Good Crowd at Hinckley

Teachers and School Officers Were There in Large Numbers Last Saturday

There was a good attendance at the Hinckley school officers and teachers meeting, last Saturday, both classes being represented all the way from Brook Park to Ogema town and from the Mison Creek locality to the Friesland district.

The evening session crowded the high school assembly room, with the meetings were held, to its fullest capacity. Most of the officers and teachers in attendance remained over for the evening though some were unable to do so.

Excellent programs were given, afternoon and evening, replete with good things for those present, but the most generally commended was the excellent one by Stapt. J. H. Hay of Thief River Falls, at one time county superintendent of Pine county and also in charge of the Pine City and Sandstone schools for about eight years at each place. He is a magnetic talker and, while his talk was not all on school work—he could not refrain from liberal commenting on the development of this region since he left here some

dozen years ago, and that led along in kindred lines—he used it all to illustrate the need of vocational education, less of the frills and more of the fundamentals. He said that what a community would be, its most first task. While Prof. Hay is considered one of the best city superintendents in the state, he is also prominent in the affairs of the northwestern part of the state and is president of the Thief River Falls Commercial Club—one of the most wide awake bands of boosters in the state.

County Royal Neighbors Gather

The Royal Neighbors of Pine county gathered at Hinckley, Tuesday afternoon and evening, for their annual school of instruction. There were about 150 members of the order in attendance, including large delegations from Bruno, Sandstone, Pine City and Rock Creek.

The next annual school will be held at Pine City when Mrs. Duxbury of Pine City will be president and Mrs. Stevens of Rock Creek receiver.

Mrs. McNash of Minneapolis, supreme receiver, was present, as was also Mrs. Cushing, of St. Paul, state deputy. The work was exemplified, interesting lectures were listened to and a delightful social hour was enjoyed.

Messadnes W. F. Schumacher, Duxbury, Hagan and C. H. Beechel were in attendance from here.

At a meeting held in the Clover town hall, Tuesday, the land owners of that region in town 41, east of Kettle river, completed the organization of game preserve which will include everything east of Kettle in the towns of Clover, Crosby, Arlone and Ogema.

At the meeting, which was presided over by Chief Clerk Klauke of the Game and Fish department at St. Paul, was attended by about 25 residents of the district included in the preserve and every vote was in favor of the project. Although there were two or three land owners who did not sign the petition for the preserve there were no objections to its completion.

Unless the preserve is later lusted by the same means that were necessary to its organization—a petition signed by 25 of the land owners and an election such as was held Tuesday—it will stand for five years, preventing any killing of game or catching of fish within it during that time. It constitutes the largest preserve in the state with the single exception of the Superior preserve, north of Duluth, and is considered by the authorities to provide unusual general advantages for breeding game and fish. We understand that there are three more on the grounds now and that the fish and game commission is planning on stocking it with elk.

More Contributions

Several Towns and Villages Contribute to Fund for Completing State Road

The committee working on the "big money" proposition for the state road from Rock Creek to Sturgeon Lake in having trouble of its own though everything is coming along satisfactorily and the prospects are that they will have the "incident" closed soon if town benefiting most from the road put in their share to the comparatively small fund it is necessary to raise in the county.

Sturgeon Lake village and town have each contributed \$400, Willow River village has appropriated \$500 and Kettle River town is reported willing to do the same. Other townships along the route are being asked to help out a little.

At that, only about \$25,000 of the \$160,000 necessary for the work will be raised in Pine county.

Cronin and Cunningham Speak Hon. Neil M. Cronin, of Minneapolis, democratic candidate for congress from this district and Geo. H. Cunningham of Sturgeon Lake, candidate for the legislature, were billed to speak at Rock Creek this morning and at the village hall at this place this evening. Mr. Cunningham is a member of the Democratic county executive committee.

