

## NATION WIDE PEACE IS NEAR

Parties on Both Sides Back  
Harding Plan to Resume  
Work, Then Settle.

Washington—National Industrial Peace is close at hand, many believe. Parties to both disputes agreed with President Harding on the main point—work to be resumed at once, upon the old terms, pending final settlement.

Warren S. Stone, spokesman for rail shop workers in the present dispute, accepted this premise. John L. Lewis, miners' chief and S. W. Warner, speaking for the anthracite workers, also agreed to it.

The seniority dispute was in other cases and apparently unsettled, though it will not stand in the way of peace.

The house probably will act next week on the president's request for a federal coal commission to make a complete investigation of the mining industry in the hope that a solution for preventing the frequent striking coal strikes may be found. The commission would be empowered to uncover the profits of the coal operators—a constant cause of dispute in the coal fields.

The senate foreign relations committee will meet to consider the executive's request for legislation giving the federal courts power to protect the treaty rights of alien on that the government could step in and punish those responsible for such outbreaks of violence as the Berlin massacre. But the president's plan to prevent the coal profiteering through the creation of a federal agency which would purchase large supplies of coal and distribute it at fair prices to the states continues to face strong opposition.

## TARIFF BILL PASSES SENATE

Message Will Be Returned To The House For a Conference.

Washington—After four months of debate the senate has passed the Mc-Cumber tariff bill, designed to yield an annual revenue of \$400,000,000. This is \$50,000,000 greater than the customs duties ever produced. The vote on passage of the bill was 48 to 15. Senator W. E. Borah, who has been the chief republican voice in the negative.

Among republicans who voted for the bill were Senators Irvine, Lusk, of Wisconsin and W. W. Borah, of Washington, who served notice that they may vote against the conference report, unless major changes in duties are made.

Mr. Fordney predicted the conference will complete their work by a month and that the bill will be on the senate floor before the election. There are many who doubt this, but believe final enactment will be delayed until November or December.

The duties in the bill are higher in many instances than in the house bill. Particularly is this true in the case of duties on automobiles, which, boosted by the senate considerably above the Payne-Randolph level, the standard followed by the house committee.

## THREE DROWN IN LAKE

Cries for Help Prompt Unsuccessful Attempt at Rescue.

Excelsior—Three persons were drowned when an attempt was made to guide a boat loaded with lumber carrying the three victims, across a bay on Lake Minnesota.

The load of rock and lumber on the boat went down like a shot, carrying the passengers to the bottom.

The three persons were: Leo L. Wimmer, license agent, St. Paul; Robert H. Smith, Jr., St. Paul; and Miss Mary E. Smith, St. Paul. The boat was owned by Mr. Wimmer.

## OPERATORS RAISE PRICES

House Demands Fair Coal Prices of Coal Traders.

Washington—Industrious action for the proper protection of the public interest in the case of coal prices in this was taken of Governor H. L. Davis by Secretary Hoover.

"An informant," Mr. Hoover said, "has told me that some coal operators in the Cleveland region are making a fortune from \$7 to \$10 a ton and the public suffers of Ohio coal selling at prices as high as \$15 a ton."

The coal production agency cannot be created by Congress, but will take the form of the United States steel corporation.

Girl Saves Friend.  
Perrinville, Minn.—A 16-year-old girl saved her friend from drowning in a creek by a log from the ground.

Dr. John J. Kilham Assisted.  
Mouth, Minn.—Dr. John J. Kilham assisted in the birth of a child, a boy, to a woman who was in labor.

## Pine County Fair Opens Today

The Pine County Fair opened today with the biggest line of exhibitors in all departments shown here in years. Everything will be filled to capacity and if the weather holds, and good one of them, some wonderful fair of the association will be held.

A fine program for in front of the grandstand has been arranged which will last until 10 o'clock.

Henrik Shipstad, nominee on the Farmer-Labor ticket for U. S. Senator will speak on Friday at 1:30 p. m. Congressman Schall who was to have spoken at one 1:30 on Saturday was called to Washington and will not be present. J. Adam Bode will speak in place and will talk of the Great Lakes-St. Lawrence proposed waterway.

The program for the three days as follows:

## Local Celebrities

Rev. Orrock is Dead

The community was shocked Monday to learn of the death of Rev. Orrock, which occurred at Thief Lake Falls, last Sunday evening at 4 o'clock. His condition was much better last week and it was expected that he would recover.

