FORM LEAGUE

Hinckley Manager Wants League

The Pine Poker is in receipt of a letter from Jim Brennan, manager of the Hinckley ball team, in which he advocates a base ball league for this neck of the woods. We heartily agree with Mr. Brennan and hope that such a league can be formed. As competition in trade creates more interest in the business world, why should it not in base ball? What we need this summer to maintain spirit and interest in base ball around these parts is organized competition and the creation of a four or six team loop would certainly add impetus and life to base ball as a game and also encourage the youth to greater effort in the developing of the athletic powers latent in them. Moose Lake is anxious to join with Hinckley in an organization of this kind and Carlton has signified its willingness and recognized it's worth from an expense saving standpoint. What is needed now is the cooperation of some other two or three towns so as to start a four or six team league. Mora, Brahman, Rush City or Pine City are good towns and have always played good base ball and teams from these towns certainly would be drawing cards in a league. Why not the managers of these towns' ball teams get together with the managers of the teams already interested and form a circuit.

The writer of this article would be pleased to cooperate in every way with the managers of the ball teams of the towns mentioned in the formation of a base ball league. If interested, let's hear from you.

J. M. Brennan,
Hinckley, Minn.

Has Narrow Escape

Art Hoffman had a near escape from death, last Saturday afternoon. He was excavating for the water main, on the Frank Bulashek place, in the west part of town, and was tunneling from one hole to another when the sand caved in, covering all but a part of his head.

His cries for help proved unavailing for half an hour, when some hillmen passing near there, heard him. They called to a woman passing. Louis Ehardt happened along, and with the assistance of Mr. Borg, dug him out.

He came out very fortunate, with only a few bruises, but the mental agony he went through must have been a terrible strain. He stated he heard the north bound train whistle, after the cave in, and also the south bound train, before help came.

Quite a number of women of the neighborhood were attracted by the excitement and they expected the rescue, before he was finally hauled out of the hole, which was about six feet deep. His head was in a small hole and his sand was light and dry, giving him a chance to breathe which was all that saved his life.

Will Hold Memorial Service

The local G. A. R. and Legion posts will attend the Presbyterian church at 11 a. m., Sunday, May 15th, when a Memorial service will be held. The veterans of the two wars will wear their uniforms—the blue and the khaki.

The membership of the local G. A. R. post is fast dwindling. A few have moved away, most of the original members have gone to their great reward. Those remaining are: M. O. Gupit, Beroun, A. B. Barstow, Rock creek, Robt. Greig, E. H. Long, James Gardner and N. Uter, Pine City.

GERMANY VOTES TO FULFILL TREATY

Reichstag By Vote of 221 to 175 Accepts Allies' Ultimatum on War Debt.

NEW CABINET YIELDS

Teutons Decide to Pay \$3 Billion Indemnity, to Speed Disarmament and to Push Trial of War Criminals.

Berlin—Germany has accepted the Allied ultimatum. The Reichstag by vote of 221 to 175, yielded to the final demands of the allied powers, and is so doing agreed to fulfill the terms of the treaty of Versailles "to the capacity of the nation."

Dr. Wirth, Centrist leader, finally succeeded in forming a Coalition cabinet composed of Centrists, Majority Socialists and Democrats, which, confronted by grave necessity, speedily decided that acceptance of the ultimatum was the only course.

In making this announcement to the Reichstag, the new chancellor asked for an immediate decision by both body, and in voting that followed, the government was sustained.

Definite Reply Demanded. The Allied ultimatum required a definite reply, based on "yes" or "no." No conditional reply would be entertained, and the ultimatum was formulated to expire on the night of May 12.

The total sum, which Germany is called on to pay, \$7,500,000,000 pounds sterling, disarmament must be carried out, in accordance with provisions of the treaty, and the trial of war criminals must be put into effect.

Numerous other important terms in which Germany has been in default, will be enforced.

Non-compliance with the Allied ultimatum would have subjected Germany to occupation by the Allies of the Ruhr valley, and to whatever other military and naval measures were deemed advisable.

The new cabinet is generally regarded as a makeshift, largely unrepresentative, yet good enough to accept the Entente ultimatum, and thus avoid a French advance into the Ruhr.

Dr. Wirth's Speech. In his speech in the Reichstag Dr. Wirth said in part: "Acceptance means that we declare our readiness to bear in voluntary labor the heavy financial burden demanded year by year. Refusal would, however, mean surrendering the basis of our entire industrial activities, and as a consequence, dismemberment of our economic body, already so greatly weakened, and the abasement of our entire industrial life. But the effects might be even more terrible for our political existence and our realm."

"For these reasons the government accepts the ultimatum. We know that acceptance by reason of the place Germany will occupy in the economy of the world, will entail the gravest consequences. The responsibility for this falls on the Allies."

No Obsecrity. "That there is one point concerning which there must be no obsecrity. It would be useless to say 'yes' without the resolution to do our utmost to meet the obligations imposed upon us by acceptance we believe we will remove the imminent threats of occupation of the Ruhr."

"The treaty, which casts a heavy burden upon us, entails for the Allied governments sacred duties, as the bill promoter himself expressly acknowledged recently. Ladies and gentlemen, the new government, after reflection, advises you in all confidence to accept the ultimatum."

Start Building

Work on the new bath house, for Pine City, was started last Monday. The building will be 18x22, divided into two large rooms and each room will be equipped with lockers. It is expected the building will be ready for use June 1st.

The two day committee, under the leadership of Miss Huber, raised \$163, last Saturday. Practically everyone was willing to donate, and the results were certainly gratifying to the association.

The Leon Heath post, at their last meeting, voted \$25 to be given to the bath house fund.

The association is raffling a diamond ring this week, the proceeds to be used for the bath house. The ring, a beautiful diamond setting for \$145, was purchased from Geo. Staacke, local jeweler, who gave it to the association.

The lucky number will be drawn at the last of the three dances, being given by the committee, which will be held at the armory, June 4th.

The second big dance will be held in the armory, Saturday evening of this week. Angelo Yatti, assisted by a trap drummer, will furnish the music. This is his first appearance in the armory, for sometime, and he promises the committee in charge, Wm. Chalteen and Clint Boo, the latest and most popular dance music.

