## "Order Flowers"

from Duluth Floral Company of agencies and for list on getting.

## Duluth Floral Co.

Quality and Service 101 W. Superior St. Duluth, Minn.

## Renewed Testimony

No one in Pine City can suffer headache, dizziness, or distressing urinary troubles without remembering the Pine City man's testimonial story. It is a renewed testimony to the Pine City resident's good health.

Alvah Knapp, Pine City, Minn., writes you: "I have been suffering from urinary troubles for several years and my back aches from morning until night without being able to sleep. My eyes became weak and vision spots floated before them. The action of my kidneys was too sluggish, and, as a result of the trouble, I had lost Don's Kidney Pills. As I get some at Heavensville's Drug Store and they cured me." (Advertisement given August 11, 1915.)

LYNCH KEE YENNER LATER, M. Keine, Minn.: "My former statement to you of Don's Kidney Pills holds good in all respects. The cure they made has been permanent."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—ask for Don's Kidney Pills. The name is on the wrapper. Write to Heavensville, Buffalo, N. Y.

## Good Day for Someone

For Sale—100 acres of land, three miles north of Hixson, on one state road and one half mile from Gladion Road at \$17,000. An acre. Good land. Fine location. Very easy terms. Length, 250 Plymouth 5000, Minneapolis, Minn.

## Play Was Greatly Enjoyed

The high school class, given in St. Mary's hall last evening, drew a well filled house, showing respectability and interest in the athletic fund about \$100 out of a gross income of about \$110.

The young actors did remarkably well and enjoyed every moment of their play and those who trained them.

The between-the-acts features—musical and other choruses by the students—were given with interest and skill. The program was well received.

Special thanks are due to the many generous donors who have helped to make the fund a success.

## The Court's Grind Begins

Grand Jury Was in Session First of Week—Betty Jury Next Week

Court sat Tuesday afternoon when the grand jury convened.

This was the first time that Judge John C. Neihawm had occupied the bench here in regular form and several of his friends were present in recognition of the occasion.

Memorial resolutions, calling to mind the life and activities of the late Judge Peter H. Stolberg, prepared by W. H. Lamson, secretary of the Pine County Bar Association, were presented by S. G. L. Roberts, its president, and Mr. W. H. Lamson, Mr. O. Sobotka and Mr. W. S. Ervin, of the Pine County Bar, and Mr. J. D. Markham, of the Chicago County Bar, president of the Ter-County Bar Association, addressed the Court in memory of Judge Stolberg.

We had hoped to be able to print the resolutions together with the excellent remarks of Judge Neihawm in this issue but lack of space prevents. They will appear in this issue next week.

Charles Pearson of Sandstone was appointed foreman of the grand jury to the court and retired, later reporting indictments charging 2nd degree assault against Guy and James O'Keefe, brothers, of Markville for beating Charles B. Grace of Wilma town at that place last September. They also reported two indictments, each charging first degree assault, against Edwin Vot of Finlandson who shot and wounded his wife and daughter last winter.

The case of Erad A. Hodges vs. Henry B. Blaine, involving a land title, was settled by stipulation.

Arguments were listened to in the collection to intervene in the Cook Creek school, pending plant controversy and the matter was taken under advisement by the court.

Citizenship papers were granted to John Study of Sturgeon Lake, Aros Magnusson of Dupette, James Frederick of Sandstone, Giffard Anderson of Cook Creek, James McNeil of Sandstone, Albert H. McNeil of Markville, Frank Yriak of Ellien, Hiram Walsh of Bemis, Mike Harris of Sandstone, John Banta of Finlandson, Joseph Trilling of Willow River, Nels George Langstrom of Markville, Martin Elton Wisp of Markville, Eric Blomquist of Pine City town.

The path jury will meet next Tuesday. Those best in position to judge credit for their long term surely finishing its labor next week.

On the last day of this issue will be found the complete calendar for the term.

## "Clean Up and Paint Up" for Homes and Towns Beautiful

Min.' for their catalogue. It's free and has a lot of good information, which will help you succeed by home grown stock and not trees and plants that grow and please.

Dog lost—white, answers to name of Fido—part Spitz and Collie. Return to W. F. Buselmair for reward.

Our Debt to the Pioneers. I love to think of the bold, adventurous men who blazed the pathway of civilization across the continent to the shores of the peaceful ocean. They, and not the politicians of this era, made this a world power. We owe them a debt of gratitude which we can never repay except by being useful citizens. They had sons of the ordinary incentives to high endeavor. They needed their pers in a rude age, upon an electric stage, far from the towering centers of population and publicity, with no reward to follow at their heels to tempt their souls, with no newspaper correspondents to blazon their deeds. No trumpet of fame sounded in their ears, elevating them on to their laurels, laurels, self appointed task, but they would not for their country and their kind—Clean-Up.

Information—Customer—Have you the papers for a week back? Newsboy—For a week back? "For don't wait papers, see wants a person plaster—Exchange.

