This will be done Sunday.

The accident occurred on the Twin Cities Duluth highway. Mr. Rugg was driving about thirty miles an hour when he was confronted by a farmer's hay rack about to turn in the center of the road.

D. Olson, the farmer, said his hay block had run about ten miles and he had anticipated to pass him.

The farmer's buggy car loose and at the side of the highway, the front wheel skidding. The steering gear jammed and the car turned over in the ditch.

Mr. Rugg was caught by the steering wheel and the weight of the car fell on him. The two girls were thrown clear.

The farmer telephoned to North Branch for aid after attempting to rescue the radio, money and the girls.

The girls were taken to North Branch by an automobile and attended by physician.

The body was taken to the undertaker there.

Mr. Rugg, who was at home alone, suffered a severe shock when informed of the fatal accident, but her condition was not considered serious

this afternoon. Friends drove the injured daughter home shortly after noon.

Mr. Larson has been employed by the Askov Hardware Co. the past three years. His parents reside in Minneapolis. Miss Feldmose is the daughter of Mr. and Mrs. Feldmose living about 2 miles north of Askov. He was 22 years old, and she was 17.

They had been to the ball game at Sandstone, he having played on the Askov team, and had returned to Askov. They had to his home, where he was staying, and just left them on the way to his home. According to reports, the auto was going at a very slow rate of speed, when crossing the track. They evidently didn't see or hear the train until it crashed into them.

The car was carried about 200 feet, before they were thrown out, and it hung to the engine about 600 feet more before it was thrown free of the track. The train came to a stop about 100 feet from the point from where it hit the automobile.

Funeral services were held for the unfortunate couple at Askov Tuesday and they were laid to rest in the Askov cemetery.

Bundle Day June First

From the near east comes an appeal for clothing. Five years of destitution have reduced hundreds of thousands of them to a most pitiful condition. Many thousand of Armenians, driven from their homes during the war, are still in exile.

To relieve this distress, Jules Lefebvre has been sent to the Near East. They can use coats, dresses, suits of all sizes, overcoats, shop worn goods, wool mittens, stockings, hats, shoes (in pairs), underwear, garments and cloth sheets to make bandages. Make up your bundles and send yourself when you give these old clothes it is serviceable? Address your bundle by parcel post to--Near East Relief Warehouse, 549 West 99th St., New York City.

Help That Bad Back!

Why be miserable with a "bad back"? Kidney weakness often causes much suffering from backache, lameness and stiffness. It may cause heartburn and kidney irregularities. Neglected, it may lead to droopy, grumpy or bright's disease. It may even cause a really early correction by using Dose's Kidney Pills. They have helped thousands of your neighbors!

Mrs. Hicks Relieved By Four Eatonic

"I have taken four Eatonic tablets and they relieved me of my stomach, I recommend it to everybody," says Mrs. H. W. Hicks, of St. Paul, Minn. "If stomach is not digesting your food; if you have sourness, bloating, flatulence, indigestion or acid after meals, take Eatonic. It relieves because it takes up and carrying out the acidity and gases, bringing quick relief and healthy digestion. Why suffer when you can take Eatonic? It does not interfere with any medicine you are taking normal and enjoy good health? An Eatonic tablet after each meal will help you digest your food. Make the test today and see how quickly this wonderful remedy acts. It comes in tablet form. Carry it with you. A few tablets cost only a trifle with your druggist's guarantee."

Embarrassing Questions.

No question about it—whether of grandmothers, etc., is about to hear his pipe, one peak a large employer of boys, and evidently with some feeling for grandmothers, has inaugurated an employment application blank which is to fall into detail all information regarding the health of their relatives.—New York Evening Post.

Which Kind of A Pipe-Smoker Are You?

There's the man who doesn't care what kind of tobacco he smokes in his pipe just so it holds fire and makes rings.

And there's the man, minded to have all there is to smoking, who will fill his pipe only with tobacco of real quality and flavor.

The first type insists upon having quality and flavor in his pipe-tobacco may have to pay somewhat more for it than the other type.

That's true of Edgeworth and its tobacco in all forms.

Monarchs differ in price in a man pays for good tobacco is too narrow to influence the judgment of a pipe-smoker who loves his own brand.

