PINE CITY

# LONG DISTANCE RATES

quoted below show how little it costs  
to telephone out of town

Night and Sunday rates apply from 7 p. m. to 4:30 a. m. every night and all day every Sunday. You can talk three minutes for the rates shown, except on station-to-station calls of 25 cents or less, for which you can talk five minutes. Rates quoted do not include tax. For rates to other places, ask the operator.

**A Station-to-Station Call** is one on which you ask to talk with anyone available at the telephone called and do not request a specific individual, a department or an extension telephone reached through a private switchboard. Charges begin when the number called has been answered.

**A Person-to-Person Call** is one on which you ask for a certain person, a department or extension telephone reached through a private switchboard. Charges begin when the calling person speaks to and receives a response from the called person.

PINE CITY

## OUR POLICY

"The policy of this organization, as a part of the Bell System, is to provide at all times the best possible telephone service at the lowest rates consistent with reasonable earnings and fair treatment of employees."

NORTHWESTERN BELL TELEPHONE COMPANY

## USE OF THE TELEPHONE

Obtain the correct telephone number from the directory before making a call. If it is not listed call "Information."

Speak slowly, clearly and directly into the telephone, with your lips close to the mouthpiece.

Answer your calls promptly. Failure to do so may result in the loss of a message. Giving your name or the

name of your firm when answering, identifies you and saves time.

When your conversation is completed hang up the receiver and, if at a magneto telephone, give one short turn of the crank. This gives the operator the disconnect signal.

Keep the receiver on the hook when the telephone is not in use or your line will be out of order.

## LONG DISTANCE SERVICE

**TO MAKE A LONG DISTANCE CALL,** ask for "Long Distance." Give the operator the name of the town you are calling, the telephone number if known, or the name and address of the residence or business firm being called, followed by your own telephone number. If you wish to talk to a specified person, also give the name of that person.

**A STATION-TO-STATION CALL** is one on which you will talk with anyone available at the called telephone. Charges for these calls are based on an initial period of three minutes, except to points for which the rate is 25 cents or less, where the initial period is five minutes. Station-to-Station calls cost less than Person-to-Person calls, described below, because less operator labor and less use of long distance facilities are required to complete them.

**A PERSON-TO-PERSON CALL** is one on which you specify a designated person, or an extension or department off a private branch exchange switchboard, to be reached at the called place. Charges are based on an initial period of three minutes. If the party cannot be reached directly by telephone, the operator, at your request, will arrange to send a messenger to summon the

called person to a telephone. This will involve a small additional charge to defray the expense of the messenger. Also, at your request, the operator, at no additional charge will make an appointment with the called party so that you can talk at a specified time.

**SPECIAL RATES** for both Station-to-Station and Person-to-Person calls are in effect every night from 7 P. M. to 4:30 A. M. and all day Sunday. These rates are lower than corresponding week-day rates on calls for distances of about 50 miles or more. The minimum reduced rate is 35 cents for Station-to-Station calls and 50 cents for Person-to-Person calls.

**REVERSAL OF CHARGES** is permitted on both Person-to-Person and Station-to-Station calls without extra cost except on Station-to-Station calls of 20 cents or less for the initial period, which take a higher rate when sent collect.

**TO OBTAIN SPECIFIC RATE INFORMATION** on any of the foregoing services, call "Long Distance." To obtain charges on a call at the close of a conversation, notify the Long Distance operator when you place the call.

**REGULATIONS AND TARIFFS.** The Telephone Company furnishes all of its various services and adjuncts thereto, subject to its published regulations and tariffs, a public file of which is located in the local Business Office. A representative of the Company will gladly lend assistance in securing information from such regulations and tariffs.

HOW TO

### How to Dial

After obtaining the number from th  
tory, remove the receiver and listen  
dial tone, a steady humming sound  
dial each figure of the number in  
read.

Take, for example, number 2341  
hearing the dial tone, place the finger  
dial opening where "2" is seen. T  
dial around until the finger strikes  
Release the dial and let it return to  
normal position without forcing or retard  
movement. The other figures "3,"  
"4" should be dialed in a similar man

If you make a mistake while dialin  
your finger slips from the dial before  
the finger stop, hang up the rece  
a few seconds. Then remove it an  
hearing the dial tone, dial each figur  
number again.

### Service Signals

After dialing you should receive on  
following service signals:

**Ringin Signal**—This is a "burring"  
that will be heard at regular intervals  
indicates that the bell of the called te  
is being rung.

**Bury Signal**—This is a "buzz-bur"  
that will be heard when the line of th  
telephone is in use.

If you do not hear a signal or rec  
answer after dialing a number severa  
dial "W" and ask for assistance.

### Hang Up the Receiver After You Have

By hanging up you make the line a  
for outgoing and incoming calls.

Do not move the receiver hook or l  
the receiver before you finish talk  
order not to break the connection.

## HOW TO USE THE TELEPHONE

### How to Dial

After obtaining the number from the directory, remove the receiver and listen for the dial tone, a steady humming sound. Then dial each figure of the number in order as read.

