PROGRAM

Twenty-sixth Annual Fair of
The Pine County Agri-
cultural Association.

BURTON'S CELEBRATED DOG CIRCUS.

The Fair will be formally opened at
12 o'clock noon, Tuesday September
16th. Music by the "Down in Dixie
Band." 1:15 p. m. address by Govern-
or Eberhart and Hon. J. Adam Bede,
Burton's Greatest Dog Circus, free
acts in front of the grand stand.

Prof. John B. Biggs, the greatest
aerial slack wire and clown equilibrist
in the world in three distinct acts in
front of the grand stand.

RACE PROGRAM

The management of the Fair have
made arrangements with John Run-
quist of Graaton and P. W. McAllen
of Pine City to give an exhibition race
between Runquist's horse "One Donna"
and McAllen's horse "Watson." Each
of these two men think they have the
best horse in the Northwest and they
are going to find out which is the best
at the County Fair. These two men
have already raced horses for a purse
of \$100.00, Mr. McAllen being the
winner. Mr. Runquist says he is go-
ing to get his money back. Don't
fail to see the most exciting event of
the season.

Running Race (farmer horse only) \$25.00

Motorcycle Race 25.00

"Happy Jack" lately with Buffalo
Bill will be there and will ride the
worst horse you can find. He is a
regular "Broncho Buster" and "Fancy
Cow Boy Rider" and will do fancy
stunts between the races; it is worth
going miles to see him ride.

Tuesday will also be School Chil-
dren's Day. The schools will be closed
on the afternoon of this day so as to
give the pupils a chance to hear the
Governor. School children will be ad-
mitted free.

The Fair will be open in the even-
ing until 11 o'clock. A special pro-
gram is being prepared. Don't fail
to visit the Fair in the evening. The
grounds will be well lighted. A fine
display of fireworks on the grounds
every evening.

Bring your family and friends and
spend a pleasant day at the County
Fair. This is your Fair, come and
bring your exhibits. There will be
something doing every minute, we
will keep you busy.

SEPTEMBER A MONTH OF PRETTY WEDDINGS.

NORTON-GRAY.

Last Thursday, September 4th at 2:30 p. m. occurred the marriage of Miss Ethel, eldest daughter of A. P. Norton, of Hustletown, and Mr. Geo. Gray, youngest son of Mrs. Mary Gray, of this place. The ceremony took place in the local M. E. church, the service being read by Rev. Litchfield, a pastor friend of the groom from the Wisconsin conference.

The bride was attended by her sister, Estelle, and by her cousin, Bernice Stiver. The bride wore a beautiful gown of lace over mesaline and carried brides roses. The bridesmaids wore veil and carried shower bouquets of pink sweet peas and white astors. Ruth Norton and Fern Stiver assisted at the ceremony as ring bearer and flower girl respectively. The groom was attended by his elder brother, Richardson and by Prof. Turner a friend from Fountain, Minn.

Following the ceremony a reception was held at the home of the bride's aunt, Mrs. A. W. Piper which was attended only by the relatives of the contracting parties and those who assisted at the ceremony.

The church and home were prettily decorated in autumn colors.

The young people were the recipients of many beautiful and useful gifts.

Mr. Gray and wife departed on the afternoon train for short visits at Minneapolis, Farmington and Northfield. From the latter place they go to Elroy, Wis., where the groom has a charge.

The bride, although the greater part of her life has been spent in Farmington, has a host of friends in this place who wish her the best in life. She is a sweet dispositioned young lady who makes warm friends wherever she goes.

The groom is well known in this place having made this his home for several years. Following in the footsteps of his father, he has entered the ministry and at present has a charge at Elroy, Wis. His many friends and acquaintances extend heartfelt congratulations.

CURTIS-MILBURN.

Monday afternoon at 1:00 o'clock at Pleasant Bench occurred the marriage of Miss Pearl Curtis and Mr. Carl Milburn. The ceremony was performed in a little grape arbor, which had been decorated for the occasion, and was very impressive. Rev. Parish, brother-in-law of the bride, read the service.

