

MAINE IS SWEPT BY REPUBLICANS

All Republican Candidates for Congress Maintain Advantage From First.

Portland, Maine—A lead of 22,842 for Ralph O. Brewster, Republican candidate for governor, was shown in returns from the election from 530 precincts out of 433 in the state which gave Brewster 128,415 votes to \$3,953 for William R. Patterson, Democrat.

Patterson, from his home in Augusta, admitted his defeat.

Pathgall made the Ku Klux Klan the leading issue of his campaign for governor. Because Brewster had the Klan indorsement in his primary campaign, the Democrat asserted that Brewster represented the Klan. Brewster, who had previously denied that he had sought Klan support, made no reference to the Klan in his general campaign and his speeches dealt chiefly with state issues, but Republican speakers said that the indorsement of the Coolidge administration was involved in the election.

Hamline Singer Entertains

Shelby Beskin of Minneapolis, soloist of the Hamline Glee Club, was the star attraction at the Family Theatre last Saturday evening. His repertoire consisted of a number of vocal selections, both classical and popular, and also some ukulele numbers.

Mr. Beskin is a singer of considerable ability and is by far the best talent of the kind that has appeared here at the local theatre for some time. He has an extremely pleasing voice and his enunciation is excellent. He was several times late to the stage and very kindly apologized with a number of popular airs that made a hit with the large audience.

His ukulele selections, which included a number of parodies of his own composition, took his audience by storm and at the conclusion of his program it was necessary to darken the stage and turn on the lights before the audience would permit their applause for his numbers. Mr. Beskin has been appearing at a number of the theatres in the larger towns of the state and his reception everywhere has been the same that he received here, according to newspaper comments on his entertainment. He plans a return engagement to Pine City some time in the near future. He is a member of the Silesky of Pine City and it was thru Mr. Silesky's efforts that he was brought to Pine City.

Dr. Bertels Buys Practice

A deal was recently closed whereby Dr. E. J. Bertel, who has done a specialty in the Slaven dental parlors for some time, has purchased Dr. Slaven's office and dental practice. Dr. Bertel is a young man, but with several years experience and will undoubtedly make good here. Dr. Slaven has been here for the past sixteen years and has worked on an excellent practice. He expects to remain here a month when he will move to Minneapolis to make his home. Dr. and Mrs. Slaven have been prominent in social and business affairs here and have made many friends, who are every one to see them leave—Balderson Courier.

Last Rites for Frank T. Russell

Funeral services were conducted last Saturday afternoon from the First Baptist church by Rev. Berthel for Frank T. Russell, former resident of this place. The pall bearers were James Dewey, John Fort, Frank Fort, W. F. Gibson, City Doctor, and A. B. Husk.

Frank T. Russell was born in England 36 years. He immigrated to this state ago and died at Anderson hospital, Dead on Sept. 4th. Death resulted from tuberculosis.

Mr. Russell is an old resident of Pine City having lived here about 15 years moving from here to St. Paul where he has resided since.

He is survived by a daughter, Mrs. J. C. Kirby, of St. Paul.

Theater in Village Hall

At the regular meeting of the village council last evening it was decided to fix up the village hall for moving theater home if the proper permits are granted by the state authorities. Guy Thorne, intending to plan to stage here a show his regular theater in used a week. The council also decided to improve the south end of Main avenue so that cars will be able to drive into town without making their cars to please—Balderson Courier.

Procha's Optimal Quip

is the most complete quip in the taking care of eyes applicable for the diagnosing of eye troubles obtainable. Procha's Optimal Paper, Eyes Examined, Glasses Fitted, 35

County Fair is a Big Success

The 37th annual Pine County fair closed Tuesday afternoon and in quality of exhibit, crowd and program was one of the best ever staged.

Monday was entry day and exhibition buildings, barns and cattle sheds were soon filled to overflowing.

The main exhibition building held the farm club exhibits, many department, a part of Matt Peder's prize winning Pine County exhibit in the state fair. Compulsory creameries' cash exhibit in the farm club exhibits. Longline was awarded last place, Lone Pine Club of Hinckley second and Pinshon Club, Third.

The program of entertainments for the day of everyone and showed why the look first place at the state fair.

The vegetable exhibits were up to standard and the flowers exhibited for the best ever seen.

The poultry, sheep and hogs carried a large number of entries and some highly fine exhibit were entered.

The boys and girls club created considerable rivalry among the youthful attendees. The first prize was awarded to their prize calves.

The cattle this year was the best ever shown here and the judge stated they were the best he had ever judged.

The contest in the jewelry class Geo. Taylor of Hugo led the field but was closely pressed by Frank O'Donnell, Chas Crocker, and Bert Mansmith of Cook Brook and Art Poplin of Pine City.

John Horton, herd head from North Branch and the Swenson herd carried off the premier honors. Wieldman Bros. from east of Pine City were the big winners in the Holstein class.

The program of entertainments stood well as the best seen here. In years with four big platform acts, the fying circus, horse and auto races ball game and ballon ascension.

The Akow-Sandstone band furnished the music for Tuesday and the Pine City band played on Wednesday.

In the harness races held on Tuesday Mel Wilkes, driven by Goldstein, took first place, Miss Watson driven by Johnson second, and John R. driven by Frank Stevens third. The winner in the running race was Fly, owned and ridden by Mark Hinds of Rock Creek. Prices earned of seven, \$400, \$100, split second and third money.