Take, for example, number 8841: After hearing the dial tone, place the finger in the dial opening where "8" is seen. Turn the dial around until the finger strikes the stop. Release the dial and let it return to its normal position without forcing or retarding its movement. The other figures "8," "4," and "1" should be dialed in a similar manner.

If you make a mistake while dialing, or if your finger slips from the dial before reaching the finger stop, hang up the receiver for a few seconds. Then remove it and after hearing the dial tone, dial each figure of the number again.

### Service Signals

After dialing you should receive one of the following service signals:

**Ringin Signal**—This is a "burring" sound that will be heard at regular intervals which indicates that the bell of the called telephone is being rung.

**Busy Signal**—This is a "buzz-buzz-buzz" that will be heard when the line of the called telephone is in use.

If you do not hear a signal or receive an answer after dialing a number several times, dial "0" and ask for assistance.

### Hang Up the Receiver After You Have Finished

By hanging up you make the line available for outgoing and incoming calls.

Do not move the receiver hook or hang up the receiver before you finish talking, in order not to break the connection. Also, do

not move the dial while talking as it will interrupt the conversation.

### Before Making Another Call

Keep the receiver on the hook for a few seconds, in order to disconnect the equipment used on the previous call.

### Use of Party Lines

If you do not hear the dial tone inquire whether the line is in use. You may hear some one speak or dial. Replace the receiver and unless some one is using the line you should hear the dial tone when you next listen.

When you hear ringing for another party on your line, do not lift your receiver as by doing so you stop the ringing and deprive the called party of receiving his call.

If when you answer your ring you find no one on the line, do not hang up immediately; instead, wait for an answer for about a half-minute. The call may be from another party on your line and in order to know that you answered, this party must wait until the ringing stops before taking up his receiver.

### To Call Another Party on Your Line

Dial the special number and hang up the receiver. Your bell and the called bell will ring. When your bell stops ringing the person called is on the line and you may start the conversation. If your bell does not stop ringing after a reasonable period it indicates there is no one to answer at the called telephone. To stop your bell from ringing remove your receiver for a few seconds and then replace it.

If you do not know the special number, dial "Operator" and she will assist you.

| TIME OF DAY—To Obtain Time of Day . . . . .                      | "0"  |
| BUSINESS OFFICE—For Business Transactions With Company . . . . . | "0"  |

Bills are payable at the Hinckley Drug Co. or can be mailed to Northwestern Bell Telephone Company, Pine City, Minnesota.

## HOW TO USE THE TELEPHONE

### How to Dial

After obtaining the number from the directory, remove the receiver and listen for the dial tone, a steady humming sound. Then dial each figure of the number in order as read.

Take, for example, number 8841: After hearing the dial tone, place the finger in the dial opening where "8" is seen. Turn the dial around until the finger strikes the stop. Release the dial and let it return to its normal position without forcing or retarding its movement. The other figures "8," "4," and "1" should be dialed in a similar manner.

If you make a mistake while dialing, or if your finger slips from the dial before reaching the finger stop, hang up the receiver for a few seconds. Then remove it and after hearing the dial tone dial each figure of the number again.

### Service Signals

After dialing you should receive one of the following service signals:

**Ringling Signal**—This is a "burring" sound that will be heard at regular intervals which indicates that the bell of the called telephone is being rung. Allow the called party sufficient time to answer the call before hanging up.

**Busy Signal**—This is a "buzz-buzz-buzz" that will be heard when the line of the called telephone is in use.

If you do not hear a signal or receive an answer after dialing a number several times, dial "0" and ask for assistance.

### Hang up the Receiver After You Have Finished

By hanging up you make the line available for outgoing and incoming calls.

Do not move the receiver hook or hang up

the receiver before you finish talking, in order not to break the connection. Also, do not move the dial while talking as it will interrupt the conversation.

### Before Making Another Call

Keep the receiver on the hook for a few seconds, in order to disconnect the equipment used on the previous call.

### Use of Party Lines

If you do not hear the dial tone inquire whether the line is in use. You may hear some one speak or dial. Replace the receiver and unless some one is using the line you should hear the dial tone when you next listen.

When you hear ringing for another party on your line, do not lift your receiver as by doing so you stop the ringing and deprive the called party of receiving his call.

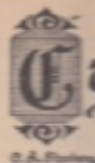

If when you answer your ring you find no one on the line, do not hang up immediately; instead, wait for an answer for about a half-minute. The call may be from another party on your line and in order to know that you answered, this party must wait until the ringing stops before taking up his receiver.

### To Call Another Party on Your Line

Dial the special number and hang up the receiver. Your bell and the called bell will ring. When your bell stops ringing the person called is on the line and you may start the conversation. If your bell does not stop ringing after a reasonable period it indicates there is no one to answer at the called telephone. To stop your bell from ringing remove your receiver for a few seconds and then replace it.

If you do not know the special number, dial "Operator" and she will assist you.
