

# THE PINE POKER.

Vol. XXV

PINE CITY, MINN., SEPTEMBER 2, 1922

## PRES. HARDING VETOES TARIFF

First G. O. P. Act in Ten Years  
Expected to Yield 400 Millions.

Washington—Final legislative action on the tariff of 1922 was taken with the adoption of a conference report by President Harding and will become effective the day after he signs it. Under law he has 10 days in which to attach his signature.

The Senate vote was 42 to 28 and came early in the session. Two months and thirteen days after work was started on what will be the first Republican protective tariff law in nearly 10 years.

Free Republicans voted against the conference report and two Democrats supported it. Three Republicans, Cannon, Cummins and Lenroot, who voted for the bill as amended in the Senate, opposed it in the form it came to the conference.

**J. S. HANDS OFF IN EAST**  
Washington Points to Absence of Alliances in War Zone.

Washington.—The Near Eastern situation is being watched with closest interest by government officials, although it is emphasized that the United States is not involved but could care less for its citizens and their interests.

Official circles say that, although the United States is interested in the outcome of the war, it has not taken any part in the territorial or boundary settlements in the Near East—but, not been at war with Turkey, has a right to affect the outcome which resulted in the signature of the peace treaty at Sevres in August, 1920.

It is understood that the American government has no commercial and industrial aid to give, which will involve it in any way in territorial readjustments. The Turks continue successful.

The department says that to account for the small amount of aid received American aid, of whom at least the 150 previously reported to have arrived at Athens are Americans.

## COAL WAITS ON PRESIDENT

Northwest Coal Action Awaits Naming of New Head.

Washington—Members of the coal fuel distribution committee have delayed action pending appointment of the president of a new federal fuel commission, while the Northwest coal industry waits.

A telegram to the committee from Donald D. Conn, chairman of the group, was dispatched in Washington, and the President Harding was expected to our soon.

Plans and methods worked out by the committee will be submitted to the new distributor as soon as possible. The plans are approved and a conference will be arranged between the dock companies and the committee made to handle the dock coal supply.

Their new building is a modern structure, 30x40 ft. in size, two stories with a full length garage room upstairs. The outside is finished in stucco, with a fine plate glass roof. A pipeless furnace has been installed.

Both the proprietors are experienced young men, capable of handling the business, and will undoubtedly make a success of their new undertaking.

Conn's experience is in the Pine City furniture store, where he was employed for five years previous to entering the service during the war.

He is familiar in the hardware and furniture store. They are both well known in this community, and their many friends with them will both help him.

They were down to the Twin cities last week, picking out a stock and expect to open for business on Saturday of this week, when they will be ready to begin regular business.

They have 25 carloads of soft coal now enroute from Lake Erie ports and will be received within three days from Duluth.

## GLOOM MARK FORD CLOSING

Final Shift of 9,500 Employees Quits as Factory Shut Down.

Detroit, Mich.—Various interpretations of the Ford shutdown were reflected in the news that 9,500 Highland Park workers as they emerged from the factory were.

It was estimated at the Ford executive offices that approximately 6,000 workers earning \$435,000 daily were affected by the order.

It also was estimated that the average Ford worker accustomed to a 46 hr. week would earn \$100 less than three weeks.

Huge piles of coal, in evidence at the River Rouge plant, have emphasized the fact that the country is at war with itself.

It was further reported that a famine was the cause of the shutdown.

**Untermeyer Won't Serve as Attorney,**

Washington—Representative Oscar E. Keller of Minnesota has received a telegram from Samuel Untermeyer in which the New York lawyer said that he had been retained to act as counsel for Mr. Keller in the impeachment proceedings against United States Attorney General Daugherty.

The House Judiciary Committee to which the impeachment resolution of Mr. Daugherty referred requested Untermeyer's resignation seeking the impeachment of Mr. Daugherty, reported that the hearings of Mr. Daugherty should be postponed until October 1st.

It was further reported that Mr. Untermeyer would be particularly heavy at this time.

**Experts Attack New Tax Shift.**

Minneapolis—Delegates to National Ass. Assn. Barre discourse proposals of the Minnesota Tax Reform association to reduce assessments on residence structures, shifting the burden more largely to unoccupied real estate.

**War Bride Returns to Europe.**

Los Angeles—A victim of war, Mrs. Leo Lillard, 20, returned yesterday from her tour of Europe and dislocation in America, after 16 days in jail at Willmar, followed by two in a St. Paul cell. She being deported at her own request.

NOW!!

## Wife Killer Given Life Sentence

GEORGE CUNNINGHAM FINISHES BIG YEAR

George Cunningham, Jr., is proving to be some half player, since he left Detroit and went to the South. League. At present George is playing with Chattanooga where he is doing everything up to scratch. He is a regular starting pitcher with Chattanooga having been unconditionaly re-signed.

On Labor Day, George, with George played in a double header against Nashville, working in the outfield as it was one of his "old days" in the box. He is on the bench on the second game and manager. He came to bat seven times in the two games, coppering off three home runs, two singles

and a home run.

