## County Fair Opens Friday, Closes Saturday

Excellent Stock and Produce Exhibit Being Entered—Big Days Friday and Saturday—Fine Weather Promised And Large Attendance Expected

The county fair opens on the excellent grounds north of the river today and will close Saturday afternoon. The exhibits of livestock, grains, produce and grasses being placed today are attracting lots of attention and favorable comment. The program of races and sports is fine and the Pine City Home Guards band will play Friday and Saturday. The weather appears to be settled and promises to be fine. All over the county one hears of crowds coming to the fair, Friday and Saturday, and all around, it looks like a mighty well attended and enjoyable fair.

President Frank Stuck has robbed his farm work to push the fair—and succeeded with it as he does with everything. Folks everywhere like to help Mr. Stuck because he is a pusher, and is pleasant about it.

The racing program will be in charge of J. M. Collins and will be fine. Following is the complete program for Friday and Saturday:

The grounds are in excellent condition, the new stock pen and poultry building being a great improvement over the old sheds that served the purpose as well as a 25x50 temporary addition has been put onto the west end of the school building for use as a grain and produce building, the school building itself being made for the purpose of the old main building, which was burned last spring. A new office for the fair management has also been prepared in a central location under the grand stand, making it vastly more convenient for the transaction of business.

Percy Kinney gives La Moure county, North Dakota, as his place of residence, but he is living near Willow River, Minn. He says they entered his home at night, struck his wife, making her unconscious, and carried him into the woods, threatening him with injury and death. Then he alleges they stripped him, poured a hot substance over his body, burning him, and then rubbed sand into the substance, supposed to be fat.

Other suits were recently filed by Nels Hokstad of Rutledge who included in those he sued, Bankers Stone of St. Paul and Hazlett of Minneapolis who never go to Hinckley except to attend bank meetings and Robt. G. Harts who moved away from Hinckley last February and has never been there since while Hokstad was tarred in May.

## Pine County Sailor Killed

Leon Heath of Beroun Killed When Transport Mt. Vernon Was Torpedoed

A shock barbed with sorrow, the news of the death of Leon Heath of the U. S. S. Mount Vernon, came to the people of this community Monday morning.

Leon was one of the Beroun boys who offered their services to Uncle Sam. No particulars of his sudden death were available as yet.

Leon was one of those good, industrious boys. He was one of nature's noble boys in the truest sense—brave, generous and manly. His was the soul of honor and his friends and friendships were sacred to him. When the call of the colors came he was one of the first to answer his country's call and he offered all he had—his life.

While we sit with bowed heads, tears fill our eyes, and our hearts beat in sorrowful sympathy with the father and mother, brother and sisters. There is behind it a feeling of pride to know that we have been able to give this precious life to Our Country. This will be one of the precious babies which will be picked up on the shores of eternity and that will shine in the crown of victor.

A Beroun Friend.  
Mr. Heath was home on furlough, we understand, about three weeks ago. A. F. Carlson of Rock Creek was also reported in Tuesday's casualty list as wounded, degree not determined. His many friends at home trust that the injury may not prove serious and that he may soon be about again to take another crack at the Hun or there and their "bunking the government" backers over here.

John Resch Sr. Dies

John Resch sr. passed peacefully away, last Saturday morning, at the home of his daughter, Mrs. Leo Kunkel, at Kimball. The funeral was held from the Catholic church there on Monday forenoon and the remains interred near there. Mr. and Mrs. Resch had driven over there a month ago for a visit and were preparing to return home when he was taken sick and quietly passed away.

Mr. Resch was born in Germany in 1854 and was brought by his parents to this country when but two years of age, the folks locating at Pierz, and was married in 1881. Following that he moved to Park Rapids where the family remained until 1902 when they came to Pine City and settled on the old Jensen farm, about two miles out on the Brunswick road where the family home has since remained. About 14 years ago he was attacked by palsy and for a decade has been practically helpless though patient and cheerful through it all.

Among those present at the funeral were Joseph and Nicholas Resch of Park Rapids, brothers, and Mrs. Lena (Fretter) of Pierz, sister of the deceased, and Henry Jesley of Cass Lake, a brother-in-law. Also, from Pine City, there were Mr. and Mrs. Nicholas (Thy) Mrs. August Lorentz and Miss Marie Tachony.

