## TELLS OF SEEING SOLDIERS HANGED

### Veterans Declares 12 Executions Took Place at Issur Tille in Two Month Period.

## BETHEL TAKES STAND

Judge Advocate General Tells Committee That in Time of War Court-Martial Death Sentence OK. Require President's O. K.

Washington—George H. Taylor of Philadelphia, who served as a national army man overseas, told a Senate committee that he saw with his own eyes 12 American soldiers hanged around Issur Tille, France, from April to June, 1918, but was unable to say whether any of them had been convicted by court-martial.

One of the soldiers hanged, he declared, was tried for assault on a French girl by a French court-martial at which one American officer was present. Taylor gave the name of the soldier and said he was a sergeant from Detroit, Mich., but the committee later decided to omit the name from its records.

Witness Tells of Lynching.

Robert A. Harrison, of Wilmington, N. C. testified that in 1917 he witnessed the lynching in France of a soldier. The victim was a Mexican from El Paso or Eagle Pass, Tex. who was charged with a crime against a woman and not tried.

"I was told that the man had to be hanged to save some officers from being hanged," Harrison declared.

Through a pair of field glasses Harrison said he saw the lynching in which 30 men took part.

"It was a nice little moblike party," he said. "I saw the body later with a rope around the neck."

Bethel Recalled to Stand.

Colonel Walter Bethel, General Pershing's judge advocate general in France, recalled before the Senate committee investigating charges that American soldiers were illegally hanged in France, declared that in time of war court-martial death sentences did not require approval of the President.

Questioned by Senator Watson, Democrat of Georgia, who laid charges of illegal executions before the Senate, Colonel Bethel said that after war conditions had ended the government directed that all sentences be referred to Washington for review.

Colonel Bethel denied it was his inference, as suggested by Senator Watson, that executions were continuing.

## Close Monday

Practically all of the Pine City stores have signified their intention of closing next Monday, on account of Christmas coming on Sunday.

## Big Crowd at Dairy Show

A large crowd attended the dairy meeting and show, at the Family Theatre at Pine City, last Saturday afternoon.

The pictures shown were sent by the Jersey breeder's association and showed what could be accomplished by using a pure bred bull with a scrub herd. There were two speakers, who gave very interesting talks on the raising of cattle.

The show was very entertaining as well as instructive. It was held under the auspices of the Farm Bureau.

## Pine City Unit to Meet

The Pine City Farm Bureau unit will meet at the G. A. Robinson rooms south of town, Tuesday evening, December 27th. All members are urged to attend.

## War Tax Repealed

The following statement is issued by L. M. Williams, collector of internal revenue for the district of Minnesota:

"I am glad that the new revenue legislation has brought to the office of the collector of internal revenue at St. Paul, a flood of inquiries regarding the various provisions of the act."

At this time the attention of druggists and other merchants who sell perfume, cosmetics, proprietary medicines, etc. is particularly called to the fact that the stamp tax on these articles has been repealed, effective January 1, 1922. Any dealer who has proprietary stamps on hand after January 1, may make a claim for refund for the face value of these stamps. Such a claim is first reviewed in the office of the collector of internal revenue and then forwarded to Washington for final settlement. This procedure, of a necessity, consumes several months.

Therefore, all dealers are urged at this time to limit their purchases of proprietary stamps to just such quantity as will take care of their actual needs between now and January 1, so that they will not have a large quantity of stamps on hand after the repeal of the tax, for the refund of which it will be necessary to file a claim.

## WOULD RECOGNIZE RUSSIA

## LEGION SUES GERMAN PAPER

Chicago—Noting in a \$100,000 libel suit against the Illinois State Zeitsung, a German language daily newspaper, was filed by Blackhawk Post No. 107 of the American Legion. The suit alleges the paper printed an article December 15 saying the American Legion was "an instrument brought into being by the American government to betray American sentiment."

## BRITISH ARMY STAYS IN IRIN

London Holds Evacuation of Troops Pending Outcome of Negotiations.

London—Removal of the British troops from Ireland has been postponed and they will not be withdrawn unless the treaty is ratified, it was stated here.

