DEATH'S HARVEST.

Mrs. A. E. SCOFIELD.

Tuesday afternoon at 5:40 Mrs. A. E. Scofield departed this life at her home in Meadow Lawn, after an illness of a week's duration.

Winifred Madge Greenwood, was born at Flandreau, S. D., April 26th, 1884. She was married to Allen E. Scofield at the above named place on the 2nd day of November 1904. Five years ago they came to Pine county, and settled on a farm at Meadow Lawn where she resided until the time of her death, which was caused by brain poisoning and a complication of diseases.

She leaves a sorrowing husband, three small children, a father, brother, four sisters beside numerous friends and other relatives to mourn her untimely demise.

She was a kind and indulgent wife and mother, a dutiful daughter and a good neighbor.

The funeral was held from her late home Thursday morning, March 13th, 1913 at 11 o'clock, Rev. H. H. Parish, of the M. E. church, of this place conducting the service, after which the remains will be brought here and shipped on the limited to her childhood home at Flandreau, S. D., to be laid by the side of her mother, it being her last request.

The Pioneer joins with the many friends of the family in extending its sympathy.

LEONARD WILLIAM RATH.

On Saturday night March 8th, 1913, at about 11 o'clock the sad news was telephoned from St. Paul, that Leonard W. Rath, second son of Mr. and Mrs. H. J. Rath, had died at St. John's Lutheran hospital in that city after an illness of four days.

Leonard was born in this place June 15th, 1889. He was educated in our schools and passed his boyhood and early manhood in this village, moving to St. Paul with his father and family three years ago.

When first going to the city he was employed by the Tri-State Telephone company, but for the past nine months has been running a printing press for the American Can Co., of Midway.

He was stricken with pneumonia on Wednesday, the 5th, was taken to the above named hospital Saturday afternoon, and died there that evening, at 10:40.

His father, H. J. Rath, who recently purchased the sample room in the Busselinier building opposite the court house, went down to the city on the noon train Saturday, and his brother, Ross on the early morning train Sunday.

The funeral was held from the Presbyterian church in this place Tuesday morning at 11 o'clock and the body laid to rest in Birchwood cemetery in the Rath lot, Rev. F. L. McKeen officiating.

The pall bearers were: Chas. Nagle, Vaughan Bleckner, Edward Nolan, William Bergan and Wayne Lones who accompanied the body from the city and Chas. Sherwood of this place.

Lennie, as he was familiarly called, was an honest industrious young man, who made friends wherever he went by his jovial manner.

He leaves a father, mother, four sisters, four brothers and numerous friends to mourn his early death.

Those from abroad who attended the funeral, beside the pall bearers and immediate family from St. Paul, were: Adolph Sommer and son Carl, of Rush City, uncle and cousin of the deceased.

The floral offerings were numerous and beautiful.

His many friends in this place join with the Pioneer in extending sympathy to the bereaved ones.

ANOTHER BUILDING FOR THE FAIR GROUNDS

Believing that the county fair should be run as an educational institution for the benefit of the children of the county; believing that the fair association should endeavor in every way to encourage the school children of the county to make exhibits of the products of the farm, industrial and educational work of the schools, and believing it is to the best interests of the schools and the school children of the county that they have a building on the fair grounds devoted exclusively to the exhibits of the school children of the county, and not having the means with which to build such a building, we have thought of the following plan to raise the funds to build such a school exhibition building.

There are about 120 schools in the county. If each school would hold some sort of an entertainment, and the proceeds from such entertainment be devoted to the building of a school exhibition building, the success of the plan would be assured. We propose to erect a tablet in this building with the names of the schools and the names of the teachers of the schools that contributed toward the building, this tablet to be of a beautiful design and to be a permanent fixture there and the building to be always used for school exhibition purposes only. We believe such a building and the encouragement of exhibits from the school children will materially increase the interest in the schools and the farms of the county by the school children of the county. This year we propose to offer some good premiums for exhibits from school children for industrial and educational work of the school and the product of the farm and make this department a prominent feature of the county fair.