In the auto race H. V. Jorgensen won over a field of five starters with Rich Rooker second.

The flying circus made its appearance here for the first time and very kindly responded with a number of popular acts that made a hit with the large audience.

The balloon ascension was the feature of the day. It was started by the late afternoon and the daredevil staged and capped the climax by a parachute drop from the plane. Daredevil, dressed about 400 feet, jumped in the balloon, put on a fine parachute and made a perfect descent and drop from the ball on.

The Brook Park Grass on base ball game was won by Grassby by a score of 10 to 5.

Wednesday program was the Fargo ball game, between Hinckley and Rock City. The game was called at the end of the 7th inning and was tied at 10 to 10, on account of rain.

In the harness race Mel Wilkes took first and Miss Watson and Fly repeated as a winner in the running race, with Chas Merriott's Black second and Oscar Smith's sorrel third.

The balloon ascension had to be called off on Wednesday due to large tear made in the balloon as it landed the day before.

The two for all auto race was won by George Pyter driving a light four touring Overland, making the five mile run in seven minutes for a speed of 61.54 in forty miles an hour which is remarkable for the condition of the track. H. V. Jorgensen, in his Ford took second place and Leo Anderson third.

In the horse show hitching contest, Frank J. Profit of Hinckley, second and Chas. Saxon of Hinckley, third.

The shooting on Wednesday was anything but successful and if it had been another day the best would have attended there for the late world of this summer.

The race held in the stony on Wednesday was won by the late world of this summer.

Friday was well attended for the state fair on account of the rain. The late world of this summer.

Packing Up

September 12th being designated as National Defense Day, it is my hope and request that all places of business hoist their flags during the day, and that all the citizens of this community join in a fitting observance of the day by attending patriotic services which have been arranged.

W. A. Sauer, Mayor

A Few Pointers For the Hunters

No better bird stands or flies than the Grouse. We know this claim yet no one knows all the tricks Hantley fairly and you will earn every bird you get. Grouse shooting will take you to the white birch thickets, alder and tamarack open, up steep hillsides and into dense undergrowth in clearings, and along the banks of thickly creeks. It's a case of shoot and miss; don't get discouraged. Shoot and repeat. Some of these birds have been raised on powder and salt. Keep hanging away to this help his education, and some day an unfortunate fish may run into the charge. Grouse fish in a starting manner. The first thundersnark is up, and then—ask the old-timer. Shoot high first—learn their habits by going over the ground in the summer and early fall. They are easy to find if you haven't a gun. They are cunning; they run and hide and will close. They like dried huckleberries, cranberries, wild grapes, oak, and beechnuts. Look for these about 700 feet. In early morning, cold or stormy weather. Lead for twelve gauge, three and one-eighth chills. Important: take along plenty of shells and good nature.

Veteran Engineer Dies in Engine Cab

Howard W. Dunlap, veteran engineer on the N. P. railway dropped dead while running his engine on the northbound local, last Monday afternoon about six o'clock, two miles north of town. Death was caused from apoplexy.

The remains were taken to the place where the accident occurred and were taken to White Bear on the early morning train by Mr. Heller of St. Paul, for internment.

Mr. Dunlap has been an engineer on the N. P. for the past 30 years and was a man of nearly 72 years old. He is survived by his widow, residing White Bear.

Sash-Door Plant Burns at Sandstone

Sandstone was visited by another bad fire last Friday morning when the Sash and Door Factory, owned and operated by Erick Hanson was burned to the ground.

The fire started about 3 a. m. in the part of the building that the Hansons used as living rooms, and spread quickly to other parts. The origin of the fire is unknown.

Mr. Hanson also operated the Hanson Lumber Co., and is just across the alley from the Sash and Door Factory. This was able to be saved with out loss through the good work of the Sandstone firemen.

Charles Novak Married

Chas Novak and Miss Emma Tuma of West Pokoke were married at the cent house last Monday morning by Judge Wilson.

The bride is a daughter of Mr. and Mrs. Wenzel Tuma, of West Pokoke, where they have resided, since coming from New Prague about 10 years ago.

The groom, a son of Mr. and Mrs. John Novak of Ivesmont, is well known to people in Pine City, having worked in the Freudenthal Pharmacy for a number of years. He has made his home in Pokokeka the past 22 years when he moved there with his parents from Austin, Minn.

The bride wears many friends in this community and at Pokokeka who join with this paper in extending congratulations and best wishes.

"Gopher Brand"

Gopher Brand is the name under which the Minnesota Potato Growers Exchange will sell grade of potatoes. Announcement of the trade name and the design was made last week at St. Paul. The first car rolled from Grand Haven, Minn., Sept. 10, 1924, to register the brand and copyright the design, so that it will be impossible for anyone to sell under this brand or to change the quality of potatoes packed by Exchange.

The design and name was selected by Exchange officials as typical of Minnesota, easy to remember, and distinctive. Moreover, it is short and simple, and easy to use in telephone calls. It is also easy to use without extra cost, as would have been the case had a longer or more elaborate trade-mark been adopted. This is important because so much of the crop will be sold by wire.

Every possible precaution will be taken to establish Gopher Brand potatoes as a quality product on the markets of the country. Only the best potatoes delivered by growers will be allowed in these sacks and they must come up to specifications which make the grade better than U. S. No. 1.

Two separate designs have been adopted, one for the potatoes from the sand land and central section and one for the Red River Valley.