Rev. Orrock was born in the parish of St. Joseph's church at Beroun in the morning at 9:30 and there will be a sermon in Bohemian and German during mass. It will be followed by a luncheon at 1:30.

## Bad Brush Fire

East of Beroun

A bad brush and grass fire, just east of Beroun, consumed the farm in the neighborhood, last Saturday and Sunday, and but for the strenuous work of the fire fighters, would have done considerable damage. A fire broke out in a field of hay on the farm of J. Adam Bode, who lives on the farm. The fire started in the swamp, about two miles east of Beroun and a strong wind from the northeast drove it directly into the farm. About 4 o'clock Saturday afternoon the smoke was so thick it hung like a cloud over the state road between Pine City and Beroun.

There was grave danger of the fire destroying the buildings on the farm, but it was checked before it got to the buildings. The fire was contained by the fire fighters, who worked in a hall of smoke moving hay stacks to a safe zone, that were in the path of the flames.

When it looked like the buildings were in danger, a call was sent in to the Pine City fire department and they responded with the chemical truck, making a fast run to the farm. It was not necessary to use these chemicals, but the department remained until the danger was past.

Sunday morning the flames broke out with renewed vigor, and the state highway department ordered out a crew of men. They loaded the big highway trucks with men and filled with water at Pine City and went up to fight the fire. The crew was in charge of Frank Hanson of Rush City.

At one time Saturday, it looked like the fire might reach Beroun, but the wind swung round, and carried the flames east of town. It was a thrilling sight to watch the flames leap up, but one that made the cold chills run up and down your back when you realized the danger and the destruction that was due to come if the flames gained the farm.

The smoke rolled over the ground in a thick cloud, that hid the flames at times, and then they would burst through. The smoke was a continual panorama, changing in color, sometimes a dense black, and at times a light gray. It was a wonderful picture, but one that we much prefer to see on canvas.

About 100 cars were burned out on the road, Jim Kuzel and Kuzel's farm. The fire was contained by the fire fighters, who worked in a hall of smoke moving hay stacks to a safe zone, that were in the path of the flames.

### Pertinent Pointers for Practical Farmers

Prepared by the Agricultural Department, University of Minnesota

#### HORSE BREEDERS ADD TO RESOURCES OF STATE

Cattle and Horse Shows of Great Revenue to Commonwealth.

Minnesota's horse breeders add a total of \$55,027.77 to the resources of the state, according to the 1920 census. Her best cattle industry contributes \$12,364.78. The breeders of her stock of sheep contribute \$12,743.25.

This \$121,345.00 industry now has the services of A. A. Dowell, an experienced livestock man, who recently joined the staff of the agricultural extension division at University Farm as livestock specialist in best cattle, horses and sheep to aid farmers of the state in their livestock problems. As a student in the animal husbandry division at the Iowa state agricultural college at Ames, his excellent work merited an appointment as instructor in the department following graduation in 1915. For the last five years he has been chief of the animal husbandry department at the Alberta agricultural college at Edmonton, Alberta.

Under a cooperative plan initiated by Mr. Dowell in which Canadian beef breeders donated calves to be fattened and shorn for show by the college, 26 animals were secured and suc-

#### SIRUP CAN BE MADE FROM SWEET CORN STALKS

May Be Additional Source of Revenue for Farmer.

In a newly equipped special laboratory erected in connection with a commercial cannery at Wells, Minnesota, detailed investigation of the sweet corn stalk as a source of table sirup of high quality and value has been undertaken by Dr. J. L. Williams, assistant professor of agricultural chemistry at University Farm at St. Paul, assisted by F. L. Davidson and George O. Barr, expert chemists who will be regularly stationed at the model plant until the cannery season is over.

Last season 300 gallons of "open pan" sirup of good quality somewhat resembling sorghum in flavor, were successfully made. Production of a table sirup of a higher quality will be attempted this season. For this purpose over \$1500 for new appliances, including installation of a 1200-gallon vacuum pan, has been spent. Cooking of the extracted juices at high temperatures under reduced pressure is expected to result in a sirup of excellent table quality and mild flavor.

