill
which had been prepared by mem-
bers of the Grand Army was intro-
duced by Hon. R. C. Dunn, who made
a plea for its immediate passage as
a mark of respect to the survivors of
the First Minnesota. Objection was
made on the ground that there was
no urgency in the matter and that
the bill should first go to the com-
mittee on appropriations for examina-
tion. The motion to suspend the
rules was defeated by a vote of 67 to
47 against. The bill was then re-
ferred to the appropriations com-
mittee.

Grain Investigating Committee.
The speaker, in compliance with a
resolution passed at a previous ses-
sion, appointed Representative Ben-

Edison, O'Neill, Hopkins, Tlegen and
Schwartz a committee to investigate
the state grain inspection board and
the methods of Twin City buyers of
grain and live stock.

The state board of health came in
for a scoring when Senator Mardon's
bill to restrict the use of common
drinking cups came up for considera-
tion in the senate. The bill gave the
board of health discretion to say in
cups should not be used. "I would
like to ask the gentleman," said Sen-
ator Putnam, "if he has had any ex-
periences with our present state board
of health. I think if he had his con-
fidence in the board might not be so
implied." "If there is any institution
in the state that needs watching," said
Senator Works, who opposed the bill,
"it is the state board of health." The
bill was advanced to the calendar by
a divided vote.

St. Paul, Jan. 24.—The house yester-
day considered for the first time this
session bills in a committee of the
whole house. While some progress
was made the measures ad-
vanced were of minor importance.
The bills which really matter meet
in committee and it is improbable
than any important measure will be
reported out before the latter part of
next week.

The house decided by a unanimous
vote to co-operate with the senate in
evolving a plan for the reorganization
of the state departments. The pres-
ent committee directed to investigate
the departments with a view to such
reorganization will be recalled and a
joint committee of both house and
senate selected.

Although the seven-senator amend-
ment was defeated at the general elec-
tion, Senator Mooman of Waseca
county has sought to revive it by limit-
ing the representation of the more
populous counties to that number.
This is provided also in a reapportion-
ment bill in course of preparation by
Dr. Stone of Park Rapids. According
to the provisions of this bill this
limit would be reached by Hennepin
county alone, while Ramsey and St.
Louis counties would have five sen-
ators each. The total senatorial mem-
bership under the provisions of this
bill would be 45.

State Architect Inquiry.
It appears, according to the pre-
amble of a resolution offered by Sen-
ator Works, that large sums have been
expended in recent years for the ser-
vices of a state architect. An investigation
will be made to see whether the
amount worked done warranted the ex-
penditure. It is understood that the
state architect has general super-
vision of all structures erected with-
in at the state capital or elsewhere.

St. Paul, Jan. 23.—If the present
plans of the reapportionment com-
mittee prevail, there will be 59 sen-
ators and 122 representatives in the next
legislature. Of these the counties of
Hennepin, Ramsey and St. Louis will
have 26 senators and 52 representa-
tives.

Lively Debate in House.
Yesterday's session of the senate
was without incident. In the house
there was a lively debate over the
report of the elections committee,
which recommended the indefinite
postponement of Mr. Lundeen's bill
providing that hereafter senate and
house elect their own committees.
Mr. Lundeen moved in amendment
that the bill be printed and advanced
to general orders. He protested
against the recommendation of the house
"strangling the infant and darning of
his own brain." To defeat his mes-
sage would be "to reject the corner-
stone of the very building" the friends
of reform were trying to erect. He
pleaded for an opportunity for full de-
bate.

Mr. Nolan said the bill was "absol-
utely without merit." The movement
for a committee on committees which
he favored two years ago is, Mr. No-
lan said, "a progressive measure in
the hands of progressives and a reac-
tionary measure in the hands of re-
actionaries," and in that respect, "a
minutely dangerous proposition."

