PIE SOCIAL.

Bills are out announcing a Pie Social to be given by Meadow Lawn Camp of the Royal Neighbors of America, at Bassada's hall Beroun, Saturday evening, March 15th, 1913, at 7:30 o'clock. An excellent program is being prepared which will be followed by the social.

All the ladies are requested to bring pie or basket, which will be sold at auction, with the owner holding it so as to cast a shadow. This is something new and unique. If you want to spend a pleasant evening be sure and be at Bassada's hall, Beroun, March 15.

A cordial invitation is extended to all. Admission free.

J. T. MIDER WANTS HIS SHARE.

The following taken from the Duluth News Tribune, of Wednesday goes to show that J. T. Mider, who has said all the time that he was fighting the dam for the "Poor Farmer", was in reality fighting as we said he was, for the all-mighty dollar.

J. T. Mider filed complaint in district court yesterday against Attorney Joseph Ward Reynolds of Duluth, in an action to recover \$1,029.50 for services rendered in Pine County from 1907 to 1911.

According to the complaint Reynolds started an action in 1906 in Pine County against Emil Munch and others for the recovery of land that had been overflowed by water from the Chongawanna dam on the Snake river. Reynolds was the plaintiff in this action, but gradually other property owners damaged by the overflow joined issue with Reynolds, the understanding being that Reynolds was to receive all the damages he could collect from the defendants while the plaintiff property owners were to get their land back free from any legal liens.

Mider, who lived in Pine County and was familiar with the situation, averred he was retained by Reynolds to look up witnesses, arrange the data for presenting the cases in court and gather such other information as might be used in the prosecution of the case. For this service he was to receive one third of the damages Reynolds recovered.

The complaint says Reynolds got judgement in the amount of \$3,089.40 and Mider claims one-third of it.

CENTER CITY'S GREAT INDUSTRY.

The plant of the Chisago Lake Granite and Marble Works, located at Center City, Minn., is the largest concern of its kind in the state, and the volume of business transacted and the amount of money involved in these transactions, is amazing to the uninitiated. Under the efficient management of its owner, Mr. J. N. Westlund, the plant has made remarkable progress during the last twenty years, developing from a little single-handed business, to its present size; where it employs a score of men, and turns out an average of over 400 monuments every year.

An idea of the immense amount of work being done may be gained from the fact that in the past month Mr. Westlund has received two carloads of granite and one of marble and has orders in for over 100 monuments to be set up this coming spring; aggregating \$9,000.00 in value.

The local plant is splendidly equipped. Housed in two comfortable buildings, every sort of labor saving device is used. Electric current for the engines and compressors; pneumatic punches of the most improved type for cutting and drilling, elevators, steam winches and hoisting derricks, and many similar devices are used for lightening the labor and facilitating the handling of the large blocks of stone.

Owing to the fact that Mr. Westlund buys all his granite and marble direct from the quarries for spot cash he is able to undersell all other firms and this fact has contributed not a little to his success. These low prices, together with the improved methods of manufacture employed, and Mr. Westlund's own ability and practical experience have been the main factors in the rapid growth of the Chisago Lake Granite and Marble works, and bid fair to keep the concern in the front ranks for many years to come.—Center City News.

A. W. Piper, the local furniture dealer, is the local agent, and is prepared to give the best of satisfaction. See him for anything in the monument line.

PINE COUNTY PIONEER

ED. C. GOTTBY, Editor and Prop.

Entered in the Postoffice at Pine City as Second Class Matter

Pine City, Minnesota, Mar. 7, '13

Twenty Five Years Ago.

Dr. C. O. Paquin spent last Sunday with his family in Minneapolis.

We are pleased to note that Mrs. L. H. McKusick is now able to drive out.

Mr. Laird of the John Martin Lumber company was in town Wednesday on business at the court house.

Harry Moody, who ran a barber shop in this village for the past few months is now in Duluth, stopping at the Clarendon hotel.

Traveling Auditor Gibbs, of St. P. & D. road was in town Tuesday and turned the books of the station over to W. R. Buttrick, who will take Mr. Nichols place during his absence, which may be for but two months.

