Others Die on Battle Field

Cloverton and Sturgeon Lake Men Reported to Have Been Killed in Action

Last week we noted the death of Hartley Robey, of Sandstone, on a battlefield in France, calling attention to its being, up to that time, the only one wherein a Pine County boy had died on the field, although many have died of disease. Since that, two others from this county have appeared on the casualty lists as having been killed in action—Edward L. ("Jack") Garrett, of Cloverton, and Albert L. Sturgeski, of Sturgeon Lake.

Mr. Garrett was killed on Sept. 14. He left in the contingent which left Pine City on April 29, 1918, and is survived by his aged parents and other relatives.

Today's papers also list J. L. Kopetzki of this place, as missing in action. This may mean anything, and his home folks will hope for the best.

There's a Good Time Coming
Everybody in town and from the surrounding country will meet at the bazaar to be given in the Army next Wednesday, Nov. 27, for the benefit of the Czech-Slovak army and the Red Cross. It will open at 10 a. m. and last until the dance closes in the evening. Be sure to eat dinner there next Wednesday.

Thanksgiving Offering
It is estimated that the sufferers of Northern Minnesota will need 50 cars of potatoes and vegetables for the winter. They have lost everything in this line. Many towns are pleading through the Red Cross for potatoes and vegetables. Pine City Branch of the Red Cross has been asked to contribute a car. Can we not make a Thanksgiving offering during the week commencing Monday, the 18th?

We have made arrangements with the A. M. Challen Co. to use their warehouse for contributions—potatoes, cabbage, onions, beets and carrots. This appeal especially to the farmers around Pine City. We ask it in the name of the farmers who were burned out and lost everything they had. We will furnish sacks. The names of contributors will be published in The Pine Piker.

Bring your contribution in on Friday, Saturday and Monday—Nov. 29, 30, and Dec. 1—and take direct to the A. M. Challen Co. store.
—Pine City Branch, Red Cross, H. W. Harte, chairman.

A New Ruling by Provost Marshal
(By United Press.)
Washington, Nov. 18.—A new ruling by the provost marshal general today sent to local draft boards throughout the country worded that all draftees who have received their questionnaires shall return them to the local board, though they need not be filled out.

The order yesterday was that all questionnaires in the hands of men who had passed their 36th birthday on Sept. 12, last, should be filled out and returned and all others ignored. To clear up any confusion, General Crowder today ordered that all the questionnaires should be returned to the boards assigned.

GIRLS CAN DO MUCH GOOD

To Earn and Give \$5 is the Pledge of Victory Girls.

"Every girl pulling for Victory" This is the slogan of the Victory girls. "Everybody is doing something to win the war but a few are doing more." This is the motto of the Victory girls. "I'm left out. I can't buy Liberty Bonds or go to France as a nurse."

It is for the "left-out" girl who wants to make a real sacrifice for the men at the front, that Victory Girls "Earn and Give" division of United War Work Campaign has been established. Victory Girls is as much an army as any other service organization. It is an army wherever they are called. Like Victory Boys, they are an "Earn and Give" division of the United War Work Campaign. When a girl enlists she pledges herself to earn a stated sum for war work. This means that no girl, or boy either, can give any money that she or he has not earned.

The Department of Campaign Divisions in the National Organization of which A. H. Whitford is director, has appointed Miss Gertrude Gogin, Girls' Work Secretary of the National Y. W. C. A., secretary of the Victory Girls. Both are working in the campaign in which seven national organizations are cooperating—the Y. M. C. A., Y. W. C. A., National Catholic War Council (Knights of Columbus), Jewish Welfare League, War Camp Community Service, American Library Association and Salvation Army.

To insure the greatest understanding and co-operation in the work done with Victory Girls and Victory Boys, a director has been appointed to act for the National Catholic War Council and representatives of Catholic women have been appointed to various local committees.

UNITED LEADERSHIP WILL BRING VICTORY

Lansing and Lane Endorse Campaign for Funds for Welfare of America's Fighting Forces.

Washington, Nov. 6.—Hearty endorsement is given today by Robert Lansing, Secretary of State, in a statement urging support of the drive for \$100,000,000 for the continuation of soldier and sailor service work by the Y. M. C. A., Y. W. C. A., National Catholic War Council, I. K. C., War Camp Community Service, American Library Association and Salvation Army.