A dispute having arisen between
Mr. Nolan and Ex-Speaker Dunn as
to the effect of a resolution on the
same subject offered previously by
Mr. Lundeen, Mr. Dunn protested
against "certain persons seeking to
monopolize the clause paper sweeten-
ing process of the legislature, and pre-
serving and preaching temperance
and virtue from behind a
red nose and a shady past."

Demands an Apology.
Mr. Nolan was on his feet in a
second. "I demand an apology from
the gentleman," he said. "His re-
marks were intended as an insult.
I ask that the words just uttered be
taken down by the clerk."

Explains Health Bureau.
Honorable N. J. Jan. 28.—Presi-
dent Wilson addressed a private gather-
ing of prominent social workers at
the home of Mrs. Caroline B. Alex-
ander, where he and his family were
week-end guests. In a statement given
out by Mrs. Alexander, setting forth
Governor Wilson's remarks, he is quoted
as declaring that in forwarding the
movement for a national bureau of
health it was desirable to remove the
improvements to the state of health
required to set up a "medical trust."

FLYER CROSSES ALPS

BIELOVUCI, A PERUVIAN, AS-
CENDS FROM BRIG AND LANDS
AT DOMODOSSOLA.

TRIP TAKES JUST 25 MINUTES

Chavez, Comptrolor of the Aviator,
Crossed the Mountains on Same Route
in September, 1910, but Suffered
Fatal Injuries in Fall.

Domodossola, Italy, Jan. 27.—Jean
Bielovucci, the Peruvian aviator, flew
across the Swiss Alps from Brig to
this city in less than half an hour.

He ascended at Brig in his mono-
plane on the stroke of noon and landed
at exactly 25 minutes past 12.

Bielovucci had been waiting for
favorable weather since Jan. 9th. He
followed the same course over the
east bank of the Mississippi river.

He was taken by his com-
ptrolor, Chavez, in September,
1910. Chavez accomplished the flight,
but in landing he hit a tree severely
and died from his injuries.

Previous Attempts Failed.
Bielovucci had made one previous
attempt to cross the Alps on Jan. 14,
but after ascending 6,000 feet on that
day was forced to make a hurried
landing, owing to a defect in his
motor.

The Peruvian, who is in his yet
twenty-four years old, holds a French
pilot's certificate. He made a sensa-
tional flight in Paris in August, 1910,
when he circled the Eiffel tower.

In September of the same year he
flew from Paris to Bordeaux.

WOULD PAROLE PRISONERS
Atlanta Warden for Letting Federal
Convicts Out After Serving
Fifteen Years.

Atlanta, Ga., Jan. 27.—Parole priv-
ileges for life term convicts who have
served 15 years or more in federal
prisons is recommended by William
H. Moyer, warden of the United States
prison here, in his annual report made
to the board of pardons in a report en-
ded June 30, 1912, says the report, the
conduct of 39 of the 59 life term pris-
oners here was excellent, nine show-
ing good behavior and the conduct of
11 is rated as "bad."

"I believe that the enactment of
this bill by congress would con-
siderable relief to the state and
Warden Moyer, "providing for the
parole of prisoners undergoing life
sentences will have a tremendous in-
fluence for good in the state."

The average cost of the mainten-
ance of each prisoner here in the fiscal
year was \$205.64, according to the
report.

BIPLANE FALLS; SOLDIER DIES
Lieutenant in Germany Killed and An-
other Hurt—Aviator Drops 240
Feet.

Mageburg, Germany, Jan. 24.—
Edward Feiler, of the imperial avia-
tion corps was killed and Lieu-
tenant Von Scheele of the same branch
of the service was fatally injured
when a biplane fell during a flight
near here. Lieutenant Schlegel's
death is the two hundred and
fortieth fatality in aviation since the
airplane came into use, and the
fourth this year.

Rheims, Jan. 24.—Although Charles
Gaulard, a well known French aviator,
fell 240 feet while making a flight in
his monoplane, doctors attending him
declared that he had a fair chance
for recovery. His monoplane cap-
sized.

