

Lafollette Meets Draws Crowd

The first gun in the "Lafollette for President" campaign in this community, was fired last Sunday evening at a meeting held in the park at Pine City. There was a large crowd...

The principal speaker of the evening was Al Jennings, one time notorious gambler of Oklahoma and now a resident of California. He has been a reformed evangelist and public speaker the past twenty years...

Mr. Jennings sprung into national prominence last winter when he testified at the congressional oil investigation in Washington. In his address Sunday evening he referred to the investigation and other oil scandals...

Mr. Jennings is an entertaining speaker and has a fund of wit and humor that kept his large audience in a merry mood. He spoke at a Farmer-Labor picnic at Stanch field in the afternoon.

George D. Brewer of Minneapolis, Farmer-Labor nominee for congressman of the tenth district, was also one of the main speakers of the evening.

Mr. Brewer is an able orator and during his talk he eulogized Senator Lafollette with a burst of oratory that reminded one of the silver-tongued oratory of William Jennings Bryan.

He stated he believed that practically every vote, regardless of what party or candidate was cast for, would be voting his convictions, and it was up to the Farmer-Labor speakers to convince the voter that that party was the one to vote for.

Mr. Hurd, an officer of the World War Veterans organization, was the first speaker who spoke for the Farmer-Labor candidates and especially Floyd Olson, nominee for governor. E. J. Prochaska presided at the meeting.

Can Get Pyrotol

The farmers of Pine County and others interested in the advancement of agriculture in this county can at this time secure an additional war explosive which is called Pyrotol. There was 220,000 pounds of Sodastol shipped into this county last year and the farmers took advantage of this cheap explosive and consequently were frank to buy more. A large fund has been cleared per capita in Pine County this year...

Pyrotol comes shipped in 50 pound boxes, the same as Sodastol. There are 150 cartridges in each one of the boxes, comprising 200 of these to 100 pounds of Pyrotol. The strength of Pyrotol is twice that of dynamite. Flushing that you get 300 sticks to 100 lbs. this Pyrotol will be cheaper than Sodastol. It will be provided if it is placed in your hands. This explosive will be distributed in Pine County and all other points where 500 or more pounds or more is ordered at around 10c per pound. We can not give you a definite price at this time but it will be 10c. As long as the blasting caps last one box of 100 No. 6 Blasting Caps Free of charge. We will have the first order here around September 15 for fall blasting. If you wish to get in on this kind of return to the Pine County Farm Bureau at the rate of \$7.00 per box, do not wait but get in this so that you can get your explosive this fall, also in on the free caps. Please on getting 200 pounds of Pyrotol for between 15 and 10 dollars together with 100 blasting caps. It is a sure thing. Send your remittance once and be in with the best ones.

Askov Farmer Killed by Horse

Nada Nielsen, farmer, south-east of Askov, met with terrible accident early Monday afternoon, being kicked in the face by a horse, which caused his death.

Mr. Nielsen was leading hay on a hay rack out in the field. Mrs. Nielsen was also out to look with the work but had temporarily gone to an account of getting stung by a bee. She was home only a few minutes when the horses with hay rack and oldest daughter in it came to the yard on a slow trot. Anton J. Dietz, owned by Mrs. Nielsen, happened by and Mrs. Nielsen immediately ran to the field to locate Mr. Nielsen and there found him lying on the ground dead, having been kicked by one of the horses.

Just exactly how the accident occurred is not definitely known, but the files were bothering the horses considerable and it is probable that Mr. Nielsen in quieting them came too near and received a tremendous forefoot kick. His horse's hoof caught him squarely on the side of the face, and he was hurled back of his head evidently landed on some part of the wagon or hay rack as that was also badly torn, likewise was he bruised on the shoulder.

Indians Can Vote

To the Indians belonging to the Cass Lake Agency. You are hereby informed of the passage by Congress of an Act approved June 2, 1924 (Public No. 175), as follows: "Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That it is the policy of the United States, Provided, That the granting of such citizenship shall not in any manner impair or otherwise affect the right of any individual to tribal or other property."

Under this law, as you will notice, all Indians born within the territorial limits of the United States are declared to be citizens of the United States. You are therefore citizens of the United States and of the State in which you reside.

An important fact in this connection is that you have the right to vote at the election in your State under the same condition as other residents of the State. Having this undoubted right, you should inform yourselves as to the laws of the State so that you may have a full understanding in this matter.

Your special attention is directed to a general election that is to be held in November of this year, about three months from now, at which time the President and Vice President of the United States and many other officers are to be elected. Very sincerely yours P. R. Wadsworth Superintendent

Funeral Services Tomorrow

Funeral services will be held for Mrs. John Fisher from the Piper undertaking parlors tomorrow morning at ten o'clock and interment will be made in the Bohemian cemetery east of town. Mrs. Fisher passed away at her home in Onamia election day evening at 8:30, death resulting from cancer of the liver. Mr. Piper went to Onamia and brought the remains here in the hearse. Mr. and Mrs. Fisher were residents of Pine City about seven or eight years ago and moved from here to Onamia where they were buried out in the fire. They are running a hotel at Onamia.

Mr. and Mrs. Cap Hancock drove to Berona today where they will spend the balance of the week with the firm with Mr. and Mrs. Ben Hancock. Exercise for Tired Eyes Lie on your back and rest the eyes down to the feet and then to the nose and then down. Look straight forward all the while. Do not blink. Use a diluted borax acid eye wash. The eyes are much as you see.

Bankers Meet at Pine Lake Saturday

The second annual convention and getting of the Pine City bankers' association will be held at Pine Lake at Hart's Lodge on Saturday afternoon of this week. The Pine City banks will be closed Saturday afternoon to give the employees the opportunity to attend the meeting.

Following a short program, there will be a business meeting for the discussion of banking problems. The business session will be followed by a football game between the bankers of the north and south sections of the county. The visitors will also have the opportunity to enjoy boating and bathing. Following is the complete program for the day: Song by the convention—Selma. Reading—Miss Ester Peterson Minneapolis. Vocal Solo—A. C. Christianson, Hinckley. Address—Curtis Johnson, Rush City. Reading—Miss Peterson. Vocal Solo—Mr. Christianson Business Meeting. R. Tenba's Game North vs. South. Ray Point's Pine City orchestra will play during the banquet and the orchestra will also play for the regular Saturday night dance in the pavilion.

Wm. Hurley of Sandstone is president of the association with C. L. Jack, Hinckley vice president and Jas H. Hogan of Karick secretary.

"The White Sister"

The Henry King production of "The White Sister," starring Lillian Gish, at the Family Theatre, Sunday and Monday stands as one of the truly great motion pictures. It is a perfect visualization of P. Marion Crawford's widely read story, told in all its dramatic intensity and order in Italy against the beautiful background described in the original.

Miss Gish rises to supreme heights in the remarkable photoplay. Her portrayal of Angela places her in a class by herself—the one, real thrilling genius of the screen. The actual eruption of Mt. Vesuvius is shown. Molten lava, flowing down the side of the mountain is pictured with the mouth of the crater belching forth its deadly fumes and fire. On top of this comes a flood, with an entire town being wiped out. "The White Sister" is a picture that nobody should miss. It was made in Italy.

Explains Lower Price

The recent decrease in the price of butter is accounted for, says H. F. Meyer, in charge of the butter sales department of the Minnesota Co-operative Creameries Association, by the fact that there is an overproduction of butter due to continued pastures. In a statement made last week to the Minnesota Farm Bureau Federation, Mr. Meyer commented on the fact that the price of butter extras at the present time is 37 1/2 cents as compared to 44 cents for the same period of time last year. "This is due," said Mr. Meyer, "to the fact that last year butter was scarce, while this year with comparatively rainy weather pastures have kept up, causing an overproduction of butter. It is going into storage this year as rapidly as it was coming out of storage at the same period last summer."