Wm. Bircher informs us that his portable mill, located about six miles south of this place is running finely and that he is making hardwood and pine lumber at a lively rate. Mr. Bircher is a hostler, and will soon have one of the finest places in Pine county.

If the old adage of "If March comes in like a lion it will go out like a lamb," is true we can expect pleasant weather the latter part of the month, for the first was surely boisterous enough. The adage is generally accepted as being a true prediction, and we are not inclined to dispute it.

The bridges on the Pokegama road have been completed, and now it is the intention of the town of Pine City to appropriate a few hundred dollars for the road in order to assist in making it passable. This will be a great help to the farmers living in the vicinity of the lake, and will be thoroughly appreciated by them.

Wm. O'Brien, who was down from his camp at Hinckley, Monday, says that during the past couple of weeks, lumbermen have been doing more work than during any period of a corresponding length this winter. The warm weather settled the snow considerable, and skidding teams are enabled to do much more work, while on the main roads a team can haul all the sleds will hold.

HINCKLEY.

Hans Hokenson's wife has been quite sick this week.

Dr. Mary Scott reports Mr. Blanchard's child as being entirely recovered.

Jos. Obenevert has moved his family into the small house just south of the Morrison Hotel.

Clara Turgeon, daughter of our village barber, was quite sick the first part of the week with pleurisy but is better.

Archie McGowan's oldest daughter had a slight attack of pneumonia Sunday, but at present writing is all right.

Chris Cheeny's children have been sick for the past week with the popular complaint—cold on the lungs—but were reported as better last evening.

George Turgeon returned from Rush City, where he had been employed in the depot for a few days past, Monday night, and has accepted a position with Foley Bros. on the new line.

Chas. Anderson, the man who cut his foot out at Dan Melver's camp, an account of which was given last week, is doing nicely, and will doubtless be able to be around again as well as usual in a few days.

Mr. Malloy of Sexton's camp, was badly injured one day last week, by a load of logs rolling and striking the right leg, which was severely bruised. At last account he was doing as well as could be expected.

Dan McDonald foreman for Thomas Brennan at Camp A, was the happiest man in Hinckley, Thursday morning, and many another was made happy because of his passing around the cigars in honor of the arrival of a new 11 pound boy at his home.

Prof. A. J. Houle will be in Hinckley next Monday the 5th inst., for the purpose of organizing a class in music. The professor has had years of experience, and those who desire instructions in either vocal or instrumental music, should leave word at the Post office, and the professor will call.

Resolutions

Since it has pleased Almighty God, the framer of our bodies and author of our spirits, to remove from our midst Mr. Frank E. Smith on Saturday, February, 8th 1913.

RESOLVED, That in his death the Men's Club of Pine City has lost one of its oldest and active members.

And to his bereaved wife, son and daughter we extend our heartfelt sympathy.

"God's plans like little pure and white sunlight
We must not tear the close shut leaves apart
These will reveal their calyxes of gold"

BE IT FURTHER RESOLVED,

That a copy of these resolutions be spread upon the minutes of the Men's Club and also a copy thereof published in the Pine City papers.

Good Looking Men

ARE ALWAYS SUCCESSFUL IN BUSINESS

Usually Admired by the Fair Sex

HERE IS THE SECRET

The men of Chicago have suddenly acquired an attractive complexion. The reason for this is, that they are now shaving their faces with the new process, called "the Velvet-Edge Safety Razor Blade Sharpener," which gives that velvety smooth skin to the constant shaver.

You men who use safety razors and want a velvety skin, shaved with the delicate softness so much desired, with a keen cutting edge, send your dull safety razor blades at once to Chicago, and have them sharpened by the new electrical process, which makes the dull blade cut better than the new, and your old blades are returned to you, a perfect new blade.

Don't throw away your old safety razor blades, but send them today, well wrapped, and do not delay it until tomorrow.

Price 30c per dozen for all safety razor blades, which include Gillette, Ever-Ready Gem, Auto-Strop, Enders, Keen-Kutter, and all other makes. Your blades will be returned to you in a few days, charges prepaid. Send coin or money order. No orders accepted under 30c.