George took the pitcher before the game, having been having having been suspended from the league.

After George returned to his home town, he was sentenced to life imprisonment and promptly returned to the penitentiary.

Cunningham was placed in a side cell he formerly occupied and did not make a mess at the prison.

Cunningham was sentenced to one year in the state penitentiary having been found guilty to first degree murder and sentenced to life imprisonment and promptly returned to the penitentiary.

Following the same he was sent to Detroit and spent the year's sentence and was re-arrested on his appearance in the world Saturday.

St. Paul Pioneer Press.

Sheriff Hawley, County Attorney, Sheriff, County Court Judge and Attorney Solotka attended the hearing at Stillwater. The sheriff and Mr. Solotka met the defendant at the door of the court and took him to Justice Pease, who had issued a writ of habeas corpus.

Justice Pease remanded him to the county jail.

Following the hearing he was sent to Stillwater and spent the year's sentence and was re-arrested on his appearance in the world Saturday.

St. Paul Pioneer Press.

Mr. Solotka represented the guilty man.

**Knights of Columbus Elect**

The first annual meeting of the Knights of Columbus was held at St. Mary's hall, last Sunday afternoon. The following officers were elected for the coming year:

T. J. Maden, Grand Knight; Geo. Kubel, Beroun; Dep. Grand Knight.

W. H. Korbel, Chancellor; Wm. F. Kusich, Financial Secretary;

George Dealey, Recorder; Andrew Hudak, Wm. J. Dempsey, Jimmie Weller, John Gaffey, George Gallic.

John E. Muller of Hinckley was elected trustee for three years.

The following trustees are E. J. Bahr, H. A. Hart of Finlayson.

J. J. Maden and M. B. Hurley were elected delegates to the state convention.

W. H. Korbel was elected to hold April.

Alternates to the convention elected were W. J. Dempsey and J. Kunesh.

The regular meetings will be held on the first Monday evening and third Sunday afternoon of each month.

**Annual Meeting Sept. 30**

The annual meeting of the Pine City Health Association will be held at the Methodist church at Pine City, Saturday, Sept. 30th at 1:30 p.m.

Officers for the coming year will be elected at this meeting, and reports of the various committees will be presented.

Everyone is invited to attend.

Every person that purchased

Christmas trees a year ago, is invited to attend the annual meeting.

Everyone is invited to attend

**Pertinent Pointers for Practical Farmers**  
Prepared by the Agricultural Department, University of Minnesota

**DEMONSTRATION AGENTS  
FOR RURAL COMMUNITIES**

Northern Counties Compose First Group to Organize.

Counties form bureaus and the home demonstration sections of the agricultural extension division of the state university recently set in operation a system whereby rural communities in a group of co-operating counties in the north will have a home demonstration agent who will give instruction in clothing, nutrition and home management projects. Beltrami, Hubbard, Itasca and Koochiching counties are the first group to be organized with Miss Clover Sabin, a graduate of the University of Minnesota, as home demonstration agent. The second group of counties, Blue Earth, Faribault, St. Croix and Wabasha, has been organized for this work with Miss Susan Hough as the joint home demonstration agent. A third group consisting of the remaining northern counties will be named later.

**BRIGHT INFECTIION IS  
CHECKED BY BORDEAUX**

Poison Mixture Combined With Bordeaux Has Been Efficient.

Bordeaux mixture and poison combined have this year demonstrated their efficacy in preventing or checking bright infection in potatoes, and in serving as a repellent to certain external insects such as leaf hoppers and beetles.

C. R. Rose of University Farm, a plant pest specialist with the agricultural extension division of the university, has the results of his demonstration work in the first group to be organized with Miss Clover Sabin, a graduate of the University of Minnesota, as home demonstration agent. The second group of counties, Blue Earth, Faribault, St. Croix and Wabasha, has been organized for this work with Miss Susan Hough as the joint home demonstration agent. A third group consisting of the remaining northern counties will be named later.

Five meetings will be given in each project by the home demonstration agent who will spend one week a month in each county. The meetings will be limited to 12 in the different groups to allow time for personal at-

## ROCK CREEK NEWS DET'

Miss Inger Bornhoff went to the Twin cities last Saturday where she will receive medical treatment.

Miss Dora Wright spent the week end at the home of her cousin, Mrs. C. J. Wallace.

## School Teachers

The new school year brings back the bright faced group of women and girls who teach in the public schools. Formerly regarded as an old maidish and bachelorette kind of person, the modern school teacher has developed into a young person whose charm considerably agitates the male students.

Proof of this is found in the rapid change that takes place in the school teaching forces. Considerably more superintendents are having their first come since these girls disappear so fast into the state of matronry. These girls do not commonly marry the fashion plates of the Smart Set, but they know enough to pick solid and substantial men.

Many school teachers say this is an arrangement planned by the quiet, hard working lives in places where they are not known and have few friends. There are many of this type and whatever their opinions may be, they do not seem to be the finest work of the community, and are entitled to much honor and social recognition.