The bride wore a beautiful gown of white chiffon over silk and carried a shower bouquet of astors.

Following the ceremony a sumptuous wedding dinner was served, cover being laid for fourteen.

The young couple left on the afternoon train for Alexandria, Indiana, where they will visit for some time with Mr. Milburn's parents. From Indiana they go to Cody, Wyoming where Mr. Milburn has spent the past year and where they will make their home.

The bride is a sister of Mrs. H. H. Parish of this place and is an exceptionally fine young lady. The groom is a steady, hardworking young man, who will make his way in the world.

PRESBYTERIAN NOTES.

Regular preaching services next Sunday at 11 o'clock a. m. and 8 p. m.

Sunday school meets at 9:45. You are cordially invited to all the regular and special services of the church.

Beginning Monday September 29th at 7:30 p. m. a series of meetings will be held in the Presbyterian church. The speaker will be Dr. W. W. Lawrence of Glen Avon, Presbyterian church of Duluth. Meetings will be conducted each evening for one week.

ROCK CREEK

Mr. Peplin and son, took in the State Fair last Wednesday.

Mike Baum came up this week with a load of new potatoes and they looked fine.

Our graded schools started Monday with quite a good many new pupils in attendance.

Mrs. Victor Peplin came down to attend the bankrupt sale at the Henderson store.

E. Smith returned from the Fair Wednesday and his son and family went down the same day.

Mesdames George L. and Alva Stevens were Rock Creek and county seat visitors Monday.

A crew of N. P. hands are in town this week doing some cement work on the block system recently installed.

Mr. Sorenson and family drove to West Rock Sunday in their auto and attended the church services held there.

Mr. Beckman who resides on one of the Russell farms spent the latter part of last week at his old home in Two Harbors.

E. J. Anderson is fixing eaves on the roof of the new Ehrenberg residence, which add to the appearance of the same.

Mr. Hartman is working for Mr. Dane, gathering stone and sand to be used in the foundation of a barn. Mr. Dane expects to erect at once.

James Jackman, who arrived here from Kansas, is a cousin of Mrs. Alva and Wm. Stevens. He is visiting with both families and may stay awhile.

Fred Paulson, son of Mrs. Paulson, who was married two weeks ago at Little Falls, is in Chicago on his wedding trip. They will make their home at Little Falls.

A brother-in-law of Fred Leaf by the name of John Redstrom, who resides at Superior died Sunday evening.

at 8:30 of consumption. Mr. and Mrs. Leaf received the news too late to attend the funeral.

Mr. Dane is now installed at the Rush City Mesquite Co. warehouse as their produce buyer. He guarantees correct weight and the highest market prices for produce. Try him and be convinced.

The Rock Creek camp of the M. W. A. will hold their regular camp meeting Saturday the 13th at 8 p. m. A large attendance is requested as there will be some special business to transact. Chicken bouillon supper is promised.

The general merchandise stock of C. E. Hendrickson has been placed in the hands of the Wendland Sales Company of Paynesville to be closed out at once at greatly reduced prices. The doors opened Saturday September 6th at 9:00 to continue for 12 days. Everything goes.

John Nelson, the Rock Creek blacksmith, called our attention to the fact that he is agent for all kinds of machinery manufactured by the Inter-National Harvester Co. The measure spreader that he is offering to the farmer is far ahead of any yet used. It is a noted for its lightness of draft and the ease with which it can be operated. Mr. Nelson does all kinds of blacksmithing, wagon and carriage repairing and makes a specialty of horse shoeing, a trial will convince.

Mr. Fred Hartz, storekeeper and creamery man for Bridgeman-Russell visits to announce that he is open and ready for business. He will take in exchange poultry of all kinds and real. Will pay the highest market price for butter and eggs, milk and cream. He has a seamless manse hose which cannot be excelled in durability and comfort which he is selling at a very reasonable figure. He also carries a large assortment of all grades of ladies and gents hats, mens and boys overalls and tin ware. He carries a fine grade of mixed mustard in glasses which is excellent for table use. Soap, 7 bars for 25c. Salt pork, bacon and summer sausage, at prices that are right.