FAST MAIL TRAIN IS WRECKED
Two Members of Crew Seriously In-
jured by Accident on St. Paul
Near Columbus.

La Crosse, Wis., Jan. 27.—Fast mail
train No. 56, on the St. Paul road,
carrying the heavy mail from Minne-
apolis and points west of Chicago and
points east, was wrecked near Col-
umbus, 100 miles west of Milwaukee.
Engineer McBride and Fireman Port-
er were seriously injured and are in
the hospital at Columbus. Several
others are reported hurt.

TO STUDY WORLD'S WEATHER
Carnegie Foundation Will Give \$5,000,
000 for International Bureau to
Make Forecasts.

New York, Jan. 27.—The Carnegie
Foundation has under consideration
the establishment of an international
weather bureau, with an endowment
of \$5,000,000, to make forecasts for six
months or a year. Those with whom
the idea had its inception are con-
vinced that billions of dollars would
be saved to the financial, commercial
and agricultural interests of the world
each year by such a bureau.

Among the sponsors for the plan is
Prof. Henry Helm Clayton, eminent
meteorologist, whose work is known
the world over.

TO ARREST GEN. D. E. SICKLES
Order for Warrant Against Chairman
of Monument Fund for Short-
age is Issued.

Albany, N. Y., Jan. 27.—An order
of arrest directed to Gen. Daniel E.
Sickles was issued by Justice Will-
iam P. Rudd in special term. The
application was made on behalf of
Attorney General Carmody because of
the failure of General Sickles to make
good a shortage in his accounts as
chairman of the New York Battle-
field Monument Fund, of which he
was chairman.

RIOT ON A TROOP SHIP
Transport Sherman Arrives at San
Francisco and Reports Mutiny
of Soldiers.

San Francisco, Jan. 27.—The Trans-
port Sherman arrived here from San-
Francisco on January 1st of the 13th
infantry on board were in a riot over
the food served. Stew was given three
times a day. The men marched in
body to Captain Hadley, demanded bet-
ter food, and threatened to take pos-
session of the ship. Riot lasted all
day. Court martials are expected to
result.

ETERNAL LAW OF CONTRARIES.

"Do you ever give your husband
Christmas hints?"
"Of course I do."
"Do you? Why, the least hint
makes my husband so mad!"

"Pooh! you don't know the com-
bination. I tell my husband I don't
want what I do want, and then I get
it."

Her Great Love.
They had already celebrated the fact
that the mistletoe hung in the hall,
and now they were occupying not only
one settee, but also the entire draw-

"Could you love me, darling," he
murmured, as the thought of that
sprig of mistletoe came to him again,
"if I possessed only one coat in the
wide, wide world?"

She looked up into his eyes as she
framed her reply.
"I could," she said, "if I knew you
had sacrificed the others to buy me
a new dress!"

PINE COUNTY PIONEER

ED. C. GOTTRY, Editor and Prop

Entered in the Postoffice at Pine City as Second Class Matter

Pine City, Minnesota, Jan. 31, '13

ACCORDING to the Duluth News Tribune of January 27th, there would be ten to one odds against the tonnage tax bill when it was up before the legislature on Tuesday of this week.

The All Stars basket ball team, of Rush City, defeated the Temple Club basket ball team, of Minneapolis, by the score of 28 to 38 at the auditorium at Rush City last Friday evening. The All Stars are certainly a good team, they having defeated some of the best basket ball teams in the state this season.

WHAT about the good road from St. Paul to Duluth? Have the people along the Northern Pacific Short Line laid down? We have not heard anything about the proposed good road for some time. We should keep agitating the question of good roads all the time, and keep the matter before the Highway commission, as we want a good highway from St. Paul to Duluth if we can possibly get it, and if we can get the government and state to build fifty miles of it, it is worth going after.