According to Mr. Meyer, government figures show that there are 102,000,000 pounds of butter in storage at the present time, an increase of 5,000,000 pounds over the same period last year. Butter is going into storage at the rate of 8,000,000 to 10,000,000 pounds a week.

"The unfortunate part of the situation," said Mr. Meyer, "is that the fine butter from Minnesota is going into storage instead of into the consumer's hands. This is because Minnesota sweet butter keeping qualities than the centralizer butters, so that it is going into direct consumption." Farm Bureau Plein Postponed The Farm Bureau picnic that was scheduled to be held in the Fritzen grove on August 14th has been postponed due to the Chicago county fair coming on that date. It will be held a week later on August 27th.

Farmers' Profits Are Exaggerated

"Exaggerated estimates regarding the enormous profit which the recent rise in prices has already meant to farmers are premature, unwarranted and misleading." So reads a statement issued by the Minnesota Farm Bureau Federation last week.

The Farm Bureau desires to take as their view of the present agricultural situation as possible, says the above statement. "On the other hand, some of the recent estimates of profit, especially with regard to the large profits which are being made and will be made by farmers, especially in the Northwest, by reason of the recent price rise are on the surface absurd." "It is all right to talk about the high price of corn, wheat and other products," the statement continues. "If the present prices in these products are obtainable when the farmer is ready to market his crops agriculture will indeed be in a position which it has not enjoyed for four or five years. So far as wheat is concerned there is every reason to believe that present prices will continue." World conditions indicate that there will be a scarcity in wheat and that a good price will be obtained for the wheat that is available.

"The situation so far as corn is concerned, however, is quite different. The outcome of the corn is matter of speculation. Reports from all sections of the Northwest do not warrant too great optimism with regard to this crop. The corn situation is by no means good. Stands are extremely spotted, many fields are full of weeds, and much of the crop is so far behind that it will need something approaching a frostless fall to mature. If despite its backwardness, corn should mature and yield well, there is a chance of a lowered price through a reduced livestock feeding. This might easily happen through a reluctance on the part of feeders to feed high priced corn to livestock.

It should be understood that so far as the present prices of farm products are concerned these are of little benefit to the farmers of the country. What, for instance, is high in price. But it should be remembered that the largest percentage of the 1923 wheat crop as out of the farmer's hands before prices showed any decided upward trend. It is estimated that considerably less than 10 percent of the 1923 wheat crop remained on the farms of the country on July 1. Comparatively few farmers, therefore, are benefiting from the recent price rise.

The Farm Bureau has no desire to appear pessimistic. It does feel, however, that there has been a lack of balance in a lot of the estimates and projections which have been printed. A good crop and a continuation of debts and an easing of the strain of the last four years. Another good crop will be necessary, however, before the farmer can make any appreciable expansion in his farm program.

Incidentally, it will be time enough for the farmer to think about expanding in any degree when he realizes a good return on his 1924 crop.

Mrs. Holetz is Champion

Mrs. Jos. Holetz is the champion tennis player of the fair in Pine City, having defeated Miss "Peggy" Carlson in the final game of the tournament. The game was started on Saturday evening but was called on account of darkness and was finished the following morning. There were twelve young ladies who participated in the tournament and some mighty interesting games were played. After seeing some of the girls, it was decided to give the men to practice up a little bit or they are liable to be outclassed.

Farm Bureau Plein Postponed The Farm Bureau picnic that was scheduled to be held in the Fritzen grove on August 14th has been postponed due to the Chicago county fair coming on that date. It will be held a week later on August 27th.

Everything is all ready for the big band picnic next Sunday at Belvidere's point on Cross Lake, and according to the advance dope, it will be a "dinger." The day's festivities will start at eleven o'clock in the morning and there won't be a dull moment from then until six o'clock in the evening. The band will eat both dinner and supper on the grounds. No admission will be charged and everyone is urged to pack lunch and attend the picnic. There will be two addresses, starting at 1 p. m., by M. B. Hurly, one of the nominees for district judge, and by J. S. Therrien, Pine County's state representative. A film program has been lined up as follows: 1) A. M. Band Concert 12) M. Mess Call Prizes will be given for the best looking Ford and the worst looking one on the grounds. Judging will start Sunday afternoon. Selection by the band Band blowing contest Ball game P. C. Band vs P. C. Business men Horse shoe games Lawn tennis Throwing contest Men stepping race Ladies foot race Boys board race Small boys foot race Small girls foot race Girls foot race 1) hot band concert And if there is time other sports will be put on.

Big Program for Annual Band Picnic

Everything is all ready for the big band picnic next Sunday at Belvidere's point on Cross Lake, and according to the advance dope, it will be a "dinger." The day's festivities will start at eleven o'clock in the morning and there won't be a dull moment from then until six o'clock in the evening. The band will eat both dinner and supper on the grounds. Richard Gray and Mrs. Ethel Gray were united in marriage at the home of the bride's parents, Mrs. and Mr. A. P. Norwood, at Meadow Lawn, this afternoon at 2 o'clock by Rev. Lowe of Pine City. The wedding was a quiet one only relatives being present. Mrs. Gray left for the Twin cities this afternoon for a short trip and will return Monday when they will start housekeeping in the new home formerly occupied by the DeWeese family. The groom has been a resident of Pine City since 1908 when he came here with his parents from Delano, Minn. He was born in Texas. He served in the navy during the war and upon his return he went into the picture framing and photograph business in the Piper furniture store. He purchased the photo studio from Fred Blostein in February of last year and has since been growing until he is recognized as one of the best photographers in this part of the state.

Mrs. Gray has been a resident of Pine City for the past two years when she came here with her parents. Her many friends of Mr. and Mrs. Gray join with the Piker in wishing them the best of success and happiness.

Battery Visits Rush City

There was a large crowd out to hear the Pine City Band at Rush City, last Monday evening. The concert was given for the purpose of advertising and securing recruits for E battery of Pine City. The battery assembled at the army and made the trip to our neighboring village in automobiles. There were quite a number of local auto parties drove down for the concert last night.

In addition to the enlistments taken at Rush City Monday evening, Spids Ingram, Charles Gray, Wm. Koontz and Jos. Prada joined the battery last Friday evening. The enrollment of the organization is now close to the number made and will not be long until the local organization will be a three section battery and the largest battery in the state.

Bever Bros. Start Threshing

Bever Brothers will start threshing today on the 853 Bever place and have three weeks threshing lined up in this community. Nick Bever will be in charge and Mr. Webster will take care of the butcher shop during his absence.

Korn and Klover Carnival Aug. 21

At a meeting of the executive committee of the Korn & Klover Carnival Monday evening, details were threshed out and the committee has started its work in earnest. The following assignments were made: Sports and Finance—H. A. Wheeler. Publicity—V. Olson. Exhibits—J. C. Holger and W. F. Hammergren. To date the plans cover the exhibits, street sports, a ball game and a movie matinee in the afternoon.

In the evening the home talent play "Ah! I Intruding" will be present. Those taking part are working hard in preparation and the play will be well rendered. After the play a dance will be given in Dempsey Hall which has been donated for the purpose and the music will be furnished by Thorne's orchestra of Sandstone which alone should insure its success. Further plans will probably cover a picnic dinner with music by the band and perhaps a few short talks. It is the hope of the Community Club that everybody would get behind this celebration on August 21st and make it "go over big". Conditions locally are improving rapidly and the people should get out of the "the dumps". Make this day what it used to be and forget your worries. The prize banner which was won by Lone Pine Farm Club at the last Carnival will again be up for competition on exhibits. The first club to win this banner for three years will retain it permanently.—Hinckley News

Tour on Spud Inspection

Travelers on the trail of top-notch tubers, such as potato producers in other states are glad to pay preliminary visits to the great annual Minnesota potato tour at Meadowlands, St. Louis county, Saturday August 9. They found a growing interest in the production of certified seed potatoes. A. G. Tolson, in charge of the state's potato seed certification work, a member of the party, reported that the acreage of seed potatoes entered for certification this year was about 5,500, or 1,500 more than last year. C. C. Dose, plant disease specialist of the extension division, Minnesota College of agriculture, who was in charge of the tour, said that the disease until he is recognized as one of the best photographers in this part of the state.

