### WIN \$200

HOW MANY WORDS CAN YOU MAKE FROM THIS MAN'S NAME?

Can you make five, ten, twenty or more? Try it! It is more fun than a three-armed circus. Everybody can answer this puzzle from the grandfolds to baby.

Get a pencil and paper right now, and send in your list this very night. It is easy—you will be surprised at how many you find. Add, you can win \$200.

### A Wonderful Offer

To everyone who sends in a list of words made from the word "INVESTIGATOR" I will make a wonderful offer. You can get McCall's magazine, Outlook's Weekly and Northwest Farming absolutely free.

There is a prize of \$25 to be awarded to the person who sends in the first list of words from the word "INVESTIGATOR" that I will give you \$200 if your list is accepted. You can win more money than you can imagine. For more information, send me a coupon from the grandfolds to baby.

### INVESTIGATOR

#### OBSERVE THESE RULES

1. Any man, woman or child in the world, who can find words made from the word "INVESTIGATOR" may win \$200.
2. All words must be spelled in full.
3. All words must be spelled in full.
4. All words must be spelled in full.
5. All words must be spelled in full.
6. All words must be spelled in full.
7. All words must be spelled in full.
8. All words must be spelled in full.
9. All words must be spelled in full.
10. All words must be spelled in full.

## Don't Forget the big Ball Game Sunday Aug. 21

### Braham vs Pine City

## COUNTY FAIR IN FULL SWING

County Fair Opened Yesterday With Good Exhibits

The Pine County Fair opened yesterday with a fine bunch of exhibits entered in all departments. The cattle entries were exceptionally large, most of the entries being registered cattle. The other live stock exhibits are good, and some fine birds are entered in the Poultry department.

The vegetable department is much better than was expected. The exhibits displayed by the Boys' and Girls' Clubs are excellent, and are well worth seeing.

The most entertainment ever provided for, is here this year. The Harrison shows are all ready to open for business this morning, their shows being much better than generally seen. The free attractions to be given in front of the grandstand every afternoon and evening, are all high-class.

There have been some rumors to the effect that the admission would be higher this year. This is wrong, however, the price being the same as last year. There is much more entertainment being provided for fair patrons. The business places of Pine City will be closed on Thursday and Friday, from 1 to 5 o'clock p. m., to attend the fair.

### Pine City Loses

Pine City lost to Rush City, in a loosely played game, last Sunday by a score of 11 to 5.

The game started off with Pine City scoring one run in the first inning. Rush City came back in their half and made six runs on two hits, errors and misplays. From then on the game was about even with each side playing erratic ball.

Spiekler was on the mound for the locals and pitched good ball, allowing 6 hits and striking out 4 men in the seven innings that he pitched when he gave for a pinch hitter. Arnie Kowalko finished the game and got away in good shape. Neavy Bill Johnson did the pitching for Rush City, struck out 10 and allowed 10 hits.

Pine City plays three games at the County Fair, playing North Branch on Thursday, Sandstone on Friday, and Hinkleley on Saturday. Braham comes here next Sunday for the return game on the league schedule.

Summary: Two base hits, Kalb 2, Burke, Jemmer, Corbett; Hits off Johnson, 10; off Spiekler 6 in 7 innings; off Kowalko none in one inning; Passed ball Dado 1, Babcock 3; Bases on balls off Spiekler 1, Kowalko 1, Johnson 1; Hit by pitcher by Spiekler 2; Umpires Boo and Hanson.

Results of last Sunday's games: Rush City 11, Pine City 5; Braham 7, North Branch 0; Pine Lake 11, Meadow Lawn 6; Mora 13, Hinkleley 8.

Team	Played	Won	Lost	Pct.
Mora	11	8	3	.728
Rush City	11	8	3	.728
North Branch	11	7	4	.637
Pine Lake	11	7	4	.637
Hinkleley	11	5	6	.455
Braham	11	5	6	.455
Pine City	11	3	8	.273
Rock Creek	11	1	9	.100

### Next Sunday's schedule:

AUGUST 21:  
Braham at Pine City.  
Hinkleley at Rock Creek.  
Rush City at Mora.  
Pine Lake at North Branch.

### The Highest Law

It is seldom that a theatre secures a photoplay which pleases all, but in "The Highest Law," the latest Zelnick Picture at the Family Theatre, the unusual has been achieved.

Mr. Ince's interpretation of Abraham Lincoln was perfect, or as nearly perfect as is possible for one man to portray another. From his long swinging stride to his tender hearted scene with Bobby's sweetheart, the portrayal is flawless. Not much imagination is required to fancy that the great abolitionist posed himself for the picture.

The story teller has taken a leaf out of history and relates one of those huge episodes in the administration of Lincoln which caused him to become the most beloved figure in the chronicles of America and the hearts of the people. Sunday and Monday August 21 and 22.

### Infantile Paralysis

Many places in Minnesota are afflicted. Let us have public support and keep this disease away from Pine City. Dirty chicken yards, manure piles, etc. are breeding grounds. Please clean up.

Linn should be placed in all vaults. Now is the time to prevent it. Information of neglect is requested. Signed, R. L. Wiseman,

### Girl Killed in Auto Accident

A fatal automobile accident occurred on the road between Harris and Sunrise last Saturday evening when the fifteen year old daughter of Mr. and Mrs. Alfred Stark of Harris met death.

Along with a girl and two boy friends she was riding in a runabout. Some distance out of Harris there is a steep hill in the road which starts turn to the left at the bottom where the road goes north around the swamp. The automobile was possibly going at too rapid a pace to make the turn safely and went over the high embankment to the right and turned over before landing in a heap at the bottom. All occupants were carried along with the car and Irene Stark was forced against the broken windshield and her throat was cut, rendering her unconscious and she died in a few minutes. The others in the party were not severely injured.

Irene was the only child in the family and besides her parents is mourned by many friends and relatives. She is a niece of Judge Stark of Center City. The funeral took place Wednesday afternoon—North Star, Cambridge.

### Bee Keepers Annual Meet

The annual meeting of the Pine County Bee Keepers Association was held at the Farm Bureau office, August 15th, at two o'clock p. m. Harry Bell presiding.

The report of the secretary-treasurer was read and approved, and the officers selected were: President, Harry Bell, Hinkleley, and secretary-treasurer, F. S. Itde.

The question of honey prices was taken up, and after considerable discussion the minimum price was fixed at 20 cents a pound.

Mr. Bell led the discussion on the various problems of bee keeping, resulting in many points of valuable interest especially to those just beginning in the bee business, being brought out.

It was decided to hold another meeting in late winter or early spring on the wintering and spring care of bees.

The dues for the ensuing year were fixed at \$1.00 per year.

### County Commissioners Meet

The county commissioners met at the court house, in regular monthly session, yesterday afternoon. Considerable business is up for consideration, complete details of which will be given in next week's issue of The Pine Press.

### Legion Holds Meeting

The Leon Hoast post of the American Legion met in the club rooms on Tuesday evening of the week, about twenty members being present.