## Park Band To State Fair

The Excellent Brook Park Organization Secures Three Day Contract

Word was received Tuesday that the Music committee of the State Fair Society had awarded a contract to the excellent Brook Park band for a three day engagement during the Fair this fall.

The band is well known as the best in this part of the state and we have no hesitancy in predicting that they will do so well that the fair management will want them back next year.

Though a very young band in point of time organized, they have played engagements at various points in this county—always with excellent success.

The members are a clean lot of young men, too, and their appearance as well as their work will be of advantage to Pine county.

We congratulate the band and its leader, Prof. Hughes, on the success that attended the efforts of M. G. Schofield of Brook Park and H. W. Harte of Pine City who appeared before the music committee to urge the contract. There were lots of hands to choose from and Brook Park was extremely fortunate in securing the contract.

We suggest a Pine County day at the Fair—one of the days when a Pine county band is on the program.

## James Madden Passes Away

James Madden passed away at his home here at 4 o'clock last Saturday morning at the age of 88. He had been gradually sinking to general decline and his death was due to old age and was with no pain. The remains were buried beside those of his wife in Calvary cemetery here, services being held in the Catholic church at 9:30 Monday morning when high mass was read by Father Leo.

Mr. Madden was born in Ireland in 1828 and removed to Canada in 1847, locating at Arthur, Ontario, where he was married in 1859. There the family of 11 children, 8 of whom are alive, were born. In 1899 Mr. and Mrs. Madden removed to Pine City and here their time has remained since that time. Mrs. Madden passed away in December of 1914. The following of their family survives: Sister Bernardine of Guelph, Ont.; Thomas of Cleveland, Mr. J. M. Roach of Arthur, Ont.; J. J. Mrs. Crowley and Miss Nellie of this place; Mr. Frank Horgan of Duluth and Frank Maiden of Fresno, Mont.

Mr. Madden's father was an officer in the English army under Wellington at Waterloo and he inherited considerable native ability and gentlemanly characteristics which marked his last years here. He had been about but little the past year but his old friends remember him with pleasure and their sympathy goes to those who most keenly feel his loss.

J. M. Roach of Arthur, Ont.; Mr. and Mrs. Frank Horgan and John Horgan of Duluth and James Mullen of Hinckley were present to attend the funeral.

## Card of Thanks

We wish to acknowledge the aid that was given, the flowers sent and the sympathy that was shown by friends and neighbors on the occasion of the death of our father and to express our sincere appreciation.

Members of the James Madden family.

## Apprentices Wanted

For road overseer for the town of Bluewin Creek, Pine county, Minn., by the Town Board of said town, on or before April 20th, 1916.—J. W. Plasek, clerk.

## Ins. Rates Reduced

Insurance Com'r Works Forces Reduction in Pine County Villages

Hon. S. D. Works, state insurance commissioner, informs The Poker that, in pursuance of his order of last November directing a re-rating of the towns in the northern half of the state on the same basis that towns in the southern half enjoy, the following average reductions in fire insurance rates are granted in the different villages in Pine County:

	frames bldg.	l. b. contents	brick bldg.	l. b. contents
Sandstone	18%	17%	18%	9%
Pine City	10	10	10	3
Hinckley	15	15	17	14
Sturgeon Lake	5	5		
Askov	7	6	10	14
Rittledge	11	11		
Kerrick	10	10		
Nickerson	8	8		
Brookpark			20	30
Willow River			8	15
Bronson	11	14	29	37
Finlayson	6	6	21	16

You will note that every village gets a slice—some more and some less, according as they have been paying too much under the old arrangement. Hinckley gets the biggest cut because it has been paying the highest premium over what should have been charged—probably because of the fire of 1894 and ever since that date.

Mr. Works' order of last November was based on the disappearance of the old-time fire risks, in the northern part of the state—especially the old forest-fire risks. Through putting the order into effect, all the towns in the old so-called "forest fire" region get in on the basis where they belong.

The Poker is glad to get this information from Mr. Works, and especially glad to give it publicity since, at the time the order was promulgated, we expressed our suspicion that he couldn't "make good." But he did!

## Beroun

Our people were interested in the article in last week's Poker referring to digging a county ditch to drain the Mission Creek valley. The creek itself never was able to drain the territory that depends on it and, as the county settles and more ditches are gradually dug leading to it, it is less and less able to carry off the water. The time will come before many years when this will be done—and it will make Mission Creek town one of the richest towns in Pine county, with the best farming soil to be had. All we need is drainage—but we need that badly.

Win Hander arrived with a car load of goods on Sunday morning of last week from S. Dak. and is busy getting settled on his farm 5 1/2 miles east of Beroun. This is another addition to the settlers around the Sheffield school. David Davidson from Grantburg, Wis. is expected this month to settle on his place in Sec. 32.

A deal was completed last week whereby the creamery was transferred to John E. Falk and J. L. Wahlstrom of North Branch. The new owners are practical creamery men, and will make things hum about May 1.