SENATOR S. A. NELSON, of Lanesboro, has introduced a bill in the senate to amend the so-called Alderman act of 1909 limiting saloons to one for every 500 population. The Alderman act only prohibited the licensing of new saloons beyond the 500 limit, but the Nelson bill would compel an actual reduction in cities and villages where the number now exceeds the limit. If this amendment should carry it would put hundreds of saloons in this great state out of business. Pine City under the new law, if passed, would only be entitled to three saloons, instead of the eight that she now has.

THE court commissioners of Ramsey and Hennepin counties are opposing the measure before the state legislature in regard to ill-considered marriages. The court commissioners of these two counties are opposing it on account of the fees. The bill proposed is to have at least five days intervene between the date of the issuance of the license and the ceremony. The court commissioners give as their reason why the law should not be passed, that one party or the other might change their minds in the five days. The bill is framed for the very purpose that the commissioners claim it should not be passed. The commissioners do not care so much for the interests of the people of the state, as they do for the fees that they would receive.

SENATOR J. T. ELWELL, of Minneapolis, Monday introduced a bill amending his 1911 laws, known as the Elwell Road Act, permitting counties to pay more than one-fourth for roads projected under that Act when it is considered that the property owners cannot pay one-fourth by assessment as required in the old law. The state in either case is to pay half, but under the proposed amendment the county may pay all the remainder. This we believe, is a very good amendment and should meet with the hearty approval of all. For, if a good highway is built in any county, it affects not only the people living along the highway, but the whole county, and the citizens of the county should stand the expense. Of course the people living in the immediate neighborhood of such a highway would receive the most benefit, and should be taxed higher than those living in more remote parts of the county. This, we believe, could be managed by each county, having a special road fund, and each citizen taxed according to the above.

Twenty Five Years Ago.

Chas. Rice, of Grantsburg, was in town the center of last week.

A. Pennington was on the sick list for a couple of days the latter part of last week.

R. G. Robinson went down to Taylor Falls on business last Monday afternoon.

We notice a few shipments of stone from the Kettle River quarries passing through town now-a-days.

Orrie Berry, formerly of this place but now of Stillwater, spent last Saturday and Sunday visiting with friends in Pine City.

N. H. Danforth one of Mora's principal hustlers was a caller at the Pioneer office Tuesday morning. Call again Mr. Danforth, our latch string always hangs out.

Andrew Stone of Hinckley, made the Pioneer a short call while in town picking up the box car that was wrecked here a week ago last Sunday. Mr. Stone was one of the first Hinckleyites to subscribe for the Pioneer.

Will Buttrick, who for the past couple of months, has had charge of the station at Rock Creek, during the illness of the regular operator, was in town Monday evening and Tuesday morning, while on his way to his home at Grantsburg, Wis.

The uniforms for our toboggan club arrived here one week ago last Saturday, and the boys have been out in them ever since. Since the arrival of the suits, we are better than ever pleased with the colors. There is nothing flashy about them, but they are a very neat costume, and the colors make a very pretty combination.

Hardly had our toboggan club received their uniforms when the customary bouncing was commenced, and many of our citizens have already taken an impromptu aerial flight, to the amusement of the bystanders. It is perfectly right to bounce, but the utmost care should be taken in selecting the candidate.

Dr. Paquin spent Saturday and Sunday at Two Harbors, whither he went in response to a telegram from friends who wished him to locate there, but after looking the ground over carefully, he has decided that the best thing he can do is to remain in Pine City, and the village as well as neighboring towns are to be congratulated on the result of that decision.

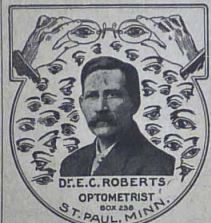

Last Saturday it was reported on our streets that Pat Berry who a year or so ago was returned from St. Peter insane asylum, had again become insane, and Deputy Sheriff H. J. Rath, accompanied by Marshal J. J. Murray

went down to his home at Rock Creek and bought him to this village for examination. Owing to the absence of Dr. Paquin, the examination did not take place until Tuesday morning, when he was declared to be perfectly sane and was discharged, a fact his many friends will be pleased to learn.

