

AT LEAST 1,000 PERSONS PERISH IN FOREST FIRES

Flames Starting Near Bemidji, Minn., Cut Swath About Fifty Miles Wide.

MANY VILLAGES GONE

Property Worth Millions of Dollars Has Been Destroyed and More Than 15,000 Persons Are Homeless.

Duluth, Oct. 14.—Nearly 1,000 persons are now believed to have lost their lives in the blast of flames that drove over Northern Minnesota forests in an area that spreads from Duluth to Bemidji, Bemidji, Atkin, Cloquet and Wood Lake.

Property worth millions of dollars was destroyed, ten villages were obliterated, 15,000 persons were homeless, many of them penniless. Duluth, which heavily damaged by the flames, is a city of thousands of refugees, a swarming place where struck people who had lost kindred, friends, neighbors in the flames.

Over all the countryside on highways and bypaths, near farmhouses, ruins and beaded railway tracks, blackened corpses were seen.

100 Bodies Brought In. Clequet, a city of 8,000 population and once a lumber center of the North country, is all but wiped out. Moose Lake, a village of 1,500 souls, is a waste of ashes, a redemptary headquarters which held more than 100 bodies brought in from the country.

Over all the countryside on highways and bypaths, near farmhouses, ruins and beaded railway tracks, blackened corpses were seen.

300 Dead at Moose Lake. Rescuers arriving on the scene, appalled at the completeness of the devastation wrought by the flames, hesitated in their fragmentary knowledge of the actual scope of the disaster, to estimate the number of dead.

Has Star Near Bemidji. The fire started near Bemidji, where it has been considered for weeks. The fire was high wind, the flames swept across the state toward Duluth, a path 40 miles wide. The fire started near Bemidji, where it has been considered for weeks.

All Men Must Do War Work

U. S. Employment Service Sees Notice That Able Bodied Citizens May Not Continue Working at Unnecessary Jobs.

The United States employment service is "getting down to brass tacks" in building up the labor force for essential war work. It has several notices that employment that is not essential for the war effort should be discontinued...

The community labor boards are charged with the responsibility of determining the national policy which shall govern the employment service in attempting to recruit for war work from industries which are not directly connected with the production of the war. The power to determine priority among industries and to close nonessential industries by shutting off supplies rests with the war industries board.

CHEAPER RATIONS FOR THE HENS

Beef scraps or some other animal protein feed has been shown by a number of experiments to be superior to good and economical egg production, especially during winter. In the 18 months preceding January 1, 1918, the price of meat or beef scrap has increased 100 per cent, while in some places it has been difficult to secure meat at all, making it inadvisable to put anything in place of this feed.

Half of the beef scrap normally fed to the flocks has been replaced by these feeds, making the ration more economical. A scratch mixture of two parts cracked corn and one part oats, and a mash of one part cracked corn, five parts middlings, four parts bran, two parts beef scrap, and two parts of other peanut meal is recommended.

Tricks in the Kitchen.

Add apples to the rhubarb pie; it will be less than a tart. Food should look attractive as well as taste well. Mashed potatoes left over may be made into biscuits. Fruit sandwiches must not be forgotten for the picnic.

New Faces, Including Checks, Noses, Lips, Jaw, Provided in Great Hospitals of Paris

Some miracles of modern surgery are being performed at a hospital in Paris. The surgeons here, writes a correspondent, have become sculptors in human flesh. They reconstruct a man who otherwise would have to go through life hideously ugly, and they remove from the thigh its use to cover the scar on the forehead.

estimated the following percentages of the total commercial stocks of the commodities here mentioned. Last July the per cent of large companies (per cent) solid vegetable oil was 88.9 per cent, also stock, 69.0 and cotton, 22.4 per cent. Estimated as of July 1, 1918, were 82.0 per cent, solid oil, 44.8 per cent, peanut oil, 43.8 per cent.

Jealously Guarded Secret of Making Eau de Cologne. Cologne's toilet water industry was established at the beginning of the seventeenth century. At that time the city numbered about 5,000 inhabitants, while the present population is 400,000. The inventors of the perfume were Paul Fernus and Maria Clementia, Catholic nuns. They began on a small scale with five persons employed, whom they did not initiate into their secret of the whole process.

Winston-Salem, N. C., Great for Tobacco Manufacturing

Although 200 miles from the seaboard in North Carolina, Winston-Salem, a dual city of 17,000 inhabitants, has been designated as a port of entry by the custom officials, because its imports of sugar, licorice and tobacco are enormous. Since 1910, according to Population Statistics Monthly, the manufacture of tobacco products has increased more than 100 per cent in the United States. That Winston-Salem now leads St. Louis as the chief tobacco manufacturing city in the United States was reported by a government post office building the city had paid for it in tobacco revenue.