According to Dr. R. A. Gortner, chief of the division, sweet corn sirup as a profitable byproduct of commercial cannery is a possibility that is not far from realization. No great additional outlay for equipment will be required, he declares, and considerable use of the apparatus can be made after the regular cannery season in the manufacture of sorghum sirup.

#### Disabled Veterans Trained.

Nearly 400 disabled veterans of the world war were trained by the School of Agriculture at University Farm under contract with the Veterans Bureau during the last school year, declared Dr. E. W. Johnson, principal of the school. Spending six months in school, each trainee, following the policy established by Mr. Mayne in cooperation with the Veterans Bureau, will be placed upon land owned by him or on some livestock to be moved to land fully realized by him in order that the independent effort may be fully realized.

The results have been far better than anticipated, said Mr. Mayne. More than 300 students have acquired kind of their own through the direction and encouragement of the school and are now establishing homes for themselves and their families. Some of the veterans have formed cooperative groups for the purpose of buying land and have been very successful, not only in the selection and purchase of land, but in cooperating in clearing and building operations.

#### Honey Resources \$20,000,000.

Natural resources of honey for the state of Minnesota are estimated at \$20,000,000 annually by Prof. Francis Jager, chief of the division of bee culture at University Farm at Northern. Honey is the highest priced honey in the United States. Honey is a delicacy always in demand.

Yet only one-twelfth of the nectar produced by nature is now actually gathered and stored by the bees. And the bee is the only means known of collecting flower nectar. There are, therefore, large profits awaiting those who learn beekeeping.

The chief sources of honey are sweet clover, wild clover, alfalfa, alfalfa, basswood, fireweed, goldenrod, and aster. Honey plants are found in every part of the state though the yields vary from 50 to 200 pounds per acre according to soil, honey producing plants, and number of bees.

#### Army Worm is Caterpillar.

Severe damage to rice and timothy, especially that grown for seed, was caused by Clarence Michel, extension entomologist for the University, who has been caused by the wheat head army worm. This pest is a caterpillar which feeds on profits of grasses and grains, completely destroying them.

New control methods can check the worm when once at work. Broad-casting poisoned bran mash has been used in serious cases. Early fall plowing followed by clean cultivation to keep the soil pulverized and weeds down has been found useful.

A survey made in Ohio shows that damage to the first cutting of timothy is twice as many plants as do city destroyers. The rural field is so attractive for medicinal purposes as the city. Maybe the automobile brings the city doctor to the country.

Keep feeding the bees or they'll stop growing. Keep feeding the poultry or they'll stop growing.

## ROCK CREEK NEWS DE'T

Mr. and Mrs. K. Nelson of Minneapolis spent Sunday at the John Erickson home.

Mr. and Mrs. Herb Baker visited at the home of his parents in Bram last Sunday.

Mrs. Wm. Olson and brothers, George and Art Dahlstrom went to the cities on Tuesday.

Mrs. Anderson arrived Sunday for a visit at the home of her sister, Mrs. Herb Baker.

Mrs. John Erickson returned home last Wednesday from Minneapolis where she spent a few days visiting.

Mr. Dahl, son of John Dahl, living east of town, arrived here last week for a visit at the homes of relatives and friends.

Nathan Greenman arrived from Duluth the first of the week for a couple of weeks visit at the home of his father, Barney Greenman.

Herman Drier and family returned to their home in Hubbard, Iowa, last Wednesday after a few days spent at the J. C. Smith home.

Miss Della Erickson returned to Minneapolis Sunday after a two-week visit at the home of her parents, Mr. and Mrs. A. P. Erickson.

A baby girl was born to Mr. and Mrs. George Tate on Tuesday afternoon of this week. A hearty welcome is extended the new arrival.

Geo. Martinson returned from Minneapolis Sunday where he has been receiving medical treatment the last ten days. He is much improved in health.

Mrs. Paul Winberg arrived from International Falls, Monday morning for a visit at the home of her parents, Mr. and Mrs. Alex Tate, living west of town.

The ladies aid of the Rock Creek M. E. church will meet at the home of Mrs. Hinds, on Friday Sept. 1st. Mrs. Bettinger and Mrs. Hinds will act as hostesses.

Rev. and Mrs. Louis Johnson of West Rock, left Monday for Escanaba, Mich., where they will attend a convention in session at that place the latter part of this week.