The report of the state convention at Winona was read by Michael Hurley, who was a delegate to the meeting. The post accepted a proposition from the Country Gentlemen to sell subscriptions for that magazine, during the fair, for which the post is to receive 50 per cent of all money taken in.

The drawing for a \$5 bill was held during the meeting, which was won by Pete Carlson of Rock Creek. The meeting was followed by an smoker.

### Moonshiner Arrested

Edwin Chalfont, living near Strunson Lake, was arrested last Sunday and taken to Pine City by Sheriff Hinkleley and charged with making moonshine.

Two 50 pound barrels containing mash were found on his place. He pleaded guilty to the charge at a hearing before Justice Stephen and was bound over to the district court. He expected to give bonds for his release.

### Farmers

There will be a meeting of the Pine County Farmers' Exchange on Monday Aug. 22nd, in the village hall, at Pine City, Minn., at 1 o'clock for the purpose of making plans for a Farmers' Warehouse.

### Warning

Notice is hereby given that no fire can be started in the town of Chengwatah without written permission from the State Fire Marshal. By order of the Chengwatah Town Board, Frank Drimmel, Clerk.

### Pine Town Unit to Meet

The Pine Town Unit of the Farm Bureau will meet at the home of Adolph Reamer next Sunday. Adolph has a large patch of watermelons that will be open to all those attending.

## TREASURERS TO MEET HERE

County Treasurers will Hold Meeting Friday and Saturday

The county treasurers of the state will hold a two-day convention in Pine City on Friday and Saturday of this week. County Treasurer Pofari, president of the state association, announces there will be a big percentage of the treasurers at the meeting and most of them are bringing their family along for an outing. They plan on holding business meetings in the mornings and will attend the fair the balance of the day.

### Bert Dempsey Burned

H. M. Dempsey was severely burned Tuesday morning when a gasolene stove exploded at his cottage at Cross lake. The explosion threw burning gasolene about his head and body, igniting his clothes. He ran to the lake and plunged in, extinguishing the flames. Bert was brought to Hinkleley where his injuries were treated, but it is said he is in a serious condition—Hinkleley News.

### Road Work Rushed

Charles M. Babcock, state highway commissioner, this week made public a mid-season review of activities in the Minnesota highway department covering the 90-day period since Good Roads Amendment No. 1 went into effect. The summary, indicating that operations are well advanced on a large scale toward spreading early benefits over the state's trunk route system, is as follows:

About 6,200 of the 7,000 miles of trunk routes temporarily designated and taken over by the state for maintenance.

Army of 1,126 patrolmen covering the system to smooth temporary routes until permanent improvements can be extended.

Another big maintenance force, equipped with 150 trucks and 50 tractors—surplus war equipment rebuilt for road work—shaping up highways for patrolmen where necessary.

Office and field forces increased from small number to nearly 3,000 employees, exclusive of hundreds on contract work, but administration expense held to less than 5 per cent.

Approximately \$300,000 of new construction, for 1921 completion in about 75 scattered sections, placed under contract at less than \$200,000 to per cent below 1920 levels charged counties.

Fight continued for new federal aid apportionment to enable Minnesota to carry out its full 1921 program for 677 miles of grading, 438 miles of gravel surfacing and 40 miles of new paving.

Construction advanced as outlined. Commissioner Babcock left for Washington to continue the fight for farm-to-market road legislation in order to get below 1920 levels charged counties.

However, new high roads in highway improvement this year are assured the state with road funds from all sources expected to exceed \$26,000,000. The trunk funds include nearly \$6,000,000 of motor vehicle taxes, \$5,000,000 of county bond money and probably \$2,000,000 of federal aid. It is estimated, while counties will have nearly \$125,000,000 to spend on the laterals or feeder roads—\$225,000,000 local and federal aid and \$145,000,000 of state aid.

Extra organization work accomplished and urgent projects under way after the first strenuous three months period. Commissioner Babcock expects the trunk system to show steadily increasing results while there can be no let-up. Little difficulty is anticipated in keeping things moving. Weak spots in the organization are being changed and by the trunk highway forces will aim at 100 per cent efficiency.

Strives for Practical Results. Commissioner Babcock's policy, as announced at the outset, is to get the utmost in quick results this season by maintenance work and to annually build up his organization for even better showings in the future.

Minnesota's new highway laws were passed and Commissioner Babcock was reappointed under them April 25. Until that time the Commission, which without authority or funds to make even preliminary surveys. He started at the very beginning with the construction season already on. Then came the announcement that the greatest stress would be laid on maintenance this year.

Destinations of temporary loans from trunk routes listed in the Babcock amendment were rushed, and as the roads were taken over, patrolmen were found for the 5 or 6 counties which had no trunk and feeder routes west in to the field to shape them up for the patrolmen where necessary.

Baseball Notes

Special is just one-fourth his size. Little Dixie Kerr (retires his extra inning job has finally left the field. The Japan club has named Outhouse Fred Thrash back to the Chattanooga club.

Joe Wagner, left of Toronto, has joined the Greenville South Atlantic league team. Pitcher Jim Reynolds, late of Kansas City and Detroit, is a new member of the Chattanooga club.

The South Sea Islanders, has been named by the Detroit Tigers to be the Detroit club of the Western league. The Southern League is going to open the first season in one of the games for the first of the season, so the result of an attack of appendicitis.

First baseman George Kelly of the Atlanta club is to be a regular in the Central league, but one and consecutive games. According to station reports, Kelly will play for the Central league, with a percentage of 25.

The Indians are confident Allan Simmons, discarded by both the Boston and Red Sox, is going to prove all of a lot of talk to them. He finished, sent by Memphis to the St. Louis club, his return to St. Louis league company by pitching a no-hit game against Columbus.

Gary Clark, the only major league pitcher ever to make more than 100 homers during their careers. The Grand Old of St. Louis Times says that Hornsby is a much better second player over last year and that as a team man is a big asset of the club.

The Man who, starting a new season, is just going to play until September 30, is the original schedule called for the season to end in later time.

JOE BOEHLING IS RELEASED

Former Washington Twain is Capt. Off by Canadian Club and is Signed by Bruggsport. Pitcher Joe Boehling was recently released by the Toronto baseball club. He was purchased from the Portland club.

Lower California Cattle

In addition to cattle, many excellent milks are raised in Lower California. Horses are rarely used. The principal breeds of horses are the principal means of transportation. Except for a few thousand in La Frontera, there are no domestic horses in the country. In the southern part there are numerous flocks of geese. The largest flock on the peninsula comprises at least 1,000,000 geese.

An Apt Illustration.

The teacher was quoting who saves to the class and get the attention about them. She said, "A direct speech is better than the truth except when charity. Can any boy give a practical interpretation of that maxim?" Somebody by her conversation, a freckle-faced lad made this homely application: "If you have a nut on the table, don't say anything about it."—From the Outlook.

## Magnifying the Finger Print

THE proved oil producing area in the United States is estimated as only 4500 square miles. When you contrast this with the area of the United States—3,026,789 square miles—the proved area is but a finger print on the map.