Will Bring Body Home

On Tuesday, May 17, at 8 P. M. there will be a meeting of service-older citizens of the community, and every ex-soldier in the community should make it his business to be present. Final plans will be made for the Memorial Day exercises and other business of vital importance to service men will be taken up.

Word has been received that comrade George Holstrom is being returned from France to make all his family his final resting place. The time of his arrival has not been definitely ascertained, however, all comrades who will be able to attend the burial exercises which will take place in about 10 days, according to best information, kindly notify Frank Patrick or Frank Reinholdson.—Hinckley News.

Buy's Store at Rush City

A. O. Westberg of Finlayson has become a resident of Rush City. Mr. Westberg has purchased Nilson's interest in the John O. Anderson store, and has already entered his business. Mr. Westberg has been in the mercantile business for 15 years, being in business at Grantburg for a time. The new firm will introduce increased lines and otherwise improve the business. Mr. Westberg was raised in Rush City, and he well knows here.—Rush City Post.

Fencing Bee Saturday

There will be a fencing bee at the Pine Grove cemetery, Saturday of this week, for the purpose of erecting a fence along the cemetery. All folks of that neighborhood, who are interested are urged to be present, at 8 a.m. and assist in this worthy work.

Hinckley Couple Married

Delbert Henry Palmer and Miss Rose Buttman, of Hinckley, were married by Andrew Wilcox, at the court house, Pine City, yesterday.

PINE CITY WINS

Played Three Games, Won Three

The Pine City high school base ball team again defeated Mora, on the latter's grounds, last Saturday by a score of 7 to 4.

Wochle was on the mound for the local high school and pitched a good game throughout. Wygan did the chinning for Mora and was found to be easy for the local batters.

This is the second meeting of these two teams, Pine City winning both. They were both practice games and will not count in the standings in regard to what teams will play at the field meet at Mora on the 28th.

On Monday night after school the Pine City high school and Hinckley high base ball teams met in a practice, at Hinckley. Pine City winning by a score of 6 to 7.

The game was full of thrills and the outcome was in doubt until the last man was out in the ninth. Ed Kieker started off to pitch and lasted three innings. Wochle finished the game and held the Hinckley batters in check. Bill Johnson smashed out a terrific drive which cleared the center field fence, for a home run, scoring one man ahead of Jim Wilcint of Hinckley also connected for a home run which cleared the left field fence.

The local team goes to North Branch Saturday of this week in the first game that will count on the standing of the teams in this group of the conference.

The Pine City line-up in the Hinckley game follows:
Pine City: AB R H PO E
Nevall, cf 5 1 3 3
Blanchard, rf 4 1 1 1
Blanchard, cf 5 1 2 10
W. Johnson, lb 4 1 1 10
Hawley, ss 4 - - 1 1
Klicker, 3b 4 - - 1 -
Wochle, p 4 - - 1 -
Wetox, c 3 - - 1 1
Corrigan, if 3 2 1 1

May Get Motor Route

It is very possible that the postal authorities will grant the request of farmers living on route 3 out of Pine City and put on motor cars to distribute the mail.

O. E. Blood and others circulated a petition, last winter, asking for two routes out of route three, as some of the farmers were only receiving mail every other day, owing to the size of the route. The petition was favorably received by the inspector and blue prints were returned, to be properly filled out.

Since then, it has been suggested that be made a motor route. This would give motor delivery, making it possible to reach every farmer, every day, and take in a few not getting mail on that route. This plan has the approval of the local postmaster and mail carrier, is agreeable to those who signed the petition and will likely be granted by the postal department.

Firemen Meet Saturday

There will be a meeting of the local fire department, Saturday evening of this week, at 7:30. Plans for the Fourth of July celebration will be discussed and committees appointed. All members and others interested are urged to attend.

What Optical Science is doing to develop better vision

Just two pieces of glass. And not those lenses about which so generally the doctors of vision talk so much, but the scientific instruments which have been perfected for precise scientific work. Science has advanced and brought its aid as personal skill.

Most people do not know what scientific methods really bring. Usually it starts as a gradual improvement in the instruments of perfect precision.

The conditions of modern life continually increase the number of people whose efficiency or health is lowered by some impairment of eyesight, which the result is always presented and fitted at a thorough examination.

To this examination the optical specialist brings knowledge and training of the highest order. He also utilizes the latest equipment and apparatus which have been perfected for precise scientific work. Science has advanced and brought its aid as personal skill.

Most people do not know what scientific methods really bring. Usually it starts as a gradual improvement in the instruments of perfect precision.

The conditions of modern life continually increase the number of people whose efficiency or health is lowered by some impairment of eyesight, which the result is always presented and fitted at a thorough examination.

ROCK CREEK NEWS DEP.

Everett Akins and Walt Barstow visited at the E. L. Freeman home at Hinckley last Sunday. Mr. Howard of Princeton brought a truck load of seed potatoes over Monday, for Arthur Pepin.

Mrs. L. R. Becklund and Miss Inger Bornhoft, went to the cities, Tuesday, returning to this place on Wednesday.

Mrs. Oscar Hartz returned last Wednesday from Minneapolis, where she had spent the past 10 days visiting friends and relatives.

An ice cream social will be given at the West Rock Lutheran church on Thursday evening, May 19th, all are cordially invited to attend.

Mr. Emerson, local school teacher, is recovering from his attack of the mumps. Miss Fairchild, who taught here last year is filling his place in the local school.

Geo. Bornhoft returned from Big Wood Falls, last Thursday, and will remain at the home of his parents, Mr. and Mrs. N. J. Bornhoft for a time at least.

A program and basket social will be given at the Meadow Bank school house, Dist. No. 10, Friday evening, May 13. Every one welcome. Ladies please bring baskets.

John Grathwol, state cow tester has been in this vicinity the past week making tests of the different herds that are in his group. He reports some very good tests being made.

Mr. and Mrs. Brent and children from east of Hinckley, and Miss Madge Pepin who teaches in that locality, visited at the home of her parents, Mr. and Mrs. J. D. Pepin last Sunday.

Mrs. C. L. Wallace went to the cities last Thursday and remaining until Sunday when Mrs. Wallace drove down after her.