## Political Mixers

The politicians of an earlier day sought primarily to be statesmen. To-day the tradition is that a politician must be a mixer. He must find out how to get out among the ordinary run of voters and show a friendly and cordial "spirit." He must shake hands as if every man in the line was his long lost brother. He must never be wide and never show fatigue. The muscles can be developed to produce a pump handle arm just as well as to play lawn tennis or baseball; and one can train his memory to remember names and faces.

The time has come for this great periodical mixing act, and the politicians are getting into the swing of things, their deep affection for the people. Their expressions of feeling are not hypocritical, as they enjoy the game, and find pleasure in it as well. But before being won over wholly by a sunshiny smile, people should ask what a man has done for the community.

## Theatre Notes

**Friday—** Special "My Old Kentucky Home" and a two reel comedy, "Two of a Kind."

**Saturday—** Gareth Hughes in "Garments of Truth." Wherein the village finds its best law a nuisance—but finds him in financial difficulty. It begins to look like "Fancy Santa the Day" comedy. Movie Chats Special. Free show Saturday afternoon at 2:30 for all school children.

**Sunday—Monday—** Nazimova in "The Heart of a Child." Sally was dancing in the street to a band when she was shown to her: "Wait a lark! Salt! Your father's buried your mother's dead in!" After this tragedy that orphaned her—what? Was against the world's glorious tempo? Also Fox News will

**Tuesday—** Jack Hesle in "The Broken Spine," The Canadian Northwest picture. "Winners of the West," 1st and 2nd Episodes.

You'll thrill at the sight of John C. Fremont—after his exploration of the Yukon, he comes home to Pine City to show his stock at the National Dairy Exposition.

Farm Night. The whole family admires the hero. Come and bring all the family and see one of the best shows of the week. Remember every Tuesday is Family night. All admit the family.

**Wednesday—** Douglas MacLean in "The Home Stretch." "Honeyblossom wind,"—wind! Come on! The young people's singing crowd had gone stark mad. The great braves bay that Johnny owned—and loved—and bucked with his last red copper hair, began to up—and up—ahem! Was stretching out now for the wire when—

A started, sudden hush! A little toddling figure on the stage. Then the audience burst into a roar. And his winner jerked up, fell—and lost! Also a two reel comedy, "Nuts."

"The Naked Truth." We hear people speak of "The Naked Truth." And now the whole town is talking about that new picture "Garments of Truth." The Boston do you players wear in it? See it Saturday, Sept. 22, at the Family theatre.

**PRESCOTIAN CHURCH NEWS**

T. J. Buckton, pastor

Don't forget to go to the benefit show Friday evening of this week at the Family theatre. There will be an orchestra and a mighty fine picture called "My Old Kentucky Home." Turner says this is one of the best pictures he has booked in the last six months. This together

with some local talent, you will get a fine evening's entertainment, buy a ticket and so help the good work for the community.

Last evening meeting service was encouraging and we are inviting those to come who have not yet sat in our comfortable chairs and met Sunday morning at seven at the Pine City Club.

Buckton holds divine service and preaches on another aspect of the character of Jesus Christ.

## National Dairy Show

Prizes totaling \$3,130 will be offered by the National Dairy Association and the five national Holstein Breed Associations at the National Dairy Exposition as one of the best incentives to the showing of cattle in the country ever offered to the breeders.

This is up by the \$5,670 in prize money offered to Ayrshire breeders, \$9,920 offered for Holsteins, \$7,700 for Brown Swiss, \$4,920 for Jerseys, and \$5,920 for Guernseys.

In each of the five breed divisions \$3,750 is offered for the cattle classes comprising the pure-bred animals. Ten prizes will be awarded in each class first prize being the largest with second, third and fourth being for like amounts, ninth, tenth, and seventh being the largest, least but all three for the same sum, and eighth, ninth and tenth being the same.

Each of the five breed associations offering to the Holstein breeders of the country the sum of \$6,450, to which is to be added the \$3,650 given by the National Holstein Association. The amount of Holstein cattle is expected to exceed that of any previous show.

Holstein breeders could look for no better money prizes than is offered at the National Dairy Show. W. S. Maccrip of Lake Elmo, Minn., one of the best known of the Holstein breeders in this country, said the year's show not fail to take advantage of it.

Besides the Dairy Association of \$3,790 for regular classes, the Holstein association is offering \$2,000 to be divided among its members. Prizes for the state herd of Holsteins amount to \$2,500, of which \$1,500 is given by the National Dairy Association and \$750 by the Holstein Association. Grade cows in the Holstein division will compete for the \$690 offered by the Dairy Association and \$500 by the Holstein Association.

The regular division in the Ayrshire division will be offered \$3,750 by the National Association, and it will also give \$750 to be distributed to state herds. Grade cows will get \$690, the same that is being offered grade cows in the other divisions.

In addition to the regular allotment of prizes for regular classes, the Brown Swiss Association will have \$530 put up by their national association to compete for. The National Dairy Association prizes for state herds amounting to \$1,500 this year will be increased by \$750 offered by the Brown Swiss Association.