"The wise policy for a united campaign, which has been adopted by the patriots who are directing the various organizations charged with the welfare of our fighting forces, has my hearty approval," said Mr. Lansing. "What they are doing already have done and would continue to do splendid work, combination will greatly add to their efficiency and usefulness. I am sure that the American people will give to the united effort the same support which they gave in the past to the separate organizations. It is enough to say that it is for our boys across the sea."

Franklin K. Lane, Secretary of the Interior, summed up as follows: "Under a united leadership in France our men are making a drive for us, and under a united leadership in America we are making a drive for them. May we be as successful as they have been!"

—Keep Them Smiling—

YOU'D GIVE YOUR LAST CENT!

If you mean serious a man dying for the want of a cup of hot chocolate or coffee, would you do it? You'd spend your last dollar to see that he got it!

Supposing your boy or one of his pals lay on a foreign field wounded, needing help that money could buy. You'd buy every last cent of those things within a dozen miles to do all that you could for him if the war had been the expense!

This is exactly what it means when you donate to United War Work Campaign fund which goes in the various ways where suffering with which you can't do it in contact. You're contributing to some neighbor but not your own—perhaps to many more—in the same way. You're trying them when every bit of comfort is the saving grace that makes the horror and hardship endurable and easier than you think.

Shot While Hunting Deer

Hunting in Wisconsin Before Open Season for Deer Results Disastrously

Oscar Dahl, residing on a homestead in Wisconsin, 6 miles east of Cloverton, was shot and killed by Harry Holter while hunting deer, last Friday, we understand. The report which comes to us is that Dahl, dressed in brown, and without anything to warn a hunter of his identity, had shot a deer and was working about the carcass on the ground when Holter saw the moving object through the woods and shot in any event, Dahl was in some way shot through the heart and died immediately. Harry Holter is a son of John Holter and a cousin of Irving and Ernest Holter, who are more or less known over the county. His friends trust that there may be some mistake in the report which has reached us and that he may at least be absolutely free of any careless deed in connection with the accident.

GIVE LIKE THEY ARE GIVING

Following is the Appeal of a Returned K. of C. Man, Who Knows the Needs of Our Boys in France.

"Do what needs to be done November 11 to 18, when the United War Work drive is pulled off, like an American soldier! It's the greatest time I've ever lived in. Turned K. of C. man who spent a year with the boys 'over there?' 'Woke up to do your share for them with your head high, your step firm and a cheerful smile on your face—our boys marched into the hell of flame in France! 'Then give as they give on the battlefield—without a thought of self, unostentatiously, wholeheartedly, gloriously! 'The more generous we are now, the more joyful will be their home-coming after peace is declared. 'I'm a returned K. of C. man, a worker. 'These boys of ours will probably be needed overseas for the next four or three years. 'God only knows how vital is the need that this saving welfare effort is extended during that period. 'That is wholesome in their lives. 'I'm whole with them with your wholehearted support until they come walking down the gang. 'I plant. 'Thank God you've got a chance to do something concrete for them!'

HEARTY ENDORSEMENTS OF FOUR LEADING JEWS

Give Full Approval to United War Work Campaign for Funds to Help American Soldiers.

Following are endorsements of four leading Jews, prominent in the affairs of the United States, who give their full approval to the United War Work Campaign for funds with which to bring the food of home to American soldiers:

Louis Marshall: "The union of all these organizations in making a joint appeal to the American people for the funds necessary to carry on their work in the United States, who give their full approval to the United War Work Campaign for funds with which to bring the food of home to American soldiers."

Dr. K. Koller, president of Hebrew Union College, Cincinnati, Ohio: "It seems as if out of this cruel war a new spirit of humanity is evolving. Here is our great opportunity to manifest the best and humanitarian spirit of Judaism. Let us not miss it! Let the Jewish Welfare Board lead in this great enterprise."

Henry Morgenthau: "American boys of every race and religious belief are fighting bravely to show the world of every faith are working together for the good of the world. Let us comfort and good cheer and spiritual guidance. Support of the United War Work Campaign is support for our own."

Abraham I. Elkus: "Military experts have estimated that it will cost \$100,000,000 to maintain the fighting forces of the United States. Every dollar given to the United War Work Campaign is a dollar invested in morale. Let us all stand behind the war workers behind the front lines."