French Soldier Wrote Song "Won't Go Home Till Morning"

That most celebrated of drinking songs, "We Won't Go Home Till Morning," found its inspiration in war. The song was composed by the unknown French soldier after the battle of Matignac, which was fought in 1709. The French troops suffered severely from lack of food, and many died of starvation. The soldier wrote the song as a means of expressing his feelings and to encourage his comrades.

Wares.

"She—Are you sure that we are living beyond our means?" "Yes," answered he, "that we are living beyond our credit."

Liberty. "Did you leave the water a liberal tip?" "I surely did," replied Mr. Grip-nod. "It left him two potatoes and half a chop, which, according to the bill of fare, ought to be worth at least a dollar and a quarter."

Vegetables Save Staple Foods

Use Products of the Garden and Orchard in Place of Wheat, Meat, Fat and Sugar.

"What am I doing to feed the world?" This question is being asked and answered by every true American. Wheat has the privilege and responsibility of producing food from the field, or the lower garden. While wheat has the less nutritious but less responsible part of providing food over the world's supply, it does that every acre possible of the wheat, meat, fat and sugar needed by our soldiers and allies in need for their use.

What to Eat. If a cupful or more of seedlings are left from dinner save them and in a day or two prepare: Ham and Noodles. Butter an earthen dish, put into it a layer of cold boiled ham, sliced in bits, then another layer of noodles and so on until the dish is full. Beat an egg with one cupful of milk and cook into the dish. Cover with crumbs, dust with butter and bake in a moderate oven.

Pine City Folks' Fire Experiences
Dr. Wiseman was the first outside physician to reach Moose Lake. Driving to Hinkley, shortly after midnight, he and Neumann A. Berg, Frochaska, Duxbury and Richards went to Moose on the first relief train, arriving at about 3 a. m. They cared for six railway car loads of wounded who were sent to Duluth and St. Paul and their work was much commendation. Dr. Wiseman's medical case in some way was placed in an auto that went 15 miles out into the country on the first day and he did not get a lack until Tuesday. In the party on the first train to Moose Lake were also Misses Mary Korbel, Mary Haynes, Jeanne Stranberg, Viola Fagus and Margaret and Julia Hurley, who remained during Sunday only. Druggists Frederickson and Frochaska were also in the first party in, remaining all day and doing much good.

Miss Ruth Gottry was visiting at the A. P. Jensen and Mrs. Mary Swanson homes 4 1/2 miles north of Askov, where she taught last year. The fire destroyed both homes and the folks escaped north in their autos, missing Miss Gottry who saved her life by being in a potato field with others most of the night, and then going to Askov. Her father went for her and they reached home in the morning. She was back there Monday with clothing and things and brought back Frank Swanson who is staying at the W. F. Gottry home until his mother decides whether to rebuild or to move away.

Ernest Hinz Jr. and Floyd Dippery had a close call, the middle of Sunday afternoon, while driving to the fire event region. They were crossing the big fall through the old bed of Skunk lake where the travelers on the N. P. are limited were set and the train hit the Hinkley fire, a mile north of Friedland, when the axle of the Hinz car in which they were riding broke and they went over the embankment, falling about ten feet. Luckily, they were not injured.

Five little girls, two sisters aged 8 and 9, and three other sisters aged 5, 6 and 7, were taken off the train Sunday, and cared for at the Seunacher and Bowman homes until Monday afternoon, being liberally supplied with clothing by the Red Cross. Their lives were saved in a potato field, the one in which they were escaping being destroyed by fire. At first it was thought that their parents had perished but they were later found to be alive.

Miss Eleanor Hady, who was teaching about 2 1/2 miles north of Starvoos lake and southeast of Moose Lake village was at a farm house surrounded by fire all Saturday night. Her men folks were away, only an injured young man and a boy being at home at the time. They planned getting into the water of Starvoos lake in case the fire attacked the house. She escaped the following morning and is with her mother at Pine City.

Assessors Geo. Sank and School Miller's father had 60 sheep on his 240 acre ranch, north of Askov, which Chas. Smedley was looking after. They had been rounded up at the buildings which were located on the only 40-acre piece of the property which was not swept by the fire. The sheep were shipped out yesterday because of lack of pasturage.

Mr. and Mrs. J. C. Fisher, who ran a restaurant at Moose Lake and went through the fire there, saving their lives in the lake there, arrived Sunday afternoon at the Hotel, where they were formerly lived here and have many old friends in the locality. Their financial loss was considerable, having only small insurance.