Jersey breeders will also share the same amount of prizes in the regular classes, as is given to the other breeds. The state herds will compete for \$750, and grade cows will be allotted \$690. In an attempt to bring Jersey breeders of the country to show their stock at the National Dairy Exposition, M. D. Munro, president of the National Dairy Council, has presented Jersey breeders with a statement that "the exposition offers the breeders of the country one of the best opportunities they will get to show what they have done toward developing good Jersey cattle. This in addition to the money prizes which are offered should induce them to have their herd represented at the exposition."

The prizes for Guernseys will

be the same as those offered by the National Dairy Association for the \$2,000 by the National Jersey Association, \$250 extra money offered by the Guernsey Association to the Boys' and Girls' Calf Club amounts to \$5,200.

D. D. Tenney of Minneapolis, breeder of Guernseys which have been prize-winners in the show rings characteristics of the \$5,130 in prize money given to the Holstein breeders. Taken together with the other benefits which will be given to the breeders, it is the greatest opportunity ever offered to the breeders. They can find a place to show their cattle which will do more for them than anything else that will bring out the most inspiring object lesson for best dairying to be followed in this highly specialized dairy country.

## Motor Trucks Extend Food Supply Radius 50 Miles

HERBERT HOOVER says: "The motor truck has given every town an extended radius of food supply by some 50 miles, and thereby protects such vital matters as milk and perishables."

Formerly 10 miles was as far as the farmer could profitably haul his produce. The increasing number of motor trucks on the farm is making the farmer more and more independent of other forms of transportation. It is extending a primary market five times, giving the farmer greater security and doing much to insure him the full profit from his crops and produce.

E. E. La Schum, Superintendent of Equipment of the American Railway Express Company, says that while the average mileage of trucks is about 40 miles per day, they are capable of making 100 miles without undue strain.

This means that in every truck there are 60 unused daily transportation miles, which can be used when emergency calls.

The farmers of the 10 states served by the Standard Oil Company (Indiana) own 46,582 trucks. These represent unused, potential transportation of 2,794,920 miles per day—quite enough to make the farmer feel reasonably independent and to make the city dweller secure.

The value of these trucks to their owners, and to the community, depends upon an ample supply of gasoline and oil, instantly available when needed.

The Standard Oil Company (Indiana), recognizing the difficulties the gasoline distributor has in getting to a point where only a complete breakdown of public utilities can prevent its supplying these trucks with oil and gasoline needed, no matter in what corner of the 10 states they may be.

In the cycle of service to which the Standard Oil Company (Indiana) is committed, the truck plays just as important a part as the automobile and the tractor.

This entire organization is working as one man, to perfect a complete service and to maintain this service at such a maximum of efficiency that no piece of automotive machinery in the Middle West need ever be delayed a single moment of usefulness through lack of suitable petroleum products.

## Local News

Mr. and Mrs. Joe Therrien spent the week end in Duluth, returning home Sunday evening.  
Mrs. Henry Burge and son Howard were visitors in the Twin cities last Saturday.

Mr. and Mrs. Al Jansen were down from Two Harbors and spent the week end with friends here.  
Lester Wilcox left for St. Paul last Monday and will remain there until Saturday morning.  
Miss Ellen Lindstrom, former teacher at the Four Corners, visited at the F. M. Stuck home last week.

The Nick Perkins family are moving into the old Brackett house, which has been occupied by the Math Prentiss chasers.

Ben Bjork moved his household goods to St. Paul last week where he will spend the winter with his wife, who is visiting from Norway.  
Mrs. Phil Silesky and Ralph left for Minneapolis yesterday, where she will visit until the first of the week.

Mr. and Mrs. Francis Deamer visited at the home of Mrs. Mary Michaelson, the reprobate of the month.

The physician Sister Adele will return to the K. P. Hall next Monday evening and all members are urged to attend.

Miss Cecile Hurley, daughter of Mr. and Mrs. James Hurley will have her birthday the week for St. Paul, where she will again attend St. Catherine's College.

The Royal Neighbors of Pine City will hold their annual School of Instruction next Wednesday, Sept. 27th at Rock Creek. All members should try and attend.

Mr. and Mrs. Emil Bahr and Mrs. Henke of Woodstock spent the week end with the Henry Hampe family on Pokegama. They came up last Friday.

The W. C. T. U. will meet at the home of Mrs. A. Pennington next Tuesday afternoon, September 26th. Everyone is invited to be present.

Mr. and Mrs. Kelley of Georgia, who have been visiting the home of Nick Paulsen, returned last Tuesday for Brandon Manitoba, where they will visit.

Miss Lorena Bede, daughter of Mr. and Mrs. J. Adam Bede, recently graduated from Macalester college this week.

Lorraine Boyle, son of Mr. and Mrs. J. D. Boyle and Mrs. Miss Garber, was in town for the circus last week and has resumed their studies at Hamline U.