A statement which was to have been on board troops to Queenstown has been recalled to England and the special trains to carry troops from various places in Northern Ireland which had been arranged for, have been cancelled.

## Boat's Crew, Missing 9 Days, Rescued.

Washington, N. Y.—A five-ton motor boat of the crew of the Canadian lightship, tender Conde, missing for nine days, has been located at St. Klagen, Ont., according to word reaching here.

## School Notes

The P. C. H. S. closed last Friday in the observance of the Christmas holidays. The teachers left for their homes either on Friday or Saturday. The students-body went on the vacation after having put in 3 months of "school." School starts again Tuesday, Jan. 3rd. Let's make every minute count during vacation.

A well arranged program was presented Monday in a hard fought game at the armory last Friday evening. Pine City entered the fray the favorite but the Mers boys soon showed they were the equals of the locals and were on the long end of an 18 to 15 score at the end of the first half.

The Pine City players woke up and found themselves. In this half they tied the score after Hawley was substituted for H. Johnson at forward. Hawley put real fire into the game and shot the winning basket from a free throw. This came amid with the score 23 to 22 in Pine City's favor.

This little game gives food for thought. It shows that Pine is not so far from being a contender to win the district championship. The game was a sour pill but it could serve of been a very bitter one. A little more skill, at all times and not so much surety would go far here.

The Alumni will play the H. S. team next Wednesday, Dec. 29th. This game is for blood as you can depend on seeing a good game. The Alumni will have Kowalik, Pershing, W. Huber, Ewel, and Warkle in their lineup. All former stars of the H. S. Come to the game and support your players.

## A Beauty Hint

Probably the most attractive complexion that has been issued forth this season is the one attributed to Elaine Hammonster, the Schirck screen star who is to appear in her latest production, "Pleasure Seekers" at the Family theatre Friday and Saturday.

Miss Hammonster did not proclaim in large type the virtues of So and So's Elixir of Youth of offer a complicated formula which when applied to the skin before retiring at night will eradicate the wrinkles of advancing years. Instead she prescribes the following:

"For giving the face a good color get one net of Burg and one rabbit's foot. Run them two miles from home and walk out and back once a day and see if they are still there."

## Pine City News

Miss Florence Nivola, county nurse, leaves tomorrow, for St. Paul where she will spend Christmas and next week at the home of her parents. She will remain the first of the new year.

Mr. and Mrs. Jess Ingram are the happy parents of a baby girl born last week Wednesday. Brothers and sisters are Mr. and Mrs. J. H. Ingram, at Pine City, for a couple of weeks, while "Grandma" Ingram has been assisting here.—Sandusky Courier.

Ed Burton writes to have The Press sent to him at Pine City, where he and Mrs. Burton have purchased a restaurant and hotel. We want to extend our congratulations to the people of Pine City that they will find Mr. and Mrs. Burton fine citizens and thoroughly familiar with hotel and restaurant business and that they will conduct an up-to-date place in every respect.—Frasere Press.

Miss Anna and Alvin Gray received word the first of the week that their aunt, Mrs. Henry Spahr had been seriously hurt at St. Paul last Saturday morning. She was waiting for a street car and had just stepped into the street, when she was struck by and automobile and knocked down, receiving a concussion of the skull. She is in a critical condition, we understand. The Spahrs are former residents of Pine City, leaving here about ten years ago.

Ray Hoefler, son of Mr. and Mrs. Emil Hoefler, spent Saturday and Sunday at the home of his parents here. He has been confined to a hospital in Duluth, where he has been receiving treatment for his eye, which he injured while out hunting the fall. While cutting a deer, the knife slipped and went through the lower eyelid, striking the eyeball and passing back the eye. The injury has been extremely painful, and he is unable to keep the eye open for a few seconds at a time. The sight isn't completely gone, but he can notice anything he leaves in front of the eye. He passed for Milwaukee this week, where he will receive treatment by an eye specialist. The doctors at Duluth were unable to determine as yet whether he would lose the sight or not, but with proper treatment they thought it could be saved.