The object of the tour is to give buyers from more southern states a chance to see the Minnesota seed potato crop in the making, and to acquaint growers with the demands of such buyers. It is also the aim of the tour to familiarize producers with potato diseases, insect pests, and other obstacles to successful potato culture so that they may avoid losses and increase their gain.

With the tourists this year, including specialists from college of agriculture, were buyers from as far away as Florida and other states. The Minnesota seed potato crop in the making, and to acquaint growers with the demands of such buyers. It is also the aim of the tour to familiarize producers with potato diseases, insect pests, and other obstacles to successful potato culture so that they may avoid losses and increase their gain.

Candy "With Kick" has Been Put Under Ban

Be careful what kind of candy you give your best girl. This warning was issued by S. B. Quale, state prohibition director, yesterday. One fellow gave his girl candy and she bit him on the ear. Another gave her the same thing and was chased all the way home by the young lady, who declared she could lick him and Jack Dempsey in the same ring.

News of the 90-horse power candy began to get about and on investigation it was found that a certain brand of candy made by a New York company (name not given on request) contained enough whiskey per pound to start a large evening. The director also found that the salesman was selling it direct to the girls, some of whom thought it was a particularly tasty bit of confection and paid \$2.50 a pound for it.

GUST ANDERSON ASKS FOR BAIL

Gust Anderson of Rock Creek, former county Commissioner of the first district, has made an application for release from jail under bond. Attorney Lauson of Hinckley appeared before Judge Searles last Monday noon with the application, saying the Rush City Hospital set bail at \$5,000 cash or its equivalent, satisfactory to County Attorney Johnson, and Mr. Anderson will be released until the October term of court when the bail is furnished and accepted.

He is in the Washington county jail at Stillwater where he has been since the assault on his wife the forepart of July. Upon his release, he plans on visiting with a son in Hibbing until the trial. Mrs. Anderson is now at the arm home in West Rock, away from the Rush City Hospital last week. She is well on the road to recovery and we understand her eyeing is all right. She is still carrying her arm in a sling however. Judge Searles cleared the Pine County court calendar of 34 fire cases last Monday when he dismissed all but four of the cases of Olga Gleisinger. The Judge convened a special term of court last Monday afternoon, which had been set for the trial of the fire cases and the case of Olga Gleisinger. The government had agreed on, at the term in July is the one that would be tried. A jury to try the case was empanelled in July, and the jurors and the court were here ready to proceed Monday. When the case was called, attorneys requested an adjournment and Attorney Coe of Minneapolis stated he was ready to proceed with the trial of the E. M. Smith case, agreeing to use the same jury. This was not agreed to by the attorneys for the defendants as the plaintiff's attorney wished to try the case on a new theory is to the origin of the fire. An amendment to the original complaint had been filed by the plaintiff shortly before court opened. Judge Searles stated that he had opened a special term of court here to try the fire cases and each time attorneys had asked to have them continued, and each time there was a new set of attorneys handling the cases. He referred to the heavy expense the county had to bear each time court convened and a jury was called here. He then ordered the sheriff to call the case that had been set for trial. No one responded and the case was dismissed for lack of prosecution. The court then directed the sheriff to call all the fire cases and 354 were dismissed. Only four were continued and left on the calendar. These were Smith case and the Albert Stern, the Arthur Raines and the Mary Moudre cases. A couple of other court matters were disposed of and court adjourned Tuesday morning until the October general term.

# News Briefs from The State

## Consistent Stories of Happiness of the Week in Minnesota

**Austin**—Miss Mary Louise of Spirit Valley was appointed home agent for Mower county at a meeting of county club leaders here.

**Tracy**—Improvement which is estimated to cost \$100,000 will be commenced on the First Presbyterian church building here.

**Duluth**—Dr. E. L. Tushy, of Duluth, was elected president of the Northern Minnesota Medical Association at the closing session here of the two day annual conference.

**Windom**—While drilling a well near Okabena, two valves of coal were encountered. One vein two feet thick was struck at a depth of 40 feet from the surface and another vein was struck at a depth of 85 feet.

**Fairbault**—Old St. Mary's hall, the main building at St. Mary's Episcopal school for girls here, was destroyed by fire after lightning had struck the roof of the structure. School authorities said the loss would amount to \$154,000 with insurance of \$100,000. It is expected that the structure will be rebuilt.

**Hokah**—Ed Selke has revived navigation on the Root river between Hokah and the Mississippi river. A steamboat had not made a trip from Hokah to Hokah for many years, but Selke is running a powerboat on this old creek with all the assurance of safety that marked the passage of the steamers.

**St. Paul**—Overturning of a Minneapolis St. Paul bus resulted in the injury of four persons and 15 others being shaken and bruised when the bus was struck by a street car. The accident was one of a series of week-end accidents reported to the police from the Twin Cities in which two children were killed and a total of 17 persons injured.

**Duluth**—A resolution protesting against the closing of the partridge season in Minnesota, was unanimously adopted at a weekly meeting of the Northwestern Gun Club. A committee of three was appointed to telegraph Governor Johnson, brought 10,000 citizens to southwestern Minnesota to Tracy to replace 10,000 other visitors who had left behind them by residents of Minnesota.

**Austin**—Two sets of tentative plans have been offered for the Shaw Memorial building at Austin, a gift made to the youth of Austin this year. Construction of the gymnasium and auditorium building, with reading rooms for boys, is to begin by September 1 at a site facing on both sides of the street and the Horace Austin State Park.

**Austin**—To strike a bridge with his automobile with such force that the bridge was destroyed and the car buried a flooring plank 20 feet and wrecked the car, and yet escape with a few minor scratches, was the experience of Stanley Fisher of Austin. The car crashed into the University of Minnesota campus.

**Rochester**—Traveling in Packards and other cars of the most expensive make, the department records and that they differ from the statements of the living man, who has been investigated by the Frasier parents as their son.

**Zumbra Heights**—Out of 75,000 trials, the University of Minnesota breeding experiment station has topped the 80 associations of the state for the month of June, according to reports received by E. E. McMillin, county agent. Blueberry County Association No. 2 led the field in June.

# IMPROVE CORN FOR MINNESOTA

Change in Ideas As to Seed Selection is Expected to Bring Results.

Edited by the Agricultural Extension Dept. University of Minnesota.

The date of the three annual short courses for the manufacture of dairy products, given annually by the division of dairy husbandry, department of agriculture, at the University of Minnesota, has been announced.

The first of the three courses for the coming fall and winter will be for dairy farmers and cream makers. This will come November 11-13.

The second of the courses, that for creamery operators will continue from December 1-3.

The third course, that for creamery operators will continue for six weeks, from January 1 until February 11.

These courses will be directed by W. B. Combs, the new head of the section, devoted to the manufacture of dairy products at University Farm, St. Paul.

Combs announced that he will be assisted by men prominent in the manufacture of butter, ice cream, and cheese, and in the handling of market milk, both from Minnesota and from other states.

This year's students will have the advantage of the new Dairy Farm building at University Farm, St. Paul, and more modern equipment than in the old dairy building.

The pamphlet giving details of the courses has been prepared and can be had by writing to Mr. Combs, Dairy Division, University Farm, St. Paul.

In announcing the dates of the courses, Mr. Combs says that it may be necessary to limit the number of students admitted to one or more of the courses.

**WELFARE WORKERS COMING**  
Conference on Social Problems to Be Held at U. Farm.

Family problems, school problems, problems of health and relief work, children's institutions and community work of all sorts will be discussed by persons of national reputation at the third annual session of the Minnesota State Conference of Social Work which will be held at the U. Farm, St. Paul, September 6-12, 1924.