## What The Packers Do For You

Not very many years ago in the history of the world, the man that lived in America had to hunt for his food, or go without.

Now he sits down at a table and decides what he wants to eat; or his wife calls up the market and has it sent home for him. And what he gets is incomparably better.

Everyone of us has some part in the vast human machine, called society, that makes all this convenience possible.

The packer's part is to prepare meat and get it to every part of the country sweet and fresh—to obtain it from the stock miles in special refrigerator cars, keep it cool at distributing points, and get it into the consumer's hands—your hands—through retailers, all within about two weeks.

For this service—so perfect and effective that you are scarcely aware that anything is being done for you—you pay the packers an average profit of only a fraction of a cent a pound above actual cost on every pound of meat you eat.

**Clinton Whiting Writes Home**

In the course of a letter to his mother, Mrs. E. H. Whiting, east of town, her son who is wounded and in a hospital in France says: "Well, Mother, I had a little bad luck the other day. I got shot through the right knee joint and also through the left thigh in the heavy muscles about four inches below the hip and a little to the left—but it didn't hit the bone. And now I am lying in the hospital but getting the best of care and getting along fine. We were going over the top when I got mine— We have surely got the Hun going some."

Well I have seen quite a bunch of German prisoners and as far as I can see and hear they are sure treated fine. They don't seem to work hard, get plenty to eat etc. I understand they are all satisfied and do not care to go back.

Last night a bunch of us went swimming in the salt water and it was the first time since I got in. I was down town a couple nights ago to a Masonic Club which was just being started. After staying there for a few minutes a bunch of us began taking in the town. Undoubtedly you know about every other door is a wine house and the gang sure drink wine. And you should hear us talk—fingers, hands, feet and every other part of the anatomy. I wish I would have studied French instead of German when in H. S. I sure would come in mighty handy now.

We'll have had a few days good rest and feel like moving again. Believe me these boys we have were and are appreciated after traveling around on the boat.

So far none of us have had any mail but expect there will be some in the next few days.

Ma I hope that I can stay here after the war and travel around for a few months. I sure would like to do that. Probably by the time I get thru I will have all the traveling I want.

With love, Joe

Dated, Somewhere in France, July 27  
Just got here this m. and feel rather tired since we were on the road for a couple of days and did not get much sleep. Otherwise I am, in fact everyone is feeling fine.

We'll have a great trip across the Atlantic and arrived in England in good spirits. After a 21 mile run over here, to France, to an English camp but were mighty glad to get out of there and now we are in an American camp which is as much different as night and day. Now we can buy what we want in the British camp they wouldn't give us anything, though the canteen is the best rest camp of any of them.

Yes, I wish I could tell you all I would like to. Once upon a time I used to take the Y. M. C. A. to a bunch of exas but take it from me I'll take my hat off to them and the Red Cross. Several of us came over here a few months ago to the Y. M. C. A. and brought our outfit along to give them music and they are did. While writing the above sentence one of our fell, we came in and said that one of the Y. M. men was a Nevada man and wants to see me so as soon as I finish this will beat it into the other room and have a little chat with him.

As far as France goes it is a whole lot like Ma used to tell us about. You see them leading a donkey out of the front door of the house—every family has a bunch of geese etc.

Well the longer I stay the more I feel like getting into the infantry and getting a rifle but am not sorry that I am doing what I am and all the fellows from the front take off their hats to us fellows.

The second day I was here I had four or five others had a little experience that sure is worth telling about. You know would like to tell you about it but cannot.

Love to all Joe

Dated, Somewhere in France, Aug. 19  
Well here I am still in the same place but expect to get out shortly. Have been down town several times, including one banquet. While at this banquet met a sailor friend by the name of Mackley who is a fine chap. No doubt Chas. has told you about him by this time. Have been somewhat under the weather for a few days but feeling finer than ever now.

Saw them bring in another bunch of German prisoners and have nice talks to a couple of the guards that are guarding them. They seem to think, in fact all of those that come back from the front, that the war will be over by Xmas. And believe me Ma, if you could see what the Old U. S. is doing over here, there is only one way that it is coming out top, even if it should take a little longer than Xmas. The Dutchmen are going up against something they never knew but are realizing now. I never told my self that such things could be accomplished in such a short time, but it is a fact. Sure would like to tell you some of the things I have seen with my own eyes, but cannot.