HOOVER POTATO DIGGER

Specifications

Main Frame The main frame is made of the best quality gray iron castings with the axle and shovel bolted solid thereto.

Shovel The shovel is made of best quality high carbon crucible steel, formed by us on special dies to just the right shape to scour properly and gather the potatoes with the least possible loss. The corners are turned to permit the shovel to clear without catching or clogging. A special shovel with traps or hinges, for use in stony ground, will be furnished when so ordered.

Beams The beams are made of best quality charcoal malleable castings and bolted solid to the main frame. They unite by a circular tongue and groove inside of the digging or short beam that connects from the guaging lever to the pole. This makes the main frame very solid and enables the operator to raise and lower the shovel while the machine is in motion.

Truck The Double-Action front truck, is our special design, and for which we hold letters patent No. 991,761, which protect us fully in its exclusive use on the "Hoover" Potato Diggers. The wheels have nearly double the action of the pole and permits machine to be turned around at the end to come back on the next row or shorter if necessary. They also help (by their peculiar action) to follow the row more closely. The wheels are steel with removable hubs and bearings and are protected from dirt by sand bands and have proper means for oiling.

Roller Bearings The bearings for the main elevator shaft are roller bearings, 2 1/2 inches long, absolutely protected from dirt and are oiled by means of six inch oil tubes properly fitted with compression grease cups.

Drive Wheels The drive wheels are made of steel with staggered or reinforced spokes and are provided with removable hubs. The spurs that bolt on the rim to keep the wheels from slipping are of our own design and are made of specially rolled steel, formed and fitted by us to properly fit the wheels and give the best clearing qualities. They are either made straight for level land or formed with an angle for side hill work.

Dogs Dogs are placed in the plate that bolts to the wheels, which engage ratchets in the large sprocket wheels for throwing in and out of gear.

Draft The draft of our machines depends on the condition of the ground and the depth necessary to go to get the potatoes. In some conditions two horses will handle them easily, and in others it requires four.

All machines are furnished complete with doubletrees, neckyoke and suitable tools.

The "Hoover" adjustable rolling coulters can be attached to any of our machines to cut the vines and weeds at each side of the row. They are adjustable to any width row and to any depth that it is necessary for them to roll. When turning around they raise out of the way with the same lever that raises the shovels out of the ground. It is very simple and effective arrangement and should recommend itself to all. They can be attached to any "Hoover" Potato Digger with very little effort.

J. I. CASE New Foot Lift Sulky and Gang Plows

THE J. I. Case New Foot Lift Sulky and Two and Three-bottom gangs are companion plows, the principle of construction and adjustment of each being identical. The gangs are built heavier in proportion to stand the strain to which they are subjected.

EVEN DEPTH OF FURROW.—One of the main things to be considered in judging a job of plowing is the evenness of the depth of the furrow. It not only adds to the good appearance of the job, but is important from the crop production standpoint. Shallow plowing in one place and deep in another is not conducive to even crops. With a plow beam having considerable play, it is obvious that good results could not be secured in this respect. To meet this, on J. I. Case plows the Spring Pressure Lock was devised. As shown

by the cut, this spring is strong enough to lock the plow in the ground, to force it into a depression, and to rebound when a raised place is struck, so that one depth is always maintained. This is an exclusive feature covered by patent.

SHARES SAVED.—In plowing, conditions are often met where the best of shares will be broken unless some mechanical contrivance on the plow serves as a buffer. The rebound in the Spring Pressure Lock is the buffer on the J. I. Case plows. If a rock or root is struck, the plow jumps enough to go over the obstruction or if breaking. In case the point passes over, then the spring forces the plow into the ground immediately, without leaving a rough, unplowed spot.