If there is a corporation on the face of the globe that knows how to improve an advantage when they have one, it is the St. Paul and Duluth railroad company. This week an effort was made to secure a special train to run from Hinckley to St. Paul on Thursday, to enable people living along the line to attend the carnival, but the company refused to give a train, unless a bonus of \$75.00 should be raised. The people were well willing to pay their fares, but they did not propose to make the company a present of \$75.00. A paying train would have been guaranteed. The whole affair was an outrage on the public, and that they resented it is just. There is not a company in the state that has as little accommodation about them on such occasions, as this one has.

South Bend

The Most Precise Piece

THE South Bend Watch Company might use garnet jewels in their watches instead of ruby and sapphire jewels as many other watch companies do and thus greatly reduce the cost of production. You would not notice the difference in buying.

But, if garnet jewels were used, the watch would not have any such lasting qualities—and the South Bend Watch Company believes it is better to have smaller profits and satisfied customers than large profits and dissatisfied customers.

That's the way we feel about it, too, which accounts for our giving South Bend watches the preference.

In time of kidney danger Doan's Kidney Pills are most effective.

Plenty of evidence of their worth.

Charles A. Erickson, Grantsburg, Wis., says: "For years the least exposure brought on a bad attack of kidney complaint. I suffered intensely from pain and weakness in my back. My loins often seemed to be paralyzed and for days at a time I was in the greatest misery. I could not sleep well and it was all I could do to attend to my work. My bladder was in-

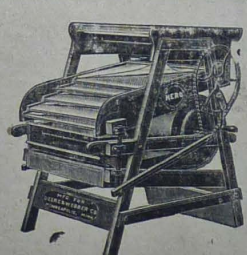

flamed and I had to pass the kidney secretions every little while. Two boxes of Doan's Kidney Pills removed these troubles. I willingly recommend Doan's Kidney Pills again, for I have had no serious trouble from my kidneys since I used this remedy some years ago. I consider my cure a permanent one."

If it had not been for the litigation in regard to the Changwatana dam the saw mill at White Pine would never have been built, and that would have insured the mill being here for the next 15 or 20 years, and with their large pay roll each month would have been a great thing for the village.

Young Minister's Passion for Self-Sacrifice Had Results That Might Have Been Anticipated.

The announcement of Miss Helen Miller Gould's betrothal led one of the charity workers of New York to say:

"Marriage itself will not be able to quench Miss Gould's passion for giving. Apropos to this passion, she once told me a story.

"There was a young minister, the story ran, who, being poor and having nothing else to give, used to give away his clothes.

"The young minister's district contained many needy men, and he would give them shoes and socks, shirts and coats, gloves, overcoats and trousers.

"Yes, time and again he would give away his clothes, foolishly and recklessly, piece by piece, until—

Here the charity worker smiled.

"Until," she ended, "he came to himself."

Worldly—and True.

Apropos of Miss Lois Campbell's "million-dollar debut" to St. Louis, Claude H. Wetmore, the author, said:

"The marvelous growth and prosperity of our city is a phenomenon that holds the eyes of all America. Before such wealth as ours one thinks involuntarily of the worldly cynicism:

"There are other things in the world besides money—and money will buy them all."

She Knows.

"You never thank a man for giving you a seat in a street car." "Not any more," replied Miss Cayene. "I used to until I noticed that almost invariably he was going to get out at the next corner anyhow."

WOMEN DECLARE WAR—URGED TO SMASH PROPERTY AND HEADS.

CAMPAIGN OF VIOLENCE.

Militants Expected to Be Dangerous Shopkeepers Board up Their Windows—Police Swarm Streets.

London, Jan. 29.—England is on the brink of another campaign by the suffragettes, in comparison with which former outbreaks of the militant women will appear insignificant. Monday night 2,000 policemen were engaged in dispersing huge crowds gathered near the parliament buildings, shopkeepers boarded up their windows, and excited women were making incendiary speeches in several halls.