About two days ago we got some mail for the first time since we have been here. I got four from friends in Nevada and one from Charlie to personally farmed pretty good. It is rather hard to write about any thing since one cannot say where he is, doing, or any other thing else.

## PREPARE NOW TO REGISTER

Instructions for Men Who Are to be Called On to Serve Their Country.

### "To Insure a Safer World for Our Children."

"Since the beginning of our government it has been the law of this country that every able-bodied male citizen and declarant between eighteen and forty-five is subject to his summons to its defenses.

"The occasions have happily been rare when such a summons has had to be issued. We face the need now, over 20,000,000 of our men of fighting age have already registered for selection for service. Out of this number many have been called upon and sent to battle across the globe while others are in training or on the way. They have made us very proud of them, these splendid soldiers, and some have already given their lives for us. We shall not fail to support them and to reward them.

"The remaining 10,000,000 are now called upon to register for selection. The only purpose of this extension of the selective service law is to bring a speedier end to the war and to insure a safer world for our children.

"Since the enemy has compelled the arbitrament of force, force let it be force, overwhelming force. The registration of the entire man-power of the United States will be our unmistakable pledge to humanity that democracy is to be the regime of the future."

"NEWTON D. BAKER, Secretary of War."

Washington Officials Think That British Capture of 20,000 Prisoners in Two Days Indicates Peace Disorganized.

Washington, Sept. 6.—Officers here believe that reports from the British front indicate that the German army, heretofore conducted with great military skill, is getting out of control. Under the terrific pressure of the British and French armies all along the line from Ypres to Soissons, the enemy apparently is being forced to a more precipitate withdrawal, particularly on the old Drocourt-Quantburg line where Marshal Haig's men have moved forward irresistibly again today.

News from the British front that more than 20,000 prisoners have been taken in two days of fighting on the front in itself indicates, it is said, that there is growing disorganization in the German ranks.

Observers here believe the time is fast approaching when General Pershing's first field army will participate in the battle. As to where or when that would be delivered, however, there was wide variance of opinion.

Decided Gap in Foe Line. The British now have broken a decided gap in the old German fortified line and the fall of Cambrai, Douai, St. Quentin and several other rail centers is being reported. The Hindenburg line, which has been the mainstay of the German army, is being broken in places. It is said that the enemy will be quickly forced to evacuate the salient in what has rapidly been pocketed by the French. All American advances on the Oise-Albert line in the north and the British thrust eastward from Peronne to the north.

Growing disorganization among the Germans lead many to believe it possible that the enemy may be forced to a withdrawal to the Rhine next October, he, however, that the skill of the German leaders has, displayed does not admit of any possibility of an early collapse of the military machine.

Expect American Push. On all sides there is a realization of the formation of the First American field army and the fact that many American units which had been engaged with the French or British formal training have been withdrawn to be used in the battle. It has been taken to mean that the Americans would attack during the present year. Ample time remains, it is said, for the organization of the force to be completed and the assault launched before winter interposes.

Oldest Living West Pointer. General Horatio Gates Gibson, 101, oldest living graduate of West Point, veteran of the Mexican civil and Indian wars, has just celebrated his 101st birthday in good health and spirits.

Among the guests of the soldier on his birthday were a few surviving members of the 1st Cavalry, which was formed by officers of the service in the city of Mexico seventy-one years ago. There is only a small number of the original members of this old unit. Gen. Gibson is one of them and is the organization's president.

It is probable that this veteran thought as a young soldier, after campaigning from Vera Cruz to the city of Mexico, under the leadership of Gen. Winfield Scott, that the Mexican war was a good deal of a war. It is likely, also, after serving as an artillery captain through the remainder of his career, that he thought of the magnitude of conflicts between nations.—St. Louis Post-Dispatch.

To Teach Fruit Raising. Vice Consul Richard P. Mommson reports that the Brazilian government has authorized the formation of a pomological station in Dodoro. The work of the station will comprise the production of domestic fruit trees and those foreign types already selected and acclimated. The introduction of indigenous fruit trees, the study of insect pests and methods of controlling them, the study of better methods of packing and storing fruit and fruits, experiments to determine the most successful methods of conserving fruits and the question of distribution of fruit to the people. The station will be open to students who wish to pursue this branch of agriculture and to farmers who wish to observe practical demonstrations of modern pomological methods.