Mrs. Westman and her cousin arrived Sunday and Mr. Westman and Mr. and Mrs. Albert Grant arrived Monday from Cloquet where their homes were destroyed by fire and are at the home of the ladies' names, Mr. and Mrs. Oscar Magnuson, south of town.

Mr. and Mrs. Harry Berg and 4 children came down from Carlton, Sunday, having gone there the evening prior to the fire. Mr. and Mrs. Berg returned to Cloquet but two of the children remained at the Robinson home, south of town.

John Jumer drove to Denham, last Sunday, and brought Miss Josephine, who is teaching there, home. He found culverts buried out on the road but was able to reach his destination. Miss Jumer will remain here until danger is over.

Mrs. R. J. Stees and children came down Sunday afternoon to stay with relatives until Mr. Stees is able to re-establish their home at Cloquet. They left Cloquet at 8:30 Saturday evening for Superior, on flat cars, whence they came here.

Mrs. Grace Lever of Cloquet arrived yesterday to visit at the home of her brother, J. S. Curtis, of Mendoc Lake for a while. She left Cloquet, Saturday evening, going to Carlton.

Mr. and Mrs. Landell and children arrived Monday and are at the home of her parents, Mr. and Mrs. L. Lambert, at Pine Grove.

MADE WAS PLEDGES—Red Cross Notes
Receipts since last report. Mrs. John Gross donation \$1.00. Membership dues for 1918, \$1.00. Anyone wishing to donate clothing for the fire sufferers may leave same with Mrs. Howard Folsom at the Pine City office.

The Red Cross here has already sent 7 auto loads of clothing—two of them purchased new—and one car load of provisions into the burned region north, five auto loads of clothing, most on Sunday and one each on Monday and Tuesday.

The Pine City branch sent \$250 to the county chapter at Hinkley, Monday. The relief work and \$500 more today. None will sent later as approval being made now for personal subscriptions for clothing and a large amount should be raised in the territory for the purpose.

At the annual meeting the Treasurer reported as follows:

Manager Turner of the Family theatre is going to bring the big extravaganza movie, "Heart of the World" here just before Thanksgiving. It will come direct from the Schubert theatre at St. Paul and will go from here to Duluth. Mr. Turner is able to bring the most talked picture here partly because of old personal acquaintances with its management and partly because he has the reputation everywhere of being the most wide-awake, progressive theatre manager in this part of the county and most likely to draw crowds to see it because of public confidence in him. The picture has been shown exclusively in the cities now and it will be many months before it is generally sent out into the country.

PROPOSED AMENDMENT TO THE CONSTITUTION OF THE STATE OF MINNESOTA
By the Legislature at its General Session, 1917, to be Submitted to the People of Said State at the General 1918 Election, Together with a Statement of its

PURPOSE AND EFFECT
PREPARED BY **CLIFFORD L. HILTON**
Attorney General of Minnesota.
Addressed to **JULIUS A. SCHMAHL**
Secretary of State

OFFICE OF THE ATTORNEY GENERAL, ST. PAUL, MINNESOTA.
April 25, 1918.

HON. JULIUS A. SCHMAHL,
Secretary of State.

SIR: As required by Section 46, General Statutes of the State of Minnesota for the year 1913, I have the honor to furnish you herewith a statement of the purpose and effect of the amendment proposed to the Constitution of the State of Minnesota by the Legislature of 1917, and which is to be submitted to the voters of said State at the General Election in 1918.

PROPOSED AMENDMENT.
Chapter 315 of the Session Laws of Minnesota for the year 1917, proposes an amendment of Article 15 of the Constitution of said State by adding thereto a new section to read as follows:

"Section 4. The manufacture, sale, barter, gift, disposition, or the furnishing, or transportation of, or the keeping or having in possession of, intoxicating liquor of any kind in any quantity whatever, except for medicinal, scientific or agricultural purposes, shall be prohibited within this state from and after the first day of July, 1919, without any action on the part of the Legislature or any other legislative body. The amendment shall be self-executing. The Legislature shall enact laws for the enforcement of this section and shall provide suitable penalties for the violation thereof."

THE PURPOSE OF THE PROPOSED AMENDMENT. It is to forever prohibit within the State of Minnesota from July 1, 1920, the manufacture, sale, barter, gift, disposition or the furnishing or transportation of, or the keeping or having in possession of, or any of such purposes, of intoxicating liquor of any kind in any quantity whatever, except for medicinal, scientific or agricultural purposes.