Barney Greenpan returned to this place Monday after spending the week end at the family home in Duluth.

Mr. and Mrs. E. J. Anderson left for Watertown, S. Dak., last Sunday morning, expecting to remain in the Twin cities for a few days, visiting with friends and relatives, before going out. They are making the trip by car. Their household goods have been stored here until they have found a new location.

The first ball game of the season was staged on the local grounds last Sunday, when the Fence-Busters and Stamp Pullers clashed for the supremacy of Rock Creek. The game was staged so as to let in the material available for a team if one is started here this summer.

Mr. and Mrs. Frank Horey of St. Paul came up last Thursday, for a visit with relatives here.

Mrs. Frank Blomhagen, living north of town, returned home last Friday, from Chicago, after a month's visit.

The local creamery is figuring on putting in an up-to-date electric plant to run their machinery with.

Albert Hornik came down from Kimberly last Thursday, and took a car of stock back, the following day.

The Pulkabek boys are putting in the basement for the Frank-Vide home, which will be on the lot adjoining his shoe shop.

Ernest Rohlf will ship a car of hogs, cattle and veal calves, Monday, May 10th. Anyone wishing to ship should see him before then.

Mr. and Mrs. Chas. Peterson accompanied Mr. and Mrs. Sommers of St. Paul to Omaha here. They are looking for a location for a summer home.

Matt Neuman, returned home from Duluth, last week, where he was under doctors care in a hospital. His health is not improving as rapidly as was hoped for.

A good crowd attended the dance at the hall, last Saturday evening. Angelo Yatti furnished the music. He will play at Pine City, Saturday evening, for a dance given by the

Royalton Town News
Albrecht Pangerl is having a new barn erected on his farm.
Ignatius Pangerl was a passenger to St. Paul last week.
A crowd of relatives and friends enjoyed a dance at the Dave Pranghofer's Saturday night.
School District No. 7 closed April 29th. A basket social and dance was held in the evening.

Frank and Dave Pranghofer and family entertained friends and relatives from St. Paul over Sunday.

The young men are busy hanging may-baskets and the girls—ditto.

Mr. and Mrs. Otto Schwartz welcomed a baby girl April 11th.

Miss Elsie Wimmer is assisting with the housework at the Dave Pangerl home.

Frank Cort Jr. is having the in-

side of his chicken house replastered and rounded. Bert Davis is doing the work.

Adel Carlson and Otis Schmidt carried the burden for the Stamp Pullers, while Barber McNeal and Howard Bay were the mainstay of the Fence Busters. The Stamp Pullers were acknowledged victors by the official score by a score of 10 to 1. Archie Duran acted as the "ump" and although somewhat small gave good satisfaction, although the losers think he was bought off.

With the material that showed up Sunday Rock Creek could have a good team and the organizing of a team here is hoped for.

Mr. Frank Holm of Minneapolis, has been secured as butter maker for the local creamery, and arrived here Monday to get things in readiness for the opening of the creamery which will probably be in about ten days.

State Boiler Inspector Frank Walters was here Tuesday looking over the boiler and found defects that will be repaired before starting up. A new ceiling is also being put in and things fixed up in general.

Nearly all of the settlements have been made, about \$9,000 having been turned in. There is some talk of giving a big feed on the opening day, but nothing definite has been decided as to that as yet.

Mr. Holm comes highly recommended and is very enthused over the outlook of the local creamery. Mrs. Holm will arrive later and they will make their home in the house that Oscar Hartz has just vacated.

The Farmers Club met at the hall, last Monday evening, with a large crowd in attendance. It was decided to donate money from the club's treasury to apply on help fixing the road running down to the creamery. The matter of the scales and scales house was brought up and it was decided to move them to the main highway onto the road running to the creamery as soon as possible.

Money has been subscribed to do this work and members that have not done so already are requested to do so, as soon as possible, to J. C. Smith, who is in charge of the work. The next meeting of the Club will be held, Wednesday, May 1st. At this time a debate between the women and men will be held. The question at stake is: "Resolved that the Country Life is more beneficial than City Life." The women will discuss the question from the affirmative side while the men will show the women that their view point is not always right. Ice cream and cake will be served after the debate and all members are specially urged to be present at this meeting.

Get Your Share Of This

As a taxpayer your money has helped to build this institution of Minnesota on the famous Minnesota Bluffs. Our many fold. Farmers are saving hundreds of thousands of dollars on agricultural implements manufactured here. If you have not benefited, here is your chance to share in the profits. Savings have been effected by keeping prices of competing machinery built outside the state down and still selling way under any other manufacturer.

A saving of at least \$800,000 has been made by the farmers of Minnesota on the famous Minnesota Bluffs. Our wholesale price of this line is 2 1/2% per pound lower than any other, and there is another 2 1/2% for freight and jobbers' profit which must be added. Therefore, on the 16,000,000 which we will make this year there will be more than three quarter million dollars saved to the farmers of this state.

Years of
Reputation

The MINNESOTA LINE

Guaranteed
by the State

of agricultural machinery is guaranteed by the state. It is all made of the best materials obtainable and throughout its production is constant under the supervision of state employed experts.
Minnesota Binders as good as the best—show price and quality with any other. For example, the 7 foot binder is exactly 2 1/2% lower than its competitor. These binders compare as favorably as the best and this economy is well worth while.

Minnesota Mowers with years of reputation behind them, are sold 5 foot length, for \$13.00 less than any other. When you consider the many points of superiority and long wearing qualities of this line you will see that these are the implements to buy.
Minnesota Rakes are just \$3.44 lower than any state. This difference in price on the 12 foot, 36 tooth size.

This Is Your Opportunity

Thousands of farmers throughout the Northwest have benefited through the saving on Minnesota Machinery. Do likewise. You are financially interested in this institution and it is financially interested in you. Insist upon the Minnesota Line from your dealer.

Making Farm Homes Modern

As long as farmers' wives are doomed to the drudgery of pumping water—to long walks and from the well for heavy buckets—just so long will farm and city homes remain subject to the danger of diseases and illness due to impure water supply.

A "PAUL WATER SYSTEM"

does away with this drudgery. It also opens the way to sanitary sewage disposal, which safeguards the health of your family. Costs little compared to the comfort and convenience of your family.

