

THE PINE CITY POKER

Vol. XX

PINE CITY, MINN., JANUARY 17, 1918.

No. 22

YARN

We are selling Saxony, Zephyr and Germantown yarn much cheaper than you can buy it elsewhere. Come and see.

Raisins

We have some more of those 25 pound boxes of seed raisins at

\$3.00

per box. The last lot went like "hot cakes" and everybody liked them.

Apples

Dandy sorted Southern Apples at

\$2.40

per bushel box. No waste.

THE LEADER

JOHN TATE, Prop. PINE CITY, MINNESOTA

Millers Hot Water Bottles

are made by the moulded one-piece process, are jointless, and reinforced to entirely eliminate leaking seams. The neck of the bottle and thimble are practically one-piece and make an absolutely non-leakable long wearing, satisfactory bottle in every respect. The red and chocolate rubber, from

\$1.00 to \$3.25

"You Know The Place" BRECKENRIDGE'S PHY.

Farmers Attention

Hides, Furs and Junk wanted at top prices

George Dorr Elected President Thirty years ago this coming April the present annual convention of the Farmers Co. was organized in the Goebel school house at Rush Point, town of Nessel, with a small membership and a limited territory. From that modest beginning the company has grown to a membership of 2500 and now writes insurance in the counties of Chicago, Pine, Isanti and Kanabec. The amount of risk now carried is nearly \$6,000,000.00.

Painting Paper Hanging Interior Decorating PINE CITY

Pine County War Board

Will Pass on and Handle All Matters Relative to War, Public Safety, Etc.

A meeting was held at Hinckley, Monday afternoon for the purpose of bringing together all the war organizations in the county, such as the Red Cross, Liberty Loan, Y. M. C. A., Knights of Columbus and the County Public Safety Association under one permanent war finance committee, to be commissioned by the State Public Safety Commission. This committee will have charge of all "drives," for the sale of liberty bonds, Red Cross, Y. M. C. A., Knights of Columbus and other war subscriptions that may be passed upon by said war board.

The individual members of this committee will be responsible for all "drives" for finance in the district assigned to them, with full authority to appoint local committees to assist them and be responsible to the county war committee for the work in their districts. They will also act as directors of the Public Safety work in their districts.

The following county chairmen were selected to have charge of the different lines of work:

- Geo. W. Empey, of Hinckley, Chairman of Liberty Loan
J. Adam Bede, of Pine City, Chairman of Y. M. C. A.
Dr. E. L. Stephan, of Hinckley, Chairman of Red Cross
F. R. Duxbury, of Pine City, Director and County Chairman, Pine County Public Safety Association.
Mr. Duxbury was empowered to appoint local precinct chairman and named the following:
Sturgeon Lake.....
Willow River.....C. M. Erickson
Finlayson.....H. C. Shafer
Hinckley.....C. F. Krueger
Beroun.....C. P. Peterson
Pine City.....Nick Perkins
Rock Creek.....J. M. Marrow
Brook Park.....M. G. Scofield
Sandstone.....
Akor.....L. G. Pederson
Bruno.....A. H. Lindgren
Kerriek.....J. H. Hogan
Beiden.....Tom Hogan
Cloverton.....
Markville.....
It was also the unanimous vote of the meeting that this committee be financed by making an estimate of the total expense to be incurred and to brotate it to the various Towns and Villages in the county on the basis of their taxable valuation and request that it be voted at the annual spring election. This way the burden will fall equal upon all, and amount to very little to anyone.
It was later suggested that the appropriation be made by the County Commissioners, which would amount to the same to all concerned. One or the other of these plans will be used.

George Dorr Elected President Thirty years ago this coming April the present annual convention of the Farmers Co. was organized in the Goebel school house at Rush Point, town of Nessel, with a small membership and a limited territory. From that modest beginning the company has grown to a membership of 2500 and now writes insurance in the counties of Chicago, Pine, Isanti and Kanabec. The amount of risk now carried is nearly \$6,000,000.00.

At the annual meeting of the company held in Itaska on Tuesday there was an attendance of about 150, and keen interest was shown in the affairs of the company. The following officers were elected: President—Geo. Dorr, Vice Pres.—B. T. Swensen, Secretary—Hans Kollif, Treasurer—Henry Doney. Herebefore there have been but

three directors but on motion it was decided to elect one from each county in which the company does business and the following were chosen: Pine, J. E. Swanson; Chicago, Fred Starmer; Isanti, Louis Loren; Kanabec, Oscar Serling. As the company was organized for 30 years it is now necessary to re-incorporate and the board was authorized to select a committee of five to revise the constitution and by-laws. To ratify the work of the committee a meeting of the stockholders was called to be held at Braham on March 16th, 1918, 10 a. m.

It was decided to insure automobiles the same as other farm machinery, insurance to be good on or off premises.

The right was given stockholders to place stove in milk houses that adjoin the barn, provided the chimney was built with spark arrester.

Henry Dose was elected to represent the company at the state meeting of insurance companies, and he left for St. Paul that evening. Those in attendance at the meeting were welcomed to Braham by Mr. J. A. M. nson of the Business Men's Association at the forenoon session. At the close of a dispute over disposal of produce grown on Algure's farm near Rock Creek, which was rented on shares by Calvin, was tried and taken under advisement by the court.

FLYING DUST.

It Changes the Face of the Land and the Courses of Rivers.

A correspondent of the Geographical Journal describes the remarkable alterations in the surface of the earth produced by flying dust. The power of the wind to transport even moderately coarse rock, he writes, is almost incredible. Many of the broad valleys between the eastern and the western slopes of the great Cordillera are filled with such deposits to a depth of hundreds of feet.

"The wind has nothing to do but to blow and the sand nothing to do but fly," is the way an old prospector put it. In some places the formation of a dune many acres in extent and several feet high is a work done in a period of time that is measured by days rather than by months. In many comparatively small areas blinding dust storms blow nearly half the time.