"Will you help us build this building?" This plan has the endorsement of the County Supt. of Schools, R. H. Blankenship; Prof. W. J. McAdam of the Pine City High School, Prof. A. L. Pryor of the Hinckley High School, and Prof. Louis Anderson of the Sandstone High School.

Yours very truly,

"D. D." BANQUET.

On Tuesday evening the "D. D." class of the M. E. Sunday School met for their second annual banquet, which was held at the G. A. R. Hall.

About thirty-eight were in attendance to enjoy the sumptuous repast prepared by the Ladies Aid, and to hear Hon. J. Adam Bede, who was the speaker of the evening.

The class members and their friends gathered at the scene of the evening's entertainment about 7:00 o'clock and at 7:20 seated themselves to one of the finest banquets ever served to any gathering in this place. The banquet was replete in every respect.

Following this phase of the program Rev. Parish, in a few well chosen remarks, introduced Mr. Bede. He gave one of his usual excellent after-dinner speeches, which teemed with wit and humor. Along with the wit were many things over which to ponder, and which would afford food for thought for some time to come.

After Mr. Bede's address, the evening was spent in an informal manner. The committee on arrangements included to be congratulated for the excellent manner in which this evening's program was carried out.

—Messrs. Ewart and McCleary were passengers to Moose Lake Thursday, where they went to look after the interests of the lumber yard of the Pine City Saw Mill company at that place.

TWO BOYS BURNED.

Hinckley, Minn., March 7.—The Farm residence of Michael Burbahn, nine miles east of Hinckley, was burned last night and two of his sons, aged 9 and 10 years, perished in the flames.

Burbahn was away, but his wife made desperate effort to save her children and piloted six of the eight in the family to a place of safety. She was badly burned and may not recover.

The family had retired for the night and had no warning of the fire until the house seemed to be literally in flames. The boys who were burned to death were trapped in bedrooms and had no chance to escape.

Several of the children rescued by the mother were severely burned.

Neighbors were soon on the ground and relief was summoned from this city. —Minneapolis Journal.

JUNIOR PLAY

On Wednesday evening the junior class of the local high school entertained at Stekl's Hall.

The first part of the program was "Six Cups of Chocolate", rendered by seven girls. The play was decidedly humorous and was a fitting opening for the evening entertainment. Part two was a musical, and consisted of a violin solo, several selections by the orchestra and several instrumental solos and duets. This part of the program proved interesting and entertaining. The main play, "The Flying Wedge", followed the musical program, and proved to be quite a success. The students participating acquitted themselves in a very creditable manner.

Following the program the faculty and students enjoyed a social evening.

consort picked by royalty. Somewhat Summary Method of Mating as it is Done in the Kingdom of Siam.

Kings of Siam apparently do not believe in the wisdom of allowing single women to drift unattached about the country. In certain districts after a girl has reached an age where her securing for herself a husband is considered doubtful, she becomes a "daughter of the king." That is the king takes upon himself the task of settling her suitably in life.

His process is quite simple, and to the point. He proceeds to visit the Siamese penitentiary and looks over the various prisoners. There is a law in Siam that any prisoner can obtain his release by marrying one of his class of girls, and naturally enough, any plunger whom the king picks out is not likely to be backward about consenting to the ceremony. Nor does it make any difference if he is married, for the men of that country are not restricted to one wife.

As far as can be learned, there is no allowance made for the inclination of the girl in question, she has fallen in her mission in life as far as she herself is concerned, and she must abide by the decision of the king.

Cream Corn Soup. Heat a quart of milk in a milk boiler, as milk scorches easily; press a small can of corn through a strainer to remove hulls. If the corn does not go through the strainer well, pour the milk into it; this will help to secure the pulp of the corn. Add a lump of butter the size of a walnut and pepper and salt to suit the taste. Heat the white of one egg to a stiff froth and stir into the soup lightly; a few minutes before serving.

Pinkham's Vegetable Compound was Pinkham's Vegetable Compound was not doing for me but I have two little girls."

Cary, Maine—"I feel it a duty to tell of all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself in a terrible state. I had pains in both sides and such a soreness I could scarcely stand up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would live any better until I submitted that I had better try my husband's friend's Lydia E. Pinkham's Vegetable Compound and I took it. I had no pain, slept well, had good appetite and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your Vegetable Compound."

