## URGES DELAY ON SOLDIER BONUS

Mondell Suggests Further Postponement Might Serve to Clear the Skies."

## CONFER WITH HARDING

House Ways and Means Chairman Appoints President of House Action Rejecting Sales Tax to Finance Bonus.

Washington — Postponement of the House's action on the soldier bonus bill for a while longer was suggested by Representative Mondell, Wyoming, the Republican leader, after he and Chairman Fordney, of the Ways and Means committee, had conferred with President Harding at the White House.

Emphasizing that the suggestion was his own, Mr. Mondell said it was well known that the House intended to take up the bill again in the next session and that a little delay might serve "to clear the skies." He explained that within a short time there probably would be more definite information as to exacted savings in expenditures for the next fiscal year, returns from the foreign debt and whether business conditions could be expected to improve so greatly as to permit a reduction of the proposed financial revenue.

Mr. Mondell and Mr. Fordney were understood to have apprised the President formally of the action of the Senate House subcommittee in rejecting the original bill, and the fact that the bonus was financed by a sales tax and approving instead a bill without any definite means of raising the revenue.

Representative Longworth, of Ohio, a member of the committee dealing with the bonus question, said after a conference with the House that Mr. Harding still was of the opinion that the legislation either should be delayed by a sales tax or postponed.

## CHAS. W. MORSE INDICTED

Conspiracy to Defraud Government Charged By Federal Jury.

Washington — Indictments against Charles W. Morse, New York shipbuilder, and Ernest C. Ladd, Benjamin, Harry and Edwin Clegg II, sons of Washington, president of the Vizcaya Shipbuilding corporation, and several others were returned by the federal grand jury here yesterday after investigating the wartime transactions of Morse and some of his associates with the shipping board.

Two indictments charged one charge of conspiracy to defraud the government and the other charging conspiracy to commit offense against the government.

## GENOA PARLEY POSTPONED

Economic Conference Now Scheduled to Meet April 10.

Holmgren, who had been summoned to the Genoa parley conference until April 10, was reached by Premier Poincaré of France and Prime Minister Lloyd George of Great Britain, who called off the conference there. The conference originally was called to meet March 8.

Mr. Lloyd George said after the conference there would be no agreement between the Government and the commercial men of Britain, as both parties were entirely agreed as to all its essentials. The part would be ready for signature in a few days, he added.

## WHEAT HITS NEW HIGH MARK

Advance in Prices Bringing in Much Grain From Country.

Minneapolis, March 1 — A 14% wheat crop brought through the grain market of \$1.45 last Tuesday, and established a new record for the year at the Minneapolis Commodity Exchange. The new modern record sold for cash at \$1.71½. The wheat market, however, suffered a reaction after the new mark was attained and closed at \$1.60, which was a record price paid for a class of 11.4% on Saturday. That the advance in wheat prices is bringing out grain from the country is indicated in the heavy reports.

**Reparation Pay Agreed On.** — A provisional agreement reached by the Allies reparation commission and the German government provides for the sum of payment by Germany of \$1,650,000,000 gold marks in kind, it was announced.

**Three Drowned in Auto Plunge,** Indianapolis, Ind.—Three persons were drowned when the automobile in which they were riding plowed from the state road into the Chicago River.

**4 Die in Mexico City Riot.** — Mexico City—Four persons were killed and many wounded when the police fired on a crowd of striking miners who had gathered to demonstrate in front of the city hall. Two of those killed were children, two policemen.

**Français Blawerd Pays Penalty.** — Versailles—Hemis Lauder, the "Blawerd of Gambols," was guillotined last night. He walked from the jail door to the guillotine unarmed.

## Fair Store in New Location

The Fair Store is now located in the new location in the Glasgow building. The stock is being moved in today, and Mrs. Shelsky will open for business at the new stand tomorrow.

The store occupies the room vacated by Sam Hoffman and the one adjoining where Mr. Glasgow had his grocery store. Two large arched ways have been put in between the two rooms. The rooms have been nicely decorated and new fixtures installed.

The new location gives Mr. Shelsky about three times the space he formerly had and he plans on carrying a complete stock of general merchandise. He is adding a variety department, after the pattern of the five and ten cent stores, which is sure to prove a popular one.