Chinese Taking to Cigarettes. Ten years ago we exported 400,000,000 cigarettes to China, which is an average of about one cigarette a year for each colonial. This year there has already been an average of 100,000,000 cigarettes, says Popular Monthly. Last year our exports in cigarettes alone reached the \$12,000,000 mark.

Plains Economic Isolation. Berlin Paper Urges Germany to Act Before It Is Too Late. Washington, Sept. 6.—An article in the Berlin Paper, "Urges Germany to Act Before It Is Too Late," is quoted in an official Berlin paper. The article is a plea for economic isolation after the way is being proposed for the formation of a National Council of the German people. The article says that an economic war is not inevitable, but that it is a possibility. It says that the German people should be prepared to meet such a possibility.

Forty Thousand Arrested. Great Draft Held Made in New York and Nearby Cities. New York, Sept. 6.—Federal officials estimated that more than 40,000 men were arrested in New York and nearby cities in the great roundup of draft evaders conducted by 15,000 soldiers, police, firemen and government agents.

Feared Economic Isolation. Berlin Paper Urges Germany to Act Before It Is Too Late. Washington, Sept. 6.—An article in the Berlin Paper, "Urges Germany to Act Before It Is Too Late," is quoted in an official Berlin paper. The article is a plea for economic isolation after the way is being proposed for the formation of a National Council of the German people. What is a Branch House?

The Branch House is the place in the packing organization where what the packing plant does for you is put where you can use it.

Both are the natural result of growth and development in the living thing they belong to.

Swift & Company Branch Houses are located in distributing centers all over the country. They are fitted out with refrigerating equipment to keep meat cool, sweet and fresh.

Each one is in personal charge of a man who believes in what Swift & Company is doing for people and wants to help do it.

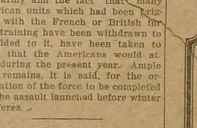

They are directed by men who have spent years learning how to get better meat cheaper to the places where it is needed.

Meat is shipped to the branch houses direct from the packing plants in Swift & Company's refrigerator cars, in such quantities that it can be disposed of while fresh and sweet.

Your meat dealer comes here to buy your meat for you—unless someone else can treat him better than we can.

So you need the branch house in order to live well, and the branch house and the packing plant need each other, in order to be useful to you.

# THE PINE POKER

Vol. XX

PINE CITY, MINN., SEPTEMBER 5, 1918

## Germany's Terms

By Count Rooy

Germany is entitled to the following terms because of its strength, and until they are realized there should be no armistice:

Annexation of Belgium. Annexation of the entire Flanders coast, including Ghent. Annexation of the Briey and Lonrey basins and the Toul, Metz and Verdun regions eastward.

Restitution to Germany of all her Colonies, including Kiaochow.

Great Britain must cede to Germany such naval bases and coaling stations as Germany desires.

Great Britain must give Germany the Suez Canal to Turkey.

Greece must be re-established under former King Constantine, with its borders as before the war.

Austria and Bulgaria will divide Serbia and Montenegro.

Great Britain, France, and the United States will pay all of Germany's war costs, the indemnity being a minimum of \$45,000,000,000.

They must also agree to deliver raw materials immediately.

France and Belgium must remain occupied at their expense until these conditions are carried out.

## How Are You Going To Answer Germany's Peace Terms?

**T**HE greatest advertisement for the Fourth Liberty Loan of the United States of America has been written by a Prussian.

His name is Count Rooy and he wrote it as a member of the Prussian House of Lords. It is printed above. Read it carefully.

Forty-five billion dollars or more indemnity!

This, then, is the price the world must pay for a victorious German peace. This, then, is the footnote to the Kaiser's prayer, expressed in the coldest terms of plainest business.

This is the meaning of war to the Prussian, and he proclaims his battles righteous, prosecuted in self-defense.

Oh, you men and women of America, is there a dollar in all this land to-day so tightly held that it will not now come forth to answer the swaggering arrogance of the Hun?

These days will tell, for a you place your name upon that subscription blank for Liberty Bonds you state your land, your liberty and democracy are worth to you today.

Now how are you going to answer the "peace terms" of the kaiser and his band of murdering buccaneers?