The women believe that the politicians have played a carefully studied trick upon them and the decision of the government to drop the franchise bill is likely to lead to serious consequences.

Lowther's Ruling.

In the house of commons the speaker, Rt. Hon. James W. Lowther, in response to an inquiry by the prime minister, announced that if any of the amendments to the franchise bill giving women the vote should be adopted, he would compel its withdrawal.

Mr. Asquith thereupon announced that the cabinet had decided that under such circumstances it would be useless to proceed. This was announced to a crowded house, which displayed more interest in the subject than had been shown in the last stages of the house rule bill.

In the meantime, the police, mounted and afoot, were having difficulties outside the buildings grouping the vast crowds in check, while reserves quartered in court yards in the vicinity of parliament were held in readiness to quell disorders of a more serious nature.

The suffragettes held heated meetings at night.

Denounce Treachery.

Mrs. Emmeline Pankhurst and other leaders denounced both the enemies and supporters of suffrage in the cabinet for their treachery. They declared an end of the truce, which the women had observed while awaiting parliament's action on the bill.

"Deeds, not words," was the motto displayed above the platform where Mrs. Pankhurst spoke. She asserted that the women would consider his man life sacred, but would do as much damage to property as possible.

Some of her lieutenants failed to agree with her policy. Miss Annie Kelly, one of the most prominent of the militants, advocated the smashing of both property and heads. The executive committee of the National Union of Women's Suffrage societies adopted a resolution rejecting Mr. Asquith's offer of facilities for a private member's bill next session.

A number of speakers said the women had prepared a plan of action which for the present was secret, but which would surprise the cabinet.

Several women were arrested last night, some of whom declined to give their names. One, believed to be Miss Sylvia Pankhurst, was captured in St. Stephen's hall, leading to the house of commons, where she was making a determined attack on a large painting.

Men Hope to See Trouble.

The police dispersed a crowd in Trafalgar Square, where a man and woman were trying to make speeches. The speakers, who resisted, were arrested.

The noted militant, Mrs. Despard, was taken to the police station with six others. The big crowds which gathered toward Westminster during the afternoon and night were composed mostly of men who hoped to see an outbreak of the militant suffragettes. Policemen kept them moving and drove them down side streets. Everybody was good natured and there was much singing and cheering.

Practically the whole police force was on duty all night. Guards are stationed at all the public buildings and a special watch is being kept on postoffices and letter boxes.

Bankers to Hear Bailey.

Philadelphia, Jan. 28.—Nearly one-quarter of the banking resources of the United States, it is estimated, will be represented at the annual banquet of the Philadelphia Bankers' association, which will be held here Wednesday night. Among the more than six hundred guests will be those who have been the principal witnesses before the money trust investigating committee, and many who have been named among the 180 men in interlocking directorships controlling corporate assets of \$3,500,000,000.

Must Serve His Term.

Washington, Jan. 23.—Charles R. Helke, former secretary of the American Sugar Refining company, has no immunity from prosecution for his knowledge of the "sugar weighing frauds" against the government, because he testified before the grand jury regarding them. The supreme court so held, declaring that Helke must serve his eight months' imprisonment, and pay his \$5,000 fine, if he was convicted of conspiracy to defraud the government.

YOU HAD BETTER BURN YOUR MONEY

AND SAVE YOUR ENERGY, says Dr. CYRIL G. HOPKINS, soil expert at the Illinois Experiment Station, than continue farming on the plan of taking from and not putting back into the soil those things which are absolutely essential to permanent, successful agriculture.

And he proves this statement. But he does more. After showing with irrefutable facts just why the prevailing American method of farming is ruinous, he demonstrates how you can make your farm yield from 30 to 40 more bushels per acre.

AS OTHERS HEAR US

By IDA PATTERSON.