The old southern mail stagecoach line had a station in Arizona that was almost uninhabitable on account of the flying dust. The men employed there rarely remained any considerable length of time; occasionally all of them would leave in a body. In northern Mexico flying dust and dust deposits are an even greater scourge, and the boundaries of the belts of scoured out and built up land are less definite than in the dry region of the United States. At times the finer dust is blown across lowlands of the coast far out to the gulf.

Many of the smaller streams of the west and the southwest are heavily overladen with sediment that is, or was, wind blown dust. Years ago a driver thus described the Platte: "You won't know what the grain's cross is, for it's a mile wide and an inch deep, and the bottom's on top." The larger rivers, such as the Mississippi, the Missouri and the Arkansas, are overloaded, but to a less degree. As they cannot carry the sediment delivered to them, they drop it and flow around it.

In past years the lower Mississippi unquestionably flowed in every part of its wide flood plain, turning Arkansas into Mississippi and Mississippi into Arkansas. At times the flood plain level and then abandoning them to make a new channel at a lower level.

Famine Endurance.

An eminent English statistician has calculated that of two children, a boy and a girl, born on the same day the boy will have only seventeen chances against eleven of living one year, while the girl will have twenty-one chances against eleven. From five to fifteen there appears to be but little difference, but from fifteen to nineteen the boy will have 269 chances and the girl 277 chances of living against one of death. If a thousand childlike men and a thousand childlike women be armed and equipped for battle and ordered on a long, weary march morning, says this authority, would probably reach their destination, while more women would be found exhausted, but more men would be found dead by the wayside.

Court Holds Short Sessin

Judge Seales Presides, Finally Adjourning Term to Feb. 19

Court was in session Tuesday afternoon and yesterday, with Judge Seales presiding. Adjourning was taken to Tuesday noon, Feb. 19.

The case of John Anderson against M. S. Price, growing out of damages for claimed illegal flowing of the farmers lands in the Brook Park section was continued to the general term in April. Mr. Anderson was present with his witnesses and the court allowed him \$24.85 judgement for expenses incident to their appearance.

The case of John Algure against J. W. Calvin growing out of a dispute over disposal of produce grown on Algure's farm near Rock Creek, which was rented on shares by Calvin, was tried and taken under advisement by the court.

State Road Fund Allowed

At an adjourned meeting held at the state capitol on Wednesday of last week, State Highway Commissioner Babcock, Auditor Peters and Treasurer Rines cut the rich \$2,200,000 state road and bridge fund, allowing parts of it to the several counties of the state.

Pine county gets \$24,000, Chicago \$25,000, Kanabec \$22,200, and Isanti \$22,200. The minimum amount that any county could receive was \$22,200. Some counties which had constructed extensive Elwell roads received additional aid on this score but Pine county was not one of them.

In connection with this it is interesting to know that Highway Commissioner Babcock estimates that about \$7,750,000 will be spent in the state this year for highways if transportation conditions do not interfere with the work. The following table shows whence this money will be derived:

Table with 2 columns: Source, Amount. Includes County road and bridge levies, State aid for 1918, Federal aid for 1918, Federal aid for 1919, Federal aid, Total.

At the annual meeting of the Farmers Scale Co. held in the village hall last Saturday afternoon, the attendance was about 16 and the following were elected for the coming year: Wm. Engler for president, Peter Oksanen vice president, Walter Peterson secretary, Theodore Bartz treasurer and Ed Kruse, George Kiek and Aug. Sward directors. The price of one weight—without any 'b' weight' or tare—was raised from 6c to 10c, making the charge 10 cents hereafter, whether there is an empty vehicle to weigh back or not. The farmers discussed the prospects of doing away with scales on the streets to some extent and that this is to be done when the weather moderates in the spring. The report of Secretary Walter Peterson showed that, up to Jan. 1, the company had received \$945.60, of which \$685 was from the sale of 187 shares of stock and \$260.90 represents the earnings of the scale during the three months it had been in operation. The total expenditures amounted to \$929.29, of which \$229.20 was

the cost of the scale laid down, \$372.25 for the installation, \$150 for salaries and the balance for miscellaneous furniture for the scale house and other expenses. Treasury showed a balance of \$117.61 in cash on hand.

St. Croix River Water Power

Undeveloped waterpower on the St. Croix river and tributaries is capable of development to furnish 10,000 horsepower and save large quantities of fuel, says Ed L. Peet of the Kohler Peet Company, and a former member of the Wisconsin Canal Commission. In a statement yesterday Mr. Peet urged this development.

The coal shortage, said Mr. Peet, has become so critical that the Council of National Defense has instructed its power committee to investigate all possibilities of making waterpower electricity replacing power now generated by coal, especially in Wisconsin and Minnesota.

Had the war department approved the building of the Lake Superior and Mississippi river canal, its instructions would have added more than enough power to the twin ports and the twin cities to electrically operate four railroads in the St. Croix valley. The scheme provided for a dam across the Mississippi at Prescott just below the mouth of the St. Croix, another just below St. Croix and a series on the St. Croix river. With these completed there would be a chain of ponds the length of the river and locks would lead the boats from one pond to another with the exception of two short distances where the river would be canalized.

From the summit in Lake-St. Croix to the mouth of the St. Croix river there is a fall of 344 feet. There are but two dams across the river now. The one at St. Croix Falls is generally electricity and the other, known as Nevers dam, has brought no income since long driving ceased.

The highest estimates give 50,000 horsepower on the main river and half as much more on the tributaries. The local board of army engineers made a report antagonistic to the canal. It admitted that there was 21,000 horsepower on the main river but declared that it was worth only \$2.53 per horsepower to the United States. The Citizens Canal Association of Stillwater claimed 60,000 horsepower worth \$4,000,000 per year.—Pioneer Press, Jan. 7.