We make a specialty of designing septic tanks. No charge made for this service.

JUST AS IMPORTANT

Waiting until the real hot weather is here before starting to take ice may be false economy.

Food which you may think absolutely untainted but which in reality is unfit for the human system, is very common at this season of the year.

Food kept ice-cold is more pleasing to the palate and keeps appetites whetted for every meal. Phone us today—our wagon will call.

LOUIS VOLENEC

Local News

Matt Bullis of Sandstone, and J. H. Lindgren of Bruno, were business callers in the village, last Monday.

Miss Amelia Bonds came up from the Twin cities, and spent last Sunday at the home of her mother.

Dr. and Mrs. Water and the children, left early Sunday morning, and drove to White Bear, where they spent the day with relatives.

Mrs. Dunning has just recovered from an attack of grip and is feeling much better. Her son, Wm. Dunning, came up from St. Paul, to spend "mothers day" with his mother.

Mr. Sobotka's nephews and family, and Mr. and Mrs. Daboy and daughter of St. Paul drove up, last Sunday and spent the day at the Otto Sobotka home.

Otto Sobotka returned from Center City, Saturday, where he had been in attendance at the district court there. Joe Petschel and Mr. Sobotka drove to the Twin cities Monday, returning home Tuesday.

On account of some of the officers of the local Eastern Star, attending the Grand Lodge meeting in the Twin cities this week, the card party scheduled for last evening, was postponed one week, we understand.

P. F. Stary, county engineer, expects to leave for Worthington, this week, where he will make his friends gave him a farewell party last Monday evening. Mr. Stary has made many friends, since coming to Pine City, who regret his leaving.

Mr. and Mrs. Mallory drove up from St. Paul, last Saturday, for a visit at the home of her parents, Mr. and Mrs. Gierow. Forest Gierow, who is employed at the Sorenson shoe store in St. Paul, also spent Sunday with his parents.

The first band concert, of the season, was given in the park, last Saturday evening. Big's orchestra, which played for the dance in the armory that evening, played with the band and gave quite a little assistance.

Jim Wandell, register of deeds, is busy this week, handing out application blanks for auto licenses. The applications must be in the hands of the secretary of state by May 15.

Some folks didn't realize their cars were as good as they are, until they came to sending the required fee.

Mrs. R. E. Carlson and the two little boys, returned home, Tuesday afternoon. She had spent a couple of weeks or more, in the Twin cities, where John was receiving treatment for a broken arm. The splints have been taken off, and the little fellow is able to use his arm, as good as ever.

Lawrence Therrien was the high man, and Miss Catherine Hawley was of the young ladies, when the votes in the popularity contest, were counted last Monday evening. Miss Hawley received a diamond ring, and Lawrence got a gold watch. Bob Wehrle and Mrs. Ted Buselmeier were second in the race.

The school opera will be given at the Family theatre, next Wednesday evening. There is considerable excitement amongst the little folks over "acting" on a real stage. They have worked hard on their parts, and all the little "fairies" will be there big as life with their dances, etc. Be sure and attend.

W. E. Richards is enlarging his building and will have a floor space of 40x80 feet. He will handle a complete line of hardware and will also sell second hand furniture. Mr. Richards has built up a nice business since opening his store, a year ago and feels the business outlook is worthy of a bigger line.

A traveling saloon visited our town a few days ago. We didn't say anything in last week's paper as we thought he might return and the officers get a crack at him. He sold four gallons of "moonshine" at \$16 per gallon and made his get away in a car he was travelling in. Several cases of sickness resulted. The stuff he sold must have been flavored with dynamite or TNT.

—Graston Advances.
Haley "the gift king" and his company left Pine City Tuesday, for more productive fields. They put in a week here but didn't do the business they expected. He waxed quite sarcastic last Saturday evening because people weren't buying the needles, soap and other stuff as they should. The day of the barn storming medicine shows an inch like is past. The picture shows have given the people entertainment by the highest paid artist in the world, and the pictures shown by Mr. Turner have educated the people of this community to want the best in the theatre line.

Miss Dorothy Carlson, daughter of Mr. and Mrs. R. E. Carlson, had a narrow escape, last Saturday. She was about to cross the street, at the First National Bank corner, when an auto horn let out a few shrieks. She stepped back, but the driver, coming from the south, cut the corner sharp. She was hit by the car, and knocked down. Her dress was torn, but fortunately she wasn't hurt. People are in the habit of driving about town—a little too fast—we are all human, and like to travel fast—but unless more care is taken, somebody is going to get a severe accident some day.

Mr. Hamlin returned from Braman, last week, after receiving medical treatment in the hospital there.

His health is very much improved, we understand.

J. H. Betts of Minneapolis, arrived last week, to put on a sale for Sam Hoffman. The sale opens Thursday—today.

Mrs. Thos. Fitzgerald Jr. arrived last Sunday, for a visit at the home of her parents, the Henry Stevens.

John Wieder left for Minneapolis, yesterday, where the Wieder family will make their home. Mrs. Wieder and daughters left a week ago.

Miss Joyce and Miss Rogers, local teachers, spent the week end at Stillwater. Misses Peers and Apel visited at Duluth over Sunday.

Carl Holmberg went to the Twin cities Tuesday, to attend a meeting of buyers there. He expected to purchase considerable stock for the Mercantile company.

J. A. Peterson went to Chicago last Saturday, to spend Sunday at the home of his son Elmer. He expected to drive his new car up from St. Paul on the return trip.

Joe Kaim came down from Hibbing, last week, for a visit at the home of his parents, Mr. and Mrs. Adolph Kaim. He states that some of the mines have shut down for a while.

Miss Maloney resigned as secretary to Mr. Allen of the Power Co. last Saturday and left yesterday for her home in Sauk Center. Miss Gladys Hultman of Minneapolis has taken Miss Maloney's place and started work Monday morning.

J. D. Carlson of Denham has purchased the Galles place, near the fair grounds and will move in soon. Mrs. Galles left last week for Jordan, Minn., where they will make their home. Ray will leave this week for Redwood Falls, where he will be employed.

The second dance of the series being given by the development association, will be held in the armory, Saturday evening of this week. Angelo Yotti, the popular dance musician, will furnish the music, assisted by a good trap drummer.