Mrs. O. Magnusson and daughter, Mrs. Peter Westman, returned last Friday from Minneapolis where they spent several days receiving medical treatment at the Olson hospital.

Mr. and Mrs. Otto Schmidt, Dr. R. Wilcox and wife and Esral Esral of Pine City drove to Minneapolis on Monday. Otto drove back a new Ford car for Mrs. Michael.

Mr. and Mrs. George Schmidt and Mrs. Paul and Harry and Mrs. Wm. Hauser and son, William, drove to Duluth last Saturday and took in a view of Lake Superior and the Zenith city.

The Royal Neighbors met in their regular meeting in the hall on Wednesday evening of this week.

Plans for the coming school of instruction to be held at this place were discussed.

The John Ericksons, L. B. Beck, Jagers, Herb, Bakers, the Brandt and Johnson families enjoyed a picnic picnic at Chalen's point on Rush Lake, last Friday evening. All report a fine time.

Frank Stevens left Wednesday for St. Peter, where he will attend the county fair at that place. He has his race horses in fine shape and expects to make a good showing on the track this season.

Jess and Ray Mills came home the latter part of last week for a visit at the home of their parents, Mr. and Mrs. Harry Mills. Mr. Ray returned to the cities Sunday while Jess will make a longer visit.

Fred Hartz and children and Mrs. O. D. Dahl drove to the cities last Sunday where they visited Mrs. Harts who is receiving medical attention there. They report Mrs. Hartz getting along in fine shape.

Silo filling was started in this community was started last Monday when Mrs. Gertie Johnson had her silo filled. The recent dry weather has hit the corn hard and farmers are filling their silos now before the corn dries anyone that what it has already.

Mrs. Wm. Hauser left for her home at Keystone, Iowa, after a ten-day visit at the home of her sister, Mrs. George Schmidt. Her son, William, who accompanied her, will remain for a longer visit.

Two new Fordover tractors were brought into this community last week when Wm. Duran and George Schmidt each purchased one. The tractor is coming more into use on the farm and it won't be long before more will be making their ap-

pearances on the farms in this section.

The sad news of the death of Rev. Orrock of Pine City, at a hospital in Thief River Falls was received here on Monday of this week. Rev. Orrock was of well known here having had charge of the local church while he was at Pine City. Death was caused from poisoning.

Helmer Magnusson returned home from Cloquet, last Saturday where he has been employed in the paper mill at that place. He met a misfortune last week, when two of his fingers on his left hand were caught in the machinery and crushed. As soon as he is able he will return to his work at Cloquet.

A good many people of this community have taken exhibits to the county fair held in Pine City on Thursday Friday and Saturday of this week. A fine program of races, free acts and ball games have been arranged and many from here are planning on attending. Business places will be closed on Friday afternoon.

Mr. and Mrs. Andrew Johnson, little son, Clinton and Mrs. Frank Johnson, left early Saturday morning for a trip across country. They visited with Mr. and Mrs. Art Hamlen of Alameda, Wis., returning home Monday evening. They visited at Taylors Falls to admire the scenery.

J. C. Smith and A. W. Barringer drove to Meadow Lake and near Virginia last Wednesday, in quest of blueberries. Due to the forest fires in that section they only got about sixteen quarts of the berries.

While there they attended a big community picnic at Pike Lake, only one thing marred the picnic, Joe's estimation and that was that he missed out in the old men race.

From his performance at the recent Creamery picnic held here we have no doubts as to his speed and know he can make them all stop in his class.

Gust Erickson, Walt Barstow, John Herman and Roger Pearson attended the ball game at Bramham last Sunday. Bramham was victorious over Graston by a score of 3 to 0 in a well played game. Gust is the champion baseball enthusiast around here with Walt a close second.

We don't know what they will do when the season closes but information from reliable sources leads us to believe that a "Cracker-Box League" will be organized for the winter when all games seen this summer will be brought up for discussion and criticism. In the meantime, as long as the baseball season lasts, Gust wears a happy smile.

#### AXEL DAHLSTROM

Funeral services for Axel Dahlstrom of this place were held from the Pine Grove church, on Sunday August 20th. Rev. Samuelson of Rush City officiating. Interment was made in the Pine Grove cemetery.

