Hoot Gibson, star of the "Fire Eater," the Universal special attraction at the Family theatre Friday and Saturday May 5th and 6th, was originally a carnie as an actor could wish. He won the world's championship in the saddle at the Pendleton, Oregon, roundup in 1912. His brother, Fred, brother of the famous cowboy, Harry, has followed the hard riding bunch of cowboys in the west. They proved their worth in 1920 when they carried off the honors of the Christmas rodeo in Los Angeles.

His first training in motion pictures was in the saddle, starring in "The Fire Eater," the Universal special attraction at the Family theatre Friday and Saturday May 5th and 6th.

"Average net savings to the creameries in freight rates, have amounted to more than \$50 cents per hundred pounds shipped every week, under the consolidated marketing plan," said Harry, "and the creameries are saving money by the adoption of the card playing system which resulted in Pine City winning the team," he said.

"The teams were evenly matched, as indicated by the above score. Mr. and Mrs. Gravenor, managers of the creamery, were present to witness the excellent service and dinner served by the hotel, which was a regular banquet, and the long table was prettily decorated with pine cones and evergreen boughs. Pine City the creamery, as they won at Rush City.

The boy, according to his mother and then, according to his statement, was afraid that his father would punish him and fire a shot which killed his father. He then shot himself. The boy weighs about 200 pounds and is but 14 years old.

Pennington, Frank Waggoner, squaw man, and Indian fighter since the days of General Custer, was pardoned from the North Dakota state prison for half a century ago. Waggoner, convicted of stealing 41 bushels of grain, was granted clemency by the pardon board in view of his war record, which also included a term with Col. Roosevelt at San Juan Hill, and his son's sentence of one year was commuted. The old warrior was under bond to build a church and would have sustained a heavy financial loss.

THANKFUL FOR A LITTLE CHILD

Mrs. Mertz Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Kutztown, Pa.—"I wish every woman who wants children would try Lydia E.

Pinkham's Vegetable Compound. I have done so much for me. My baby is all right now, and is the picture of health. She walked and crawled and is trying to use her little tongue. She is a real baby, a real nice baby. I am sending you her picture, and shall be thankful

as long as I live that I had such a wonderful medicine for my troubles," Mrs. CHARLES A. MERTZ, Kutztown, Pa.

"I am thankful and curable. Perhaps yours may be. Why be disgraced when you have given Lydia a trial of Vegetable Compound a faithful trial?"

Spoken and written commendations from women who have found health and happiness in its use have come to us. We only tell you what they say, and what they mean.

We hope that Lydia E. Pinkham's Vegetable Compound is so well adapted to the conditions which might cause you to doubt that good will come to you by its use.

Merit is the foundation of Lydia E. Pinkham's Vegetable Compound. It has behind it a record of nearly fifty years.

He says he has smoked more Edgeworth than any other living man

Let Mr. Baldwin's letter give you the facts, and you will see he has some justification for his claim.

Getsmen:

I think that I am entitled to be called a charter member of the Edgeworth Club. I have been a customer of Edgeworth since 1872.

When I commenced using it was selling hard. I used to buy it in small quantities and kept a general store told me that he had just received a large quantity of it. I would try it. He gave me a box for which he charged me 25 cents. I paid him 50 cents and was salting at that time for \$1.00. I liked it so well that I continued to buy it in every store in the different towns that I made, but few knew about it. I asked the men in the stores if they had ever seen it before. They said no. I asked them if they had ever seen it in the different towns and tried to get them to buy it.

In 1890 or 1907 I went to So. Carolina and stayed there for a week. I was unable to get it there. At that time I was in Beaufort, S. C., and bought a box of Edgeworth, Ga., and Charleston, S. C., and was unable to get it in either of those cities. I ordered some direct from you and also from the distributor in New York.

I have used it always for over twenty years except occasionally when I have been in Europe. I have smoked over 1000 of the 25-cent boxes, which have cost me \$25.00. I have never spent at least 50 cents for a cigar. Have you ever seen a pipe? I have not seen the place of the old pipe filled with Edgeworth.