## Free Books for Farmers

The agricultural department of the Pine City high school has received a shipment of Farmers' Institute Annals. These are books of over 200 pages containing articles on cattle, horses, hogs, farm crops, rams, machinery and numerous photographs relating to the text. These books are for free distribution. If you want one, see one of the agricultural students or Mr. Ayers, instructor.

## ROYAL BAKING POWDER

Absolutely Pure  
Made from Cream of Tartar  
NO ALUM—NO PHOSPHATE

Will be at Hotel Agnes, Pine City one day only.

## Thursday, April 27

Dr. Roberts restores all eye-strain that causes headache, dizziness, floating spots, nervousness, sore and inflamed eyes, cross-eyes, cataract, etc. without drugs or pain. Not extolled by secular medical science. All cases examined by electric ophthalmoscopy, revealing the slightest error of refraction as well as any diseased or abnormal condition of the eye. Glasses made that will FIT THE eyes in all cases. Artificial Eyes furnished.

Special attention given to the relief of all nervous troubles which come from irritation of the optic nerves. Brain centers caused from uncorrected eye-strain, where the wearing of specially fitted glasses will relieve the condition.

## For Happy and Healthy Children

Serve More Good Bread and Milk. No other food matches it for producing rosy cheeks and bright eyes.

So always buy Your Bread and Pastry

SCANDINAVIAN NEWS

SUMMARY OF IMPORTANT HAPPENINGS IN FAR OFF NORTHLAND.

ITEMS FROM THE OLD HOME

Resume of the Most Important Events in Sweden, Norway and Denmark—Of Interest to the Scandinavians in America.

DENMARK.

One of the queer men of Horsens died under peculiar conditions. Many years ago he kept a store, and it was supposed to have saved about \$50,000. After he quit this business he rented a small room on the second floor of a building on the main street of the city. In spite of his wealth he lived like a typical miser. This filthy, repulsive person was known to everybody in town. His garments were ragged, his hat was full of holes. He finally became so miserly that he was unable that the executive committee of the trades union of the city decided to shut him out of the building room, where he had been in the habit of studying the quotations and reports of the exchange. He paid a city tax of about \$175. He did not hide his money as some misers do in the old countries, but he invested it in stocks, so that he had the money with which to become richer every day. A few days ago he was found in the coal box outside of his room. He was taken to the hospital, but he was so far gone that he soon died. The physicians claimed that he died of undernourishment. For many years he was very fat on rolls and butter milk. His heirs are three brothers.

Heavy fines have been imposed upon Danish merchants who have violated the guaranty given by the Danish chamber of commerce to the industrial council of the French and British governments that goods imported from those countries should not be re-exported to any country with which the allies are at war. In several cases the fine was \$10,000. The rippling in the riding Premier Zable proposed prison terms for persons violating the guaranty.

Mikkel Sondergaard, a farmer at Estrup, recently sold a fat cow for \$250. He bought her for \$75 for her.

British warships operating in the Pacific have captured the Danish steamer Zealandia, laden with nitrate of copper.

The government has prohibited the exportation of compo-board flooring as well as the raw material out of which this is made.

Men who are cutting leather for the export trade are making as much as \$175 a day.

SWEDEN.

Dr. Sven Heidin, the Swedish explorer of Central Asia, writes:

"At the beginning of the war England announced that she must take arms, not only in fulfillment of the duties assumed in treaties, but also to defend and rescue invaded Belgium. England undertook the beautiful and noble role of defender of the small nations. Sweden is of the opinion that nations that enjoy this high protection. And what are the advantages which we owe so far to England's protection? Various branches of our neutrality in Swedish territory, the confiscation of Swedish mails to and from America, as well as Christmas cards to Swedish-Americans to poor relations in Sweden, the denial of Swedish telegrams to America, and finally, the deportment and considerable supervision of our importation of foodstuffs. We are set on definite rations and are not allowed to buy more than the necessary goods than we need to guard us from hunger. Although we are a neutral state, we are treated as our peaceful trade with other neutral states, Denmark and Norway suffer even more."

The distress among the stonemasons of Bohus län is said to be very great. "Whole communities," says a newspaper, "are reduced to poverty, and are living at or even below the level of starvation."

The Swedish riksdag passed the army bill appropriating \$28,000,000, which is to be devoted chiefly to increasing the movable artillery and developing the flying corps.

If there is no serious hitch in the calculations the city of Gothenburg will soon have an automobile factory. The Hess Stock company is preparing plans for which large grounds have been selected at Stäppen.

"The press of Sweden protests unanimously against the British order-cancellation cancelling authority to certain sections of the declaration of London which makes distinctions between the treatment of absolute and conditional contraband," says the Overseas News agency. "The newspapers state that as a matter of fact, Great Britain previously had hardly adhered to the terms of the declaration. The Tidningen of Stockholm says the situation is serious, and calls for a united Swedish policy to protect the nation's rights."