A READING ARMY IN FRANCE

Made Possible By Work of American Library Association.

"I found your books everywhere from the support bases to the front line trenches," so Raymond B. Posdick, Chairman of the Commission on Training Camp Activities, reported to the authorities of the American Library Association on his recent return from France. "I found them in dugouts thirty or forty feet below ground, in cowsheds where straw had blown parts of the roof away, as in substantial huts and tents far back from the firing line. I found them also in hospitals and dressing stations, in scattered villages in the training area where our men are billeted, and even in remote parts of France where our forestry units are carrying on their lonely but essential work."

"And they were all well worn books that I saw, showing signs of constant use. Indeed, the books are in constant demand, and I am sure that it will be a reading army that we shall welcome home from France when the war is done."

The continued service of this organization is one of the purposes of the United War Work Campaign.

William A. Lambert Dies

Well-Known Resident of Pine County Succumbs After a Brief Illness

Wm. A. Lambert passed away at 6 p. m. last Saturday at his home here after a 9-day illness from influenza, followed by pneumonia. The remains were laid at rest in the Catholic cemetery here, services with high requiem mass being held in St. Mary's church at 9 a. m. Monday.

"Bill" Lambert was born and raised here. Through 18 years of married life, during all of which he was engaged elsewhere, he insisted on making the "loved old town" his home. He liked his old home town and had many, many friends here about who liked him and his jovial disposition.

Deceased was born May 30, 1875, and after finishing the school opportunities here attended St. Thomas U. at St. Paul and Georgetown U. at Washington, D. C. Upon returning from the latter institution he undertook the management of a hardware store at West Duluth, where he remained for two years, and in 1898 went into professional base ball in the Copper country. In 1902 he played with the Duluth team in the Northern league, and was sold the next year, to the Kansas City team in the Western league, where he remained two seasons and then forsook the game for a traveling salesmanship, in which work he remained through life. His last position was as city salesman at Duluth for the Kelly-Howe-Thompson hardware company. He was a candidate for judge of probate of Pine County at the last election, and while he made no effort at conducting a campaign, made a handsome showing at the polls.

As a young man on the base ball diamond here in the old days of "Hurley's Barringtons," Bill was a whole show on the side lines, and he never lost his touch with humanity nor his love.

He leaves his wife, mother and two sisters and two brothers—Misses Lillian and Beas Lambert, of this place, John, of Two Harbors, and Bernard, of Helys—besides other relatives and hosts of friends to mourn his loss.

Why Compare Beef and Coal Profits?

Swift & Company has frequently stated that its profit on beef averages only one-fourth of a cent a pound, and hence has practically no effect on the price.

Comparison has been made by the Federal Trade Commission of this profit with the profit on coal, and it has pointed out that anthracite coal operators are content with a profit of 25 cents a ton, whereas the beef profit of one-fourth of a cent a pound means a profit of \$5.00 a ton.

The comparison does not point out that anthracite coal at the seaboard is worth at wholesale about \$7.00 a ton, whereas a ton of beef of fair quality is worth about \$400.00 wholesale.

To carry the comparison further, the 25 cent profit on coal is 3 1/2 per cent of the \$7.00 value.

The \$5.00 profit on beef is only 1 1/4 per cent of the \$400.00 value.

The profit has little effect on price in either case, but has less effect on the price of beef than on the price of coal.

Coal may be stored in the open air indefinitely; beef must be kept in expensive coolers because it is highly perishable and must be refrigerated.

Coal handled by the carload or ton, beef is delivered to retailers by the pound or hundred weight.

Methods of handling are vastly different. Coal is handled in open cars, beef must be shipped in refrigerator cars at an even temperature.

Fairness to the public, fairness to Swift & Company, fairness to the packing industry, demands that these indisputable facts be considered. It is impossible to disprove Swift & Company's statement, that its profits on beef are so small as to have practically no effect on price.

Ed says, "Some people say hunting is poor, but I say it's fine, among the cedar, balsam and pine—that's where I do my hunting. Don't get excited when you're hunting deer, but just take lots of time. Don't get the buck fever when you're hunting deer—that's how I get mine." Our understanding is, Ed figured that all out while waiting for the buck that he finally shot, and we can't help feeling that his friends will question his statement about "hunting deer."