The Exchange recently completed negotiations for a loan of \$36,000, obtained from the Agricultural Credit Corporation. Notes taken from members during the organization campaign have given as security. This money is being used to meet operating expense.

The Covered Wagon

The old days so famous for adventure and down in history as the days of the birth of the American nation, have been turned back and are with us again in—The Covered Wagon. James Cruze's latest Paramount production will be shown at the Family Theatre, Monday & Tuesday, Sept. 15-16th. The great street of the western plains forms a most magnificent background, and five hundred or more covered wagons—prairie schooners, add realism to this colossal picture. True, it is a love story, but this one is different. It is a love tale of the desert wastes, long and enduring with thrilling climax, leading to the rescue of the young couple, played by Lois Wilson and J. Warren Kerrigan, in a frontier homestead in Oregon.—The Covered Wagon—fills anything in pictures.

LIFE TERMS FOR LOEB, LEOPOLD

Darrow's Plea of Diseased Minds Win Prison Sentences for Sons of Chicago Millionaires.

Chicago—Richard Loeb and Nathan Leopold, Jr., Chicago millionaires' sons, were sentenced to life imprisonment for the murder of Robert Franks on May 21. Judge Caverly delivered his decision in the little courtroom where, two weeks ago, Clarence Darrow made an impassioned plea to the judge to spare the players' lives and sentence them to life imprisonment.

Only the alayers, members of their immediate families, their attorneys, the state's attorney's staff and newspaper men were in the courtroom when Judge Caverly delivered the sentence.

The criminal courts building where Judge Caverly's court is located was under guard while Loeb and Leopold were being sentenced.

The kidnaping and murder of Robert Franks, 14, came to light May 22, when his body was found in a railroad car east of the far southern limits of Chicago, where 118th street crosses the Pennsylvania railroad tracks.

A world and Loeb started the counting on his fingers, confessing the crime in all its details, checking up and correcting each other's accounts.

DAVES TO SPEAK IN STATE

Dues in Twin Cities Week of Sept. 21. Following Dakota Date, 21.

Chicago—Charles G. Dawes, Republican vice-presidential nominee, will concentrate his speaking campaign for the next three weeks in the Northwest under a decision reached at a conference between Mr. Dawes and party campaign managers here.

The Milwaukee address by Mr. Dawes will be followed by a speech a week later at Sioux Falls, South Dakota.

The vice-presidential nominee's itinerary was worked out at a four-hour conference of national committee headquarters, here, attended by Mr. Dawes, William M. Butler, chairman of the committee, and Representative Sanders of Indiana, head of the committee's speakers' bureau.

NATIONAL VITALITY AND THE DEFENSE TEST

The secretary of war made the following statement on the above subject:

The Defense Test on September 12, presents an appropriate occasion for every citizen to make an inventory of his physical condition as a personal contribution to the defensive strength of the Nation.

It is especially that fathers and mothers on that day have the physical condition of their children investigated.

Every citizen is urged to have his physical condition investigated and to have his children investigated.

Every citizen is urged to have his physical condition investigated and to have his children investigated.

The set here described employs one stage of transformer coupled radio frequency amplification with regeneration. To make the receiver selective without increasing the number of controls an untuned aerial circuit is used.

For the tuning unit of the first stage of the commercial tuning units with a rotor used as tapper, a grid coil and an aperiodic primary wound on the stator tube may be used to good advantage. However, however, choose a unit the tapper coil of which is either much smaller than the primary or one where the rotor is located well outside the primary.

At any rate, there must be a considerable space between tapper and primary, otherwise the set will not operate smoothly. It will also be necessary to take a few turns off the tapper. About ten turns are enough and to spare. It is best to try the set first with the original windings and to take one turn at a time.

With a few turns on the tapper the set will be found to equal nicely after the slightest provocation. As more and more turns are taken off it will be necessary to turn up the tapper to obtain regeneration. At the same time the operation of the set will be easier and the adjustment more positive. Reception will be clearer.

To get the right number of turns tune the set to some long wave station such as WJAB or WOO and make sure of the tapper until you get just enough regeneration with the tapper parallel to the grid coil.

Use Hard Wire Solder At End of Each Terminal By A. P. PECK

The fumes that arise from a lead plate storage battery when it is charging or discharging long. A heavy thread is soaked in India ink and run through the glass tube close to the inside wall. This thread is held at one end by a glass plate. The other end is embedded in a piece of sealing wax which entirely closes the end of the tube. Another heavy wire is also inserted in this end of the tube so that it will make contact with the quantity of mercury which is placed in the tube.

After this formation starts to build up, the connection between the wire and the battery terminal becomes tight and gives trouble. Usually it is necessary to entirely remove the wire and thoroughly clean the terminal.

One can be remedied once and for all by soldering or clamping a piece of heavy, hard wire solder between the end of the terminal and the battery terminal. The copper leads may then be soldered to the ends of the lead strips, as shown. Other materials than solder are used.

Red Lake Mills—Seventy farmers met in a meeting at Red Lake Mills, Minn., on the 25th inst. to discuss the sugar beet situation in this county. The meeting was called by the Sugar Refiners Association of Red Lake Mills, Minn.

The right quantity of mercury has been found. The other end of the tube should also be sealed with wax. This variable leak is mounted in a brass clip, which can be attached to the transformer always. The other end is inserted through the panel. A small block of wood is bolted to one end of the shaft and the brass clip is placed over the shaft. The two brass connection strips at either end of the tube. When the tube is in a vertical position maximum resistance is had and as it is gradually turned to the horizontal position, the mercury short-circuits more of the grid. This variable resistance is known as the distance resistance. -Radio News.