Fred Bonde, a communiee boy from Brandon, drove to the city last Monday. Fred resumes his studies at Hamline and Bob starts at Hamline this year.

The Presbyterian ladies will meet at the home of Mrs. George Stadelman Thursday afternoon, September 28. Lunch will be served. All are invited to be present.

Harry Petach, son of Mr. and Mrs. Jos. Petach, left for the cities this week, and will study at the U. this year. He graduated from the local high school last June.

Meetings of the local Masonic Lodge were resumed last Monday evening, after the summer vacation. The regular meeting nights are the first and third Mondays of each month.

The finishing work on the Roy Carlson home is progressing rapidly and it is expected the new residence will be completed and ready for occupancy in the next three or four weeks.

Miss Lillian Wilson, who is taking a course in nursing at the Red Cross Hospital in the Twin cities, is visiting at the home of her parents, Mr. and Mrs. J. Wilson Meadow Lawn.

Adam Hede left last Monday for Chicago. He will spend the time from now until the election lecturing for the national Republican committee, and will campaign for the party candidate in some of the states.

Mr. and Mrs. Phil Silesky, accompanied by Mr. and Mrs. Fred Blostein, started for Hayward, Wis., last Sunday. The couple can be seen about the city, but did not get that far, visiting at other places and returning home that evening.

Ted Buelensier, Jim Snell, Ole Brueckle and Mr. Erickson of the Power Company, spent last Saturday and Sunday hunting at Littlefield. They reported good shooting, but it was hard to get the fowl on account of the cold weather.

Mr. Orrekk and daughter, Miss Eva, left for St. Paul on Wednesday last week, where they will spend the winter. Miss Eva will teach in the Hamline U. Gus Lundow took his household goods down with his truck.

Mrs. Vlote Jensen, daughter of Mr. and Mrs. Christian Jensen, left for the Twin cities where she will attend Macalester college this year. She graduated from the local high school last June.

Andrew Edin, H. Jorgensen and W. Wheeler of Sandstone spent last Saturday hunting on Rice Lake and other places in that section of the woods. They hoped to get the birds, but returned with 18 birds and each one claimed he shot most of them.

Word reached Mrs. Sam Heath, who was a teacher in the school in the Twin cities a week ago, that she was about the same as when she left here. It was thought at the time she was suffering from the grippe, but the doctors are of the opinion that is not the cause of the breakdown.

The club room was crowded to capacity last Friday evening, to hear J. Adam Hede's lecture on the

## CONCRETE FINDS MANY NEW USES

Range Varies From Art Windows  
to Swimming Pool for  
Hippopotamus.

## DASH OF ROMANCE IN STORY

Portland Cement Has Been in Use  
Nearly Hundred Years—Development  
of Uses in Recent Years Remarkable.

Washington—There is a dash of romance and a fairy theme in the commonplace chug and rattle of the concrete mixer. Every one is conversant with the ordinary uses of Portland cement.

Perhaps some first impressions of this material date back to the days of lights on a bicycle over which the surface of a concrete sidewalk—but in the days when cement sidewalks were considered more or less of a luxury. Perhaps it was a cellar door, or a foundation, or the sight of workers carrying sacks of cement. Years ago cement was an eschewed member of the construction family, but the development of its uses during the last few years has been so varied and remarkable that it is

Van Hook, N. D.—Sather, who runs a large farm near here, threshed 11,555 bushels of wheat from 340 acres, an average of better than 34 bushels to the acre. The wheat is of excellent quality, weighing 62 pounds to the bushel.

Miles City, Mont.—The restocking of the cattle ranges of Eastern Montana is proceeding steadily. The past week one rancher, Kenneth McLean supervised the unloading of 1,500 Texas cattle.

## Spouting

Minneapolis—Forty-six young foot ball players for Minneapolis "Pioneers" have been signed by the team as assistants when they opened the practice season at Northrop field. The more important candidates were on hand for the first workout.

Arlington, Minn.—V. C. Chastre, first baseman for the Aberdeen club of the Dakota league, has been sold to the Des Moines club of the Western League, according to Sam Calmenson, president of the Aberdeen club. The purchase price was not made public.

## Foreign

Bethra—While 500 children were being born because of the Spanish Influenza, nearly 1000 were carried through the safety rope into a big whirlpool a quarter mile off shore. Ruth Managan, aged 14, swam into the edge of the whirlpool and screamed for help. Her frantic efforts in rescuing all three carrying them to safety on a rock at the edge of the sooty water.

Panama—In the capital legal action for handling mail-line divorces cases on both sides of the Atlantic is expected as the result of negotiations between Charles Epstein, Chicago attorney, and James L. Tamm, of Ottawa, Ont.—The first annual report of the Ontario Provincial commission for November, 1929, to October, 1931, of the Mothers' Allowance act is now in circulation. The number of cases handled for the whole province was 2,653 and the amount of money paid to them amounted to \$774,667. The administration expense for the current year came to \$77,940.