Specialist speakers will be Mrs. Kate Burr Johnson, commissioner of public welfare, North Carolina; Frederic Lord, secretary of the Executive Board, Co-operative League of America, New York.

Dr. Hastings H. Hart, Russell Sage Foundation, and a letter will be read by Dr. Richard Holt, executive American Child Hygiene Association, Washington, D. C.

Eugene T. Biles, special representative of the Playground and Recreation Association of America, Chicago; Carl de Schweinitz, general secretary for Organizing Charity, Philadelphia; Alfred P. Whitman, executive secretary Children's Aid association, Boston.

Miss Neva Boyd, director Recreational Training School, Chicago. Social work specialists from Minnesota will also be present to participate in the discussions. Mrs. W. G. Combs, Brainerd, is president of the conference, and Mrs. Robbins Gilman, Minneapolis, is secretary. The following have represented at the meetings every woman's club, improvement association and civic group in Minnesota, also chairmen of county welfare boards, judges of probate, and representatives of boards of county institutions.

Persons registering from outside of the Twin Cities will be able to secure a ticket for transportation to University Farm at 50 cents a day. Meals will be obtained at the campus cafeteria at moderate expense so that expenses of visitors may be reduced to a minimum.

**TIPS ON EGG - MARKETING**  
A bulletin on the co-operative marketing of eggs has been issued by the extension division of the department of agriculture of the University of Minnesota, and is for free distribution.

The bulletin was prepared by E. C. Johnson of the extension division and covers such subjects as the progress made in the marketing of eggs co-operatively, the importance of the membership agreement in forming associations, the various methods of handling the product, grading and pooling, the fundamentals of success, and other subjects.

The bulletin is likely to be in large demand, think the members of the extension staff, because of the growing interest in the movement to put into practical operation the marketing of products on organized associations.

The farmer who likes to have labor-saving machinery should realize that his wife may feel the same way. How about running water in the kitchen?

Write the word "Grasshopper" on your calendar for next June, and then when you see the young grasshopper work feeding, report to the entomologist division at University Farm, or to your county agent if you have one.

The time to cut corn for silage is when three or four of the lower leaves are up and drop off.

It's a good idea—that of stringing some of those potatoes this winter, instead of "dumping" the whole crop on the market at once.

Windfall apples make good wine.

This is the time for picking hives. They will taste good this winter.

**Cop Retains His Job Though He May Be Rich**  
Hollywood, Cal.—Everybody knows that Roy L. Brown is a millionaire. He has a net worth of \$1,000,000. He is a cop in the Los Angeles police department. He has a net worth of \$1,000,000. He is a cop in the Los Angeles police department.

**Marketing Associations**  
Existing farmers' dairy products marketing associations are older on the ground than the fruit and vegetable organizations, according to statistics compiled by the United States Department of Agriculture. The average age of the dairy products organizations is 14 1/2 years as compared with an average of 10 years for 2,072 fruit and vegetable organizations. Some dairy and vegetable organizations have been in existence for 40 or 60 years.

**Alfalfa Will Preserve**  
Whole of Any Crop

Like Sweet Clover Plant Thrives With Liberal Application of Lime.

Various Plants Combine Well With Alfalfa.

The silo preserves the whole crop, stalks and leaves, in best form for feeding, whether from corn, sorghum or any other crop that hardly any of the food value of the plant is lost. The Colorado experiment station found that when corn was kept in large shocks 31 per cent of the dry matter was lost. When kept in small shocks, 15 per cent of the dry matter was lost, and when left on the ground 55 per cent of the dry matter was lost. With the silo much of this saved and the stock will not waste the stalks as they do in dry cutting.

The curing of hay is largely dependent on weather conditions, but silage crops can be put into the silo when the weather will cure regardless of weather.

# Silo Will Preserve Alfalfa Is Best

Whole of Any Crop

Like Sweet Clover Plant Thrives With Liberal Application of Lime.

Various Plants Combine Well With Alfalfa.

The silo preserves the whole crop, stalks and leaves, in best form for feeding, whether from corn, sorghum or any other crop that hardly any of the food value of the plant is lost.

With the silo much of this saved and the stock will not waste the stalks as they do in dry cutting.

The curing of hay is largely dependent on weather conditions, but silage crops can be put into the silo when the weather will cure regardless of weather.

No stalks remain in the way of farm implements and none are left in feed racks and managers to be thrown out and wasted.

Silage, whether from corn, clover, alfalfa or sunflowers, combines well with sweet clover hay, which is a staple crop in this state. Alfalfa contains the protein needed to balance the silage, while the silage supplies succulent feed and water. For this reason, silage will give better advantage with alfalfa than with any other crop. It will give better advantage with alfalfa than with any other crop.

**Methods of Control of Different Insect Pests**

The following methods of control for common pests are recommended:

**Codling Moth**—Use powdered lead arsenate, 15 pounds, or powdered calcium arsenate with 4 pounds of hyacinth root, 15 gallons diluted complete lime sulphur, apply 75 to 100 per cent of the petals have fallen and complete the work within ten days. Give a second application ten days later with or without lime sulphur.

**Orchard Aphid**—First spraying with lime sulphur 1 to 1, with nicotine sulphate 1 1/2 per cent, the 200 gallons, apply at beginning of June. For later applications use 2 parts of nicotine sulphate, 8 pounds soap to 200 gallons of water.

**Woolly Aphis**—Kerosene emulsion may be applied to overwintering colonies when noticed in the spring.

**Leaf-Feeding Caterpillars**—For ten cent control use 15 pounds of lead arsenate and 4 pounds of lime sulphur, 200 gallons of water. Apply when caterpillars are beginning to feed.

**Strawberry Weevil**—Apply sulphur-lime sulphur 15 to 20 at the rate of 60 to 80 pounds per acre when the work of the weevils is noticed in the field and further application is needed.

**Leaf-Fed Worms**—Apply powdered lead arsenate or spray to the foliage, unless the fruit is near maturity, when fresh hellebore, 1 pound to 5 pounds hydrated lime, may be used.

**Cabbage Root Maggot**—Two or three applications of corrosive sublimate, using 1 ounce to 10 gallons of water. Make the first application within four days of the first appearance of eggs on the plants and subsequent treatments at intervals of ten days.

**Green Cabbage Worms**—Apply a dust of 1 part powdered lead arsenate and 15 parts hydrated lime, or a dust of 2 parts powdered lead arsenate with 2 parts of lime sulphur to 40 gallons of water in two or three applications. Make the applications a week or ten days after the white butterflies become numerous in July. In garden plots fresh pyrethrum 1 part to 4 parts flour may be used.

The state recently issued a warning signed by prominent farmers and agricultural authorities against the crooked dealer. Fred Ferguson, dairy agent for the Agricultural Extension Service, said that the warning is to be posted in every bank of Iowa. Crooked contact with local breeders' associations will help to bring about the dairy business for the first time can well afford to pay a neighbor or friend the price of a cow for a high quality animal. And by all means, make sure the reliability of all parties selling cattle before buying.

**High Temperature Tends to Encourage Bacteria**  
Even with reasonable precautions to exclude bacteria from cream, a considerable amount will always be present. If the cream is left uncooled these multiply rapidly, soon spoiling the cream. Dr. H. W. Combs of the University of Minnesota has found that one bacterium in milk kept at a temperature of 50 degrees Fahrenheit for 24 hours will multiply to 200,000,000 in 24 hours. In milk kept at a temperature of 70 degrees for 24 hours will multiply to 700,000,000 in 24 hours. The increase is correspondingly greater.