The Best Bargain You Ever Made

HOW do you measure the value of a bargain? Suppose you bought an engine that did practically all of your hardest work for you, saving, pumping, grinding, etc., and that saved so much money that it soon paid for itself. Would you call that a good bargain? An I H C engine will do all that, and more. Having paid for itself, it works steadily year after year until, like our Clay County friend who has used an I H C engine for six years, you will say, "My I H C engine is the best bargain I ever made."

IHC Oil and Gas Engines

are thoroughly dependable, and unusually durable. The fine-grained, grey iron cylinders and pistons are worked together to a perfect fit. Ground piston rings insure maximum power from the explosion. The fuel mixer is the most effective known. Bearings are large and carefully fitted. No part is too heavy to be efficient, yet every part is simply strong.

I H C engines are made in all styles—vertical and horizontal; portable and stationary; air and water-cooled; in sizes from 1 to 50-horse power, to operate on gas, gasoline, naphtha, distillate, kerosene or alcohol. Oil tractors, 12 to 60-horse power, for plowing, threshing, etc.; grinding, sawing, pumping and spraying outfits, complete the line.

The I H C local dealer will show you all the good points of the I H C engine. Get catalogue from him, or write

TRAGEDY OF AN AIR DEATH

How the Grandchildren of Colonel Nieuport Grieved His Son's Death.

"Why did not Charles come back yesterday?" a woman demanded. Colonel Nieuport, the slightly over-60-year-old father of the airman killed near Etampes, Seine-et-Oise, recently, his oldest brother, Edward Nieuport, was killed in the military maneuvers of 1911.

The news of the second son's death had been hidden from the father, and his relatives could only reply: "Charles has gone for a great flight."

"Ah, well! And why, then, has not Edward come to bid me good night?" They could not make him remember that Edward was long dead. With tears in their eyes his grandchildren brought him letters and flowers to distract him.

"What has happened?" asked the old colonel.

"Why, nothing, nothing, grandfather." The old man's memory returned and he was heard muttering: "It is dreadful to lose your boy. I would rather have died before him. And the second—his brother's equal—nothing can have happened to him? Oh, no. The same house could not twice suffer a blow like that. Smiling, he thought of the honors which his younger son was gaining.

Suddenly the sound of military music came up from the street. It drew nearer, and as the beating drums passed the old soldier's window he got up with difficulty, leaned out of the window, and saluted the passing regiment. Newspaper boys followed the crowd, shouting "News of the accident. Gentle hands dragged the old man back—'Go in, grandpa! You are getting cold.'"—Paris Journal.

HER ONE WISH.

"Mamma, let me show you some self-raising umbrellas." "No use, man, no use." "How about self-raising window shades?"

"No good to me; but, mister, if you'll let me how to turn these heath folk into bad chitlin into self-raising pickaninnies all'd be 'yo' friend for life."

Overloaded.

The postman, staggering under his tremendous burden, stopped at No. 18 and rang the bell. "Here's the dozen house blinds you ordered sent by parcel post, mam." He feebly murmured as the lady of the house came to the door, "and the patent washing machine and the new iron gate for the front yard, but—and he smiled a feeble, witted sort of apology—"I'm afraid you'll have to wait until my next delivery for your portable garage."

Fair Comparison.

"Do you mean to say that you compare your life to Shakespeare's?" "Why not?" inquired the manager of the Clothesline Burlesque company. "Shakespeare had pretty much my experience. The critics thought he had, and the authorities were always threatening to close his show."—Washington Star.

STRENGTH

Without Overloading the Stomach. The business man, especially, needs food in the morning that will not overload the stomach, but give mental vigor for the day. Much depends on the start a man gets each day, as to how he may expect to accomplish the work on hand. He can't be alert, with a heavy, fried-meat-and-potatoes breakfast. Quitting a lot of vital energy in digesting it.

A Calif. business man tried to find some food combination that would not overload the stomach in the morning, but that would produce energy. He writes: "For years I was unable to find a breakfast food that had nutrition enough to sustain a business man without overloading his stomach, causing indigestion and kindred ailments."