## School Notes

On account of the big storm last Tuesday, the Assembly Hall in the high school looked pretty empty. Nearly half of the pupils were absent. In the grades the number of absences was greater. Of course you might expect that the folks come through now that "sheep" than they are tall. Some come on skis, some on barrel staves and many don't come at all.

The Seniors have had two class meetings. They have closer class colors, dowers, etc. Committees on invitations, dress and the class play were appointed. Another committee was appointed to find something that should be engraved on the class present.

The games that were scheduled for the army last Friday were canceled on account of lack of heat.

Cambridge canceled their game which was scheduled for Tuesday. As long as the game would not affect on either team's record to Forest Lake, it was agreed to cancel. Forest Lake is ahead of the league with Milaca second. Milaca had been ahead, but they dropped down to Anoka last Friday, thus shoving Forest Lake to the lead.

Next Friday Pine City goes to the tournament at the high school. Let's have a good time, boys go to the games, let's have fun, if they are in the finale, let's have fun. All of Pine City at Forest Lake.

## Rock Creek News

## Basketball Tourn.

### Opens Tomorrow

The long looked for, and much anticipated event which has been the main topic of conversation amongst the students at the high schools, in this part of the country, is about to commence when the eliminated basketball tournament opens at Forest Lake.

The eight high teams, out of the fourteen schools in this district, will take part in the tournament. The captains or coaches of the participating teams will draw lots for the order of play. The whole will begin at 3:30 P.M. on Saturday, the next game will be at 4:30, and two games in the evening, at 8 and 9 o'clock. The winners of the four games will meet Saturday morning at 10 and 11 o'clock and the winners of these two games will meet for the final game at 8 that evening, when the winners of the series will be decided.

These dates are given so there will be no mystery surrounding the tournament, and to enable you to understand anything that may be published with respect thereto. We are making no secret of these facts and you may pass them along without hesitation to your townspeople and to our prospects.

## Makes Fine Showing.

The following letter received from the Gardner factory at Toledo, Ohio, by Joseph Patach, Vice President, is of general interest:

"The Willys-Overland is a manufacturing institution with assets exceeding One Hundred Million Dollars. Its principal plant is in Toledo, Ohio, where we have 119 acres of land and devoted exclusively to the manufacture of Overland and Willys-Knight cars. There are three other plants: one in Pontiac, Michigan, one in Elmira New York and one in Elyria, Ohio. These three plants have 60 acres of floor space devoted to our product. Elvira has recently been closed and the work transferred to Pontiac."

"We have \$76,679,381.25 paid-in capital stock and \$55,621,825.25 common stock. There has never been any bond issue.

"It always has been company policy to provide part of its working capital by securing loans from Banks. Notes payable have been as much as \$34,454,294.63 at one time. But we have never had a loan outstanding over \$10,000,000.00, the maximum six times this amount. The company has \$4,000,000.00 cash in Banks and is meeting all of its current obligations.

"The operating condition of the company is in splendid shape, principally because it has consumed its high priced material inventory and because it has practically eliminated overhead for high price materials. We are entering a selling season with every reason to expect business. We have perfected and put in operation an improved marketing plan. We have contracts with 3600 local dealers and the work of conversion is progressing rapidly. The market is expanding and we have to have at least 5000 dealers.

"Our organization has been strengthened materially during the past year. Our product is finding a wider market than ever before.

"These facts are given so there will be no mystery surrounding the tournament, and to enable you to understand anything that may be published with respect thereto. We are making no secret of these facts and you may pass them along without hesitation to your townspeople and to our prospects.

## Pine County Got \$50,760

Five county minor vehicles were taxed \$50,077 and \$50,760 of timber tax money was used to date in his county under the so-called Baldwin good roads plan. Only state tax money is available for this purpose.

The state has now held up the shipwreck fund and use of the fair's tax money is a contribution from the community and the timbermen of the area to the maintenance of the timber roads.

Making effective this section of the state highway law will mean a substantial gain in the world of commerce or as a source of additional revenue.

Mr. Harding emphasized the importance of a national merchant marine and the importance of American merchantmen, officers and sailors to have a naval service with the greatest efficiency.

"The merchant marine is universally recognized as the second line of naval defense," he added. "It is indispensable in the time of great national emergency."

**PRINCESS WEDS LASCELLES**

Only Daughter of King George Marries Prince Philip, Marginalia's daughter of King George and Queen Mary was married to Viscount Lascelles, with all the pomp and dignity befitting a royal wedding.