**Oats for Dairy Cows**  
Oats are considered, especially when the silage crop is not good, as a good ration to feed dairy cows. A good ration to feed dairy cows consists of 200 pounds of oats, 200 pounds of hay, 200 pounds of corn and 100 pounds of alfalfa. Give each animal 1 pound of salt for every 100 pounds of feed produced. Oats alone will not dry up a cow, in fact a cow fed oats will do better than she would if not so fed.

**Utilizing Sweet Clover Depends Upon Its Needs**  
The best way to utilize sweet clover depends largely upon whether the pasture is used. The first crop of sweet clover, cut early and high, may be used for hay. The second crop come on so soon, it is advisable to cut the first crop just before it begins to bloom. If the crop comes into bloom at least two or three leaves should be left attached to the plant. If the plant is cut before the leaves are out, there will be no second crop. When the second crop is harvested it must be cut in a similar manner to the first crop. Sweet clover may be threshed with an ordinary threshing machine. If the growth is not very rank, it may be threshed with a clover baler.

**Marketing Associations**  
Existing farmers' dairy products marketing associations are older on the ground than the fruit and vegetable organizations, according to statistics compiled by the United States Department of Agriculture. The average age of the dairy products organizations is 14 1/2 years as compared with an average of 10 years for 2,072 fruit and vegetable organizations. Some dairy and vegetable organizations have been in existence for 40 or 60 years.

Le Gendre Sets New World Mark

Robert Le Gendre, former Georgetown university star and now wearing the colors of the Newark (N. J.) A. C., sets a new world's record of 22 feet 6 inches in the broad-jump event of the pentathlon at the Olympic games in Columbus stadium. Both spent most of his energy in the broad jump and fell behind in the other four events, scoring third for the whole pentathlon. The photograph shows Le Gendre throwing the javelin.

Miss Ruppert Is Fast

Frances Ruppert, Philadelphia miss and captain of the Meadowbrook reg. team, holds the National championship in the 30, 40 and 100-yard dashes, and has covered 40 yards just the second behind the championship time established by Loren Merichon of the Newark, A. C.

Pond Is Clever Fielder

Raymond Pond, who will captain the Yale 1925 baseball nine, was its star pitcher this year, winning ten of the team's fifteen victories. Pond was perhaps the cleanest fielding pitcher in the country. Of the fifteen games in which he took part, he made a single error, while he batted 287. Yale won and lost fifteen games during the season.

CIRCLING THE BASES

The St. Louis Nationals top their league in double plays. In the early days of baseball the team which first scored 21 runs won the game. Earl Smith, catcher for the Boston Nationals, has been purchased by the Pittsburgh club. Coffeyville resigned from the Southwestern league because of poor attendance at its games. Hal Chase, once a star of the Chicago White Sox, is playing first base for a ball team in Arizona. Holtie "Buntions" Zeller, former big leaguer, is now managing the Paris team in the East Texas league. Ted Blankenship, Chicago White Sox pitcher, has been indefinitely suspended because of alleged differences with Manager Evers. The hurler has gone to his home in Oklahoma. Owner Borchert of Milwaukee, denies that Ted Jordan, first baseman, joined the Brewers early in the season by Minneapolis, only to be recalled. Borchert says Kelley told him he could keep the player throughout the season. The uniform Babe Ruth has been wearing in a National Guard membership drive would have made a more profound impression seven years ago. Bobby La Motte, former Griffans, is starting at shortstop for Memphis. He is being called the "best shortstop in the circuit". In 1923 no fewer than 6,000,000 persons attended football games, 5,000,000 baseball games, 1,000,000 boxing matches, and 18,000,000 track and field meets, in the United States. Dizzy Vance, Brooklyn's star pitcher, is far in the lead in striking out opponents. Jack Blott, star catcher of the University of Michigan, who was sought by a number of major league teams, has signed with Cincinnati. Now that National League fixtures have become accustomed to the peculiar understand notion used by Carl Mays, former Yankee star, he is not meeting with nearly so much success as early in the season.

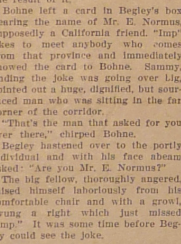

Little Mike McNally

Ball players often cling to a simple incident as the high point of their careers. Mike McNally of the Yankees whose weak batting keeps him from being a big league star, looks upon the time when he batted for Babe Ruth as the crowning feat of his career. It was in 1917 when Ruth and McNally were playing for the Red Sox that Mike swung for the fountains. "I didn't even think upon the fielder, but the incident is something I'm always going to remember," McNally says.

Jack Warhop Still Hurling in Bushes

This seems to be a season out of the ordinary for veteran baseball pitchers. Grover Cleveland Alexander, who is getting along in years, is pitching about the best ball of his career for the Chicago Cubs while Walter Johnson is winning frequently for Washington. Recently at College Point, L. Little Jack Warhop, who passed out of the big league nine years ago, shut out the South Philadelphia Hebrew team with three scattered hits. Warhop has discovered the fountain of youth. Warhop is nearing his fortieth milestone but the followers of the College Point team are firm in their belief that the little Indian could pitch winning ball in either the National or American leagues. "There are worse pitchers than Warhop," said the Chicago Cubs. "Jack is pitching real baseball for us, and it was a treat to watch him toss the ball against the bats of the Philadelphia players." "Perhaps he has lost some of his speed, but he's a smart little pitcher and the other fellows don't get many good balls to hit at. "He'll not throw the ball as fast as Darryl Vance but he's got the ability to start on every pitch and the opposing players have our own troubles trying to solve his baffling underhand curves." Warhop has been pitching for a long while. He first went out to the big leagues with the Detroit club in 1907.

Hollis Thurston Stars

Wonders will never cease in baseball. This time last year Pitcher Holtie Thurston of the Chicago White Sox was regarded as just "so-so." Today he is one of the most effective hurlers in the American league, ranking right up with the great Walter Johnson. Thurston came to the White Sox via the waiver route from the St. Louis Browns.

Sport Notes

Man-of-War is seven years old. England has 380 tennis courts in public parks. President Calvin Coolidge is a member of the Corinthian Yacht club of New England. Sixteen per cent of the proceeds of bookmakers of horse races in Germany goes to the government. The winning contestant in the national three-cushion billiard tourney as well as the pocket billiard championship series for 1924, was awarded the medal and draw a year's salary. It's funny how Susanne Lenglen gets sick every time she approaches a strenuous tennis match. Miss Mary K. Browne, former national singles champion, will be seen in eastern tennis tournament and titular play again this season. Boxing is prohibited in Vienna. Police in the Austrian capital declare that fighting in an immoral show and corrupts the character of youth. There must be some compensation for living in Russia. They say one hardly ever sees \$100 gold outfits with balloon breeches and tassels on the socks. Helen Huntington Wells, the American tennis champion, will be featured in an immortal show and corrupts the character of youth. There must be some compensation for living in Russia. They say one hardly ever sees \$100 gold outfits with balloon breeches and tassels on the socks. Helen Huntington Wells, the American tennis champion, will be featured in an immortal show and corrupts the character of youth.

Community Building Daddy's Evening Fairy Tale Concrete Burner for Disposal of Refuse

FRED'S FRIENDS Fred had made friends with Mr. and Mrs. Robin. Mr. Robin was very fond of a good dinner and he arranged for Fred to get a ride in a refuse burner constructed of concrete blocks.

CONCRETE REFUSE BURNER The height of three or four feet, this block is built on top of one or two blocks of the bottom course to form a draft opening. The top of the burner is covered with a heavy screen placed over the top of the structure will prevent particles of burning paper from being blown out as a result of strong wind.

Municipal Forest Be Work of Students The village of Saranac Lake is to have a municipal forest planted by the pupils of the local high school. The plan is to be done by the boys while the girls are organizing an auxiliary which will accompany the work to the boys of the high school.

Proper Objective Once a community has diagnosed its ills, it will know, presumably, wherein it is deficient and what should be done about it. President Harding, in his last address to the nation, said that the broad, general objective of every community should be the American idealism.