A deputation of 75 men representing the temperance movement was called on the king, the cabinet and the riksdag for the purpose of urging upon those authorities the importance of checking the evil influence of alcohol. The king made a speech, but his language was rather evasive. He paid a high tribute, however, to the temperance cause, and that they had done for the Swedish people, and his closing remarks were: "My best wishes follow all of you with a return to your homes in the different parts of the country."

Industrial development in the Scan- dinavian countries is centered in shipping emigration from Norway and Denmark. Within the last 20 years the Scandinavian countries, through the more extensive use of water power, nearly trebled their horsepower used in their industries. A consequence of the growing demand for laborers was considerably greater than the increase in population. It is safe to say that for a long time after the war the Scandinavian industries will be kept busy with orders from foreign buyers, who, especially during the first period of reconstruction following the conclusion of peace, will be anxious to all the help they can get from the Scandinavian industries.

The water power utilized in the industries of Sweden at the beginning of this year aggregated 1,855,000 horse power. The power stations in the process of construction will add \$3,000 horsepower.

The municipal workyard of Stockholm disposed of 30,000 cords of wood in less than two months last winter.

Branslow Booth, the head of the Salvation Army, is expected to visit Stockholm next summer.

The Swedish government has announced an internal loan of about \$17,000,000, bearing 5 per cent interest. The Swedish financial policy is fixed at 88. Swedish price level is fixed at 100. The government has invited for subscriptions on these terms indicates that the government is not so sure of itself with that of any country in the world.

NORWAY.

A moose that was pursued by a dog ran out on the Randfjord, but soon returned on the slippery ice and could not rise again. The dog was called away, and some men went out to help the animal to get on his legs again. This was not successful in this, though the moose had sense enough to permit himself to be handled as though he had been taken by a man. When the men got a horse and sled and managed to take the moose to the shore. The moose was so fat that as he felt safe and sure ground under his feet he would run away. But he did not. He remained standing until the men, who were just giving him the place, had time to get him a friendly pat as if to say goodbye, and then the moose stalked away to the woods.

The price of building material is so high that those who are interested in building their houses are on a committee to propose some remedy. Before taking any steps, the committee has been asked to advise on account of abnormally large exports, there is not enough lumber for rebuilding the houses destroyed, especially in the brick will cost 100 per cent more than last year, if it can be had at all.

The battered Norwegian ship Svale, laden with nitrate of copper, was captured by the United States coast guard cutter Seneca after an exciting tour of 400 miles. Only the foremost, and the stern, of the vessel were saved. Five of her crew were slightly injured by falling spars. She was towed to Liverpool for New York.

Most of the stone and brick walls in Bergen have been torn down, and it is said that all of them will have to go in the course of time. The warm days during the winter and spring of this year have been very warm, which is injurious to the tree. This injury can be controlled through the shading of the trunks with paper.

It is a good plan to erect boards or buripak boards on the south side of the trunk of the tree with all the space between the bright days of sun from starting the sap to flow.

Another injury that is found on trees is that of the bark being gnawed by mice. The mice gnaw the bark on small trees around which there is a considerable amount of snow. To remove this loss it is simply necessary to remove the straw from the base of the tree. If this is done there will not be much loss.

Gilbert Murray, Englishman, was not permitted to give a public lecture on the war in Stockholm; but Murray and Germans and Frenchmen are permitted to talk at or organize in Norwegian capital.

Mr. Syrdal, watchmaker at Stenker, has made an alarm clock for the wireless station at Stavanger. It has 48 different alarm apparatus, which may serve in so many different rooms.

An organ granger who died at the Drammen hospital was supposed to die without means. But after his death it was found that he had left a fortune of \$1,000. The man had been suddenly robbed up, claiming to be his heirs.

Even Norway has a mild type of "hyphenates." They are the descendants of people who have immigrated from the United States. In the poll-tax of two hundred years. In the poll-tax of the day they will be found on the side of those who speak Danish and Norwegian. The Norwegian-Danish book language, and the liquor traffic.

The government is ready to propose the electrification of the Drammen railway. The power will be generated from the Hagdal falls in Hallingdal.

Ninety-six Norwegian ships have been lost to the enemy or missed, according to a newspaper statement published here. It has been established, says the state press, that 20 Norwegian steamships have been destroyed by German submarines, 77 Norwegian subjects there by losing their lives.

At Vigen, Trøgstad, is a cow that has given birth to thirteen calves in succession, making thirteen calves in less than seven years. This cow is supposed to hold the world's record.

PROTECT TREES AGAINST LEOPARD MOTH

(Continued from the National Forester)

ON THE DOWNGRADE. The leopard moth will probably do more damage to the deciduous trees of the federal government than any other pest. The federal government is paying out a considerable sum of money to protect its trees. And it is a good thing that it is doing so. For the leopard moth is a pest that is doing more damage to the deciduous trees of the federal government than any other pest. The leopard moth is a pest that is doing more damage to the deciduous trees of the federal government than any other pest.

