

Vol. XXIV

DEBT REFUNDING MEASURE PASSES

Senate Bill Allowing 25 Years for War Obligation Payment Approved 39 to 25.

NOW GOES TO HOUSE

Final Enactment Must Wait Adjustment Between House and Senate—Interest Rate Fixed at Not Less Than 4 1/2%.

Washington—The bill authorizing the refunding of the \$110,000,000 treasury debt into securities maturing in not more than twenty-five years was passed by the Senate.

The vote was 39 to 25. Final adjustment of the measure must await adjustment of differences between the House and Senate which is expected within a week or ten days.

Republicans Vote No. Three Republicans, Hays, La Follette and Norris, joined with the solid Democratic minority in opposing the bill.

Under the terms of the bill a commission of five members, headed by the Secretary of the Treasury, is authorized, subject to the approval of the President, to refund or convert, and to extend the time of the payment of the principal of the interest, or both, of the foreign debt.

The rate of the maturity of the obligations secured by the commission could not extend beyond June 15, 1947, and the interest rate could not be less than 4 1/2 per cent. Bonds of one year maturity could not be accepted for those of another, nor could any part of the foreign indebtedness be canceled.

President to Name Members. The list of the commission would be three years from the date of the approval of the act and the members other than the Secretary of the Treasury would be appointed by the President, subject to confirmation by the Senate.

During its life the commission would be required to make annual reports to Congress at the beginning of each regular session in December.

Only members of the Cabinet and of Congress will be appointed on the debt commission according to Senator William Borah, an Indiana who told the Senate that, although he was not authorized by the President to make such an announcement, he nevertheless knew that this is the President's intention.

NAMES KENYON U. S. JUDGE

Hearing Appoints Iowa Senator to Federal Circuit Court.

Washington—Senator W. S. Kenyon of Iowa announced he would accept the nomination to the United States circuit court for the eighth circuit, tendered to him by President Harding and sent to the Senate.

The senate soon after receiving the nomination confirmed it in open executive session, an honor only rarely held by nominees.

Senator Kenyon succeeds Justice Walter T. Smith of Connecticut, Iowa, who died last week.

EARTH FLIES OFF CENTER

Changes Axis and Earthquake Follow, Scientists Say.

New York—The earth in its dizzy whirl through space, got off center for a few moments Tuesday and shifted its "axis," or axis, to the new center of rotation.

There, so that it is not traveling on a "flat wheel," so to speak, a few million tons of solid rock, somewhere off the Western coast of the United States, in the bed of the Pacific ocean, "slipped" 100 feet or so to east, thence up.

The new position of the axis, as shown by a diagram, graph showed the deviation.

FIRE DESTROYS ORE DOCK

Superior, Wis.—A spectacular fire at the Great Northern ore dock No. 2 at Superior, Wis., destroyed one of the most important ore docks, was brought under control through some expert efforts of Superior firemen and a crew from Duluth. The loss was estimated at \$2,000,000.

The fire started as an unknown cause. The dock was of wood construction and burned rapidly.

Second Building Falls at Capital. Washington—Another building, one of the long stands of the freight depot of the Baltimore & Ohio railroad, collapsed, two minutes after eight men employed in it during the fire had checked out. No one was injured. One of the walls of the building gave way, due, it is believed, to the effects of cooling steam in a heating room.

Oklahoma Editor Whipped. Okmulgee, Okla.—E. J. Moore, editor of the Okmulgee Post, was seized by a band of six masked men, taken to a nearby wooded spot a few miles southeast of the city and severely flogged with a blackhawk whip, he is said.

Woman Robbed of \$50,000. Minneapolis, Minn.—Mrs. Edw. M. G. Smith, the wife of a physician, was robbed of \$50,000 in two bundles while attending her as she was about to enter a large arch way which is cut through the two rooms. Mr. Silesby will use the rooms for his grocery department. He plans to add a few things detrimental to the business.

Farm Bureau Conduct Schools

The Farm Business schools held at Brook Park and Bruno were very well attended by the farmers in both communities.

F. W. Peck, director of extension, University Farm, was present, at the Brook Park meeting where the afternoon was devoted to a discussion of Farm Business by Mr. Peck, who analyzed the past and present conditions in farming and also dealt with the future outlook.

Emphasizing the important part co-operative marketing will play in the future marketing of farm products. He also said that it was necessary to recognize the limits of co-operation, so as not to try to do by co-operation those things which are generally outside of the farmers' sphere of experience and hence, not so apt to be successful where tried.

Everyone present was very much interested in Mr. Peck's talk and spoke very enthusiastically about the meeting.

As it is necessary for Mr. Peck to attend a conference at St. Paul, Pa. this week, Mr. Cleland of University Farm, attended the school at Bruno.

At the Bruno meeting the problem of financial records and profits, if any, in dairy production; also dealing with some of the dairy problems, were brought up. While at the evening meeting, the past accounts gathered on potato raising, were analyzed.

The large attendance and general interest of the farmers at both of these meetings, was very gratifying to the representatives from the University Farm who were helping plan the work.

Fire Destroys Roberts Home

The home of County Attorney Roberts, on the east side of Cross street, was burned to the ground, last Sunday morning about eleven o'clock. It is thought the fire started by sparks from the chimney, which at the roof on fire.

The fire department made a quick run across the block, but the truck was stalled in the snow on the east side. Teams hauled the truck the balance of the way, but the fire had gained such headway that it was impossible to save the house. The flames were prevented from spreading to the other buildings.

Mr. Roberts had been working in the basement, and he thought the chimney was burning out, although he didn't think it was very bad. The occupants of the house didn't know it was alive until George Roberts ran in and told them the house was burning. He had seen the blaze which crossed the lake.

Mr. Roberts took a step ladder and climbed to the attic. When he threw open the trap door, he discovered the attic all ablaze. He threw a pail of water on the flames, but didn't check it much. If there were a bunch of men there immediately to start a bucket stream, the fire might have been gotten under control.

Practically everything down stairs was removed from the house. The contents of the upper rooms were destroyed by the fire. The Roberts family is staying at the home of Paul Perkins. Mr. Roberts may possibly build a bungalow on the property this summer, but is undecided at present. The building was partly covered by insurance.

Income Tax

In making out his income tax return for 1921, the average taxpayer will find a considerable saving if he compares with the amount of tax paid on the same income for 1920.

The exemptions provided by the revenue act of 1921 are \$1,000 for single persons (the term including widows, widowers, divorcees, and persons separated from husband and wife) by mutual agreement; 2,500 for married persons whose net income was \$5,000 or less, and 2,000 for married persons whose net income was \$3,000 or more.

The personal exemption allowed a married person applies also to the head of a family, man or woman, who supports in one household one or more relatives by blood, marriage or adoption.

The exemptions for dependents—person who receives his chief support from a taxpayer and who is under 18 years of age and incapable of self support because mentally or physically defective—is increased from \$200 to \$400.

The act requires that a return be filed by every single person whose net income for 1921 was \$1,000 or more, every married person whose net income was \$2,000 or more, and every person—single or married—whose gross income was \$5,000 or more.

The requirement to file a return of gross income of \$5,000 or more must be met in full at the time of filing the return, or in four equal installments, due on or before March 15, June 15, September 15, and December 15.

Will Occupy New Quarters. Will Silesby, proprietor of the Fair store, has found the store room, now occupied by W. F. Glass, owner's grocery store, in addition to the room needed by Tom Hoffmann in the same block. He will move in between the 20th of February and March 1st.

A large arch way will be cut through the two rooms. Mr. Silesby will use the corner room for his grocery department. He plans to add a few things detrimental to the business.

Stop--Look--Listen

Works For Waterway Bill

Mr. Adam Bede returned home, last Saturday afternoon after a three months trip, two months of which were spent lecturing on a chautauque circuit. His only covered a large territory, and took him into Louisiana, Texas, Ohio a few eastern states.

Mr. Bede spent a month in Washington, D. C. working for the passage of the Great Lakes-St. Lawrence tidewater bill. He leaves for the West, after today, and from there goes on to complete his lecture tour. He expects to be in Washington for about three weeks within the near future, to continue his work for the passage of the bill.

Mr. Bede is of the opinion that chances of the passage of the bill are very favorable in both the house and senate.

Mr. Roberts had been working in the basement, and he thought the chimney was burning out, although he didn't think it was very bad. The occupants of the house didn't know it was alive until George Roberts ran in and told them the house was burning. He had seen the blaze which crossed the lake.

Endorse Waterway Project

A special meeting of the Pine City development association was held last Tuesday afternoon.

Orion Winfield, field representative of the Great Lakes-St. Lawrence Tidewater Commission was present, and addressed the members on the waterway project after a short discussion. The following resolution was passed by the club:

"RESOLVED, That the Development Association unanimously approve upon members of both houses of Congress to do all possible to bring about the passage of the Great Lakes-St. Lawrence Waterway Project.

"WHEREAS, We of this district, feel that the untold advantages to the whole country is so tremendous that every effort should be made to bring about an early passage of this waterway project."