## Reily and the Porto Ricans

E. Mont Reily, the new governor of Porto Rico, doesn't seem to have hit it off particularly well with the Porto Ricans. Anyday, when the Tanana arrived in New York the other day with Governor Reily aboard, she was on fire. Previous to his leaving San Juan Governor Reily received threatening letters from Porto Ricans. The officers were confident the fire had been started by Porto Ricans. There was a hostile crowd of Porto Ricans outside the pier in New York waiting to hold the governor. A police patrol was on hand.

Also, Senor Felix Cordova Davila, resident commissioner from Porto Rico, was instructed to ask President Harding to remove Governor Reily at once. Among specific charges against Governor Reily enumerated in the message to Senor Davila were the following:

He publicly declared himself leader of the insular Republican party and the "friend of the Socialist party."

Annulled the "moral power" of judges by announcing they would be removed if a decision was rendered "considered by the governor unjust."

## Princess Mary Is Betrothed

Announcement of the betrothal of Princess Mary, only daughter of King George of England, to Viscount Lascelles has apparently been received with joy by the British, though the prospective bridegroom is not by any means "royalty." Viscount Lascelles (Henry George Charles Lascelles) is the eldest son of the earl of Harewood, and is thirty-nine years of age. He was three times wounded and won the distinguished service order and the French croix de guerre.

Lord Lascelles is the youngest of one of a family. In the eyes of the law he is a commoner, and will remain so until the death of his father, the fifth earl of Harewood, unless the sovereign chooses to bestow upon him a dukedom, by way of a wedding gift.

Princess Mary is a general favorite and appears to be what Americans call "a nice girl."

## Daring Stunt Performed by "Bugs" McGowan

This was done on the fair ground racetrack at Pablo beach, Cal. The plane was going 60 miles an hour when it dashed down so close that Haughland had to "duck" to escape being scalped by the landing gear, and "Bugs" dived from the mechanic's seat and gripped the wing aileron, from which he swung up to the lower wing of the flying biplane.

## "Better Elements" in Defeat

Frank N. Schwab (portrait here-with), elected mayor of Buffalo, N. Y., is a brewer under indictment for alleged violation of the federal prohibition laws. ## Hirohito Is Regent of Japan

The appointment of Crown Prince Hirohito as regent of the empire, is likely to be of tremendous importance to Japan, especially in view of his recent trip to Europe. He is the first crown prince of Japan to have traveled so far abroad and he learned a lot on his travels. The Japanese people welcomed his return with a multitude of applause and the police didn't even try to stop the applause, notwithstanding the fact that, under the constitution, he is not to appear in public until he has reached the age of majority. However, Hirohito has recently made public speeches as his regent.

In fact, Japanese officials who were with him on his travels found him so democratic that they had their breaths away. He moved in crowds wherever he could. He learned English and sought to be in the front of the crowd, to get ideas and influence. He even has several cordless operators.

The new regent and Crown Prince, who was educated at DePaul university, are believed to be liberal and peaceful influences in Japan.

## Camerlynck a Lingual Wizard

G. H. Camerlynck, the official interpreter of the arms limitation conference, is a lingual wizard and a convincing joy. For instance, Monsieur Camerlynck knew the French word in shorthand and then delivers it in English from his shorthand notes. He does the thing also in reverse and each process seemingly is equally easy. He also catches inaccuracies and makes corrections—explains the latter. He translates and initiates, with equal ease the clerical Mr. Dignity, the suave Mr. Balfour, the valet Mr. Vishni, the Sphinx-like Adrien Kato or the bland Doctor size. A few ladies conference here and at the Paris peace conference he should be able to make life everlasting for any an interpreter of the great.

He is also the busiest man at the sessions. The delegates have a chance to rest while he is translating. He usually, the expense for scratch pads is the only one of his kind. He has the most approved telephone book, 4726.

## Some Good in All Humanity.

It is only when we trust people a little that they are able to deceive us. A man must be very bad before he deceives anyone who implicitly believes in him; and a woman, however bad she may be, is incapable of doing it at all.—Exchange.

## Interesting Calculation.

It is estimated that if a single grain of electrons (it has no weight a grain) could be isolated at the north pole, they would repel each other with a force of 112,000,000 tons.