Axel Dahlstrom, son of Mr. and Mrs. Andrew Dahlstrom was born in Duluth 29 years, 3 months and 26 days ago. They moved from Duluth to Pine City about 20 years ago and shortly after moved onto a farm east of Rock Creek.

He received his early education in the local schools and was a favorite among his fellow classmates. His mother preceded him in death, having died about four years ago.

Axel entered the service of the U. S. Army during the recent world war and while in the service contracted tuberculosis which finally overcame his strength at the Thomas hospital at Minneapolis last Thursday evening, August 17th, at 7:30 p.m. Six former comrades of the Leon Heath Post of the American Legion at Pine City, acted as pall bearers. They were: Ado Kaizer, Harry Mills, Elton Claver, Dick Gray, Wm. Korbel and Ler Richards. The color squad and guard of the post were present to pay their last respect to their stricken comrade.

He is survived by his father, Andrew Dahlstrom, his sister, Mrs. William Olson and two brothers, Arthur and George, all of whom were present at the funeral.

Axel was a favorite among the younger people of this community during his residence here and his many friends will mourn his loss. The sympathy of the entire community is extended to the bereaved family.

Card of Thanks

We wish to extend our sincere thanks and appreciation to the many kind friends and neighbors for assistance and sympathies at the death of our beloved son and brother. Special thanks is extended to all who gave floral offerings and to the Leon Heath Post of the American Legion at Pine City.

centally fattened and exhibited last year. At the 1922 Chicago International livestock exhibition first, fourth and sixth places in the single steer class, open to all agricultural colleges and universities, were won by the Alberta, Minnesota and Iowa.

Alberta, Minnesota and Iowa. Mr. Dowell's direction in the special steer herd class open to colleges and universities, the Alberta pen of Herefords won second. Canadian breeders are very well pleased with the plan.

Following the 1922 International, Mr. Dowell was sent on a special mission to the British Isles by the Alberta government, to exhibit sheep and show sheep raised on the plan, and to purchase sheep for the Alberta agricultural college. While in Great Britain he made an extensive tour of the leading livestock farms of England and Scotland, visited their important livestock markets, and spent considerable time in each of the districts famous in livestock history as "hotbeds" of "improvement."

He also was a spectator at the British and Scotch livestock exhibitions, including the well known Highland Fair at Scotland.

L. V. WILSON IS SUPT.

L. V. Wilson, dairy specialist with the agricultural extension division at University Farm, will be the official superintendent of cattle at the National Dairy show to be held at the State Fair grounds, St. Paul, Oct. 7 to 14.

Mr. Wilson was assistant superintendent of cattle at the 1921 National Dairy show. He has been assistant superintendent of dairy cattle at the Minnesota State Fair for the last two years and will serve again in that capacity at the coming exposition.

Last year he judged General Series and Apples at the Minnesota Fair and Guernsey at the Iowa state exposition. On July 3 he acted as official judge of all breeds at the St. Louisville, Mo. State Fair where he will place Guernsey and Brown Swiss at the level fair on Aug. 29 and 31. He has been seen at the Minnesota State Guernsey Showdown exhibition for the last three years, and has managed their management since every year as well. He is regarded as one of the best dairy cattle judges in the northwest.

### Theatre Notes

Friday—A Rex Ingram Production "Turn to the Right", 3 big vaudeville acts.

Saturday—Go to Movie week. "The Call from the Wild", "Say Uncle" comedy and Movie chat. 3 big vaudeville acts.

Sunday—Norma Talmadge in "Smiling Through". Let's go Smiling Thru 1922 & 23. A solo "Smilin' Thru" will be sung by Miss Geneva Therrien.

8 reels of storm and sunshine come smilin' through the gates of gladness—to find the drama of mating loves.

The tragic romance of Moonshine of a generation ago.

The dream of happiness of Kathleen of today.

You'll revel in every moment of a greater drama than the screen has ever given you before.

Also a Fox News. No advance in prices.

Tuesday—Tom Moore in "Hold Your Horses". A comedy drama that will please. The last episode of "With Silence in Africa".

Thursday—Metro presents "Polly With a Past".

There are two ways to see Emma Claire. The first to buy a ticket to New York, where she is playing on the stage. A lot of have done that. The second is to come to this theatre. . . . and see her on the screen.