Yet from this 4500 square miles must come the raw material to drive all of our motor driven machines, and practically all of the oil to lubricate the machinery which makes possible the happiness and prosperity of the nation.

To magnify this finger print is the task in which the Standard Oil Company (Indiana) is engaged.

By reason of the Burton Process, which largely increases the amount of gasoline recoverable from a given quantity of crude oil, and dozens of other methods developed in its laboratories and refineries, the Standard Oil Company (Indiana) has multiplied the quantity of finished petroleum products available for the use of men wherever they may live.

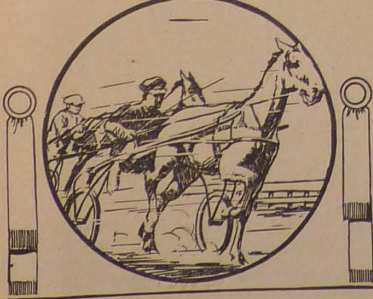

The development of the Burton Process has done more to promote the manufacture of automotive machinery than any other single discovery since the usefulness of gasoline as a fuel was made known. Because of it there is a plentiful supply of crude oil available today, and gasoline is selling for a low price. Without it the price of this fuel would be beyond the reach of the average man.

The use of this process is not confined to the refineries of the Standard Oil Company (Indiana) alone, but is being made available to others under conditions which are just and equitable to all.

The Standard Oil Company (Indiana) has a just pride in the work it has done, and is doing, to so increase the quantity and quality of its products as to make possible the use of labor saving machinery throughout the world.

Thus is the Standard Oil Company (Indiana) doing a big work in conserving the natural resources of the nation, and in helping others to do likewise.

## Local News

Miss Clark of Cloquet arrived this week for a visit at the James Hurley home.

Geo. McClellan, formerly of this place was a business caller in town on Monday.

Frank Stoehl left for Minneapolis this week after visiting with his parents north of town.

Clyde Miller and N. K. Nelson spent the week end in the cities, returning home Sunday evening.

Wm. McKusick arrived from the Twin cities last Friday for a few days visit with friends and relatives.

D. Ahern of Minneapolis spent Tuesday and Wednesday at the home of his daughter, Mrs. E. J. Prochaska.

Miss Anna Wickstrom returned from Stacy, Tuesday, where she visited at the home of Mrs. Arthur Anderson.

Miss Vietrine Shortridge of Forest Lake arrived Sunday for a visit at the home of Mr. and Mrs. Ben Peterson.

Miss Fortia Huber left Monday for a ten day trip to Yellowstone National Park where she will spend her vacation.

The Misses Hurleys have rented the Hodge cottage on Pokigama lake and will camp there for a couple of weeks.

The Rock Creek junior ball team defeated the local junior team at the fair grounds last Sunday by a score of 8 to 4.

E. A. Leander returned to his work at the Potosi garage after a two weeks vacation spent at points in Iowa.

The Dr. Wiseman returned home last Thursday from Mille Lacs lake where they were camping for a few days.

Five friends from Stillwater visited with the Boo boys Sunday. They were on an auto trip to the northern part of the state.

Lynn Buirge, son of Mr. and Mrs. Henry Buirge, went to Moose Lake last week for a visit at the McKay home at that place.

Earl Gray arrived from Fairmont last Saturday and will spend the balance of the summer at the home of his mother, Mrs. Jonas Gray.

Mrs. John Zyzmanek and children arrived from Duluth last Sunday for a week's visit at the home of her brother, Father Leo.

Mrs. Frank Curt left Wednesday noon for St. Paul where she will spend a few days visiting at the home of her daughter there.

Mrs. Scully and baby left last Thursday for La Sue for a visit at the home of her parents. Dr. Scully expects to go there today for a visit.

Harold Wickstrom, son of Mr. and Mrs. Hugo Wickstrom of Grindstone Lake, arrived Monday for a visit at the Henry Baurge home.

Miss Alice Daley and her aunt, Mrs. Catherine Daley left Tuesday for North Dakota where they expect to visit for two or three weeks.

Mr. and Mrs. Nick Perkins and children and her sister, Mrs. Kelley, left Sunday for Hancock, Mich., where they will visit for a week or two.

Miss Mallison, former book keeper at the Power Co., arrived from Minneapolis the first of the week for a visit at the Albert Oman home.

Miss Erna Miller leaves for her home at Amery, Wis., today, after a visit of a week or more at the home of her uncles, Sam and Clyde Miller.

The Jos. Petchels and the Bert Cowans drove to the cities last week where Mr. Petchel purchased some new fixtures for the restaurant.

Miss Grace Erickson returned home Saturday from a week's visit in Duluth where she is taking her vacation from the telephone office last week and this.

Sig Striegall arrived yesterday from Minneapolis for a visit at the home of his brother here. Sig will play solo comes with the band during the fair.

Mr. and Mrs. Chas. Sparring leave today for Kansas where they will visit with their son, William. They expect to be gone about three weeks.

Mrs. Erick Larson and children arrived home from North Branch last Thursday where she visited at the home of her parents the past few weeks.

Miss Myrtle Norstrom is visiting at the home of her parents of Pokigama, Minn., and Mrs. Fred Norstrom. She taught school at Deer River last year.

M. J. Kara, his mother and cousin arrived from Chicago last week for a visit at the home of his uncle, John Jelinek. They will remain for the fair.

Joe Carlson returned to his duties as

book keeper at the Mercantile, Wednesday after a week's vacation spent at points in southern Minnesota. He made the trip by car.

Mrs. P. W. Evans of Mallison came the first of the week for a visit of a few weeks at the W. W. Clark home. Mrs. Evans and Mrs. Clark were schoolmates when children.

Peter Miller left for his home at Hampton, Iowa after a week's visit at the home of his son, Jons J. Miller. He accompanied them up from their trip to Iowa a week ago.

Mrs. G. W. Staacke left Tuesday noon for St. Peter where she will attend the historical pageant being held at that place this week and to visit with relatives and friends.

Mrs. Fred Blotstein, Mrs. Phil Sitsky and son Ralph, the former's sister, Miss Ruth Sitsky went to the cities last week and will camp for awhile with relatives at Lake Minnetonka.

Mr. and Mrs. Elton Cleaver went to Duluth last Friday and spent the week end with relatives and friends there. Mr. Cleaver is taking a two weeks vacation from his work in the Power Co. office.

Work was started the first part of this week on the remodeling of the R. E. Linn home. They have rented the Howard Potosi house and will live there while the work on their own place is being done.

Eddie Erhart, son of Mr. and Mrs. Louis Erhart, received a broken wrist on his left arm, Wednesday afternoon. He was crossing the tracks in front of the depot when he stumbled, striking his arm on one of the rails.

Frank Swanda is expected home from Los Angeles, Cal. He is in the United States navy and is on a thirty day furlough. Miss Magdalene Swanda, his sister, went to St. Paul last Saturday to meet him.