Carl Guymon broke his arm last Friday. He was wrestling with one of the boys, when he slipped and fell, striking the arm and causing a fracture. Just above the wrist, the break wasn't severe, however, and he is attending school as usual. His arm will be in a sling for 2 or three weeks.

Geo. Staacke, the jeweler, is having an outside stairway put on his building on main street. The stair way is enclosed, and opens onto a fine porch, upstairs, which will be screened in and have a good roof. This will make it more convenient to reach their apartments upstairs, without going through the store.

Wm. Buselmeier, accompanied by Dr. Wiseman, went to the cities, last Friday night, and the following day was operated on for appendicitis. Dr. Wiseman received a letter from the surgeon yesterday who stated Mr. Buselmeier was feeling along very nicely, and would be able to return home in a few days.

Wm. Challeen received a letter the other day, with a notice on the envelope from the postal authorities, stating it had been salvaged from an aeroplane fire at Cheyenne, Wyo. It was with some mail being carried by a government plane, when the plane caught fire, and was one of few letters saved.

Joe Petschel has had the sales room of the Overland garage, repainted and decorated. In the near future he will move his office to the front of the sales room, with an entrance from the street, and will put in a rest room for women. If business continues in the future, as it has in the past, it will be necessary for him to enlarge the garage.

The First National Bank have received a new vault door which is being installed this week. They are having a vault installed, opening out of the office, adjoining the bank lobby. The safety deposit boxes will be placed in this vault, which will make it much more convenient for patrons, giving them entrance to their deposit boxes without going through the bank proper.

Max Edwards left the Power Co. employ, last Tuesday evening. He will probably leave for his home in Parry, Ia., Wis., although he is undecided as to his future plans. It was reported that Harry Wegner was also leaving and half the town has been trying to rent the house he lives in, from Mr. Ives, the owner. The news that they were leaving was quite a surprise to the Wagners and we were glad to hear that the rumor was unfounded.

For the Boat and the Boathouse

Everyone knows how water—especially salt water—ruins ordinary varnish in a short time. But there is a new super-varnish, a covering for every surface where varnish is required, that successfully resists the action of water. This is

Cosmolac

the tough, elastic finish which is ideal for boats, canoes, yachts, clubhouses—everywhere indoors and out where varnish is required.

You can't say any other varnish is "like Cosmolac" for Cosmolac is different; distinct. Its enduring qualities cannot be matched by other varnishes. Ask for Cosmolac—"with the man on the can."

The Significance I Maintained Quality

OF highest significance to the motorist is the fact that during those times when the demands for gasoline have been so great as to threaten positive famines, Red Crown, the high grade motor gasoline manufactured by the Standard Oil Company (Indiana), maintained its standard of quality in the face of every difficulty.

Impartial tests made on authority of the Government proved Red Crown surpassed the specifications set by the Government for its requirements of motor gasoline. These facts indicate the ideals of service which animate the activities of the Standard Oil Company (Indiana) in every department of its business.

To maintain the quality of a product when the demand is normal is a general practice. It is when demand is pressing and the supply is low that insistence upon maintained quality is a true measure of a manufacturer's integrity.

To maintain the quality of each product at the point set by the technical staff is an outstanding characteristic of the Standard Oil Company (Indiana). Red Crown is a good example.

Another is Fortnite long-time burner oil. This product is used in railway signal lamps. These signals are often located at points remote from human habitation. For public safety their uninterrupted service is of the utmost importance. It is essential that the oil shall burn with a clear, bright flame for days at a time without attention.

During the blizzard of January, 1918, lamps filled with Fortnite, located high up in the Rocky Mountains, burned night and day during the ten days that traffic was tied up, and at the end of that period they were giving perfect service.

It is only by multiplying such records of quality and integrity of manufacture over a long period of years that the reader can grasp the degree of public confidence enjoyed by Standard Oil Company (Indiana).

FARM DEPARTMENT

Monday's Closing.—Cattle 1,509 Market closed fully steady to strong, spots higher. Top steers \$32.75. Hogs 6,000. Market averaged 25 to 35c higher, closed firm, range \$7.00 to \$8.50. Sheep 1,500. Nothing choice on sale market steady to strong.

South St. Paul, Minn., May 9, trade in cattle was followed by a strong market at this week's opening, with slight improvement here and there on beef steers and butcher she and heifers of good and choice grade continue most popular, out-selling heavier cattle of similar grade, a lot of choice 650 lb. steers and heifers topping last week's trade at \$9.00, with a fair showing of both heavy and handyweight steers up to \$8.50. Best at this week's opening were one good grade 1084 lb. steers that brought \$8.25, with bulk of common and medium offerings at \$6.50 to \$7.50. Practically no strictly choice cows or heifers are coming. Good grade heifers are selling in small lots up to \$7.50, with bulk of butcher cows and heifers from \$5 to \$6.50. Bulls sold on a strong to 25c higher market Monday, bulk of bolmas at \$4.50 to \$5.00, with a few to \$5.25. Best light calves are selling to packers at \$7.75. Best heavy feeders here Monday, a load averaging 1100 lb. and another load averaging 1265 lb., sold at \$7.50 with strictly choice kinds quotable to around \$7.75.

Hogs made a 25 to 35c gain on Monday, range \$7.00 to \$8.50, bulk \$7.90 to \$8.25. Good and choice plus, \$8.75 to \$9.00. Sheep market strong. Choice to prime handyweight woolled lambs sold last week at \$10.65.

The anti-rat campaign in Minneapolis has had excellent results, according to F. L. Walters of the division of entomology and economic zoology at University Farm. Many hundreds of these pests have been killed by using barium carbonate with the proper baits and, as a consequence, much money has been saved the city. It is hoped the good work will not be confined to Minneapolis, but that other towns in the state will wage war against these expensive pests. Recently issued circulars on poisoning rats and mice will be mailed by the division of publications, University Farm, to citizens requesting them, and the division of entomology and economic zoology will be glad to cooperate with any community planning such a campaign.