Not such a hard nut when it is known that all those on which the government tax has been paid are officially reported as consumed; and that during the decade referred to more than 100,000 cords of the bonded warehouse by the time limit and stored in private warehouses awaiting a constantly decreasing demand.

"But," continues the Continent, with pertinent emphasis, "whatever was a real secret, that is, the necessity of explaining it has now quite gone by. It is a fact no more. The necessity of buying and distilling is at least as an obnoxious ally which no body can deny. The report of the commissioner of internal revenue for 1915, however, is not so definite in both beer making and whiskey making, which demonstrates that prohibition is not so absolute as it is often claimed to be. The 1914 report already showed some shortage in the whiskey business, from the year before there was a decline of 15,000,000 gallons. But the new report shows how falling prices have lowered the price of whiskey to the decline in the year just past is 41,000,000 gallons—from 181,000,000 to 140,000,000.

Even more significant is the record item that within the year 1918 distilleries quit business out of 743 such as located in the United States. And meanwhile the quantity of beer made in this country decreased from 66,000,000 gallons to 49,000,000 gallons. As for the brewers, their first setback, but it furnishes sufficient notice that they are not so invulnerable as they are often claimed to be. Their distilling business is being marked on. The cry is 'Going down' for the whole crew of 'em."

ALCOHOL AND PNEUMONIA. Dr. W. A. Evans conducts a department in the City of New York, and he says that pneumonia is a disease that is often so severe as to render it necessary to establish a system of inspection. Whenever possible the tubercle bacillus of carbon should be used. Care should also be taken to see that the insect is not allowed to breed. The use of fertilizers will strengthen the trees to withstand the attacks of the leopard moth.

Damage by this borer in large parks is often so severe as to render it necessary to establish a system of inspection. Whenever possible the tubercle bacillus of carbon should be used. Care should also be taken to see that the insect is not allowed to breed. The use of fertilizers will strengthen the trees to withstand the attacks of the leopard moth.

These farms had equally good crops and raised one coil. The annual cost of machinery and horse labor calculated on this basis, was \$24 for the first farm and \$97 for the second. Each day the second farm paid \$113 to the first farm for the use of machinery and horse labor. No farmer can afford to keep machinery and work horses that are not used productively, such as a leak in your farm.

PREVENT INJURY TO THE ORCHARD TREES

Warm Days During Spring Will Cause Sap to Flow—Mice Also Cause Much Damage.

Often the trunk and larger branches of fruit trees turn brown in the spring. This is due to sun scald. The warm days during the winter and spring of this year have been very warm, which is injurious to the tree. This injury can be controlled through the shading of the trunks with paper.

It is a good plan to erect boards or buripak boards on the south side of the trunk of the tree with all the space between the bright days of sun from starting the sap to flow.

Another injury that is found on trees is that of the bark being gnawed by mice. The mice gnaw the bark on small trees around which there is a considerable amount of snow. To remove this loss it is simply necessary to remove the straw from the base of the tree. If this is done there will not be much loss.

CLOSING UP LEAKS IN FARM EXPENSES

Cost of Labor and Machinery Should Be Carefully Considered by Farmer.

By ALVA H. BENTON, Assistant Agricultural University, Farm, St. Paul, Minn. Reducing farm expenses is the easiest way to increase farm profits on many farms. Good crops and good live stock alone cannot make farming profitable. It is necessary to reduce farm expenses. The cost of horse labor and machinery should be carefully considered.

It is necessary to reduce farm expenses. The cost of horse labor and machinery should be carefully considered. The first of these farms had a pair of mares and five work horses; the other \$1340 worth of machinery and seven work horses.

Prevent Stomach Worms. An ounce of prevention is worth a pound of cure, and then, since in the case of stomach worms in lambs, prevention is the best way to keep them from getting into the run-down sheep pasture, and give them free access to good medical aid.

Keep Stock Out of Fertilizer. Keep stock out of fertilizer. Fertilizer is a valuable asset to the farmer, and it is important to keep it from being scattered about the farm. Keep stock out of fertilizer.

Have Things Convenient. The feedroom, silo chute, and hay chute should be conveniently located, but at the same time, they should be in a separate room from the milk room to keep the odor and dust out of the stable as much as possible.

Eggs for Hatching. Do not set eggs for hatching that you would not set yourself. When making a sale, fill the order with the object of having the customer come to you again.

TO COOK MUSHROOMS

METHODS OF PREPARATION THAT ARE ALL DELICIOUS

Applying and Nourishing Food It. Prepared by Many Houses of the World. Here are Some of the Recipes.

Broiled Mushrooms—Broiled mushrooms are easy to prepare and delicious to eat. To broil mushrooms, first wash them in a wire strainer, then pat them dry. Then brush them with a little oil and broil them in a hot oven for 10 to 15 minutes.

Deviled Mushrooms—Deviled mushrooms are not so much different from broiled mushrooms. In fact, they are a sort of broiled mushrooms. But the slight difference adds to their delicacy. For deviled mushrooms, first wash them in a wire strainer, then pat them dry. Then brush them with a little oil and broil them in a hot oven for 10 to 15 minutes.