Frank Prochaska, son of Mr. and Mrs. Math Prochaska, arrived from the cities last week for a visit with his parents. He may possibly attend the university this fall, although it is undecided at present.

Mr. and Mrs. Herman Marquardt and daughter Cecelia of Durand, Wis. and Miss Catherine Hawley of Wabasha, Minn., arrived last Sunday for a visit at the R. J. Hawley home. They left Tuesday for St. Paul.

Mr. and Mrs. Wiley returned from (Buhl), the latter part of last week, where they visited a few days at the Bastien home. Melba and Geraldine remained for a longer visit. Miss Melba sings there at a band concert being given this week.

The fire department was called to the Haas harness store, Tuesday morning about eight o'clock. The repair man was lighting the vulcanizer when it broke, allowing the gasoline to escape which caught fire. The blaze was soon extinguished before much damage had been done.

Thieves entered the chicken pens of V. F. Joslin, living on the east side of the lake, sometime Monday night and succeeded in getting away with about sixty birds. This is getting to be quite a common occurrence as a number of farms have been visited within the past few weeks.

J. A. Petersen left Thursday for Chicago for a visit at the home of his son Emer. He will also visit at points in Iowa and Minnesota before returning home. John Gray is assuming his duties as station agent, at the local depot, in his place and L. M. Graham is here to fill in as first trick operator in John's place.

The Presbyterian ladies aid held a picnic at the Wiseman cottage on Cross lake last Thursday afternoon. Mrs. J. Y. Breckenridge resigned as president of the aid and the unexpired term will be filled by Mrs. Henry Buirge who is now vice president. The ladies decided not to have a stand at the fair this year and assessed the members two dollars each instead to raise money generally made by operating a booth there.

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tensely Chronicled for Their Benefit.

Boonville—Advance reservations in small that the State Teachers college studies will break all records this year when the school opens Sept. 6.

Boonville—Contracts for erection of the new high school here have been awarded Edward Jackson & Son of Boonville at \$240,000. Work is to begin Aug. 15.

Rochester—During a heavy fog Otto Johnson, a carpenter, ran his automobile into a Great Northern train. Johnson escaped injury, but the machine was wrecked.

Pipestone—Mrs. Hattie Walte, aged 66 years, was shot and killed at her home near Pipestone by Monte White, who then turned the gun on himself. The slayer is said to be fatally shot.

Winona—The contract for the erection of the new high school here has been let to the J. B. Nelson company of Winona on its bid of \$273,000. Construction work will be started at once.

Marshall—Fire of undetermined origin destroyed the Du Bois candy store in the heart of the business district. By hard work the firemen kept the flames from spreading to adjoining buildings.

Wasson—Plans are being made by attorneys here for the entertainment of the Southern Minnesota Bar Association Aug. 25. More than 115 attorneys are expected to attend from this section.

Virginia—One of the heaviest storms of the season struck the range district, according to reports reaching here. Rain fell in torrents, accompanied by hail, which caused damage to crops and automobiles.

Owatonna—Owatonna's school section, just completed, shows a total of 188 children, of whom 106 are of 6 and 16 years in the city. Although the total is only seven greater than last year, it is the largest in the city's history.

St. Paul—Two townships in western Roodoching county, near Loman, have set aside a game refuge by Carlos Avery, state game and fish commissioner. This action was taken following a plea by residents of Loman for such designation.

Virginia—Eudolph Elias was killed when the automobile which he was driving overturned while he was attempting to pass a slow moving car. Two other passengers in the Elias car were thrown clear of the wreckage and escaped with minor injuries. Elias' neck was broken.

St. Paul—Otto A. Remmer, manager of the Remmer Brewing company of Red Wing, has been held by the grand jury which meets in St. Paul, Dec. 6, and his brewmaster, John Hays, said he would waive extradition when arraigned. Remmer had a hearing before Francis B. Tiffany, United States commissioner.

Winona—Edward Larson, a farmer who had four miles northwest of here was killed when he jumped from a wagon to recover the lines he had thrown over a fence. He fell and jumped, the wheels of his wagon carrying a load of grain passing over his body.

Little Falls—A warrant charging Dr. E. R. Hall with violating the prohibition law was served by deputy United States Marshal Frank Little, Long Prairie, Minn., on Dr. Hall at Little Falls, Minn., on the 11th inst. The prohibition law was reported favorable on the project.

Winona—Edward Larson, a farmer who had four miles northwest of here was killed when he jumped from a wagon to recover the lines he had thrown over a fence. He fell and jumped, the wheels of his wagon carrying a load of grain passing over his body.

Little Falls—A warrant charging Dr. E. R. Hall with violating the prohibition law was served by deputy United States Marshal Frank Little, Long Prairie, Minn., on Dr. Hall at Little Falls, Minn., on the 11th inst. The prohibition law was reported favorable on the project.

St. Paul—John G. West, superintendent of the city schools here, has been elected superintendent of the city schools of Boston...

Rochester—Fred Kruger was seriously injured when a train struck his car while he was crossing the tracks at Kasson. The car was demolished...

Minneapolis—Henry N. Knott, city clerk, brought suit against E. W. Rowley, attorney from the Boston ward, asking damages of \$7,000 for alleged slander.

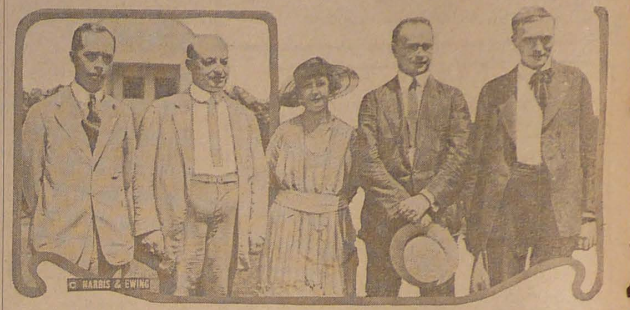

Chattfield—Three men—John Griffin, Ernest Richter and John Peterson—were knocked unconscious when the threshing engine which they were operating overturned.

St. Paul—E. A. Voelz of Danube was elected president of the Minnesota State League of Postmasters at its annual convention at St. Paul.

Marshall—The Marking bus line, which was in operation between Marshall, Redwood Falls and Willmar has been discontinued. Lack of business is the main reason.

Fergus Falls—Wild ducks and prairie chickens are reported numerous in this part of the state. The ducks have been protected under a closed season for the last two years.

Boston Mounted Police at Run on a Bank

Mounted police of Boston attempting to restore order in front of the Five-Cent Savings bank during a run on the bank by thousands of frightened depositors. They had been alarmed by false reports of the institution's financial condition.

Asked Freedom for Political Prisoners

Delegation from the Political Amnesty Association, which called upon President Harding to present a petition signed by representatives of 500 labor organizations for the release of all political prisoners except those filled with the L. W. W. Those in the group from left to right are: B. M. Manly, W. H. Hurston, president International Order of Machinists; Miss Lillian Martin, secretary National Amnesty committee; S. M. Castleton, legal advisor to Debs, and W. F. Krust, state secretary Illinois Socialist party.

