DIG CROWD WILL ATTEND BOUT

Present indications are there will be a capacity crowd at the Legion boxing show at the armory tomorrow night. There has been a big advance sale to local fans and Wm. Challen, who is in charge of the ticket sale, informs us that he has received orders for tickets from Harris, Hinckley, Grantsburg, Cambridge, Rush City and a number of other nearby towns.

The preliminary bouts between local boxers of Pine City, Hinckley, Cambridge and Meadow Lawn, has created no little excitement and everyone is anxious to see the local boys perform in the ring. There will be a big bunch of rooters present from Cambridge and Hinckley to boost for their men.

Quite a number of tickets have been sold to the ladies. The balcony has been reserved for the fair sex and many of those present will be attending their first boxing show.

The show will start promptly at 8 o'clock and fans are asked to be on hand early so there will be no confusion after the bell rings.

Wm. Korbel, commander of the local post, has been training the local boys, with the assistance of others, and he had Les Richards and Lee Anderson out running most of last Sunday.

It is predicted there will be a knock-out or two in the main and semi wild bouts. One thing is certain and that is the fact that the card arranged for the show will give those attending their money's worth.

By attending you will not only see a real boxing show but you will be helping the local Legion post out financially and they will deserve our support. Let's Go!

The Social Code

Vilva Dana in "The Social Code," Metro's adaptation of Rita Weisman's story, will be presented at the Pease Theatre on Saturday. It is a thrilling drama of Long Island society and the sacrifice made by a young girl to protect her mother's name.

Miss Dana is supported by a cast that includes Malcolm McGregor, Hantly Gordon, Cyril Chavilich and Miss Dana's sister, Edna Flanagan. It is a thrilling drama of Long Island society and the sacrifice made by a young girl to protect her mother's name.

"The Social Code" is all that a motion picture should be and has been looked for a special presentation at the Pease Theatre Saturday night. Prize Night.

Lambert Odendahl Injured
Lambert Odendahl received a serious injury, last Friday, when his right hand was practically blown off by dynamite. His hand was so mangled that Dr. Wiseman found it necessary to amputate the hand at the wrist.

Mr. Odendahl was blasting stumps and the injury was caused by a premature explosion of a fuse. Picric acid was being used for the work. He also received a cut over the left eye.

Reorganized Normal

Pine City High School will reorganize the Normal Training Department next year. If the required number of eligible persons can be obtained to attend this program of the school, in order to obtain this department, there must be eight eligible students enrolled. Anyone who has graduated from a high school is eligible. All those interested in this work who are eligible, and wish to enroll in the Teachers' Training Course, may apply to Mr. Brown.

The Pinnacle
The first band concert of the season was given in the park last evening. Concerts will be given every Wednesday evening until further notice and the folks in the country are especially invited to come in and enjoy the concerts each week.

Egg Marketing Meeting Saturday

There will be a meeting of those interested in cooperative marketing of eggs, to be held in the village hall at Pine City on Saturday of this week, May 17th at one o'clock. County Agent Hammgren of Hinckley and other speakers will be present to explain the plan of marketing that is proposed. It is hoped that all those interested in the marketing of eggs will attend this meeting, when the matter will be thoroughly discussed.

Those interested in the association are confident that a cooperative egg marketing association will mean much higher prices for eggs. All who have eggs to sell should be present at the meeting and learn the details of the association.

Highschools Will Debate at Grasston

Saturday night, May 17th, the State Championship Debate of the State Graded High School Debating League will be held in Grasston at 8:15 P. M.

Grasston will debate with Ashby, Minn., on the immigration question; Grasston taking the affirmative side and Ashby the negative side. The Minneapolis Journal will present a silver flying cup to the winning team. This cup is valued at almost six hundred dollars. Grasston has won four debats this far. As half of the district of the Grasston school is in Pine County, we feel that we have an interest in this debate. Let's go over and see Grasston win this cup. Mr. Fred Grätzelman, Superintendent of the Remor school, and President of the Debating League will be the presiding officer at the debate.

Married Wednesday

A quiet wedding took place yesterday morning at 9 o'clock when Miss Mary Pangerl and John Heyda were united in marriage by Judge Wilcox in the court house. Wm. Pangerl, Pauline Pangerl, Fred Pangerl and Clara Heyda attended the ritual couple.

The wedding dinner was served at the home of the bride's parents at noon and the party was entertained there at supper. A dance was held in the evening when friends and neighbors gathered to celebrate the happy occasion and extend congratulations to the happy couple.

The bride is the daughter of Mr. and Mrs. John Pangerl, living west of town and was born and raised in this community. She has been employed in St. Paul the past three or four years.

The groom is the son of Mr. and Mrs. John Heyda living east of town. He was also born and raised here. The couple will make their home on the farm of the groom's parents.

The young couple have a host of friends in this community who will join with the Pine POKER in wishing them the best of success and happiness throughout life.