Election Record.

Three times in the history of the United States have the incumbent president and vice president together been re-elected. The first instance was that of George Washington and John Adams, the second that of James Monroe and Daniel Tompkins and the third that of Woodrow Wilson and Thomas R. Marshall.

Immortality.

When I consider the wonderful activity of the mind, so great a memory of what is past and such a capacity of penetrating into the future, when I behold such a number of arts and sciences and such a multitude of discoveries these arising, I believe and am firmly persuaded that a nature which contains so many things within itself cannot be mortal.—Cicero.

What Words Can Do.

Our language is a flexible affair. One may take the same assortment of words and by arranging them in two sentences express entirely different things. For example, one might say, "I made a million dollars honestly" or with the same words reorganized he could say, "Honestly, I made a million dollars."

The Advantage of Waiting.

Her Father—But, my boy, surely you are too young to marry. A other day are you? Her Suitor—One and twenty, sir. Her Father—And she is twenty-seven—too great a disparity. Why not wait half a dozen years? Then you'll be twenty-seven and she'll probably be just about the same age as you.

Seemed Reasonable.

"This work I am offering you is 'The Life of Our Great General,'" said the agent. "I know if you look at it you will take it." "You're wrong, young man," said the subscriber. "I don't want to take anybody's life." —Yankers Statesman.

Farm Bureau Organizes

Large Enthusiastic Meeting at Hinckley Perfects Organization and Elects Officers

The Pine County Farm Bureau was organized at a well attended and enthusiastic meeting in Patrick's hall at Hinckley, Monday afternoon, when every section of the county was represented.

The following officers were elected: L. Mosbak president, F. H. Hall vice pres, J. Holiday 2nd vice pres, R. G. Jones sec-treas.

Pine City Red Cross Notes

The local branch contemplates making a shipment to headquarters the last of this week and all knitters who can possibly finish their work before this are urged to turn it in.

Mrs. John Jelinek donated two Khaki colored sweaters this week.

Attendance at work meetings has been good but it should be much larger. You can help.

Our membership list continues to grow. Is your name on the list?

HURLEY LONG & HULLAY AT BIRNIE'S at 14th street in St. Paul and General Wholesale, Pine City, Minn.

Vengeance and the Woman

Two pals at the Village Western straggled in Hollywood, are the bear of very wonderful white coat (reel) requested to Card Holloway. The dog just arrived and was cordially welcomed by the bear, which, for several weeks, has been working in the new serial, "Vengeance and the Woman." As the dog also act in a prominent part in the serial, Director Duncan is glad the two get along so well together. "Vengeance and the Woman," the new serial, starts at the Family theatre Tuesday, Feb. 5th, at the end of "The Fighting Trail."

Red Cross Notes

The following new members have been added since Jan 1st: H. L. Austin, T. W. Bazil, Jim Hejny, Dewey Kilmer, Patrick Healy, Henry Eng, J. Adam Bede, J. Tallon, Wm. Bottin, Al Kaebly, Frank Johnson, Victoria Wiedemann, George Wiseman, Grace Wiseman, Ernest Hinze, Helen Hinze, John J. Hudak, Frederick Christie, Erick Hinze, W. F. Frank, Kerby Hadley, Lamme Stuck, Joseph Hallett, A. W. Gross, Ansley Robinson and Mrs. Phil Macdonnell.

Team for Sale

Well matched black team, age nine and ten, weight 3100 pounds, complete with harness, wagon, and sled. Price low and easy terms to responsible parties. Reason for selling—having been released by motor truck.—Eastern Minnesota Power Company.

Hand to Play.

Mildred, who had a small friend to spend the afternoon with her brother interfered sadly with their plans.

John showed a tireless persistence in joining the games. Persistence with little encouragement, he asked at last somewhat wistfully: "Milly, can't I play something?" "Yes, John," she replied firmly. "Go into the back room and play you're dead for half an hour."

An Irish Fishing Story.

There is a good fishing story in an Irish contemporary. Two enthusiastic anglers arranged a fishing match to decide the respective merits of the worm and the minnow as bait. For hours they sat patiently on a bank without getting so much as a nibble. At last the proprietor of the worm suddenly said that he had got a bite and, pricking the end of the water, discovered at the end of it the other man's minnow, which, having by this time grown hungry, had devoured his worm.

It Happened in Pine City

And it happens to Pine City people every week.

The case told below is not an uncommon thing. The same occurs frequently and will continue to happen as long as folks have kidneys and overtax the kidneys.

Fred A. Sparring, "Pine City," says: "Last June I had an attack of kidney trouble. The way my kidneys acted annoyed me and the secretions passed much too often. My back ached a great deal, especially after lunch being bent over for any length of time I didn't feel like myself at all. A tired, drowsy feeling would come over me and last for a long time. Don't's Kidney Pills soon gave me fine results and it wasn't long before they cured me. I haven't had any kidney complaint since."

News of the State

Condensed for Busy Folks

Last year, during the first four days in January, the Bemidji post office did over \$400 worth of business...

Five thousand and eighty children were born in St. Paul in 1917, according to the report of births compiled in the Health department...

F. H. Shomaker, who represented the National Nonpartisan League at a meeting held at Walters, pleaded guilty to charges of using indecent and abusive language...

Two Indian boys from the Flannery School were captured at Pipestone while running away from the institution. The boys were bound for their home in the northern part of the state and said that they wanted to go hunting.

K. F. Stava, a 71-year-old bachelor near Willmar, was found dead in a 20-foot well on his farm by boys coming from a party a ladder with a rope hung in the cellar...

There is no law existing which permits soldiers absent from the state to vote at Minnesota elections, according to a statement of Attorney General Schuchman...

A farm crop survey of Minnesota can be made by town assessors during their canvasses next spring, preliminaries in that direction having been discussed at a special conference at the Capitol.