County Board to Meet

The board of county commissioners will hold their regular monthly meeting in the court house, next Monday afternoon.

We understand the county nurse proposition is to be presented to the board again at this meeting.

Work for Better Poultry

A cogitated effort for poultry improvement has been started by the club of Brook Park. The proposition of better poultry had been discussed at several Farm Bureau Unit meetings, with the result that committees were appointed to investigate the work done in other communities where they are coming to the front in poultry work.

After getting considerable information, the committee called a meeting January 21st, at which about forty men and ladies were present. The work in the Acker Unit last year in poultry improvement, was outlined, and after considerable discussion, the white clover was adopted as the committee's poultry improvement association or organization.

The Brook Park Unit, has been one of the most active poultry improvement committees consistently taking up agricultural and community problems, and working toward their solution. It is our belief that this unit, which started its work in this way in a few years Brook Park will be one of the strong poultry communities in the county.

Keep Measles From Spreading

Regulation 900.—The local health officer shall post in a conspicuous place upon the entrance to premises where measles exists, a notice and form as follows:

MEASLES exists on these premises. Children residing in this house are forbidden to leave the premises without the permission of the health officer.

The occupants of this house will be held responsible for the unauthorized removal of this card.

Health Officer (date)

ATTENDANCE AT SCHOOL

Regulation 902.—Children reading in the house who have had the disease previously may attend school upon receiving written permission from the health officer. Children who have not had the disease are forbidden to leave the premises and must not return to school until two weeks after all active symptoms of the disease in the last case have disappeared.

Note.—No child should be readmitted to school without a written certificate.

Extract from State Board of Health Regulation.

Automobile Law Must Be Changed

One of the main things that will in all probability, come up before the next session of the legislature, will be the present mode of taxing automobiles. The law as it now stands, is ridiculous, in a great many instances. The tax is based on the factory price of the model of the car with a minimum tax for the different classes.

In a great many instances, owing to the drop in the price of automobiles during the past year, the man who buys a new car, pays a lower license fee than the man who purchased the same make and model a year or two years ago.

For instance, take the Overland 4 for the year 1921 at \$1225; the 1920 is \$1190; and for a 1921 or his year the license is \$12. The man with a new car pays less than the man with a one or two year old car.

The license for a 1919 Ford model '21 is \$13.20. A 1920 Ford model pays \$14 and a 1921 Ford model pays \$15. These things hold true for all makes of cars.

Now take the car owner who drives the country and can only use his car 3 or 4 months out of the year. It gives the name of the applicant, the name of the man who lives in the cities, or where the roads are not open most all winter, and his car and year on the road is emphasized.

We are of the opinion that the suggestion made by Secretary of State Mike Helm is the best solution, or at least a more equitable one of taxation, that ever presented. He suggests that be fixed according to the amount of mileage covered. Then the man who can afford to drive his car very much, will pay more for other reasons, but be taxed in proportion to the man who drives his car very little in the year, and thereby pay less.

It will certainly all benefit to a certain degree from good roads, which we do not or not, but the man who drives the most, should pay the most, and the man who drives the least, should pay the least. The value of his car, regardless of what a car may have cost today, is in proportion to that of the same make and model of a year or two years ago.

There has been a time for official notice in the case of the law. The law should be changed so that the man who drives the most, should pay the most, and the man who drives the least, should pay the least.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they cannot do the other organs to become diseased.

Such as back, headache, loss of appetite, nervousness, etc. are all symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kline's Swamp-Root, a physician's prescription, obtained at any drug store, may be used, but the remedy never to overcome such conditions.

Swamp-Root is a large size bottle, manufactured from any drug store.

However, if you wish first to test the best preparation now on hand, get Dr. Kline's K. O. Balm, N. Y., for a simple bottle. When writing, be sure and mention this paper—Advertisement.

WOMEN NEED SWAMP-ROOT

Hurried men lack wisdom.

DYED HER BABY'S COAT, A SKIRT AND CURTAINS WITH "DIAMOND DYES"

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her old, worn, faded things new. Even if the dye never dyes, she can put a new, rich color into shabby shirts, dresses, waists, coats, blouses, sweaters, coverings, draperies, hangings, etc. Diamond Dyes are made in other colors that perfect home dyeing.

Send your letter to Dr. Kline's Swamp-Root, a physician's prescription, obtained at any drug store, may be used, but the remedy never to overcome such conditions.

Swamp-Root is a large size bottle, manufactured from any drug store.

NERVOUS? SLEEPLESS?

Women at Every Age can be Benefited as Was This Woman

Minneapolis, Minn.—"The Pillsbury Favorite Prescription is an excellent builder of a nervous and rundown system. During middle age I suffered a nervous breakdown—was so nervous I could not sleep or rest at night. I was very miserable when I began taking the Prescription and it did me a world of good. It relieved me of all my nervousness so that I could sleep and rest well. I can highly recommend the Favorite Prescription as a purifier for women."—Mrs. Clem Hofer, 614 17th Ave., South.

WANT GRAINS RICH

Wonderful Development of Canada in Forty Years.

Four Decades Ago Little Considered, Today One of the Greatest Grain- and Dairying Centers.

The recent announcement that the sale of the first shipment of Canadian Pacific and wheat and forty years ago, and when you read that the first carload of wheat was shipped from Winnipeg forty years ago, the changes that have since taken place then are vapors of reminiscence, but yet of interest. What forty years ago was an unknown quantity, barren because but little production was attempted, is today one of the greatest granaries in the world. Then there were only a few thousand bushels of wheat in the West. Dairying was not engaged in at all. Today there are 6,088,517 bushels of wheat, and the fifth, \$1,800,000, are mottos, and dairying is only second in importance to grain growing in the West.

Forty years ago the shipment of one carload of grain was a notable exploit.

Today, Canada ranks as the second largest wheat-producing country in the world, with 320,185,300 bushels, 90 per cent of which was grown in the three prairie provinces, and the fifth largest producer of barley with 63,311,000 bushels, of which the prairies contribute 45 per cent.

Forty years ago scarcely any of the rich soil had been brought under cultivation. The farm machinery of the time was crude, and the farmer had no scientific advisers; government experiment stations were a blessing that came years later.

Yet these things pioneers stuck it out, and in forty years numbers of them are enjoying their declining days in the communities they created from the wilderness, prosperous, contented, with their children's families gathered about them, and their own fortunes still further vantage, or perhaps, they have seen civilization step in to the best and the wilderness swept out. Today are mighty cities and towns where bleaching buffalo bones marked the ox trails of forty years ago. Today are mighty cities and towns where bleaching buffalo bones marked the ox trails of forty years ago. Today are mighty cities and towns where bleaching buffalo bones marked the ox trails of forty years ago.

HOT BRICK PLAN GOOD IN WINTER

Electrical Connection in Garage Eliminates Many Starting Troubles in Morning.

KEEP WATER FROM FREEZING

Quick Start Can Be Made by Use of Vaporizer—Mixture of Salt and Glycerin Will Keep Snow and Rain From Sticking.

If there is electrical connection to the garage there should be no trouble starting off in the morning. The "hot brick" method electrified may be used.

"Years of winter driving would be greatly lessened," declared E. E. Calver, director of sales for the Standard Steel Automobile corporation. "If the motorist would use plenty of common sense in the matter of auto driving, he would avoid a careful inspection of his automobile before a heavy journey is undertaken. One of the really great errors that a driver can make is traveling during the winter months. It is to imagine that he can proceed at the same rate of speed that is possible during the dry months.

"Of course, the pavement after the oil has been washed off by the early rains, are in no sense a danger, yet it is well to observe proper prevention and take the necessary care. It is better to start at a slower speed in the winter months than during the summer is to apply the brakes as early as a wet pavement. The rate of speed is not at all critical that it will not slide just as a curve of a railroad crossing."

Hot Brick Device.

To keep the water system from freezing and the engine warm, merely place the appliance on the engine and turn on the switch.

Instant starting in cold weather is promoted by the use of this electric vaporizer. It is a heating device.

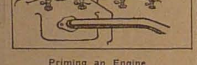

Electric Vaporizer Facilitates Starting.

Do you keep a tire log? It will help a lot when you go to the adjuster with your tale of woe. Use a small note book and give a separate page to each tire. Take off five vertical columns. Label them as follows: Date put on, speedometer reading, mileage, Make the partial total in the last column and add any other information necessary, such as kind of weather, etc.

TIRE LOG WILL HELP OWNER

Use Small Note Book and Keep Accurate Data on "Take Off and Mileage."

Priming an Engine.

Spread gasoline and facilitate the starting.

To prime the engine for starting, pour a mixture of high test gasoline and ether into each cylinder through the priming cups at the top. Then

Keep Off Rain or Snow.

limber up the engine with the crank and starting will come easily.

Prevent cold drafts coming up through the openings for the clutch and brake pedals, by giving a piece of sheet rubber or leather to the bottom of the toe board, with merely a slit for the pedal arm.