Meadow Lawn. A special meeting of the Farmer's Club was held at the town hall Monday evening Oct. 16, when John J. Beever arrived he found the meeting a very special one indeed as his many friends had gathered there to surprise him on his 46th birthday. A very enjoyable evening being spent. A bonafide lunch was served at 11 o'clock and the meeting adjourned to be called again some time in the future when John gets over his surprise. John received the prize Saturday at the

fair on his Carmen potatoes and W. H. Cutler on his golden glow corn. The boys' corn contest turned out fine with a large number of entries. Fritolph Lindahl winning first Govon Baker second and Earl Cutler third. It was all good. The girls seem to have lost interest as there were but three entries, Miss Grace Cutler winning both firsts in bread and cake with Katherine Brevar a close second with both bread and cake, Harriet Gaukel carried away third on cake alone. There was a bountiful display of vegetables of all kinds with Baker and Beever leading with their dishes of ripe strawberries. Mrs. Beever having a quart jar of strawberries canned in cold water, proved they can be so put in cold water and kept, as her's were canned July 23, 1916. Everybody brought of their best and it sure was a grand display of canned goods.

Bids Wanted on Coal For County Bids will be received by the board of county commissioners of Pine county for the furnishing of coal for use at the Court House and Poor Farm, as follows: For use at the Poor Farm, one carload of not more than 20 tons of Younghougenly coal, same to be well screened and delivered to the Court House as needed.

Bids must be sealed and delivered to County Auditor, not later than noon on Oct. 30, 1916. The Board reserves the right to reject any or all bids.

By order of the Board of County Commissioners. W. H. Hamlin County Auditor. Dated at Pine City, Minn., this 18th day of October, 1916.

Every merchant in this town wants to sell you goods. You want to trade with the merchant who will do the best by you, who will sell you best goods at the least price. It is up to you to read the ads in this paper, and it is up to the merchant to see that your read his ad. When you both do this you get the best.

The inferiority in taste and texture of biscuits, cake, muffins and other food prepared with cheap alum and phosphate baking powders is frequently noticed.

Why not, then, insure the quality and wholesomeness of these everyday flour foods by the use of a high-grade Cream of Tartar baking powder?

Royal Baking Powder is made from Cream of Tartar derived from grapes. It is absolutely pure and has proved its excellence for making food of the finest quality and wholesomeness for generations.

Royal Baking Powder does not contain alum nor phosphate and leaves no bitter taste in the food.

Good Booster at Askov

Moskbaek Shows 'Em How to Get Rich From Growing Rutabagas

The Poker understands that Ludwig Moskbaek, the Askov, Pine county, thinker and worker, will ship 100 cars of rutabagas from that point this fall, bringing in upwards of \$50,000 for that crop alone to the Danish colony which went in among the stumps at old Partridge, six miles north of Sandstone, eight years ago, is today one of the best built, most progressive communities in the county.

Last spring Mr. Moskbaek got a number of his fellow farmers to plant a liberal acreage of rutabagas, later he had Eltor Petersen of the Askov newspaper print a liberal supply of circulars advertising the Askov product and these were sent over the entire country. Today Mr. Moskbaek is getting orders from everywhere—and getting prices above the market. Askov bagas are in demand.

Writing for the Askov American, Mr. Moskbaek says, "that is where a built up, good reputation carries some. If a community has established a good reputation, that community can command a fairly good price and dispose of all its output in a year of over production. I had an example of that last week in another form. A party to whom I had sold two cars wrote me that he could buy bagas from another source at \$2 less a ton, asking me to meet competition. I refused and he wired, 'send me another car as quoted.' And he wrote me the same day, 'I know the quality of your rutabagas and am afraid I would get a lemon in the other offer.'"

In another paragraph he adds, "It may sound to you like a fair sale when I mention the fact that Mr. Mogenssen of Askov has sold rutabagas from 11 acres this fall for more than \$300. I challenge any booster of the rich prairie states to show a net return from any farm crop to beat that. And if one man can do it we can all do it if we try hard enough."

Northeast Pine Wants Good Roads At a well attended meeting in the town hall at Askov, last Thursday evening the "Northeastern Pine County Good Roads Assn." was organized with the election of L. C. Petersen, the Askov banker, as president and Jas. H. Hogan of Kerriek secretary. There were good sized delegations present from Bruno, Kerriek, Nickerson and long the Soo line, in all probably 30 before attendance.

The association is formed to stir up interest in the condition of roads north and east of Sandstone where considerable opportunity exists for improvement—particularly on east and west roads—and to awaken interest in Pine county toward getting Carlton county to open up a road north from where the Ellwell road, now being built from Sandstone to Nickerson, reaches the Carlton county line.