The idea is to obtain first hand knowledge of the crops and soil conditions, although no complaints have been received.

The idea is to obtain first hand knowledge of the crops and soil conditions, although no complaints have been received.

KAISER CALLS CROWN COUNCIL

Leaders Summoned to Berlin For Discussion of Relations With Russia.

Peace Parley May End If German Militarists Continue to Impose Their Policy on Negotiations.

London, Jan. 15.—The final rupture of negotiations at Petrograd, which has been expected at any moment, if, as seems probable, the German militarists continue to impose their policy on the negotiators.

The foregoing was sent by the Daily News correspondent at Petrograd.

London, Jan. 15.—A meeting of the crown council at Berlin is reported by the Lokal Anzeiger, composed of Field Marshal von Hindenburg, General von Ludendorff, the crown prince and other German leaders.

The peace negotiations between the Bolsheviks and the representatives of the Russian government, which have been continuing, but without results.

VIEW OF THE LARGEST SAWMILL IN THE WORLD

The lumber industry of the South is going at top speed to furnish the government with the timber it needs for ship building and other purposes.

SUICIDE SOLVES CRIME GERMANY MUST ACCEPT U.S. AIMS

Army Captain Was Slayer and Bank Robber.

Ends Own Life at Camp Funston When Discovery is Inevitable.

Camp Funston, Jan. 15.—The last story of the looting of the army bank here and the murder of one man and serious wounding of a fifth, with the hiding of the body of Capt. Lewis H. Whaler, of Salina, Kan., in his tin office in the National army cantonment here.

The murders were committed with a hand ax. Captain Whaler killed himself, firing two shots from a regulation army service rifle into his head.

The suicide followed a general order instructing all captains at the cantonment to report and have their crests printed taken.

A role was left by the officer, addressed to a woman whose name the authorities so far have declined to divulge.

The note read: "I have been thinking of committing suicide for a long time, but I have never had a good reason. Yesterday I went out and made myself a reason."

Frank W. Smith, head of the intelligence department, said it had been discovered that one bundle containing \$47,000 was taken by Capt. Whaler.

U. S. Optimism is an Asset. Speaking of optimism as an asset, he said it has been "our source of wealth in every task that nation ever undertook."

The president was challenged by Mr. Lansing, who said the country was not in a position to accept the terms of the peace proposals.

Mr. Lansing's speech was regarded by his hearers as a reply to comments in German papers upon President Wilson's address to Congress.

He declared the aims of the country must be achieved and will be. "I bring you a message of good cheer from the national capital," he said.

MAY WAGE TRADE WAR IN TEUTONS

Americans Plan Threat of Boycott After War Unless Kaiser Quits.

Warning Now is Urged Present German Government Held Not Responsible to People of Chamber of Commerce in Behind Movement.

Washington, Jan. 15.—The Chamber of Commerce of the United States has taken American business in a referendum submitted to them, to pass upon a proposed warning to German industrial leaders that unless they resume friendly commercial relations with the United States after the war, unless the German government has become a responsible instrument for the people.

It is proposed that the Germans be told that the United States, in common with other nations, supplied raw materials which Germany made ready to start the world war, and that the lesson has been learned.

"If the proposed ultimatum carries," says a statement from the chamber's headquarters, "the industrial leaders of Germany who with the military party constitute the most powerful caste in Germany, will be bluntly told that Germany must choose a responsible government to conclude a just peace or suffer the consequences of a world war after the war."

She will be denied economic intercourse with her best customer—the United States. The message could be all of its purpose to come to re-establish satisfactory trade relations with Great Britain, Italy or France.

Conservation Planned to Include Public Eating Houses. Private Households to Come Under Anti-Wasting Regulations.

Washington, Jan. 14.—To create a larger export surplus of food for the Allies enforced food conservation in restaurants and extension of anti-wasting regulations to make them apply to the household, are included in the plans of the food administration.

This was revealed in a statement by Food Administrator Hoover, setting forth that the Allies are in need of an additional 75,000,000 to 90,000,000 bushels of wheat and that they have asked America to double meat exports.

Private Households to Come Under Anti-Wasting Regulations. This was revealed in a statement by Food Administrator Hoover, setting forth that the Allies are in need of an additional 75,000,000 to 90,000,000 bushels of wheat and that they have asked America to double meat exports.

OPTIMISM IS AN ASSET

America in War Until That End is Attained, Says Lansing In Speech.

Assertion That America is in War As Republic To Very End Brings Cheers to Feet.

New York, Jan. 15.—Declaring that until the war aims outlined by President Wilson are accepted by the Prussian government, Secretary of State Robert Lansing, spoke here at the annual banquet of the New York state bar association.

"We are in this war as a republic to the very end," he declared emphatically. "I brought the dinner to their feet cheering."

Mr. Lansing's speech was regarded by his hearers as a reply to comments in German papers upon President Wilson's address to Congress.

He declared the aims of the country must be achieved and will be. "I bring you a message of good cheer from the national capital," he said.

U. S. Optimism is an Asset. Speaking of optimism as an asset, he said it has been "our source of wealth in every task that nation ever undertook."

The president was challenged by Mr. Lansing, who said the country was not in a position to accept the terms of the peace proposals.

And Now For the Biggest and Best Year You Ever Had

Yes, it's a war year, and, if you please, it's war prosperity. No one is willing to profit from another's misfortune, but the world is looking to America for bread and meat.

THE WORLD MUST BE SUPPLIED, and no one expects you to do your part for nothing.

Nor can you do your part **FULLY** without the best equipment and enough of it.

It's going to be a big year, and an early start is necessary to a successful finish.

PARISH-BOO SERVICE is ready for your use.

Planning, figuring, information, ideas—anything that pertains to repairs, improvements or new buildings of any kind is our special business.

Material may not be plentiful this year. We have some stock now ready. Early buying and hauling is good business.