Wrap blades securely in a card board box. Do not send them in an ordinary envelope, the blades may cut through and be lost. Include your name and P. O. address on the package.

Osborn Rival Disc Harrow

The farmer who desires a Disc Harrow that will stand up under all kinds of severe treatment will find what he wants in the

Osborn Rival Disc Harrow

The Main Frame of the OSBORN RIVAL DISC HARROW is the Strongest on any type of Disc Harrow. It has long been the Standard. It is so rigid that it holds the gangs in correct position, regardless of the condition of the ground to be disc'd. It is a light frame as well as strong.

Each gang is controlled by a separate lever giving the operator the advantage of angling his harrow for side hill work—Something that cannot be done with a single lever harrow.

About the Boston man who took a prize at a husband show for being the best natured man before breakfast?

Any house worth talking about must have its moldings, mill work and trimmings in keeping with its whole architectural plan. Our part is to supply the lumber—kiln-dried and worked to match the rest of the materials called for. A house built of good and bad materials - defective in spots - is like the house divided against itself of which the Apostle tells us.

Well, your house won't fall down if you buy your lumber of us, so please give yourself accordingly.

The Best Bargain You Ever Made

HOW do you measure the value of a bargain? Suppose you bought an engine that did practically all of your hardest work for you, sawing, pumping, grinding, etc., and that saved so much money that it soon paid for itself. Would you call that a good bargain?

An IHC engine will do all that, and more. Having paid for itself, it works steadily year after year until, like our Clay County friend who has used an IHC engine for six years, you will say, "My IHC engine is the best bargain I ever made."

IHC Oil and Gas Engines are thoroughly dependable, and unusually durable. The fine-grained, grey iron cylinders and pistons are worked together to a perfect fit. Ground piston rings insure maximum power from the explosion. The fuel mixer is the most effective known. Bearings are large and carefully fitted. No part is too heavy to be efficient, yet every part is simply strong.

IHC engines are made in all styles—vertical and horizontal; portable and stationary; air and water-cooled; in sizes from 1 to 50-horse power, to operate on gas, gasoline, naphtha, distillate, kerosene or alcohol. Oil tractors, 12 to 60-horse power, for plowing, threshing, etc.; grinding, sawing, pumping and spraying outfits, complete the line.

The IHC local dealer will show you all the good points of the IHC engine. Get catalogue from him, or write

Minnesota Legislature

Proceedings at the Minnesota State Capitol for the Past Week.

St. Paul, March 5.—The people of the state will be given another opportunity to pass upon the proposition for state insurance against damage by hail and wind which was defeated at the last general election. Under the provisions of Senate Substitute bill, which has passed the senate, the state auditor would be authorized to levy an acreage tax on lands insured against loss by hail and wind at the option of the owners of the property to create the insurance fund for which any losses sustained would be paid.

The balance of the day's session the auditor is listening to an address by Hafford Erickson, a member of the public utilities commission, of Wisconsin, on the work of the commission and the advantages gained by state control of public utilities. It is a part of the duties of the commission to provide for a uniform system of accounting by public utilities wherever located, and to prescribe the minimum requirements with respect to gas and electric light and power furnished for public use.

Sees That Public Gets Service.—The commission directs its efforts towards seeing that the public gets good service and complaints are heard and remedies provided generally in a formal and by its investigation and agreement. The object of the commission is rather to take measures beforehand to insure the best service than to provide a remedy afterwards in case the service is inadequate.

The testimony of Mr. Erickson was to the effect that the work of the commission in Wisconsin has resulted in great improvement in the services rendered by public utilities in that state and that this is generally recognized both by public utility corporations and by the public.

Rines for State Auditor.—R. C. Dunn yesterday put Speaker Rines in nomination for state auditor to the accompaniment of a resolution by members of the house.