Beware of Unknown Voltage: Do not connect the set to any wires that you do not know. If you connect to any wires that you do not know, it may be dangerous. -Radio News.

May Increase Volume: Many calls have been dissatisfied with the volume obtained from their sets after they have been in use for a while. This is because the transformer is a transformer. It is the transformer that is the trouble. It is not necessary to add more turns to the present set to increase the volume of the set. It is necessary to increase the volume of the set by increasing the volume of the set. -Radio News.

Will Increase Volume and Improve Clarity: Many owners of receivers have heard that it is necessary to connect an aerial to a condenser across the set. This is a very serious mistake. It is not necessary to connect an aerial to a condenser across the set. It is necessary to connect an aerial to a condenser across the set. -Radio News.

Protecting Tubes on Hook-Up: When a set has just been completed and connected to the power line, it is necessary to protect the tubes. It is necessary to protect the tubes. It is necessary to protect the tubes. -Radio News.

Practical Oils and Agricultural Problems

DEPARTMENT DEVOTED TO SCIENTIFIC FARMING

SOFT CORN CROP IS HARD TO SAVE

Silageless Farmer Can Make It Into Stack Silage, Says Prof. Andrew Boss.

Edited by the Agricultural Extension Dept., University of Minnesota.

In the event that Jack Frost catches the corn crop Minnesota farmers will have a rather perplexing soft corn problem before them. A soft corn crop is difficult to save without loss of feeding value. Andrew Boss, vice director of the Minnesota Experiment station at University Park, offers suggestions in this connection to corn growers who have plenty of silage room to care for the entire corn crop, and to those who have no silo at all.

"The best authorities agree," says Mr. Boss, "that the soft corn crop cannot be saved without loss by putting the ears, stalks, and all into a good silo. The man who has no silo should plan to put in his corn before freezing weather, if possible. If the frost gets in, he should not shed his corn just as soon as possible after freezing. Frosted ears soon dry out and become unpalatable, and the loss of feed is large.

"Even if the corn cannot immediately be put into the silo it should be cut soon as possible, and stored in a pile. With very immature corn it is advisable to wait till putting it in the silo. The waiting will require one to three or four days, depending on the weather. When the corn is cut with a corn binder and thrown off in bundles, it may be allowed to lie on the ground for several days without injury.

"If the corn should be frozen and should stand for some time afterward before cutting, the waiting may not be necessary. Where corn is badly dried out after freezing it may be necessary to add water to provide sufficient moisture for the proper curing of the silage."

BETTER FEEDING PAYS

How a Strictly Home Grown Ration Increased Milk Flow in "H" Farm Experiment.

That cash returns from ordinary grade dairy cows can be tremendously increased by feeding a strictly home grown ration has been demonstrated by the dairy husbandry division of the University of Minnesota.

One cow of the division purchased four grade cows from a member of a cow leasing association. Records had been kept of the feed received, and the milk and fat produced in 1922 by each cow. The cows had not received good care but had not been fed a suitable ration, according to the university.

The original owner pastured the cows six months of the year and fed a winter ration of 200 lbs. of alfalfa hay each day per cow and a grain mixture composed of bran, middlings, molasses, and oilseed. Five pounds of molasses per cow was included in the mixture were purchased. Going out to pasture in University Park in October, 1923, the cows were fed a home grown ration only consisting of corn silage and alfalfa hay for roughage and oats and barley mixed for grain. The pasture period was five months.

On the original owner's farm the average milk produced per cow was 342 pounds in 1922. The university ration increased production to 3,375 pounds or 36.7 per cent above the average for the year, raised from 132 pounds to 259 pounds or 42.3 per cent. The value of production per cow increased from \$118 to \$142, or 23.3 per cent. The average cost of the university ration was \$81.42 per cow each year as against the average bill of the original owner of \$48.46, but the university's system of feeding brought returns over feed cost of nearly \$90 as against the original owner's return of \$72.90, a gain of 60 per cent. The experiment with the cows will be conducted at University Park another year.

PRODUCTION OF MILK SHOWS BIG INCREASE

(Prepared by the United States Department of Agriculture.)

Milk production last year was seven billion pounds more than in 1922, according to reports to the United States Department of Agriculture.

Production is placed at 109,730,000 pounds as compared with 102,562,231,000 pounds in 1922. Consumption of milk for household purposes reached 6,440,000 pounds as compared with 40,672,500,000 pounds in 1922. There was manufactured 4,774,831,000 pounds of condensed and evaporated milk as compared with 4,143,340,000 pounds in 1922. The output of creamery butter was 1,253,214,000 pounds compared with 1,153,015,000 pounds the preceding year, and the total production of cheese of all kinds was 394,077,000 pounds compared with 369,980,000 pounds in 1922.

Consumption of butter on a per capita basis was 12 pounds per person last year as compared with 10 1/2 pounds in 1922; consumption of cheese was 3 1/4 pounds per person compared with 2 3/4 pounds in 1922, and ice cream 2.40 gallons compared with 2.43 gallons in 1922.

Dried casein production more than doubled during the year, being 34,585,000 pounds compared with 15,677,000 pounds in 1922.