"Being a very busy and also a very nervous man, I decided to give up breakfast altogether. But luckily I was induced to try Grape-Nuts. "Since that morning I have been a new man; can work without tiring, my head is clear and my nerves strong and quiet. "I find four teaspoons of Grape-Nuts with one cup of sugar and a small quantity of cold milk, is delicious as the cereal part of the morning meal, and incorporates me for a clear-headed business man." PLEA MADE BY PROF. OLSON OF SCHOOL OF AGRICULTURE, WHO SHOOTS LAUNDRY DRIVER.

CONFESSION IS MADE CALMLY

He Had Been Waiting for the Opportunity to Slay Clyde N. Darling—Asked that Police and His Wife Be Notified.

St. Paul.—Prof. Oscar M. Olson, a demonstrator of the University School of Agriculture, shot to death Clyde N. Darling, a driver for the Capitol Steam Laundry at the rear door of his home at 21 Nourse street. After giving himself up, Olson, who police say, stolidly confessed that he waited for his chance and deliberately shot the man. Both men are married.

He Took the matter calmly. An hour and a half after the shooting, when the police officials went to the Prior avenue station house to get whatever statement he cared to make, Mr. Olson said he had no objection to the arrest of Darling, of being too friendly with Mrs. Olson.

GARDENERS COMMENCE WORK

WARM WEATHER TURN FANGLES TO GROWING THINGS.

Dean Woods Asserts There is Sufficient Moisture for Planting—Floods Unlikely.

St. Paul.—With the temperature reaching 64 above zero Saturday and 41 above Sunday, St. Paul has come to the conclusion that spring is on. The weekly bulletin of the weather bureau at Washington announces that the temperature all week will be nearly normal, with fair skies prevailing, so that a real taste of early springtime may be in store for Minnesota.

The warmth of the last two days has served to thaw out the seed catalogues from their shelves, and to cause the farmers and amateur gardeners' fancies to lightly turn to thoughts of seeds and hoe. Dean Woods, of the college of agriculture came out with a statement that soil conditions are most favorable for good crops. He declared that with a normal spring rainfall, there is nothing so far to indicate but that this coming year will be productive of as large crops as last year.

"While the snowfall of the past winter is slightly below the average," said Dean Woods, "there is sufficient moisture in the soil. I believe to sustain the crops through planting time. If a normal amount of rain falls after the ground has thawed and is in condition to receive it, I see no reason to believe anything other than that we are due to have another bumper crop year. Of course, predictions at this time are not hazardous, but at present, I fall to see anything but encouraging signs in the outlook."

The light snowfall has obliterated the danger of spring floods, according to Lieutenant Colonel Charles L. Potter, United States engineer, and he believes that only an unusual abundance of rain within the next two or three weeks can result in an overflow of the rivers. "Reports coming to my office indicate that there has been but about six inches of snow on the ground," said Colonel Potter. "This is equivalent to about one or one and a half inches of rain, and is not enough to have any marked effect upon the water level in the rivers. Our reservoirs are very full, and can take care of a great amount of water, so that I believe that it would be possible, in case of a continued heavy rainfall, to control the water and prevent flooding on the river."

W. G. Hoyt, district engineer of the United States geological survey, also believes that conditions along the Minnesota river were not such as to make a good probability. There is too little snow, he said, to have an alarming effect upon the water level.

FEARS TO DIE WITH MONEY.

Minnesota Woman, Sure of World's End March 19, Burns Her Currency.

Minneapolis.—Declaring that the world is coming to an end on March 19, Mrs. Philip Peters, is giving away and burning up all her world wealth. She ordered a bill of groceries from a downtown store and the delivery she effected in delivery and she went there and "started things," causing the proprietor to call the police. With the bills she had in her pocket, she then stuffed the bills into his pockets. He went directly to his employees and told them the story. The bills totaled \$70.

Detectives found that Olman went to her home. She laughed at them when they tendered her the money. "The world will end on March 19, she said, and I can't see how I can get my money in his possession he will go to hell. The rich will suffer and the poor will be rewarded."