Other things being equal, in proportion, and he is generally a tolerant fellow who knows that when it is time for good tobacco to come down in price, it will come down.

There is a limit to the amount of the business of making tobacco, and that limit seems to prevent very much the use of the tobacco to be made.

Businessmen who have investigated the proposal of the new tobacco plant condensing plant have received favorably on taking up the project at that time. There are not a sufficient number of dairy cows in the community to warrant a condensing business profitable to the committee.

Braeside—William Langer, former attorney general of North Dakota, has challenged A. C. Townley, president of the Great Northern Railway League, to a series of debates in Minneapolis, according to word received by Richard S. Wilson, publisher of the Braeside Tribune and formerly manager of Mr. Langer's present campaign for governor of North Dakota.

Fergus Falls—After hearing the evidence in the case of William M. Corless against the Great Northern railroad, Justice Johnson directed the jury to return with a verdict of guilty.

Mr. Corless claimed that the company negligently ran a train into a cyclone on the Dakota prairie a short distance west of Fargo and that the car in which he was riding was overturned by the wind. He died as a result of 500 damages.

Minneapolis—Polson, acreage that now belongs to the State of Minnesota, will be sold at public auction for the coming year at the expense of the state government.

Everything is readiness at the creamery for the opening as soon as another cream vat comes, which will probably be this week. An electric motor has been installed which will make the running more handy and convenient.

Two good repair shops for autos.

Rock Creek Loses

Rock Creek received its first defeat of the season, last Sunday, when Rush City were the victors by a score of 11 to 7. Ade Carlson started the game for Rock Creek but at the end of third inning had to retire due to the old injury or shoulder. When the game was over he hobbled his way out and showed his old time form. Leonard McNeil followed him but was unable to locate the plate and gave way to Erik Hinze who pitched good ball the last two innings. Al Petersen, pitched for Rush City and pitched a good article of ball. The two teams meet in a return game at Rush City next Sunday.

At a meeting of the directors of the Eastern Minnesota baseball league at Pine City, Tuesday evening of this week, Charles Merritt was elected president of the Rock Creek team admitted to the league. This means that Rock Creek will need a good ball team to make a creditable showing and all must get behind the boys and help them put a good team in the field. The opening game of the season, will be played at Braham on Sunday June 5th.

Boost for Rock Creek

America has been going through a period of reconstruction since the armistice was signed. While business conditions haven't reached normalcy as yet, still things are fast getting back to normal.

Rock Creek, with other parts of the country, has gone through the upheaval and uncertainty of price changes. The prospects for 1921 are very bright. With the opening of the creamery—in a few days—and the complete lines carried by the merchants, who must cooperate with the farmers to succeed, there is no reason why Rock Creek should not become a real live business center.

Read the ads of the following Rock Creek merchants. Cooperation spells "success."

ERICKSON BROS.

Everything for the home. Wear, apparel, dress goods, groceries, and a first class meat department.

OSCAR HARTZ HARDWARE

Rock Creek has long been in need of a good hardware store. Oscar Hartz intends to have a good line of hardware. He needs your patronage to accomplish this. Give him prices on your building needs in his line.

HARTZ & JOHNSON

This is a new firm, one that believes in Rock Creek, they also handle groceries, wearing apparel, dress goods. Visit their soda fountain.

ROCK CREEK CO.

If you believe in Rock Creek you will let the Rudd Lumber company figure on your building. They carry a complete line of building materials, priced right.

AUTO REPAIRING

Theatre Notes

Friday—May 27th, look for the street parade and see "The County Fair" at night. Special 5 piece orchestra with special music for the picture. This is a big attraction. They go from here to there.

Saturday, evening and night the big special "The Silent Barrier." The new scenes of "The Silent Barrier" have been made under the eye of Ernest de Balles, the Swiss expert engaged by Mr. Burr to insure correct atmosphere for the St. Moritz stunts, involving mountain climbing, skiing, running, skating and sensational pursuits. Some of these scenes are of most unusual character and all of them belong to the story "Whirl of West Comedy."

Sunday—May 29th we have the best ever. "We're in it" in "Sick Abed" is a farce comedy and will keep you in good humor, also a crack-jack of a comedy line in "Easy Street."