THE EFFECT OF THE PROPOSED AMENDMENT. If adopted, it will be made unlawful and forever prohibit the manufacture, sale, barter, gift, disposition or the furnishing or transportation or the keeping or having in possession of any of such purposes, of intoxicating liquor of any kind in any quantity whatever, except for medicinal, scientific or agricultural purposes, within this state after July 1, 1920, and to place it beyond the power of any legislative body to permit the doing of any such acts. If adopted, the doing of any of the prohibited acts automatically becomes unlawful after July 1, 1920, without any action on the part of the Legislature or any other legislative body. The amendment is made self-executing. A duty is, however, imposed upon the Legislature to enact laws for the enforcement of this section. It is advised, that it is possible to provide penalties for the violation thereof.

Yours respectfully,
CLIFFORD L. HILTON,
Attorney General.

Presbyterian Church Notes
Owing to the absence of Rev. Clark with the home guards at Moose Lake, Sunday no preaching services were held, either morning or evening. At first it was deemed that the congregation should be by the Methodists at their church, Rev. Hart speaking, but his later call to Moose Lake prevented this. Sunday school was held though the attendance in the adult department was not up to usual.

Although Mr. Clark is not back at this writing it is expected that he will be home today. Regular church services will be held next Sunday.

The ladies aid will have to meet their first business meeting this week's meeting for two weeks.

Helping the Meat and Milk Supply

(Special Information Service, United States Department of Agriculture) SHEEP NEED WINTER CARE.

Dryness, Light and Ventilation Are More Essential Than Warmth in the Winter Sheep Quarters. Principal Sheep Requirements Are Dryness, Good Ventilation, and Sunlight.

WOOL AND MEAT ARE WAR NEEDS

Principal Sheep Requirements Are Dryness, Good Ventilation, and Sunlight.

WET COATS FOSTER DISEASE

Protection from Winter Rainfalls and Heavy Snowfalls is Desirable - Freedom from Drafts is Most Important.

Sheep supply two very essential war needs—meat and wool. During the winter they need special care. Their heavy coat will keep them warm provided it is dry, but if it becomes wet the animals will suffer from chills and sickness.

In any part of the United States the main essentials of sheep barns are dryness and freedom from drafts. Unless barns are to be dropped in cold weather, an exposure to wind and rain is necessary, as the buildings should seldom be closed.

Wet coats foster disease. Protection from winter rainfalls and heavy snowfalls is desirable. Freedom from drafts is most important. Sheep supply two very essential war needs—meat and wool. During the winter they need special care.

BUY EWES IN FALL

Many farmers make a practice of buying ewes in the fall, breeding them and selling the lambs in the following summer. Such ewes can be carried through the winter on wheat and dry rye stalks.

Feed Cows Legume Hay

In cooperation with the extension department of the University of Minnesota, the United States department of agriculture last year made an investigation of the cost of producing milk in the dairy herds in Porter county, Ind.

STATE BREWERIES

Virginia—Olga Betlach, Carl Gobats, Tony Siche and A. Lahle were arrested as slunkers and were being held before the draft board.

Illinois—John P. Batters purchased the furnishings of A. O. Astley of the furniture store on Second street in Chicago before the draft board.

Minnesota—William Gamble of St. Vincent harvested 400 bushels of potatoes on one acre. The average production of the United States runs around 100 bushels.

International Falls—Ben Lyon of the Big Falls was brought to the state hospital with a gunshot wound in the leg received by the accidental discharge of a gun while hunting.

Wadena—William Wieland of Bertha is in the Davis hospital in this city with severe scalds on his face which he was riding crashed through a bridge this side of Bertha and blinded his eyes.

Little Falls—Joe Matlock was brought before the War Council in this city on the charge of stealing sheep from a farm in Platte township and not disposing of it in accordance with the government regulations.

Minnesota—Members of the Minnesota State Grange Association held their session here, attended this session with 6,700 other members of the National Grange Association.

Minnesota—The United States department of agriculture last year made an investigation of the cost of producing milk in the dairy herds in Porter county, Ind.

Manhaha—Casper Stratton, local farmer, has a cow that gave birth to three healthy calves.

International Falls—A Knockhocking county chapter of the Red Cross was organized here. There will be county Red Cross convention here at Grand Rapids.

Remer—Remer has unanimously elected Rev. Mason pastor of the Episcopal church for another year. Mr. Mason will preach alternate Sundays in Walker.

East Grand Forks—Sup't Hackenberg of the Transliner Lyons of the N. P. spent a day in Forest River, where they superintended the removal of the N. P. depot to the new site, where it will be converted into a union depot.