Minnesota Legislature

Proceedings at the Minnesota State Capitol for the Past Week.

St. Paul, March 10.—The house committee on public domain has received the Kneeland public domain bill and introduced it as a committee bill.

A Public Domain Department.

The bill provides for the creation of a new department, which is to be given charge of all matters relating to the public domain. The chief officer of the department will be termed the commissioner of public domain and is to be paid a salary of \$4,000 a year.

In his department there are to be five subordinate departments or divisions to be assigned duties as follows:

1. State lands and immigration.
2. Geology and mines.
3. Waters, waterways, water powers and navigation.
4. Game and fish.
5. Forestry, including timber, timber and log surveys, state parks, forests and reserves.

Heads to Receive \$4,000 Each.

The head of each division is to receive a salary of \$4,000 a year except division four, whose salary shall be \$3,000. A deputy commissioner of public domain is provided for a salary of \$2,500 a year, and a secretary whose salary shall be \$1,800. The commissioner is authorized to employ necessary assistants and to fix their compensation.

The state drainage commission, the board of timber commissioners, the forestry board, the reclamation board, the game and fish commission, the geological and natural history survey, the board of immigration, and the office of surveyors of logs and lumber, commission and superintendent of state parks, forests and forest reserves, etc., are abolished. Their duties will be discharged by some division of the department of public domain.

To Survey Public Lands.

The bill directs that a survey of all public lands be made. In presenting such survey, priority shall be given to agricultural lands and these are to be surveyed in contiguous tracts to facilitate settlement. If it is found that certain tracts would be rendered more beneficial to the public health, more secure from fire, more desirable for settlement or would be more advantageously sold if they were cleared or drained, or if "ways" were made through them, the commissioner is empowered to make such ways, drains and clearings, adding the cost thereof to the selling price of such lands.

This public domain bill is made a special order for Tuesday, March 15, at 11 a. m.

St. Paul, March 8.—Complying with the terms of a joint resolution, the following members of the legislature have been appointed a commission to confer with a similar commission to be appointed by the legislature of Wisconsin with a view to framing uniform laws regulating fishing in waters common to both states:

Senators Mauley L. Fosson, L. O. Cooke and George G. Carpenter; Representatives Thomas Kneeland, Frank Minnette and John A. Healy.

The Cashman Distance Tariff bill was, under suspension of the rules, read a second time in the house yesterday, and on motion of H. H. Dunn, made a special order for Tuesday, March 15, at 2 o'clock.

Representative Parker introduced a bill providing for a state constabulary. The body which is to be under the control of the governor will consist of not more than 100 and not less than 75 men. A police commissioner is also to be appointed at a salary of \$2,000 a year. The pay of the members of the force is to be \$400 a year. The statute books, with respect to arrests, are to have a sheriff's powers and may act as fire rangers, fish wardens, factory inspectors, etc.

Speaker Dunn's anti-trust bill was given its quietest early in the afternoon. It sought to strengthen the anti-trust bill as present on the statute books, by legislating specially against insurance companies which entered into agreements with respect to rates. It also provided that persons injured by such trusts might bring actions for damages. The house, however, would have none of it and defeated it by a vote of 61 against to 43 for the measure.

Mr. Lyndard had better luck with his bill requiring employers to give their employees one day's rest in seven. Only a few votes were cast against it. Employees excepted from this act are janitors and watchmen. Bakers may set sponges on Sunday, live animals may be cared for, and fires maintained. The bill applies to factories, work shops and mercantile establishments.

Northern Normal School.

The house passed the bill providing for the establishment of a normal school in Northern Minnesota. Under

Benches Will Be Installed.

Washington, March 7.—Workmen have begun tearing up the floor and furnishings of the chamber of the house of representatives, preparatory to rearranging the hall to accommodate the 60 additional members who will come in with the assembling of the sixty-third congress on April 1. The chairs and desks will be removed, the floor taken up, and a new floor arrangement made to accommodate rows of benches that will greatly enlarge the seating capacity.

Alfens Granted a Respite.