The ceremony began in Westminster Abbey at 11:30 a.m. and soon thereafter the couple were pronounced man and wife, and while the bands played and vast crowds gave tumultuous greetings.

The scene of the ceremony within the walls of the abbey of the Tudors, one of the most impressive spectacles, with the king and queen and the entire royal household participating and with all the trimmings of a coronation.

Lord Lascelles, the brilliant young man, while outside the abbey the blare of popular horns gave the bridal pair.

## EGYPT IS GRANTED FREEDOM

### British End Protectorate Subject to Reservation.

London—Egypt has been created an independent state, subject to certain restrictions, it was announced officially. The British government has terminated its protectorate subject to the following reservations: Lord Allenby, British secretary of state, informed the sultan of Egypt of this fact, and a similar announcement was made in the house of commons.

**Senate Defeats Treaty Attack.**

Washington—Dividends virtually on parity lines the Senate refused to amend the Tug-boat treaty in the first test of strength on any question affecting the status of the American monetary system during the Washington conference.

The vote was 50 to 50.

**Bank Bandits Get \$30,000.**

Madison—Two bank robbers held up and robbed a branch of the Fidelity Savings and Trust company and escaped with \$30,000 in cash.

Harding Urges Payment of 32 Million Ship Subsidy Annually.

## PLAN GIVEN CONGRESS

Administration Program Transmitted to Law Makers at Joint Session

—Merchant Marine Cited as Defense Mainstay.

Washington — The administration plan for government aid for the American merchant marine was transmitted to Congress by President Harding, with the declaration that the interests of the United States in world commerce required that the plan be measured by its usefulness to the nation.

Warships Tamage Creation.

The President detailed to the two houses assembled in joint session the main features of his program to encourage an experimental venture as he described it—then he added:

"Having failed at such enormous cost to bring the principal which I am sending you to the public to my mind, I hope to be able to turn it to the advantage of the nation and private enterprise, to give it a chance to succeed."

# People Talked About

U. S. Envoy to the "Central Powers"

President Harding has sent to the senate the nomination of those whom he has chosen to represent the United States in the courts of Germany, Austria and Hungary—the former central powers—with which diplomatic relations were broken before the United States entered the war.

To be envoy extraordinary and plenipotentiary to Germany, Alanson B. Houghton of New York (portrait herewith) will be the first of the appointments. Others are:

To be envoy extraordinary and minister plenipotentiary to Austria—former Judge Theodore Breton of Cleveland.

To be envoy extraordinary and minister plenipotentiary to Hungary—Albert Henry Wanamaker of Massachusetts.

Before the war the dual monarchy of Austria-Hungary had an ambassador at Washington and we have an ambassador to the court of St. James. The American diplomatic establishments at Vienna and Budapest will be in charge of ministers, not ambassadors.

## Woman With the Serpent's Tongue

Well, Mrs. Margaret Asquith, the "woman with the serpent's tongue," and the author of a book of reminiscences of her family, has just set up and taken notice, is here in America lecturing. Incidentally, it's a good guess that she is gathering impressions for a book in this country. To judge by the first few days after her arrival, the American public's response has created quite a ripple. At 5 o'clock in the afternoon her secretary said, with grouch:

"This is toward the end of a performance. We were kept busy answering telegrams until 4 o'clock yesterday night, and were at it again at 7:30 o'clock this morning. Before noon we had visitors from at least 30 photographers, including the leading motion picture men. Then came two more newspaper writers for special interviews. Telegrams have been pouring in from all parts of the country begging her to come down to give lecture and receive municipal honor."

Mrs. Asquith doesn't look anything like so angular as the caricaturists make her. She has a magnetic personality, an air of distinction and remarkable grace and self-possession.

## Capper: New Head of Agricultural Bloc

Senator Arthur Capper of Kansas is probably the leader of the famous agricultural bloc in congress, now that Senator James K. Varnum of Ohio is leaving the senate to be a United States Judge. Incidentally it was Senator Capper who introduced a resolution directing the secretary of commerce to furnish information to us on an investigation of the Knickerbocker theater disaster. The resolution recites that it is currently reported that the accident was caused by a single explosion of gunpowder during and since the World War, was ignored, evaded or treated lightly the rules and regulations provided in the building code of the District of Columbia, that it had been periodically recommended to the contractors and had been determined to save money on the erection of residence and business structures, have acted in collusion with inspection bureaus, and that the District of Columbia has been "misled" by the District of Columbia contractors, builders, and building inspectors.