Items making up the total milk production for the two years are given in the tabulated table:

	1923	1922
Creamery butter	1,253,214,000	1,153,515,000
Household	4,774,831,000	4,143,340,000
Butter (all kinds)	5,997,045,000	5,296,855,000
Condensed	2,080,000,000	2,160,000,000
Evaporated	2,694,831,000	2,000,000,000
Powdered	6,500,000	5,193,000
Milk	109,730,000	102,562,231
Ice cream	2,400,000	2,430,000
Casein	34,585,000	15,677,000
Cheese	394,077,000	369,980,000
Other	1,774,811,000	1,431,949,000
Wool	1,350,000	1,350,000
Wool grease	2,000,000	2,000,000
Wool wax	15,321,000	13,653,000
Wool fat	65,000	320,000
Chocolate	149,500,000	100,000,000
Milk for food	249,900,000	265,250,000
Condensed	2,000,000,000	2,100,000,000
Evaporated	54,400,000,000	44,672,500,000
Butter	4,574,831,000	4,135,000,000
Wool	2,320,000,000	2,052,600,000
Wool grease	199,748,000,000	197,514,000,000
Total	109,730,000,000	102,562,231,000

Winter Legumes Help Bare Land

Cover Crops Conserve Plant Food, Increase Yields and Improve the Soil.

Eventually more legumes must be planted on a crop rotation if it is expected to continue to produce crops economically.

Milk produced last year was seven billion pounds more than in 1922, according to reports to the United States Department of Agriculture. Production is placed at 109,730,000 pounds as compared with 102,562,231,000 pounds in 1922.

Consumption of milk for household purposes reached 6,440,000 pounds as compared with 40,672,500,000 pounds in 1922. There was manufactured 4,774,831,000 pounds of condensed and evaporated milk as compared with 4,143,340,000 pounds in 1922. The output of creamery butter was 1,253,214,000 pounds compared with 1,153,015,000 pounds the preceding year, and the total production of cheese of all kinds was 394,077,000 pounds compared with 369,980,000 pounds in 1922.

Consumption of butter on a per capita basis was 12 pounds per person last year as compared with 10 1/2 pounds in 1922; consumption of cheese was 3 1/4 pounds per person compared with 2 3/4 pounds in 1922, and ice cream 2.40 gallons compared with 2.43 gallons in 1922.

Dried casein production more than doubled during the year, being 34,585,000 pounds compared with 15,677,000 pounds in 1922.

Items making up the total milk production for the two years are given in the tabulated table:

Care of Strawberry Bed After Harvest

It is advisable to set a new strawberry bed every spring, but in the small home garden, at least, it is expected to continue the bed for a second and possibly a third season.

The United States Department of Agriculture advises that the bed is to be saved for another year only under certain conditions, such as weeds and straw manure that may have accumulated during the summer, should be raked off as soon as the crop is gathered.

When the older plants should be pulled out or removed with a hoe, leaving only enough of the younger ones to send out runners to make a new narrow or wide matted row, as desired. If the leaves on the plants left are spotted with disease, cut or mow them off and burn them.

A pound of strata of soda per square rod of ground, scattered over the plants will start a vigorous growth. This fertilizer on when the plants are dry, for it will injure any young plants that take it to heart. Handed in this way a bed may be kept for several years, because the new plants of the bed are saved for fraying the next. Old beds may be cleaned up, as just mentioned, by hoeing or plowing the spaces between rows and leaving the youngest plants in the row.

Community Building

Capital Might Well Be Model For All Cities

Nearly every city is a patchwork founded upon an accidental beginning. The city's complexion is not accidental. In view of the rapid strides of science, trade, transportation and the enormous increase in population—all of which this country has experienced simultaneously—the city complete cannot yet be expected, but there are enough facts about cities now in existence to form the basis for a few primitive generalizations.

We at least know that the best laid-out city on earth, either an ancient or modern one, is only 228 miles from New York, and that the plan was made in 1791 by Pierre Charles L'Enfant, a French engineer, who served in the Revolutionary war, and approved by George Washington, writes Felix Iman in the Saturday Evening Post. We know that the city of Washington began as a mere village and that it has grown to one of the foremost cities of the world without a trace of the trail of the statement that it is the best laid-out city on earth.

The streets vary in width from 50 to 120 feet, and are on the whole the widest streets of any city in all time. They are adorned with more than 35,000 trees, so that a bird's-eye view of the national capital gives the impression of a beautiful park, with the roofs of buildings showing indistinctly against the blue sky.

The height of buildings in both the residential and business districts is restricted. The result has been a high tendency to spread out rather than to grow perpendicularly, as is the case with most cities. The national capital gives the impression of a beautiful park, with the roofs of buildings showing indistinctly against the blue sky.

Boys' and Girls' Clubs Members Cultivate Corn

More acres of corn were cultivated by boys' and girls' clubs members, according to reports to the United States Department of Agriculture, than of any other single field crop in 1923, the boys' clubs having 22,355 acres. These young farmers, ranging in age from about twelve to nineteen years, carried to completion, and the direction of their own extension agents, 17,000 demonstrations of the methods which research and experience have shown to be the most economical production of these varieties adapted to conditions in their particular localities, both for their own information and for the benefit of their parents and neighbors.

Clean Community Worth All Cost and Trouble

A "clean-up" means hot water and soap and sunshine, perhaps paint and the whitewash brush. It may mean inconvenience while the work is "on," but it is sure to mean satisfaction when it is done.