SABIN AND HIS SHELL

To J. O. Sabin, sailor on the Whittaker, and who has been at the Chicago Pageant of Progress every day, fell the honor of being the first shot in the navy in the late war. Sabin, while a gun pointer on the naval auxiliary cutter Intrepid, fired the first shot in the Bay of Biscay June 5, 1917, at a German submarine and was unhurt.

Eskimo Girls Riding an Elephant

Capt. Louis Amundsen, famous Scandinavian, who discovered the South pole, is shown in the Seattle zoo riding on the elephant in his four-year-old adopted daughter, Cokinita, a full-blooded Eskimo, and his eight-year-old ward, Camille, who is part Eskimo.

HONORS DAD'S MEMORY

Washington—Sigurd B. Quale of Willmar was appointed prohibition enforcement officer for Minnesota by Governor Jesse C. Stenson of Minneapolis. Mr. Quale was recommended by Senators Knute Nelson and Frank B. Kellogg Wednesday and the appointment was made by secretary of the treasury and does not require confirmation by the senate.

Coolidge Boys in National Capital

The Coolidge boys, sons of Vice President and Mrs. Coolidge, have been enjoying the sights of the national capital. They were snapped outside the Smithsonian institution while they were examining one of the captured German ships. Calvin Jr. is shown at the left, and John at the right.

King George of England Involved

King George of England involved the status of his father, King Edward VII in London security. The monarch's attitude in London is reported to be pleasant.

ODDS AND ENDS

Paraffin is found in the native state in coal and bituminous strata. It is found in the native state in the form of a solid or semi-solid substance, and is used in various ways...

### CABBAGE BEETLE DOES MUCH HARM

Insect Carefully Avoids Arsenical Sprays Effective Against Many Other Pests.

### BEST METHODS FOR CONTROL

Tobacco Dust Found to Be Most Effective of Repellents Tested—Arsenates of Lead Applications Found Satisfactory.

(Prepared by the United States Department of Agriculture.)

Evidently the Western cabbage beetle was not hatched to die by poison—at least by sprays of arsenicals found so effective against many other insect pests. It may be driven away, however, by poisonous applications, and herein lies the method of control, discovered by specialists of the bureau of entomology, United States Department of Agriculture, whose experiments in combating the pest are described in Department Bulletin "The Western Cabbage Beetle," recently published. This insect, by its frequent bites, does serious injury to turnips, rutabagas, mustard, kale and other crops, to sugar beets, turnips, and under exceptional conditions to heads and peas.

**Dainty in Habits.** The beetles, it is said, are dainty in their feeding habits, carefully avoiding foliage that has been sprayed, and attacking other unspoiled parts of the plants. They are also very particular in their feeding habits, avoiding foliage that has been sprayed, and attacking other unspoiled parts of the plants. They are also very particular in their feeding habits, avoiding foliage that has been sprayed, and attacking other unspoiled parts of the plants.

A formula that gave excellent results was arsenate of lead paste, 1 pound; fish-soil soap, as a sticker, 1 pound; and water, gallons. Half of the weight of powdered lead arsenate or 2½ pounds in 50 gallons of water, is equally effective, with a corresponding quantity of soap, but is not as effective, or "sticker." It should be applied with a sprayer fitted with elbow extension, and special effort should be made to coat thoroughly the under surface of the leaves. Two or three applications at five to eight-day intervals are sufficient, even in case of severe infestation, provided the first application is made promptly on the first appearance of the insect.

### Control by Nicotine

The pest can also be controlled by nicotine sulphate, one-half pint, 40 per cent solution, in 50 gallons of water, with 2 pounds of soap, which is a detergent. It is not so effective, however, to control this insect entirely when it occurs in its greatest abundance. In addition, it is desirable to keep the plants thrifty and well watered. Mechanical and many traps can be used with advantage. Clean culture is always advisable.

### BROOM CORN FIBER DEMAND

Crop Compared With Many Other Farm Products—Marketing Methods Neglected.

(Prepared by the United States Department of Agriculture.)

Broom corn is marketed today practically the same methods as 70 years ago, according to statements made by specialists of the bureau of markets, United States Department of Agriculture. It is a small crop compared with many other farm products and, owing to its limited use, has

fallen to command the attention of the marketing agencies which have played such an important part in the development of the highly efficient systems for the distribution of the more important products.

### Harvesting Broom Corn

(Called to command the attention of the marketing agencies which have played such an important part in the development of the highly efficient systems for the distribution of the more important products.)

### CONCRETE FLOORS ARE BEST

Promote and Protect Health of All Farm Animals and Increase Profits for Farmer.

A concrete barnyard makes a fine exercise lot in all kinds of weather and always affords a dry spot for the animals' bed. Every shower washes the surface clean and freshens the concrete yards lighten the work of the housewife, as there is no mud to be tracked on the walls and kitchen floor. The use of rubber boots is unnecessary. On concrete floors hot particles of grain cannot be washed away by the water through a drain pipe, and smooth and possible. Concrete floors promote and protect the health of farm animals and increase the profits of farming, stock raising and dairying.

### Digestible Carbohydrates

Corn silage is the farmer's cheapest source of digestible carbohydrates. As this is the principal feed element required by our domestic animals it certainly is wise to provide it.

### EXPERIENCE NEEDED WITH ALFALFA CROP

Farmer Soon Learns Best Time for Cutting Plant.

Government Experts Lean Strongly Toward Few Crops During Year, Holding That Larger Tonnage Can Be Secured.

(Prepared by the United States Department of Agriculture.)  
Just as men cut alfalfa and how many times to harvest a crop in one season are questions which have received studied attention from experts in the United States Department of Agriculture and the various experiment stations in alfalfa-producing states. Ordinarily it is a good thing to cut alfalfa for hay when no new shoots have started from the crown, and from one-third to one-half of the plants are in or nearly so. Every accessible driver meets with an advertisement of this sort at one time or another. There is just surely to be some convenience that would give timely advice warning to the motorist of a happening. A device recently patented by William Grim of Waterville, O., performs this useful duty admirably. It is very simple, consisting of a float that hangs on the end of a vertical rod which passes upward through the cap of the gasoline tank and with its upper end holds suspended a ball of metal. As the surface level of the fluid in the tank is lowered the float, of course, descends correspondingly. The rod attached to the float descends with the

### AN Excellent Stand of Alfalfa

In six years are in better physical condition today than those that have been cut regularly. Government agricultural experts have strongly favored fewer crops of alfalfa a year, holding that as large tonnage can be secured, to permit the plants to get a healthy growth, approximately four inches, before frost.

### CULL POOR PRODUCING HENS

Work Should Be Started in Summer and During Early Fall Months—Culls Be Indicator.

The hens should be culled out during the summer. One of the best indicators of the poor producers just as soon as they stop laying, which is usually in August. When the level of laying has come will be large, full of blood, and bright red in color. As she stops laying, the comb will be small and shriveled, pale or dull in color, and is usually rather hard. Another good indication is when selecting those hens which stop laying early in molt, as the hens that start to molt early—that is, in July and August—are usually the best producers.