Flower Beds of Brick Small ornamental flower beds prepared by amateur gardeners are being developed to develop satisfaction because of the poverty of the soil. This can be overcome, according to the Popular Science Monthly, by using bricks. The bricks are not to be laid in a row, but are placed as close together as possible. The circular wall is made of single bricks placed on end.

Consider Before Building In every sense one's home will mean more and last longer in satisfaction if time has been taken to study all the details that enter into it, secure competent advice concerning its arrangement and construction, and complete every necessary transaction involved.

Renewal It costs more to renew any portion of the home than to have the work done right at the start. Many home owners find to their sorrow that it is costly to change the plan after building.

Ohio Town Progress Well-splanned correction farm of 111 acres in Dayton, Ohio, has been planted the old city workhouse building, which has been in use for a hundred years, first as a county jail.

The top of the burner is covered with a heavy screen placed over the top of the structure will prevent particles of burning paper from being blown out as a result of strong wind.

Municipal Forest Be Work of Students The village of Saranac Lake is to have a municipal forest planted by the pupils of the local high school. The plan is to be done by the boys while the girls are organizing an auxiliary which will accompany the work to the boys of the high school.

Proper Objective Once a community has diagnosed its ills, it will know, presumably, wherein it is deficient and what should be done about it. President Harding, in his last address to the nation, said that the broad, general objective of every community should be the American idealism.

Flower Beds of Brick Small ornamental flower beds prepared by amateur gardeners are being developed to develop satisfaction because of the poverty of the soil. This can be overcome, according to the Popular Science Monthly, by using bricks. The bricks are not to be laid in a row, but are placed as close together as possible. The circular wall is made of single bricks placed on end.

Consider Before Building In every sense one's home will mean more and last longer in satisfaction if time has been taken to study all the details that enter into it, secure competent advice concerning its arrangement and construction, and complete every necessary transaction involved.

Renewal It costs more to renew any portion of the home than to have the work done right at the start. Many home owners find to their sorrow that it is costly to change the plan after building.

Ohio Town Progress Well-splanned correction farm of 111 acres in Dayton, Ohio, has been planted the old city workhouse building, which has been in use for a hundred years, first as a county jail.

Daddy's Evening Fairy Tale CONCRETE REFUSE BURNER

FRED'S FRIENDS Fred had made friends with Mr. and Mrs. Robin. Mr. Robin was very fond of a good dinner and he arranged for Fred to get a ride in a refuse burner constructed of concrete blocks.

CONCRETE REFUSE BURNER The height of three or four feet, this block is built on top of one or two blocks of the bottom course to form a draft opening. The top of the burner is covered with a heavy screen placed over the top of the structure will prevent particles of burning paper from being blown out as a result of strong wind.

Municipal Forest Be Work of Students The village of Saranac Lake is to have a municipal forest planted by the pupils of the local high school. The plan is to be done by the boys while the girls are organizing an auxiliary which will accompany the work to the boys of the high school.

Proper Objective Once a community has diagnosed its ills, it will know, presumably, wherein it is deficient and what should be done about it. President Harding, in his last address to the nation, said that the broad, general objective of every community should be the American idealism.

Types of Loops Which Can Be Constructed at Small Cost. By HARRY GEORGE. Admitting that static is a bugbear to radio, it is not so terrific as you think. It affects all, but engineers have designed circuits and methods of reception that at the present stage of development can be termed as highly satisfactory means.

Best Type of Loop. Experiments proved that the best type of loop for use on the broadcast wave lengths measured about 5 1/2 feet on a side and consisted of four single turns of No. 18 green and yellow single conductor lamp cord. This loop was tuned by means of a 3000 variable condenser and the results accomplished by it fully equalled those obtained with an outdoor aerial measuring 100 feet long.

Removing Transformers From One Set to Another. This article is a description of a method whereby the formerly immovable transformer in a receiving set can be moved from one set to another as quickly as a vacuum tube. The scheme, as can be seen from the drawing, consists of mounting the transformers upon separate, identical bases of bakelite or formica on which are certain metal strips. On each strip are fastened the terminals of the transformers. If different makes of transformers are used, be sure the C, P, B, and F terminals are wired to corresponding contacts on the bases to prevent reverse connections as the transformers are moved from socket to socket.

Arrangement for Quick Transfer of A. F. Transformers for Test. Without disturbing any wiring or loosening any lightning rods or bonding posts. This arrangement makes the purchase of more than two or three transformers unnecessary, no matter how many different receiving sets the experimenter may use.

Receivers Should Have Variable Capacities. In sensitive radio-frequency receivers, the use of the variable capacitor to neutralize them over their entire tuning range. They will be neutralized as a general rule at about the tuning range. When a station is tuned in around 420 meters the neutralization is not exact, and there is a slight tendency to oscillation, causing the receiver to be rather noisy—much the same as a regenerative receiver just before it begins to oscillate.

Have Batteries Beside or Beneath Radio Set. It is not good practice to place batteries far away from receiving sets. They should be either beside a set or directly below it. If in a cabinet or tray in a shelf. A storage battery especially is most convenient in the education of its youth.

Insulate Lead-In. It is always good practice in bringing a lead-in into the house not to let it touch anything. If the lead-in touches any metal some of the signal strength will be absorbed in some cases where the length touches wood there is not much difference in the signal, however, when it rains the wood has the same effect as a metal object. The foundation of every state is the education of its youth.

**Local Happenings**

**Fire Cases Dismissed**  
The Pine county court calendar was given a thorough house cleaning last Monday afternoon, when Judge Seales dismissed 35 fire cases, most of which have been on the calendar for the past couple of years.

These cases were brought against the government by farmers who were burned out during 1918, claiming the fires resulted from the configuration set by sparks from the railway engines.

The government has settled most of the claims where it has been clearly shown that the railways were responsible for the starting of the fires. The claims in this court were disputed.

Judge Seales has called a special term of court, where three times and brought a jury here each time to try a fire case. Each time court opened for the consideration of the claims, there has been an attorney representing the plaintiffs, and each time a continuance of the trials have been asked for.

The continual delay has been a big expense to Pine county. If the claims have been just ones, the attorneys handling them should have been ready to go to trial long ago, but it would look to a layman as if attorneys took the cases on speculation and after looking into them, turned them down and a new law firm would take them up. Such action on the part of the attorneys has been unfair to the clients they represented and unfair to the taxpayers of Pine County who have had to bear the heavy expense.

The action of Judge Seales in dismissing the cases was a just one. He has been very patient in giving the plaintiffs the opportunity to prepare their claims, at the same time he appreciated the heavy expense the county was being put to by the continual delay and had the interests of the taxpayers at heart when he decided to bring the expense on the county to an end.

**Political Rumors Confirmed**

The rumors are being officially confirmed. John W. Davis has been officially named for president. Now there is no question in his mind about this being a fact, as he most likely had an inkling before that he was the nominee.

Rumors that President Coolidge is the Republican nominee will be set at rest August 14 when he will be officially told that "he is it."

Bob LaFollette knows that he is the nominee on his ticket and a notification may not be necessary, for he is dead sure because he picked his own running mate.

But these official notifications are absolutely necessary because it gives the nominee the chance to graciously, if reluctantly, opportunity to accept the nomination, and in their acceptance speech to lambast the other fellow.

Davis says the Republican party is the bank. Coolidge will probably "keep cool" and say the Democrats are bunk and LaFollette will storm around and tell just how much bunk there is in all this in a way and that he will save the day.

It is an unusual triangle. The Democrats raise the Republicans. The Republicans raise the Democrats, and LaFollette raises them both. The only thing that is lacking is that both the Republicans and the Democrats seem not to have been informed there is a third party this year.

But then Wheeler may draw the fire of Bryan and Dawes "Hell and Maria" Dawes will most likely take a swat at every body and Wheeler is no slouch when it comes to the hot seat. Bryan has already got into an argument over the new defense day program and Davis is watching him close these days.