Time to Cut Clover Hay

There is no one date that can be set for any fixed rule to follow in cutting and curing hay. For the best quality of hay the cutting of clover should be done when in full bloom—alfalfa and sweet clover even earlier.

Cut Soy Beans for Hay

It is generally considered that while soy beans may be cut for hay at almost any stage, the best time is just as soon as the pods are fully formed, but before the seed is formed.

FARM FACTS

Keep all vegetables gathered to encourage fruiting.

This year city capacity will mean crop insurance.

The experiment station is constantly ferreting facts for farmers.

Clean up the yard and fertilize the shrubbery that is not making good growth.

One method of making the profits on the farm higher is to keep labor expenses low.

The results in cooperative marketing depend upon proper performed, and labor is more permanent.

Keep tomatoes sprayed with Bordeaux fungicide for flea beetle, and dust with calcium arsenate for potato beetle.

Hundreds of thousands of farmers, and practically every experienced farmer, are probably present the entire year of the year.

The best way to kill common red worms is to sweeten the soil with agricultural limestone and improve the soil so that other crop will be healthy and fertile. A sweet soil is usually an indicator of poor soils.

AFTER BABY YOU'VE BEEN BORN

Back Weak and Painful. Mrs. Miller Benefited by Taking Lydia E. Pinkham's Vegetable Compound

Rotan, Texas.—"I am writing to let you know how well I have been benefited by your 'Back and Groaning' medicine. After my second baby was born my back was weak and hurt me continually. I thought of Lydia E. Pinkham's Vegetable Compound. I had never heard so much about where it had helped so many women. I had been bothered over a year, and it would hurt me until I could not do my work, which is keeping house for three and cooking. I had told my friends I would try it, but they have any kind of female trouble to give you a trial. You may use this testimonial if it will help any of our friends."—Mrs. E. W. No. 1, Box 76, Rotan, Texas.

The Household Necessity

For cuts, burns, blisters, rashes, sunburn, itching and healing. Good for preventing chafing and chills. Rub on nose and lips. Look for the "Vaseline" name on the package. It is your protection.

Small Boy Was Not Taking Any Chances

Five-year-old William came down from St. Louis with his mother to pass the week-end with his aunt and his wife in Virginia, his sister also five years old.

When bedtime came William's mother found that in the hurry of getting away she had forgotten to bring her little son's pajamas.

"Never mind," said the aunt, "he can wear one of Virginia's night-gowns."

William looked his extreme disfavor. Being too well behaved to make a scene, however, he went willingly and dutifully to bed. But the next morning when she went into William's room, his mother noticed a shadow lying in the middle of the floor.

"William," she said when she had certainly "let" him take off his nightgown. "And she held the discarded garment accusingly before his eyes.

"You think," he asked without reply, "that I was going to wear that thing all night and wake up this morning in a girl?"—Kansas City Star.

Who elicits too little is sure to fall.

Genuine BAYER Aspirin

THE PINE POKER

Published at Pine City Minnesota every Thursday
W. S. McEachern & D. R. Wilcox
 Publishers
W. S. McEachern Editor
 Entered as second class matter at Post-office at Pine City, Minnesota.
 Subscription Price - \$1.50 per Year
 THURSDAY, SEPTEMBER 11

Theatre Notes

Saturday—
 Alice Calhoun in —The Man Next Door
 A study of a girl's transformation from a rollicking tomboy reared among cowpunchers into a woman of refinement seeking happiness and love from the book.—The Man Next Door
 Also a comedy—His Now Papa Prize Night
 Sunday—
 Cullen Landis in —The Midnight Alarm
 A girl fighting for her birthright! Trapped by crooks! Imprisoned in a steel vault! Beneath it crashing doors! Around it seething, raging flames! A rescue here before the accident! —The midnight Alarm, the most sensational five picture ever filmed!
 Monday & Tuesday—
 James Cruss Production.—The Covered Wagon
 You'll see hundreds of men, women, children, horses, oxen—a two-mile wagon train of pioneer days—racing for their lives from the raging fire that had burnt nine square miles of prairie.
 You'll see a thousand red, yelling, painted Indians riding madly to attack in their famous—circle of death formation.
 You'll see a buffalo hunt with the world's only herd of buffalo. You'll see the wagon train ford a turbulent mid-western torrent.
 You'll see the whole spectacular heart-drama of the perilous, glorious days of '49. The story of a man's love sacrifice for a beautiful girl in the most amazing setting ever photographed.
 Your most gorgeous screen adventure.
 Prices 25c and 50c
 Matinee Monday for school children at 4 o'clock.
 Wednesday—
 Chas. Walton in—Crossed Wires
 Marcel-Montgomery Van Densen is a rather large name for a small girl especially when her real name is Marcel Murphy and she's a telephone operator. It's the monkey with which a pretty—helo girl broke into society via—Crossed Wires.
 William Duncan in—The Fast Express.
 Thursday & Friday—
 Viola Iana in—The Heart Bandit
 Stan Laurel in—Smithy

Bids will be opened Saturday evening, October 4th, 1925 at 7 o'clock. Clerk, Trust City, Rt. 2. The right is reserved to accept or reject any or all bids.