### SOY BEANS SUPERIOR AS HAY

When Cut at Right Stage and Properly Cured, Hay Is Relished by All Farm Stock.

The hay which when cut at the right stage of growth and properly cured makes an excellent hay of high feeding value that is greatly relished by farm animals. As compared with hay from other leguminous crops, soybean hay is equal or superior to any other. The use of this hay, as compared with other, which can be produced on the farm to balance feeds for growing stock or for milk, should reduce the quantity of high priced concentrated feeds which it is necessary to purchase.

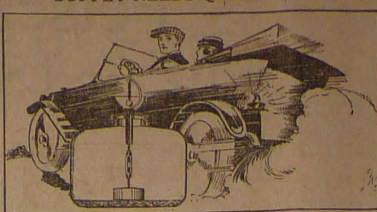

### House Ventilation

Ventilation is just as important in summer as in winter. An improperly ventilated house will cause either lowering of the production or increase in mortality, or both.

### Value of Vetch

Heavy vetch is an excellent leguminous cover crop. It is extremely hardy, will withstand hot summer drought and is a fast grower.

### DEVICE WARNS DRIVER THAT GAS SUPPLY NEEDS QUICK ATTENTION

One of the most uncomfortable things in the world is suddenly to discover, when one is motoring for from a supply station, that the gasoline tank is empty or nearly so. Every accessible driver meets with an advertisement of this sort at one time or another. There is just surely to be some convenience that would give timely advice warning to the motorist of a happening. A device recently patented by William Grim of Waterville, O., performs this useful duty admirably. It is very simple, consisting of a float that hangs on the end of a vertical rod which passes upward through the cap of the gasoline tank and with its upper end holds suspended a ball of metal. As the surface level of the fluid in the tank is lowered the float, of course, descends correspondingly. The rod attached to the float descends with the

### FIX CARBURETOR TO AVOID LEAKS

Difficulties Greater in Cases Where Engines Have Been in Use for Long Time.

### CAUSES FOR UNEVEN ACTION

To Remedy Trouble Opening Should Be Removed One of Entering Air Chamber Velocity in Chamber.

Many has been written about the difficulties of carburetion under normal conditions, when the engine under consideration are in good shape, but the difficulties are even greater in the case of engines that have been used for a long time. Some of the common complaints are of the so-called "golfing engines," inability to throttle to a low speed and an unaccountable misfiring or skipping.

Air-leaks in the carburetor and the intake valves make the engine miss fire. Minor parts, such as spring shackles, wheel bearings, steering connections and universal joints, require care more often in summer. It is wise to use a heavier grade of lubricating oil than in cold weather. The position of the spark lever should be watched to see that it is kept in an advanced position, thus assuring better cooling of the motor.

### AUTO CARE DURING SUMMER

Radiator Should Always Be Kept Filled and at Intervals Flushed Out and Refilled.

During the summer season motorists should give frequent attention to the radiator, unless a motor car manufacturer. It should always be kept filled, and at intervals it should be flushed out and refilled with clean water. In connection with efficient operation of the cooling system, fan belt adjustment should be made, for the fan is of great importance. The position of the spark lever should be watched to see that it is kept in an advanced position, thus assuring better cooling of the motor.

### AUTOMOBILE GOSSIP

Sixty per cent of the production of gasoline is used by motor vehicles.

At one time it was considered unconventional for a woman to drive her own car.

Twelve thousand motor vehicles are operated by rural schools in the United States.

Muffer cones are prohibited on any public highway in the state of Pennsylvania.

A motor trip from Paris to Verdun, through the devastated regions, will return costs 35 francs.

Street cars have the right of way between cross streets over all privately owned vehicles in Kansas City, Mo.

Since 1890, the first year in which statistics are available, there have been built in the United States 11,830,483 motor vehicles.

During a recent test made in Seattle, Wash., one American-made touring car established a record rate of 90½ miles to a gallon of gasoline.

Motorists in Detroit, who park their cars in forbidden territory find them at the city pound, and are obliged to pay fines of \$1 to \$5 to regain them.

Bracing Squawky Fenders. A loose, squawky fender on a car can be silenced by inserting a piece of soft wood or felt between the fender and the iron, then driving up the nut and bolt, which bind them together.

### The Kitchen Cabinet

I heard the grand strawberry saying, "Only look what a rilly I've made." "You've done the best of their May." "I thought it the stuff for my trade." —Lowell.

### SUMMERY GOOD THINGS.

Peaches in a thousand ways would never become monotonous to most of us, for the delightful flavor only whets the appetite for more. Very ripe peaches added to the freezer of cream makes a most delicious frozen treat. Wash well and put through a sieve, as any frozen bits are undesirable in a freezer.

Peach Cobbler.—Butter the outside of a handless tin and place in the center of a deep pudding dish. Inverted. Fill the space around the cup with fresh sliced peaches sprinkled with a little sugar. Bake in crust. Take two cups of flour, four teaspoons of baking powder, one salt-spoonful of salt, sift and mix in two tablespoonfuls of butter. To three quarters of a cup of milk add one beaten egg, mix well and roll out to cover the peaches. Bake one-half hour in a hot oven. Invert on a deep plate and the cup will be full of delicious straggles which may be used as a sauce.

Any other juicy fruit may be used in place of the peaches.

Chocolate Straps.—For those who like the chocolate drink, this recipe will be treasured, as it is one used by confectioners and druggists. For home use one-half this recipe will make good supply. Bottle and keep in a cool place. Take eight ounces of cocoa, one-half pint of water, and heat until well mixed and dissolved, or heat sugar and water until dissolved, then mix with cocoa and glycerin and the cocoa and add both to the straggles; heat and stir, but do not boil. When using add the cocoa to hot milk or water.

New Pretzels With Meat Gravy.—To make a quart of appetizing pretzels, remove a very thin peeling, arrange in a casserole, season with salt and pepper, add an onion (or two) in halves of parsley, then pour on the hot meat broth boiling hot. Set the dish in the oven and cook until the pretzels are tender and the broth absorbed. The beef extract may be used with water if no broth is at hand.

Raspberry Sherbet.—Dissolve a pint of cream, one pint of rich milk, one and one-half cups of sugar in a saucepan of water, then pour prepared by crushing and straining the fruit. Freeze as usual.

The beautiful is just as useful as the useful and sometimes more so. People do not lack strength, they lack will.

### SUMMER STEP-SAVERS

There are thousands of things we can eliminate during hot weather if we just think about them, and the following are some which may be modified to suit each household, or may suggest to you other ways to save work during the extremely hot weather.

To be right, the family should dress as cool as possible. White is the most popular of all colors, as it comes in thin weaves, washes so well and is undeniably not a laundry problem. Green and blue are also cool-looking. Every housewife should provide herself with at least one cool outfit for sweltering days. With plain skirt and waist, or a one-piece affair with a simple belt draped over the top, the outfit will be in style year after year. A cool, fresh-looking householder will refresh the entire family on the hot smothering day.