In the meantime the average voter will open his paper, glance at the headlines of all these acceptance speeches, and then turn to the sport page, the comic page, and other items that they are interested in.

**Local Happenings**  
Erving Bantleon, wife and children of Oshkosh, Wis., and his mother of Wauvegan, and Mr. and Mrs. Sutton of Chicago arrived last Saturday and visited until today at the Wm. Bantleon home here.

Mrs. Wabert and three daughters returned to their home in Ely yesterday after visiting at the home of her brother, Sheriff Hawley. Miss Betty Hawley of Sandstone is also visiting at the home of her uncle.

Miss Margaret Cassidy was a visitor at the home of her sister, Mrs. Wm. Koontz, last Sunday evening. She graduated from state university and will teach history and civics in the Hinckley high school this coming term.

The Ligon Auxiliary met at the Hotel Agnes last Monday evening when Mrs. E. H. Huber and Mrs. Jack Woodhead who represented the local organization at the state convention in St. Cloud last week, made a report of that meeting.

Fred Redlich, who has been assisting his brother-in-law, Fred Jordan, in the billiard parlor, and George Heyra, who is on the road as representatives for the Premier Electrical company of Chicago, Nick Edin has taken Mr. Redlich's place in the billiard room.

Mrs. Harriet Kusulek is here from California and is visiting at the home of Mrs. Beckenridge. She has been residing with relatives in California the past couple of years and her many old friends here will be glad to renew old friendships.

Mrs. Robt. Wilcox and daughter, Mrs. E. H. Huber, entertained a combination bridge and five hundred party at the Wilcox home, last evening, there being fourteen tables in play.

Mrs. Ben Boo won the first prize in the bridge games with Mrs. A. W. Gunn second. Mrs. Fred Jordan was the winner in the five hundred players with Miss Hazel Johnson second. A delightful luncheon was served following the card playing.

**Theatre Notes**

**Saturday—**  
Milton Sills in "One Clear Call"  
Learn the thrill of the wild night-riders' rush to a climax as fine as the screen can give. Also a Comedy "Globe Trotters"  
Prize Night

**Sunday & Monday—**  
Lillian Gish in "The White Sister"  
You'll see the Volcano Vesuvius in actual eruption, belching tons of lava over the Italian countryside. The bursting of a great reservoir, burying a whole town under an avalanche of water.  
A fight on the desert with hundreds of real Algerian tribesmen and camel riders.  
And the greatest star of the screen in her supreme triumph!

**Tuesday—**  
Charley Walton in "The Near Lady"  
Here is a heroine to whom every woman's heart will go, and for whom every man's arms would open wide. She takes love at top speed, and winds up with a bump after whizzing through the merriest and busiest love story you have seen on the screen!

**No Monopoly in Oil**  
"I am told that the Standard Oil Company has practically all the refineries. Is this true?" a correspondent asks the Oil and Gas Journal.  
Reply is made in issue of June 19, as follows:  
"It certainly is not. In the first place when you mention the Standard Oil Company you are speaking of several companies which, since the dissolution decree United States Supreme Court of 1911, are as separate in their ownership and control as any of the several thousand oil companies which operate in the United States."  
"No company bearing the name of 'Standard' including its subsidiary organizations has more than 11 refineries in the United States. There are several of the so-called 'independent' companies which have from 5 to 9 refineries. According to the Oil and Gas Journal's compilation of May 1, there are 574 refineries in the United States of which 382 were operating on that date. Of this number only 39 belong to the several Standard Oil Companies and their subsidiary organizations. Thus you see that approximately only 1 out of 15 refineries belong to the Standard Companies."

**Standard Oil Company (Indiana)** has but six refineries—Whiting, Indiana; Sugar Creek, Missouri; Wood River, Illinois; Casper, Wyoming; Greybulk, Wyoming; and Laramie, Wyoming.  
The oil industry of today is of such vast proportions as almost to defy figures. Perhaps that is why it appeals so strongly to the imagination.  
As the oil industry is organized today, a monopoly in oil, whether crude or refined, is beyond possibility. The industry is too enormous for dictation by any one company or any group of companies. It is too big and too varied for "understandings." It is too big for anything but the keenest sort of competition, and for the winning and holding of business through service.

# Local Happenings

Otto Sobotka and family were callers in Finlayson last Tuesday.

Miss Larkin of St. Paul is visiting with her cousin, Miss Minnie Gardner.

Jos. Petschel drove to Duluth last Friday taking up a used car which he sold.

Miss Mildred Landahl of Minneapolis is visiting at the Carl Holmberg home.

A shower for Miss Myrtle Cannon was held at the Weinberger home last Sunday.

Jim Engel and Walter Smith drove to the Twin cities last Sunday in the former's car.

Miss Mildred Sobotka spent the week end at the Frank Cassidy home in Hinckley.

Rebekah Lodge will hold initiation followed by social hour on the evening of Aug 21st.

Miss Helen Benda went to the Twin cities last Friday to take in the circus and for a visit.

Mr. and Mrs. Phil Maisonneuve drove to Oasey last Sunday to spend the day with relatives.

Miss Caroline Kotosek of Minneapolis arrived last Sunday for a visit at the Ed Minar home.

Mrs. E. J. Prochaska and children are visiting at the home of her brother in Minneapolis.

Miss Amelia Benda was home from St. Paul to spend the week end with her folks here.

Mrs. Harvey Heath and a friend of Duluth are visiting at the home of her sister Mrs. A. W. Gunn.

Miss Pauline Herman is home from St. Paul for a visit with her folks during her vacation this week.

Wm. Henderson and family of Duluth spent the week end at the home of his brother here Thos. Henderson.

The ladies aid of the M. E. church will meet at the home of Mrs. Gus Christopher, next Wednesday, August 20.

A. B. Stuck arrived from Missouri this week for a visit at the home of his son, Wm. Stuck, north of town.

Dr. Wiseman and family and Monroe Shuey drove to the Twin cities last Friday where they attended the circus.

Mr. and Mrs. Andy Young-hamer drove to the cities the first of the week spending Sunday and Monday there.

Mr. and Mrs. Wm. Albrecht, their daughter Miss Alma, and Miss Alice Petschel were visitors in St. Paul last Friday.

Jos. Neubauer and family were here from the cities to spend the week end at the home of his mother, Mrs. Mary Neubauer.

A baby boy was born recently to Mr. and Mrs. Brissette at Cloquet. Mrs. Brissette is a daughter of Mr. and Mrs. H. W. Daley.

Joe Carlson of the Pine City Mezztile Co. is taking his vacation this week and left for Harris where he will visit with relatives.

Carl Wallace was down from Duluth to spend Sunday with his wife and son who are visiting at the Judge Wilcox home.

Mrs. Solberg and children returned from St. Paul last Sunday where they visited at the home of her sister, Mrs. James Mullin.

The Pine City horseshoe pitchers played the first City team at that place last Friday evening and won by score of 17 to 31 games.

J. D. Boyle and family returned home last Sunday from an automobile trip during which they visited with relatives in South Dakota.

Norris Nelson, assistant cashier of the First National Bank, left for the home of his folks in Lake City where he will spend his vacation.

R. Downing and family have just returned from a trip to their former home in Iowa where they spent a week visiting relatives and friends.

Misses Anna Handschu and Etta Ploeger, who have been employed in the Hotel Agnes left for Hibbing this week where they will be employed.

Mr. and Mrs. McDaniel left for their home in Douglas Arizona, last Tuesday. They have been visiting at the Robt. Dore and Dr. Wiseman homes.

Dr. S. S. Hesselgrave and wife of St. Paul, Mr. and Mrs. Furman Wilson of Miami, Florida, arrived last Friday for a visit with Mr. and Mrs. C. C. Ives.