Richmond, Va., March 7.—Governor Mann has granted a respite until March 23 to Floyd Allen and his son Claude, execution of whom under sentence to die in the electric chair at the state penitentiary on Friday, next, for their part in the Hillville county murder, on March 14, 1912. The governor announced that he would issue a formal statement, although he did not indicate what action he would take on the pending petition for a commutation.

"No; what's it like?"

"It's like dreaming about something to eat when you go to bed hungry."

ERUPTION LIKE PIMPLES

Wathens, Kan.—"My child's scalp trouble became so bad that I was ashamed to have anyone see him. His head had a solid scab on it. He also had a terrible breaking out on his face which was gradually growing worse. The eruption was like pimples which developed into sores when he scratched, which he did almost constantly. Baby would almost scratch himself raw."

"I had used several different kinds of salve, none of them helping in the least bit, when I saw the Cuticura advertisement in the paper and it made me think of the good results my sister had when she used it for her children. I had only used Cuticura Soap and Ointment about two weeks before I noticed that the sores were almost entirely gone, and it must have been a month or six weeks he was troubled before I began the treatment. He would get angry when I would put the Cuticura Ointment on him. Cuticura Soap and Ointment completely cured him and he has a clear complexion now." (Signed) Mrs. W. H. Hughes, Dec. 31, 1911.

New Grand Central Terminal

A wonderful city, within a city, built for the comfort and convenience of the traveling public.

The main Grand Central Terminal Building in New York is now open to the public. This vast improvement is more than a great railway Terminal—it is a Terminal City, complete in itself, providing every detail essential to comfort and convenience.

It will embrace convention, amusement and exhibition halls, hotels, clubs and restaurants, post office, express offices, modern apartment and office buildings, and numerous stores and specialty shops.

Grand Central Terminal is the Heart of New York. At Forty-second St. and Park Ave. (Fourth Ave.), one block from Fifth Ave. and convenient to Broadway.

Underneath the Terminal City and its streets are 33 miles of railway tracks on two separate levels, the upper for Through Service, the lower for Suburban Service.

Each level forms a complete terminal in itself, separate entrances and exits, with equal facilities for the comfort of passengers.

Both levels are reached by gently inclined walkways. No stair climbing, and no confusion, since incoming and outgoing traffic is separated.

Ticket, Pullman, Baggage and other facilities are progressively arranged from waiting room to train, no step need be retraced.

VILLAGE OFFICERS ARE RE-ELECTED.

At the election of village officers held last Tuesday, all of the old men were retained by large majorities. For president Julius Doney defeated Frank Cort by the margin of 187 votes. The vote for trustees was as follows:

August Carlson,	167
August Larson,	167
Matt Froehaka,	164
Fred Pagenkopf,	36
August Kicker,	35
Frank Kuntah,	32

For the office of Clerk, Henry Butz received 184 votes against J. M. Boehle's 98. James Boyle was re-elected treasurer without competition, receiving 203 votes. Chas. Heywood was elected as assessor defeating Thomas Hall and R. J. Gray by a large majority. John Atkinson and A. H. Lambert the present Justices of the peace were re-elected without opposition as were J. D. Wilcox and John Biederman the present constables. The retaining of the old officers by such a large majority clearly shows that the people of this town are satisfied with their administration and will abide with their laws for the next year. The wet won out by a vote of 146 to 57. Our neighboring villages, of Hineckley and Rush City went dry, leaving Pine City the only wet town on the N. P. between Finlayson and Forest Lake.

SPEAKER RINES FAVORS NAVAL MILITIA

Mr. Harte, who went down to St. Paul with Dr. K. W. Knapp, the forepart of the week has returned and reports that the day they arrived at the state capitol, the Senate bill appropriating \$15,000 when cities furnished a site and \$1,000 for building Military Armories was passed. Representative Larson, of Sandstone, had already prepared a bill to present to the House, to get the naval militia included in the law whereby cities furnishing one thousand dollars and a site were to receive ten thousand from the state for building armories.

Speaker Rines advised our representative not to present the bill but to draw up an amendment to the Senate bill and have the Attorney General look it over, so that it would be drawn up right, so that after it had passed the House and returned back to the Senate, it would go through a flying.