PINE CITY THE TAILOR
Where you get quality and fit at the lowest possible prices.

Taking a Run in the Country

It is plain to be seen that many of the farmers hereabouts could use some lumber to good advantage. Some need a new barn—others a corn crib or granary—while many other buildings can stand some needed repairs.

How is it with you, Mr. Reader—anything lacking about your place? If so, better let us fit you out with what Lumber you need—AT ONCE. We have lots of good common lumber that is just the thing for building sheds, barns or granaries, and if you can use some, here is your chance to get it at right prices.

Of course, we have the better grades of Lumber, too, if you want any, as well as everything else in Building Material.

PARRISH-BOO LUMBER CO.
Pine City, Minn.

Build It of WHITE PINE

Whether you're going to build a home, barn, garage, or henhouse, White Pine will give you longest service and greatest satisfaction.

No wood equals White Pine for all exposed surfaces. Three centuries of building experience in America prove this. It does not warp, sag, twist or split after years of exposure even in closest mortises and in delicate mouldings.

Its popularity has never waned since the Pilgrims used it, but many people who know the desirable qualities of

WHITE PINE

believe it is difficult to obtain. Such is not the case, as the ample stocks in our yards bear witness. And its longer service makes it most economical, even at a slightly higher first cost.

Get our prices on this kind of all structural woods and—if you don't already know its advantages—let us tell you more about them.

It costs no more to buy your Lumber at home—often less—freight considered, and you can see what you get before you pay for it. Then, too, we're "on the ground" to serve you—always as near as your phone.

The Lady and the Dishrag
When a woman declares that she feels like a dish rag, she is dragging herself down to the lowest level of civilization. We doubt not from the personal experience of that poor victim of domestic drudgery that if she could not possibly sell more or fast than she, her husband should never after be allowed to compare with so degraded an object for the simple reason that man-kind appears the dish rag, when he is left to his own devices. When a man takes up his duties in the kitchen it has needed the big coil of abandonment, the sinews perhaps of a heavy life. A dish rag might have been a great help, even in the prime days, adorned by a silken garter and surrounded by costly lingerie. But it is not of its kind that a man is. It is of its present social standing its vulgar environment and its other self abandonment. The iron that you may see fatigued to a limp and lumpy degree, but never can you feel so utterly wrecked and beyond redemption as a dish rag.—Zin in Outdoors Magazine.

Furnishing the Home
When you plan to furnish your new home and have just so much money to spend begin by taking the three, one of the things you want and the other of things you have to have. Cross off from and add to the other and you will get the best results from your money.

Plans for furnishing a home should begin with the kitchen. A housewife spends a good share of her time in the kitchen, and she owes it to herself to make it as attractive and easy to work in as possible.

Too many young housekeepers plan their furnishings and homes with a view to what their friends will say about them and not enough attention to the real needs.

Too many of us start furnishing our homes where our friends will see them first—at the front door—and when we get to the kitchen there is nothing left.—St. Louis Post-Dispatch.

Sharp and Pointed.
"A good advertisement," said an advertising man, "should be as sharp and pointed as the Irishman's answer."

"The witty Judge Lord Morris was on the Irish circuit and one evening at dinner he tried to tell a story, but an Irishman kept interrupting him."

"Finally he desisted," Lord Morris seized the interrupter by the sleeve. "Surely," he said, "surely, man, ye want to hear the story of the riot breaker of Bally-Sibreen."

"No, no, me lord," said the interrupter, "but the law I think ye meant yesterday!"—Philadelphia Bulletin.

Eskimo Mourning Customs.
All Eskimos are superstitious about death, and although they hold festivals in memory of departed friends, they will usually carry a dying person to some abandoned hut, there to drag out his remaining days without food, medicine, water or assistance.

After the death of a husband or a wife the survivor cuts the front hair short and fasts for twenty-five days.—Algonquin.

Ostrich Dogs.
Ostrich dogs are used to herd ostriches in South Africa and perform the work with great sagacity. The birds are savers when breeding and will attack any man or animal that interferes with them, but are strangely cowed in the presence of the dog.

Cynical.
"I'm sure there has never been a breath of scandal about her."
"Why, hasn't she any friends?"—Pearson's Weekly.