Thursday—Katherine McDonald in "Passion Playground." Unscrupulous or chaperoned, richly gowned and wondrously beautiful, no wonder she was the talk of Monte Carlo. And then—she broke the bank! Come and see the rest, also a Fox News.

Big Reduction in Prices

John N. Willys, President of Willys-Overland again drove home the truth that history not only repeats but also seems made to repeat when he announced smashing price reductions in 1915 opened a great buying way for Overland cars at that time.

The Willys-Overland reductions for 1921 are just beginning the price of the Overland 4 Touring—the most popular model, to the lowest figure at which it has ever been offered—\$605. This is 32 per cent less than the price of last September and is a \$200 reduction from the price obtained this spring. Deep reductions were made in all models, the Overland coupe being reduced

to \$1,000.

Willys-Knight reductions now class the Willys-Knight car among the lowest priced of the fine car group. The Willys-Knight reduction of \$300 on the touring car bringing it to \$1895, and the Willys-Knight reduced June first to \$2750.

In speaking about the price reduction Willys said, "I have always held to the ideal of building cars which might be described as democratic to the public. We have tried to give the public just what it wanted and to keep our price as low point so that the car would always be a good investment."

"After weeks and months of figuring we decided to take this step and in doing so we not only have so improved it in many details that it is actually a better car than ever. These prices now at rock bottom represent valuations which may literally said have been established by the public. There is every indication that new prices will prove most attractive."

The new Overland prices are: touring \$1955, formerly \$1955; roadster \$695, formerly \$895; coupe \$1000, formerly \$1425; sedan \$1275. Formerly \$1475.

The Willys-Knight new prices are: touring \$1895, formerly \$2195; roadster \$1895, formerly \$2195; coupe \$2550, formerly \$2845; sedan \$2750. Formerly \$2950.

Making Farm Homes Modern

As long as farmers' wives are doomed to the drudgery of pumping water—to long walks and from the well for heavy buckets—just so long will farm and city homes remain subject to the danger of diseases and illness due to impure water supply.

A "PAUL WATER SYSTEM" does away with this drudgery. It also opens the way to sanitary sewage disposal, which safeguards the health of your family. Costs little compared to the comfort and convenience of your family. We make a specialty of designing septic tanks. No charge made for this service.

JUST AS IMPORTANT

Waiting until the real hot weather is here before starting to take ice may be false economy. Food which you may think absolutely untainted but which in reality is unfit for the human system, is very common at this season of the year.

Food kept ice-cold is more pleasing to the palate and keeps appetites whetted for every meal.

Three Motors to a Mile of Road

IN the United States there are three motor vehicles for every mile of highway, and this includes all our unpaved roads.

The Federal Bureau of Public Roads estimates that the vehicle use of public roads in the agricultural districts has increased 500 percent during the past 5 years; also that 15 percent of the main highway traffic is carried by motor truck.

Roads built even 10 years ago were not intended to withstand the impact of modern motor vehicles passing in a steady stream. The modern road must be built to withstand this tremendous shock.

For years the Standard Oil Company (Indiana) has been producing material which has been used to provide many miles of road throughout the Middle West with cushion tops of paving asphalt—protecting the highways of town and country against the mighty shocks of modern traffic.

Good roads are a prime essential to national prosperity. The Standard Oil Company (Indiana) in creating a road covering of proved quality, is playing a vital part in the development of the Middle West.

Standard Paving Asphalt is refined from petroleum by distillation with steam agitation. It is an asphaltic cement of the very highest quality. It was developed to conform to the needs of the modern high way as determined by highway engineers working under actual road conditions in the Middle West.

In working out problems of highway construction to meet modern conditions, the Company is prepared to cooperate with any corporation, or engineer, engaged in road construction.

In the production of Standard Paving Asphalt, the Standard Oil Company (Indiana) has added one more useful product to the long list of its achievements.

Standard Paving Asphalt in itself is essentially useful, and by reason of its manufacture as a by-product of petroleum, the Company has been able to hold down the cost of manufacture of Red Crown Gasoline, Perfection Kerosene, Polarine Lubricating Oils, and other major products, without disturbing their high quality, thereby exerting a deterrent influence on increasing the selling price of these products, which accrues directly to your individual benefit.