The daily bath being a necessity, and some days sun-drying, the Turkish towel is a great convenience. Let it be washed in his own towels. After giving them a hot rub in the water, hang on the line and turn the hose on them, the sun-drying will dry them and the weekly wash will keep them in good condition.

A polished, well-oiled, runner, or the decorated old-dish covers will save occasions of laundry work. Small tank mappins, or even the paper kind will save much water. With a wireless cooker, a tea-wagon, a screened porch one may eliminate much of the everyday cleaning necessary steps.

Furniture, when repainted, if done in soft gray, will be most attractive and cool-looking. Cottons and summer draperies harmonize so beautifully with the color. Black and white is another popular and striking color note used much on furniture this year.

The setting of the concrete walk of the house might and morning will cool things off wonderfully. Open the house shutters early in the morning, then close for the day and it will keep much cooler, shutting out the sun by drawing shades and closing the doors.

Peach Stoves Good Fuel. Peach Stoves had been discovered in California, but as well as coal, and give out more heat in proportion to the amount of fuel used than any other fuel that is mined or dried or collected and sold for this purpose.

The Betrayer. One of the best helpful tricks a young lady learns is to get an admirer who is not willing to engage the doorbell and your keeping quiet to make him think there's nobody at home.—Kansas City Star.

### BETWEEN-SEASON WRAP AN ACQUISITION TO WARDROBE

Between-seasons' wrap, like the one pictured, is an acquisition to the wardrobe that proves to be a very accommodating thing. It makes its appearance at any time of the year. In weather that demands it, and passes under the scrutiny of the critical quite sure of their approval. It is made to suit weather conditions rather than seasons.

Mid-summer brought in and late summer is improving some very handsome knitted garments, capes and coats, along with fur-lined and sweater coats, that have a promising future. They are made in many colors and color combinations, and varied as knitted garments can be, by the use of different kinds of stitches in the pattern of making them. Many of the capes are accented plumed and many both striped and plumed. For making collars, cuffs, borders and all trimmings

angora cloth is used and the combination of the two fabrics is a wonderfully effective.

The caps pictured is a handsome wrap for present wear and for fall. It is shown in plain colors and in stripes in a considerable variety of colors. In white with a stripe of orange it is a beautiful wrap but not without rivals. In vivid green with white stripes, in tan and brown and all the "sweater tones."

Designs will assume the responsibility of providing many wraps for autumn. It is made in all colors, and its texture softens and enriches every the most vital of them. Among the smartest of the materials for fall and winter appears the reliable and time-honored chevron, showing variations in its weave as well as plain patterns.

The beautiful is just as useful as the useful and sometimes more so. People do not lack strength, they lack will.

### GEORGETTE CREPE POPULAR FOR LATEST STYLE IN BLOUSES

With an assured confidence in its success, manufacturers of blouses have presented again the blouse of georgette crepe with an abundance of beads in both overblouse and tuck-in models. Neatly all the fanciful details are made in the most modulated style and cut with either kimono or set-in sleeves.

It is natural that georgette crepe should have an army of devotees, but there are other materials in the running, and these are being made in a variety of styles. Crepe de chine and crepe satin are also wonderfully beautiful in texture and soft in feel. Black and white are selected for the less fancy blouses. Georgette lends itself so well to novel effects that designers are faithful and novel decorative features keeps them busy. The trimming of beads, embroideries and cut-out details there is a new departure toward those not made of the material in the blouse.

If one is looking for a new blouse or dress, georgette crepe combined with a color, as old blue, jade-green, henna, or both blue and henna. The color is strikingly used as in a narrow band about the neck or a lining for the skirt, or an inset piece at the front.

Black and white is a combination used as a finish on these blouses and single flower motifs, embroidered in two or three colors, are posed on them, sometimes near the skirt, and again, near the shoulder.

One notice in the circles conning in for a decided tendency toward the straight line in suits. Dark colors predominate as usual in the beginning of the season.

Serge for Next Season's Frocks. Apparel for fall is occupying the attention of designers to the exclusion of all else just now, and the woman who wishes to pad out her summer wardrobe with very good effect to fashion does well to note that the material in this model is an overblouse is made in the blouse.

Straight Lines. One notice in the circles conning in for a decided tendency toward the straight line in suits. Dark colors predominate as usual in the beginning of the season.

## Guernseys at Auction

Chicago County Guernsey Breeders announce their second annual consignment sale to be held at the Chicago County Fair Grounds, Rush City, Minn.

**Wednesday, August 24**

At 2:30 P. M.

About 30 Head of Registered and High-Grade Guernseys

will be offered, consisting of a number of high-grade cows and heifers that are backed by type and production. Several registered females and six registered bulls ranging from 2 1/2 months to 2 years will be sold. Now is the time to do away with the scrub, and this sale offers a most desirable opportunity to lay a foundation of choice Guernseys that have been developed for the economical production of butterfat.

TERMS—Cash, or nine months time will be given on bankable paper, bearing 7 per cent interest.  
For Information and Catalogue, write to  
**MARCUS J. MCGUIRE** and Associates, Auctioneers  
Rush City, Minn. **T. E. SEYMOUR** Sales Manager

## Or words to that effect

IT BEATS the hand.  
THE WAY this thing  
KEEPS POPPING UP  
THE OTHER night.  
I BROKE all rules  
AND READ a high-brow book  
AND HERE'S what one  
THAT IT handed me.  
"MANY of us find  
THAT TASTE affords  
ONE of the fairly  
DEPENDABLE SATISFACTIONS  
OF EVERYDAY living  
AND IT seems  
UPON LONG reflection  
THAT SATISFACTION  
COMES CLOSE to being  
THE LONG sought  
"HIGHEST GOOD."  
OF COURSE that isn't  
WRITTEN WITH the ease  
AND POLISH to which

WE ARE accustomed.  
BUT IT'S a mouthful.  
AS YOU'LL agree if you  
JUST PUT IT into good  
UNITED STATES, like this.  
"SON, YOU'LL be running  
ON FOUR flat tires.  
IF YOU don't hurry  
AND WRAP yourself around  
THE ONLY cigarette  
THAT SATISFIES."

"THEY Satisfy"—nothing  
else so well describes Ches-  
terfield's mildness, their mellow-  
ness, their delicacy of aroma and  
smooth, even "body." It took  
the finest varieties of Turkish  
and Domestic tobacco to do it  
—and the highest order of skill  
in blending them. Yes, the Ches-  
terfield blend is a secret. It  
can't be copied.

Have you seen the new  
AIR-TIGHT tins of 50?

They Satisfy **Chesterfield**  
CIGARETTES

## ROCK CREEK NEWS DEP

Mr. and Mrs. Alex Tate went to Fairmount Tuesday morning for a visit with their daughter, Leola.

Miss Tillie Carson, daughter of Mr. and Mrs. Jim Carson, left last week for Duluth for a visit at the Greenspan home.