THURSDAY, JAN. 17, 1918

Speaking of the use of corn, rye or other dark flour, we very often hear folks say, "It's just as cheap to use white flour." Maybe it is—that isn't the idea at all. It is not a question of saving money, it's a question of saving material. There is a shortage of white flour in the nation and, if we are to have any white bread six months from now, we must mix some corn bread and rye breads into our diet now.

The government requests people to limit themselves to a consumption of three pounds of sugar per month. That's a joke, and the government ought to know it. Do they expect fond, indulgent mothers to limit each of their darlings to three pounds of sugar per month? Not on your life, while there's ten pounds to be had for the same period! The only way to limit the use of these things is for the government to ration them out—and that would be best for all of us.

Minnesota will get \$5,000 from the national government, this year, to distribute among 25 high schools having agricultural courses. We haven't a skin of a nation who will get the money but we'll bet it will go where it is least needed—where school taxes are the lowest—just as our state aid has been doing. The idea of state aid to schools is excellent, but the present method of distribution ought to be entirely rearranged so as to aid those who most need aid instead of using it as a sop to those who want do a thing for themselves.

Loyal residents of the 3rd and 5th congressional districts are determined that Congressman Davis and Lundeen, who have opposed the prosecution of the war at most every step, shall not be reelected but plans are not yet complete to oust either of them. In the 5th (Minneapolis) district, there are a dozen loyalist candidates in the field against Lundeen, which will bring about his easy renomination and probable reelection if they all stay in. State Auditor Preus is suggested as a compromise loyal candidate and it strikes us that the other men ought to get out of the way and let him make the fight for we are positive that he can lick Lundeen to a stand-still and we know that he would be an able, up-and-doing, behind-the-government congressman in the 3rd district. Senators George H. Sullivan of Stillwater and A. J. Rockne of Zumbrota are mentioned and we know that either of them would have weight in congress from the day they entered that body, but we are just as well satisfied that neither of them want the job and that the only way either of them can be gotten into the race is for the people to draft them. The fact is that a congressional seat is not a particularly alluring post for most men. It means a fight for renomination and reelection every two years with the almost positive assurance that the official will be turned out just about the time that he gets keyed up to the life and income of his place. But if the 3rd district can get either Rockne or Sullivan into their fight, we believe he can be elected and we know either of them would put the district on the map throughout the nation.

Presbyterian Church Notes
The subject of the sermon on next Sunday morning, 11 a. m., will be "Keeping the Home Fire Burning." In the evening we will begin a series of talks on the general theme "Guidedposts on the Way of Life", making use of Bible characters, of which "Cain and Abel" will be the first pair. All are most cordially invited to attend these services. Young people are earnestly urged to follow the entire series.

Two persons were welcomed into the fellowship of the church on last Sunday morning. It is hoped that this is but the beginning, and that a considerable number more will actively identify themselves with the church and its work in the near future.

The Sunday school, which meets at 9:45 a. m., needs your efforts at boosting the attendance and general

interest. How about joining an Adult Bible class father or mother? Hand your name to the pastor at once and you will not regret it.

C. E. meets at 6:45 a. m. All young people invited.

Methodist Church Notes
The patriotic service last Sunday evening was attended by a large and interested audience. The religious and the patriotic notes were each sounded in every address made. Eight stars were placed on the service flag for the representatives of the church and Sunday school in the national service. The following names are now on the Honor Roll: Raymond Gottry, Clarence Gottry, Dick Gray, Leigh Ardner, Phil Hamlin, Clark Pennington, Arnold Lee and Emory Blanchard.

Sunday school will be held at the usual hour—9:45—next Sunday. The pastor will preach at both services of worship. In the evening the sermon will be on "The Grace of God"—the second in the series on "What Protestants Think." Epworth League meets at 7 o'clock on the first chapter in the new mission study book, "Sons of Italy", will be studied.

Bible class will meet Tuesday evening at 7:30 in Miss Goodwin's rooms.

Prayer meeting will be held Thursday evening at 8 o'clock.

German Lutheran Church Notes
There will be services in the church at 10 a. m., Sunday, with sermon in German and Gemeinde-Versammlung immediately following the service.

There will be services in the Pokesama school house at 2 o'clock 2 p. m., with sermon in both German and English.

Episcopal Church Notes
Divine service held in the K. of P. hall on the 1st Sunday of the month at 11 a. m.—T. J. E. Wilson, Hinsckley.

Pine City School News
Contributed by Helen Chase
Last Friday night, Jan. 11th, the Pine City Basketball team played the Rush City team in the Armory here. The game was extremely exciting as our team worked hard and succeeded in keeping the score of the visiting team a knotch or two lower than ours. At the end of the first half the score stood 22 to 8 in favor of Pine City and the game ended with the score 27 to 24, and Pine City triumphant. The Rush City delegation, forgetting their defeat, entered the games and fun, following the ball game, with enthusiasm.

The stringed orchestra, under the instruction of Miss Mary Keel, met for the first time Monday evening, at the W. P. Gottry home. The ten members present received books and began work. Meetings will be held each Monday evening but the permanent place of meeting has not been determined.

Examination in the half year subject—civics, commercial arithmetic, soils, physiology, higher algebra, and business english—will be given Thursday and Friday of this week.

The Literary Digest is offered to school children at special rates—5c a copy. Teachers are urging pupils to subscribe and use the magazine as a text.

Another Basketball game, here! Place, Armory, Pine City vs. North Branch! Date, Friday evening Jan. 18. Everybody come!

Faith Pennington returned to school Tuesday morning after having been absent more than a week, suffering with the pink-eye.

The Hanfelt girls have returned to school after a long absence during which they cared for their sick father.

Lovina Gill left school last week and went to her home at Rock Creek.