FARM DEPARTMENT

Monday's Closing—Cattle 1,600. Market closing weak 25¢ to 40¢ lower, spots 50¢ off. Top steer, \$8.00. Cows 600. Market steady on lights. Packer top \$7.00. Hogs 7,400. Market 10 to 25¢ lower. Sheep 200. Market mostly 50¢ to \$1.00 lower.

South to Paul, Minn., May 23, 1921. An average of 10,000 cattle in general receipts at seven leading markets at the week's opening proved too many for an already weak market to absorb except at fresh declines of 25 to 40¢ and in some cases 50¢. Outsiders topped the Monday market, paying \$8.00 for 12 head of 1,325 pound averages, while buyers from the west were going at \$7.75, and bulk selling from \$6.75 to \$7.50. Most of the butcher cow and heifers sold from \$4.50 to \$6.50, with a few good heads at \$7.00. Bulk of the canners and cutters sold from \$2.00 to \$4.50. Heavy hogs were cashed largely from \$4.15 to \$4.75, with a few packer trucks buying at \$3.75 and 25¢ or more lower. Desirable kinds of stockers and feeders were scarce but sold weak to 25¢ lower, while medium and common grades opened a quarter or more lower.

With fairly liberal receipts around the circuit at the week's opening, the hog market dropped off 25¢, range \$7.00 to \$8.35, bulk \$7.85, bulk good pigs \$9.10. Lambs opened mostly 50¢ lower, good woolled lambs \$11.00, good to choice chips \$10.50. Sheep about 50¢ to \$1 lower.

Every farmer in this county is to have a chance to vote in the first nationwide referendum ever arranged to give producers a chance to tell Congress what laws they want.

The Minnesota Farm Bureau Federation today goes out a call to every farmer and government official in the state to encourage us to members and ascertain their sentiment on 15 questions now under consideration by congress. A similar call went out to the farm bureaus of 45 other states, from headquarters of the American Farm Bureau federation.

In Minnesota, the farmers are asked to debate the various questions at township and county meetings and to vote yes or no. The results of the referendum will be presented to congress to prove that the farmers are united in their request for legislation to put agriculture on a paying basis.

Following are questions on which farmers in this county are to votes.

Do you favor legislation to prohibit short selling of farm products? Do you want congress to submit to the states a constitutional amendment prohibiting issuance of tax-exempt bonds? Do you favor excise profits or tax or enactment of a sales tax? Other propositions include increasing federal land bank loans from \$10,000 to \$25,000; legalizing national co-operative marketing and establishing means of financing it; and completion of the Great Lakes-St. Lawrence waterway.

Every Minnesota farmer should get in touch with the local farm bureau unit and vote in this referendum," the state federation said. "This is the first time that all farmers in America have had a chance to tell congress what they want," for the decrease.

The pleasure is worth it. There's no substitute for Camel quality and that mild, fragrant Camel blend.

The fellow who smokes Camels, wants Camels. That's because Camels have a smoothness, a fragrance and a mildness you can't get in another cigarette.

Don't let anyone tell you that any other cigarette at any price is so good as Camels.

Let your own taste be the judge. Try Camels for yourself. A few smooth, refreshing puffs and you'd walk a mile for a Camel, too.

SO WEAK SO NERVOUS

How Miserable This Woman Was
Until She Took Lydia E. Pinkham's Vegetable Compound

Toombsboro, Ga.—"I suffered terribly with backache and headaches all the time, so weak and nervous I didn't know what I could do or what I could not do my work. My trouble was deficient sleep and insomnias. I read in the papers what Lydia E. Pinkham's Vegetable Compound had done for others and decided to give it a trial. The results from its use so that I am never able to do my work. I recommend you to Lydia E. Pinkham's Vegetable Compound to anyone to mine and you may use these facts as a guide."—Mrs. C. F. Phillips, Toombsboro, Ga.

Weak, nervous women make unhappy homes, their condition irritates both husband and children. It has been said that "the chief of nervous prostration, nervous dependency, 'the blues,' irritability and backache arise from a want of control of the system of a woman's system." Mrs. Phillips' letter clearly shows that other women have been relieved in overcoming this condition as Lydia E. Pinkham's Vegetable Compound.