Imperative duty of the senate of the United States to know all the facts relating to this inexcusable tragedy, and also to learn what, if any, truth there is in the repeated assertions that the safety and health of thousands of citizens and residents of the District of Columbia have been jeopardized by the actions of certain contractors, builders, and building inspectors.

## McCall: Sky Pilot of the Lumberjacks

Here is Rev. Jack McCall, sky pilot of the lumberjacks. The photograph was taken the other day at the headquarters of the Presbyterian board of missions in New York. He was born in 1886, was a cowboy for three years, but thirteen years ago became a religious in one of the sunniest missions in Michigan, established by the famous Mel Trotter. He went to the timber fields of the state, and Rev. Frank E. Lathrop, the original sky pilot of the timber country, who sent him forth among his own kind in the Minnesota woods. For the last four years he has been "stationed" in western Montana in the Missoula Idaho. "Stationed" doesn't mean stationary; he travels on foot from camp to camp, carrying Bibles, song books, and hymnals. His work is this: The book houses serve as his church. Of course, if a poker game is on, he waits until the gold of the game, which may be \$100 or \$200, something at one of my meetings, says the big preacher, "I stop the meeting, sit down to him in lumberjack style, then the meeting goes on."

## "Well Driller and the Luckiest Man"

"I'm a well driller and the luckiest man in America," says Peter Norkov, new senator from South Dakota. "I've never been beaten in contests for the most skillful. There have been lucky in picking the right place to go after the place I wanted. Three times I was a senator, a term as lieutenant governor, a term as governor, then United States senator. No special merit in it, just luck."

Friends like us and modest, but the most skillful women who have kept Norkov in office are the ones who have always been lucky in picking the right place to go after the place I wanted. When it comes time for the South Dakota to send its delegation to the Senate, there will be only one choice, and Norkov will get more votes than the Legislature could ever dream of.

He was born in Dakota Territory, 50 years ago, and has grown up with his mother, a politician. He is married and has four children.

Epilepsy League in the evening  
at 6:45. The regular evening serv-  
ice at 7:30.

Are you a professing Christian?  
Do you believe that we need live  
churches in our community? Do  
you really feel that your church is  
filling the place it ought to fill in  
this community? If it is not why  
is it not doing it? Where do we  
find the blame for the lack lies?

What are you doing—make it  
better? Do you think that there  
is a need of a genuine revival of  
the true Christian faith here? Are  
you praying for it? Are you work-  
ing for it? If not, why not?

As believers of whatever faith  
let us make the time between now  
and Easter Go to Church time.

There will be services at Rock  
Creek Friday evening Ladies Aid  
in the Afternoon. Let everybody  
come.

Presbyterian Church Notes

T. J. Buckton, pastor  
H. H. Hadley of the Water St.  
Mission, once met a boy in the  
street who was ranged and miserable.

He had stolen money from his fa-  
ther, and had run away from home.

He was rampling the bitter waves of  
sin, and was penniless in the great  
city. Mr. Hadley advised him to  
go back to his father, but the boy  
said, "You don't know my father.

He is a hard man; he will never  
forgive me." "Wait," said Mr. Hadley.

Then every evening he would go  
to the father, telling him that his mis-  
son boy was at the Water Street Mis-  
sion, in destitute circumstances  
and that he was sincerely sorry

for his wrong doing. The next  
morning a message flashed along

the wire, saying, "My boy is for-  
given; tell him to come home."

That is Christ's message to the  
wandering ones today. How the  
blessed word "Come" echoes thru

Holy Writ! But human hearts too

seldom hear its music. The mes-  
sage of God is given at both our

services, we invite you to come  
and hear them next Sunday morning at  
11 o'clock and evening at 7:30.

### ANNOUNCEMENT

We would like to have every farmer in the community a stockholder of our organization. We will help you succeed by paying you a higher price for butterfat than anyone else possibly can do. You will help us by taking a keener interest in the affairs of the creamery and giving us all your business and your co-operation. Shares can be bought at \$7.50 per value with a minimum of five and as many more as you wish and have cows. Arrangements have been made with both local banks to finance farmers in buying Creamery stock, by accepting the stock as security on such loans. Shares can be bought from Mr. Striegl at the creamery office at any time.