Farms for Sale
\$6300 buys 120 acres, 3 miles from village, 1 1/2 miles from school, 14 from store and cheese factory, lava well, rich gravelly loam soil, 10 acres valuable timber. Pine 11 room house, water in house. 8000 buys 40 by 62 and 24 by 30, concrete floors, hip roof, galvanized siding. Pigery 12 by 10, large barn, outbuildings practically new, plentifully watered. Abundance of fruit. DE LAVAL
CREAM SEPARATOR

The NEW De Laval has made a big hit with cow owners
from Maine to Mexico.
The reason is not far to seek. It is the gilt-edge service the
NEW De Laval is giving—service never before equalled. Every
user of a NEW De Laval is an enthusiastic booster. Satisfied
users from coast to coast are telling their friends of this splendid
new separator.

The NEW De Laval has four big
advantages over any other separator:
It skims closer.
It has greater capacity.
It's the simplest cream separator ever
made.
It is equipped with a Bell Speed-Indicator,
which insures proper speed and thus
prevents cream losses.

We'll sell you a NEW De Laval on such
easy terms that it will pay for itself
out of its own savings. We want to
see you the next time you're in town.

day, to return to her home at
Minot, N. D., after visiting at the
Chas. Stephens here since the holi-
days, at which time Walter was at
home for a few days.

Improved farm, 162 a., fair
building, Lots 3 and 4, Section 1,
and e 1-4 n e 1-4, Sec. 11, all 40-
18, Pine county, known as Proctor
farm; \$25 per a., on very easy
terms; write L. M. Mann, owner,
Des Moines, Iowa.

The dance given in the Armory
last Saturday evening for the pur-
pose of raising money to replace
the damaged heating plant, was
badly frosted by the extreme cold
and only a small crowd showed up,
which prompted closing up early
in the evening.

A basket social and entertain-
ment for the benefit of the Red
Cross will be given in the school
house in Dist. 99, the Shuey dis-
trict, east of town, under the di-
rection of Miss Blanche Stevens,
the teacher, on Friday evening of
next week, Jan. 25. All are invit-
ed.

The duty of a husband to his
wife when scandalous rumors, ap-
parently founded on facts, are cir-
culated concerning her is the Sat-
urday offering at your theatre—
"The Family Theatre" Sunday
matinee at 2 o'clock and evening
This is a play that will drive home
a big idea.

The W. C. T. U. will meet at
Mrs. Pennington's, next Thursday,
Jan. 24, at 2:30 sharp. The meet-
ing is called for Thursday instead
of Tuesday because the former is
national prayer day for national
prohibition. The program will be
in charge of Miss Goodwin who
will talk on the Y. M. C. A. work
in the war. A full attendance is
urged.

The third number of the High
school entertainment course will
be given in the Family theatre
next Tuesday evening, Jan. 22,
when L. B. Wickersham will lec-
ture. Mr. Wickersham is report-
ing to be an orator and lecturer of
unusual attainments and ticket
holders are looking for an espe-
cially enjoyable evening.

James Wandel Jr., left, Sunday
morning, for Detroit, Minn., where
he will have charge of the telephone
exchange, his place in charge here
being taken by Frank Spitz, who
has been "hired out" under Jim.
Mr. Wandel's family are remaining
here for a short time at the home
of his parents, having given up the
Mrs. Anna Madden house which
they occupied.

If you are interested in the Pine
City personal property tax list you
will find it given in detail, show-
ing the assessed value after the
\$100 exemption has been deducted,
the monies and credits and the tax
to be paid before March 1 on the
last page of this paper. Next
week we shall publish the same
information for Rock Creek, Roy-
alton, Pine town, Pokegama and
Chequamegon.

Mrs. A. W. Asplund and child-
ren arrived Tuesday for a day's
visit at the home of her parents,
leaving yesterday to join Mr.
Asplund at St. Paul, where they
went to Denver, Colo., where they
expect to make their future home
if Mrs. Asplund's health, which
has not improved greatly during
their residence at Minot, N. D.,
is benefited by the mountain cli-
mate. Those of Mrs. Asplund's
friends who saw her were pleased
with even so short a visit.

Bill Saumer visited Stillwater a
few days last week, his place at the
Mrs. Wm. Daloy farm, south of
town, being taken the while by
Iver Madison who is since wearing
a deep cut between his eyes as a
result of going into the barn at an
early hour to retrieve a horse that had
broken loose and crowded into a
stall with two others, one of which
took a nip at Iver's face during the
mixup. G. A. Robinson, of that
neighborhood, had a cow break her
neck in the barn, last Friday night.

Among those from here who at-
tended the organization meeting of
the county agricultural bureau at
Hinckley, Monday afternoon,
were Z. L. Wheeler, F. L. Gardner,
W. M. Swanson, Robert Brown,
Mr. Tuma and Fred Norstrom of

and R. G. Jones from south of
town and N. Perkins, J. D. Boyle,
H. W. Hart, F. R. Duxbury, Asst.
Supt. of Schools Miller, Hon. J.
Adam Bede, Judge Therrien
Postmaster Collins and Editor
Gottry and Folsom.

A. M. Kaebble jr. and Robert
Olson expect to leave, the latter
part of this week, to return to their
farms near Winyard, Sask., Can-
ada, after having enjoyed a few
weeks visit at home—Mr. Olson
also having returned yesterday
from a 10-days side trip to Spring-
field. Speaking of Red Cross sub-
scriptions here, Mr. Kaebble tells
us that at a school-house basket
social given in his home region
there to raise money for the Hall-
fax disaster sufferers, recently,
one basket went for \$50 and the
total amount raised was about \$800.

The Hartes, Duxbury, F. M.
Stuck and Mrs. Carl Hildeberg
went to Rush City to attend East-
ern Star installation, Tuesday
evening. Mrs. Stuck fell back-
wards down a dark stairway at the
back of the Grant House, just prior
to going to the hall, and was bad-
ly bruised and shaken, preventing
both her and Mr. Stuck from at-
tending the installation though
they returned home on the night
train, and she is recovering nicely.
How she escaped without more
serious injury is a wonder as the
stair is a very steep, long one and
she rolled over and over to the bot-
tom and on out into the kitchen.