Mankato—Dr. Frederick A. Cook, the Arctic explorer and others, registered the Rocky Mountain Sheep association, have been here, making arrangements for placing the stock of sheep on every farm in Blue Earth county.

Sartell—Mrs. Joseph D. Sartell, of Sartell, Minn., died at her home here. She was 59 years old. Mrs. Sartell was one of the pioneers of Minnesota.

Little Falls—Resolutions against bootlegging were passed by the Second District Women's club meeting here. State officers of the relief corps were asked to petition Washington against any prisoners being deported from Minnesota.

Alitkin—The jewelry store of J. N. Nelson was broken into during the noon hour when the store was closed about \$400 worth of watches and other jewelry stolen.

St. Paul—The Minnesota Workmen's union is having a meeting at the capitol on Monday night. The union is protesting against the new labor law.

Washington, Oct. 13.—The anti-lynch bill is about to be introduced in favor of a new plan for restricting use of guns by autumns.

HOW TO AVOID BACKACHE AND NERVOUSNESS

Told by Mrs. Lynch From Own Experience.

Providence, R. I.—"I was all run down in health, my nervous headache, my back ached, my head ached and my eyes were sore. I was tired and had no ambition for anything. I had taken a number of medicines which did me no good. One day I read about Lydia E. Pinkham's Compound and what it had done for women, so I tried it.

Rock Creek News

Mr. and Mrs. Alex Tate spent Saturday in the cities visiting their son George, who is in training at the University Farm.

Miss Dunham of Minneapolis spent a few days at the J. C. Smith home.

Mrs. Edith Erickson and her aunt Mrs. Osmanon of Fort Dodge Iowa are here visiting at the E. G. Erickson home.

A baby girl was born to Mr. and Mrs. Richard Lindstrom, Sept. 13.

George Tate was home between trains Sunday, Miss Lucy accompanied him back to camp. He expects to leave the University Farm very soon.

The Red Cross is called upon at this time to help the fire sufferers. Anyone having a cash donation, be it ever so small, please leave at the bank.

The Red Cross made a shipment of 34 pair of socks on Sept. 26.

The annual financial report of the Red Cross is in our possession but we are unable to get it into type for this week's paper but will next.

Card of Thanks

We wish to extend our sincere thanks to the many neighbors and friends whose assistance and sympathy has been given us during the time of our trouble and great loss. We wish to especially thank the Brook Park friends for the sweet flowers which betokened their feelings.

Chas. Lewellin and family.

Meadow Lawn

Mrs. H. A. Hansen of St. Paul is visiting her sister, Mrs. Ira C. Holt.

The Chengwatana Farmers club met at the J. S. Curtis home last Saturday evening but on account of the bad wind storm all of the members were not present, those who were had an enjoyable time however. The next meeting will be on Saturday afternoon October 26 at the Wilson home and everybody try and come.

MINNESOTA BANKERS TESTIFY

Answering inquiries, three hundred Minnesota bankers testify to the prosperity of dry towns. Here are a few sample testimonies:

It has made Olivia a better town in all respects.—M. J. Dowling, President State Bank, Olivia, Renville county.

We are well satisfied with present conditions, and so far as we have learned, especially in later years, the larger majority of citizens here would not want to return to conditions existing when we had saloons.—T. C. Blomgren, Cashier First State Bank, Cambridge, Isanti county.

In all opinions the effect has been good.—C. A. Draper, President First National Bank, Wells, Faribault county.

Best ever. Ada should always have been dry. Booze was bad for our best men and hard to do business with them when booze was plentiful, but they are now our best customers and respected. No arguments in favor of booze.—Jacob Rigg, Cashier First National Bank, Ada, Norman county.

Great effect for good. Has cleaned up the town considerably. Farmers and others who were accustomed to loafing around now tend to business and are getting ahead faster. Have had some trouble with parties and trips to wet territory, but conditions are improved since it is no longer possible to ship the stuff in. Merchants who opposed it before now see the benefits. They do not have so many accounts. Taxes are some higher, but there are a great many who would vote dry now that did not favor it before, while we do not think many dries want to go back to the saloon.—H. A. Puffer, Cashier State Bank, Mnd Island, Renville county.

Made a better town. Bills are paid better. People appear happier and more prosperous.—H. H. Peyton, President First National Bank, Proctor, St. Louis county.

Wonderful. Practically all business men who were strong wet men are bone dry now. The entire morale of the town has changed. We are all more contented and proud of our town.—W. L. Brooks, Cashier Northern National Bank, Bemidji, Beltrami county.

People wouldn't think of allowing saloons again. Cleaner and better town. No increase in taxes.—E. N. Scott, Cashier First National Bank, Eagle Bend, Todd county.