M. H. Fohrman of University Farm superintendent of official testing of cattle herds in Minnesota, reports that more test work was completed the first nine months of the present fiscal year than during the entire previous year. In March 162 cows, or 20.7 per cent of the total number, 782, under test made the honor roll. To get on this honor roll a cow must produce four pounds or more of butterfat in two days. The 162 honor roll animals represented 59 herds.

"With more than one-fifth of the cows on yearly test producing at the rate of 60 pounds of butterfat or better a month," says Superintendent Fohrman, "there is every indication that some excellent records will be being up within the year."

Of 257 seven-day records reported in March, 201, or approximately 40 per cent were over 20 pounds of butter, 43 were over 25 pounds of butter, and 15 produced more than 30 pounds in the seven days.

St. Paul, May 11.—Minnesota farmers, who lead the nation in the value of their annual dairy output, undoubtedly will have a representative on a committee now being appointed by James R. Howard, Bureau federation to work out plans for strengthening and consolidating cooperative dairy marketing enterprises, officials of the Minnesota Farm Bureau federation said today.

Mr. Howard was directed to appoint a committee of 11 dairy marketing leaders, by delegates from 21 states and 61 co-operative mar-

keting organizations, who met in a national conference in Chicago in a week.

H. R. Leonard, of the Twin City Milk Producers association, and A. J. McGuire, cooperative creamery expert for the University of Minnesota, addressed the conference. The delegates voted unanimously to authorize Mr. Howard to select an investigating committee of 11, with the advice and consent of the National Milk Producers' Federation. This committee is directed to draft plans for forming dairy marketing organizations, and recommend methods of putting co-operative marketing of dairy products on a national basis.

Sealpax

A Better Athletic Underwear Sold in a Cleaner way

WHEN it's 68 in the shade, it feels like 68 in Sealpax Athletic Underwear. The light, airy, nainsook fabric is so free-and-easy you hardly know you have it on. And the athletic cut is so perfect there's no chafe—no irritation. Cool and comfortable—that's Sealpax. And clean because it's packed in individual Sealpax Envelopes that deliver the garments to you as crisp and fresh as the day they were made and laundered.

Ask your dealer to show you Sealpax—it's best, yet costs less. He has it or can get it for you. Only \$1.25.

If your dealer can't supply you write us. Send for "The Sealpax Family" Booklet concerning the entire Sealpax line.

THE SEALPAX COMPANY, BALTIMORE, MD.

P.S.—Your dealer also carries Lady Sealpax, the new, dainty athletic underwear for women, also "Little Brother" and "Little Sister" Sealpax, the new athletic underwear joy for children.

THE U.S. ROYAL CORD
A famous tire—and a famous tread. Acknowledged among motorists and dealers alike as the world's foremost example of Cord tire building. Always delivering the same repeated economy, tire after tire, and season after season.

The stripe around the sidewall is registered as a trade-mark in the U.S. Patent Office.

How you can measure tire value in 1921

OFTEN it's surprising the number of different tire views that come out in a chance talk at the curb or in the leisure of a friend's garage.

Almost every day you come across the man human enough to believe he can outguess the cut-price tag on "job-lots," "discontinued lines" and "surplus stocks."

His opposite is the hardpan car owner who sticks year in and year out to a standard brand as the only rational economy.

Many will remember the scarcity of U. S. Tires last year.

A hardship at the time, but a benefit now. There are no U. S. Tires to be worked off—no accumulations—no forced selling of any U. S. brand—no shipping of tires from one part of the country to another to "find a market."

There are 92 U. S. Factory Branches. Each one gets its share of U. S. Tires. There is a broad, constant, even distribution of U. S. Tires always going on from these Branches to the dealer.

Buy a U. S. Tire anywhere—in a community of 500 people or even less—and you get a fresh, live tire of current production—with all the original service and mileage the factory put into it.

The owner of a medium or light-weight car stands on equal ground with every other car owner.

Any United States Tire is a universal full money's worth—backed up with a leadership policy of equal quality, buying convenience and price for everybody.

"Any U. S. Tire is a universal full money's worth."

"The different tire views that come out in a chance talk."

A Hot Letter from a Pipe Smoker

Forest City Live Stock and Fair Co., North Randall, Ohio, 1050 Leader-News Bldg., Cleveland, O. Larus & Brother Co., Richmond, Va.

I am more than surprised to discover that you are advertising Edgeworth and are offering to give some of it away.

It has never been my policy to advise other people concerning my business, as I have had enough to do to take care of my own affairs. But if I see all the smokers in the world dead and buried before I can give away as much as a pinch of it.

Three years ago my distant head was complaining because it could get no pipe tobacco that was worth a cent a pound. He immediately introduced Edgeworth. If I had a million dollars I would be all right with it. I give half the pipe to the man who gives me the most for it. Since that time I have never smoked Edgeworth and I have never had a headache.

And it has the same flavor to me as the first time I smoked it. I have sold a thousand pipes and I have sold a thousand more. I am more than surprised to discover that you are advertising Edgeworth and are offering to give some of it away.

Very truly yours, (Signed) W. Kline, Secretary Forest City Live Stock and Fair Co., General Manager The Forest City Fair, Secretary The Grand Circuit.

Mr. Kline has expressed the hope that we give Edgeworth away. Yet until a friend gave him some, he knew nothing about its quality.

There are still thousands of pipe smokers who know nothing about its quality. I am more than surprised to discover that you are advertising Edgeworth and are offering to give some of it away.

Very truly yours, (Signed) W. Kline, Secretary Forest City Live Stock and Fair Co., General Manager The Forest City Fair, Secretary The Grand Circuit.

Mr. Kline has expressed the hope that we give Edgeworth away. Yet until a friend gave him some, he knew nothing about its quality.