Les Wilcox High Man

Maclester won the annual triangular track meet held at Norton field, Hastings, with a total of 684 points. Hamline scored 384 and St. Thomas was third with 38. Maclester presented a team that was well balanced in both the field and track events and was never out of the lead.

Les Wilcox, Captain of the Maclester team, was high point man of the meet with 181 in the 440 yard run, 220 yard low hurdles and third in the 100 yard dash. He also ran in the winning relay team, Edmund Lowe, son of Rev. and Mrs. Lowe, took third in the two mile run.

Eight Schools to Compete at Meet

The decision of the "Little Eight" held on Saturday, April 26, that the meet will be held at Pine City, May 24, 1924. At this meeting Supt. Orwall of North Branch was elected president, and Mr. Brown, Supt. of Pine City Schools, secretary and treasurer.

The schools are divided into the north and the south, four schools in each half. At 10:30 the winner of the four north schools and the winner of the four south schools will play a game to determine the baseball championship.

The track and field events will take place at 2:00 P. M. These include the 50 yard dash, the high jump, the 220 yard dash, the shot put, the 100 yard dash, discus throw, half mile run, 120 yard high hurdles, pole vault, 220 yard low hurdles, broad jump and half mile relay race.

At 7:30 P. M. the declamation contest will be held at the Franklin theatre. In this the picked scholars from each school will compete. In this phase of the contest girls have just as much chance as boys.

It is the hope of every student and every teacher that Pine City will make the best possible showing, both in the athletic sports and in the declamatory contest. To make this wish a fact needs the cooperation of everyone. Only by showing true school spirit and willingness to do a little hard work can honors be won. —The Pinnacle

ARTILLERY BATTERY IS ASSURED

Pine City is assured of a battery of the field artillery, and present indications are that the new members of the National Guard will be mustered into the service in less than two weeks. The committee in charge of the enlistments has been busy the past week and they have already secured 54 members.

Fifty members are required to complete the organization and six months time is given to complete the battery to full strength of 65 members.

Lieutenant Hinkens of the state adjutant general's office was here the forepart of the week taking the enlistments and he stated the department would have the organization completed within the very near future. As soon as the members are mustered in the horses, guns and other equipment for the battery will be requisitioned and would undoubtedly arrive within two or three weeks.

The committee in charge of the organization, Clint Boo, M. B. Hurley and H. V. Jorgensen are anxious to hurry things along as fast as possible so the battery can receive as much drilling as possible before they leave for the two weeks encampment, to be held at Battle Creek, Mich., some time in July. The members will get about \$52 pay for the two weeks at camp with all expenses of the past of the local pitchers and poor base running helped the Mora team to victory.

Anyone wishing to join and have not come so, should see Mr. Boo or Mr. Jorgensen.

By IRVING BACHELLER

COPYRIGHT BY IRVING BACHELLER.

This story is the capstone of a brilliant and enduring literary career. Mr. Bacheller was engaged upon the actual writing for three years, but it is the fruit of a life's reading and thinking, the flower of mature imagination. Here in memorable narrative are the fine flavor of romance, the quick thrill of bold deeds, the universal appeal of courage and self-sacrifice. Again as in "A Man for the Ages," the author has found inspiration in the life and public services of a great American, Benjamin Franklin, the most human, wise, engaging and lovable character in our early history dominates the novel.

Here are the Reasons for the Power, Smoothness and Endurance of Oakland's Six-Cylinder Engine

1. Oakland's new six-cylinder L-head engine is of the most advanced design. Its remarkable performance is the logical result of competent engineering and high grade construction throughout.

2. The large, perfectly-balanced crankshaft runs in big, special, bronze-backed bearings. These patented bearings are positively the best that money can buy.

3. Lubrication is forced by means of a reliable gear-type oil pump. Main camshaft and connecting rods are permanently fitted into each cylinder with extreme care and precision. Vibration and wear are practically eliminated by this process.

4. The connecting rods are light and strong. The ball-and-socket bearings are permanently bonded to each rod with pure tin—the most approved process and also the most expensive.

5. The camshaft is driven by a silent chain running in a bath of oil. This is conceded the best type of drive and the most accurate. There is a convenient external adjustment.

6. Oakland valves are of special heat-resisting alloy-steel. So efficient are they that valve grinding is necessary only at very rare intervals.

7. The intake manifold is scientifically designed to insure perfect fuel distribution to all cylinders, and therefore smooth, economical operation. There is a handy temperature adjustment for summer and winter.

8. The electrical system maintains Remly standards of excellence. The spark controls entirely automatic, which means that the engine will deliver the maximum of power under all conditions.

9. The single-plate disc clutch is simple and durable. It is self-adjusting for wear. Its smooth operation makes possible the remarkably easy shifting of the True Blue Oakland.

Theatre Notes

Saturday—
Viola Dana in "The Social Code."