The incident came about when Mr. Kneeland's bill for a constitutional amendment authorizing the separation of the state from the auditing department was under consideration. "There is no necessity for the separation proposed," he said. "The present auditor has sufficiently managed the state funds and the auditing department was an unnecessary duplication of the public school fund resulting from land sales has been greatly increased and carefully guarded. If I may say so, his record is a credit and careful to husband the state's resources and did not complain that too great a task was imposed upon him when, in addition to doing the work of auditing the public accounts, he was required to manage the state's public lands. And if," he continued, "as I confidently predict, the speaker of this house, who is a thorough capable of discharging the duties of the office, is elected state auditor two years hence by the people of the state, they need not be concerned that they will prove unequal to the management of the public domain."

House Goes Wild.—When the hour went wild, the members began to faint and cheering Mr. Dunn to the echo.

The debate was continued some time longer in the hope of saving the bill. The arguments of those who favored it, however, proved of no avail. The final vote was 55 against the bill to 75 in its favor.

This result is regarded as foreshadowing the defeat of Mr. Erickson's companion measure, the Public Domain bill. This bill involved a scheme for the reorganization of all departments exercising jurisdiction over the public domain under one head and was framed to comply with the recommendation made by the governor in his annual message. It is now thought that it will be impossible to secure its adoption by the house.

St. Paul, March 4.—The senate defeated a short session to the passage of a number of minor bills affecting Minnesota only. On motion it was agreed that the county assessor bill Friday at 10:30 a. m.

Bills Deserving Attention.—At its session the house took up the calendar and passed a large number of bills among which the following deserve special mention.

1. Mr. Bjorson's bill which provides that hereafter constitutional amendments shall be published in all the papers of the state. The rate fixed for papers of less than 10,000 circulation is 25 cents per folio. Where the circulation is 10,000 or more the present legal rates may be charged.

2. A joint resolution offered by Messrs. Harrison and Bolmer, memorializing congress in favor of a canal connecting Lake Superior with the Mississippi river via Brule and St. Croix.

Five-Year Honeycomb Hike.—New York, March 2.—A honeycomb to last for five years is the plan of Hubert G. A. Hassler, aged 29 years, and Miss V. Brown, 15 years, who were married at the bride's home in New Brunswick, N. J. Hassler is a school and the bride in a "hilling" dress came from the city hall, their long trundle from the city hall. They declared that they had a contract under which they had a right to return to the city of \$5,000 in five years.

Peary Heads Scott Aid List.—New York, March 3.—Admiral Peary, the discoverer of the north pole, heads a list of 400 subscribers who have started an American branch of the Scott memorial to commemorate the death of Captain Robert F. Scott and his crew. The memorial is a movement, it was explained, would supplement the work in England, where \$160,000 is being raised, to help Peary and Scott's estate of the liabilities he incurred personally for the expedition.

GOPHER NEWS NOTES.

Minnesota Events of the Week in Condensed Form.

St. Cloud.—The Tennoor's garage of this city was robbed of \$2 in cash and a check taken.

Fergus Falls.—George C. Manior has purchased a half interest in Wheelocks Weekly here.

St. Cloud.—If the O'Neill "roadhouse" bill becomes law, Stearns county will lose ten saloons.

Colmes.—The trouble over the village lighting franchise has been settled by the committee agreeing to operate its plant steadily.

Ada.—F. H. Leonard, who has been superintendent of the light plant many years, has resigned his position and accepted another at Ortonville.

Mankato.—Lans Johnson, aged 62, well known Belorado farmer, is dead as the result of a fall from a horse on the hill leading to his home.

Fergus Falls.—A part of the plant of the Stevens Co-operative company at Peak, this county, was burned. The loss is placed at \$7,000, with \$4,000 insurance.

Grand Rapids.—The county board has ordered a survey of that part of the Twin City to International Falls state highway, which passes through this county.

Bank Center.—Articles of incorporation of the Independent Lumber and Coal company have been filed with the state. The officers are Minneapolis and Bemidji men.

Renville.—A three day farmers' institute was held in Renville. W. F. Schilling of Northfield was in charge. Cash prizes amounting to \$150 were given for the best samples of grain and farm produce.