To prevent rain or snow from attacking the windshield, mix about two ounces of glycerin with one ounce of water and a dram of salt. Apply this to the glass with a clove-stick. Wipe in a vertical direction only, so that the mixture will allow the rain to flow down and off the glass.

DO NOT BE IN HURRY IN STORMY WEATHER

Some Drivers Have Real Fear Something May Happen.

Careful Inspection of Car Before Beginning Journey and Use of Plenty of Common Sense Are Essential.

Some automobile drivers have a real fear of driving in the winter rains along city pavements and country highways. There is constant dread in the mind that something adverse may happen at a critical moment; the car may skid, something may be wrong with the steering gear or the automobile may fall to perform up to the proper standard in negotiating a steep grade.

"Years of winter driving would be greatly lessened," declared E. E. Calver, director of sales for the Standard Steel Automobile corporation. "If the motorist would use plenty of common sense in the matter of auto driving, he would avoid a careful inspection of his automobile before a heavy journey is undertaken. One of the really great errors that a driver can make is traveling during the winter months. It is to imagine that he can proceed at the same rate of speed that is possible during the dry months.

"Of course, the pavement after the oil has been washed off by the early rains, are in no sense a danger, yet it is well to observe proper prevention and take the necessary care. It is better to start at a slower speed in the winter months than during the summer is to apply the brakes as early as a wet pavement. The rate of speed is not at all critical that it will not slide just as a curve of a railroad crossing."

WHAT TO EAT

A very pretty apple to serve on the plate with a slice of cold boiled or roasted ham is:

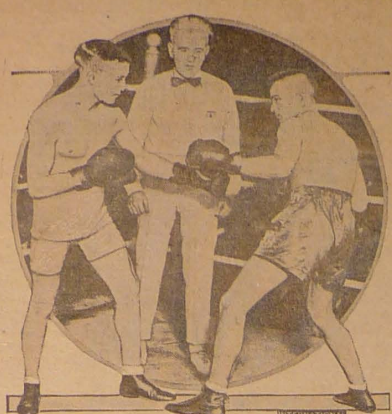

Rosy Apples.—Core and peel very smoothly enough even sliced apples for service. Make a strip of equal quantities of sugar and water, or a thinner strip may be used, adding two or three more tablespoons of the tiny red cinnamon drops and having the apple whole with the stem intact. Do not cook until the apples lose their shape or the strip its beautiful color.

Gleed Onions With Steak.—Cook small, even-sized onions until soft, but firm enough to hold their shape. Make a strip of one cupful of sugar and one-half cupful of stock; add the soft-hull stage; add the onions and continue to cook for two or three minutes. Lift out when the strip begins to discolor and place the onions around the steak on a hot platter.

Tongue for Luncheon.—Boil the tongue until tender, in salt stock that has been seasoned with carrots, onions, parsley, sweet marjoram, chervil and a very little mint, adding salt and pepper, celery salt, cayenne and sage. When the tongue is well cooked remove the skin, brush over with beaten egg and strew with fine ground crumbs. Bake for half an hour to brown the crumbs, leaving every eight minutes with vinegar and water in equal parts. Remove from the oven and let cool. Slice on a long platter and slice into thin slices, allowing to retain its shape. Spread a thick mayonnaise over the slices and garnish with thin slices of cucumber and decorated these by covering with thinly sliced pickles, and arrange them around the sliced tongue. Garnish with hard-boiled eggs.

Orange Layer Cake.—Cream one-third of a cupful of butter, one cupful of sugar and two egg yolks; add one-fourth of a tablespoonful of salt and the grated rind of an orange. Sift together one-fourth of a teaspoonful of bicarbonate of soda and one-half cupful of flour. Add one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. Beat together with one-half cupful of orange juice; add the whites of the eggs beaten stiff and pour into well-beaten and floured cake pans. Bake together with the following icing: Take three tablespoonfuls of orange juice, the grated rind of one orange and one-half cupful of sugar and one-half cupful of butter. JOHNNY BUFF IS NOW PREPARING TO TAKE HIS TITLES TO EUROPE

A Composite Picture of Jimmie Wilde (on Left) and Johnny Buff (on Right).

Johnny Buff, holder of one American and one world title, is going to cling to his present laurels until they have been wrung dry of that monetary value they possess.

According to the best information the lightweight champion is going to leave these turbulent shores and seek the easy picking offered by the British Isles and the rest of Europe.

Johnny Buff will go to Europe as the made youth capable of defending two titles, the fly-weight and the bantam-weight at his prescribed poundage.

Sporting Squibs of All Kinds

Toronto had over 400 amateur hockey teams last season.

Princeton is building an ice skating rink for intercollegiate games.

The top-of-ware has been eliminated from A. A. U. championship sports.

Dartmouth will open its new athletic stadium with football games in 1923.

C. F. Fuller of Harvard is making a name for himself as a slat-hurdle game player at squash.

University of Richmond opens its football season next fall at Lafayette. It will play nine games.

Jack Kelly, world's sculling champion, has accepted the challenge of Walter Hoover, Duluth.

With the assistance of Judge Lande baseball has attained an intellectual as well as an athletic status.

The football team of the Kansas agricultural college will flourish the University of Nebraska homecoming day plain classic next November 18.

Harvard university has arranged with Frank Jellinek of Boston, Massachusetts, a professional wrestler, to succeed Samuel Anderson as coach of the early wrestling team.

Jack Dempsey says he wants to join the American Federation of Labor, being fairly certain that there's nobody in his line who can give him anything to do for eight hours every day.

Estimaters are talking of the formation of a strong college conference to handle sports. One writer declares that it is needed in some variety to take the initiative. This conference, if formed, will be of schools other than the "Big Three."

The next annual tournament of the Elks' National Bowling association will be held at Chicago beginning February 14.

Harry Strong, first baseman of the Rockford Three-I league club, has been obtained by the Beaumont (Tex.) league club.

Washington and St. Louis universities will meet on November 4 instead of Thanksgiving day for the first time in eight years.

Maybe the suspension of Ruth and Meusel-if not lifted-will give Hinky Hayes, the college star, a chance in Miller Huggins' outfield.

Francis is preparing to decorate Carpenter. Most of us were under the impression that Jack Dempsey took care of that job last July.

Benny Leonard is out with a big boost for Joe King Leopold, the young featherweight from Denver. Benny says that Leopold is a high type of boxer and a worthy opponent for any featherweight in the game.

Where Your Taxes Go

How Uncle Sam Spends Your Money in Conducting Your Business

By EDWARD G. LOWRY

What can a man hope for who enters the government service as a career? Let us look at some actual cases.

The records of our department show that he entered the service as a laborer at \$800 a year, after a service of three and a half years in the United States navy as a first-class fireman, with an honorable discharge.

He has been with us for more than thirty-three years, and at age thirty-five, old, and has given more than half his life to the service of the government.

He is now a member of the United States Civil Service Commission, and he gets up early in the morning, before daylight, and comes in to work and goes out after dark at night.

Today he is getting \$840 a year. He has raised a family of nine children—three of them are now in college, and one is a doctor.

His wife is a very intelligent woman, and she is a very good mother. She is a member of the United States Civil Service Commission, and she is a very good mother.

He is a wife man, a very intelligent man, and a very good father. He is a member of the United States Civil Service Commission, and he is a very good father.

He is a member of the United States Civil Service Commission, and he is a very good citizen. He is a member of the United States Civil Service Commission, and he is a very good citizen.

He is a member of the United States Civil Service Commission, and he is a very good citizen. He is a member of the United States Civil Service Commission, and he is a very good citizen.

He is a member of the United States Civil Service Commission, and he is a very good citizen. He is a member of the United States Civil Service Commission, and he is a very good citizen.

He is a member of the United States Civil Service Commission, and he is a very good citizen. He is a member of the United States Civil Service Commission, and he is a very good citizen.

He is a member of the United States Civil Service Commission, and he is a very good citizen. He is a member of the United States Civil Service Commission, and he is a very good citizen.

He is a member of the United States Civil Service Commission, and he is a very good citizen. He is a member of the United States Civil Service Commission, and he is a very good citizen.

He is a member of the United States Civil Service Commission, and he is a very good citizen. He is a member of the United States Civil Service Commission, and he is a very good citizen.

MOTHER! CLEAN

CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Even a sick child loves the "fruity" taste of California Fig Syrup. If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to clean the liver and bowels.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine California Fig Syrup which has directions for babies and children of all ages printed on bottle.

Accept only "Bayer" package which contains proper directions. Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark of Bayer Manufacture of Monochloroacetate of Salicylic Acid.

Taste is a matter of tobacco quality. We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

As one employee put it: "I think you will find that every service seems to be quite proud of its work. I know you will find it in our service as far as compensation and such as that are concerned."

As one employee put it: "I think you will find that every service seems to be quite proud of its work. I know you will find it in our service as far as compensation and such as that are concerned."

Central America Can boast of Two of the Most Perfect of Beautiful Flowers.

A quiet little orange orchid, otherwise very common in Central America is the Spidromium Liliaceus, known as the "Dutch Shoe" because of its fanciful resemblance to a tiny sabot.