SPRAYING IS PROFITABLE WORK

CAMILLA
BY MOLLIE MATHER.
(Copyright, 1911, Western Newspaper Union.)
This is the story of a model sort of Cinderella and her step-sisters. There is not a doubt that Camilla was a society character, that she was a beauty, and that she was a success. Her step-sisters have mentioned her little chance of attention with her in company; she has been a success in all her life. But Camilla put herself forward in any way, or tried for the admiration that was invariably hers. Rather, it came to her naturally. One letter to label the fragrance of a flower—which was, after all, Camilla's secret. Her eyes were never dimmed by the use of make-up, and she was so friendly to her friends that she was always a success. And if you were a man, you would not wonder at her success. She was a society character, that she was a beauty, and that she was a success. Her step-sisters have mentioned her little chance of attention with her in company; she has been a success in all her life. But Camilla put herself forward in any way, or tried for the admiration that was invariably hers. Rather, it came to her naturally. One letter to label the fragrance of a flower—which was, after all, Camilla's secret. Gasoline Power Sprayer in Operation for Control of Codling Moth. Prepared by the United States Department of Agriculture. Spraying, compared with its cost, is one of the most profitable forms of insect control. It is the most likely to be neglected or misdirected, according to specialists of the United States Department of Agriculture. There is need that fruit growers have a more intimate knowledge of spraying materials, spraying machinery, and especially the ways and wherewithals of spraying. The up-to-date orchardist must know just what each spray application will do and the proper time for spraying. It is necessary to know how insects feed.

A better knowledge of the life and habits of the more common insect pests and of the nature of insecticides will add much to the efficiency of contact measures. The general character of sprays to be used depends on the character of the mouth parts of the insects.

Recently speaking, all insects secure their food in one of two ways: (1) By actually biting out and swallowing portions of the food material; (2) by sucking out the juices. The first type includes caterpillars or the larvae of moths and butterflies, adult beetles and their grubs, grasshoppers, crickets, and their larvae, bees, etc.

All biting insects are subject to destruction by arsenical or other stomach poisons. Some biting insects, however, such as borers and certain root-feeding forms, do not feed in situations where poisons may be applied, and for these a different treatment is necessary.

Many sucking insects may be listed as plant lice, scale insects, leafhoppers, the pear-sawfly, and the true bugs, all very important enemies of the fruit grower. For the control of the so-called contact sprays are used, sprays that corrode the body or permeate the breathing apparatus of the insects or otherwise effect their destruction.

Biting and sucking insects often occur in a way to permit their destruction by poisoning the air which they breathe, as with hydrocyanic acid gas or carbon disulfide, but in many cases the exposure and danger make this method impracticable.

Summer spraying is directed against leaf, leaf, and fruit-eating insects, and for these arsenical contact sprays are used. Diverse contact insecticides are also employed in the control of certain insects, such as aphids, red bugs, leafhoppers, etc.

The arsenicals in most common use are arsenate of lead, paris green, and arsenic of lime, used in strong solutions. The foliage will stand, the foliage of stone fruits, as cherry, plum, and peach, is on the whole quite tender.

It is desirable that the product, the reliability of that product, both as to production and as to sale, should be assured. If the climate is such that only a limited crop of crops will thrive or mature, the grower should be so short that certain crops essential to a good rotation cannot be grown. It should be made doubly sure that climatic conditions, such as rainfall, period of drought, late spring, or early fall, have not failed through failure to give proper attention to this problem.

Equally important in this regard with market and climatic limitations are soil and topography. A soil may grow beans, corn, oats and timothy, but not clover, an essential crop may rotate, or the soil may be too sandy for some crop. It may grow hardly or wash out of the crop in the rotation. It may be too poor, or subject to leaching, or

and on these arsenicals must be employed with caution. The important insecticides may be grouped principally into these three series: 1. Stomach poisons for biting insects—arsenate of lead, paris green, arsenite of lime, arsenite of soda, Scheele's green, London purple, white arsenic, borax, etc. 2. Contact sprays for sucking insects—limesulphur solution, soft-lime sulphur, kerosene emulsion, crude-petroleum emulsion, dilute arsenic, nicotine-sulfur solution, pyrethrum, caustic soda, carbolic-emulsion, sulphur spray, resin, wax, etc. 3. Fumigants, the specialists recommend hydrocyanic acid, carbon disulfide, or sulphur dioxide. These are effective against all classes of insects when it is desirable to use them. Arsenate of Lead Most Widely Used.

Arsenate of lead is the best known and most extensively used stomach poison for insects. It has a wider range of usefulness than any other insect poison now available. It is safe for use on the foliage of most plants, has good adhesive qualities, and owing to its fineness, remains in suspension well in water. Moreover, it can be safely combined with certain contact sprays as nicotine, kerosene emulsion, soap, etc., and with a number of fungicides such as lime-sulphur mixture, and Bordeaux mixture. It should not be combined with copper, Paris green, or other arsenicals. Commercial arsenate of lead may be obtained as paste or powder. Powder is coming into extended use by reason of the convenience with which it may be handled and stored, and the saving in freight by the absence of water. Paris green, which is now very rarely used, is a blue powder, may be stored for years if properly covered with water to prevent drying, and protected from freezing temperatures.

This method for home-made preparation of arsenate of lead will give a good product without any waste of chemicals, and will require a minimum amount of time. For example, 100 pounds of arsenite of lead, 100 pounds of lime, and 100 pounds of water will make 300 pounds of arsenate of lead. The following are the directions for using the various preparations are contained in Farmers' Bulletin 908 which may be obtained free upon application to the Division of Publications, United States Department of Agriculture.

WEEDS ARE GREAT NUISANCE

The farmer does not have to be told that weeds are a constant source of trouble to him in the raising of his crops. They not only cause him a great deal of extra work from early spring until late fall, but they are an eyesore and seriously interfere with the best crop yields. On every farm they are a nuisance. When we stop to think of how common they are throughout the country, how rapidly they spread, and how much nourishment they take from our growing crops we are really surprised to know that farm crop yields have been brought up to their present high average.

STOP MICE EATING HARNESSES
Usually Done Because They Are Hungry for Salt Soaked in Leather From Horses.

Usually when mice gnaw harness leather it is because they are hungry for salt, which has soaked into the leather from the sweating of the horses. Putting oil on the harness will not help very much.

A remedy known to be successful was the placing of pans of salt around the barn so that it could be gotten at directly by the mice. When they found it they could get the salt without gnawing it out of the leather, they let the harness alone.

Make Harness Last Longer.
As a rule, harness lasts for less than 10 years. If the right kind of attention were given to its manufacture and use it should last 12 years or longer.

DESSERTS AND OTHER DISHES.
A meal is never quite finished without something in the form of a dessert. Dainty Desserts are made of dried apricots, cook until tender, Mash and add enough sugar to make a paste. Add a cup of minced marshmallows and let them melt. Put into sherry glasses and top with coconut, or chopped nuts.