I am 70 years of age and still think that it is the best cigarette. There is a man here who is a smoker who has smoked more Edgeworth than I have.

Yours truly,

(Signed) H. P. Baldwin

It is always pleasant to hear from old Edgeworth smokers, and we would like to know if this record is the best ever made.

But we are interested, too, in new Edgeworth smokers. We like to know how many men who are breaking in their first pipes, find Edgeworth before they get very far in their pipe-smoking careers.

So please have a standing invitation to write to us for news of Edgeworth to all who ask for them. If you haven't tried Edgeworth, we have a sample package here containing Plug Slice and Ready-Rubbed that is only waiting for your name and address.

When you write for it, address Larus & Brother Company, 60 South Street, Richmond, Va.

To Retail Tobacco Merchants: If your jobber is not friendly with Edgeworth, Larus & Brother Company will gladly send you prepaid by parcel post a one- or two-dozon carton of any size of Edgeworth Plug Slice or Ready-Rubbed for the same price you would pay the jobber.

MCST ARTISTIC RAZZIE

George Stallings is as tough a jester in the International as he was in the National league. He is perhaps the most artistic razzie of players in any league. One of the bright young players players is the third base one day when he had a fair chance to score.

"Well, you sweet scented slob of a world famous lumbie!" he shouted in rage. "There you stand on third when you might have scored. Just stand there a moment longer, you anchored me with that razzie."

Setting his action 'tis words he solemnly got out his camera and snapped the same player standing tight on the bag which Stallings thought he should have quit long before.

"DOTS" MILLER WILL INSTRUCT O'CONNELL

Veteran Will Drill Coast League in Big League Tactics.

Manager John McGraw of New York Giants Was Anxious to Protect His \$75,000 Playing on San Francisco Team.

An interesting story concerns the appointment of Dots Miller as manager of the San Francisco team.

Several National league clubs would not waive on Dots and there had to be a lot of pressure to get waivers.

Is he the Piffs? No. From all reports he is.

It seems that when John McGraw heard that San Francisco wanted Miller as manager he decided to use all his help possible to have the deal con-

cluded.

The sensation of soccer football in Great Britain was the Scottish Falkirk eleven paying \$25,000 to West Ham United for the transfer of Stanley C. Puddefoot, the captain of Millwall, who had only a trifling less for Frank Springford, Portsmouth's goal getter.

The transactions are to the kicking style of football enthusiasts what "Babe" Ruth's new salary is to baseball players and fans.

It is interesting to note that

the great powers of the world are

interested in the game.

The world's swimming record 6

minutes 45.4 seconds for 500 yards

held by Norman Ross, A. A. was towed to England, England.

At the top is J. G. Hartfield, the holder

of several British championships, who covered the distance in 6 minutes

15.2 seconds. Hartfield was timed by

officials of the Amateur Swimming as-

sociation, and the effort was made in

public.

Miller Unlikely Chapp.

"British" Miller, star University of California athlete, is unfortunate when it comes to injuries. He was out during most of the football season and recently he injured his ankle in baseball practice and may be out of action for months.

Exeter Elects Coleman.

James D. S. Coleman of Marion, Ga., right guard of the Marshall team is infielder O'Connell, who cost the Giants \$75,000, and McGraw unani-

mously wants that investment pro-

tected.

In other words, a National league

team is to be of much interest to

O'Connell and other selec-

tion who did not know National

league ways. Therefore, he was eager

to see that Dots could do the post.

Miller should be extremely valua-

ble to the San Francisco club, as a player

as well as a manager.

Blaming the women has been a favorite indoor sport since the days of Adam. If one cannot blame a woman under any other pretext, put the fault upon her for having a son, who does something he shouldn't.

Apparently so reason those doomsday well-intentioned but short-visioned occupants of pulpits who see in the economic and political condition of the country a dependent on an independent state the cause of all the ills to which modern civilization is heir.

A well-known revivalist declares that "the next war" is to be caused by the "hopper." He adds that all wars have been caused by the "depravity of women."

A noted woman worker in social hygiene advocates more women in the armed forces as a cure for vice and the activities of vicious women.