This is far and away the biggest thing that Miss Dana has done yet; a superb dramatization of Rita Weikman's great story, "To Whom I May Concern." Miss Dana appears as Babs, the reckless little society butterfly, whose life is a whirl of new dances, new kisses and new sporting events, and who becomes the central figure in the sensational murder of a New York clubman.

Also an comedy "Tail Lights Prize Night."

Sunday—
Wesley Barry in "George Washington Jr."
A snappy, jazzy, social comedy in which "Freckles" emerges from knickerbo into the long-trousered role of a dashing young hero.

First time shown here, advertised once but not shown. Also a comedy "No Parking."

Tuesday—
"Santa Fe Trail,"
"The Nere to Return Road,"
"Look Out Below,"
Kinogram,
Family Night.

Thursday—
Enid Bennett in "Strangers of the Night," (Captain Apple Jack).

"Ye, HE, HO! AND A BOTTLE OF APPLEJACK!" The ri-roaring, rollicking crew of Captain Applejack's pirate brig get into a vicious humor over their grog, and mutiny fills the ranks as their swagging commander forgets everything in dalliance with a Portuguese girl captive. Captain Applejack is the mildest mannered man that ever sailed a ship or cut a throat, and how he weathers the storm of mutiny is told with thrills and laughs aplenty in "Strangers of the Night."

Also an comedy "Our Gang" in "Dogs of War."

Friday—
Constance Talmadge in "East Is West."

Its stage eclipsed by screen splendor,
8 reels of wonderful drama, radiant romance suffused with Oriental spell. Directed by Sidney A. Franklin, who directed "Smilin' Through."

The rescue of little Ming Toy from the evil Love Boat in Shanghai.
She escaped wife-slavery there, but risked it again in San Francisco's Chinatown, where Charlie Young, "Fifty-fifty Chinaman," sought her out. But Billy Benson, who had saved her once, found her.

And there begins the clash of East and West—of colorful conflict—of western wit and eastern wile—and through it all the pliancy of Ming Toy endears to the hearts of the word.

A First National Attraction. Also "Shooting the Earth."

You Pay for a De Laval Whether You Buy One or Not

If you are using a worn-out, inferior cream separator, or skimming cream by hand, you are surely wasting enough cream to pay for a De Laval in a short time.

The selection of a cream separator is more important than that of any other machine on the farm, for none other can either save or waste so much, twice a day, 365 days a year.

A De Laval Separator will:

- Skim cleaner for many more years than any other;
- Skim milk cream at lower temperature than any other separator;
- Deliver a higher testing cream, which is more acceptable to the consumer, and will last only in winter;
- And deliver a cream which will make better butter.

Do not be deceived by separators which are claimed to be "just as good and cost less." When you compare its greater savings, greater reliability, longer life, the extra time it saves, and the greater satisfaction it gives, the De Laval is, in the end, by far the most economical.

A pretty sixteen-year-old flapper attended a dance the other night and while taking lunch afterward at a cafe saw one of the leading citizens of the town in the cafe.

Gasoline Prices Lowest

AFTER extensive analysis of government statistics, The Oil & Gas Journal, of March 20, 1924, says:

"Gasoline is and has been the lowest priced commodity generally used during the past eleven years, and its average cost during that period has been always lower than the average price of all commodities."

Taking 1913 price level as 100, the January, 1924, price level of all commodities is 151—while the price of gasoline is only 97.

Thus it is shown that in January, 1924, the dollar would actually buy more gasoline than it would in 1913.

The statement of the Oil & Gas Journal bears out the statements of repeated by the Standard Oil Company (Indiana) that the price of gasoline is low.

That the petroleum industry has been able to keep down the price of gasoline is an achievement worthy of note.

It demonstrates the efficiency of the Standard Oil Company (Indiana) and other similar institutions.

This result has been accomplished without in any way sacrificing quality of product, nor has it been accompanied by any decrease of service.

For example, the Standard Oil Company (Indiana) is constantly expanding its vast network of service stations, located, necessarily, on high priced property in order to be accessible to the main arteries of travel. These stations are open for service, days, evenings, Sundays and holidays.

In addition, huge sums of money have been expended by this Company for other equipment—bulk storage depots, pumps, tank wagons, and other items necessary to render a complete and comprehensive service—yet with all these large expenditures the price level of gasoline in 1924 was lower than in 1913.

All of which is in support of the ideals animating the Management of this Company—a combination of high quality, best service, and low prices.

HARD TO TELL

Mrs. Evans, the vicar's wife, was interested in the well-being of those under her husband's care. She knew every family in the village and most of their illnesses as well, which is saying a good deal.

One morning she met Mrs. Fogarty in the main street.

"Well, and how is your husband getting on now?" asked Mrs. Evans, with a kindly smile at the old woman.

"Well, replied Mrs. Fogarty, shaking her head, "sometimes he's better and sometimes he's worse, but from the way he grows and takes on when he's better I think he's better when he's worse."