When I was about fourteen years old, my father brought me home a pair of boys' slippers. I was very much interested in them.

Others Are Busy. Flora-Tina seems to hang heavily on Dorothy's hands. She never knows just what to do with herself.

Don't imagine that you have great power because you have never had occasion to test it.

One third of your life is allotted to sleep. Do you get your share?

The most important portion in the process of applying nutrition to the repair of the body is while you are asleep. For the most favorable transformation of digested food into nerve and cell tissue, so doctors tell us, sleep is absolutely essential.

Is it any wonder that those who suffer from lack of proper sleep are weak, pale and lacking in energy or ambition?

One of the causes of insomnia is nerve-irritation from tea and coffee drinking. Tea and coffee both contain caffeine, which has a tendency to cause undue stimulation. The irritating effect of caffeine often results in insomnia, depression, and a weakened nervous system.

You can easily overcome those troubles by drinking Postum instead of tea or coffee. Postum is a delicious, satisfying cereal beverage, and it is absolutely free from caffeine, or any other harmful substance.

Ask your grocer for Postum. Drink this delicious, refreshing beverage for ten days. Then see if you do not feel better and more clear-headed, and if you do not sleep better and lighter—as so many other people have proved for themselves.

Postum comes in two forms: Instant Postum (in tin) made into instant Postum by addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Postum for Health "There's a Reason" Made by Postum Cereal Co., Inc., Battle Creek, Mich.

READ LANE'S DIAGNOSIS

In his final report to the President, upon completing his work as secretary of the Interior, Frank A. Lane sketched with a sure hand out of the abundance of his experience the present Washington condition:

The call for more planning, engineering, stationkeeping. For we are quickly passing out of the rough and ready days of our frontier days, and we are giving thought to the things which we must do to make the most of our resources.

Washington is a combination of political, economic, drawing-room and civil service bureaus. It contains statesmen who are politicians and political statesmen, and it is rich in brains and in character. It is honest beyond any other place in the world.

The present civil service law was enacted to correct the evils of the "spoils system" which had become intolerable. That the plan provided by the law, that of appointments through competitive examinations for certain positions, has been a vast improvement over the old patronage method is generally conceded.

For the body of the civil servants there should be a system of promotion or discharge and a sure insurance when disability should be a factor. Administrative officers there should be salaried twice as high as those who are not.

The employment methods of the government would be improved. Under the civil service law of 1883 a good

Your Colors. Have you ever tried dressing in your own colors? If you have gold-blond hair wear a natural ponce de

Satin Slippers. Satin slippers with diamond-shaped straps, the diamond appearing wide over the instep, are becoming in the line they give to the foot.

Spats of Silk. Spats of silk or gray wool silk are occasionally smartly worn with black pumps and a dark rock for the street.

Byrne to Boss Saignaw. Bobby Byrne, former captain and third baseman of the Pittsburgh Pirates, has been named by Judge Clement to manage the Saignaw team of the Mint league.

FOLWELL WILL RETAIN POST

Coach of Navy Football Squad Has Signed New Contract for Period of Two Years.

Bob Folwell, head coach of the Naval academy football team for the past two years, has signed a contract to continue in the same position for another period of the same length.

Folwell retained Gilmore Doble, who went to Cornell prior to the season of 1920. During both of the years in which Folwell has directed the Naval team it has defeated the eleven of the Military academy, the great objective of the Midshipmen. The team this year was by many observers considered the best the Naval academy has ever had.

1922 SCHEDULE FOR LEHIGH Feels Bent Out for Games With Harvard, Brown, Notre Dams and Williams.

Lehigh is working on the 1922 schedule. The game with Penn State is due at Lehigh, but the others have offered a big guarantee for a contest at Penn State gridiron. Washington and Jefferson and West Virginia will be dropped, and football are being sent out for games with Harvard, Brown, Notre Dams and Williams.

Fred Archer's Riding Record Still Is Best

With all his riding success through eight seasons' leadership, Stephen Donoghue, the British leader, is far from Fred Archer's record. In the latter's career he rode in 5,084 races, struck 2,740 winners, and was being sent out for games with Harvard, Brown, Notre Dams and Williams.

Byrne to Boss Saignaw. Bobby Byrne, former captain and third baseman of the Pittsburgh Pirates, has been named by Judge Clement to manage the Saignaw team of the Mint league.

THE PINE POKER

Published every Thursday at Pine City, Minnesota

W. S. McEachern Editor

Entered as second class matter at Post office at Pine City, Minnesota.

Subscription Price \$4.00 Per Year

THURSDAY, FEBRUARY 2, 1922

Why Increase Rent?

Mail is delivered free to residents of cities, over a certain population, by mail carriers, twice daily in rural districts, and four times a day in the business districts. Those living on rural routes also receive free delivery, but the people in small villages have to pay for mail and that rent has just been advanced.

If no post office boxes were rented at Pine City, it would make so much extra work for the clerks in passing out mail at the window, that a much larger force would have to be carried on the payroll. By renting boxes, it makes much less work for the postal department, and you get an added premium for saving that extra work, call for our own mail and save the expense of delivery, than those who have the mail delivered to their door without any effort on their part.

Why not abolish box rent, or at least lower the rate, instead of increasing it?

America has the greatest and best postal system of any country in the world. At the same time there is considerable opportunity for improvement in the rural districts, such as cutting out some of the red tape, Farmer on route 3 petitions, and been after the department for the past year or two, asking that this be made a motor route. It has grown so, that many farmers receive mail every other day only. They take route 4. A lot of new young farmers living much closer to Pine City than they do to Brook Park, and who do most of their business in Pine City, have their mail delivered by a Brook Park carrier. They used to have an exchange box with Pine City and Brook Park carriers exchanged mail. This was the most valuable mail they got, but it was not sent out some times for a week.

His Fighting Togs

We Didn't Know He Had Any. The Ashby editor said last week, "The American will be in Pine City with its individual bit again in 1922, dressed in fighting togs."

So speaketh the king.

It is too laugh. His fighting togs. What a wonderful fight he put up this year. Will he fight with a low bid, next year, or will he lambaste the board again? Oh, well, time will tell. Who goes up must come down. The bigger the pumpkin the bigger the spread when it hits the earth.

Voters look up the treasury. The bunch is coming to meet. Some with rags, some with jugs and on with slippery feet.

A THREE ACT PLAY ENTITLED "THE WOLF IN SHEEPS CLOTHING"

1st Act.—A few men, listening to the smooth words of the Shero. Says He, "Give to me, then, I will stand aside."

2nd Act.—Same scene as act one. Same man speaking as before. Says he, "I am King. You lesser lights, harken to me. I take again. How? Because my public servants obey my commands. Why? That's my business."

3rd Act.—And he takes of honor, fighting togs, etc.

Longfellow best explains it. "Thou hast betrayed thy secret as a bird betrays her nest, by striving to conceal."

OLD KING COAL

This is the hungry farmer that dot out up coal and call for more. This is the cow for unborn bones as full at state as full of staves, or other grades for twenty planks, but likewise full of staves, stumps that go in through the furnace door and leave it hungry as before. These are the ashes dead and white to be scraped out both, more and right. This is the load in these hard times who spends his dollars and his dime, obtained by writing Rural Economy, for him black diamonds long on state, which will in toward the furnace grate and leave it still incoast. This is the shovelful full of sticks with which the hard performer his trials and pits in many ways. He, the policy to and the shaker, which worry that old rhyming feller till he says words no right nor wise for one who hopes that, when he dies, he'll find in a Ford kindly feelings and have an end of furnace dealings.

—Bob Adams

How He Wanted It

"Any special you want your hair trimmed?" asked the barber.

"Yes, with the scissors," replied the grumpy fellow. "If I wanted it trimmed with a razor, you'd have to cut it off for me."

Theatre Notes

Friday and Saturday, Jack Hoken in "A Man from Nowhere." Was a Man from Nowhere a hand of a benefactor? Who was a Man from Nowhere? What would you do if your partner betrayed you and stole your investments?

See a Man from Nowhere for the answer. Snub Polford in "Hocm Pocus."

Sunday and Monday, Alice Callahan in "The Little Minister." Simplicity and charm stamp the Vitaphone production. The Little Minister, which will be shown at the Family Theatre on Sunday and Monday as one of the big pictures of the year. It is to the screen what James M. Barrie's story is to literature, and so does the spectator find a film version of a famous story as outlined by the author, as does this Vitaphone production, nor could a cast be selected which was so better suited to the character described in the story than that engaged for this production.

Nothing has been left undone to give the production the atmosphere of the Scotch hamlet of Thurmu. The thatched roofs, the whitewashed walls, the simple country folk, and even the red coated soldiers are all true to life.

On the same bill a two reel comedy "Jazz and Jamborets." No advance in prices.

Tuesday, Corinne Griffith in "I Don't Believe Done this Season." Beautiful scenes, Paterson scenes and real action in a clean wholesome film. Joe Ryan in "The Purple League" at 6:45.