CHILDHOOD'S TRIBUTE

Their Granddaddy Who Fought for the Union in the Civil War is Remembered on Memorial Day.

Raised First Civil War Monument

Moral Lesson Taught by Memorial Day

The unique distinction of having erected the first soldiers' monument "to commemorate the death of those who perished in suppressing the Confederacy" belongs to the little town of Kensington, Conn. For fifty years a stone tablet has stood in a grove of ancient river stones at Portland, held the place of honor on the Kensington green and served as a fitting memorial to six boys from the village who died fighting in the early part of the Civil war.

The history of the Kensington monument is an interesting one. In March 1863, when the contract for the monument was originally made, the fate of the nation was still hanging in the balance. Several months later, after the great victory at Gettysburg, at the patriotic instigation of Rev. Eliza B. Hopper, pastor of the Congregational Calvinistic church, the signature for a soldiers' monument began. When \$350 had finally been raised by public subscription, the work was started.

If the first of the nation was saved, the last of the nation was lost. The Kensington monument was contracted for, the dedication July 23, 1863, after Grant's great victory at Vicksburg and the battle of Gettysburg, came at a most opportune time for new soldiers of war had turned in the North's favor. The semi-centennial of the development of the Kensington monument was celebrated in 1913, the Centennial of the U.S. and the people of Kensington were the patriotic predecessors who were the first ones in the country to express their feelings by erecting a public memorial to the soldiers of their own who had lost their lives in the Civil war.

MINNESOTA FARM MACHINES

Are Made In Your Own Factory

The Minnesota State Prison is your factory, because, as a taxpayer, you helped to build it. And for the same reason you are entitled to your share of the benefits made possible by the industry carried on in its institution. The taxpayers of Minnesota are saving thousands of dollars every year on agricultural implements manufactured here—and if you have not been getting your share of these savings it is because you haven't been buying the Minnesota Line of Agricultural Machinery.

This saving has not alone been effected on the price of Minnesota machinery, but its lower price has been the means of keeping the prices of common articles down. Yet the Minnesota Prison made goods are still lower than any of our competitor's lines.

YOU HAVE SOMETHING COMING TO YOU

When you purchase Minnesota Binder Twine or Machinery you are getting some return on your taxes, in the shape of a saving on the original cost and the saving on repairs and longer life of the machinery.

Minnesota Binder Twine this year offers a saving of 25¢ per pound. Think of that! There will be no loss in value in this twine manufactured. This is sold for 25¢ per pound (wholesale) less than any other brand, which always makes a saving of \$400,000. Then freight, jobber's profit, etc., would make 27¢ per pound difference—altogether a saving of \$400,000.

Minnesota Binders—well-made high-grade product—as you quite like me men. The 7-foot binder, for example, is just \$10 less in price than its nearest competitor. Can you imagine such an economy like that? The 6 and 7-foot Binders offer, comparatively, the same saving.

Minnesota Rakes—the 12-foot, 36-tooth size—is just \$8.44 lower in price than other good lines sold in the State of Minnesota—and their material and workmanship is guaranteed. Remember this when you need a rake.

Minnesota Mowers have many points of superiority, yet they sell for \$15.00 less than any other make of similar quality. For long service and general satisfaction you can't beat 'em.

The MINNESOTA LINE

of agricultural machinery is guaranteed by the State. It is made of the best materials obtainable and manufactured under the constant supervision of state-employed experts.

The Pine City Farm Bureau unit met in the club room, last Monday evening. County Agent Ide and Mr. Ober, State President, and spoke on the work. The Blumberg quarto was present and gave a number of musical numbers. The club took a referendum vote on 16 questions of importance to farmers. You will find some of these questions on the farm page of this issue.

NOTICE

The citizens of the Town of Chenoa, who are the citizens of Pine and state of Minnesota, who are qualified to vote at the General Elections, are hereby notified that a special town meeting will be held at the town hall in said town, on Saturday the 4th day of June next, at 9 o'clock in the forenoon, until 5 p.m., for the following purposes, viz.: Shall the town raise five thousand (\$5,000) dollars for the Road and Bridge Fund, the money to be used to improve township roads.

I call upon all twelve other freeholders of the town having filed in my office a written statement that such special town meeting was necessary to the interests of the town.