GET AT THE CAUSE

Many Pine City folks are showing how to avoid needless suffering.
 There's nothing more annoying than kidney weakness or inability to properly control the kidney secretions. Night and day alike, the sufferer is tormented and what with the burning and scalding, attendant backache, headache and dizziness, life is indeed a burden. Doan's Pills—a stimulant diuretic to the kidneys—have brought peace and comfort to many Pine City residents' experience.
 J. M. Morrow, farmer, says: I had heavy, bearing down pains in the small of my back when I stooped these pains became more severe and I attempted to lift anything, my back gave out entirely. My kidneys began to act too often and I had to get up several times during the night to pass the secretions. The first box of Doan's Pills brought relief. The backache left and my kidneys became strong.
 60c at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
 Attend the L. Shellie Auction Sale Thursday September 25th.

WHY WOMEN USE GLYCERINE MIXTURE

Women appreciate the quick action of simple glycerine, buckthorn bark, etc., as mixed in Tolerika. Most medicines act only on lower bowel but Adierika acts on BOTH upper and lower bowel, and removes all gasses and poisons. Excellent for obstinate constipation and to guard against appendicitis. Helps any case gas on stomach in TEN minutes. Prochaska's Pharmacy.

STRENGTHENS WEAK EYES

Old fashioned camphor, witchhazel, hydrautis, etc., as mixed in Lavoptik eye wash, strengthens eyes and relieves any case weak, strained or sore eyes. Acts surprisingly quick. Aluminum eye cup free. Prochaska's Pharmacy.

A Good Thing - DON'T MISS IT

Send your name and address plainly written, together with 5 cents (and this slip) to Chamberlain Medicine Co., Des Moines, Iowa, and receive in return a trial package containing CHAMBERLAIN'S COUGH REMEDY for coughs, colds, croup, bronchial "flu" and whooping cough, and itching throat; CHAMBERLAIN'S TABLETS for stomach troubles, indigestion, gassy pains, flat crowd the heart, biliousness and constipation; also CHAMBERLAIN'S SALVE, needed in every family for burns, scalds, wounds, piles and skin affections; these valued family medicines for only 5 cents. Don't miss it. PROCHASKA PHARMACY

NOW—
It's Economy to Trade Your Old Tires For
FULL-SIZE
Firestone
BALLOON GUM-DIPPED CORDS

BECAUSE Balloon Gum-Dipped Cords reduce your repair bills and lower fuel costs, increase tire mileage, car life and the resale value of your car.
 These are strong statements but are backed by actual facts. Balloon-equipped test cars and taxicabs have now been driven over 5,300,000 miles, under Firestone supervision and show reduction in fuel consumption, and less delay, because of fewer punctures and quicker starts and stops.
 Many leading automobile makers have standardized on these full-size Balloons—pioneered by Firestone and made practical and economical through the special Firestone gum-dipping process.
 Over 100,000 motorists are today using and enjoying the satisfaction of genuine, full-size Balloon Gum-Dipped Cords.
 In fact, in three months the sales of Firestone Balloon Gum-Dipped Cords increased 590%.
 Have your car equipped now—for comfort and for the safety of driving this Fall and Winter. Be prepared for mud holes, frozen ruts, dangerous snow and ice. We can equip your car immediately at the new low prices now in effect.

a convalescence unhampered by worry about help or family Then the firm hand-clasps of welcoming fellow workers

ETNA-IZE
 "IT'S GREAT TO THE JOB!" How employees return to work with unimpaired morale?
 BE BACK ON many of YOUR employees return to work with unimpaired morale?
 When an employee is injured, great damage may be inflicted upon the healthy spirit of other workers if settlements are slow, doctors' services slighted, or if there is haggling over trivial matters. Every accident, too, takes toll of other employees' productive time, lessens machine return and increases labor turnover.
 Under an Etna Compensation Policy, claims are adjusted in a way that creates confidence among employees. No effort is spared to restore the injured employe to highest possible efficiency at the earliest moment. The free services of expert safety engineers and inspectors tend to reduce industrial accidents to a minimum.

This Agency is equipped to give you wise counsel and complete service in connection with your Compensation risks as well as protection for ALL your assets, - - your life, property and your business.

THE DURABILITY of McCormick-Deering Diggers

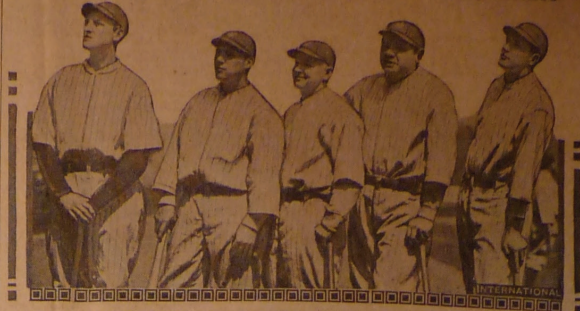

Digging Potatoes is hard work—it takes real stamina in a digger to stand up to it. McCormick-Deering Diggers are sturdily built, with plenty of the best material where it is needed. The perfectly fitted bearings mean, in addition to lighter draft, a freedom from the excessive wear which we all know is common to loose, wobbly bearings.

The rollers at the bottom of the elevator, the supporting rollers under the lower side of the chain, the agitator sprockets and the spindles, are made of the hardest kind of white iron. Owing to the fact that these parts are in constant contact with the soil, greasing them would cause the soil and sand particles to form a grinding paste that would soon cut them out. For this reason they are made of a fine grade steel that will resist wear without oiling, and at the same time reduce friction to a minimum.

CHAPTER XIX

The First Fourth of July... Mrs. Scott and her child lived in the family of General Herkimer for a month or so...

The commons in parliament and commander of an army and fleet employed on an expedition from Canada... My friends, such is the price that goods bore before a fall...

