LENINE CAUTIONS RED HOT STEELERS

Advocates Congress to Keep in Mind Five Years Experience of Russia.

Moscow — The Soviet government's change of economic policy in the spring of 1921 has been justified in every way, President Lenin declared in a speech before the congress of the third international.

At the time the change was made he admitted the war was losing touch with the workers and the entire party was responsible for the transformation into communism.

"There is no possibility now of peasant uprisings," he said. "The peasants are satisfied because the government retains large industries and the state commerce."

Lenine, however, was warning a world revolution, he cautions against rashness and urges that international events be watched more carefully, ever keeping in mind the years experience of the Russian revolution.

### \$33,400 SHORTAGE REPORTED

Banca Nazionale Minneapolis-Bank from Latin American Confess.

Minneapolis—Burglars amounting to \$34,400 in the amounts of two employees of the Minneapolis National Bank have been reported to the officers of the bank that the two employees themselves, J. P. Biner, president, has stated.

W. J. Smith reported a shortage of approximately \$2000 in his cash drawer, according to his statement and said, "I know I reported a shortage of \$13,400."

Howard Blue, federal bank examiner, in a signed statement, declared the bank would suffer no loss whatever, because the damage is entirely covered by surly bond of \$100,000.

Santiago, Chile—Chile was again visited by earth shocks. Seven tremors of moderate intensity followed the previous of October 11 at 8:15 and half an hour earlier, the suspect Constitution capital of the province of Maule, was shaken, according to telegrams received here by the National Telephone Co.

The town of Cerrillos 550 inhabitants, consisting of underground dwellings and copper miners, is reported to have disappeared, news of additional deaths and indications are the calamity has reached appalling proportions.

The arrival of war vessels at the northern ports of Chile brought wireless messages of alarm from Frerens, and villages not previously heard from, including the large town of Frerens, augmenting greatly the number of reported casualties, which are now estimated at between 1,500 and 2,000 dead, with numerous injured and homeless.

The six hundred bodies have already been recovered from the debris of the town of Valdivia.

Owing to interruption of rail and telegraph communication the work of getting supplies into the devastated region is proceeding slowly. Relief forces to aid the thousands maimed and disabled by the earthquake throughout Chile and the following waves which followed the shocks are being mobilized. The death toll probably will be at least 2,500, it is estimated, and the number of persons lost into the millions, as several towns were almost entirely wiped out and heavy damage to buildings and communications and particularly ships by the huge waves has resulted from the violent upheavals of nature.

The extent of the casualties, property damage and other wrongs by the earthquake and tidal wave must yet been fully learned as many communication lines were put out of operation.

### New Shoe and Harness Store

Pine City has a new harness and shoe store, located in the Bussell Building, just south of the police office, which opened for business this week.

Frank P. Bishoff of Bishoff, Washington, operator, Mr. Bishoff, located a new store, Washington, coming to Pine City, and is expected to open in the line he carries. He will carry a stock of harness and equipment shoes and rubber and an experienced repairman. Read his ad on another page of The Pioneer.

### Suggests Gun Club

P. M. Lauke dropped into The Pioneer office the other day and suggested the organization of a gun club by a portion of the community.

"There are many hundreds of his racing who are expert marksmen and would no doubt be glad to join such a club. In addition to the sport desired, it would keep them in trim for the hunting season. Any interested in the suggestion might see Mr. Lauke, and a meeting of sportsmen to talk the matter over.

### Reopen Cream Station

Mr. Peterson, owner of the Moose Lake creamery, was in Pine City the first of the week, and made arrangements for the reopening of their cream station in the Postoffice building.

Harry Bergstrom of Wrights, Minn., will arrive the latter part of this week to take charge of the station and will open for business next Monday.

### 1,000 NEW CARS FOR CITIES

Twin City Extensions Costing \$1,000,000 Pending as Councils Meet.

Minneapolis — One thousand new streetcars of a lighter, modern type will be built and placed into service in the twin cities under a construction program already started. Mr. Julian McMillin, vice-president of the Minneapolis Street Railway company, has announced. Carrying out the program will be the responsibility of the company's property is completed by the state railroad and warehouse commission. Mr. McMillin said the new cars will replace all of the present heavy cars.

Failure to value the property of the Minneapolis Street Railway company limits the 1922 improvement extension to \$1,000,000, which will cost \$25,000 the amount available through the renewal fund. Mr. McMillin said, in advance of meetings of streetcar commissioners, that while extensions agreements between the city and the company is awaiting a valuer's report, the program of construction will be on rehabilitation of existing lines, according to Mr.

