IMPORTANT NEWS FROM KENTUCKY

Now that the greatest war in all history has been brought to a glorious close the question naturally arises as to what effect peace will have upon securities in general, and particularly what stocks will be favorably influenced by the rapidly changing conditions.

BOSTON-KENTUCKY OIL COMPANY

With its immense acreage in Kentucky, comprising 1350 acres in Rowan county, and 960 acres in Clay county—all bought and paid for—and all carefully selected and potentially productive territory presents

AN OPPORTUNITY FOR YOU

to acquire an interest in proportion to your investment which should return you handsome profits and in a company where your interest carries what we believe to be a safe investment as well as possessing remarkable speculative possibilities. Regarding the oil situation after the war, it should be understood that there is, at present

A DEPLETION OF 100,000 BARRELS OF OIL

per day and 3,000 barrels of gasoline per day, as oil and gasoline are being used in these amounts in excess of the present production and manufacture. It is true that the oil and gasoline now utilized in war machines will not be required for such purposes at the close of the war, although there is the necessity for motor launches from France in bringing the armies, supplies and equipment to points of shipment to home countries. Furthermore, the navy is likely to be continued at its full strength in ships and men for perhaps two years after peace is signed. The building of merchant ships, however, will not come with the signing of peace. The present tonnage of merchant ships is less than it was in 1913. Where one ship is needed now,

THREE WILL SOON BE NEEDED

to meet the needs of the world's commerce, in peace. Practically all of the new ships built since the beginning of the war are oil-burning, and it is stated by the big reliable business men engaged in the oil industry, that the requirements of the world's markets will mean the need of oil and its products in constantly increasing amounts. With reference to the developments in Kentucky, we are pleased to say that at the close of October, 580 wells were in process of drilling, as against 548 at the end of September. During the month of October, 218 new commercial oil wells and 14 new gas wells were successfully completed, making an additional daily average production of 5,483 barrels of crude petroleum. In order that you may take advantage of the present offer of BOSTON-KENTUCKY OIL COMPANY Treasury shares at FIFTEEN CENTS per share, it will be necessary that your order of reservation be sent as promptly as this statement is moving rapidly and the next allotment will be offered at TWENTY CENTS per share. Bear in mind that our average is unusually large and our capitalization unusually small. Address all communications to

President Wilson—himself, his personal friend Col. House, his secretary of state Mr. Lansing, his diplomat Mr. White, and his military expert, Gen. Bliss—is on his way to attend the peace conference, the first president of the United States to set foot on foreign soil while occupying that high office. By his action, President Wilson has seemingly said to the American people, "I don't care about your unwritten laws, my own wishes are what I want." By his action, President Wilson has seemingly said, "there is no one else in the United States who knows what I know and can do what I can do." We believe he is wrong in both these positions, and are only sorry that he has so erred as to seemingly deliberately throw himself from the high place he occupied in the estimation of his country and the world. But, "God reigns and the government at Washington still survives," and, perchance, the country may yet discover that President Wilson is right.

Brer Buchanan of the Granston Advance, who is giving that town a whaling paper considering the size of the community, says The Poker Pine Poker appeared last issue with a metropolitan air due to the recent installing of a new linotype. It is without question that type slugs cast from a linotype make a newspaper pleasing in appearance and we feel assured that Brother Folson's attempt with his new typesetting machine will not only be the envy of many of his neighbor newspaper men, but that before long he will be issuing an eight-page, all home print paper. Here's success in abundance anyway, Howard.

News reports say that Secretary McAdoo states that further wage advances for railway employees operated further freight and passenger rate increases and that he does not believe that the public will stand for them. The anxiousness of many labor unions for wage increases is neither better nor worse than the grafting of the price increases, and only prove more conclusively that there are certain elements in this free land that would like to get into the junker class if they could.