The basket social and entertain-
ment given in the East Rock lake
or F. M. Stuck school, south of
town, for the benefit of the Red
Cross, last Saturday evening, was
one of the best ever held in this
region in every way and reflects
credit on the locality. The total
receipts were \$70, of which \$67
was net and turned over to the
Pine City Red Cross by Miss risley,
the teacher. Addresses were made
by J. Adam Bede and F. R. Dux-
bury with recitations by some of
the school children, after which
Mr. Duxbury auctioned the baskets.
The young men of that district ran
the prices up fast. Bill Saumer
was apparently quite nervous in
his bidding for he crowded him-
self up from \$2.75 to \$4.00 as fast
as he could call the bids, appar-
ently determined to back opposition
of the board. All the young men
were eager bidders, and did it in a
most gentlemanly way. After eat-
ing, dancing was indulged in. Two
sleigh loads, carrying about 26

and see for yourself.

folks from town, were in attend-
ance.

The dog poisoner has been abroad
in town the past week, apparently
using strychnine, though whether
it was willfully placed to
catch the canines is another matter.
Frank Rybak's Spitz was the first
to bite the dust, last Thursday.
The following day "Black" Han-
son's dog from Pokegama lake died
shortly after arriving in town while

Howard Blankenship's Spitz was
poisoned Saturday, Bryan Tilden's
bird dog on Sunday and Albert
Neubauer's bird dog on Monday.
Most of the dogs were taken sick
shortly after coming down town,
indicating that they picked up the
poison somewhere in the business
district. Possibly it comes from
poisoned rats carelessly thrown out
where the canines get them, for
it is known that several have pur-
chased strychnine for this purpose.

WAR SURGEONS WORK MIRACLES

Incredible Feats Performed Every Day in Treating Soldiers on Battlefield.

NINE-TENTHS PULL THROUGH

Percentage of Losses Among the Wounded Striking Tribes to the Skill of Surgeons—Speed Important Factor.

French Front—Almost incredible feats have been and are being accomplished every day of the war by the surgeons who treat soldiers wounded on the battlefield. These remarkable feats have increased in frequency, as the stricken men are more quickly gathered in by the ambulances and brought to the field hospitals for surgical intervention.

At the beginning of the war it was not always possible to clear up a battlefield of the casualties in less than three or four days, and on many occasions wounded men waited even longer before their injuries could be handled.

The result of this was that large numbers of the wounded succumbed from gangrene or blood poisoning, or were rendered so feeble from loss of blood that they were unable to undergo operations that were vitally necessary. It was at that time regarded as a satisfactory result when 50 percent of the wounded brought into the hospitals recovered eventually from the injuries.

Nine-Tenths Are Saved. This percentage of losses among the wounded line would at present be regarded with horror by the military surgeons, who now reckon with perfect assurance on saving about nine-tenths of the wounded men coming under their treatment. During the battle of Flanders the percentage of recoveries among wounded men brought to the hospitals amounted to 87.

This striking figure was still further improved on the occasion of the evacuation from the Germans the fort of Malmouin and caused them to evacuate the Chateau des Dunes after throwing away hundreds of thousands of the crown prince's best troops in the effort to retain it. The French surgeons' reports after the battle

conclusion of the fighting and the treatment of all the wounded show that 50 men out of every 100 brought to the hospital recovered from their hurt.

Speed Important Factor. Speed in collecting the wounded is the greatest factor in bringing about this percentage.

Americans have had much to do with the speeding up of the ambulance service, but their ambulances have been present at every point where fighting has been severe, and their work has been highly praised by the French surgeons.

One instance of American effort in providing for the accommodation and treatment of the wounded is that under the management of the late Gen. Leonard A. Dyer, who has worked at the hospital since the beginning of the war. When the battle for the town of Malin was in progress the number of wounded was so considerable that the hospital was crowded and a large barge fitted up as a floating hospital.

Miss Park has working with her in conjunction with the French surgeons a number of American hospital attendants, who have been handling the battle of Malin, and she has with her several American attendants and doctors in George de Tarnovsky of Chicago.

DOING MUCH TO RESTORE FRANCE

Americans Are Doing Wonderful Reconstruction in Devastated Section.

LIVE IN RUDE BARRACKS

Miss Anne Morgan and Her Co-Workers Share in Primitive Life While Carrying on Labor Among Destitute People. New York—Miss Margaret Stevenson, co-worker of Miss Anne Morgan in devastated France, has just arrived in this country with the first direct news of the reconstruction work already accomplished by this American Fund for French Wounded unit composed of ten American women. Miss Stevenson is one of the 27 villages they have partly rehabilitated, of the 5,000 acres of land they have had cultivated, the hundreds of refugees families they have clothed, fed and installed in houses they have furnished; the classes they are running for the children who have run wild since the beginning of the German occupation, and of the community center they have established at Merncourt, in the heart of the ravaged region.

Live in Rude Barracks. "We are living in rude wooden barracks built on the ruins of the old Chateau de Merncourt," said Miss Stevenson. "Our barracks are furnished with the scanty unspiced furniture and plain iron beds that

remains of the war. The heads of our unit, Miss Anne Morgan and Miss Anne Drake, share with us in this primitive life. They are up at seven o'clock in the morning, tidy up their suits, help with the dishes and then get about their duties, visiting the homes, finding out their wants and helping in the way of clothing and shelter. Both Miss Morgan and Miss Drake speak French as well as they do English, and they have thus been able to get into the lives of the people. Nothing approaching normal village life is under the care of the committee.