Baked Ham and Spaghetti.
Macaroni may be used in place of spaghetti in almost all dishes. Take a package of macaroni and wash with salted water, drain, add one can of tomatoes, five or six medium sized onions, chopped, one and one-half cups of minced mushrooms, fried in two tablespoons of sweet fat. Stir and season all until well mixed, then bake for half an hour in a moderate oven. **Roast Beef with Yorkshire Pudding.**
Roast the beef as usual, basting often. Mix two cupfuls of flour, one-half teaspoon of salt, two cupfuls of milk and three well-beaten eggs; beat well and turn into well-oiled pan, filling half full and basting with the gravy from the roast, after the pudding has finished rising. Serve around the roast as a garnish.

Apple Sauce.
Wash and core apples, cut into small pieces, cook until tender, Mash and add enough sugar to make a paste. Add a cup of minced marshmallows and let them melt. Put into sherry glasses and top with coconut, or chopped nuts.

Her eyes were never dimmed by the use of make-up, and she was so friendly to her friends that she was always a success. And if you were a man, you would not wonder at her success. She was a society character, that she was a beauty, and that she was a success. Her step-sisters have mentioned her little chance of attention with her in company; she has been a success in all her life. But Camilla put herself forward in any way, or tried for the admiration that was invariably hers. Rather, it came to her naturally. One letter to label the fragrance of a flower—which was, after all, Camilla's secret. Her eyes were never dimmed by the use of make-up, and she was so friendly to her friends that she was always a success. And if you were a man, you would not wonder at her success. She was a society character, that she was a beauty, and that she was a success. AMERICAN LEGION NEWS

Civil service examinations for positions as mail clerks, carriers, messengers, etc., will be held in St. Paul and Minneapolis, May 21st and 23rd. Ask postmaster of either city for blanks and particulars.

Disabled ex-service men who want vocational training must not delay in applying for it. Those who have been offered training must accept or make it within 12 months from date of notification.

Up to May 1st Legionnaires of Minnesota had contributed \$1,560 to the fund to be used by the Legion in France to place flowers on the grave of every dead buddy buried overseas on Memorial Day. Indications are that Minnesota will over-subscribe its quota of \$2,300.

The last session of the legislature instructed the State War Records Commission to compile a Minnesota History of the Spanish American war. Ten thousand dollars per year was voted for this work. A good start has already been made on "Minnesota in the Great War."

The National Soldiers Home, Milwaukee, Wisconsin is one of the snugger homes into which honorably discharged service men from regular, volunteer or other forces of Uncle Sam will be admitted if they are unable to earn a living. The sickness or disability need not have been incurred in the service.

It's nip and tuck in the race between the Duluth Legion post and St. Paul post No. 8 for the honor of having the largest post in Minnesota. Both have passed the 1000 membership mark and each keeps shooting up in new memberships so fast that they pass and re-pass each other every week. Only paid-up memberships for 1921 are counted.

If a bill to be introduced by Congressman Royal Johnson of South Dakota passes, Uncle Sam will present a gold star to the mother of every boy who lost his life in the great war.

The American Legion

The American Legion begins to long like a full face composite photograph of biographic Americanism from Putnam to Pershing. It moves with the weight of the "Battle Hymn of the Republic" and the tenacity of "Yankee Doodle" with a militant yet from "Dixie." Its large composition is a token of a great trust, and the old Roman Legions, and other legions of time begin to look like popovers. It neither tries to roar with a lion's heart or win a woman's—quite different from the powdered mullettes of Potemkin. It means, it has that delightful mixture of sense and spirit, of power and civility, of shop and farm, which tickles the popular taste. It neither bleats over its woes nor boasts of its prowess.

Without a proclamation, an agitation, or unnoising a pack of schemes it has created a civil prestige to match its military splendor. Old soldiers of all ages and lands are prone to harr on one string, but the team of Legion is in tune and tune with all the chords of their long life. It is not merely hand-some clay in uniform but shined in manhood from its loss to its finish. It has that delightful mixture of sense and spirit, of power and civility, of shop and farm, which tickles the popular taste. It neither bleats over its woes nor boasts of its prowess.

When the mighty military machine dissolved in our citizenship the fragrant cascade through the grape, their attraction of high purpose for in defending the institutions of America the Legion learned how to value them. Thus it possesses a moral prerogative to tread down lurking disloyalty. We are proud to be fathers and mothers, cousins and aunts of the Legion. We shall sleep sound at nights. And when the historian winds up the task of glory painting its battles we trust that he will use a noble, drop of inn in stating that Congress dealt a be-fated and generous bonus--Le-ticia's Weekly

SALLY ANN BREAD!

sweet. The loaves cut well and keep their moisture well." What more could you expect of bread?

Sally Ann Bread is not wrapped because each wrapper costs 1-2 cent. Do you eat the wrapper? No, you want a good quality bread to eat, and that is what you get when you buy Sally Ann Bread from the following merchants: Frank Rybak, A. M. Challeen, The Fair Store, the West Side Grocery, Glasow's Grocery, the Sally Ann Bakery.

Try a loaf with your next order. 8c., two for 15c. Fresh twice daily.

MADE COMPLETELY WITH ELECTRICAL MACHINERY

We sent two loaves of our Sally Ann Bread to Paul Richards, Bread Expert of Chicago. This is what he says: "The loaves are of good appearance, pretty as a picture, of good volume and shape. The crust is of a light brown, thin and smooth. The color of the crumb is white and even, the odor is good, and taste is

Motion made and seconded that they bill the City of Ancker American \$250.42, when we get the money. Motion carried.

Motion made and seconded that annual meeting be held the 15th of June. Motion carried.

Motion made and seconded that we extend a vote of thanks to the Village Council and the business men of Hineckley for the free rent of this building for the last year. Motion carried.

Motion made and seconded that meeting adjourn. Motion carried.

**DODGE BROTHERS
COUPE**

The Coupe is surely a good and a useful car—so good and so useful, that the most we might say about it, is outdone every day by the things which tens of thousands of owners say.

The gasoline consumption is unusually low. The tire mileage is unusually high.