CHAPTER XX

The Ambush

Mrs. Scott and her little son were made welcome in the house of John Irons... We got to look after 'em...

Mrs. Scott and her little son were made welcome in the house of John Irons... We got to look after 'em...

CAMPING NOW AND HEREABOUTS

He sprang into the open... The foremost runners halted when they crowded upon them...

He sprang into the open... The foremost runners halted when they crowded upon them...

In this retreat Jack had so much to do that he had to be carried on a litter... Before night fell they met near the Benedict Arnold and a considerable force...

CHAPTER XXI

The Kinkussing of Colonel Burley

That got darn tittle shrewder he answered... He was kicking 'em all night like a mule fightin a bumble bee...

The kinkussing of Colonel Burley... Colonel Burley had been hit in the thigh by a rifle bullet on his way to the fort...

By the middle 'n horns of the devil he exclaimed 'I wonder if the British have got down to us yet... They were alarmed until they halied a man on the river road...

By the middle 'n horns of the devil he exclaimed 'I wonder if the British have got down to us yet... They were alarmed until they halied a man on the river road...

The declaration of Independence... 'It's a good idee,' said Solomon... 'When we get that 'ere ole rifle 'n mine 'n some talkin' it has a chance.'

The declaration of Independence... 'It's a good idee,' said Solomon... 'When we get that 'ere ole rifle 'n mine 'n some talkin' it has a chance.'

Goldbeating is Most Ancient Art in World... The recent regilding of the railings outside of Buckingham palace reminds me of an old story...

Goldbeating is Most Ancient Art in World... The recent regilding of the railings outside of Buckingham palace reminds me of an old story...

Fuss Over Missing Button... A woman is so used to finding things that she rarely notices when she should make so much fuss over a missing button...

Fuss Over Missing Button... A woman is so used to finding things that she rarely notices when she should make so much fuss over a missing button...

Pitcher Yde Defeated

IVAN OLSON BREWED AS BASEBALL PLAYER

Profited by Ancient Advice 'Use Your Head.'... 'Use your head.' That advice has been handed down on a multitude of occasions ever since Noah pulled it the first time...

Pitcher Yde suffered his first defeat of the year... He tried to stop the rush of the Dodgers, who trounced the Pirates, 9 to 0...

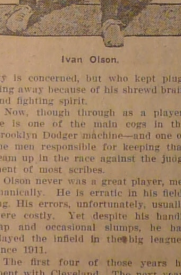

Profited by Ancient Advice 'Use Your Head.'... 'Use your head.' That advice has been handed down on a multitude of occasions ever since Noah pulled it the first time...

Soccer Is Money-Maker... The report of the Aston Villa soccer football club of England for the past season just closed gives a side light on the receipts of a first-class team...

Profited by Ancient Advice 'Use Your Head.'... 'Use your head.' That advice has been handed down on a multitude of occasions ever since Noah pulled it the first time...

Sporting Scaubs

The tenth Olympiad will be held in Los Angeles, Cal., in 1932... The seating capacity of Boyle's 30 acre boxing arena at Jersey City is 91,130...

Ivan Olson... 'Only golf is honest and if a fellow desires concerning his score he lies only to himself.'

Only golf is honest and if a fellow desires concerning his score he lies only to himself...

The University of Pennsylvania will have 10 tennis courts when those now being laid out are completed this fall...

Edwin Wells, Bellung college southpaw, won with the Detroit Tigers an important reason for the Tigers being up close to the front in the league race...

Al Deoch was the first ballplayer to be paid a salary... Tommas Cobl and Harry Heilmann of Detroit have regained their hitting stride...

These expert analysts are good enough guessers to be impressing... One great thing about getting a base on balls—no dust to run fast in hot weather...

The Cardinals purchased Charles 'Chick' Hayden star outfielder of the Boston (Paw) league club for a price which is said to be greater than the clubs ever paid for any player...

These expert analysts are good enough guessers to be impressing... One great thing about getting a base on balls—no dust to run fast in hot weather...

Nurmi and Ritola Hit English Form

The correspondent of Sporting Life (London) had a talk with Nurmi and Willie Ritola of the teams in Paris and this is what they told him... 'You English are wrong in your racing methods. We have noticed that it is not necessary to be on your toes all the time...

Cleveland did the same for the Dodgers over the years between 1915 and this spring... Cleveland made his mark in the judgment needed in an insider which enables him to outguess the opposing batters and anticipate actions on the bases...

REID, MURDOCK & CO. Established Cleveland, Ohio... 1016 and 1020, in the latter series, against his old Cleveland teammates, Olson hit 320, collecting eight hits in 25 times up...

Collegian Makes Good

Edwin Wells, Bellung college southpaw, won with the Detroit Tigers an important reason for the Tigers being up close to the front in the league race...

AROUND THE BASES

Al Deoch was the first ballplayer to be paid a salary... Tommas Cobl and Harry Heilmann of Detroit have regained their hitting stride...

James T. Burke, manager of the Toledo American association baseball club, has signed a contract to pilot the team in 1925... Connie Mack seems to have picked up a real star in Bill Lauer, hard-hitting outfielder, obtained from the American association...

Charley Pfeiffer, right-handed pitcher and Jimmy Chisholm, hard-hitting outfielder, have been sold to the Charlotte club of the South Atlantic league... Broom, an infielder, who reported to Marienburg of the Blue Ridge league, after the close of Greystone college, has been given his release...