The dictograph, you know, is a machine which records every word you say, omitting nothing, excusing nothing, softening nothing. It is the world's great repeater, a professional stenographer, recording in exact letters every word you say, except that instead of seeing, it makes us hear ourselves as others hear us. I was swimming alone on top of a fifth avenue stage on a moonlight night. Wedged between the bus railing at the left and a stout man asleep on the right, more bus rattles than I saw as I rode by themselves couple behind me. I could not avoid playing the dictagraph.

Woman's sweat, rather plaintive voice poured this into the ears of the man who sat beside the owner of the eyes.

"Yes. I don't know what will become of me, a weak woman all alone in the world," I thought. "That kind of talk always goes with men if the woman's pretty."

"I was not brought up to do anything," I thought. "I had some one to lean on."

"Great," I thought. "She's a widow. I'll warrant he's bursting with a proposal this minute."

"When I found myself alone and with very little money I didn't know what to do," the stream of stickily sweet voice went on.

"He'll know, I tried to send a thought wave to her."

"Bad move," I started a warning thought wave toward her. "Men are economical for every one but those selves. Tack your conversational ship."

"The thought wave missed, for she went on. 'I had had two nurses a big nurse and a little nurse to lift me about as though I were a baby. She used to say: "You poor little thing. You're just a nervous wreck. You might as well be dead."'

"Tack," I thought. "I mentally shouted to her. 'Men hate invalids, you know. While one man may care, another man will leave home when there's sickness in it.'"

"They made a mistake when they discharged me from the hospital. I want out two weeks when I had a relapse and had to go back. This time I had to take a more expensive room than I had before. Two nurses instead of one. The doctor said I would never be strong again."

"Oh, woman, woman," I thought waved.

"When I left the hospital I took a nurse home with me. I was so weak I could hardly walk. I kept her with me a year. When I got a little better from the heart trouble I developed a case of uric acid. The nurse used to say to me: 'My dear, you're a tough nut to crack. You don't a ship.' I had to take Turkish baths every day and massage with salt and I had to go south. I was a nervous wreck. 'Stop,' I warned, but in vain."

"Then my nerves gave way. They've not been since. I've never been able to stiffen a groove. Every one knows that men are more afraid of nerves in a woman than of a grizzly bear in a polar zone."

"Yes. There was a time when I was quite responsible for what I said or did."

"You're not now." I tried another despairing thought wave. It was lost at sea.

"I had frightful pains in my head and was so irritable. I haven't gotten over it yet. That time my liver got out of order."

"We're here." The man's voice, hearty, vibrating with health and vigor interrupted. He offered her his hand and guided her down the steps winding from the top of the stage. The vehicle obligingly halted for some patients who were waiting would be passengers hurrying toward us from the side street. During that pause the man guided her by the hand to the steps to an apartment house around the corner, lifted his hat and hurried away as though something were pursuing him. She stood in the doorway looking after him, but he did not look back. At the next turning he was lost from sight, forever. I doubt not, to that woman.

"It is not akin to love if the pity is for bodily life. Cupid balks at medical records. No man wants to marry a walking hospital. No proposal ever followed a recital of aches and pains except Robert Browning's, and Robert Browning was a poet, not a doctor. Moreover, he was a poet, and poets are different. Moreover, still, this one was rich."

"The Point of View. Appreciate the dictum of a certain actress, that New York men are worthless, a New York actor said in the Lambeth Club."

"It's all in the point of view, you know. This actress in question is going to marry a westerner. Now, if she were going to marry a New Yorker."

"Yes, it's all in the point of view. A girl said to me, 'I'm not going to marry a New Yorker.'"

"Yes, it's all in the point of view. 'Woman is, indeed, like the fly on a tender ruin. The more dilapidated you become, the closer woman gets to you.'"

"The bachelor sneered, 'and the closer she clings to you the more dilapidated you become.'"

"One of Them. Gerald— came near losing my life today. Gerald—Wall, mistakes will happen."