Mushrooms for Garnishing—For garnishing, canned mushrooms are the best. They are very easy to use. First wash them in a wire strainer, then pat them dry. Then brush them with a little oil and broil them in a hot oven for 10 to 15 minutes.

Creamed Mushrooms—Boil the mushrooms until tender, after peeling them, and drain them. Then make a thick white sauce and add the mushrooms to it. Season with salt and pepper to taste.

Paties—Heat patty shells, crisp, rich ones, and have ready creamed mushrooms. Put a tablespoonful of the creamed mushrooms into each hot patty shell and serve.

Mushroom Omelet—Heat the whites of four eggs in a hot pan. Then add a little salt. Pour into a hot omelet pan and cover. Cook slowly. When ready to eat, spread a slice of omelet with a half cupful of minced mushrooms, fold, put in the oven for two minutes and serve.

Mushrooms in Brown Sauce—Brown two tablespoonfuls of butter with two of flour. Then add a little salt. Pour into a hot omelet pan and cover. Cook slowly. When ready to eat, spread a slice of omelet with a half cupful of minced mushrooms, fold, put in the oven for two minutes and serve.

Chicken and Mushrooms—Broiled chicken is delicious with mushrooms. First wash the mushrooms in a wire strainer, then pat them dry. Then brush them with a little oil and broil them in a hot oven for 10 to 15 minutes.

Mushrooms and Sweetbreads—Mushrooms and sweetbreads are delicious together. First wash the mushrooms in a wire strainer, then pat them dry. Then brush them with a little oil and broil them in a hot oven for 10 to 15 minutes.

Do you ever make "brawn"? I buy a meaty chump, four or five pounds, boil until quite well done, remove from the pot, and cut into small pieces. Then chop, add salt, pepper and sage to taste, moisten with beef liquor. Press down hard in dish. Have six small loaves of bread, slice them, and place a plate over it, weighed down with an iron. Let it stand overnight. The next day slice with a very nice and economical. This with a nice vegetable or tomato soup makes a remainder of your makes a nice dinner.

Baking Powder Biscuit. Sift together one cupful flour, one-half teaspoonful salt and four teaspoonfuls baking powder. Cut in a little butter. Then add a little milk and water. Knead into a stiff dough. Put on well-floured board, pat and roll lightly to an inch thickness and cut with biscuit cutter. Put in buttered pan, let stand ten minutes and bake in hot oven for 20 minutes. When done, brush over with melted butter. They will melt in your mouth.

Duchesse Soup (Flemish). Fry a sliced onion to a deep yellow pulp in 1/2 onion of butter, smoothly brown a slice of onion, then add milk with four breakfast cupfuls of skim milk or milk and water, and boil up. Then add a little salt and pepper. Grated cheese, season well with salt and a dust of cayenne, continue stirring till the soup boils, and simmer for 10 minutes. Strain through a sieve and pass through a fine strainer and beat up with a fork and a little butter.

Cold Meat Relish. Take any cold meat, cut into small bits and put a layer in a baking dish. Then add a layer of sliced onions, a layer of sliced tomatoes, more meat, onions and tomatoes. Fill dish in order given, season with salt and pepper, moisten with milk and butter. Bake in hot oven for 20 minutes. When done, cover with a plate, then uncover to make a rich brown.

Cut some delicate slices of this white or brown bread and butter, making them into sandwiches with a thick filling of ground or finely chopped veal, mutton or any suitable sauce, with well seasoned with salt and pepper, divide into triangles, and garnish with watercress.

Prof. Ludwig Becker, leader of Germany's scientific party, has been elected as secretary for Scotland, has withdrawn from the chair of astronomy in the University of Glasgow, and departed from Glasgow.

In Boone county, Iowa, they have established a community school that caters to thirty-six sections, only six miles by six, and their building which cost \$48,000, stands in a ten-acre plot of ground, with gardens, gymnastics and so on. School life will be made attractive and school courses scientific.—Northfield News.

Today we are threatening war with Germany, yesterday Carranza insulted us, tomorrow the Allies will attack us on the east and the day after Japan will begin to bombard San Francisco. Those are some of the things you have seen and may see in the daily press. Don't believe a word of such rot. The daily press runs on the motto, "raise hell and sell papers"—and they're doing it.

**T. E. Church Notes**

Palm Sunday will be appropriately observed in song and sermon at the Methodist church. In the morning Rev. Hare will preach on "The New Palm Sunday." Mrs. Hanscome of Beroun, the well-known contralto, will sing "The Palm." In the evening, the fourth address in the present series will be given by Mr. Hare on the subject: "What is a Christian?" Sunday School and Epworth League will be held at the regular hours. Passion week services will be held every night next week except Saturday, at 8 o'clock sharp.