Pine City Red Cross Notes
Jos. Schroder, of Bruno, was here the first of the week and drove home a team of horses given him—one furnished by August Kremmel, of Royalton, and one by Walter Peterson, living east of here. Mr. Peterson also has one more horse to give for a similar cause. Mr. Schroder lost 24 cattle and 4 horses, we understand, in the recent forest fires, besides lots of other goods.

On Monday the Red Cross loaded a car half full of potatoes and vegetables and filled the other half with furniture, which was shipped to Moose Lake for the fire sufferers. It had been hoped to have the produce contributed as the furniture had been, but only scant response was had to the appeal and enough was bought on the street to fill the portion of the car set aside for the purpose. We understand that the Red Cross at Rush City and North Branch have sent similar carloads to Moose Lake. In this connection, Chairman H. W. Harte of the local branch wishes to thank all of those who so kindly contributed to the vegetables or furniture. A. M. Challen for his help and kindness in looking after the loading, George Sherwood for hauling, and also A. M. Skramstad and Henry Davis for labor, and all others who helped.

This branch has made 5 quilts this month, which were sent to Bruno for the relief of fire sufferers.

The regular monthly meeting of the board of directors of Pine City branch was held in the Pine City state bank, on Monday at 8 p. m., the meeting being called to order by Chairman Harte. The minutes of last meeting and business report were read and on motion accepted.

The following bills were allowed: Pine City State Bank, one receipt book, \$1.25; H. W. Harte, 100 song books for Red Cross purposes, \$4; Mrs. E. D. Ayres, postage and express on shipments, \$1.50. The vice chairman reported a shipment of the following articles during the month of November: 81 sweaters, 160 pairs socks, 3 knit Afghan blankets, 75 property bags.

The following bills were allowed and ordered paid out of fire relief funds: Vibe City Mercantile Co., supplies, \$2; Ed. Prochaska, supplies, \$13.05; A. W. Piper, burial expenses of Ruth Peterson, \$44.50; Pine Poker, printing, \$9.25.

The report of the secretary showed the following financial transactions since Nov. 1:

Receipts:	
Balance Nov. 1st,	\$553.43
Donations	116.70
Total	670.13
Disbursements:	
Disbursements for Nov.	7.80

Donations since last report: Czecho-Slovak society, collections by Red Cross girls at bazaar, \$107.30; Joe Bader, \$1; Mike Kotes, \$2.

Fire relief fund receipts since last report are as follows: John Marshall, Hitchcock, \$; D. \$5; Joe Hajney, \$3; Morris Burlingame, \$8; Henry Mohr, \$1.

An International Service Built on Tiny Profits Per Pound

Some industries have been able to get in step with war demands more quickly than others.

In many cases mighty plants have sprung up—but at a prodigious cost.

The packing industry was able to adapt itself to unheard of demands more quickly, perhaps, than any other industry. And this was because the vast equipment of packing plants, refrigerator cars, branch houses, etc., had been gradually developed to its present state of efficiency, so that in the crucial hour it became a mighty international system for war service.

And how had this development taken place?

Not by making vast inroads into the capital wealth of the country, but largely by using, from year to year, a portion of the profits, to provide for expansion.

Swift & Company's profits have always been so tiny, compared with sales, that they have had practically no effect on the price of meat (amounting to only a fraction of a cent per pound).

And yet the owners of the business have been content with reasonable returns on their capital, and have been able, year after year, to put part of the profits back into the business to provide for its expansion.

These fractions of tiny profits have been repaid to the public many fold in the form of better service, and better and cheaper meat, and made it possible for Swift & Company to meet, undaunted, the sudden cry for meat for overseas.

Could any other method of financing a vital industry involve less hardship to the people of the country? Could there be a better instance of true "profit-sharing" than this return in added usefulness and in national preparedness?

Swift & Company, U. S. A.

To this end, he requests merchants to push their Christmas goods as early as possible and the public to do its buying now, and avoid the usual Christmas crowding.