A national legislator wants marriage laws so amended that from ten days to two weeks must elapse between issuance of license and marriage, as a cure for divorce. The divorced women being one of the greatest causes of divorce.

It would be a dull world if we all thought alike. Yet one is reminded that a fundamental of the government is that each man is free to believe what he chooses.

The right to tolerate, even as we hold inalienable rights to our own opinions.

No good American has any objection to anyone thinking that fappers cause wars, that women are evil creatures, that hasty marriages undermine the American home, or that vice and crime can't be stopped by laws. But there is a great objection of evangelists, educators and legislators stating as facts which they wish you to believe, that the subjects are "John Huss, the man who put his conscience above his life."

T. J. Buckton, pastor.

There were fifteen regiments of Smiths in the United States Overseas army. We need the "smiths" Blacksmiths, tinsmiths, coppermiths, locksmiths etc. to mend and make things for us to mend and comfort. The name of one church is not Smith but our business is to make and mend "Hoods." Child hoods, Birdhood, Airhood, Woman hoods, and Men's hoods. You know all kinds of hoods that need mending and making bring them to the church. We have our regular services every Sunday morning at eleven o'clock and evening at seven o'clock the subject is "John Huss, the man who put his conscience above his life."

Methodist Church Notes
James A. Orrock, pastor

Commencing Sunday, the evening services will be held half hour later during the remainder of the summer. The Epworth League will begin at 7:15 and the evening service at 8:00. The morning services will be held at the usual time.

At Rock Creek the Sunday school will start promptly at 2:00 and will be followed with a preaching service at 2:30. You will come for both services.

Country Engineer Jorgenson, Carl Freeman and Bob Woehrle took a couple of the county trucks and road equipment to Willow River, last Tuesday, where road work will soon commence. The first day the new tractor purchased by the county will arrive at Willow River this week, and will be tried out there. Carl Freeman will probably be in charge of the tractor this summer and will be assisted by Paul A. Petersen, R. E. Carlson and Tom Walser, entertained at a progressive "roast" at the home of the former, last Saturday afternoon. Thirty-six ladies were present. Mrs. Phil Slosson won the prize for the highest bid, and Mrs. George Stumpf for the low score. Dainty refreshments were served, following the card playing, pretty favors being used in the decorations.

The infant daughter of Mr. and Mrs. Elton Cleaver was christened at the First United Methodist church last Sunday morning, receiving the name of "Anna Christine." Mr. and Mrs. Nels Hillmann were the godparents. The little lady was keenly interested in the ceremony and lent her voice to the choir during the singing when she joined in with considerable volume, and bids fair to take after her father as a singer.

Fire alarm was started, last Monday evening, when the shrill sound of the fire whistle brought everyone from their homes with a rush. The fire was re-reported in the Ford garage and the fire truck made record time in getting to the scene, where the fire had been extinguished before it could get started. The blaze causing the alarm started around the motor of a truck standing in front of the garage, caused by a short circuit in the wiring. No damage was done.

Jos. Petesch left for St. Paul, last Tuesday. He was accompanied by Mr. and Mrs. Milo Wolf, who went down to get a new Overland car. They were unable to return with one as the branch factory at St. Paul was out of the Overland model. They then tried to get one from some of the other dealers in this part of the state, but they were all sold out. There has been a big demand for these popular priced cars in Minnesota this spring.

Dave McLaughlin and Bill Collier, who gained quite a reputation during last fall, are impatiently awaiting the full opening of the fishing season next week, when they have promised to catch enough fish to feed their many friends during the summer. That Bill is a good fisherman, and I say that he is a duck hunter, not an angler. The open season for fish stories is about due, but no fish story will compare with this one, that these famous duck hunters will worry the poor little birds.

Miss Elizabeth Roberts, daughter of Mr. and Mrs. S. G. L. Roberts, will graduate from the University of Minnesota on May 16. Miss Roberts has made a wonderful record while at the university. In addition to her studies, she has written and re-written a number of poems and has had her picture in the university magazine.

"THEY SAID I HAD T. B. AND WOULD NOT LIVE THREE MONTHS!"