John Lindgren and family and the R. L. Richards family visited at the Fred Johnson home in Rush City Sunday.

Miss Delia Erickson returned to her work at Minneapolis Monday after a weeks visit at the home her parents here.

Mr. and Mrs. Thomas Gill, formerly of this place, arrived last week from North Dakota for a visit with friends and relatives in this vicinity.

Mrs. Swenson and children returned to their home in Minneapolis last Saturday after a few days spent at the home of her sister, Mrs. Wm. Chadwick.

Barney Greenspan returned from Duluth on Monday where he visited at the home of his family over the week end. Barney expects to ship a carload of stock on Wednesday next week.

Roger Pearson, assistant cashier in the bank, is spending a week's vacation at the home of his parents at Winthrop, Minn. He is expected back the latter part of this week.

Miss Emily Dahl arrived from Minneapolis on Monday for a visit at the home of her sister, Mrs. Fred Hartz.

The Old Timers at West Rock tried a come back last Sunday against the West Rock Junior ball team but after

six innings of playing threw up the sponge as they were trailing by a score of 16 to 12.

Mr. and Mrs. Ed Anderson, their two boys and Mrs. Larson and daughter Ruth, all of Minneapolis came Saturday for a visit at the home of Mr. and Mrs. Andrew Johnson. Mr. J. Panzer and two sons and daughter, of Cleveland, Minn., were Sunday callers at the home of Andrew Johnson.

Mrs. D. G. Lindarwood and daughter Robert returned to their home in Minneapolis after a visit at the homes of Mr. and Mrs. John Collins and Mr. and Mrs. Clinton Stacke who are old time friends of theirs.

John Nelson expects to start work on a new shop the first of next week to replace the one destroyed by fire a week ago. This will only be used temporarily as he expects to put up a modern garage on the corner facing the federal highway next spring.

J. Albrecht returned to his home at Grundy Center last Saturday after a few days visit at the Ernest Olson home, east of town. Mrs. Albrecht and children are remaining for a longer visit. Mrs. Olson, who recently underwent an operation in Minneapolis is getting along nicely, we understand.

Two ball teams, headed by Gilbert Nelson and Hackett & Westcott met last Sunday to decide the championship of East Rock Creek. The Hackett & Westcott team were the victors by an 11 to 2 score. Chas. Merritt acted as the official "umps" and from all reports his umpiring and ball playing are on a par.

## BEROUN NEWS DEPARTMENT

Albert Chalupsky drove to the cities last Sunday.

Miss Lillian Vacek returned to St. Paul last Sunday after a two weeks visit with her folks here.

Paul Cote went to St. Paul last Sunday expecting to remain a couple of weeks. He will make some repairs on their house there.

Geo. Kubesh of Hopkins has purchased the farm owned by his brother John, near town and moved on last Monday.

Joe and Frank Kozieck drove up from Foley last Sunday and spent the day visiting at the John Chalupsky and Jim Kozieck homes.

The Gustav Strahlreich house is just about completed. The concrete floor was laid in the basement Monday. This is a fine modern home and is one of the fine Beroun residences.

The Pickle company is receiving more cucumbers than they really expected. The tanks were practically all filled the first of this week and the first carload was shipped out Monday.

Mr. and Mrs. D. A. Hackett and family drove to Forest Lake last Sunday where they spent the day at the express agents picnic there. Their car broke down at Rush City on the return trip and had to be towed home for repairs.

### Call For Bids

Bids will be received for the painting of the inside walls a series of two coats of the school house in District No. 98, also for repairs on the porch.

Bids must be in the office of the Clerk by Saturday August 27th.

The board reserves the right to reject any or all bids.

C. Brackenbury, Clerk.

Mrs. St. Cross and daughter returned to their home in Minneapolis Saturday after a visit at the Vallancourt home west of town.

Miss Anna Ploub went to St. Paul last Saturday where she will be employed. She has been at the home of her mother, Mrs. Frances Ploub on their farm west of town, the past month.

The Beroun team played Maple Grove last Sunday, the visitors winning by a 9 to 13 score. Bosley started the pitching for the locals and broke his arm, the arm snapping between the elbow and shoulder when he pitched a ball. The crack of the bone when it broke could be clearly heard by spectators. McGlone finished the game in the box. Geo. Froehner did the catching.

The Meadow Lawn ball team played Pine Lake at that place last Sunday afternoon and held them down to a 11 to 6 score in favor of Pine Lake. They have taken the place of Rock Creek, who withdrew from the league and will play Hinckley at that place next Sunday. Edmund Weinberger started the pitching and Decker went in the 3rd inning. Russell Wilson was on the receiving end.

### A Pine City Man's Experience

Can you doubt the evidence of this Pine City citizen?

You can verify Pine City endorsement. Read this! B. G. Haas, harness maker Pine City, says, "Doan's Kidney Pills helped me and I am glad to recommend them. I had a steady, dull backache and my kidneys acted irregularly. Sometimes the secretions passed too frequently and again they were just the other way. Mornings when I got up, I felt all tired out. Doan's Kidney Pills brought me quick relief and soon made me well. I have used them several times since when I have noticed such attacks coming on and each time, Doan's have prevented any return of the trouble."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Haas had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

### Poor Links Fixed First.

Attention was given then to the new construction projects. Acting on the principle that a chain is no stronger than its weakest link, a policy of first building up poor stretches in lone mitages of otherwise good roads was adopted. Commissioner Babcock with John H. Mullen, assistant commissioner and chief road engineer, began a tour of trunk routes. Covering about 200 miles a day, they picked out sections in need of early improvement. Then as the order of projects took form, directions were wired to the St. Paul office, survey parties were dispatched and plans made on which to call for bids.

Promising competition by arranging three lettings on lists of 1,000, 500 each about a month apart, Commissioner Babcock secured bids on roadwork and graveling averaging about 10 per cent under 1920 costs, and 15 per cent lower on paving in spite of big increases in railroad rates. Special precautions were taken to insure completion of work this season.

Fighting for Federal Aid. The first big ditched and the new road roads machine running as fast as funds will allow. Commissioner Babcock left for Washington to direct the campaign of highway executives in progressive states for continuation by congress of federal aid appropriations on the established basis.

Reports are that the fight will be successful, but the commissioner is concerned in prompt action that the Minnesota program of new highway construction for 1921 may be carried out in full and not curtailed nearly 50 per cent.

## Camels are made for Men who Think for Themselves

Such folks know real quality—and DEMAND it.

They prefer Camels because Camels give them the smoothest, mellowest smoke they can buy—because they love the mild, rich flavor of choicest tobaccos, perfectly blended—and because Camels leave NO CIGARETTY AFTERTASTE.

Like every man who does his own thinking, you want fine tobacco in your cigarettes. You'll find it in Camels.

And, mind you, no flashy package just for show. No extra wrappers!—No costly frills! These things don't improve the smoke any more than premiums or coupons.

But QUALITY! Listen! That's CAMELS!

# Camel