Ridge, S. Dak.—The annual value of farm products, grain crops and live stock produced in the province of Saskatchewan during the year 1931 was \$44,937,773, according to the annual report. This was up 15% from 1930. The value of grain crops and live stock was \$21,074,073. Total crop (barley, oats and rye), \$14,965,000; farm products, \$23,914,436; and live stock, \$13,963,773.

Berlin—Dollar exchange has been the subject of a concerted attack by German consumers who protest against using the dollar as a basis for fixing domestic prices. Buyers are getting up on their feet in certain market in other moneys. Retail prices have risen more rapidly than the exchange because the storekeepers have fixed their quotations so well that they expect new stocks to cost.

London—Captain Godfrey Hanson replying to critics of his plan to establish relief depots in the American Legion post, reiterates that he received the request from abroad to study the possibilities and the cost of the relief stations.

The Sombrero. The loss of life in the founding of German steamship Hammilla off Vigo, Spain, probably never will be known. The passenger list was not saved and the total of those on board was 100,000. Captain Alred Hester, declared that only 15 persons are missing out of a total of 557.

Wood Has Bad Reputation.

Elder is of opinion since Justice, they are not bound him thereon, yet the virtue of beauty in the days of wild roses and honeysuckles. Elder-flower-water is good for complexion, say rustic maidens and old-time farmers claim for it, and say it is good for the skin.

Chicago.—The 15-year search for Mrs. Mary Neumann of Brooklyn for her daughter, placed a children's home at a hotel, where she was the victim of a criminal, having been adopted from a children's home.

Tulsa, Okla.—Tommy Tucker, 18 years old, amateur flier, and Archie J. Swanson, 28 years old, professional aviator, were killed here when their plane fell 350 feet.

Northwest

Velver City, N. D.—The annual convention of the Ladies auxiliary of the American Legion opened here and will continue two days. Approximately 300 delegates have assembled when the meeting was called to order.

Yankton, S. Dak.—Joseph Kratchvich, Bohemian section worker of Lake Adles, S. D., murdered his wife by chopping her to pieces with a hatchet, plied guilty to the crime of first degree murder and was given a life term in the penitentiary.

## It Was Hard to Bear.

Mr.—Have you heard that Sjoberg's wife had run away?

Mrs.—No, indeed! Poor fellow! How did he take it?

Mr.—Well, he has now calmed down a little, but for the first few days he was delirious with joy.—Stockholm Kasper.

material in the average edition was given the remotest idea of it.

The historical incident which brought about the need for Portland cement is that of the destruction of the Edenton, North Carolina, in the Roanoke channel in 1759, by an engineer named John Stuenten, who while looking for a harbor for this purpose discovered that the sand bars were so great that a certain amount of clayey matter contained hydraulic properties when calcined or roasted.

## Natural Cement Restricted

The material used by Stuenten marked the beginning of modern cement-making practices, but the early cements were different from the Portland cement of today; for natural cements derived from limestone or gypsum, their material and are consequently restricted to the rocks having the proper properties for cementation in their natural state.

Stuenten's discovery apparently stimulated interest in the industry. About 1799 James Parker of North Easton, England, patented a process for manufacturing cement by burning limestone almost to vitrification in ordinary kilns and grinding the resulting clinkers.

In 1800 production of Portland cement in the United States was 14,000 barrels; in 1810 it was 42,000 barrels; in 1850 it was 335,000 barrels; in 1860 it was 42,000 barrels; in 1860 it was 8,482,020 barrels; in 1870, 70,000 barrels; in 1880, 100,000 barrels; in 1890, 100,000 barrels; in 1900, 100,000 barrels; in 1910, 100,000 barrels; in 1920, 100,000 barrels.

The first recorded manufacture of

this product in the United States was in 1870 by Martin and Newell, for the Cuyahoga Mill in Cleveland, Ohio.

One hundred million barrels of cement—the 1920 output—would be sufficient to build nine transcontinental highways, eight inches thick and eighteen feet wide from New York to San Francisco. Or it would build 1,000,000

square cubic houses with a poor roof and windows broken in. Or it would build two thousand small pyramids like those of Egypt. Or it would build a sidewalk five feet wide and four inches thick that would reach from Washington to the moon—distance of 240,000 miles.

The quantity of the output is shown by the fact that in 1921 the industry required nearly 8,000,000 tons of coal. The amount of cement produced in manufacturing a barrel of cement varies from 150 to 200 pounds, so that when purchasing a sack of cement the consumer is paying for nearly fifty pounds of dirt.

Portland cement is produced by burning limestone and by grinding the burnt product to fine powder.

## Almost a Century Old

Almost 100 years ago, in 1824, a brick-layer of England, Joseph Aspin, took out a patent for what he called "burnt lime." He gave the name to his invention because when heated it resembled the famous stone found on the Isle of Portland off the coast of England. Aspin's patent specified that calcium carbonate clay be used to make the stone because it was the best material for making cement.

He made the cement by burning the clay and then grinding the resulting lime.

Stuenten's discovery apparently stimulated interest in the industry. About 1799 James Parker of North Easton, England, patented a process for manufacturing cement by burning limestone almost to vitrification in ordinary kilns and grinding the resulting clinkers.