"Polly With a Past" her most pronounced Belasco stage hit. A lot of people are going to see it.

In case of doubt, please delay your start for New York long enough to permit of your seeing the picture anyway. It's the story of a girl who became an adventures overnight, but who balked at living up—to down—to her reputation.

That is, she did at first. As for what happened later—well, we won't give Polly away.

Friday and Saturday, Sept. 1 & 2—William S. Hart in "O'Malley of the Mounted". Well, he is in a tale of the law of the Great Northwest and the red-coated riders who guard its wild frontiers.

CATHOLIC CHURCH NEWS  
Father Leo, pastor

Services at Pine City next Sunday morning at 10:30. Catechism at 8:30.

Services at Beroun at 9 o'clock. Catechism following services.

LUTHERAN CHURCH NEWS  
Paul Heinke, Pastor

German services next Sunday at 10:30 a.m. Text: Luke 18, 9-14. Sunday school at 9:30 a.m.

Beginning Saturday September 2. Confirmation instruction will continue every Saturday following.

PRESBYTERIAN CHURCH NEWS  
T. J. Buckton, pastor

A Memorial service will be held in the Methodist church next Sunday morning at eleven o'clock. This is a union service—there being no services in the Presbyterian church.

Members of both churches are asked to be present. The Minister Superintendent of the Methodist church will conduct the service and Rev. T. Buckton will take part.

KELOGG REVIEWS FARM LEGISLATION

Cites What Has Been Done and What Should Be Done.

Wolcott Grove, Minn.—Senator Frank H. Kellogg told a meeting of 1,000 farmers at this place what the present administration had done for agriculture since March 4, 1921, and outlined what plans were being considered for farming interests in the future.

Farming the Basis Industry. "All history," said the speaker, "shows that a nation founded upon an intelligent, independent and prosperous farming community where the people are proprietors of the soil, secure in their rights and with hope of progress, is a nation rising to the tide of civilization. The farmers are the basis industry. He takes the greatest risks, and today I believe his returns are the smallest, though his service to the world is secure."

List of Achievements. Reviewing the legislation and executive action of the present Congress in aid of the farmer, Senator Kellogg enumerated the following:

The emergency tariff law for the benefit of agriculture, which placed a tariff duty on farm products.

The law extending the powers of the War Finance Corporation so as to relieve the credit needs of the farmers and provide a foreign market for their products.

Low advertising rates on farm products.

Min. Farmers Got \$25,000,000. A year and a half ago the Federal Farm Loan Banks were practically at a standstill. Congress appropriated \$25,000,000 for their use and now he said these banks are now loaning to their fullest capacity. In Minnesota alone since the banks resumed business in June 1921, \$7,774,700 has been loaned, and \$3,597,700 by the Joint Stock Bank.

The bill which I introduced," he said, "and which became a law, extended the life of the Finance Corporation for one year, and provides that in order to create a market for farm products and to carry such products until they are sold the corporation is authorized to make loans. The corporation has a capital of \$500,000,000, and is authorized to borrow a billion dollars more. The total loans up to the first of July in Minnesota amounted to \$11,912,780."

Farm Bureau's Work Lauded. "One of the most important bills passed by the last Congress in aid of the farmer," he said, "was the cooperative marketing bill. I had the honor of having charge of this bill before the Senate. In this and in other work for the farmer, Senator Kellogg cooperated with the various farm bureaus and organizations, and he spoke in terms of the highest praise regarding their efficiency and fairness. Farmers' Emergency Tariff Act. The Senator stated that a year and a half ago practically all farm products were on the free list, and pointed out that when at the close of the war the demands of the allies for food ceased, Canada, Cuba and Argentina dumped their products upon our unprotected markets. The emergency tariff stopped the flood of foreign farm products and prevented the prices of farm products falling to a still lower level.

Controlling Cattle and Grain Markets. He referred to the fact that he had supported legislation for the control of the packing industry and the statute which forbids the trading in futures in the grain markets. These regulatory laws were a part of the farm blue program.

Saved \$7,000,000 Minnesota Road Fund. When the first appropriation for road building was made by the government, Minnesota's constitution would not permit the acceptance of money from the federal government for "improvements." A law fathered by Senator Kellogg, held Minnesota's share of this money in the federal treasury until our constitution had been amended, and thus saved for our taxpayers over \$7,000,000.