### Should Buy Stamps

Postmaster of Minneapolis requests payment of the postal rates to buy stamps and not put pennies in the mail boxes. Cold weather is causing it and it is mighty hard on the carriers hands to remove the boxes and reach into the cold boxes after pennies. Putting stamps on the mail will be greatly appreciated by the carriers.

Poor Business Prospects.

For real good advice to younger men I would like to refer you to that was sent me the other day: "A man who would be successful in business must never trust his money to his friends. He must always have a definite value and he courteous to prospective patrons. Another point that should be carefully considered is the duty of trying to be a competitor, not a follower. The customer's mind is like a magnet and it is the size of business as yours creates in the mind of the customer a doubt as to the excellence of your own wares and arouses a feeling of sympathy for the man who is not there to defend himself against your charges."—Exchange.

Mrs. Mary Ross—When my children were small I had a sick dog that weakened so I could not walk across the room without the aid of a chair. Our druggist advised my take Dr. Pherson's Fa-therine—described as a golden discovery, alternative according to directions, and six bottles came and restored me to health and strength. Since that time I have frequently recommended these two famous remedies to members of my family, and to my friends and have seen only the most satisfactory results from their use.—Mrs. Mary Ross, 2313 22nd Ave., S., Minneapolis, Minn.

Health is the most valuable asset you have. Dr. Pherson, president Invalids of America, N. Y., and receives good medical advice in regard to trial of all expense, or send me for trial price of tablets.

## Bucked Up and Sat Down.

When I was a freshman in high school I had a crush on one of my teachers and wanted to always appear at her desk to get answers to my questions.

One evening after school I returned to the room to talk to her. She was home and told me to sit down on a low stool, and I did, to wait. I bucked up, and sat down.

The hunch had to pull me out of the wastebasket, which I had mistakes for the stool.—Kingsman.

T. J. Buckton, pastor

There has developed recently some much misunderstanding as to the views of scientific men in reference to organic evolution that some explanation seems necessary. The misunderstanding has arisen from ignorance of the subjects from misinterpretation of the statements of scientific men, and from what may be called a medieval attitude of mind. It has been a shock to educators to realize that there still remains such a mass of untrained minds that can be imposed upon by ignorant ignorance. So next Sunday morning the pastor will preach on "Theology and Evolution."

The evening service is at eight and we take up the second topic in our Bible study, called, Four Attitudes towards the Bible. If you cannot get to these services and would at the same time like to take up this Bible study, you can do so by correspondence and study the book.

Last Sunday while John Doens was in the woods near the Shuey home a hunter shot at a rabbit. Instead of hitting the rabbit he accidentally shot John in the head. He was taken to the doctor immediately where the shot was extracted and John feels none the worse for the experience.

## RED CROSS WINNING IN FIGHT FOR HEALTH

Better, Stronger Citizenship Now  
Emerging Out of Work in  
United States.

The American Red Cross as an evangelist of better health has looked its program over and found that it has changed the task revealed to it in the national physical condition as brought out during the World War, and conscientiously applied its activities to correction forms a vital chapter in the forthcoming annual report. Historically and practically, nursing is a basic work for the Red Cross. In its present program, however, it is in connection with home hygiene and hygiene of the sick, nutrition classes, first aid and life saving courses and health centers, the American Red Cross is applying effectively the lessons learned during the war and making for a healthier, stronger and better nourished citizenry.

The task of the Red Cross Nurse Home nurse in the 1240 nursing services now operating throughout the country instructing their communities in health essentials and disease prevention is demonstrating the possibilities of human betterment and the great benefits of enlightenment.

During the last year 313 new public health clinics were established by Red Cross Chapters, and several hundred services so conveniently proved their effectiveness that they were taken over by public authorities. In order to promote this work \$30,000 was allotted to provide women to prepare themselves for public nursing. The home visits made by the 1240 nurses aggregated nearly \$500,000, and to schools numbered 140,000, and in six months 1,250,000 school children were reached by these nurses and where defects were found advised examination and treatment. In rural communities this service made a very marked advance and has won thousands of converts to approved methods of disease prevention.

In this systematic care of the sick methods of proper care where illness is not so serious as to require professional services, the Red Cross conducted 2,884 classes for 1,100 students last year, enrolled 2,356 students in 1921, and students issued 42,000 certificates.

On June 30, 1922, nutrition services numbered 110,000, with a total of 27,929 children attending. In all 1,100 nutrition classes graduated 732 who received Red Cross certificates. In general health services the Red Cross maintained 377 health centers, serving as many communities, provided 35,753 health lectures for large audiences everywhere, while clinics numbered over 10,000.