Mr. Harold W. Schmidt, Box 98, Breezes, Clinton City, Ill., believes he has reason to praise Dr. Bartholomew Remedy for Cataract conditions.

"I used Bayer's eight months for Chronic Rheumatism. I had a 100 pound stone, an 80 pound over-horned weight and a 60 pound stone. I had to have a doctor treat a severe cold with aspirin and took to bed for three months. After taking a couple bottles of Bayer's I was up and about again. I could walk around and in seven months would have been well again. Now, I work. In fact ten years, extending down into the bronchial tubes."

"I've never had a doctor like Dr. Bartholomew Remedy."

"Crisman Guich isn't improving as fast as I thought it would."

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one impression that has become very general, that everyone has reason to fear the kidney trouble. The mild and healing influence of Dr. Kilmer's Swamp Root is soon realized. It is the most popular and reliable product of success.

An examining physician is one of the prominent life insurance companies who are the subject, made the assumption that one reason why so many applicants for insurance are turned down is because the trouble is so common to the American people, and the large majority of those who have the trouble do not even suspect that they have the disease.

Dr. Kilmer's Swamp Root is on sale at all drugstores in two sizes, medium and large. However, if you wish to test this great preparation, send a small sample to Dr. Kilmer, 100 Broadway, N. Y., for a sample bottle. When writing be sure and mention this paper.

Adventures in "City of Peace."

A former city on the site of Jerusalem was called Salem. An Assyrian inscription has been found calling the place Urussum which meant "city of peace."

AUTO HITS TEAM

Laurel April 18—Used to see a team driven by Lester Biscoe, 1203 Myrtle city, a second time in a year, last, a large touring car driven by an heavy man, the driver of the team seriously injured the driver and killed one of the mules. The accident occurred on Main street.

A crowd quickly gathered and one of the bystanders was heard to remark, "I am sorry for not preventing himself against such an accident. He said that he knew of a person who had been killed in a similar accident but not the purpose here to point out merely that the lands of Western Canada would prove a splendid and ready solution, but to emphasize the fact that in order to overcome your present difficulties, remove some of the burden that you are harboring under, you must secure some line of cheaper operation, whether by moving to other parts in your own country where such opportunity may offer, or take advantage of that which Western Canada affords."

For information regarding these advantages apply to any Canadian government agent.—Advertisement.

He had made several vain attempts to swallow the mixture, but, somehow or other, he could not get it down. When at last he did manage to catch the waitress eye he called to her and said:

"There's something funny about this coffee. It tastes like coke."

The waitress slipped it, made a wry face and sipped it again, to her surprise.

"I'm sorry," she said. "I've given you tea, not Coke."

The judge looked stern.

"On your oath," he said, "on a plate."

Literally-minded witness.

The witness was carryed cross-examined in court for the prosecution when the judge interruted.

"You say that you dined at the Hotel Metro. What was the name of the person turned to reply?

"Beefsteak, my lord," he said.

The judge looked stern.

"On your oath," he said, "on a plate."

INTERNATIONAL COMMITTEE CONSIDERS INSECT PESTS

Entomologists Present Topics of Various Interest to Gathering Held At Minot, D. C., Recently.

A. G. Ruggles, state entomologist, represented Minnesota in a meeting of the Northwestern International Committee on insect pests, which was held recently at Minot, N. D. Three western states and three western provinces—Minnesota, North Dakota and Montana, and Alberta, Saskatchewan and Manitoba—were represented at this meeting. Norman Criddle of Iowa, widely known as an expert in field crop pest control work, presided over the conference. W. R. Chapman, director of the Bureau of Entomology from the bureau's office at Washington, and Stewart Lockwood, federal agent in the northwest, took part in the deliberations.

Special attention was given to consideration of the pale western cutworm, which is the most serious sawfly, and the grasshopper situation in the north-west. The entomologists of the six divisions are trying to standardize the methods of reporting the number of certain of these pests. The pale western cutworm has caused tremendous losses to field grain and other crops in semi-arid districts, particularly in Montana and Alberta. This worm has been traveling east, having