The Queen Esther circle met Tuesday afternoon at the home of Faith Remington. Hans Laurisch and Helen Bentz were elected delegates to the annual meeting of the society, to be held at the Simpson Methodist church in Minneapolis on Saturday of this week. They will leave Friday afternoon and stay over Sunday in the city.

The Woman's Home Missionary Society met Wednesday afternoon at the home of Mrs. Dunning. The society has been studying "Home Missions in Action" this winter.

**Presbyterian Church Notes**

The Communion of the Lord's Supper will be celebrated on next Sunday at the morning service, 11 a. m. All who desire to unite with the church, either by letter or by profession of their faith, will be gladly welcomed at this time. They may appear before the Session at 10:15 a. m. Sunday morning. Children may be presented for baptism at this service, previous notice being given the Pastor. Let us have a full attendance of the members of the church and congregation at this service.

You are cordially invited to attend the Sunday evening service at 7:30 p. m. if you do not regularly attend elsewhere. The C. E. meeting is at 6:45 p. m.

Easton will be fittingly observed in the church. The program by the Sunday school will be given Easter evening at 7:30 p. m. It will be "something different." Plan to be there.

The choir will render the Easter cantata entitled "The Gospel of Easter" on Wednesday evening, Apr. 20th, at 8 o'clock. The popular admission of 10c and 20c will be charged to cover the necessary expenses, the balance applying toward a piano fund. Keep this date open and come and enjoy the music.

The annual congregational meeting was held in the church on last Thursday evening. Reports were presented and routine business transacted after which light refreshments were served by some of the ladies and a social time enjoyed by all. An adjourned congregational meeting is called for Monday evening, April 17th. Let all members of the congregation be present.

Mr. Spiechler has the painting in the church completed and has begun the carpeting. The interior of the building will hardly be recognizable when these improvements are completed.

Rev. Clark attended a conference at Duluth from Tuesday to today. Mr. Spiechler has the painting in the church completed and has begun the carpeting. The interior of the building will hardly be recognizable when these improvements are completed.

Notice of Cancellation of Land Contract

To Carl A. Eismann and Henry Hirsman: Take Notice: That you are in default under and according to the terms, conditions and provisions of certain Contract for deed, made and entered into by and between the undersigned, the City of Superior, State of Wisconsin, and you, on the 21st day of November, 1914, in and for the County of Pine, State of Minnesota, in which Contract for deed, there is recited that you have agreed to purchase the land described in said Contract for deed, for the sum of Three hundred and Sixty (\$360) dollars with interest thereon at the rate of six per cent per annum from the 20th day of November, 1914. And you have been in default under and according to the terms, conditions and provisions of said Contract for deed, in that you have failed to pay the interest on said Contract for deed, in the sum of \$81.12, which said sum is due and payable from you to the said Philip Ober, on the 20th day of November, 1915. And you have failed to pay the interest on said Contract for deed, in the sum of \$81.12, which said sum is due and payable from you to the said Philip Ober, on the 20th day of November, 1915. And you have failed to pay the interest on said Contract for deed, in the sum of \$81.12, which said sum is due and payable from you to the said Philip Ober, on the 20th day of November, 1915. And you have failed to pay the interest on said Contract for deed, in the sum of \$81.12, which said sum is due and payable from you to the said Philip Ober, on the 20th day of November, 1915.

Summons for Relief, Complaint Filed

State of Minnesota, ) District Court,  
 County of Pine, ) 19th Judicial District.  
 Martin J. Hines, Plaintiff,  
 vs.  
 Arthur H. Olan, Defendant.  
 The State of Minnesota to the above named defendant: You are hereby summoned and required to answer the complaint of the plaintiff in the above entitled action, which complaint is on file in the office of the Clerk of the above District Court, in the office of the County Auditor of the County of Pine, Minnesota, for the purpose of voting upon and electing a County Auditor of the County of Pine, Minnesota, on the second day of May, A. D. 1916, between the hours of 7 o'clock A. M. and the hour of 5 o'clock P. M., for the purpose of voting upon and electing a County Auditor of the County of Pine, Minnesota.

SYNOPSIS.

Sherridan attempts to make a business man of the son...

One of the near-tragedies of life comes when a poor young man or woman is snubbed by the rich...

CHAPTER I—Continued.

"Oh, he's a friend of the whole family," she returned, with a pertuance which she made no effort to disguise...

"Good heavens!" said Bibbs, starting ahead as they reached the corner and the car waving to the right, following a bend in the street...

CHAPTER II.

It was a crazy street, with long roofs of thick green slate. An architect who lived the middle "Gothic" motives had built what he liked...

"You look a great deal better than that I expected," Edith said to him. "Edith must have a great vocabulary," she chuckled.

"What the architect thought of the white of his nose," Edith said, looking at him with a smile.

"Elevate without the frame," she explained. "This splendid, don't you see, is lighter than air."

"This statue in the corner is pretty," she remarked. "Mamma and I bought that," and Bibbs turned at her direction to behold, amid a grove of trees...

"Edith!" replied the servant. "She might have died! Don't get in all your whims. You see, she might have died!"