Miss Stevenson says: "The French government has placed this unit in charge of the Alen and Somme districts, both of which were systematically devastated by the Germans. "Our unit is militarized and works directly under the French army. Through the military authorities, Miss Stevenson has obtained valuable aid. Soldiers have been sent from the trenches to help in the reconstruction work. They have helped to dig out the trees that were killed by the Germans and replant them with new ones. Besides spraying against locusts, the unit has weakened wood that would be ruined if they were left to rot. For the construction of cooking outfits for the unit, Miss Stevenson has secured a large sack, the orchardists could properly afford expenditures for the construction of cooking outfits for the unit, Miss Stevenson has secured a large sack, the orchardists could properly afford expenditures for the construction of cooking outfits for the unit.

Wonderful People. They are wonderful too, these old people. Miss Stevenson says: "They return to their destroyed homes worn out with suffering and hardship, but no sooner are they on their beloved soil than they are revitalized, filled with energy, and the desire to restore all that has been destroyed. They build one-room shacks for themselves from the ruins of their once comfortable homes or else their government gives them small demerit houses for them. These we furnish with everything they need to start home life—beds, heating stoves, kitchen utensils, and we supply them with clothing and foodstuffs. Everything that is sent to us from America we give them without cost, but the stoves and kitchen utensils that we buy in Paris we sell for two-thirds the price that they pay here. So, and they pay any way they choose—in work or vegetables. The first thing they do when they reach their homes is to start a garden, and many of them have been able to support themselves this way. Other make their living by selling their produce. These are all very old people, remember, aged men and women of seventy-five and over eighty. They walk from villages miles away to get help from us, and they wheel great loads of supplies on wheelbarrows, or on eight or ten miles over cobble roads.

SPRAY IN WINTER FOR SAN JOSE SCALE

(Prepared by the United States Department of Agriculture.) The San Jose scale, the absence of proper treatment, will quickly bring about the death of many plants of economic importance. Its discovery, therefore, whether in orchards or on prized fruit trees and other plants in the neighborhood, should call for prompt steps to be taken. It has been found that the scale may be present in the buds of trees, and it is important that the scale be kept under control. It has been found that the scale may be present in the buds of trees, and it is important that the scale be kept under control. It has been found that the scale may be present in the buds of trees, and it is important that the scale be kept under control.

Where plants are thoroughly inspected with frequent death of branches and stunting of growth, it will generally be advisable to dig out the trees at once and replace with new ones. Besides spraying against locusts, the unit has weakened wood that would be ruined if they were left to rot. For the construction of cooking outfits for the unit, Miss Stevenson has secured a large sack, the orchardists could properly afford expenditures for the construction of cooking outfits for the unit.

There are several scale washes which may be employed in the control of the insect, and the one should be selected which can be most conveniently used, and which is economical under the circumstances. Thus, for spraying on a large scale, the orchardists could properly afford expenditures for the construction of cooking outfits for the unit.

HOW THIS NERVOUS WOMAN GOT WELL

Told by Herself. Her Sincerity Should Convince Others.

Drinking Among Schoolboys. Some time ago a schoolmaster, who was stationed at the poor work done in the class of the 54 boys in his class, questioned them as to the manner in which Sunday had been spent. He learned that 19 had spent the evening before in some cafe or beer garden, that 20 had taken wine, 24 beer and 10 brandy. They had had both wine and beer, it had had wine, beer and brandy, ten had been very tipsy and eight had been nauseated.

Doctor Boyer of Vienna requested a certain number of school directors to divide their 501 pupils into three categories: good, adequate and inadequate. These, with their aid and those of other school directors, were divided into five classes: (1) Those who obeyed the law; (2) Those who drank beer once a day; (3) Those who drank beer once a week; (4) Those who drank it twice daily; (5) Those who drank it three times. The results were as follows:

Table with 3 columns: Good, Adequate, Inadequate. Rows show percentages for different categories.

When the conclusion that the water is good, adequate and least among the adequate, if not among the good, school.

THE NATIONAL AMENDMENT. "If the proposed amendment should be adopted by three-fourths of the states, the State Senator Shippard, speaking of national prohibition, 'the traffic in intoxicating liquors for beverage purposes would be forbidden anywhere within the American republic. Prohibition would be embodied in the organic law of the nation, and it is not true that the government, the largest social unit we have, should take a hand when the traffic in a poisonous drug is taking place, and that the government should be asked to take a hand when the traffic in a poisonous drug is taking place, and that the government should be asked to take a hand when the traffic in a poisonous drug is taking place.

Doctors in all parts of the country have been kept busy with the epidemic of grip which has visited so many homes. The grip is a very serious disease, and very distressing and leave the system in a weak condition, particularly the kidneys which seem to suffer most, as most victims complain of back and urinary troubles which are not dangerous danger signals, often a sign of a dangerous kidney trouble. Dr. Williams' Pink Pills for Pale People, which is a gentle and strengthening the kidneys after an attack of grip. Dr. Williams' Pink Pills for Pale People, which is a gentle and strengthening the kidneys after an attack of grip.

Messages of Death. There are almost no separate and distinct kinds of shells fired from German guns, and each and every one of them are deadly, at least one named by the Tommies, according to London T.D. news. Some of them have been given names.

The biggest kind of high explosive shells, for instance, are known in different parts of the country as "Jack Johnsons," "Concave," "Flower Pots," "Crumps," "Black Peters" or "Whistlers."

The smaller kind are "Black Maria" and "Woolly Bears," according to whether the smoke they emit when bursting is black, or white with a yellowish tinge.

High explosive shrapnel and trench mortar shells are respectively "whizzbangs" and "pip-squeaks." From their habit of giving out those warnings of their approach, "Archduke" are anti-aircraft shells. Ordinary shrapnel projectiles are "Little Willies."

A Girl's Denial. "Why, Johnny tells me that when he went into the dining room last night he saw Mr. Brill with his arms round my waist."

Men are what their mothers made them.