Thursday Edith Roberts in "Thunder in Leland." The stirring of bullets on the rocks. Piter. Pat's thumping under your vest. You'll hear both sounds when you see Edith Roberts in her fastest photodrama, Thursday, Leland.

"Short and Sweet" comedy and Fox News, 10 and 20c.

Presbyterian Church Notes

T. J. Bickton, pastor, next Sunday as the pastor will be preaching in Illinois, he will also visit the McCormick Seminary in Chicago. The basket social has been indefinitely postponed.

February 8th to the 14th is Anniversary Week for the Boy Scouts of America. This will be the 12th birthday of the movement in America.

An American business man having temporarily lost his bearings in a London fog paused on a street corner. A newly seeing the gentleman all around asked, if he could be of any assistance. The gentleman accepted the boys guidance to his hotel and naturally offered the guide a substantial tip. The boy drew himself up with dignity and explained that he was a Boy Scout and Boy Scouts did not take pay for doing their good turns. The gentleman's interest was aroused to the extent that he sought out Bader Powell, the founder of Scout law and naturally offered the guide a substantial tip. The boy drew himself up with dignity and explained that he was a Boy Scout and Boy Scouts did not take pay for doing their good turns. The gentleman's interest was aroused to the extent that he sought out Bader Powell, the founder of Scout law and naturally offered the guide a substantial tip. The boy drew himself up with dignity and explained that he was a Boy Scout and Boy Scouts did not take pay for doing their good turns.

Same Old Sphere

They say that faith is dying out. And yet we have been told that there's little change in the amount of full-blown faith.

Library Notes

Miss Shearer having resigned as librarian, Miss Ida Dosey has been selected to take her place. We are all grateful to Miss Shearer for the courteous and efficient way she has served the library and we are sorry that her other duties compelled her to relinquish her work in the library.

At the executive meeting last Monday we heard that forty new books were ordered together with subscriptions to the following magazines, The Atlantic Monthly, Popular Mechanics, National Geographic and the Outlook.

Catholic Church Notes

Father Leo, pastor Services at Pine City next Sunday in the Catholic church at 9:30. Sunday school next Sunday morning at 10:30.

There will be no services at Brook next Sunday.

Lutheran Church Notes

Paul Heinke, Pastor There will be no services at the Lutheran church on February 6th and 12th.

Methodist Church Notes

James A. Orrock, pastor Owing to the fact that Rev. Backton has been called away, and that the pastor will hold a service at Rock Creek next Sunday evening, we will hold a vesper service at 4:30 p. m. instead of at the evening hour. This service will be over in time for the supper hour. The regular services will be held every week, Sunday school at 10:00, morning worship at 11:00, church league at 6:45.

JUST FUN

Why We Snorted. We sat in front of them at the theater. It was during the five minute of the play when the heroine was about to part forever from her sweet heart.

"Say," said the woman behind us to her friend, "Do you break many dishes? You know I'm awfully unlucky that way."

"Yes!"

"When a man telegraphs you for money you can lose or ignore the telegram, but you have to make some kind of answer when he gets you into a telephone booth."

CORNERED, AS IT WERE.

"An important message!" A long-distance telephone touch. That's another annoyance due to the progress of science.

When a man telegraphs you for money you can lose or ignore the telegram, but you have to make some kind of answer when he gets you into a telephone booth.

Do You Ever Weigh Your Money?

Years ago in some parts of Europe it was customary for ~~foreign~~ merchants to carry pocket scales to guard against receiving lightweight or counterfeit coins.

Today personal checks are so commonly used that the average person handles comparatively little cash, to say nothing of bothering to weigh it.

Have YOU a checking account? If not, come in and open one with this bank. We cordially invite your account.

Mrs. Cranston returned home, last Sunday afternoon, after a short visit in the Twin cities.

Mr. and Mrs. Galbrandson of Markville visited at the home of her parents, Mr. and Mrs. John Greenley, over the week end.

Bert Cowan leaves for Colchester, Ill., tomorrow, where he will pay a short visit with relatives and attend to some business matters.

Mrs. Wm. Albrecht spent last Friday in the village, coming up from St. Paul on business and for a short visit with friends here.

Mrs. Herbert Parish returned to her home at Wadena, last Saturday, after a visit at the home of her parents, Mr. and Mrs. A. H. Daniel.

Rev. Buckton leaves for Spring field, Ill., today, where he will preach at a Presbyterian church next Sunday evening.

Mrs. Dan Hoffman, living north of town, was taken to the cities Monday, suffering from an attack of appendicitis.

Chas. Hedding returned to Pine City, last Monday, after a couple of weeks in the Twin cities on a business trip.

The ladies of the Pythian Sister lodge will meet at the home of Mrs. Henry Birge, next Monday for the purpose of making luncheon cloths for the lodge.

J. Adam Bide returned home, last Saturday afternoon, after a couple of months trip on the Chautauque platform, during which he lectured in the eastern states.

N. K. Nelson, assistant cashier of the First National Bank, spent the week end in the Twin cities, and took in "Hamlet" Saturday evening.

Miss Julia Hurley returned home last Sunday afternoon, after a few days stay in the cities. She was accompanied by her aunt, Mrs. J. D. Vaughn.

A number of friends had a very enjoyable time at the Lawrence Graham home, last Saturday evening. Cards and dancing were indulged in and refreshments served.

Rev. Buckton preached at the Presbyterian church at Hinckley, last Sunday evening. Rev. Lee was confined to his home with a slight illness.

Mr. and Mrs. Frank Miska are the proud parents of a 9 1/2 pound baby girl, born January 29 at 2 a. m.

The Poker joins with other friends with a welcome for the little lady to this community.

Miss Gladys Hultman, secretary to R. P. Allen, spent the week end with relatives at Brahm.

The local creamery is having a large alarm installed at the creamery this week.

The basket social to be given by the ladies of the Presbyterian aid which was scheduled for next Tuesday evening, has been postponed indefinitely owing to the absence of Rev. Buckton.

Wm. Hurley was down from Sandstone to spend the week end at the home of his father here. He made the trip as far as Beroun in his car, but got stalled there and had the balance of the trip on foot.

Mrs. A. Oman went to the Twin cities, last week for a visit with friends and relatives there. A week's stay in the St. Luke hospital here, taking medical treatment. He reports his health very much im-

proved.

She Cassidy visited at the home of her parents, Mr. and Mrs. F. J. Cassidy at Hinckley. She returned Saturday afternoon accompanied by her sister, Miss Frances, who remained here until Monday.

Little Sister Perkins, daughter of Mr. and Mrs. Nick Perkins, is quite seriously ill with an attack of pneumonia.

The boys went out at the home of George Wiseman, last Thursday evening. The results are very active under the leadership of Ray Euckton, and have been having a dandy fine time this winter.

The ladies of the G. A. R. Circle will meet with Mrs. Pennington on Tuesday afternoon, February 7th. Lunch will be served.

The local town basket ball team went to Moose Lake on Wednesday of this week and were defeated by that team by a score of 32 to 20. The game was fast from start to finish with the outcome in doubt until the final whistle was sounded.

Miss Kohl, principal of the school, was called to St. Peter, last Sunday afternoon, by the serious illness of her father who is very low from a severe attack of pneumonia. He was away shortly after Miss Kohl's visit home. Mr. Kohl is an uncle of Mrs. George Staake.

The ladies of the Presbyterian aid held a surprise party at the home of Mrs. L. Hunter, last evening, in honor of the Hunter's 40th wedding anniversary. The ladies presented her with a silver shower. Refreshments were served following a very enjoyable social evening.

Mrs. Harold Jorgensen arrived from Minneapolis, last Friday, and the Jorgensons started housekeeping in the new Box apartment, which they have leased.

Mrs. Jorgensen's mother, Mrs. Thompson, accompanied her daughter here and will remain for a visit.

The members of the Eastern Star will meet at the home of Mrs. Royal Hunt, on Saturday afternoon of this week. The lodge has purchased a new set of dishes with the emblem of the chapter, and the meeting Saturday is for the purpose of sewing museum cloths. Lunch will be served by Mrs. Hunt to those attending.

Funeral services were held for Fred Whiston, Grand Keeper of Records and Seal of the Kingdom of Pythias lodge, yesterday afternoon, at his home in Minneapolis. Members of the local lodge will remember the visit of Mr. Whiston to Pine City about a year ago, who was allocated at the initiation of a big class here last spring.

Grandma Piper, mother of A. W. Piper, is confined to her bed with a broken arm, which she received the forepart of last week. She tripped and fell in the house, and was found lying on the floor by Elizabeth Lee, who stays with Mrs. Piper, on his return from school. The arm was badly swollen, but it was feared the accident might prove fatal, but there has been a marked improvement the past few days.

Cele. Hundredth Birthday

Grandma Wiley, mother of E. A. Wiley of Pine City, celebrated her one hundredth birthday, last Sunday afternoon, when she was a guest of honor at a party at the home of her son in honor of the happy occasion. She was also the recipient of dozens of birthday cards, sent by her many friends in this community.