Dr. Hesselgrave and Mrs. Wilson are brother and sister of Mrs. Ives.

Eric Larson of the Petachel garage is having his vacation this week and he is spending it with his family at the Fagerstrom cottage on Cross Lake.

Rev. Buckton and family who have been visiting at the Fred Wiley home here left for Duluth last Tuesday where he is in charge of the Presbyterian church.

G. A. Hanson of the Pine City Mercantile Co. has rented the Lawrence Graham house and will move in around the first of the month.

Mr. and Mrs. Frank Poterl and children, Catherine, Lorraine, Raymond, and Miss Josephine Shambauer left last Sunday on an automobile trip to the Dakotas.

Mr. and Mrs. Ben Boo drove to the Twin cities the first of the week. Her mother, Mrs. Mergens who has been visiting in Harris, returned to her home in Excelsior.

George Sherwood and son, Charlie and Emil Hovde arrived from Fond du Lac, Wis., last Tuesday evening where they have been working the past couple of months.

Mr. and Mrs. Henry Daley and son George returned home the latter part of last week. They took an auto trip on the Range where they visited with friends and relatives.

Tom Hanzlik has purchased the residence owned by Mrs. Fern Jensen and the Hanzliks are moving in this week. They have been living in the house formerly occupied by John Jelinek.

Mr. and Mrs. Oscar Nelson of Minneapolis and Mr. and Mrs. Albert G. Potter of Edgely, N. D. drove up Tuesday for a visit at the Roy Carlson home. Mr. Nelson is employed by the

Western Union Tel. Co. in Georgia and his home on his vacation.

Miss Clara Parker left for her home in California last Tuesday. She was accompanied to the Twin cities by her mother and her aunt Mrs. Hood, who is visiting at the Roberts home.

Ed Therrion and Les Hagen returned home last Sunday from an automobile trip in northern Minnesota and Wisconsin. They did not arrive as far as they had planned owing to rain nearly every day they were gone.

Mrs. Ira Holt and son Paul returned home Saturday after spending a week in St. Paul, while in the city Paul underwent an operation for the removal of his tonsils, and is getting along very nicely.

Mr. and Mrs. Henry Buirge and family will move back into their home, now occupied by the Eric Larson family, in the near future. They have been operating their restaurant and bakery in the postoffice building the past week or more owing to Mrs. Buirge having suffered a breakdown in health. She is feeling much better at present but will have to give up the work. The Larsons have rented the house where the Hanzliks have resided.

Buy Your Hardware at the Hardware Store

## McCORMICK AND DEERING

### Corn Binders

Every farmer who raises Corn should own his own McCormick or Deering Corn Binder this year, as the lateness of the corn crop will make it necessary to let your corn stand right up to the frost season, in order to mature it. Then everybody will want to harvest their corn about the same time, and you will not be able to hire a corn binder to harvest your crop when it should be harvested.

Place your order with me now for a McCormick or Deering Corn Binder, so you will have your Binder set up and ready to go to work when you need it.

## A. M. CHALLENGE

PINE CITY, MINN.  
The Store of Personal Service

Beroun News

The Jos Sabasta family came up from St. Paul for a visit with relatives here.

The Paul Coles motored to St. Paul Sunday to spend the day with relatives.

S. W. Swenarth and the wife of St. Paul spent Sunday at the Ben Hagbeck home.

Beroun lost to Finlayson last Sunday by a score of 5 to 1 in 7 innings. The game was called in the seventh on account of the rain.

The rain made the ball extremely hard to handle which handicapped the pitchers in putting anything on the ball and resulted in the fielders in making many misplays.

Next Sunday the locals take on the Andree nine at this place.

An old time dance will be given at the Prochaska hall next Saturday evening.

Mrs. Stone left Monday for her home in Seattle after a 2 week's visit at the home of her sister, Mrs. Jos. Kub.

Miss Christine Pihla is now employed at the Beroun Cash store, starting work last Monday.

Strohkirch Bros. have had a new coat of paint put on the exterior of their store building which adds greatly to the appearance of the building.

Frank Cahak did the work. A brother of Mrs. Harry Barnes and Mrs. Derr arrived Monday for a two weeks' visit at their homes here.

V. A. Mlynska and family spent Sunday visiting at the Chas. Peterson home in Mora.

Henry Basney and family of California arrived last Saturday for a visit at the Chas. Butler home here and the J. B. Butler home in Pine City.

Stanley Runa, son of Mr. and Mrs. Frank Runa, received a serious accident last Thursday. His leg was caught in the sickle of a moyer, when the horse became frightened at something, causing bad cuts about the ankle.

He was taken to the hospital in Brahm for treatment.

Rock Creek

John Erickson left for Minneapolis Monday to meet his sister, Mrs. Osmandson of Fort Dodge, Iowa, who is coming up for a two week's visit with the Ericksons.

Mrs. A. G. Johnson and son Wilton of Brahm, Miss McLean and Mrs. D. H. Ryan and son of Minneapolis and Mr. and Mrs. Fernel of Brahm spent Sunday at Bakors.

Mr. and Mrs. P. C. Wenberg left for their home in International Falls last Monday after a visit with her parents, Mr. and Mrs. Alex Tice.

Mr. and Mrs. A. B. Barstow returned from Jordan last week where Mrs. Barstow took the mud baths. She comes back

greatly improved in health. Mrs. Aug. Altman and Ethel Shogren were visitors in Rush City Monday.

Miss Delila Erickson spent the week end with relatives.

The M. E. ladies club met with Mrs. Otis Schmidt last Friday afternoon.

Israel Erickson visited from Friday until Monday with friends at Forest Lake.

Elsie Rasmussen is helping at the Cash Store while Mrs. Berglund is on a vacation.

Mrs. Berglund, Ruth and Evette drove to Duluth last Friday where they will visit with relatives and friends.

The Rock Creek ladies gave a shower in honor of Miss Rose Rasmussen at the Becklund home last Saturday afternoon.

Miss friends, with a beautiful chest of silver and other useful articles.

A birthday party in honor of John Nelson was held at the Nelson home last Sunday at 150 were present to celebrate John's 40th anniversary.

Mr. and Mrs. Griffor Carmen and family and Mr. and Mrs. Ed Darnick and family of Finlayson, drove down Saturday and visited at Creapeau.

Charles Crepeau returned home after a three weeks stay in the cities.

West Rock News

Mr. and Mrs. Fritz Swanson visited for a few days with friends and relatives in St. Paul.

Mr. and Mrs. C. Olin of Minneapolis visited with friends here Monday and Tuesday.

Mr. and Mrs. John E. Johnson and children of Minneapolis are visiting at the home of her mother Mrs. Swan Hanson.

Anders Johnson is visiting at the home of his brother, Ludwig Johnson.

Mr. and Mrs. Sam Martin and Mr. and Mrs. Alf Johnson motored to Milaca Saturday and returned Sunday evening.

Ludwig Johnson was surprised last Saturday evening by a large crowd of friends and relatives. The occasion being his birthday. A very pleasant time was had by all.

Willie Homquist and Oscar Liden are busy painting the school house.

\$3,000 In Cash Prizes

How many words can you make from the words "STREPTOCOCUS TOILET ARTICLES"? \$2,000 first prize. Judges are Banker, Educator and Clergyman. Send stamp for circular Laboratories, (Dept. 8.) Aurora, Illinois.

Minneapolis State Fair

And N. W. Dairy Exposition

The Northwest's Greatest Live Stock Show of cattle, horses, sheep and swine is offered premiums of \$60,000, the biggest sum set aside for that purpose by any fair or exposition in the world.

The finest dairy cattle in America will be shown at the Northwest Dairy Exposition. Beef cattle, horses, sheep and swine from the best herds, stables and flocks on the continent will be exhibited.

Eighty acres of machinery, the number of 1,000 boys and girls, and many other wonderful educational attractions will be featured.