Mr. Harte while at the Capitol spoke to several of the Senators and Representatives and each said that they saw no reason why the bill as amended should not pass both houses especially as the amendment came from the Speakers district and he was heartily in favor of it, as well as the justice of the measure.

The new bill as passed by the Senate makes the appropriation from any money in the treasury, not otherwise appropriated, and not from a special fund as the old bill read. Speaker Rines and Representative Larson are deserving of the thanks of our citizens for the interest they have taken in our Naval Militia, and the passage of the bill, which is almost a certainty.

Studebaker

"I've been selling Studebaker Wagons and Buggies for over 30 years."

"I've sold them because my reputation as a dealer was at stake and from experience I have found that Studebaker means the best."

That tells the story.

Farmers bought Studebaker wagons before the Civil war and they have been buying them ever since.

Because they had confidence in the name Studebaker and in the sturdy, dependable wagons and buggies they built.

And that confidence has been upheld. Studebaker wagons are built on honor and the Studebaker guarantee goes with every one.

There's a Studebaker for your needs—whether you live in city, town or country.

Farm Wagons	Business Wagons	Trucks
Buggies	Delivery Carts	Coachlets
Auto Carriages		Constructors' Wagons

—And Studebaker harness also—as well and carefully made as Studebaker vehicles.

Mr. John Tate was a county assessor visitor Thursday.

John Tate sold his heavy black team to Evan Johnson and delivered them Thursday.

Mr. Ehrenberg was up Thursday, bringing home Miss King, who has been visiting below for some time.

Mr. Morrow is hauling potatoes from the basement of the Farmer's Co-operative Store to be loaded into cars.

Mr. Bestrom was a business caller here Thursday. He drives a fine, fast, young horse of which he is very proud.

Mr. Peterson who gathers cream among the farmers for our creamery says he is getting loaded heavier everyday.

Mr. Garther, a cattle buyer from Hibbing, came down to buy a carload of stock. He will be accompanied by Evan Johnson.

We have a new barber shop in the front of Mr. Hendrickson's store, and all the young men not desiring a beard and mustache should give the gentleman a chance to show his skill.

August Altman drove to Pine City Thursday afternoon to get a load of coal for Geo. Lennerooth. Mr. Lennerooth has moved back into the Challen house Wednesday, and feels quite at home now.

Mr. Dane and son took the noon train to St. Paul Thursday, going down to bring Mrs. Dane home. She has been in the hospital for the past few weeks but is well enough to be removed to her home.

A new military department has opened in Rock Creek. Mrs. Anderson just came back from the twin cities with a large assortment of ladies' fine trimmed hats. All ladies deserving a new spring hat should give Mrs. Anderson a call.

Mr. John Krueger had a run-away Thursday while coming to town. While driving over a pile of snow the cutter upset and threw Mr. Krueger out. He received a bad scratch over his left eye but was not injured in any other way, altho the cutter received several hard knocks.

Thursday Evening March 6th a surprise birthday party was given to Miss Esther Johnson. A lot of young friends surprised her, and they enjoyed a very pleasant evening at Johnson's Hall, where they spent the time dancing. The party was given in honor of Miss Esther's 16th birthday.

Tuesday, March 11th town election was held and the following were elected to office.

Supervisor, Chas. Lindstrom
Town Clerk, Wm. E. Anderson
Treasurer, J. M. Morrow

Act Quickly

Delay Has Been Dangerous in Pine City.

Do the right thing at the right time. Act quickly in time of danger.

In time of kidney danger Doan's Kidney Pills are most effective.

Plenty of evidence of their worth. Charles A. Erickson, Grantburg, Wis., says: "For years the least exposure brought on a bad attack of kidney complaint. I suffered intensely from pain and weakness in my back. My loins often seemed to be paralyzed and for days at a time I was in the greatest misery. I could not sleep well and it was all I could do to attend to my work. My bladder was inflamed and I had to pass the kidney secretions every little while. Two boxes of Doan's Kidney Pills removed these troubles. I willingly recommend Doan's Kidney Pills again, for I have had no serious trouble from my kidneys since I used this remedy some years ago. I consider my cure a permanent one."