Lower Freight Rates. "One of the vital needs of the farmer is cheaper transportation. Railroad rates are too high."

"I therefore favor the development of the great Lakes to ocean canal for water transportation is the cheapest after all. Thirty-four miles of canal will bring the ocean to Duluth and add millions of dollars to our farm products every year."

"One thing must be understood—that the law is above every man and that every individual must be protected in his right to labor and to enjoy the fruits of his industry."

all the Federal Farm Loan banks to sell bonds at 85 per cent without any increase in the rate of interest to the farmer.

Co-operative marketing bill, authorizing the farmers to organize co-operative marketing associations.

The packer control law, the law regulating future trading in grain.

Bill authorizing the president to appoint a representative of agriculture on the Federal Reserve board.

Federal aid in the construction of highways, from which Minnesota has been benefited to the extent of many millions of dollars, thus relieving rural taxpayers of a considerable burden.

The Senator stated that he had introduced many of the bills which Congress had adopted for the benefit of farmers and that he had supported and voted for the entire agricultural program.

Min. Farmers Got \$25,000,000. A year and a half ago the Federal Farm Loan Banks were practically at a standstill. Congress appropriated

The Masterpiece of Love Eternal, Youth Supreme

Norma Talmadge

in

"Smilin' Through"

PROUD—Yes, proud we are to present the consummating dramatic achievement of the truest of all screen artists—Norma Talmadge.

The world hails her as the first to reach perfection in her art; acclaims "Smilin' Through" as the wonderful symbol of that ascension

Elusive, tender, dynamic, overwhelming, her drama knows no bounds but those of the human heartstrings.

One artist only could bring 'Smilin' Through' majestically to the screen. You'll love her in it

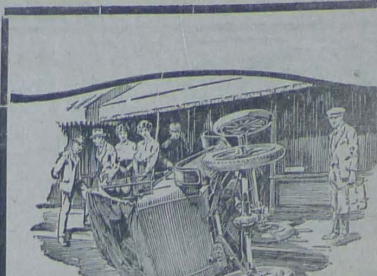

8 REELS OF STORM AND SUNSHINE

Solo—"Smilin' Through"—By Miss Geneva Therrien

Matinee, Sunday, 2:30 o'clock—5c and 10c and war tax

Night—10c and 30c " " "

No Advance in Prices

If it were your car?

Who could assume your responsibility and pay—

For the inevitable damages in the event some one was injured or killed?

For the damage done to the property of others? For the cost of repairs to the car?

For the legal expense in defending suits? In short, who would make repairs?

Insured in the OCEAN, the Company would step in, assume your responsibility and tactfully make repairs.

A consultation incurs no obligation.

## International Spreader

Run Your Eyes Over These Best-yet Features:

1. Roller Bearings. Roller bearings at seven points—the only spreader so equipped.
2. Double Ratchet Drive. Walking-beam transmission from main shaft to rollers and gears of the spreader. No extra high backs. No pounding and jerking. Due to extra-long movement of rollers on ratchet wheel—only two power impulses on ratchet for every revolution of main drive wheels. Box tapered to eliminate friction on box sides. Six feed rollers.
3. Oscillating Front Axle. Auto-type, permitting short turn. No pole whipping. No strain on frame.
4. Power Both Wheels. Power is transmitted direct from main shaft to rollers, wide-spaced spiral and main conveyor—not through rollers to conveyor or vice versa.
5. Wheels Tread. Rear wheels track with the front wheels, lightening duty.
6. Tight Bottoms. There is no clamping, jamming open, because the spreader has a tight bottom. Retains all liquid material.
7. Two Features. Two all-steel beaters with chisel-pointed square teeth work from both top and bottom of the load. Allow extra high backs.
8. Wide Spread. The spiral behind the beaters gives the material a third beating and spreads it evenly and uniformly beyond the wheels.
9. All-Steel Main Frame. Does not check, rot or warp. Wood box sides hold only the load. Frame holds beating mechanism independently of box. Keeps alignment perfect.

The New International—made in two sizes—is unquestionably the last spreader value on the market today, and when you consider its reputation with its price, it is so far ahead of all others that there is really no comparison.

We have a sample spreader set up for your inspection. Come in and look it over.