County Auditor-elect Edm. informed The Poker when here to attend the meeting of the commissioners, Tuesday, that he does not plan on moving down to his Sandstone farm until next spring, but that he and Mrs. Edm. and the younger children will make their home here after that, while other members of the family will probably continue to operate the farm, which we know is a good one and in excellent shape.

The fact that there has been great interest in stories of French Canadian life in the north woods, but that few of these have been furnished to the screen, should furnish George Behan's newest role, "Tales of the Strong Heart," with an added attraction. The latest Behan picture, "Tales of the Strong Heart," will be the attraction, matinee and night, at the Family theatre, on Sunday. Also "Sheriff Neil's Tussle," a Sinnott comedy.

The G. A. R. ladies met in the Pythian hall on Tuesday afternoon. Dept. Pres. Levena Holmberg of North Branch and Dept. Sec. Marilla Stone of Rush City being present for the annual inspection. The following officers were elected for the coming year: Dora Hawley pres., Virgie Lones sr. vice, Arlie Wells Jr. vice, Agnes Clark treas., Alta Stephan conductress, Barbara Penhizer grand, Alvina Nester chaplain, and Malinda Webster patroness-instructor.

The installation will probably be held Jan. 7.

Wm. J. Lahodney, son of Mrs. A. Lahodney, of this place, and well known to all old residents here, where he was raised, was united in marriage with Miss Elizabeth Mylie, in the cathedral at South Bethlehem, Pa., on Wednesday of last week, and the happy couple left at once on a wedding trip, after which they will settle at South Bethlehem, where he holds a very responsible position in charge of the ammunition department of the South Bethlehem Steel Co. The best wishes of all of Mr. Lahodney's old home folks go to him and his bride for many years of happiness and prosperity.

The "war fund" campaign to raise money for all the various societies working among the soldiers here and abroad—excepting the Red Cross—was closed here the last of last week with a showing that is most gratifying and is highly commendatory of the organizing ability and leadership of Father Leo, who was chosen to handle the local work by County Chairman Ben Boo, and to the energy and tact of his assistants. The results, by teams, were: Father Leo \$433.50, J. J. Madden and Webster Dodge \$444.75, Mesdames N. Perkins and Hawley \$192, Jos. E. Patschel and J. Y. Breckenridge \$70, a total of \$1,140.25, besides which the schools, under the leadership of Misses Goodwin and Chierolo, returned about \$760 more, making the grand total for this district run about \$1,900, or "way over." Again, it is gratifying to all and a credit to those who wrought it.

There is still some money in the fund raised for the service banner for the boys from the Pine City community which has hung on the Hotel Agnes corner since last April, and it is planned to use this for the honor roll of the boys, which will be hung in the Armory and if any still remains in the fund, a new corrected service flag will be purchased for the Armory with a star for every man who entered the service and who received their mail through this postoffice, with gold stars for all whose lives are lost. A list of these, so far as known, will be published later, and relatives are requested to examine it and see that names of their boys are properly listed.

Lieut. Wilcox arrived home a week ago from the Norfolk navy yard for a 2-week furlough. Gerald Corrigan from the battleship South Carolina coming at the same time, while Dewey Wilcox, who was expected at this time, will be home later. Al Oman and Fred Brantjes, who have served on the battleship Massachusetts, arrived home last Sunday morning, having been honorably discharged from the service. First To Aid In Otranto Wreck

Red Cross Swift and Efficient Help Wins High Admiration.

IRISH BEHAVE SPLENDIDLY

Simple Folk of Islay Sacrifice Themselves in Rescuing and Giving Aid to Shipwrecked Sailors.

London.—So rapidly are events falling one after the other that the Otranto disaster may be considered an old story. Yet there is a very great deal which has not yet been told about how splendidly the Irish people behaved in supporting survivors and how nobly the simple folk of Islay sacrificed themselves in rescuing and giving aid to the shipwrecked soldiers who were cast many of them unconscious upon the wild Scottish shores. And the story, too, of the swift and successful aid furnished by the American Red Cross is one of which the whole United States can be proud.

U. S. PROFITS BY ALLIES' MISTAKES

Washington—America's success in the world war has been made possible as much by workers at home as by soldiers in France.

America was confronted by a tremendous task when the conflict with France became inevitable. The supplies the allies had required in the years since 1914 had necessitated considerable readjustment of labor and commerce in the United States, but with actual participation in the conflict greater changes had to be made. The work of American laborers in producing food, munitions and clothing enough for their own continent and the allies as well is one of the greatest performances of the war, or indeed, in history of any time. It has been made possible largely by careful organization of the nation's man power in order that every ounce of strength could be employed to best advantage.

BURIAL OF THE OTRANTO VICTIMS

The impressive burial service, that took place in Scotland, near the scene of the disaster of the mariner perished in the collision of the British transport Kaurismaki and the American troop ship Otranto between Scotland and Ireland in the North channel.

that spoke with all sorts of American accents from pure "Bostonese" to the hearty tones of the Pacific coast. Meanwhile came the news that other survivors and many bodies were likely to be found on the coast of Islay, off the Scotch coast, where the Otranto had perished on the rocks. It was known that the Red Cross organization in Scotland was trying to reach Islay, but it was doubted whether, owing to the terrible storm, travel by the usual routes was possible. So the Red Cross organization in Ireland decided to send an expedition on the point of Islay, Ireland to Islay. A party of eight, including two physicians, and carrying large quantities of clothing and quantities of medical and other supplies, made the voyage on a small vessel from the same port as the Otranto. Here, in Islay, it was found that the greatest loss of life had occurred, for the Otranto had gone on to the rocks close to the scene of the Pusan disaster.

Of her 450 passengers 20 men, including 17 officers, and 13 crew members of the crew, were the only survivors. These twenty, more dead than alive, were huddled on the rocks, a bleak and desolate scene, and were taken care of by kind-hearted cottagers who live on a barren shore at a little hamlet known as Kiltchannan, which consists of only a few houses, a church and a school-house.

Another particularly valuable thing was the Red Cross's furnishing of proper nourishment to the sick, while agents connected with the department of agriculture in other counties have supplied both food and clothing to the families of the afflicted or by boys sent under Y. M. C. A. direction.

At home demonstrations were held for the purpose. There are over 800 people absent from the mill today, which will show you how our efforts are needed. The Y. M. C. A. director is having our soup distributed by the boys and we are contributing it out in glass jars, fitted into the pasteboard boxes in which they were bought. This keeps the soup hot.

The central district agent in North Carolina is urging in the emergency ward at the State College of Agriculture and Engineering, the eastern district agent has been emergency nurse for members of the extension service in Wilson; a specialist in charge of his own institution and is in close touch with the local Red Cross chapter, which supplies many forms of non-medical assistance.

Emergency diet kitchens have been established in the domestic extension department in the high school at Asheville, and in its counterparts at Whiteville, Washington, N. C., also has a kitchen operated by a home demonstration agent who reports that she has been very successful in her work.

THE JOY OF MOTHERHOOD

Came to this Woman after Taking Lydia E. Pinkham's Vegetable Compound to Restore Her Health

Ellensburg, Wash.—"After I was married I was not well for a long time and a good deal of the time was not after getting on to go about. Our greatest desire was to have a child in our home and one day my husband came back from town with a bottle of Lydia E. Pinkham's Vegetable Compound and I bought it to try it. It brought relief from my troubles.

I improved in health so I could do my housework; we now have a little one, all of which I owe to Lydia E. Pinkham's Vegetable Compound.—Mrs. O. S. Johnson, R. No. 3, Ellensburg, Wash.

There are women everywhere who long for children in their homes yet are denied this happiness on account of some functional disorder which in most cases would readily yield to Lydia E. Pinkham's Vegetable Compound.

Each woman should not give up hope after reading this testimonial. Get Lydia E. Pinkham's Vegetable Compound, Lynn, Mass. The result of 40 years experience is at your service.

Chopping Him Off. "Say" said an impatient customer in the rapid-fire restaurant, "Do I get a little supper, or don't I?"

How They Conversed. An American liaison officer who knew little French and a French artillery officer who knew little English had important business together during the height of the recent fighting.

"Henri," said the commandant to a young sergeant, "I have seen you talking to Americans several times. Can you speak English?"

"No, mon commandant," answered Henri simply.

For all that, Henri and the American officer were soon engaged in a strenuous conversation. At its conclusion the commandant turned to Henri.

"But you speak English very well," he said.

"No, mon commandant," Henri said insistently. "We were talking in German."

It Didn't Work. The industrial stand before the judge, charged with cruelty to his wife. On the hope of obtaining custody he was told that he would pay his wife a cheap complaint.

"You're right now, judge. They get me wrong on this cruelty stuff. I've got some woman. She sure is hard to beat."

"Well, you seem to have overcome all obstacles. From her appearance," remarked his honor. And he handed him the limit.

YEOMAN SERVICE BY HOME AGENTS

States Relations Workers Do Not Hesitate When Called Upon for Help.

MAKE FIGHT ON INFLUENZA

Special Food Prepared by and Under Their Direction for Sick—Open Hospitals and Supply Nurses in North Carolina.

When the influenza epidemic made it impossible to hold meetings of any kind, the home demonstration agents, all over the country, in response to the call for trained, intelligent help, went to the rescue and have been yeoman service throughout the fight to gain the upper hand of the "flu."

Particularly valuable has been these women's knowledge of foods and diets. Vast quantities of broth, egg lemons, custards and other good things have been made ready for the sick by the energetic agents and workers. Of much importance in aiding to combat influenza are nourishing and proper foods.

Six hundred and sixteen pounds of beef and chicken were, in a short time, prepared for the sick by the yeoman service of the department of agriculture in Washington, turned into milk. Dozens of eggs and gallons of milk were also turned into the money of the home.

Dozens of eggs and gallons of milk were also turned into the money of the home. The withdrawal of all these men from industry proved a tremendous shock to the economic life of every nation.

France and England, it soon became apparent, had made serious mistakes. France was unable to produce the munitions workers were called into the army, and they suffered tremendous losses when the German overran Belgium and northern France. Munitions output slowed up, and only by the most heroic exertions were the French finally able to turn back the enemy at the Marne. Eventually the skilled machinists were called back into the factories, but they could do no more of better service than even in the first years.

England's similar experiences. In the patriotic zeal of thousands to enlist, for the voluntary system was retained in England for about three years. Little attention was paid to the retention on essential jobs of men whose places hardly could be filled.

America was able to profit by these mistakes of the allies, and from the start organized a war program on the basis of highest efficiency.

Agents in several counties, it is reported from Raleigh, opened and operated diet kitchens, co-operating with the Red Cross in furnishing proper nourishment to the sick, while agents connected with the department of agriculture in other counties have supplied both food and clothing to the families of the afflicted or by boys sent under Y. M. C. A. direction.

A home demonstration agent for Cabarrus county, North Carolina, writes: "I came to Kannapolis this morning to turn our cannery building into a soup kitchen. It is kind for the purpose. There are over 800 people absent from the mill today, which will show you how our efforts are needed. The Y. M. C. A. director is having our soup distributed by the boys and we are contributing it out in glass jars, fitted into the pasteboard boxes in which they were bought. This keeps the soup hot."