"You look a Great Deal Better Than I Expected," she said. "What I expected?"

The Story of a Big Man in a Big Town

children and wants to do what's right by all of 'em—and you'll always find him right in the end..."

"What a good look at me?" he said. "Oh, see here!" she cried with a frank cheerfulness.

"I'll do you good!" she returned, rustling into the hall. "Now take a nap, and I'll send one of the help to wake you in time for you to get dressed up before dinner."

"You look a great deal better than that I expected," Edith said to him. "Edith must have a great vocabulary," she chuckled.

"What the architect thought of the white of his nose," Edith said, looking at him with a smile.

"Elevate without the frame," she explained. "This splendid, don't you see, is lighter than air."

"You look a Great Deal Better Than I Expected," she said. "What I expected?"

children and wants to do what's right by all of 'em—and you'll always find him right in the end..."

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluces of the system each morning wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise, especially in the morning, suffer from a cold, foul tongue, nasty breath, acid stomach, and hot water on the tongue...

"How did they happen to ask you to dinner?" Mr. Vertrees inquired, unobtrusively.

"I don't know," Mr. Vertrees replied. "I don't know how to do anything—but something's got to be done."

"What?" "And 'I'm going' she shouted, and was seized with fresh paroxysms. "Think of it! Never in her house before, not a single one of them but her daughter—and just barely met!"

"I suppose," said Mrs. Vertrees, much injured, "that Mary will have an unpleasant time at my funeral. She forth upon indignantly and kissed her, then she went to the mantel and leaning an elbow upon a gaze."

"I don't look too rich to be suspected?" she insisted. "I'm so glad you've come!" she said, and then she realized it, and tried to turn it into a cough, and she didn't know how, and it wasn't long before she was crying.

"I know exactly what you want me to do." "Will Mary be able to infatuate young Jim Sheridan?"

Wrote for a Monogose Revenge on Rats, Which Annoy Them Plotted by British Soldiers in Trenches.

An army officer searched all London one day for a monogose, which is a weaselle like animal, in a glass of water before breakfast for a few days, and your kidneys will then act fine.

Chinese as Shipbuilders. Chinese ship yards may possibly be the best in the world, as they are already building them for European owners.

Quite a Difference. "What is the difference between the converted pole and the doctored one? It is in the way of finding the bear's hole."

Staring Full into His Window.

old, they had shapeliness and a flavor of modernity. The room was cheerful and hideous under a mantle of imitation black marble.

"I Know Exactly What You Want Me to Do."

"Will Mary be able to infatuate young Jim Sheridan?" "I don't know," Mr. Vertrees replied.

AGAINST THE BACKGROUND OF A GREAT CITY BLACK WITH THE SMOKE AND FILLED WITH THE TURMOIL OF MANUFACTURING, MR. TARKINGTON HAS DRAWN FOR US THE PORTRAITS OF A MAN AND HIS SON WHO STAND OUT BOLDLY AS DISTINCT AMERICAN TYPES AND MAKE THIS STORY WHAT IT IS—NOT ONLY A STORY OF BIGNESS, BUT THE BIGGEST STORY OF TODAY.

GIRL COULD NOT WORK

How She Was Relieved from Pain by Lydia E. Pinkham's Vegetable Compound.

Taunton, Mass.—"I had pains in both sides and when my periods came I was unable to stay at home from the pain and suffering for long time. One day a woman came to our house and asked my mother why I was suffering. Mother told her that I suffered every month and she said, 'Why don't you try a bottle of Lydia E. Pinkham's Vegetable Compound?'

Thousands of girls suffer in silence every month rather than consult a physician. If girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion would use Lydia E. Pinkham's Vegetable Compound, a safe and pure remedy made from roots and herbs, much suffering might be avoided.

Write to Lydia E. Pinkham Medicine Co., Lynn, Mass. (confidential) for free advice which will prove helpful.

CLAIMS THAT SWAMP-ROOT SAVED HER LIFE

About nine years ago I had Rheumatism in my back and I was bed for six weeks. I was not able to raise my head to take a drink of water. I was unable to move my hands or feet, and my back would hurt me so that I could not get up. I saw Dr. Kilmner's Swamp-Root and I decided to try it and commenced to improve with the first bottle. I was restored to good health in six weeks. I was now 67 years of age and my home work for four in the family. I do my own washing. I have never been troubled with the Rheumatism for the last eight years.

MRS. EMMA A. BOGGS, 1400 N. 23rd St., Indianapolis, Kansas, State of Kansas.

WORRY CALLED A SIN

MINISTER STRONG IN CONDEMNATION OF BAD HABIT.

Really Amounts to Disease When One Has Long Allowed Himself to Indulge in Nervous Belief. Bishop Woodcock gave a vivid picture of the uselessness and evil effects of worry, diagnosing it as a disease and remedying by prescribing a remedy. The remedy he found in his text, "Casting all your care upon him, for he careth for thee." He spoke in part as follows:
