FIELD MEET AT MORA MAY 28

Baseball, Track and Field Contests and Declamatory

At a meeting of the superintendents of the eight schools which comprise this district, known as the Little Eight, held at Hinckley last Thursday, Prof. A. N. Damon of this village was elected president and Mora was chosen as the place for the field and track meet for this year. The date was set for May 28. The ball game at the Fair grounds will be the first event on the program and will be fought out by the two teams winning the largest number of games during the conference season, and this will be followed by the various contests in the field and track meet. The declamatory contest will be held at the high school auditorium in the evening and one boy and girl from each of the eight schools will compete for honors.

The grand sweep stake will be given to the school winning the most points in all four activities, namely track and field, base ball and boys and girls declamatory contest and the trophy will be a loving cup. A silver medal will be given to the pupil receiving most points and a bronze medal to the one receiving the second highest number of points. Points will also be given to schools in each of the four activities.

The entire program will net 400 points and will be divided into 1st, 2d and 3rd prizes in each contest except in base ball. Each 1st prize will count 50 points, 2d 35 and 3rd 20.

Weightlifters have been divided into two groups, one to comprise the towns of Hinckley, Sandstone, Mora and Milaca, the other towns of Pine City, Rush City, North Branch and Cambridge. The ball teams in each group will compete for 1st, 2d and 3rd prizes. The winning team of each group will compete for the prize on the 28th of May.

The people of Mora should consider it an honor to secure this meet and each and every one should plan to attend and do a little honoring for our boys and girls.—Mora Times.

Judge Stark Gets State Office

Judge Edward W. Stark, probate judge of Chisago county, has been appointed by Governor Prosser as a member of the State Securities Commission. He will have his office with the commission in the State Capitol at St. Paul and will receive a salary of \$4,500 per year. His term lasts for six years.

Other members of the commission will be Dr. Hans of St. Paul and State Sage of Butte, Pearson.

Mr. Stark represented the district

in the state legislature for three or four terms about twenty five years ago and has served as Judge of Probate for nearly twenty years. He has been a member of the Republican State Central committee for some years.

So far as we know he has not yet resumed his Judge or Probate. His successor in this office will be appointed by Governor Prosser and, while nobody knows what action the governor will take, the names of Hon. Victor L. Johnson and Peter G. Samsen are heard in connection with the office. Both are well known in Chisago county the former having served as County Treasurer and State Senator and the latter as Clerk of Court.

Any appointee will have to stand for election at the next election although the nominal term of the office is for four years.—Taylors Falls Journal.

Celebrate July 4th

Zip! Boom! Bang! The Pine City Fire Department, the pioneers of celebrations, will stage a real 4th-of-July Fourth of July celebration this year.

Plans and details haven't been worked out as yet, but every member of the department is very enthusiastic and it promises a good time for folks in this part of the state for our National holiday next July.

Changes in Game Laws

St. Paul Dispatch.—An open season on prairie chickens in 1921, and in all odd-numbered years hereafter probably was the most important change in the game and fish laws of the state as made by the 1921 legislation. Carlos Avery, state game and fish commissioner, said Saturday. The open season in odd-numbered years is to be from September 15 to October 1, inclusive and the bag limit nine birds for one day and 8 for the season. Hunters will be allowed to use dogs for hunting. According to a list prepared by Mr. Avery, the important changes resulting from the session of the 92d legislature follow:

Deer and Moose.—Season, shortened to 11 days—November 10 to 20 inclusive, every year—no restrictions as to age or sex of deer. Meta locking seal required to be attached to each carcass.

Fish.—Angling season for all fish, except trout and black bass, to open May 15 instead of May 1. Trout seal has been unchanged. Size limit on crappies increased from six to seven inches in length—twenty crappies a day.

Licenses.—Resident big game hunting and non-resident angling license fees raised from \$1 to \$2. Other license fees unchanged. Non-resident license required for spearing as well as angling.

Fish houses.—Season for use of fish houses to open December 15.

Mr. Stark represented the district

ON MOTHER'S DAY

SENATE PASSES ANTI-ALIEN BILL

Measure Limits Admission of Each Nationality to 3 Per Cent of Those Here in 1910.

VOTE STOOD 78 TO 1

Conference With House for Adjustment Planned; Exemption for Political or Religious Refugees Is Denied.

Washington.—The Senate passed the emergency immigration bill fixing admission of aliens to 3 per cent of each nationality resident in the United States in 1910. The bill is effective for fourteen months, beginning fifteen days after enactment. The vote on passage was 78 to 1. Senator Reed, Democrat of Missouri, opposing the measure.

Measure to Conference.

The measure is subject to conference with the House to adjust differences made in it as passed by the House. Senator Gillett of Rhode Island, chairman of the Senate immigration committee; Dillingham, Republican of Vermont, and King, Democrat of Utah, also committee members, were appointed conferees on the part of the Senate.

As sent to conference, the measure would allow an exemption for the 3 per cent or race of aliens in excess of the 3 per cent limitation, and those entering under treaties and agreements. Provisions to exempt those coming here to escape religious or political persecution from the 3 per cent limitation were contained in the bill as it passed the House, but were stricken out by the Senate immigration committee when it amended the House bill and submitted the original Senate measure in its place.

Amendment Defeated.

Senator Johnson, Republican, California, sought to have this provision reinserted by offering an amendment from the floor, but was defeated, 15 to 60. Sharp clashes occurred during debate on the amendment, opposing senators charging that it would preserve the doors to hundreds of thousands.

Plan for Refugees.

Senator Johnson said it was offered to "preserve a very dear and sentimental precedent" and said it did not offer a loophole such as was feared for the reason that government administrative officers would establish accurate facts in each case.

Stary Goes to Worthington

County Engineer Stary returned from the meeting of the state highway department, the first of the week and announced his intention of accepting the position of one of the sixteen district superintendents under the new highway plan.

He will have charge of the state road work in nine counties, in the southern part of the state with headquarters at Worthington.

Mr. Stary has proven his ability as an engineer, while in charge of Pine county roads, and it is but a matter of time before he will be promoted to the state department, that he is chosen one of the 16 heads out of the 48 county engineers of the state. He expects to leave in about a week for his new position.

considering and will probably accept one of them.

Engineer Cowell, superintendent of this district, in charge of Police No. 1, from the south line of Chicago county to the northern terminal, has tentative plans for traveling from the Pine county line to Hinckley and will in all probability have a fleet of trucks and big graders at work in a short time.

Pine City Defeats Mora

The Pine City High school basketball team defeated the Mora team last Saturday afternoon, on the local grounds, by a score of 7 to 4.

Pine City was the first to score, their first marker coming in the first minute of a walk and two and a half. Mora's big inning was the 6th when they scored 3 times, giving them a total of 4, one run having been scored in the early innings. The efforts of the Mora pitcher, who is a left-hander did not puzzle the locals as the score would indicate. Wehrli was on the mound until the sixth for the locals, when Klocker took the mound and he did the better in check for the remainder of the game.

The next game is with the Hinckley high school which will be played next Monday night after school. Get out and boost for home boys to win.

Will Give Opera

The grade pupils of the local school, will give an Opera in the Family Theatre Wednesday, May 18. The first part of the program consisted of a contest by the pupils of the 1st six grades. The seventh and 8th grades will give a little playlet.

Notice

Notice is hereby given that the election to be held May 17th in the town of Chequamegon has been postponed until further notice.

Murder Suspect Held

Roy Lilla, a young man of Minnesota, is being held in the Washington county jail on suspicion for the murder of Peter M. Carlson of Shafer on April 17.

Lilla is a distant relative of the murdered man and his familiarity with the premises and the roads to the house led the authorities to believe that he might have some knowledge of the affair. They were strengthened in this belief by the actions of his mother at the funeral and the fact that he himself did not attend the funeral.

Assists Farm Bureaus

Reviewing the work of the recent Minnesota legislature as it directly affects county farm bureaus and county agents, E. E. Balmer of the state farm, state leader of county agents, says that House File No. 260, which became a law, is calculated to improve and increase farm bureau activities from the fact that it permits the state to apply \$2,000 annually, instead of \$1,000 as formerly, in large counties which have a real need for two or more county agents in order that their territory may be adequately served. No more than \$1,000 of state money can be applied to any one agent in a given county.

More than one agricultural agent, or at least an assistant agent, says Mr. Balmer, "should be employed in such large counties as St. Louis, Itasca, Aitkin, Beltrami, Mar-

shall, Polk, Ottertail, Stearns and some others. The changes in the law also make possible more adequate financing where it is desired to employ a home demonstration agent, or a county club leader in addition to county agent."

Mr. Balmer further reports that the law permits counties to appropriate annually up to \$5,000, instead of \$3,000 as formerly, for county agent work. Counties having more than 150 congressional townships may appropriate not to exceed \$15,000. This provision applies only to one county—St. Louis.

As to finances in support of county extension employees, the legislature appropriated \$1,000 to each of the counties now cooperating in the work or a total of \$84,000. Only two counties in the state, Grant and Douglas, are doing no county agent or farm bureau work.

Two Fires Tuesday

The fire department answered two calls, last Tuesday, one for a fire—rubbish heap—near the Hotel Agnes and a fire at the G. A. Robinson farm, south of town.

A new roof had just recently been put on the hotel, and the old tin roofing, covered with tar, piled in a heap. They planned on having it hauled away in a day or two. It caught fire some way, and the wind from the burning tar was very dense. Residents thought the hotel was on fire. The fire department had it under control in short time and no damage was done to the building, although the heat was intense while it lasted.

A chicken house, on the Robinson farm, caught fire from one of the brooder lamps, and before discovered, had ruined such poultry that the building and contents was completely destroyed. There were about 450 small chicks, in the building, about a 100 being saved, while the balance were lost, also 2 brooders and a brooder stove.

The fire was discovered by the hired man, who called Miss Robinson—her father being away at the time. She rushed to the building and succeeded in saving about a hundred of the chicks.

The garage, which was only a few feet from the burning building, caught fire a couple of times and bit for the hard work of the fire fighters, would have been burned as well.

A call was sent to the fire department at Pine City, who promptly responded, but the building was beyond saving, when they arrived. The haul proved its worth, in handling the flames, and kept the fire from spreading to other buildings.

Hold Joint Exercises

G. A. R. and American Legion Posts to Hold Joint Memorial

The G. A. R. and the American Legion posts of Pine City will hold joint memorial services Decoration Day, Monday, May 28th. Definite plans haven't been completed, but they will include a parade of veterans, the old and new and service at the cemetery, also planting flowers on the water. It is planned to have all speaking at the cemetery this year.

At the Legion meeting, last Tuesday evening, M. B. Harley, Sir Brooke and Cliff Perkins, were appointed a committee to work with and give any assistance possible to the G. A. R. post, to make Memorial Day in Pine City, one of consecration to the memory of those who gave their lives for their country.

COMING TUESDAY

Reports coming from the west are to the effect that there is an increasing death of the genuine hard pine and some mixed second class lumber, there was a time in the memory of some of the oldest of our men when the honest to goodness cargo was sold out of Great Central and no real regular army outside with the Indians were as common as some flies in the summer-time.

But alas, time has taken its toll in pine as it has in most everything else. The death of range pine has been severely felt in the West, and some lumbermen, "The Struggle" in which Franklyn Fernon is to appear at the Family theatre on Tuesday is one of the old timers.

Ehler Rohweder Dies

Ehler Rohweder passed away at the home of his son, Peter, living east of town, last Friday. Funeral services were held at St. Charles church, Monday, and interment in the local cemetery. The survivors were: Wife, Emma; two sons, Earl and Nick; and a daughter, Mrs. Wm. Engler.

The deceased was born in Germany 84 years ago, where he was married before coming to America. He resided about 20 years ago. He lived in Indiana about 14 years, 18 years in Illinois, and has made his home in Minnesota the past 18 years.

Good at Thanks

We wish to express our sincere thanks to our many kind friends and neighbors for the sympathy and assistance during the illness and death of our beloved father—Mr. and Mrs. Peter Rohweder.

The Kitchen Cabinet

It knows the most who knows what is good for you. In the kitchen cabinet, the plants and the spices and the herbs are the most important in the rich and royal menu.

With the new vegetables coming in to add variety to the menu, the following dishes will be suggestive:

Spring Cabbage Salad.—Cook a six-pound head of spring cabbage until tender, drain and chop. Put a quart can of tomatoes through a colander, season with a tablespoonful of lemon juice, two teaspoonfuls of salt,

one-fourth teaspoonful of pepper, and cook until thick and smooth, stirring constantly. Add three tablespoonfuls of flour and three of butter (rubbed together), continue cooking until well cooked. Arrange the cabbage and tomatoes in layers in a two quart casserole or baking dish, and cover the top with buttered crumbs. Bake until the tomato liquid is bubbling all through the cabbage and crumbs. Serve hot.

Chicken and Spinach Soup.—Wash and pick over two pounds of fresh spinach and cook in one-half cup of butter for five minutes, or until tender. Add one-half cup of flour mixed with one tablespoonful of salt and three-fourths teaspoonful of white pepper, stir into the spinach. When cooked and thick rub through a colander into two quarts of chicken broth. Stir until it boils and serve in bouillon cups; garnish with whipped cream.

Casserole of Mutton.—Cut from the middle of a leg of mutton a slice two inches thick. Remove the bone and trim the fat. Sprinkle with salt and pepper. Dredge with flour, salt and pepper. Prepare in the casserole a sauté, one-half cup of brown stock, a dozen olives, six pepper corns, three white cloves, and one tablespoonful of lemon juice. Brown the mutton in butter and add to the mutton, cover the casserole and bake for one and one-half hours in a moderate oven.

Italian Codfish.—Beat two eggs, adding one-half cup of milk and two tablespoonfuls of flour, one tablespoonful of oil, one egg, one slice of garlic alled. Place four tablespoonfuls of olive oil in a saucepan and add one quart in two cupfuls of baked codfish. Brown and squeeze over a little lemon juice. Serve with the sauce.

Fried mince omelet.—Beat into six eggs one cup of mince. Fry in butter in a pan. Break to the omelet when you believe it is done.

WHAT TO EAT. Those who enjoy the little French cream cakes need not fear to make them at home, for they are very simply made. The baking is necessary, and it is important as the mixing.

Cream Cakes.—Put one-half cup of butter, one cup of lard, one cup of sugar, and one cup of flour all in one bowl, stirring vigorously until smooth. Remove from the fire and add one cup of sugar, one cup of flour, and one cup of butter. Beat until very light. Cook them and add with a knife on the side making a large enough opening to fill with a sweetened and flavored cream. Bake in a moderate oven.

Sausage Potatoes.—Select large new potatoes and with an apple core, cut in quarters. Longitudinally fill with little sausages and bake on a rack in a dripping pan in a moderate oven. Serve with the gravy seasoned and thickened. A rolltop slice of bacon may be used instead of the sausages if desired, or chopped meat seasonings may be used. Stop the ends with a bit of the core taken from the potato.

Pineapple Delight.—Take a small can sliced pineapple, cut in small dice; cut in quarters one-half pound of marshmallow and melt them in one cup of sugar. Put the pineapple cream, add the sugar and pineapples. Whip one quart of cream, add Bavarian and stir in the marshmallows. Serve in sherbet cups, garnish with a cherry or bit of citron sugar.

Apricot Sherbet.—Take one quart of apricots, put through a colander of a tenon, and one cup of each of sugar and cream. Mix well. Freeze in one quart of sherbet glasses. This makes two quarts.

Treat Lambs When Young. Lambs should be castrated and docked when ten days old. It is the best check of these operations upon their systems is less than that at any other time.

Like Begets Like. It never pays to expect 300-year plants from a six-year tree. Remember that like begets like.

Will Ruin Pasture. Overgrazing will ruin the best pastures.

T. J. PARKER
4246 Juneeu Street, Seattle, Wash.

"I used to think all the Tanlac testimonies were exaggerated, but I have felt, thanked a thousand times I ever believed in it, strong enough to give me the medicine a trial," said T. J. Parker, well-known salesman for Tanlac's Clothing Store, residing at 4246 Juneeu St., Seattle, Wash. "Several years ago I commenced having periodic spells of sickness and a few months ago I had an attack that I thought would finish me. When I finally got up, I was scarcely able to get on my feet, and what little I forced myself to eat caused so much gas on my stomach I could hardly get my breath."

"At night I was often so bloated I couldn't breathe while lying down and just had to sit up and struggle for air. At times I had cramps so bad I could hardly endure it."

"My liver was sluggish and sometimes I got so dizzy I would nearly fall. I felt tired and miserable all the time, couldn't even sleep and for days at a time I wasn't able to go to work."

"Well, a friend of mine finally got me to try Tanlac, and it certainly has done a good job for me. My appetite is fine now and although I am eating just anything I want, and as much as I please, my stomach never gives me the least trouble. I have picked up my weight, my strength has come back to me, and I am now enjoying the best of health."

"All the men at the store know Tanlac put me back on my feet, and I am glad to give this statement for what it may be worth to others."

Tanlac is sold by leading druggists everywhere.—ADV.

Useless propaganda failed to interest any man in calories or vitamins.

ASPIRIN

Name "Bayer" on Genuine

Warning! Unless you see the name "Bayer" on package or on tablet you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the package for Colds, Headache, Neuralgia, Rheumatism, Eczema, Toothache, Lumbago and Pain. Handy little package of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell large packages. Aspirin is the trade mark of Bayer Manufacture of Munchen-Badearieder of Salzebad.—ADV.

A ring around the moon is a sign of rain and a plain ring around a woman's finger indicates more rain.

The invalid realizes that he is on the high road to recovery when he sees the doctor's bill.

Absence of Disease Isn't Health; You Need Vitality, Energy

You may have no particular disease, and yet fall far short of enjoying real health. To be actually healthy you must be sturdy, alert, vigorous, sparkling with enthusiasm and the joy of living—fairly bubbling over with vitality and energy. Am you so? It is discovered by you are weak, yet listless and unambitious, it is because you lack some quality that would fill you with an ardor, and nine times out of ten the sole cause of this lack is found to be disordered, weak blood.

Get S.S.S. from your druggist today. Start taking it and then if you want expert medical advice free, write in detail about your condition to Chief Medical Advisor, 682 Swift Laboratory, Atlanta, Georgia.

Wholeblood is the very fountain source and then if you wish your blood to be fresh, new, clean, snap into your step and sparkle.

Rochester—The Olmsted county girls' vocational guidance conference consisted of a two day session here. Miss Maria Leonard, of Coe college, Cedar Rapids, Iowa, was the principal speaker. Delegates are practically all college girls in the county.

Winona—A 1,000 page patent, in which nearly 1,000 citizens are expected to take part, will be conducted here June 27-28, according to an announcement. All organizations in the city are expected to share the expense of the patent, which is planned to be a community affair.

St. Paul—Charles B. Noyes, veteran of the Civil war and for years head of the local fire department, died at the Miller hospital, following an acute attack of appendicitis. He was 69 years old. Mr. Noyes was president and co-founder of Noyes Brothers & Co., retailer, wholesale druggist, and a former leader in a number of religious, social and business organizations.

Minneapolis—High schools and graded schools throughout the state will suffer from a serious teacher shortage next year, according to a report prepared by H. C. Sells of the college of education, University of Minnesota. Mr. Sells found that 4,402 teachers are needed next year, but only 3,000 are in training in the state university and the state normal schools are expected to furnish about 2,000.

Olyvia—Thousands of persons joined with Oliva in paying final tribute to Michael J. Dowling, internationally known resident of this city, who died at St. Paul hospital after a brief illness. "There was many a fond remembrance of the way in which he lived," the column that wound through the rotunda of the Rotunda county court house that bore him to view, the body that lay in state there. They were the miles around, from every part of the state.

Redwood Falls—A case on the stand of the greater term of the district court which promises to be of unusual interest is that of Rev. Albert Torbett against M. M. Stewart.

Little Falls—Representatives of 98 potato exchanges in Minnesota are expected to be in this city May 19 for a special meeting. Directors of the state exchange will conduct a three day session here.

St. Paul—Sedgwick federal insurance amounting to \$27,000 was reinstated through the efforts of officials of American Legion headquarters, Department of Minnesota offices, St. Paul, during the 20-day period ended April 1, last, according to reports here.

Winona—Mrs. Floyd Knox, 19 years old, living on a farm six miles south of Houston, was burned to death when a cat bereaved with a tin was wedged in the fire in the kitchen range exploded, firing flaming liquid over her body and about the room.

Minneapolis—Appeal of Mike Weiss in the United States circuit court of appeals from his conviction of the crime of Whitey Smuggling, Minneapolis whiskey smuggling company, has been placed on the calendar for the May term. Weinstein was convicted and sentenced to 18 months imprisonment and to pay a fine of \$5,000.

Rockford—A dozen passengers were injured and nearly 100 more were badly shaken when a Row Line train sped into a ditch at a sharp curve on the west of Rockford and about 35 miles northwest of Minneapolis, was derailed.

St. Paul—J. A. O'Grady was named as chief executive of the soldiers' home board at a meeting of the home board in the office of Adm. Gen. W. P. Hainson. Mr. O'Grady has been serving in that post since he resigned his commission, but was elected under the provisions of the laws enacted at this legislative session.

Albert Lea—Fire of unknown origin completely destroyed the Andrew Johnson hardware store, the Anderson & Co. warehouse and a store with a dwelling above in Manchester, nine miles from here, with an estimated loss of \$20,000.

Marquette—The Southern Minnesota Osteopathic association will meet here May 7.

Spring Clean-Up
Campaign

May 1 to May 7

Remember the time, may 1st to May 7th. One solid week to clean up and paint up, with a cleaner and healthier Pine City when the week is over.

ROCK CREEK NEWS DEP.

Miss Williams, local teacher, spent the week-end at the home of her parents in Hinckley.
Barney Grossman returned here, Monday, after spending the past 10 days with his family in Duluth.
The Holloway road shows closed their run here, last Sunday evening, after a weeks showing of movies.
A sum of money was found in Rock Creek. Owner can have same by describing property.—J. C. Smith
Mr. and Mrs. Walter Christian of Minneapolis, spent Saturday and Sunday at their sons of their parents. Mr. and Mrs. J. D. Pavin.
Mrs. Oscar Hartz returned from Minneapolis, Wednesday, after a ten days' visit spent with relatives and friends.
Swan Peterson, living northeast of town, commenced work on his new barn, which is to be 32x42, on Monday of this week.
Mrs. O. W. Barringer and children visited at the home of her a sister-in-law, Mrs. Wm. McQuire, in Pine City, last Saturday.
C. V. Atkins began work on the foundation for his new home which he is building just west of town, on Monday of this week.
The ladies aid will meet tomorrow—Friday—at the church. Mrs. Chas. Merritt, Mrs. J. C. Smith and Mrs. Ota Schmidt will entertain.
Mrs. Andrew Olson returned from Hinckley, Sunday, where she has been receiving medical treatment. She returns very much improved in health.
The Farmers Club meeting which was to have been held Wednesday evening of this week has been postponed until Monday evening, May 10th. All are invited to attend.
Mrs. Peters and her two daughters, arrived from Grove City, Ia. this week and are here for an extended visit at the home of her parents, Mr. and Mrs. J. C. Smith.
Ludwig Johnson and Mrs. Fred Hartz drove to the city, last Friday, returning to this place on Sunday. They were accompanied home by Mrs. Johnson, who spent the past week visiting there.
George Bornhoft is expected home today, from Big Falls, where he has a home-stay, for a visit at the home of his parents, Mr. and Mrs. N. J. Bornhoft.
Mr. and Mrs. Walter Erickson left Sunday for Imham where he will spend a week visiting at the Alfred Erickson home. He will return to this place before leaving for their home in Montana.
Hartz and Johnson have installed the soda fountain which was formerly in the Ed. Anderson store and soon will be able to serve the different sodas and phosphates. They have also improved the front of their store by adding a new awning.
A kitchen shaver was tendered Miss Ellen Rydland, Friday at the 22nd at the home of Mrs. Ernie A. Stevens. Miss Rydland was presented with many beautiful and useful gifts by those who gathered to wish her a long and happy married life.
The creamery meeting held last Thursday was well attended, about 50 being present, and work concerning the creamery was discussed. A delegation has been organizing the stock holders the past week and settlements for shares are being made daily by the end of this week most of the money will be in so that operations will soon be able to be carried on. Several applications of buttermakers have been received but as yet none have been signed up.

Henry Kreuger motored to the Fred Aasness home at Beroun last Saturday and on returning home in the evening the motor refused to work, a short distance this side of Beroun. He left the car standing along side of the road and on going after it Monday found that some one had relieved him of all his tools and battery, and everything else that was found in the car. This is the second instance that cars have been stripped in that vicinity this spring and is undoubtedly the work of local talent.

A large number of friends tendered Mr. and Mrs. E. J. Anderson a farewell party at the hall, on Monday evening of this week. The Andersons have made this their home for the past nine years and have made many friends who are sorry to see them leave Rock Creek. A social evening was spent after which refreshments were served. Mr. and Mrs. Anderson expect to leave for Minneapolis, next Sunday, for a few days visit after which they will go to North Dakota where they expect to locate.

Hansen-Rydland
The marriage of Ellen, Louie, the daughter of Mr. and Mrs. J. G. Rydland and William M. Hansen, son of Mr. and Mrs. C. N. Hansen, took place at the home of her parents Saturday afternoon of last week at 1 o'clock. Rev. Davis of Rush City read the ring ceremony which was performed under a large wedding hall. Only members of the immediate families and intimate friends were present.
Miss Mae Gilbert played a program of nuptial music before the ceremony. The bride entered to the march. Her attendant was Miss Margaret Hansen, sister of the groom, Mr. Charles Rydland was best man.
The bride's gown was of white crepe de chine with a veil held in place by pearls. Her bouquet was bridal roses.
The bridesmaid was attired in pink georgette. She carried pink roses and sweet peas.
After the ceremony the guests sat down to a bounteous four course dinner. Misses Mae and Cora Gilbert, Myrtle Rudquist and Lillian Carlson served.

The out of town guests included Misses Margaret and Anna Hansen, Mrs. E. H. Wright of Duluth; Mr. Henry Hansen, Mrs. Frank Schuster, Mrs. Wm. Aurluff, Mr. and Mrs. G. Dwyer, M. Larsson, and Leslie Smith of St. Paul; Mr. and Mrs. E. A. Peppin of Hinckley; Mr. and Mrs. C. O. Wiggins and Louise Wiggins of Red Wing.
The bridal couple left for a short trip through the southern part of the state and will return Saturday of this week.
Both bride and groom are well known in this community and the Pine Poles join with their many friends in extending congratulations and best wishes.

Card of Thanks
To our friends and neighbors and the Modern Wivesmen of Rock Creek Camp we wish to extend our grateful thanks for their assistance and the kindness shown us during the sickness and death of our beloved daughter and niece. Especially do we thank Mr. and Mrs. Bert Bayler and family, Mr. and Mrs. Tom Corrier and Mrs. Charlie Grundlin, Mr. and Mrs. H. A. Linnell and children.
Mr. and Mrs. W. A. Hellig, Mr. and Mrs. J. I. Neytan.

BEROON NEWS DEPARTMENT
Mrs. John McCoy left last week for Illinois, where she will visit with friends for awhile.
Henry Copolovich, the insurance man, of St. Paul, has been looking after his business here this week.
The town board met, last Saturday, and got plans pretty well lined up for the spring and summer road work.
Ernest Strohkreich and son, Clarence, from Withee, Wis., are busy clearing up and fencing their place close to town.
Mr. Barren of Waukesha, Wis. is spending a few days visiting at the home of his brother, Harry Barren, in Meadow Lawn.
There will be a dance in Prochaska's hall, Saturday evening of this week. Angelo Yold will furnish the music. Supper will be served at the hall.
Mr. and Mrs. D. A. Hackett were invited into the Eastern Star lodge at Pine City, Wednesday evening of last week. Refreshments were served after the initiation.
Frank Yildes has purchased part of the old Gast Strohkreich building and will move it onto the lot adjacent his shoe shop, where he will build Mr. Strohkreich is building on the property just north of his old home. The roads are in pretty good shape now and a little warmer weather will see work started on considerable building for the Beroun vicinity. A number of farmers will put up barns and there will be quite a little building here in town.
A fine crowd attended the bel club dance in Prochaska's hall, last Saturday evening, notwithstanding the bad weather. Thorne's orchestra from Sandstone furnished the music and their music was so well liked, that they have been engaged

for another dance for the near future. No "rough stuff" will be allowed at these club dances, which will be good news for dance fans who enjoy attending a clean dance.
PEOPLE OF OUR TOWN
CABLES CHANGE
The booster is the town's most useful citizen, because he unselfishly supports every movement to better the town and make it a better place to live. Everyone answering the above description is a Humble Booster. For the Number of Boosters in Our Town, see the last Census Report.
Cured by Gold Injections.
The very latest and sure discovery is the curing of certain ailments by means of injections of diluted gold. This very expensive method of restoring lost health was discovered by a French doctor, who has completely cured a wealthy Parisian of a complaint similar to shell-shock. Although gold is very scarce at present, a limited supply is available for medicinal purposes. The price for one injection of good quality gold sometimes reaches the fifty-pound mark, while in one or two exceptional cases gold injections have cost over a hundred pounds each. Consequently, only very rich persons can at present undergo this gold treatment, which has been successful in restoring several cases of complete nervous breakdown. It should be remembered, however, that the gold itself is of great value as a tonic. The idea in making the injections is to give up the patient and prevent him or her from brooding too morosely. This done, doctors believe that half the battle is won. Strangely to say, the injections are not made through the usual type of syringe, but generally through a central-shaped tube of pure platinum costing over twelve hundred dollars.

The booster is the town's most useful citizen, because he unselfishly supports every movement to better the town and make it a better place to live. Everyone answering the above description is a Humble Booster. For the Number of Boosters in Our Town, see the last Census Report.

Covering the Field
A newspaper should be a complete record of events and offer a comprehensive picture of living conditions in the field in which it is published.

Back Yard Fruit
Formerly many people in Pine City used to have a few fruit trees or vines in their back yards.

Retail Operating Expense
The University of Wisconsin's study of retail distribution brings out the idea that increase in volume tends to produce a low carry expense.

President Harding's recommendation for economy are enthusiastically accepted by the congressmen, except that each one has mental reservations in regard to his own district.

The public benefits from this policy not merely in the low operating costs found in an advertised store, but in the fact that the advertiser gets business volume, and is able to pay to excellent advantage.

The politician can perhaps be persuaded to support the idea of removing superfluous office holders, and some of them are doing so.

The law our country needs today... For which most fervently we pray... Will carry for its leading cause; Abolishment of damphule laws;

Making Farm Homes Modern

As long as farmers' wives are doomed to the drudgery of pumping water—to long walks and from the well for heavy buckets—just so long will farm and city homes remain subject to the danger of diseases and illness due to impure water supply.

A "PAUL WATER SYSTEM"

does away with this drudgery. It also opens the way to sanitary sewage disposal, which safeguards the health of your family. Costs little compared to the comfort and convenience of your family.

We make a specialty of designing septic tanks. No charge made for this service.

JUST AS IMPORTANT

Waiting until the real hot weather is here before starting to take ice may be false economy.

Food which you may think absolutely untainted but which in reality is unfit for the human system, is very common at this season of the year.

Food kept ice-cold is more pleasing to the palate and keeps appetites whetted for every meal.

Phone us today—our wagon will call.

LOUIS VOLENEC

Local News

The Eastern Star lodge will give a card party in the Masonic hall, next Wednesday evening.

Joe Kubitek spent the week end with his mother here, returning to the Twin Cities Monday afternoon. A good Kosciuszko left for Marble, Minn., last Saturday, where he will play base ball with the marble team, this summer.

Miss Harriet Apol and Miss Mary Peers, local teachers will spend the week end at Duluth, visiting friends.

Gust Nelson, came up from Minneapolis, Tuesday, and will spend week here visiting friends and looking after some business matters.

Miss Mary Peers came up from her home at Rush City, last Friday evening, to attend the senior class play.

The Pythian Sister lodge met in the K. P. hall, last Saturday afternoon. Mrs. Zumboni of Owatona, grand chief, was present at the meeting.

Frank Stuchl accompanied his sister and brother-in-law up from Minneapolis, last Saturday. They made the trip by auto, returning Sunday.

Miss Agnes Daley spent the week end at the home of her parents, Mr. and Mrs. Henry Daley, returning to her teaching at Cloquet the first of the week.

Henry Fara left for Hinckley, Sunday, taking possession of the butcher shop, which he recently purchased, Monday. He reports business prospects in his new place, are very good.

The Lutheran ladies aid will meet in the parochial school house, next Wednesday afternoon. Lunch will be served. A cordial invitation is extended to all.

Wm. Collins has been busy, this week, painting the post office building. He is giving it a coat of lat. ship gray which improves the looks considerably.

S. A. Barnes suffered a very painful injury, last Thursday while cranking his auto, when the motor back-fired, the crank hitting his right arm and breaking it in two places.

Miss Wilma Lindquist who has been teaching school near Denham, finished her school term last Friday and returned to her home, east of town, on Tuesday.

Mrs. Nelson and daughter of St. Paul are visiting at the home of Mr. and Mrs. Joe Holets. The Richard Holets are staying with his brother Joe, while their home as being remodelled.

Royal Hunt has had his house thoroughly overhauled and remodelled. Dorners have been put on the chimney moved, and a large summer porch put on the back of the house. The work is about completed.

Miss Ida and Miss Olga Olson spent the week end here returning to Minneapolis Sunday, where Miss Olson is employed by the telephone company. Miss Glanville is attending the telephone school there.

Dave Therrien, brother of Joe Therrien, has purchased a site, and will build a garage at North Branch, this summer. He was owner of the North Branch garage which he sold last summer.

Mrs. Meister left for Two Harbors last Thursday, after a 2 or 3 weeks visit at the home of her daughter Mrs. J. Y. Breckenridge. She will visit with the Ayers there, before returning to her home at Minneapolis.

Phil Hamlin and Miss Martha Werner, of Abraham, visited at the home of his father, last Saturday. Mr. Hamlin accompanied his son back to Abraham where he will receive medical attention at the hospital there.

Mrs. R. E. Carlson was unable to return home this week as expected. Her little son, John's arm was in a very serious condition needing to be dressed every day for a couple of weeks. The little fellow fell, a few weeks ago, and the arm didn't heal as it should.

Miss Jessie Wilson of Hinckley and Van Coekran, were visitors at the home of his sister, Mrs. G. F. Walter, last Saturday. Mr. Coekran and stayed for a short visit. Miss Wilson came down from Hinckley to attend the dance, Saturday evening.

A large attendance of member-ship representatives at the Royal Neighbors lodge, last Thursday evening, at a party given for Mrs. Wisler and daughter, Florence Bryant, and Miss Alvena Brandes. A musical program and refreshments were enjoyed. The guests of honor were presented with gold lodge pins.

We are pleased to note that the lower town property owners are having the sidewalks repaired. Some of them were in pretty bad shape. The work in front of Piper's has been put in shape and the walk on the south side of Prochaska's from the corner to the Bantleon barber shop has been repaired.

James Hurley is having a basement put under his home, and a porch, the full width of the house,

will be added to the front. Mr. Mel-sha is also doing some remodeling to his home and is building a porch.

Webb Hodge went to Moose Lake on a business trip, Wednesday, expecting to return today.

Mrs. Wendell is visiting at the F. A. Hodge home. Miss Beba Gregory, sister of "Dug" Gregory, visited at the Hodge home, stopping off on her way home to Virginia.

Jack Kaufbein has purchased the lot, south of Greenley's livery barn, from Matt Pofari and last Saturday, he had his house moved onto the new property.

Mrs. Brandes and son Fred, left the forepart of the week for Moscow, Idaho, where she will make her future home. Oscar left by auto, accompanied by W. P. Göttery for Eveleth. Carl returned to his home in North Dakota. Miss Alvena Brandes expects to make her home in St. Paul.

Mrs. John Buirge returned, Tuesday, to her home in Minneapolis, after a weeks stay at the home of her brother-in-law Henry Buirge. Mrs. L. E. Buirge came from Proctor, yesterday for a visit here. Mrs. Henry Buirge was able to sit up a little, yesterday, and her complete recovery is but a matter of a short time.

Miss Portia Huber has been appointed chairman of the "tag day" committee and the following young ladies will tag folks next Saturday, to raise money for the new public bath house fund. The hostess of young ladies are: Misses Lucile Göttery, Cecile Hurley, Catherine Hawley, Charlotte Roberts, Joyce Hagen, Viola Tate and Hazel Johnson. Tag day results will follow in another issue.

FARM DEPARTMENT

Cattle Feeders' day, observed for the first time by the University of Minnesota on Friday, April 22, has come to stay. Nearly 100 thoroughly interested cattle men inspected the livestock under tests and attended the exercises at University Farm. The special feature of steel-feeding experiments which had been carried out at the farm 112 days was a comparison of ground barley to shelled corn as a grain for fattening cattle. The barley is equal to corn pound for pound, in producing gain of weight, was a positive conclusion announced by Prof. W. H. Peters, Prof. S. K. Carnes, and others of the animal husbandry division who had charge of the experiments. It was shown that cheaper steers than by barley-fed steers rather than by northern Minnesota with abundant crops of barley, its drier and stiffer and corn for silage, can expect to become a cattle feeding district, more closely approaching results obtained by farmers in the famous corn belt than has ever been thought possible.

The 48 steers used in the feeding experiments were mostly Hereford and Shorthorn, bought on the South St. Paul market, and were divided into six groups of eight each. All though creditable gains in weight ranging from 190 to 287 pounds were made by each animal, a financial loss would have to be taken if the animals were sold at this time. The losses figured at the end of the trials corresponded closely to those reported on recent cattle feeders days at the Iowa and Nebraska college stations. Cattle feeders and the university men who spoke to them in the livestock pavilion generally took a favorable view of the future of cattle feeding in this country.

R. N. Chapman of the Minnesota Agricultural Experiment Station has been finding out ways to kill the flour mite. The flour mite is a tiny pest which is found the world-over wherever there is trailing in wheat. Flour or dried foods any grain and which leaves an enormous toll on the world's food supply, and Mr. Chapman has found that the best weapon against the world's horde of mites is heat.

Mites in cereals, flour, or other foods can be killed by raising the temperature from 68 to 120 degrees Fahrenheit with five minutes. A temperature of 174 degrees means sudden death to them. The way to clean up an infested mill or warehouse, therefore, is to remove all refuse and burn it. After that, if it is possible, the building should be heated to a temperature of at least 120 degrees and kept at that temperature for several hours. If the place is not tight enough to be heated so, the floor and all cracks should be sprayed with a 15 or 20 percent carbolic emulsion.

The storage of large quantities of flour, feed, or similar supplies should be undertaken only in clean, dry places, and then only when the moisture content of the material to be stored is less than 11 per cent.

St. Paul, May 4.—One of the most important developments in co-operative marketing in the United States, in the opinion of farm leaders, is in progress here as a result of a convention of livestock shippers, which has organized a farm bureau officers' commission company to sell live-

stock on the South St. Paul market under the direction of the farmers themselves.

The convention, called by the Minnesota Livestock Shipping association, met in the Old Capitol last week with delegates present from local shipping associations through out the state. Without one dissenting vote, the delegates authorized the immediate establishment of a farmers' co-operative commission company at South St. Paul. W. A. McKerron, secretary of the control shipping association, presided at the meeting, which handled 12,000 to 13,000 cars during its first year. Delegates expressed hope that the company would be ready to do business within a month.

The company was empowered to handle livestock from local associations in the entire territory tributary to the South St. Paul market, including Wisconsin, Minnesota, North and South Dakota and Montana. A \$25 membership fee in addition to at least one share of stock is to be required for admission to the company.

Reports of the success of the Omaha farmers' selling agency encouraged the delegates. Mr. McKerron, who recently inspected various livestock markets, said that last year the Omaha company earned \$100,000 in commissions, and returned more than 60,000 in patronage dividends. Savings of \$150,000 to \$200,000 in the annual expense of handling livestock for the northwest are possible thru co-operation, he said.

"No new firm can work a revolution overnight," he said, "but in my opinion, inside of five years 75 per cent of the livestock sold on the American markets will be marketed by farmers' co-operative agencies."

St. Paul, May 4.—President Harding has promised to give favorable consideration to the request of the American Farm Bureau federation that new federal bills and amendments, according to a message received by the Minnesota federation. The president received a delegation of farm bureau officers from the farmers' legislative com-

As a Modern Filipino Actually Looks

There are hundreds of thousands of this type of young men in the Philippines. They are to be the future rulers of the destinies of the islands.

The Filipino has been much misrepresented in the United States. This is largely because the Sunday supplements have made a specialty of portraying the semi-naked non-Christian hill tribes as "niggers" who are "niggers" as far from the truth. The total population of the Philippines is 30,500,000, of which 9,600,272 are Christians and civilized, and have been so for 300 years, possessing a culture and refinement that will compare favorably with that of other countries. The number of non-Christians is 20,899,728, and only a small percentage of them are uncivilized. They are fast becoming educated, and will ultimately make good citizens. Seventy per cent of the inhabitants of the Philippines were ten years of age according to the last census, are literate. This is a higher percentage of literacy than that of any South American country, higher than that of Spain and higher than that of any of the New Republics of Europe whose independence is being guaranteed by the Allies.

mitted in session at the capital. He assured them, the Minnesota Farm Bureau federation has been informed, that he was committed to recognizing agriculture in important appointments, and that he regarded favorably their request for "farmers' leaders" men on the federal advisory board, the United States shipping board and the Interstate Commerce commission.

**The Spectacular
Wheel**

THE most spectacular wheels in the world are those carrying millions of automobiles, trucks, and tractors over the roads of the United States. Petroleum—refined petroleum—furnishes the power which drives them, and the lubricants which keep them running.

Throughout ten important Middle Western States, the Standard Oil Company (Indiana) serves the drivers of these machines. Not only does it provide them with Red Crown, the high-grade gasoline, and with Polanne, the perfect motor oil, but it furnishes the road oil and asphalt which surfaces hundreds of miles of the best roads in the country as well.

Roads made with Stanolind Paving Asphalt make riding easy and smooth, and by eliminating the ruts and dust it also keeps down the upkeep cost of car, and clothing, and enables the motorist to get the utmost of pleasure from his machine.

Such roads eliminate the constant attention and expense which dirt roads exact, thus saving time, labor and money for property owners along the way.

The Standard Oil Company (Indiana) manufactures everything made from petroleum. It provides unsurpassed facilities for the use of the highly-trained specialists who oversee every step in the intricate processes of manufacture.

The resulting products are sent to market with the Company's unqualified guarantee that every gallon is made as well as it can be made.

THIS WOMAN'S EXPERIENCE

Brings a Ray of Hope to Childless Women

Lewell, Mass.—"I had anemia from the time I was sixteen years old and I did my house-keeping. I would faint and have to be put to bed by my husband. I was thinking every minute of my life. After reading your text-book for women I took Lydia E. Pinkham's Vegetable Compound and used the Sensitive Wash, and have never felt better than I have the last two years. I can now eat, sleep, and feel as strong as ever. Doctors told me I could never have children—I was too weak. I got after taking Vegetable Compound strength and I gave birth to an eight-pound boy. I was well all the time and all my work up to the last day, and had a natural birth. Everybody who knew me was surprised, and when they ask me what made me strong I tell them that I took Lydia E. Pinkham's Vegetable Compound and never felt better in my life. I use this medicine all the time."—Mrs. Elizabeth Shaker, 142 W. Sixth St., Lewell, Mass.

This experience of Mrs. Shaker is a strong recommendation for Lydia E. Pinkham's Vegetable Compound. It is only one of a great many similar cases.

They'll Do That.
Trumpeter Steadman—I never pay old debts. I forgot them.
Private Heide—But how about new ones?
Steadman—Oh, I let them get old—Sparks.

Sure Relief

COST OF USING TRACTORS AND HORSES SHOWN IN YEAR'S WORK

Prepared by the United States Department of Agriculture, Bureau of Plant Industry, Washington, D. C., October 1919.

The annual depreciation of the two- and three-tractors amounted to \$184, and of the three-tractors \$217. The annual cost of repairs, including the value of the owner's time spent in repairing the tractors, was \$22 for both the two- and three-tractors.

The fuel consumption per day for the two-tractors varied from about 11 gallons for drawing the hay loader. For the three-tractors it varied from 23 gallons for plowing to 15 gallons for drawing the hay loader.

The average cost per acre of power for the plowing done with two-tractors was about \$2 and with three-tractors about \$2.20. The cost of power for the plowing done with two-tractors was about \$2.20 per acre. Based on the present cost of keeping workhorses, the cost of plowing with horses would be about \$1.90 per acre. For most of the other operations the cost of power was less than that of horses.

The average cost per day of two-tractors for drawing work on the home farm was about \$12.65, and of three-tractors about \$13.75.

On the 172 farms where there had been no change in acreage the number of workhorses had been reduced by 22 head, an average of 0.127 head per acre. Forty-four of these 172 men had not reduced the number of workhorses, 62 had disposed of one or two head, 43 had disposed of three or four head, and 23 of more than four head.

On the 172 farms one horse had been kept for each 28 acres of land, 7.9 acres for each horse. For each of these 172 farms one horse had been kept for each 28 acres of land, 7.9 acres for each horse.

On the 172 farms one horse had been kept for each 28 acres of land, 7.9 acres for each horse.

Why Castoria?

YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrups were the remedies in common use for Infants and Children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to supply the child and give the appearance of relief from pain.

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and vicious remedies that from habit had become almost universal. This was the inception of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

A remedy ESPECIALLY prepared for Infants and Children and no mother would think of giving to her baby a remedy that she would use for herself, without consulting a physician.

Children Cry For Fletcher's Castoria

Have You Tried It?
Everybody has read the above headline; how many believe it? Have you a little-one in the home, and has that dear little one when its stomach was not just right felt the comforts that come with the use of Fletcher's Castoria? You have heard the cry of pain. Have you heard them cry for Fletcher's Castoria? Try it.

Just help baby out of its trouble tomorrow with a taste of Castoria. Watch the difference in the tone of the cry, the look in the eye, the wiggle in the tiny fingers. The transformation is complete—from pain to pleasure. Try it.

You'll find a wonderful lot of information about Baby in the booklet that is wrapped around every bottle of Fletcher's Castoria.

What Optical Science is doing to develop better vision
 Just two phases of vision had yet been found which proved so effective in the development of the abnormal child as the science of the optical room. The conditions of modern life contribute to the loss of vision in a number of ways which are being met by the latest scientific methods of optometry.

To this examination the optical scientist brings knowledge and training of the highest order. He also utilizes the latest equipment and apparatus which have been perfected for precise scientific work. Science has stepped in and brought its aid to personal skill. Most people do not know when eye-sight would be better, usually it is only on a gradual that for a long while it may not even be noticeable. Imperfect vision, if not corrected, grows worse with the years. The latest way of preserving your eye-sight at maximum efficiency throughout life is to go to an optical specialist for an examination once a year.

Above Picture is a duplicate of our Optical Room. We examine eyes by the latest Scientific Methods.

AMERICAN LEGION NEWS

Naturalization papers of 2,000 alien soldiers who served United States in the great war await them in the Bureau of Naturalization, Washington, D. C. Applicants should give date and place of naturalization.

Lawrence Wheel Legion Post of Minneapolis puts on five dances overheard on a street car. "Disorderly" Lawrence's Vigil. "Disorderly" but a good change to give the Ma at the Casino Club. All the guide Norwington in the city of Minneapolis will be done.

Paribault Legion Auxiliary just raised \$100 and monthly sent to headquarters to be used in buying little extras for the sick soldiers in our hospitals.

Last week the Legion established a post at Managua, Venezuela. This is the 15th foreign country into which the Legion has gone. "Way down south," in Auckland, New Zealand, a post is now being formed.

Two years ago the hands stopped playing; the battle flags were furled; then too quickly America forgot. Last January, the American Legion brought to your attention the shocking conditions surrounding the rehabilitation of the disabled veterans of the world war. Press and people were aroused. United again with the old spirit of '17, they demanded redress of injustice.

Congress met and considered five bills designed to improve the conditions of the disabled. These bills were approved by government experts and by congressional committees. Nevertheless, the legislative

Nordgren to Washington
 Representative Elias Nordgren, left Pray for Washington, D. C., as a member of a joint committee of legislative members, three from the Senate and three from the House, to meet with the secretary of agriculture and bureau of markets to present changes desired by Minnesota grain producers as regards federal grain standards.

A resolution was passed by both the House and Senate providing that the desired changes in the federal grain standards be granted by the Bureau of Markets at Washington, the State Board of Grain Appeals is required to reestablish Minnesota grades based upon the standards in vogue prior to the passage of the Federal Grain Standards Act. To bring about these proposed changes, a joint committee of three members of the House and three from the Senate goes to Washington to present the changes desired in the federal standards.

Farm Bureau cont.
 A \$10,000 increase was granted in support of agricultural extension work, and it is likely, says Mr. Balmer, that this will make possible a 10% increase in federal aid being expended in counties. Heartily expressed by the state leader that the appropriation in behalf of farmers' institutes was cut from \$20,000, as it has been for several years, to \$10,000.

Another new law, House File No. 559 provides a simple procedure than has been known in the past for amending articles of incorporation by county farm bureaus. The new act provides a method for accounting expenses and receipts of farm operations, and imposes certain duties upon the commissioners of agriculture and the county agents. This makes it mandatory upon the county agent to make a survey among at least 10 to 25 farmers as to the costs of producing various farm products. The amount received for them, the average profit one. The county agent is expected to compile all data secured and to forward them to the commissioner of agriculture, who is empowered to give out information and reports

Nash Automobiles
 After a thorough investigation of cars in the same class with the "Nash," we signed a contract to handle their car in this territory because we are convinced that the Nash will give value received for every dollar it costs.
 Not only does it have beauty in appearance, finish and upholstery, but it develops a maximum of speed and power at a minimum cost for gas, oil and tire wear.
To See Is To Believe
 Let us give you a Demonstration
 TERRITORY FROM RUSH CITY TO SANDSTONE

which will be of use to persons interested in agricultural pursuits. The legislature increased the amount of state aid for county poultry associations for the next two years from \$30,000 to \$40,000.
 Many people for the benefit of their health will pay a hundred or two dollars for the privilege of bringing a golf stick at a country club, when the manipulation of a bow in the back yard would give them the same results.

CHICHESTER'S PILLS
 SOLD BY DRUGGISTS EVERYWHERE

A pipe's a pal packed with P. A.!
 Seven days out of every week you'll get real smoke joy and real smoke contentment—if you'll get close-up to a jimmy pipe! Buy one and know that for yourself! Packed with cool, delightful, fragrant Prince Albert, a pipe's the greatest treat, the happiest and most appetizing smokeslant you ever had handed out!
 You can chum it with a pipe—and you will—once you know that Prince Albert is free from bite and parch! (Cut out by our exclusive patented process!) Why—every puff of P. A. makes you want two more; every puff hits the bulls-eye harder and truer than the last! You can't resist such delight!
 And, you'll get the smokesurprise of your life when you roll up a cigarette with Prince Albert! Such enticing flavor you never did know! And, P. A. stays put because it's crimp cut—and it's a cinch to roll! You try it!