In 1800 production of Portland cement in the United States was 14,000 barrels; in 1810 it was 42,000 barrels; in 1850 it was 335,000 barrels; in 1860 it was 42,000 barrels; in 1860 it was 8,482,020 barrels; in 1870, 70,000 barrels; in 1880, 100,000 barrels; in 1890, 100,000 barrels; in 1900, 100,000 barrels; in 1910, 100,000 barrels; in 1920, 100,000 barrels.

The first recorded manufacture of this product in the United States was in 1870 by Martin and Newell, for the Cuyahoga Mill in Cleveland, Ohio.

One hundred million barrels of cement—the 1920 output—would be sufficient to build nine transcontinental highways, eight inches thick and eighteen feet wide from New York to San Francisco. Or it would build 1,000,000

## BILL SAM'S DICTIONARY

By J. L. MARTIN

PH Wittenberg, who was detained for the kidnaping of the millionaire, has decided that he was too good a man to take such desperate chances on being kidnapped. One of these stories, and perhaps the most peculiar of all, concerns the name of Roman cement. In France there had been experimentation along similar lines.

The remaking growth of the industry, and the consequent development of new uses for the material is being shown in another important figure. In 1890 production of Portland cement in the United States was 42,000 barrels; in 1860 it was 335,000 barrels; in 1870, 70,000 barrels; in 1880, 100,000 barrels; in 1890, 100,000 barrels; in 1900, 100,000 barrels; in 1910, 100,000 barrels; in 1920, 100,000 barrels.

One hundred million barrels of cement—the 1920 output—would be sufficient to build nine transcontinental highways, eight inches thick and eighteen feet wide from New York to San Francisco. Or it would build 1,000,000

## WAR SCARE--WHEAT UP

Grain Market Is Most Active in Months.

**U. S. Bureau of Markets, Washington, D. C.** reported yesterday that wheat was up 15¢ per bushel, and export demand of wheat for the week. Heating pressure and lack of support resulted in lower trend until Sept. 15, when foreign buyers stepped in and produced advances which were fairly well maintained. Chicago December wheat advanced 3½¢, Chicago Dec. corn advanced 1¢. On Sept. 18, was scarce because of short and limited supplies for the month, but prices reacted little before close. Good export business reported. Visible supply of wheat \$17,670,000 bus, compared with 46,163,000 bus last week. Wheat market by action of wheat market advanced very declining a little before the close. Visible supply of corn 10,115,000 bushels compared with 12,241,000 bus last week. Last week's visible corn in central grain market: No. 2 red winter wheat \$1.11; No. 2 hard winter wheat \$1.03; No. 2 mixed corn \$0.41; No. 2 yellow corn \$0.45; No. 3 white oats 32¢. Average prices of wheat and corn in central local area: No. 2 hard winter wheat 95¢; No. 1 hard Northern wheat in central North Dakota 96¢; No. 2 hard winter wheat in central Kansas 82¢. Closing future price of wheat: December wheat \$1.05¢; Chicago December corn 74¢. Minneapolis December wheat 1.06¢; Kansas City December wheat 95¢; Winnipeg Dec. wheat 97¢.

**LIVESTOCK AND MEATS:** Chicago hog prices ranged from 35¢ to 40¢ higher for the week. Medium and heavy hams were up 10¢, bacon, hams, steers and huncher cows and heifers ranged from 15¢ to 20¢ higher, feeders 15 to 25¢ higher and veal calves 50¢ to 125¢ higher. Fat lambs 75¢ to 85¢ higher. Fat hams 75¢ to \$1 higher per 100 lbs. Veal 50¢ to 75¢ higher and fat ewes 25¢ to 75¢ higher. On Sept. 18th hogs opened slow with early price 10¢ higher, followed daily. The market trade was active, better grades being strongest. Butcher hams and hoppers strong to 15¢ higher stockers and feeders were 15¢ to 25¢ higher. Fat lambs opened steady at 12¢ higher, followed by 25¢ to 30¢ stronger to 35¢ higher. Sheep were in light supply and steady. Sept. 18th Chicago prices: Hogs, top \$10.10, bulls of sales 7.75 to \$10.05, medium and good beef steer \$10.10, medium and good beef hams and hoppers 4 to 5.25¢, medium and heifers 4 to 5.25¢, light and medium weight veal calves 11.50 to \$12.50, fat lamb 13 to \$14.10; feeding lamb \$12.175; yearling lamb \$14.175. Cattle \$37.50. Stocker and feeders strong to 35¢ higher. The market was active, especially in important markets during the week ending Sept. 16th were: Cattle and calves 115.547, hogs .6985, sheep 64, 229. The trend of wholesale fresh meat products was up 10¢ to 20¢ higher. Hams \$1 higher; veal and lamb \$1 to \$2 higher; better grades of mutton 50¢ to \$2 higher and pork loins generally \$2 to \$3 higher. On Sept. 18th the market was firm to \$1 higher. Hams and mutton \$1 to \$2 higher and pork loins unevenly \$1 to \$3 higher than the close of last week. Sept. 18 prices: ground round, Beef 17 to \$18; veal 18 to \$20; lamb 24 to \$29; mutton 24 to \$16; light pork loins 26 to \$20; heavy loins 16 to \$22.