Mission Creek Town Board Meets Regular meeting of the town board held at Beroun State Bank Nov. 30, was called to order by Chairman Chas. Gass, all members of the board being present. Minutes of Oct. 26th were read and approved as read. On motion, bill of Howard Folson for advertising notices for bids on bridges was allowed in full. Chairman reported he had viewed the Mrs. Proffit road and found the work done as per agreement, and had seen L. A. Pepin, but he could make no other agreement on account of the road asked for by J. J. Kryzer's petition, on which said E. A. Pepin asks \$20 an acre for his low land, which he agreed to do at the time of hearing. He also reported he was in Pine City to see Engineer Buckley, and as he was not at home, word was left at the house for the engineer to be out at his earliest convenience to survey the 1/2 section line in section 9, T. 40, R. 21, for Frank Koop, as he has the contract for clearing the said line for a public road. On motion, communications were accepted and placed on file, and Mrs. Proffit's receipt for her work was ordered sent to her, together with explanation why the same was delayed so long. Clerk had reported he received a telegram from Dr. Stephan, of Hinckley, to quarantine Frank Harapat for smallpox, which he had done Nov. 20th. On motion, board adjourned for dinner. On motion, J. J. Kryzer's petition for road between sections 13 and 24, T. 40, R. 21, was laid on the table for want of funds. On motion, Supervisors Gass and Gerny were appointed a committee to interview Mr. Pepin to ascertain whether he would let J. J. Kryzer's children cross his land to school during the school term. On motion, Henry Douma's road, built by contract between sections 22 and 23, T. 40, R. 21, was accepted and ordered paid in full, with a deduction of \$10 for not having the job done according to contract. On motion, a bunch of bills were allowed and orders issued as per register, and then, on motion, the board adjourned to meet Dec. 28th, 1918, at Beroun State Bank--V. A. Mikyska, Town Clerk.

company has the new 20x30 addition for the hardware store completed--will be finished the last of this week or first of next--and will have a complete hardware stock on board as possible. Mr. Bracke will see that his customers do not suffer either in the lumber or hardware line.

The Farmers' club and the Boys' and Girls' club will meet at the Alexander Henderson home this week Saturday, when a good time is looked for. President Moshak of the County Farm bureau is to be present and speak, we understand.

Misses Sherer, who teaches in the Henderson school, and Ruth Lundin, who teaches in town, returned, Monday morning, from spending the Thanksgiving vacation with their folks at Sandstone and Hinckley, respectively.

The infant son of Mr. and Mrs. Jos. Lilla died at their home near town last Friday. He was interred in the Catholic cemetery here, with services in St. Joseph's church by Father Leo at 10 o'clock Monday forenoon.

Mr. Brown returned home last Saturday from Seattle, where he has been employed at iron work the same shopyard where W. H. Gilson is employed. Mr. Gilson is well and expects to stick to the job.

The following resolutions were received too late for publication last week:

The regular monthly meeting of the W. C. T. U. was held at the home of Mrs. Pennington, Tuesday afternoon, and after the general routine business was transacted, the meeting was turned into a memorial meeting in memory of the late Mrs. E. J. Clark, and the following resolutions were adopted:

Whereas, in His divine wisdom, it has pleased our Heavenly Father to remove from our midst our dearly beloved sister and co-worker, Mrs. Ida May Clark, and

Whereas, in the "passing on" of Sister Clark the people of Pine City have lost a good neighbor and faithful friend; the church a most faithful member; the Women's Christian Temperance Union a loyal, untiring worker, one whose wise counsel and sane judgment was keenly respected by all; the husband and little son a very kind and most affectionate father and mother, whose unshakable disposition had endeared her not only to her immediate family, but to all who knew her best.

Resolved, that the heartfelt sympathy of each and every member of our local union be extended to the bereaved husband and son, in this their hour of affliction, and we would commend them to Him who doeth all things well. Be it further

Resolved, that a copy of these resolutions be spread upon our records, a copy mailed to the bereaved husband and son, and a copy published in the local papers--Mrs. Agnes Clark, Mrs. Alberta Boyle, Mrs. Elma Goff, committee.