Winona.—Hanging to a raft in a barn on the farm of Frank Jolly, north of Fountain City, Wis., the dead body of William Mack, 17-year-old St. Paul boy, was found. Authorities are unable to assign any cause.

Albert Lea.—Counterfeit coin has been put in circulation here, as an imitation dollar has been discovered and some fractional silver imitations given for the best samples of grain and farm produce.

Winona.—Word has been received from Edward P. Treft, field secretary of the National Chamber of Commerce, that he will accept an invitation to come to Winona early in April and address the local association. The date will be fixed in a few days.

Winona.—An eastbound engine crashed through a stock car here. The car was demolished and several animals so badly injured that it was necessary to shoot them both through the head and the neck.

Winnebago.—A meeting of Parker college trustees was held here last week and Acting President Lewis was formally elected president. The reports indicated a good enrollment and the need of such an institution.

A committee was elected to revise the curriculum and outline the work for the new school year. The institution has been open since December.

Alexandria.—The campaign in Minnesota against the house fly is already on. Civic organizations in Fergus Falls, Crookston, Alexandria, Sauk Centre, Duluth, Waseca, Lake City and other towns have called upon State Entomologist F. L. Washburn to show the evils of this disease-bearing insect.

Mr. Washburn lectured here and at Sauk Centre. An interested audience gathered to "see the fly" talks at Fergus Falls and Crookston.

Bemidji.—William McLaughlin, duties of mayor on Monday and succeeded the only Socialist administration in Bemidji. He has over had Mayor Malzah, the incumbent, a Socialist, lost many supporters who backed him last year. Mr. McLaughlin has promised a clean sweep in the city police force. The present chief, C. F. Hoyt, is a Socialist. R. H. Murphy will succeed L. F. Johnson as president of the council.

Albert Lea.—Testing seed corn is general in this county and the results are far from reassuring. One man only saved 165 good ears out of 500 while others are reporting almost as poor results. There are some instances where the test shows excellent germinating qualities, but the showing is so uncertain that no farmer can afford to take chances. Clover and grass seed is not as good as usual and should be tested, as well as wheat, oats and barley.

Fergus Falls.—Fergus Falls will be in its anti-fly crusade before the flies arrive. The campaign was opened with an address by F. L. Washburn, state entomologist, who came here under the auspices of the local woman's club. He illustrated the fly's disease-carrying abilities by means of lantern slides, and suggested that the truest expert, visited this city a few years ago, found little to criticize except the flies, and she devoted most of her time to trying the people how to get rid of them.

Pipestone.—The death of Kris Hagenbacker brings to a close a long dispute between him and the Pipestone county dispute between him and the Pipestone county commissioners. The county authorities contended that Hagenbacker was a Rock county resident and could not lawfully reside in his county and receive county aid.

When a demand was made that Hagenbacker be removed from the county, he refused to go, and the county board had just authorized Sheriff Steinhilber to take him by force and return him to Rock county. The man was taken ill and died.

CUSTOMERS CHANGES

TARIFF RECOMMENDS PRESENT 160 DISTRICTS BE REDUCED TO 49.

PLAN MIGHT SAVE \$700,000

Collectors Would Receive Salaries Only Selling of Manifesto Would Be Eliminated.

Washington, March 6.—Unless congress interposes the organization of the customs service will be revolutionized beginning July 1. As one of his last acts, President Taft sent a message to congress announcing the redistricting of the service. The existing 165 districts are to be reduced to 49, formed largely along state lines, and 116 collectors of customs will be abolished. Several ports of entry and a number of ports will be abandoned.

May Not Meet December.

Congress has stipulated that the new plan must reduce the cost of the customs service to \$10,150,000, or a saving of \$700,000 as compared with the current fiscal year. Some treasury officials claim that the plan adopted by the president will not meet that condition.

Under the reorganization of the customs district will have a collector of customs. All ports, even the headquarters of collectors, will be directly in touch with the collector. The terms ports of delivery and sub-ports of entry will be abolished, and all sub-ports which will be retained will be made sub-ports of entry.