Mrs. Wiley was born in New York state, January 29th, 1822. The Wileys were amongst the pioneers in South Dakota, moving there in 1882. She has made her home with her son here the past five or six years.

Her health is fine, her faculties excellent, and she is a wonderful example of the rugged stamina and hardihood of our pioneers. Mrs. Wiley was a school teacher in her youth and does considerable reading today. She is better posted on national and world topics than most folks many years younger.

The Poker joins with her many friends in birthday greetings.

Hold Interesting Meeting

The W. C. T. U. held a very interesting meeting last Tuesday at the home of Mrs. Royal Hunt.

The members responded to roll call with pleasing from the United States, most of these went to protest prohibition is really prohibiting even though a lot of liquor is being made and sold illegally.

The department of Citizenship which is conducted each time by Mrs. Miller, had for its subject, "The Colonial Period." This paper followed the growth of constitutional government up to the time of the declaration of Independence. This department wants to help our women to understand its duties as citizens and voters.

The topic of the day was Women in Industry and was led very ably by Mrs. J. D. Boye. She tried to impress on us, what the W. C. T. U. is doing both in the state and the nation to better conditions for women, who are employed, and in seeing that women get equal rights with men everywhere in the industrial world.

A delicious luncheon was served by Mrs. Hunt.

Prominent People

Pearson, Defender of Birds

T. Gilbert Pearson of New York is always in the limelight because he is president of the National Association of Audubon Societies and the Audubon societies are always working for the birds. Up at the office Mr. Pearson, an authority on bird life, has a room full of pictures and delicate models—boxes, drawers and cases packed with birdskins, skins and plumes from the plundered jungles of the Pacific islands; airplanes taken from Florida and Carolina plane-hunters; the fat-sought crown of the goshawk.

"Fifteen hundred dollars' worth of bird plumes valued in this thing," he said, shaking out a capacious bag made of brown muslin. "A ship's steward had attempted to wear it ashore. He thought he had feathered his nest nicely, but he got a heavy fine and nine months in jail. I've received at least \$20,000 in seized plumes from the federal authorities."

Mr. Pearson is trying to secure the repeal of the bounty law on the eagle in Alaska. It is said that the territory has just donated an over 15,000 eagles. He holds that no such law should be enacted without scientific investigation. The eagle should have its day in court.

Fifi and Fred Meet Again

"Fifi meets Fred For First Time in Two Years," proclaims a headline which is to say that the famous Stillman divorce case is again the first page. As these stories tell, with wealth of detail, Mrs. Stillman made a midwinter trip into Canada and to interrogate witnesses who are alleged to have been improperly influenced by her husband's agents. And at Three Rivers, Que., Mrs. Anne Kern, Stillman met face to face the Italian guide who has been named co-respondent in her husband's suit against her.

On her arrival at Three Rivers Mrs. Stillman sent her slender luggage aboard to the Hotel St. Louis. Philip A. O'Brien, her New York lawyer, and Mayor Jean Crete of Grandes Piles, who met her at the station, were with her.

Fred was there to await her. When Mrs. Stillman stepped with Crete and O'Brien into the lobby of the little hotel his manner was as quiet and conventional as hers.

"How do you do, madame," he said in English.

"How do you do, Fred," she said casually. "How are you?"

Incidentally Emmanuil has gone into the movies. His own production, "A Lonely Trail," will shortly be seen on the screen. No, it has nothing to do with the Stillman case.

To Save Starving Millions

William N. Haskell, director of the American relief administration work in Russia, has returned to Russia from London. He hopes to save, chiefly through America's \$30,000,000 grain appropriation, from 5,000,000 to 10,000,000 adults and children otherwise probably doomed to die of starvation in the Volga region.

The relief administration, he said, hopes that the first of the grain provided under the congressional appropriation will reach the starving people in February.

"We cannot hope to fill their stomachs, cannot hope to make them happy, but we can keep from 2,000,000 to 10,000,000 of people from dying," he said, adding that by March the feeding of adults would be in full swing. The relief administration would furnish only a corn ration, probably one pound a day, to each adult absolutely lacking food, and a lesser quantity to the rest of the population.

He authorized to increase the number of children to be 2,000,000.

Alexander Is to Wed Marie

The engagement of King Alexander of the Princess Marie, second daughter of King Ferdinand of Yugoslavia and Queen Marie of Romania, has been announced at Belgrade.

Princess Marie is twenty-two years of age. She was reported engaged to Alexander, who was then prince regent of Yugoslavia, in September, 1920. King Alexander, who is the second son of the late King Peter of Serbia, is in his thirty-first year. He is visiting the King Ferdinand and Queen Marie of Romania at their chateau at Sinal.

Princess Marie is a beauty. At one time it was reported that she had been selected as the bride of the prince of Wales.

Recent advice has it that both nations seem to have been apprehensive in the country. The vigorous action of the government, which recently passed a law imposing the death penalty on offenders of public security, has won enemies against the state, has struck terror into the hearts of radicals and revolutionaries. The jails of the country are choked with persons accused.

New Revolution in Mexico

Just when the newspapers are insisting that President Alvaro Obregon of Mexico (portrait herewith) is doing wonders in the way of rehabilitating his discredited country along comes a story from Texas that a new revolt has been started to overthrow him.

The head of the revolt is Antonio Villarreal, former minister of agriculture in the Obregon cabinet. Villarreal, now in the mountains near Monterey, Mexico, has initiated the aid of Gen. Pablo Gonzalez at Laredo, and the Carranzista followers in Texas, and claims to have 10,000 men ready for the field. The Obregon troops are reported to have made over 200 arrests in connection with the new revolutionary plot. United States agents are expecting Villarreal to cross the international boundary to further his revolutionary activities.

According to information received by the United States operatives in Mexico, the Carranzista partisans of the followers of Gen. Pablo Gonzalez are to join in a united movement into Mexico from border points.

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Terealy Chronicled for Their Benefit.

Winona—Mr. and Mrs. M. N. Caldwell celebrated their golden wedding anniversary at their home here.

Winona—James E. Burke, aged 83, a leader in civic and business circles in Winona since 1894, is dead here.

St. Cloud—John V. Ober, quarry owner of this city, died shortly after falling 75 feet down a quarry shaft.

Red Wing—James Lyons, 73 years old, a resident of this city, died here, Tuesday, at a hospital here from pneumonia.

Brainerd—Readjustments in the salaries of city employees made by the council will save the city approximately \$11,100 this year.

Willmar—William Arhens, 2 years old, of Watkins, died following an operation for the removal of a peanut shell from his throat.

Duluth—Two men, tried jointly on a charge of robbing the postoffice at Bay Minn. last July, were acquitted by a jury in United States district court.

Fairmont—The Commercial State Bank of Triumph has asked the state bank department to send a deputy examiner to take charge, after voluntary closing.

Montevideo—Declaring that 80 per cent of the farms in this territory are mortgaged, 200 farmers at a meeting here formed an organization designed to get financial relief.

Brookston—Twenty-eight school children were marched to safety, when fire broke out in the rural school here. The flames, of unknown origin, destroyed the structure.

Austin—According to a new city directory, just issued, Austin has a population of 12,131. This is an increase of 2013 over the United States census figures of two years ago.

Lamberton—Gordon Sorenson and Bernia Emerson won the declaratory and oratorical contest here, and will represent Lamberton high school in the state declaratory league.

St. Cloud—Inventory of the estate of the late Dr. Pierre A. Hildt, member of the state board of control, held in probate court here, shows the value of Dr. Hildt's property to be \$323,959.40.

Fairmont—Abstract of delinquent taxes in the 20 townships of Martin county, made public by County Clerk E. R. Frygar, discloses that the total amount is seven times greater than a year ago.

Owatonna—A committee of the Owatonna Commercial club completed the raising of a \$1,000 guaranty fund to bring an additional \$25,000 in state aid to Owatonna to rebuild and enlarge the armory.

St. Paul—Howard Wheeler, attorney of 25 years practice, will succeed the late E. W. Bazile as probate judge of Ramsey county. It was announced. The appointment was given out by Governor J. A. O. Press.

St. Paul—Judge Edmund W. Baillie, for 23 years judge of probate in Ramsey county, one of the community's pioneers, died at his home here following an illness extending over more than eight months.

St. Paul—Instruction in the care and repair of farm machinery will be given under the auspices of the University Farm school at the National Tractor and Power Farming show to be held at the Minnesota State Fair grounds, February 8 to 11.

Rochester—Colantha Pauline Seris, 4-year-old Highland, broke two world's records for seven days' production. She produced 830 pounds of milk from which was made 154 1/2 pounds of butter. The record is owned by Dr. C. Graham of Rochester.

Minneapolis—The Cappelena Memorial bridge, under construction over the Mississippi river, Franklin avenue, suffered damage estimated at \$15,300 and its completion was delayed a month by a fire in the site work. The flames were started by the explosion of a small stove under the central span of the bridge.