**MINNEAPOLIS CLOSING CASH PRICES:** Spring wheat--No. 1 dark northern 1.22¢/1.32; No. 1 northern, 1.08¢/1.13; No. 1 dark hard, 1.09¢/1.14; No. 1 hard, 1.09¢/1.14; No. 1 amar, 1.09¢/1.04; No. 1 durum, 1.17¢/1.21; No. 2 white, 33¢/34¢; Barley, choice to fancy, 53¢/56¢; Ry. No. 2, 70¢. Flaxseed 2.35¢/2.35¢.

**South St. Paul Live Stock:** So. St. Paul, Aug. 28, \$25.25/11.00; veal calves \$12.00/10.00; hams, steers, hoppers, \$5.75/6.75; hogs, 7.75¢/8.75; sheep and lambs, \$7.00/11.50.

**EGGS:** Country receipts, rate out, per case, \$4.00; No. 1 candied, good extras, from rats, small dairies and eggs out, per dozen, 32¢; small dairy and eggs out, rats and leakers out, 19¢; checkers rats and leakers out, 16¢; quotations on eggs in-grade cases.

**ST. PAUL, Minn.:** 27¢; firsts, 25¢; packing stock, fresh, sweet, 25¢; stale goods, 5¢; grease, 1¢.

**Minneapolis:** Two armed bandits robbed the A. E. Nagel jewelry store at 39 Seventh St., No. 12, of \$12,000 in diamonds and jewelry, and \$400 in cash.

**Four Found Shot Dead.** Harrison, Ark.: Members of a party of six returning from a hunting trip at End, 16 miles northwest of here, were found shot and the four others are dead from shotgun wounds inflicted mysteriously.

**Elopes With International Crook.** Paris--The wife of the American social charmer, Brigitte, at Chouroux, has run away with an international crook, for whom all other American consuls at French ports have been notified to keep a close lookout.

**HOTEL VENDOME, MINNEAPOLIS.** Located in heart of business district \$125--ONE PRICE--\$125

PHONE SERVICE.

## Husband May Talk to No Woman But His Wife

John Haas of Chicago is re-strained by court order from "visiting, seeing, talking to, or riding with any woman in the world." Another injunction restrained Haas' mother-in-law from "visiting, talking with, or in any way interfering with the domestic life or personal liberty" of Haas and his wife.

The restraining orders follow a reconciliation after Mrs. Haas had sued for a divorce. She said her husband would not forgive the woman while he asserted his mother-in-law caused all the trouble.

**BEAUTY AND THE BEASTS**

Showing pretty Miss Harriet H. Coon, New York society girl, and shark on the beach at Southampton, L. I. The sharks were caught by fishermen just off Southampton and brought to shore at the popular resort for society.

## FIND STRANGE SAILOR'S WILL

**Bequest Engraved on Disk Found on Body of Victim of Battle of Jutland.**

**London:** Strange as the story of any document told in fiction is that of a will which had just been admitted to probate and is now filed in Somersett house. It is the "last will and testament" of a sailor, William Skinner, who lost his life when his ship, the Indefatigable, was sunk in the battle of Jutland. It is the first record of such a will in the history of the Royal Navy. The will, which was written on a small piece of paper, was discovered in the pocket of the victim of the battle of Jutland. When viewed at a certain angle there can be seen about seventy-five minutely engraved words. They constitute Skinner's will, by which he bequeathed everything to his wife. The disk has been removed from the sun with Skinner's body and, on being cleaned, revealed its secret.

## DISCOVERS HUGE TWIN SUNS

**Canadian Astronomer Says They Burn at Temperature of 30,000 Degrees.**

**Victoria, B. C., Canada:** "Twin suns, quite similar in all respects, have been discovered by Dr. J. S. Plaskett, director of the Dominion of Canada's astrophysical observatory through the observatory's big 72-inch reflector telescope."

Scientists said the discovery was one of the outstanding astronomical achievements of recent years. The suns have been named Plaskett, for the discoverer.

Doctor Plaskett estimated that the suns burn at a temperature of 30,000 degrees Fahrenheit as they whiz around one another. One, the more massive, is believed to be 70 times the bulk of our sun. The lesser is 65 times heavier.

## BAN WHISKY AS LIFE SAVER

**United States Authorities Substitute Spirits of Ammonia in Cosmetic Service.**

**San Francisco:** The work of rescuing persons from watery graves, as performed by the life-saving department of the Pacific coast guard service on the California coast, will proceed on usual except:

Lieut. Peter Jansen, division commander of the life-saving department, said that the authorities had stricken out the last regulation making it whisky as part of the stores of a life-saving station, to be used in emergency.

Spirits of ammonia were sent instead.