Plan Terminates Emoluments.

The new plan terminates the historical privilege given collectors at certain ports, especially along the Canadian border, to sell manifests and receipts on collecting duties. The proceeds from which in many instances far exceed their salaries.

Collectors will receive only salaries. The names of the new northwestern districts and ports of entry continued or created in those sections are as follows, the first port mentioned in each group being the headquarters of the collector:

Michigan—Detroit, Port Huron, Saginaw, Alpena, Bay City, Marine City, Mackinaw, Grand Rapids, Grand Haven, Charlevoix, Ludington, Manistowic, Marquette, Muskegon, St. Joseph, Petoskey, Sault Ste. Marie, Cheboygan, Mackinac, De Tour, Escanaba, Gladstone, Houghton, Marquette.

Chicago—(including parts of both Illinois and Indiana): Chicago, Peoria, Michigan City, Des Moines, Sioux City, Montana and Idaho—Great Falls, Eastport, Port Hill, Plentywood, Sweet Grass, Gageaway.

North Dakota—(including North and South Dakota and Kilsen county, Minn.): Pembina, Noyes, Portal, St. John, Hammar, Niche, Ambrose, Sours, Sully, Mandan, Minnehaha, Hansboro, Crosby, Artur.

Minnesota—St. Paul and Minneapolis (both ports are headquarters of collector), Duluth and Superior (headquarters with Duluth and Superior), International Falls, Warroad, Ranier, Two Harbors, Ashland, Isle Royal.

Wisconsin—Milwaukee, Green Bay, Kenosha, Kewaunee, Manitowish, Racine, Sheboygan, Sturgeon Bay.

Favors Equal Suffrage.

Charleston, March 6.—Henry D. Hatfield was inaugurated governor of West Virginia yesterday, succeeding William E. Glasscock. In his inaugural address the new governor surprised his most intimate friends by declaring himself for woman suffrage in these words: "I solicit the support of the good women of West Virginia—and permit me to say here that I am an advocate of woman suffrage and feel that the time is near at hand when they will receive the same privileges as male voters."

Solvent.

A certain man found himself in the possession of \$100,000. But he did not lose his head. On the contrary, "I will pay only so much for a car," he firmly declared, "as will furnish me the \$100,000,000 a sum sufficient, if prudently invested in the funds, to defray the cost of having the thing around."

And though in that resolution he paid so little for a car that his wife would scarcely speak to him, his sense of financial solvency was his ample reward.—Puck.

SUFFERED FOR 25 YEARS.

Mr. R. M. Flesnor, R. P. D. 35, Otterbein, Ind., writes: "I had been a sufferer from kidney trouble for about 25 years. I finally got so bad that I had to quit work, and my little booklet advised me to get better. I got better all the time, and at last I returned to my work. Doctors failed to do me any good. I kept getting worse all the time, and at last I returned to my work. I had been a sufferer from kidney trouble for about 25 years. I finally got so bad that I had to quit work, and my little booklet advised me to get better. I got better all the time, and at last I returned to my work.

Bowels Get Weak As Age Advances

The First Necessity is to Keep the Bowels Gently Open With a Mild Laxative Tonic

Healthy old age is so absolutely dependent upon the condition of the bowels that great care should be taken to see that they act regularly. The fact is that as age advances the stomach muscles become weak and inactive and the liver does not store up the juices that are necessary to prompt digestion.

Some help can be obtained by eating easily-digested foods and by plenty of exercise, but the best way is to take a gentle laxative-tonic like Dr. Caldwell's Syrup Pepsin, which acts as a healthy stimulant to the bowels and is as safe as a shock to a delicate system.

A much better plan, and one that is usually by the fifty cent size first, and then, having convinced themselves of its merits they buy the dollar size, which is more economical. And it is always guaranteed or money will be refunded. Any elderly person can follow these suggestions with safety and the assurance of good results.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a drugist, send your address and you will get a free bottle of Syrup Pepsin. It is guaranteed to be of the same quality as the regular way of a drugist. It is guaranteed to be of the same quality as the regular way of a drugist.