Duluth—A hearing on an interlocutory injunction sought by the Oliver Mining company, and 30 independent corporations to test the constitutionality of the state occupation tax will take place in St. Paul about March 7. Judge Page Morris indicated in the hearing that the injunction will be granted or other restraining the state of Minnesota temporarily from proceeding any further with the company's books or assessments of their tax.

Minneapolis—At the state convention of the National Brotherhood of America which is called to assemble here March 29 and 30, the Manual of procedure for the Brotherhood and Men's Clubs which has been prepared by State President John L. Sandeen, will be given a formal test and will be submitted for approval.

Fairbault—The Fairbault Shipping association last year did a business of \$282,266, according to reports of officers made at the annual meeting of the association. Of this amount, \$284,004 was remitted to the shippers.

Ivanhoe—The county commission of Lincoln county have made a sweeping reduction in the salaries of the county officers. The reduction just made is of such a drastic nature as to make the salaries to be paid the coming year below those in effect before it's raise two years ago.

St. Paul—More than 500 pupils were in danger when the Preston high school was destroyed by fire and the flames spread to the grade school building 30 feet distant. Many of the pupils left their overcoats and caps behind. The school records and books were destroyed.

Princess Mary Selects Her Honeymoon Home

Minneapolis—Plans for a new Minnesota are under way for the University of Minnesota film club.

Rochester—Miss Mary, princess consort of southern Minnesota, held a three days' session here Friday. While hitching up his team A. J. Kunkle, a farmer, was hooked in the face by one of the animals and his nose was broken.

Hibbing—Explosion of an oil stove in the home of Fred Smith, drove the family into the cold and caused a loss of \$15,000 to the building.

Albert Lea—Mrs. Robert Dwight was chosen by the city council to fill the vacancy in that body made vacant by Robert Anderson, who resigned.

Minneapolis—The hearing on the suit contesting the election of Mayor George E. Leach was continued by mutual agreement to February 16.

Fairbault—Fire originating from an overheated furnace caused \$400 damage to a farm house at the Minnesota State School for the Feeble Minded.

St. Paul—The Minnesota highway department has moved its offices to the new building at 1246 University Ave. St. Paul, from the Guardian Life building.

Brainerd—Brainerd lodge of the Local Order of Moose initiated a class of 15 their meeting. The work was completed by the Grand Lodge. The class was organized by the Grand Lodge and was held by the Grand Lodge.

Chickadee—The Vendome hotel, owned and operated by S. N. Rosenquist, was destroyed by fire. The building was a landmark, having been erected in 1858.

Red Wing—Charles Boatman, aged 71, will probably suffer amputation of both feet and both thumbs as the result of wandering away from home in the intense cold.

Hibbing—Reports from the Swanville district area that timber wolves have become so numerous that the settlers do not venture outdoors more than is necessary.

Eveloth—Pearl Paulson of this town, and Bernice Selge of Eveloth, have been chosen to represent the Range in the state high school oratorical contest at St. Paul, Feb. 17.

Virginia—A great deal of interest is being shown by the women voters in the coming city election. Most of them are registering and taking an active part in the preliminary discussions.

Pipestone—The jury in the case of State against Jerry Hines, charged with attempting to burn his 150,000 Orpheum theater here last November, were unable to agree on a verdict, after deliberating 16 hours.

St. Paul—State officials were served with copies of a petition filed by 31 Minnesota mining companies in federal court asking an injunction to restrain collection of the tax imposed by act of the 1921 legislature.

Owatonna—Ernest Sloan of Elbowdale, has been elected head of the Steele County Holstein Breeders association. Other officers chosen are E. G. Heinz, Meridian, vice president, and Donald Alexander, secretary-treasurer.

Red Wing—Addresses by Bishop McElwain and Dr. Luke, of St. Clement church, St. Paul, opened the 65th annual Minnesota diocesan council of the Episcopal church here. About 50 clergymen and over 200 lay delegates were in attendance.

Owatonna—Jobs may be scarce, but signs at the entrance of the farm horse office in this city appear to call another story. Several days ago the signs were put up, calling for "Help wanted on farms" by the month, but the places are not filled.

Willmar—Farmers of Kandiyohi county, in a mass meeting at the courthouse here, passed resolutions asking congress for the revival of the wartime measure fixing the price of wheat, and also for the immediate repeal of the Esch-Cummins railroad law.

Rushmore—Mrs. J. H. Johnson was severely burned about the face, hands and body when a can of stove polish which she was using in cleaning her kitchen range exploded. Burns which started from the explosion were extinguished before much damage was done.

Fairbault—The annual southeastern Minnesota Farm Bureau conference will be in Fairbault Feb. 15 and 16, according to word received by County Agent McPheters of Rice county. County agents representing county farm bureaus of 23 counties will attend the convention.

Minneapolis—W. H. Spaulding, coach at the Western Teachers' College at Kalamazoo, Mich., was agreed on as coach for the 1925 football team at the University of Minnesota. He was recommended for the appointment by the joint committee of alumni, students and members of the Board of Regents, which has been considering the reorganization of University athletics.

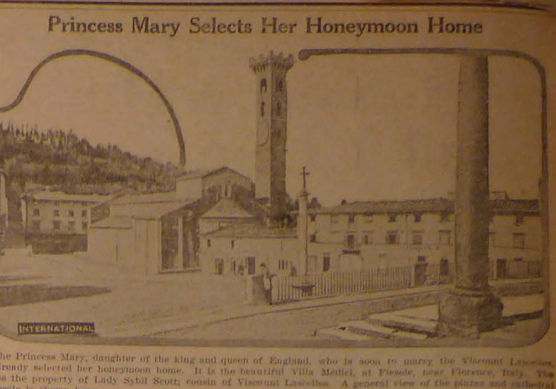

St. Paul—Heavy decline in the values of Minnesota farm crops are shown for the year of 1924 in a report announced by Paul H. Kieff, Minnesota agricultural statistician. It shows a decrease in crop acreage and a marked falling off in value on the farm. The total value as of Dec. 1, 1924, is estimated at \$171,682,000 compared with \$272,282,000 for 1923, and \$476,977,000 for 1919.

St. Paul—Notice of appeal from the ruling of Judge E. M. C. O'Brien, city county district court denying the motion for an order restraining the sale of the property of the Minneapolis and St. Paul Railway company from abolishing the neutral zone in the Midway district, was filed with the supreme court by T. D. O'Brien, St. Paul attorney, in behalf of several Midway firms.

Elmore—A few county schools in the vicinity have been closed because of the several cases of scarlet fever. In some cases nurses have been employed to look after the pupils in an effort to stamp out the disease.

Springfield—As a result of its victory over the Lake Crystal high school team, after a hard fought high school football game, the Springfield team will meet the winner of the Pipestone-Berthorn debating contest for the championship of the county in the congressional district. Springfield was given a two to one decision over Lake Crystal.

Manchester—Women club members of this city have started a movement looking toward the erection of a Y. W. C. A. building in this city. The effort to a large extent for the women students attending school here from out of town.

The Princess Mary, daughter of the King and Queen of England, who is soon to marry the Viscount Lascelles, has already selected her honeymoon home. It is the beautiful Villa Marilla, at Plesio, near Florence, Italy. The villa is the property of Lady Sybil Scott, cousin of Viscount Lascelles. A general view of the place and situated at Plesio is shown here.

Stamp Machine Gives Full Money's Worth

Here is a machine, now being installed by the post office department, which yields stamps and gives the purchaser his full money's worth. Put a coin in the slot and the stamps come out at once.

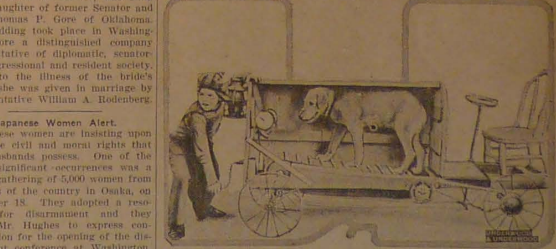

GORE'S DAUGHTER IS WED

Mrs. Eugene Luther Vidal, who before her marriage to Lieutenant Vidal, United States air service, was Nina Gore, daughter of former Senator and Mrs. Thomas F. Gore of Oklahoma. The wedding took place in Washington before a distinguished company representative of diplomatic, senatorial, congressional and resident society. Owing to the illness of the bride's father, she was given in marriage by Representative William A. Tottenberg.

Japanese Women Alert.

Japanese women are insisting upon the same civil and moral rights that their husbands possess. One of the recent significant occurrences was a unique gathering of 5,000 women from all parts of the country in Osaka, on November 18. They adopted a resolution for disarmament and they called Mr. Hughes to express congratulations for the opening of the disarmament conference at Washington. These Japanese women are awakening slowly but surely.

Coy Watson and His Dogmobile

Coy Watson, Jr., a boy actor, is the proud possessor of this unique machine. It is known as the model 1922 Dogmobile and is one low-ton power.

GATHERED FACTS

There are 222 varieties of wheat which have a botanical difference from each other.

Of fifteen alarms of fire in London in one day recently, ten turned out to be false.

Of European invention is a stove intended to warm a room of fair size which burns but a single fuel briquet and a handful of wood at a time.

The wood of which Noah's ark was built has been identified by many scientists as cypress.

A small fish with a large head, which is found round the British Isles, and is known as the bullhead, has the power of barking to frighten its enemies.

The largest and by far the strongest of warm-blooded creatures is the whale. A specimen of the estimated weight of sixty tons has been known to weigh in a whole day a steamer of 120-horse power, with the full force of the engines working against it.

From Baghdad to the sea, more than 200 miles, the Tigris is navigable for any boat not drawing more than about eight feet. River steamers go to Baghdad, though they often run aground on the shifting sands.

"Ah," he exclaimed one day. "I have it!"

Perthwith he painted a picture that made women weep by corsets, and became famous and rich.—Richmond Times Dispatch.

The Wonderful Tigris.

Blame It on the Girls.

Mother love is wonderful, and we have no doubt that Bathsheba always felt, and told, that her boy, Solomon, would never have carried on the way he did if the girls hadn't dressed so immodestly.

Umbrellas numbering 20,000 were left in the Paris underground railway last year.

The railway from Durban to Glencoed will be electrified in the near future as the first step toward using that power generally in South Africa.

All the movements of the earth, sun and moon are shown with mathematical exactness with a hand operated machine constructed by a British scientist.

In the arctic regions there are 762 different species of flowers, but only 18 in the antarctic circle there has never been found a flowering plant.

Chicago is planning the biggest hotel in the world. It will have 4,000 rooms, including 400 "kitchenettes" for its inmates.

The cost is estimated at \$15,000,000.

For irrigating vegetation requiring moisture above as well as below the surface, a motor sprayer has been developed in Fortzengue East Africa that supplies artificial rains at a rate of 2,000 gallons an hour.

Girl, a Horse and a Dog

By FRANCIS LYNDE
Copyright by Charles Scribner's Sons

... that there were good possibilities wrapped up in the gray-brown pup... "Believe you had this all depicted on your face," Daddy said, when he had a last little row of the cartridges laid out on the floor. "But surely you didn't expect to hold out alone if those sharks sent a crowd of jumpers in to run you out?"

"He and Jennie," he said slowly. "Wed 'd some day or level best, but the angels couldn't do no more than that. Here, unless the old man was really as good as dead, I represent that Chamber Mining company of Cripple Creek. You are trespassing on our property, and I am making a formal demand for possession."

"So that's the new wrinkle, is it?" "It was having you might spring something at the original. How are you going to prove ownership?"

"The burden of proof here on us, it's on you," he ripped out. "You haven't a shadow of claim to this right here, and you're called dead!"

"It's a forgery," a clumsy, childish remark that would impinge upon a blind man. "We can see you on the rock pile on the strength of it if we want to!"

"Since he had stolen the deed out of my pocket, I thought of course that he was just bluffing about it being a forgery. He must have known people would see that it was a forgery. He was whispering in my ear as he handed me the deed."

"You have it all your own way, Bullerton—or you think you have," I told him, and I didn't get all of the confidence into the words that I tried to put into them. "I don't know the difference."

"I might even concede that you have everything but the mine itself. If you want that, you may come and take it; but you'll permit me to say that when you break into this shaft house there will be fewer people alive on Chamber mountain than there are at the present moment. I shall quite possibly be one of the dead ones, but before I start up, I shall do my best to make you another."

"All right," he snapped back. "You're speaking for yourself, and that's your privilege. But how about you, Tommy? This is no quarrel of yours. Suppose you go over yonder to your cabin and stay out of the fight. Nobody wants to hurt you."

"That put it pretty squarely up to me, but I turned to the old man at my side. "It's good advice, Daddy," I said, "and this isn't your quarrel. You'd better duck while you can."

Daddy Hiram made no reply at all to me; he stood up on the door-sill and shook his fist at Bullerton. "I'm looking for you and your kind of a crowd for a year back, Charley Bullerton, and drawing pay for doing it," he shrieked. "Stannie, here, says if you want this mine you can come and take it, and by golly, I say them same identical words!"

"But it's only fair to say that we outnumber you six to one, and we've got the law, and a few deputy sheriffs, on our side. You two haven't a chance, show as a cat in hell without claws, and when the circus is over, you'll both go to jail, if there's enough left of you to stand the trip. Then, as he was turning to go he dipped the deed into the air so that it fell at our feet. "You may have that," he sneered. "Wed like nothing better than to have you produce it in court."

"It didn't seem just fitting to let him have the deed, so I picked a small ultimatum of my own after he had heard his secondarily look- "witlessness" into the downward gulf."

"One thing more, Bullerton," I called out. "Your bag of brass bolts holds up your side. If you're men are in sight of Chamber property ten minutes after my reach my camp, you see fire."

"Since the trace was thus definitely laid, we retired into our fortress and got up the bars. As we were closing the doors and making everything snug for the blacksmith shop, and the fire was nothing but an open-cracked shed, as I have described it, entirely indefensible if the raiders should conclude to risk it."

"In the fulness of time the period of suspense came to an end, and we were finally made the depositors," as an army man would say. The announcement came in the form of a rattle bullet hitting the roof of the shaft house as if the storm iron roofing had been so much paper."

"The fun's beginning!" said Daddy, and the words were hardly out of his mouth before another bullet came, this time from the opposite direction, and it also, too, through the roof."

"Got surrounded," Daddy grunted, when a third shot came from right another point of the compass, and within the next fifteen minutes Bullerton's demonstration was made complete. The shots fired one at a time, and at intervals of a minute or so, came from all three of the opposite sides of the building, and the thin clanging between the ripping crashes on the roof and the crack of the gun told us that the marksmen were all set beyond the range of our Winchester rifles, even if we could have seen them—which we couldn't."

Bullerton had evidently given his men orders to aim at the roof, for it was only a stray bullet now and then that came through the shaft house. After a few minutes, Bullerton seemed to break our nervousness. He said that he could not see our position, and that he would not be coming in. He said that he would not be coming in. He said that he would not be coming in."

... that came through the shaft house. After a few minutes, Bullerton seemed to break our nervousness. He said that he could not see our position, and that he would not be coming in. He said that he would not be coming in. He said that he would not be coming in."

MONTHS OF SUFFERING

How a Baltimore Girl Recovered Her Health

Baltimore, Maryland.—"For several months I suffered with severe nervous prostration, and was unable to do anything but lie in bed. I had lost all my appetite, and my weight had decreased to such an extent that I was unable to get up. I had been told that I was suffering from a nervous ailment, and I had tried many different remedies, but nothing seemed to do me any good. At last I learned of the existence of Doan's Kidney Pills, and I decided to try them. After taking a few boxes, I began to feel better, and my appetite returned. I was able to get up, and my weight began to increase. I am now perfectly well, and I am able to do all the work that I wish to do. I am sure that Doan's Kidney Pills have saved my life, and I can recommend them to all who are suffering from a nervous ailment."

Doan's Kidney Pills are sold by all druggists. Price, 50 cents per box. Write for a free copy of the book, "Doan's Kidney Pills," to the Doan Medicine Co., Buffalo, N. Y.

TO KILL RATS

Always use the genuine STEARNS' ELECTRIC RAT & ROACH PASTE. It is the best rat and roach killer ever made. It is safe for all domestic animals, and it is effective against all rats and roaches. It is sold by all druggists.

MAN'S BEST AGE

A man is as old as his organs, he can be as vigorous and healthy at 70 as at 25 if he aids his organs in performing their functions. Keep your vital organs healthy with

GOLD MEDAL HAARLEM OIL

The world's standard remedy for kidney, liver, bladder and circulatory troubles. It is a powerful purgative, and it is effective against all ailments of the urinary system. It is sold by all druggists.

for that COUGH! KEMP'S BALSAM

Remedy for Cough, Croup, Whooping Cough, Sore Throat, Bronchitis, Asthma, Hay Fever, and all other ailments of the respiratory system. It is sold by all druggists.

MURINE

Keep Your Eyes Bright and Clear. It is the best eye medicine ever made. It is sold by all druggists.

Daddy and I Were Eating When We Saw the Army Coming.

"Throw It! Good-Gosh-to-Friday! Throw It!"

CONCEIT IS A MASCULINE TRAIT

Woman Utters So Asserts, and Says It Usually Crops Out After Her Marriage.

All feminine creatures, from the cradle to the grave, proceed on the basis of conceit. It is a trait which is particularly true of the man who is no longer loved, but has not yet learned to love himself. It is a trait which is particularly true of the man who is no longer loved, but has not yet learned to love himself.

More than once I have seen some dull woman flatter my husband, and have him in turn flatter her. It is a trait which is particularly true of the man who is no longer loved, but has not yet learned to love himself.

Indeed, it is a stupid or inexperienced woman who has not done this, and usually because she wanted to get something out of it. It is a trait which is particularly true of the man who is no longer loved, but has not yet learned to love himself.

A woman of any age knows that a certain amount of self-satisfaction has become necessary to keep the race going.
